Academic Information and Policies	22–29	General Index	282–284
Pre-College Coursework	30	Campus Maps	285–288 and inside back cover

WELCOME TO COCC

For more than 60 years, Central Oregon Community College has served the citizens of its District and students from within the District, elsewhere in Oregon and throughout the United States by offering a wide range of learning opportunities.

One of the principal attributes of COCC is its emphasis on quality instruction. This is complemented by small classes and the opportunity for all students to enjoy close, caring relationships with the College's faculty and staff.

HISTORY

Central Oregon Community College was founded in 1949 as part of the Bend School District. It is the longest standing community college in Oregon. The College District was formed in 1959 and officially established as the Central Oregon Area Education District by a vote of residents in 1962. The original Bend campus was built in 1963.

Don P. Pence served first as director of the College (from 1950 to 1957) and then as the first president (from 1957 to 1967). Dr. Frederick H. Boyle was president from 1967 through 1990. Dr. Robert L. Barber was the third president in the College's history and served through 2004. Dr. James E. Middleton is now president and in his tenth year in that role.

OUR DISTRICT

The Central Oregon Community College District encompasses all of Crook, Deschutes and Jefferson counties, as well as the southern part of Wasco and northern portions of Klamath and Lake counties. A seven-member board of directors governs the College, with members of that board elected from geographic zones in the District. The District covers a 10,000-square-mile area, making it larger than eight of the U.S. states.

OUR CAMPUSES

The College's main campus is located on the western edge of Bend, a city known for its natural beauty and its proximity to diverse recreational opportunities. The 200-acre Bend campus offers quiet, peaceful surroundings for study and reflection. With its location on the western slope of Awbrey Butte, students have a spectacular view of the Oregon Cascade mountain range from nearly every point on the grounds. The campus contains 26 buildings with a total of 575,000 square feet under roof. The newest buildings are the Health Careers Center and Science Center, funded by a voter-approved bond measure, both opening in fall 2012.

On the 25-acre Redmond Campus, there are three buildings, housing College administration, classrooms and a computer lab. The Redmond Campus is home to COCC's Manufacturing and Applied Technology Center (MATC) where students can learn technical skills in a self-paced environment. A College bookstore and a food/coffee kiosk are also located on campus.

In fall of 2011, COCC opened new campuses in Madras and Prineville. The Madras campus was funded by the 2009 bond measure and placed on land donated to COCC by the local Bean Foundation, and the COCC Crook County Open Campus was funded jointly by the bond measure and a grant to Crook County from the U.S. Department of Commerce Broadband Technology Opportunity Program, and is on land donated by the County.

All campuses offer credit and non-credit courses and the necessary student services to help assure student success.

BOARD VISION AND GOALS

Mission statement

Central Oregon Community College promotes student success and community enrichment by providing quality, accessible, lifelong educational opportunities.

Vision statement

To achieve student success and community enrichment, COCC fosters student completion of academic goals, prepares students for employment, assists regional employers and promotes equitable achievement for the diverse students and communities we serve.

CORE THEMES

The Board has adopted four core themes that manifest the essential elements of COCC's mission. The core themes are:

Transfer and Articulation

Courses and programs paralleling the freshman and sophomore courses of colleges and universities for those who seek to transfer and then earn a baccalaureate degree.

Workforce Development

Career and Technical Education (CTE)

One- and two-year professional training programs for those who seek certificates or degrees that lead to employment in business, industry, the trades or government service as technicians or skilled workers.

Business, Professional and Employee Development

Non-credit business classes, resources, workshops and information to help individuals and businesses succeed.

Basic Skills

Several academic departments and the College's Adult Basic Skills program offer courses that prepare students for college-level classes that will count toward degree completion and are transferable to other institutions. These classes are frequently available online or in classrooms on the Bend and Redmond campuses or other sites throughout Central Oregon.

Lifelong Learning

Non-credit learning opportunities at times and places convenient to adult students, using traditional and nontraditional instructional techniques. Course topics range from computers to cooking and language instruction to gardening and other outdoor activities.

BARBER LIBRARY

COCC's three-story, 72,000-square-foot Barber Library opened in March 1998 and serves the students, faculty and staff of COCC and OSU-Cascades.

The Barber Library collection features more than 200 electronic encyclopedias and databases, over 80,000 books (both print and electronic), thousands of e-journals, a browsing print journal collection, DVDs and more than 4,000 streaming videos. The Library is a selective depository for U.S. federal documents and databases. Students can access most of the Library's electronic resources from off campus.

COCC is a member in the Orbis Cascade Alliance, a consortium of college and university libraries in the Northwest that provides services such as the Summit Union Catalog, Summit Borrowing, and database licensing opportunities. Summit Catalog is accessible from the main Library Web page at www.cocc.edu/Library/. Current, credit-enrolled students, faculty and staff of COCC and OSU-Cascades may search and self-initiate requests for most of the 30 million Summit items. Once patrons identify material they want to borrow, the on-screen instructions guide them through the process. Materials are then delivered for pickup at the Library circulation desk within a few working days.

The Barber Library provides wireless network access to registered users including COCC and OSU-Cascades patrons as well as community patrons and campus visitors. For more information, please refer to the Wireless Network Web page at www.cocc.edu/ITS/ITS-Services/Wireless/.

Each year the Barber Library hosts art exhibitions in the Rotunda Gallery, as well as a few select literary events.

ACCREDITATION

Central Oregon Community College is accredited by the Northwest Commission on Colleges and Universities. Accreditation was most recently reaffirmed in 2012.

Regional accreditation is a voluntary, non-governmental, self-regulatory process of quality assurance and institutional improvement. It recognizes COCC for performance, integrity and quality to merit the confidence of the educational community and the public.

A copy of COCC's official accreditation documentation is on reserve and available for review in the Barber Library during regular library hours. Questions regarding accreditation should be addressed to the vice president for instruction.

OUR FACULTY

COCC has 110 full-time faculty members, 50 adjunct faculty (semi-permanent faculty on annual contracts) and approximately 200 part-time instructors per term. The College's faculty is a committed, professional group of educators, which provides stimulating and meaningful learning experiences for the College's students. Faculty members serve as advisors to individual students, assisting them in planning academic programs and schedules. All COCC faculty are required to have at least a master's degree or equivalent training. Within the institution, there is strong motivation for continuing professional improvement by all faculty and administrators. About 40 percent of the faculty have doctorates in their disciplines, which is a very high percentage for a community college.

OUR STUDENTS

More than 10,000 students enrolled in credit classes at COCC last year. Each quarter, approximately 3,000 full-time and 4,000 part-time students are enrolled. While 40 percent of the students are under the age of 24, another quarter are 35 and older. About 40 percent of the students enroll in career and technical education programs and take career-oriented courses of study. The remainder enroll in courses that form the freshman and sophomore years of a four-year college program. Students in such a program usually intend to transfer to another college or university for their junior and senior years.

THE COCC FOUNDATION

The COCC Foundation's purpose, as stated in the articles of incorporation, is to exist exclusively for the benefit of Central Oregon Community College, its faculty and students in the furtherance of the educational and charitable activities of the College. It does so through providing financial assistance to students, fiscal support for college programs, and running campaigns in support of needed college capital improvements.

The COCC Foundation is the oldest community college foundation in Oregon. Its assets have grown significantly over the years, from the first gift of \$500 in 1955 to nearly \$15 million in assets today. In addition to scholarship support, these assets, primarily endowment funds, provide support in a variety of ways, from supporting faculty positions to providing support for the Nancy R. Chandler Visiting Scholar Program. For 2011-2012, the Foundation awarded more than 320 scholarships totaling more than \$1 million. For more information, call 541-383-7225.

COMMUNITY LEARNING

Community Learning offers a wide variety of innovative, high-quality, community-driven, affordable classes and events to adults throughout the District. Classes include opportunities to stay current with job skills, engage in a new hobby or expand outdoor activities. Information: www.cocc.edu/ContinuingEd.

COCC Community Learning also provides high-quality and interactive online class opportunities. Every course offered has been carefully engineered to provide quick and easy access to all course materials.

Community Learning noncredit classes are easy to access. There are no applications, no transcripts and no special qualifications. Students sign up and pay the class fee to enroll.

Registration

Registration times and locations are provided on the Community Learning website, www.cocc.edu/ContinuingEd, and in the Community Learning class schedule, which is published each term. Registrations are processed as received. Students may register by phone, mail, fax, online or in person.

Fees

Full payment of fees is required at the time of registration. Students may pay with Visa, MasterCard, Discover, check or cash.

Age requirements

Anyone age 16 or older may attend Community Learning classes or workshops.

Contact information

Community Learning can be reached at 541-383-7270, by email at ceinfo@cocc.edu or online at www.cocc.edu/ContinuingEd.

SMALL BUSINESS DEVELOPMENT CENTER

Local business owners and aspiring entrepreneurs find support, solutions and resources through one-on-one professional advising and practical education at the Small Business Development Center (SBDC) at COCC. Services include:

- free confidential business advising
- access to statewide business expertise
- practical short-term workshops and other education and training opportunities

The flagship annual, yearlong Small Business Management program combines on-site business advising with monthly workshops to help small businesses reach their goals.

Information: phone, 541-383-7290; online, www.cocc.edu/SBDC; email, sbdc@cocc.edu.

CUSTOMIZED TRAINING OPTIONS

COCC can customize training so employees gain the specific knowledge they need to do their jobs, contributing to a more productive and profitable business. COCC offers training in: computer software, leadership, management, business skills, as well as workplace wellness programs to meet your needs.

For training customized to suit individual business needs: phone, 541-383-7270, or email, ceinfo@cocc.edu.

PROFESSIONAL AND CAREER DEVELOPMENT

A variety of high-quality professional education courses are available for those who want to stay competitive in their careers, study for industry certifications, meet continuing education requirements, or pursue entry-level career training. Professional development opportunities include: accounting/bookkeeping, computers, graphic and Web design, project management, health care and wellness, landscaping, leadership/management and online classes.

Information for businesses and organizations: 541-383-7270 or www.cocc.edu/ContinuingEd

ADULT BASIC SKILLS (ABS)

The Adult Basic Skills program provides instruction in basic reading, writing, math, and study skills as well as basic computer skills to prepare students for the General Education Development (GED) test, for college credit classes, and for work. There are three options within the ABS program: the online Adult High School Diploma (AHSD) program, the English Language Learning (ELL) program, the Adult Basic Education/Adult Secondary Education (ABE/ASE) program for college and GED preparation.

In the Adult High School Diploma program, adults may earn high school diplomas by combining previously earned high school credits, online AHSD courses and college credit classes. The English Language Learning program is designed for adults who need to learn the English language. The ELL classes focus on listening, speaking, reading and writing skill development. The ABE/ASE program offers courses that focus on skill development in reading, writing, and math for a variety of purposes including college and GED preparation.

Assessments are available to help students determine current skill levels and learning styles. Students may attend day or evening sessions, depending on the location. Students usually sign up for classes during orientation before classes begin or in class during the first week of each term. Please call the ABS office, 541-504-2950, or see the website at www.cocc.edu/Adult-Basic-Skills for exact times and locations.

ABS classes and services are offered throughout the district: Bend, Madras, Prineville, Redmond and Warm Springs.

OREGON STATE UNIVERSITY - CASCADES

OSU-Cascades is a branch campus of Oregon State University, Oregon’s leading public research university. It is the only baccalaureate and graduate degree granting institution based in Central Oregon.

Here, students find the excellence, resources and lifelong advantages of a research university, and a personalized, small-campus learning experience. A shared campus for undergraduate programs allows first-year students to begin studies at Central Oregon Community College and continue upper-division coursework and degree completion at OSU-Cascades. Students also transfer to OSU-Cascades from community colleges throughout Oregon. OSU-Cascades is an ideal next step for returning students.

It is also a welcome haven for local high school students, who can be admitted as freshmen and, under the guidance of an OSU-Cascades advisor, take lower-division courses at COCC then transition to OSU-Cascades to complete their degree. As part of its expansion to a four-year campus, OSU-Cascades plans to offer freshman and sophomore courses beginning in fall 2015.

Student opportunities include research and internship programs with Central Oregon’s business, government and nonprofit communities, as well as international programs in more than 80 countries. For information call 541-322-3100 or visit www.OSUcascades.edu.

ENROLLMENT SERVICES – ADMISSIONS AND RECORDS/REGISTRATION

Central Oregon Community College is an open-door, equal-access institution. Enrollment Services is located in the Boyle Education Center. Services include admission, registration, student payment, financial aid, veterans' benefits, transcript evaluation, degree/certificate evaluation, student records, grade and transcript requests. Most services are also available at COCC's Redmond, Madras and Prineville Campuses.

COCC students can register for classes online and in person at specific dates during each term. Registration dates and times are available online and will be emailed to current students approximately three weeks prior to the beginning date. For a step-by-step guide to registration, see www.cocc.edu/Getting-Started/.

ADMISSION CRITERIA

New students

To qualify for admission, students must be 18 years of age or older, or possess a high school diploma or GED. Applications are available on the College website, www.cocc.edu, in the Boyle Education Center and at the Redmond Campus. Note: All new students (those who have never taken credit courses at COCC) are required to submit a \$25 non-refundable application fee at the time of application. Applications will not be processed without this fee.

Students returning after an absence

Students who have attended COCC but have been absent for four quarters or more must submit a new application as early as possible in order to receive timely registration information. No application fee is required.

Transfer students

Students transferring from another college or university must submit an application for admission and a \$25 application fee. In addition, all official transcripts from previous institutions must be submitted prior to advising and/or registration.

Students not seeking a certificate or degree

Many students take college credit courses at COCC, yet are not planning to earn a certificate or degree. Such students apply through the regular application process and are required to take the placement test prior to registration. Some students may be exempt from the placement test; see the College website for exemption criteria. Non-certificate/non-degree-seeking students are not required to participate in advising but are welcome to do so.

APPLICATION DATES

COCC accepts applications on a continuing basis and prospective students are encouraged to apply early in order to receive early, new-student registration information. For new-student advising and registration dates, check the College website, www.cocc.edu. The application deadline for each COCC term is the Wednesday before the start of courses. **COCC reserves the right to close admission prior to the application deadline. Students are strongly encouraged to apply early.**

PLACEMENT TESTING

Prior to registering for courses, all COCC credit students must take COCC's placement test to determine their skills in writing, reading and math. Scores from the test will serve as tools for students and advisors to use when choosing courses and planning academic schedules. The placement test is offered year-round and takes about two hours.

Students are exempt from the test if they:

- have an associate, bachelor's or higher-level college degree and have submitted a copy of their transcript prior to advising and registration;
- have completed reading, writing and math courses with a "C" or better at another regionally accredited college and have submitted a copy of their transcript prior to advising and registration;
- have taken the placement test within the last two years and have submitted a copy of their testing scores prior to advising and registration; or
- are taking only HD 110 Career Planning, HD 190 Latino Leadership, studio art, foreign language, computer skills, music performance or HHP activity courses.

Note: Placement test scores are recommendations only, with some exceptions including WR 121, MTH 105 and MTH 244. For other courses or programs that may have prerequisites, see the online class schedule or the course descriptions, pages 175-267 in this catalog.

See the COCC website, www.cocc.edu for placement testing dates and reservations.

ADVISING

Once placement testing is complete, all certificate- and degree-seeking students meet with an academic advisor. For new students, dates and times of group advising options are available on the COCC website. Current students should contact their advisor directly to schedule an advising appointment. Students can confirm the name of their advisor by contacting the CAP Center (located in the lower level of the Barber Library) or by logging on to their Bobcat Web account. All students who participate in group advising sessions will be emailed the name

of an individual academic advisor, based on the major stated on their admission application, shortly after the start of each term. Students can change their advisor by contacting the CAP Center, 541-383-7200.

Note: Current students may choose to be self-advised, which means that the advising requirement is waived and students are responsible for choosing their courses and making sure that those courses fit their degree goal. To apply for and review the requirements for receiving self-advising status, visit the COCC advising website, www.cocc.edu/CAP.

REGISTRATION

After submitting an application for admission, taking the placement test and meeting with an advisor (if degree-seeking), students may register for courses based on the dates and times listed on the COCC website. The registration schedule for credit students is based on enrollment status and number of credits earned at COCC. Degree-seeking students who have attended credit classes at COCC in any of the past four terms are eligible for priority registration. Transfer credits may meet some program requirements but are not counted toward “earned credits.” Students may view the priority registration schedule at www.cocc.edu/Registration-Home.aspx. Students wishing to pursue a cohort program without a selection process must meet the basic prerequisite competencies and will be placed in the program according to seat availability on a first-come, first-served basis according to the priority registration schedule.

Student registrations are complete only when courses are web or data-entered into COCC’s computer system. A student may not register if a debt is owed to the College. Students must be registered in order to attend class. Students may not take more than 19 credit hours per term without permission from Admissions and Records.

HIGH SCHOOL STUDENTS

Students who are still attending high school, but wish to take credit courses at COCC, have these options:

Special admission/Concurrent enrollment

High school students 15 years and older are eligible to register in up to 19 credits at COCC. High school students who register at COCC are fully responsible for complying with all the policies and procedures of the College as outlined in the Special Admission Information for High School Students form. This form is sent to each high school student upon admission to COCC and is also available on the COCC website. It is important to note that parents cannot access student records (grades, class schedule, attendance, etc.) without written permission from the student. Although members of the College staff can provide academic advising, they cannot interpret high school requirements or act in a supervisory role. The student is responsible for all tuition, fees, books and related expenses.

College Now

COCC works with area high schools to offer students the opportunity to earn college credit for certain career and technical education and general education transfer courses they complete at their schools. Courses offered vary by high school and are designed for high school juniors and seniors. The fee is \$15 per college credit. General education transfer courses can be used to meet COCC certificate or degree requirements as well as for transfer to most Oregon community colleges and universities. Students should check with all colleges about their policies for transferring college credits earned in high school. For complete details and a listing of courses offered by high school, contact the high school counselor, call COCC’s College Now office at 541-504-2930, or visit the College Now web page at www.cocc.edu/College-Now.

Expanded Options

High school students have the opportunity to take credit courses at COCC with no charge to them for tuition, fees, supplies and books (transportation to and from COCC not included). Students interested in the Expanded Options program must submit an “Intent to Enroll” form to their high school counselor and meet the high school’s participation requirements. Check with the high school counselor or ASPIRE coordinator for more information on eligibility requirements.

STUDENTS UNDER AGE 15

Students under the age of 15 must meet with the director of admissions/registrar or designee to assess readiness for college-level work prior to applying for admission. Students must meet minimum placement test scores, provide a statement of support from their school counselor and obtain permission from each instructor every term. If admission is approved, the student must submit a special admission form at the time of registration. See www.cocc.edu/High-School-Options for complete details.

Students under age 15 who register at COCC are fully responsible for complying with all policies and procedures of the College. As such, parents cannot access student records (grades, class schedule, attendance, etc.) without written permission from the student. Although College staff members can provide academic advising, they cannot interpret high school requirements or act in a supervisory role.

TUITION AND FEES

Tuition and fees are due by the second Friday of the term. Payment may be made online with checking or savings account information, Visa or MasterCard; or in person with cash, check, VISA, Discover or MasterCard. Students who cannot meet this deadline should apply for a tuition payment plan through Enrollment Services by the tuition deadline. A tuition payment plan does not relieve the student of an obligation to meet registration and/or withdrawal (drop) deadlines for refund purposes.

Payment of the stipulated tuition and fees entitles all registered credit students, full-time or part-time, to all services maintained

by the College. These services include use of the Library, Tutoring Center, laboratories and equipment in connection with courses for which the students are registered, access to the student newspaper and admission to special events sponsored by the College. No reduction in tuition and fees is made for students who do not intend to use these services.

The College reserves the right to make changes in tuition and fees without notice; however, any changes made during a term will not become effective until the next term. Courses with unusually high costs associated in its offering may include fees higher than the normal rate.

TUITION PAYMENT PLAN

A tuition payment plan is available in Enrollment Services, Boyle Education Center, for students registered in six or more credits. To initiate a payment plan, students must complete a contract and pay \$20 plus one-third of tuition and fees by the tuition due date. The balance will be due by August 14 for summer term, by Nov. 20 for fall term, by Feb. 26 for winter term and by May 21 for spring term. A \$50 late fee is charged for payments made after the deadline.

TUITION FOR CREDIT COURSES

FOR 2013-2014

In-district	\$87 per credit hour
Non-resident Veteran	\$100 per credit hour
Out-of-district/border state	\$113 per credit hour
Out-of-state	\$230 per credit hour
Audit	same as for credit

(CA, ID, NV and WA residents are charged out-of-district tuition)

Check the COCC credit class schedule for courses that require additional tuition and fees. There are program fees in the following areas: art, aviation, career planning, culinary, dental assisting, emergency medical services, health and human performance, massage therapy, nursing and all online courses.

Full time: For the purposes of financial aid, veterans', Social Security and other benefit programs, 12 credits is considered full-time.

Fees for students enrolled in credit courses

Student Activities fee (max. \$18 per term)	\$1.50 per credit
Technology fee (max. \$82.50 per term)	\$5.50 per credit
Green Energy fee (max \$3 per term)	25¢ per credit
Online course fee (applies to online courses only)	\$10 per credit
Optional Mazama Gym user fee (per term)	\$16
Late registration (after the second week of class)	\$30 per transaction
Late-late registration (after exam rosters are run)	\$50 per transaction
Late tuition and fee payment—each week after deadline	\$30
up to three weeks maximum	\$90

Fees for other courses

English Language Learning (ELL) classes	\$20
High school completion	\$100 per half credit

NSF CHECKS

If a payment is made with a check that is returned to the College due to insufficient funds, the student's account will be charged a \$20 returned check fee. Additionally, the student (or payee) will be required to pay tuition and fees with cash for one year.

COLLECTIONS POLICY

If a student fails to pay his/her tuition and fees by the end of the term, the balance due amount will be turned over to the Oregon Department of Revenue (ODR) for collections. At that time, a collections fee will be applied to the student's account and the student may make payment(s) directly to the ODR or to the College. Once payment is received in full, the student will be allowed to register for courses and order official transcripts.

ATTENDANCE/ADMINISTRATIVE WITHDRAWAL

In order to assure that all available class seats are filled with students — both registered students and students from the waiting lists — COCC enforces an attendance policy during the first week of the term.

To maintain enrollment in each class, the student must attend the first class meeting and 100 percent of the first week's class and lab meetings. (For classes that do not span the entire term the student must attend the first class session.) Students who do not do so, will be administratively withdrawn from that class by the instructor at the time class role is taken. If this results in a tuition refund, the refund will be processed within three weeks. If students are unable to attend a session within the first week due to extenuating circumstances, they must contact the instructor by phone, fax, email or in person prior to the first class meeting if they wish to avoid administrative withdrawal.

The College is not responsible for liabilities associated with the administrative withdrawal of students.

The Administrative Withdrawal policy does not relieve students from full responsibility for officially dropping a course within the given deadline to not incur tuition charges and to not receive a grade for the course.

ADDING AND AUDITING COURSES/ WAIT LISTS

Courses may be added until 7 a.m. on the first day of the term for all classes. After this time, an instructor's permission is required to add a course. Students may add courses via their student online services account (with electronic instructor approval) or in person at the Boyle Education Center, or at the Redmond, Madras and Prineville Campuses. A late registration fee of \$30 will be assessed for any course added after the second week of the term; \$50 will be assessed for an approved petition to add a course after the final exam rosters have been run.

Students may not begin attendance in a new class after the first week of the term.

Note that students may not register for two sections of the same course. If students wish to register for courses that overlap in time, they must receive permission from both course instructors.

Auditing courses

Full-term courses may be changed to/from audit through the seventh week of the term. Such changes must be done in person or online. Audited courses do not apply toward financial aid.

Note: Different deadlines exist for short-term courses; contact Admissions and Records, 541-383-7500, for details.

Wait lists

Students who are on a wait list for a course will automatically be registered into the course if a seat becomes available. Students will receive a message in their COCC email account notifying them they have been registered for the course and are now responsible for applicable tuition/fees. Students who are not automatically registered in the course and remain on the wait list can take a registration form to the first class session. If a seat is available, the instructor must sign the registration form. The student submits the form in person to Enrollment Services within two days to enroll in the class. Alternatively, the instructor can submit electronic instructor approval so the student can add the class via the student's online services account, or call Enrollment Services to process the registration.

DROPPING COURSES/COMPLETE WITHDRAWAL

Students registered in courses are considered in attendance. Students who stop attending class but do not submit a drop form will receive a grade for that course and will owe all tuition and fees. This grade will be a permanent part of the student's academic record.

To drop one or more courses, complete the drop section on a registration form and submit it in person at the Boyle Education Center or at the Redmond, Madras or Prineville Campuses. Drop forms may not be mailed or faxed, but students may call Admissions and Records, 541-383-7500, to drop a course over the phone.

Short-term courses

- For a refund or credit for courses with only one, two or three class meetings, students must submit a drop form at least seven days before the first class meeting.
- For a refund or credit for courses with four or more class meetings, but which do not span the full term, students must drop the course prior to the start of the second class.

Full-term courses

Students may drop a course during the first two weeks of the term and receive a full refund, and no grade will appear on the student transcript. Between the third week and the end of the seventh week of the term, students can drop a course; no refund

is available, but no grade will appear on the transcript. From the eighth week of the term through the Wednesday before finals week, a student may submit a drop form, with an instructor's signature; no refund is available and a "W" will appear on the student transcript. No withdrawals will be accepted after this time or after a course has ended. See the academic calendar on COCC's website for specific dates. Note that different deadlines exist for short-term courses; contact Admissions and Records, 541-383-7500, for details.

Complete withdrawal

Students receiving federal financial aid may owe a repayment if they completely withdraw from courses. See Enrollment Services—Financial Aid (pages 12-15) for details.

Withdrawing Due to Active Military Duty

Active duty, guard, and reserve military personnel (Army, Navy, Air Force, Marines and Coast Guard) who are enrolled at Central Oregon Community College and whose academic progress is interrupted due to deployment or activation mid-term may withdraw without tuition penalty. A student currently in a course will not be charged for the course, and the registration will be voided with no indication on the transcript. Students must submit a copy of their military duty assignment orders verifying deployment or activation along with their request to withdraw from the course to Admissions & Records. Copies of the orders must also be submitted to the COCC VA Certifying Officer if any military benefits are being used. This policy does not apply to retired military personnel or dependents.

In cases of exceptional circumstance, students can request an exception to a published academic policy by submitting the student petition form. Students must submit the form and include documentary evidence to support the request if applicable. The student petition form, including instructions on how to complete it, is available in Enrollment Services on all COCC campuses. Please call 541-383-7500 for more information or have questions about petitions.

TUITION REFUNDS FOR CREDIT COURSES

To qualify for a refund, the student is responsible for submitting a drop form to Enrollment Services by 5 p.m. on the deadline day; see the inside front cover of this publication for drop deadlines. (Note that drop deadline dates are also posted on the student's "Detailed Class Schedule," which is available by logging into the student's online services account.) Any debt owed to the College will be processed against the refund first, with the net balance remitted to the student within a reasonable processing period.

Please review carefully the attendance policy on page 8 of this catalog.

Short-term course refunds

To receive a tuition refund for courses with only one, two or three class meetings, students must submit a drop form at least seven days before the course begins.

For courses that have four or more class meetings, but do not span the full term, tuition is refundable up to the beginning of the second class meeting. Some specially priced courses do not follow this policy.

Full-term course refunds

Tuition is refundable up to 5 p.m. on Friday of the second week of the term. No portion of the tuition is refundable after this date. Students who fail to drop a course by this deadline will be responsible for tuition payment, and late payment fees will be charged to their account.

Students with federal financial aid may owe a repayment if they completely withdraw from courses. See Enrollment Services—Financial Aid, pages 12-15, for details.

COCC TRANSCRIPTS

Transcripts must be requested by students via their secure online student account, in person in the Enrollment Services office, or in writing. Transcript requests to be held until after grades or degrees are posted must be requested in person or in writing (option not available via the Web). The transcript processing fee must be paid before transcripts are mailed. No transcript requests will be processed during the first week of each term.

Processing fees

Online request (processed next business day)	\$5 per transcript
In-person, faxed or mailed request (processed 7-10 working days)	
first transcript	\$5
each additional transcript ordered at same time	\$1
Rush or faxed transcript	\$5 additional

COCC reserves the right to withhold transcripts from students who are in debt to the institution. For OSU-Cascades students, official transcripts will be available between COCC and OSU-Cascades at no charge to the student.

RESIDENCY POLICY

Determination of residency for purposes of tuition will be made according to the following definitions. Students applying to COCC's nursing program must satisfy in-district residency requirements, as outlined in the nursing program application packet, prior to the application deadline.

In-district residency

An individual who owns own property (or if under the age of 24, whose parent/guardian owns property) or who has maintained a permanent and continuous residence in the district for one full year prior to the beginning of credit courses will be classified as an in-district resident. The COCC District consists of all of Deschutes, Crook and Jefferson counties, the northern portions of Klamath and Lake counties, and the Warm Springs Indian Reservation in Jefferson and Wasco counties.

Out-of-district (in-state) residency

An individual who has maintained a permanent and continuous residence in the state of Oregon but outside of the COCC district

during the year prior to the beginning of credit courses, or if under the age of 24, whose parent/guardian has maintained such residence, will be classified as an out-of-district resident. The student will remain an out-of-district student for two calendar years after the term in which the student began courses; at that time, the student will convert to in-district residency.

Out-of-state residency (WA, ID, NV, CA residents see exemption below)

An individual who has not maintained a permanent and continuous residence in the state of Oregon during the year prior to the beginning of the first term of enrollment will be classified as an out-of-state resident. The student will remain an out-of-state student for two calendar years after the term in which the student began courses; at that time the student will convert to in-district residency.

Exemption

Per Oregon Administrative Rules, residents of California, Idaho, Nevada and Washington will be charged in-state (out-of-district) tuition.

Verification

Residency of each applicant for college credit courses is determined from information provided at the time of application. When there appears to be an inconsistency, the College staff may require documentation to verify residency.

Transferring to another Oregon institution

In-state residency classifications are different at Oregon community colleges than at Oregon University System schools and can affect tuition rates. Students are encouraged to check residency classifications before beginning their education in Oregon to avoid surprises later.

Oregon University System schools often classify people who move to Oregon to go to school as non-residents even if they have resided in the state for a year, attended a community college as an in-state resident, have registered to vote and own property in this state.

Students who moved to Oregon to attend school, with plans to start at a community college and then transfer to a university, should visit this Web page to plan a transfer: www.ous.edu/stucoun/prospstu/files/residencepolicies.pdf.

Military personnel

Out-of-district or out-of-state chapter 30, 33, 35, 1606 and 1607 veteran students will be classified as "non-resident veteran" students for residency/tuition classification purposes.

The non-resident veteran tuition rate will be calculated to be the in-district tuition rate plus 50 percent of the difference between COCC's in-district rate and out-of-district/border state rate and complies with Oregon legislation. In order to receive this benefit, veteran students must have submitted all required paperwork to the COCC veteran student coordinator by the Friday prior to the term's start. Requests received after this date will be considered for the following term. Per the College's standard residency

policy, a non-resident veteran student will be classified as an in-district resident after two years of enrollment.

Residency status will be determined using the same criteria as the Oregon University System residency policy for armed forces personnel. For details, visit the OUS website at <http://www.ous.edu>.

Tuition waiver for students 65 years of age and older

Students 65 years of age and older are eligible for a tuition waiver for COCC credit classes based on the following conditions:

- The student must have a current term application on file in order to register. The application deadline is the Wednesday before the term begins. (Under certain circumstances, COCC may close admission prior to this deadline. Students are encouraged to apply early.)
- The student must be 65 years or older at the beginning of the term in which the course is offered.
- Space is available in the course(s). Student may add courses under this policy only during the first two weeks of the term; instructor permission is required.
- The tuition waiver is valid for eight or fewer credits per term.
- The student is auditing the course(s).
- The student is responsible for all fees (application fee, student fees, course fees, etc.).
- Tuition waiver forms will not be accepted after the tuition due date of the term.

Students requesting a tuition waiver must register in person and complete a tuition waiver form (available in the Admissions and Records office). At the time the tuition waiver form is submitted, students must show photo identification that includes date of birth. All fees must be paid in full by the tuition deadline in order to avoid late payment fees. Tuition waiver forms will not be accepted after the tuition deadline.

Native American students

Students who are enrolled members of federally recognized tribes of Oregon or of a Native American tribe that had traditional and customary tribal boundaries that included part of Oregon or which had ceded or reserved lands within the state of Oregon shall be charged in-state, out-of-district tuition regardless of their state of residence. (Note that residents of the Confederated Tribes of Warm Springs are automatically charged in-district tuition.) For a listing of eligible tribes, visit COCC's website at www.cocc.edu/Admissions/Tuition-Fees-Payment. Note that students must provide a copy of tribal enrollment documents prior to starting courses.

Residency appeals

Students may appeal their residency status by completing a residency petition, available through the Admissions and Records office. Residency petitions and supporting documentation must be submitted within 30 days of receipt of letter of admission or the Friday prior to the start of the term, whichever is sooner. Petitions received after the deadline will be considered for the following term. Any change in residency status will not be retroactive.

Petitions

In cases of exceptional circumstance, students can request an exception to a published academic policy by submitting the student petition form. Such policies may include but are not limited to late drop or withdrawal, late add, refund/waiver of tuition/fees after the published deadline, refund/waiver of late payment or late registration fees, changing to or from an audit, and course substitution and/or transfer policies. Students must submit the form and include documentary evidence to support the request if applicable. Each case is decided upon its own merits and the decision of the committee is final and not subject to appeal, unless there is information pertinent to the outcome which was not submitted at the time of the initial request. The student petition form, including instructions on how to complete it, is available in Enrollment Services on all COCC campuses. Please call 541-383-7500 for more information or have questions about petitions.

STUDENT RIGHT-TO-KNOW ACT

In order for students to make more informed decisions about attending college, Central Oregon Community College makes the following information available in accordance with the federal Student Right-to-Know Act and related regulations:

- Institutional information: name of accrediting associations, services for disabled students, cost of attendance and additional program costs, refund policy, withdrawal policy and associated financial aid implications, degree programs, GED options, transfer credit policy, retention rates, vaccinations, copyright infringement, improving academic programs, placement statistics, campus academic facilities, faculty and staff contact information, academic warning standards, study abroad financial aid opportunities, deferment options for Peace Corps and related service organizations; non-discrimination policy.
- Financial aid information: types of aid, how to apply for aid, how aid is disbursed, rights and responsibilities of students receiving aid, work-study terms and conditions, loan repayment terms and schedule, academic progress criteria, Federal Family Education Loan Program (FFELP) disclosure;
- Campus crime report/safety, alcohol/drug policy, fire and safety standards, emergency procedures;
- COCC graduation and transfer rates;
- Students' rights under the Family Education Rights and Privacy Act (FERPA).

Student Right-To-Know information is available on the College's website.

ENROLLMENT SERVICES – FINANCIAL AID

Central Oregon Community College makes every effort to ensure that students with financial need have access to its programs and courses of study. Students with general questions may find their answers on the Financial Aid webpage at www.cocc.edu/Financial-Aid. For more specific questions, contact the Financial Aid office located in the Boyle Education Center. Students are encouraged to submit their Free Application for Federal Student Aid (FAFSA) as soon after January 1 as possible to be considered for maximum eligibility. The federal school code for COCC is 003188.

WHO MAY BE CONSIDERED FOR FINANCIAL AID?

In order to comply with general federal eligibility provisions at COCC, students must

- be U.S. citizens or eligible non-citizens with appropriate documentation;
- have a high school diploma, a GED certificate or complete a home school program at a secondary level;
- be enrolled as certificate-seeking or degree-seeking students with declared majors at COCC;
- maintain satisfactory academic progress;
- certify that they are not in default on a federal student loan and that they do not owe money on a federal student grant; and
- be registered with the Selective Service, if required.

In order to receive aid from COCC, students must complete the application materials, including the Free Application for Federal Student Aid (FAFSA) each year, be eligible according to applicable criteria, and be enrolled in and attend credit classes at COCC.

HOW STUDENT AID IS DISTRIBUTED

On the second Friday of each term, referred to as the “census date,” enrollment is frozen and financial aid is applied to the student’s account based on enrollment level. Aid is applied first to tuition, fees and authorized bookstore charges. Any remaining funds are refunded to the student. Work-study earnings are paid each month through the College’s normal payroll process.

SATISFACTORY ACADEMIC PROGRESS

Financial aid academic eligibility standards

To maintain eligibility for financial aid, a student must comply with the following standards. Failure to meet any of the standard requirements may result in denial of federal financial aid at COCC.

Financial aid applicants must have a cumulative GPA of 2.00 and a cumulative completion rate of 66.67 percent of their calculated credits at the end of each term. The term “calculated credits” is defined as credits for which a student has received a financial aid disbursement and/or attempted hours if the student did not receive financial aid. It also includes transfer credit hours. If a student fails to meet these eligibility standards, an automatic WARNING status (see below) is enforced. Grades of A, B, C, D and P only will be evidence of successful completion of coursework for purposes of calculating institutional percentage completion rates.

Aid eligibility is limited to 150 percent of a student’s program credit length even if a certificate/degree is not earned. As soon as it is clear that a student cannot graduate within this period, he/she becomes ineligible for aid. Change of major or program may not be sufficient reason to extend the credit limit. Students pursuing more than one program at COCC will need to submit an appeal and documentation of its necessity if the maximum limit is reached.

Measurement point/times standard applied

The financial aid academic eligibility standard will be evaluated at the end of each term for financial aid applicants. Eligibility for receipt of financial aid can be denied at any measurement point if the standard is not met.

Good standing status

Financial aid applicants who meet a cumulative GPA of 2.00 and a cumulative completion rate of 66.67 percent of their calculated credits at the time of evaluation are considered to be in GOOD STANDING and are otherwise eligible for aid.

Warning status

When a student in GOOD STANDING fails to meet the eligibility standards for either completion rate and/or GPA, an automatic WARNING status is enforced. The student will be asked to complete a document acknowledging this change in status and the potential impact it may have on aid eligibility. If a student in WARNING status fails to meet the cumulative minimum standards for another term, he/she becomes ineligible for aid.

Failed status

A student in WARNING status who has failed to meet the cumulative minimums at the end of the next evaluation period will not be eligible for any federal aid. This includes grants, work study, loans and institutional awards.

Reinstatement of aid eligibility

A student may apply for a redetermination of eligibility through the APPEAL process. A student may submit an appeal for reinstatement on the basis of mitigating circumstances or after successfully rehabilitating the cumulative 2.0 GPA or better and completion rate of 66.67 percent.

Appeal procedures

Reinstatement of aid is never automatic. A student must apply for redetermination of aid eligibility by completing a COCC Financial Aid Appeal form. A student may use the appeal process to petition any financial aid action the law allows. Appeals are made through the Financial Aid office, on the official appeal form and will require the following: an explanation of why the student failed to make Satisfactory Academic Progress (SAP) and documentation of the circumstances. The appeal must also include a statement and documentation as to what has changed in the student’s situation that would allow the student to meet SAP in future terms. All

appeals are referred to an appeal committee. Students will be allowed one appeal after failing SAP requirements.

Current COCC students will be allowed to petition for one program change. If the appeal is approved, the student's transcript will be re-evaluated for earned/transfer credits that apply to the new program. Credits that do not apply will be excluded from the requirements for the new program and the student will be given 150 percent of the amount of remaining credits to finish the requirements for the new program.

Students returning after an extended absence who are seeking a new certificate or degree or continuing work on the original course of study will be reviewed on a case-by-case basis, with consideration given to prior academic history.

Probation status

Successful appeals will allow a student to be placed in PROBATION status. Students must meet the conditions outlined in the appeal decision. If a student is unable to meet these conditions, the student will be ineligible for aid until the cumulative GPA is at least 2.0 and the cumulative completion rate is at least 66.67 percent.

Transfer student requirements

Coursework taken at another institution that is accepted and officially transcribed as transfer credit by COCC, will count toward the 150 percent maximum calculated credits as well as the cumulative completion rate. If the limit is exceeded, the student must submit an appeal to determine aid eligibility. GPAs from other schools are not considered in COCC's financial aid satisfactory progress policy.

Consortium agreements

Students enrolled in more than one institution under consortium agreements are subject to the home institution's Satisfactory Academic Progress policy.

Repeat coursework

Repeat coursework will be allowed for courses designed to be repeated according to institutional academic policy and procedures. All other course work will be limited to one time payment for retaking previously passed coursework.

Developmental coursework

Students will be allowed an additional 45 calculated credits of developmental coursework. Developmental coursework is defined as WR 60 through WR 95, MTH 10 through MTH 95, CIS 10 and CIS 70. However, developmental credits at or above the level required for the certificate or degree the student is currently seeking will not be excluded from attempted credits.

WITHDRAWAL PENALTY/REPAYMENT REQUIREMENTS

Students who receive federal financial aid and who:

- subsequently completely withdraw, stop attending or are expelled, or
- are enrolled in a combination of module and full-term classes and drop or stop attending all full-term classes

may be subject to a repayment of unearned financial aid. A Title IV return calculation determines, based on withdrawal date, the amount of federal aid that the student has earned. The amount of federal aid earned, under the federal aid return policy, may

be less than tuition and other charges. This means that upon withdrawal, a student may owe COCC tuition and other charges in excess of net student aid. The student is responsible for payment of charges not covered by student aid. Withdrawal from classes after the tuition due date may affect completion rates that are required for Satisfactory Academic Progress.

At the time of complete withdrawal, students can request an estimated Title IV refund/repayment calculation from the Financial Aid office.

APPLICATION PROCEDURE

The Free Application for Federal Student Aid (FAFSA) may be submitted as early as January 1 for the upcoming summer, fall, winter and spring award year. Students are encouraged to apply before January 30 because some funding is limited. Students apply on the Web at www.fafsa.gov. A paper FAFSA is available by calling the Department of Education at 800-433-3243.

The COCC Financial Aid office can provide additional and detailed information about various financial aid programs. For further information, students should:

- go to the website, www.cocc.edu/Financial-Aid;
- send an email to coccfinaid@cocc.edu;
- send a letter to COCC Financial Aid, 2600 NW College Way, Bend, OR 97701; or
- telephone 541-383-7260.

Students should include their name and COCC ID number in all correspondence to the Financial Aid office.

WHAT TYPES OF AID ARE AVAILABLE?

Financial aid is money awarded to students to help them pay for tuition, fees, books, room and board, and transportation while they are working on a certificate or degree. There are four types of financial aid programs available: scholarships, grants, loans and work-study. These funds come from various sources. Program details, including eligibility criteria and dollar amounts, may differ from the following descriptions if applicable laws or regulations governing such programs change after printing of this material.

SCHOLARSHIPS

COCC has three primary types of scholarship programs: COCC Foundation scholarships are based primarily on financial need. Honor scholarships and private scholarships encourage academic excellence and personal achievement.

Central Oregon Community College Foundation Scholarships

The Central Oregon Community College Foundation is comprised of a board of directors, administrative staff members and a group of interested and concerned private citizens from throughout the College District who donate their time and money to help COCC's students and to improve College programs. Each year, the COCC Foundation raises funds to finance a number of scholarships. A scholarship application is required. Applications are submitted online by logging into the Bobcat Web Account beginning in mid-December for the upcoming academic year.

Eligibility is determined by the COCC Scholarship Selection Committee and may be based on need, academic achievement, residency or other donor-specific criteria. The COCC Foundation Scholarship is not available for summer term.

Honor scholarships

Honor scholarships are awarded on the basis of academic excellence to the highest-ranking seniors graduating from in-district high schools. This scholarship may be renewed at COCC for second-year students with a minimum 3.5 cumulative grade-point average and completion of 12 credits per term totaling 36 credits during their first year. All honor scholarship recipients must meet the College definition for full-time enrollment.

Private scholarships

A growing number of private scholarship opportunities are available to students. For a list of available scholarships and scholarship search engines visit: www.cocc.edu/Financial-Aid or contact the Financial Aid office. High school seniors are encouraged to explore scholarship opportunities with the help of their high school counselors.

GRANTS

Grants are awarded on the basis of financial need. Grants do not have to be repaid and are another type of gift aid. Student financial aid packages include grant funds whenever student eligibility and funding levels permit. Funding for the grant programs administered at COCC comes from the Department of Education and the state of Oregon.

Federal Pell Grant (limited to 18 quarters)

The Federal Pell Grant program was established to provide financial aid for eligible undergraduate students with financial need. Eligibility for other federal aid is determined after the Pell Grant is taken into consideration. Grant awards in 2012-2013 ranged from \$602 to \$5,550 annually depending on financial eligibility and enrollment. Students with a prior bachelor's degree are not eligible.

Federal Supplemental Education Opportunity Grant (FSEOG)

FSEOG awards are federally funded. COCC is responsible for selecting eligible students and determining the amount of the award. The FSEOG is for undergraduates with exceptional financial need and gives priority to students who receive Federal Pell Grants. Annual FSEOG awards were \$600 in 2012-2013 depending on federal funding allocations. The FSEOG is not available for summer term.

Oregon Opportunity Grant (OOG)

The state of Oregon provides funds for this grant program. Eligibility is based on financial need as defined by the Oregon Student Access Commission using the FAFSA information and is limited to 12 cumulative quarters. Students must have a minimum of one-year legal residency in Oregon and be enrolled in at least six credit hours each term. Students with a prior bachelor's degree are not eligible. Students enrolled in a course of study leading to a degree in theology, divinity or religious

education are not eligible. Oregon Opportunity Grant awards are set by the state of Oregon. The Oregon Opportunity Grant is not available for summer term.

LOANS

Note: Students are encouraged to borrow only the amount needed to cover educational expenses. Loan entrance and exit counseling are required.

Direct Loan Programs (DL)

To be eligible for a Direct Loan, students must be enrolled in at least six credit hours and must not be in default on a prior loan or owe a grant repayment. All loans must be repaid. Students must sign a promissory note (a legal agreement to repay) with the Department of Education before any loan money can be disbursed. The promissory note contains detailed information about the terms, responsibilities and repayment of the loan. Because students must repay educational loans, this kind of assistance is generally referred to as self-help aid. Direct loans are accessed through the normal financial aid process. (For details, go to www.cocc.edu/Financial-Aid/Loans.)

Two specific types of Direct Loans are available:

- **Subsidized Federal Direct Loan program**

The subsidized loan program provides fixed interest, long-term federal loans through the Department of Education. Maximum annual loan limits are based on financial need, but cannot exceed \$3,500 for freshmen and students in certificate programs and \$4,500 for sophomores. Effective July 1, 2013, new federal loan borrowers are limited to borrowing up to 150 percent of the length of their current academic program. Loan repayment begins six months after a student ceases to be enrolled at least half time. Monthly payment amount and length of repayment depend on the cumulative amount of loans, with a 10-year repayment time limit.

- **Unsubsidized Direct Loan program**

The unsubsidized loan program provides fixed interest, long-term federal loans through the Department of Education. The unsubsidized loan is available to students who do not qualify for some or all of the need-based Subsidized Federal Direct loan. Awards cannot exceed \$3,500 for freshmen and students in certificate programs and \$4,500 for sophomores for an academic year. In addition, dependent students as defined by the Department of Education are eligible to borrow up to \$2,000 in unsubsidized loans, and independent students, up to an additional \$6,000. Student borrowers will be responsible for payment of the interest that accrues on these loans while they are in school and during periods of deferment. Loan repayment begins six months after a student ceases to be enrolled at least half time. Monthly payment amount and length of repayment depend on the cumulative amount of loans, with a 10-year repayment time limit.

Parent Loan to Undergraduate Students program (Federal PLUS)

The PLUS is a non-need based, interest-bearing loan to parents. Loans may range up to the published cost of attendance for the institution minus other student aid. Interest accumulated during in-school time is fixed at 7.9 percent, and subject to

change annually. For more information on the PLUS loan and other publications, visit www.studentaid.ed.gov/. In addition to the PLUS application, a FAFSA is required at COCC. Both are available online at www.cocc.edu/Financial-Aid/Loans/What-is-a-PLUS-loan.

WORK-STUDY AND STUDENT EMPLOYMENT

Many students help finance their education by securing part-time employment either on or off campus. Since students work in order to receive funds from employment, this kind of assistance is considered a form of self-help aid.

COCC Career Services maintains a list of off-campus job opportunities for students seeking employment outside the Federal Work-Study program. Check their website for more information, www.cocc.edu/CAP/Career-Services/Student-Employment.

Federal Work-Study (FWS)

This program provides employment opportunities to students who apply for financial aid and are eligible for the Federal Work-Study program. Availability is based on federal fund limits. In addition to providing income, students may acquire work experience in jobs related to their academic interests.

Students cannot be placed in a work-study job until they receive a financial aid award that includes work-study. Students will not receive any Federal Work-Study funds until they are actually placed and working in a work-study job. Due to the need to match job requirements with student skills, the College cannot guarantee employment to all eligible FWS recipients.

At COCC, work-study jobs provide experience in a variety of fields including physical education, library work, the sciences, health service and office work. Community service jobs are also available. For more information, visit www.cocc.edu/Financial-Aid/Work-Study.

VETERANS EDUCATION BENEFITS

Students who believe they may be eligible for veterans educational benefits, such as a veteran or a widow or dependent of a disabled veteran, should contact the veterans coordinator at 541-383-7264.

All veteran students at COCC must meet the same academic standards as other students to remain in good standing. However, to remain eligible for educational benefits, veterans and other students eligible for these benefits must comply with the following additional requirements:

Attendance

To receive educational benefit payments, students must attend classes. It is the responsibility of the registered veteran to notify the veterans coordinator when any changes are made to their schedule (add or drop classes). Failure to do so may result in incorrect payments to the student. Overpayments must be repaid.

Program of study

To be eligible for veteran educational benefits, students must be enrolled in a degree or certificate program offered by COCC and be approved by the state approving agency. Only courses required toward that degree or certificate program may be certified for benefit payment.

Transfer of credits

Veterans who enter as transfer students, or who have completed any college-level coursework, are required to have all official transcripts forwarded to Enrollment Services–Admissions and Records for evaluation. Certification will not continue past the first term if transcripts from all other sources (including military transcripts) have not been received by COCC.

Credit hour requirements

To receive full-time pay, students must take a minimum of 12 credit hours per term; for three-quarter time pay, students must take nine to 11 credit hours per term; and to receive half-time pay, students must take six to eight credit hours per term. Chapter 33 students have different requirements.

Satisfactory academic progress

Veteran students are considered in good academic standing with the College when they maintain a GPA of 2.0 and complete 66.67 percent at the end of each term. A 0.0 GPA results in immediate termination of veterans educational benefits.

All students are notified at the end of the term in which they have not made satisfactory progress. Veteran students may continue on probation for only one term. If a student who is on probation fails to meet the minimum standards for another term, the veteran will not be eligible for veterans educational benefits. All probations and terminations are reported to the Department of Veterans Affairs.

Once benefits are cancelled, the veteran student may appeal the termination by submitting a veterans petition to the veterans coordinator outlining the mitigating circumstances OR complete 12 credits with a 2.0 GPA or better in each class, paying for the courses at their own expense. Upon completion of 12 credits with a 'C' grade or better in each class, the student can then submit a Veterans petition requesting reinstatement of Veterans benefits. Certification will resume starting the term following the completion of 12 credits.

Institutional responsibility

COCC is responsible for reporting to the VA if the student is no longer pursuing his or her educational objectives as certified.

STUDENT SERVICES

Central Oregon Community College offers a variety of academic and support services designed to foster student success. All prospective students are encouraged to contact Enrollment Services – Admissions and Records, 541-383-7500, or www.cocc.edu, for information and assistance in planning their education at COCC.

ACADEMIC ADVISING (CAP CENTER)

Academic advising at COCC is provided by both the CAP Center (Career services, Academic advising, and Personal counseling) and by faculty members in each department. The purpose of academic advising is to guide students toward achieving their educational goals and to help students become self-reliant in understanding College policies and practices. Various advising requirements are in place to support this purpose.

Prior to registering for classes, new certificate- and degree-seeking (CDS) students and students who have not attended for more than a year participate in small-group advising sessions. After the first advising session, students are assigned an advisor in their declared major and emailed the advisor's contact information. Students are required to meet with their advisor to develop long-range academic and career plans before the next term's registration. All CDS students are required to meet with an advisor prior to registration if they participated in a group advising session the previous term, or as determined by the advisor and at least once a year.

COCC provides an online tool, GradTracks, to help students and their academic advisor track progress toward graduation. Grad Tracks allows students to see how completed courses are applied toward their certificate or degree and identifies requirements and courses still needed to graduate. Students can also explore other certificate and degree options. Students can access GradTracks by logging on to their Bobcat Web Account and selecting the Student Services & Financial Aid Tab; clicking on the GradTracks link and again on the GradTracks button. Students must be taking credit classes in order to view information in GradTracks.

Students are responsible for monitoring their advising requirement and for completing the advising steps in a timely manner. COCC recommends that students plan their advising appointments well in advance of the opening of registration. Students who want to find their assigned advisor's name and contact information and see if they have an advising requirement for an upcoming term, should look in their student Bobcat Web Account. To do so, go to www.cocc.edu and select "My Login." After logging in, select "Student Services and Financial Aid," then "Registration," and then the "Can I Register for Credit Classes?" page.

Students may request a specific advisor or a change in advisors if their major changes. Students not seeking a certificate or degree are not required to meet with an advisor, but are welcome to meet with a CAP Center advisor. Contact the CAP Center, Barber Library lower level, 541-383-7200, for advising options.

ASSOCIATED STUDENTS OF COCC (ASCOCC)

ASCOCC provides students with numerous opportunities for governance, advocacy and social programming. The council is responsible for allocating student fees, appointing students to

campus governing committees, advocating for the entire student body and providing diverse social and educational programs and services. The ASCOCC council offers a limited number of paid positions each year.

Contact ASCOCC, 541-383-7595 or visit the website, www.cocc.edu/ASCOCC, to find out about current activities and how to get more involved with the student council.

BOOKSTORE

The Campus Bookstore, located in Newberry Hall on Bend's main campus, sells textbooks, class materials, educational and personal supplies, gifts, convenience food and beverages. Textbooks can be ordered 24 hours a day at www.cocc.edu/Bookstore. For more information about the Bookstore, call 541-383-7570 or visit its website, listed above.

Redmond Campus Bookstore (Building 1, Room 111) sells textbooks, class materials and educational supplies. Please visit www.cocc.edu/Bookstore for hours or call 541-504-2929.

THE BROADSIDE STUDENT NEWSPAPER

The Broadside is a student-run newspaper serving COCC, OSU-Cascades and the larger community. The staff publishes a minimum of 25 issues per school year with a circulation of 1,200 to campus and other locations around Central Oregon. The newspaper provides a forum for student free speech as well as a focus on college news, features and sports. The newspaper's website, www.TheBroadsideonline.com, offers year-round advertising opportunities and ongoing, updated news information.

Each year The Broadside offers dozens of students opportunities in reporting, editing, design and layout, multi-media communications, photography, and journalism leadership. All students are welcome to apply for the paid positions. For more information, call The Broadside advisor, 541-383-7252, or email The Broadside editor-in-chief at broadsidemail@cocc.edu.

CAMPUS PUBLIC SAFETY

The COCC Department of Campus Public Safety provides 24/7 patrol and response services with state-certified public safety officers. Officers respond to calls for assistance, crime reports, traffic accidents, safety escorts, policy violations, medical emergencies and enforce parking, traffic and policy regulations. The department also provides information on crime prevention and personal safety.

Please report all incidents to the department at the numbers below. Active emergencies should be reported first to 9-1-1, then call the appropriate number (*below*):

Campus Public Safety can be reached 24 hours each day, 7 days per week at 541-383-7272 or ext. 7272 from campus phones.

All students who park on campus must register their vehicles and display registration decals. Parking, traffic and other regulations may be found in the Parking and Traffic Regulations handbook available, along with registration decals, in the Boyle Education Center at either the Campus Public Safety office or in the Information Office. There is no charge for parking permits. Certain parking areas on campus are reserved for guests, staff and vehicles displaying valid disabled parking decals.

CAP CENTER (CAREER SERVICES, ACADEMIC ADVISING, PERSONAL COUNSELING)

The CAP Center offers a variety of student services to support COCC students in setting and meeting their educational goals. The CAP Center is located in the lower level of the Barber Library. Call the CAP Center for more information about each of these services, 541-383-7200, or go online, www.cocc.edu/CAP.

CAREER SERVICES (CAP CENTER)

COCC Career Services assists students with career planning and exploration, finding part-time student employment (including work-study job placement), developing job search skills and locating career placement resources. Local employers can use these services to locate students and graduates with the specialized knowledge and skills needed in today's workplace. Career Services is part of the CAP Center, located in the lower level of the Barber Library and offers personal appointments, print-based and Web-based resources, and workshops open to COCC students and alumni. Call the CAP Center, 541-383-7200, or visit www.cocc.edu/CAP/Career-Services for more information.

CLUB SPORT/INTRAMURAL AND RECREATION PROGRAMS

The COCC Club Sport/Intramural and Recreation programs offer a wide range of traditional and nontraditional sports and recreational activities along with special events and tournaments for people of all interests and abilities. The spacious Mazama complex features top-flight sports and recreation facilities.

COCC Club Sports provide opportunities for competition, skill development, leadership and recreation. Clubs are organized by students with guidance from coaches, students, faculty, staff and community members. Current clubs include alpine ski racing, baseball, basketball, body building, bowling, cycling, disc golf, golf, martial arts, nordic skiing, rugby, soccer (indoor and outdoor), swimming, volleyball and running.

Organized intramural activities are available at convenient times for COCC students, faculty and staff. The emphasis is on having fun, making friends and staying fit. Some activities feature friendly competition while others are purely recreational. Activities include basketball, bench-press tournaments, cycling (recreational and races), indoor soccer, day hikes, disc golf tournaments, flag football, golf tournaments, soccer (outdoor), softball (coed), swimming, table tennis, tennis, ultimate frisbee and volleyball.

COCC promotes lifetime fitness for everyone. Facilities are available for drop-in use throughout the week for a small per-term user fee. Informal recreational activities and organized sports are available to all. Passes for local recreation facilities are

available to students at no cost (swimming and bowling). Call 541-383-7794 or visit online at www.cocc.edu/Sports for more information.

CLUBS

ASCOCC offers many opportunities for students to participate in campus clubs. Clubs must involve at least four current COCC students, have a faculty or staff advisor and create a constitution. Those having questions or ideas about forming a student club or participating in an existing club can contact ASCOCC at 541-383-7595 or visit its website: www.cocc.edu/Student-Life/ASCOCC/Clubs-and-Programs/Clubs.

COMPUTER LABS

COCC offers a variety of computing resources to students registered in its credit classes, Community Learning classes or Oregon State University-Cascades programs.

Drop-in computer labs are located on the Bend campus in the Barber Library, Pioneer Hall and on the Redmond Campus in Building 3. Additionally, the COCC Madras Campus has a computer lab that is scheduled for classes and drop-in use. There are computer labs specific to Math, Networking, Computer-Aided Drafting and Design, Science, and Geographic Information Systems on the Bend campus and additional computer classrooms located on all campuses. All drop-in computer labs are staffed by student workers who offer assistance logging into student accounts and answering general questions.

Computers at COCC use the Windows operating system and most Microsoft Office programs along with class-specific programs. Drop-in labs are equipped with black-and-white and color laser printers, flatbed scanners, and adaptive workstations. All non-classroom printing has a pay-to-print fee. Payment is by COCC/OSU-Cascades student ID card or COCC print card.

COPY CENTER AND MAIL SERVICES

The Copy Center, located in the Bookstore (Newberry Hall) on the Bend campus, is a full-service copy center. Services include black and white as well as color copies, transparencies, binding and general mail services including UPS. For more information about the Copy Center and/or Mail Services, call 541-383-7579.

COUNSELING (CAP CENTER)

Professional counselors are available at no charge to help COCC students identify and resolve personal issues. Counselors can help with stress management, depression, test anxiety, eating disorders, substance abuse, relationship issues or any other problems that may affect college success. All students who are enrolled in at least one credit or in Adult Basic Skills/English Language Learning courses are eligible to receive short-term counseling at no charge. For further information visit www.cocc.edu/CAP/. Counseling appointments are confidential and can be made through the CAP Center (Career services, Academic advising and Personal counseling) in the lower level of the Barber Library or at 541-383-7200.

DEVELOPMENTAL/TRANSITIONAL STUDIES

For those students who need to sharpen their skills in reading, writing, math and basic computer, the College offers courses in these areas. Using placement test results, advisors will recommend courses that will provide the most help. These courses are at the pre-college level. Although non-transferrable, they are extremely valuable courses for students who need preparation for success in retraining and re-entry into academic studies. See page 30 for more information.

FOOD SERVICE AND CATERING

Quality food service is available across campus, with the main campus dining services available in the Campus Center. For details on locations, prices and options, visit the Food Service website at www.coccdining.com or contact Herb Baker, the Food Service Director, hbaker@coccc.edu

LATINO PROGRAMS

The Latino Program assists in the recruitment, retention and academic success of immigrant and native Latino students. The Program Coordinator assists students to meet their educational goals and contribute to the campus community. The Coordinator advises the Latino Club with planning and implementing of relevant educational programs and social activities.

For more information, contact the Latino Program Coordinator at 541-318-3726. The Latino Program website is at: www.coccc.edu/Multicultural/Latino/Latino-Students-Program.

iAVANZA! (Moving Forward!) Latino College Preparation Program
The goal of iAVANZA! is to encourage Latino/a youth to graduate from high school and to pursue higher education, and ultimately, to obtain a rewarding career and contribute to their communities. To reach this goal, the program offers a dynamic curriculum that integrates leadership, college preparation, and culturally relevant themes for the Latino/a students.

For more information, contact the iAVANZA! Program Coordinator at 541-318-3717. The iAVANZA! Program website is at: www.coccc.edu/Multicultural/Avanza.

LIBRARY

The Barber Library serves the research and information needs of the College, Oregon State University-Cascades and residents of Oregon. Staff can be reached at 541-383-7560. The Library is on the Web at www.coccc.edu/Library/. The Library catalog and research databases are available from the Web page.

Information help desk

A librarian or staff member is available at the reference desk to assist with reference and research questions. Help is also accessible online via email or through 24/7 chat service. (See the "Ask a Librarian" link on the Library Web page, www.coccc.edu/Library/.)

Computer workstations and wireless access

The Barber Library has 54 networked computer workstations available to students for their own research, as well as wireless accessibility for registered users including COCC and OSU-Cascades patrons, community patrons and campus visitors. For more information, refer to the Wireless Network Web page, www.coccc.edu/ITS/ITS-Services/Wireless.

The Library also houses a computer classroom and a 38-workstation computer lab.

Library collection

The Barber Library collection consists of online reference sources, print and e-books, print and e-journals, magazines, DVDs, streaming video, Web resources and online article databases supporting COCC and OSU-Cascades academic programs. Students at the Redmond, Madras, and Prineville campuses have access to services and academic resources available through the Library. See www.coccc.edu/Library/BranchCampus for a list of resources.

Multimedia equipment

Students, faculty and staff may also check out laptops, iPads, Kindles, digital cameras and camcorders, projectors, and assorted multimedia accessories from the Library.

Books and articles from other libraries

Students can request materials not available in the Barber Library. The Library is a member of the Orbis Cascade Alliance, a consortium of college and university libraries in the Northwest.

The Alliance's joint catalog, Summit, provides access to approximately 30 million books, audio-visual materials and more. It is accessible from the main Library Web page, www.coccc.edu/Library. Current, credit-enrolled students, faculty and staff of COCC and OSU-Cascades may self-initiate requests for Summit items, most of which arrive in three to five working days.

Other interlibrary loan services are also available to COCC students for materials not available in Summit or for journal articles not found in the Library or in the Library's full text databases.

Materials on reserve for classes

Print and AV course reserves are available at the circulation desk at the front of the Library. Students also may retrieve a number of e-reserve materials, which are available 24 hours a day, seven days a week, through the electronic reserves site on the Library Web page.

Government documents

The Barber Library is a selective depository library for U.S. federal documents.

Library instruction

Faculty librarians work closely with faculty in all disciplines to provide research instruction in classes when appropriate. The Library also offers stand-alone credit courses in research skills at three levels – LIB 100, LIB 127, LIB 227. See course descriptions for more information.

Library events

Literary events and art exhibitions are held regularly in the Barber Library. Watch for announcements in the student newspaper, *The Broadside*, and on the College and Library Web pages.

MULTICULTURAL ACTIVITIES

The Office of Multicultural Activities promotes the development of a respectful and inclusive campus community by sponsoring cultural events and educational programs.

The Multicultural Center, located in Room 217, Campus Center Building, fosters cross-cultural understanding and respect

by providing a welcoming setting for learning, sharing and connection. For more information, contact the director of multicultural activities at 541-383-7412 or visit the Multicultural Activities website at www.cocc.edu/Multicultural.

NATIVE AMERICAN PROGRAM

The Native American Program focuses on the recruitment and retention of Native American students. The program coordinator offers students individualized assistance as they navigate academic and administrative aspects of student life. As the advisor to the First Nations Student Union, the coordinator supports club members as they volunteer in the community, plan education and social events, and organize the annual Salmon Bake.

For more information, contact the native american program coordinator at 541-318-3782 or visit the website: www.cocc.edu/Multicultural/Native-American.

OFFICE OF STUDENT LIFE

Participation in campus activities beyond the classroom is encouraged in order to complement college academic programs and to enhance the educational experiences of students. Through exposure to and participation in intellectual, vocational, cultural, recreational and social programs, students may explore their potential as individuals and develop meaningful relationships with others. For more information, contact the office of Student Life in the Campus Center, 541-383-7590 or visit www.cocc.edu/Student-Life/Student-Life.

SERVICES FOR STUDENTS WITH DISABILITIES

The Services for Students With Disabilities (SSD) office endeavors to ensure equal access to all students with qualifying, documented disabilities at all COCC campuses and Community Learning centers, as defined by federal legislation. Awareness of students’ needs and goals helps to create an atmosphere in which learning and growth can occur. We encourage referral of students by staff and faculty to the SSD office for consultation and determination of eligibility. For more information, visit the SSD website at www.cocc.edu/Disability-Services or drop in to the office at the Boyle Education Center, Rooms 123-125.

SHUTTLE BUS

A free campus shuttle services the campus during fall, winter, spring and summer terms. The 12-person bus features two bike racks and automatic snow chains. Shuttle maps with pick-up and drop-off times are available in the Boyle Education Center, Campus Services office or online at www.cocc.edu/Campus-Services/Campus-Shuttle.

STUDENT EMAIL ACCOUNT

COCC provides qualifying COCC students with an email account via Microsoft Office 365. COCC’s primary means of communicating with students is through their COCC email account. This includes billing statements, registration and wait list information and important announcements. Students are expected to regularly check their COCC email account.

To access your Office 365 email account, visit the COCC homepage at www.cocc.edu and click the “Student Login” button in the upper right-hand corner. Next, click the Office 365 button,

to access the login page and Cloud 365 information page.

Students can find their user name and password at www.cocc.edu by clicking on the “Student Login” button in the upper right-hand corner, then the “Bobcat Web Account” button. Once logged in, select the Personal Information link followed by the View Email Address(es) link. If a COCC email address has been assigned, it will be displayed on this page, along with a comment, which includes the initial password for campus computers, email and Blackboard. The information will not include the correct password if the student has changed it previously. Passwords are case sensitive.

STUDENT HEALTH INSURANCE

Central Oregon Community College does not offer student health insurance. At the same time, the College does not require students to have health insurance coverage in order to enroll in courses and to participate in related activities and events.

Students are responsible for their own health insurance coverage. The College does not have a student health clinic on campus. Limited health services are available for free or at a reduced cost in the local community. Links to health resources in the community are available on the Student Health Insurance Web page listed below.

COCC does not endorse any particular insurance, but it does have information on a few options. For information about contacting the carriers and other local resources in the community visit the Student Life Web page at www.cocc.edu/Student-Life/Student-Resources/Student-Health-Insurance.

STUDENT HOUSING – ON CAMPUS

Juniper Hall houses 102 male and female students each year in a coed, academically focused, on-campus housing environment. Located near Grandview Hall at the top of the COCC campus, Juniper Hall offers shared double rooms, local cable, Internet access, laundry rooms and recreational facilities along with a full meal plan and what some say is the best view on campus. Contact the Office of Residence Life at 541-383-7588, or visit www.cocc.edu/Residence-Life for more information.

Space in Juniper Hall is limited. Students seeking accommodations are encouraged to submit a Housing Application and Agreement at their earliest convenience. All paperwork and deadline dates are available online. Upon signing a Housing Application and Agreement, students must be prepared to pay a security deposit to guarantee a space in the hall. The room and board rate for the 2013-2014 academic year (fall, winter, spring) is \$8,680 for double occupancy.

Room and Board Package for Juniper Hall

2013-2014	Fall	Winter	Spring	Total
double occupancy	\$ 3,528	\$ 3,152	\$ 2,000	\$ 8,680

Note: Students living in Juniper Hall for spring term only will be assessed an additional \$300 for spring term.

Student Services

STUDENT HOUSING – OFF CAMPUS

Availability of off-campus housing varies from season to season and year to year. The Office of Student Life accepts postings electronically on its website from the community for off-campus housing opportunities. Available housing options include apartments for rent, rooms for rent in homes, and homes for rent.

To view current submissions visit www.cocc.edu/Student-Life/Student-Resources/Off-Campus-Housing. This website also provides other community resources that may be helpful in locating off-campus housing. The College provides this information as a service to students; however, it does not assume responsibility for screening rentals.

STUDENT NETWORK ACCOUNT

The student network account is a free account that permits students to connect to the College's computer network system. Once logged on to COCC computers, users will find their personal folder (identified with their name) on the desktop. Each folder contains 200 MB of space. Students are responsible for reading and adhering to COCC's Acceptable Use of Technology Resources policy. See www.cocc.edu/ITS/Computer-Labs/Acceptable-Use-of-Information-Technology-Resources.

STUDY ABROAD

The College seeks to provide opportunities for students to study abroad while earning COCC transfer credit. For specific offerings, visit www.cocc.edu/Study-Abroad. Current programs include:

- Fall Quarter in Florence, Italy. Students experience Italian life, language and culture while living and studying in Florence, the heart of Tuscany. The program offers an unparalleled opportunity for students of art, history and literature to explore a wealth of museums, churches and culture in this most walkable of cities.
- Spring Quarter in London (2014). The heart of British history, government and culture offers Oregon students not only access to the theater district and the riverside lifestyle, but dozens of museums, cathedrals and historical sites, such as Oxford and Stonehenge, to enrich their study-abroad experience. This program will alternate every other year with the program in Barcelona.
- Spring Quarter in Barcelona (2015). Students experience Spanish life, language and culture while living and studying in bilingual Barcelona, the heart of Catalonia. Students live in shared apartments among other international students, while enjoying a seaside temperate climate in the home of Gaudi's fanciful art and architecture. This program will alternate every other year with the program in London.
- Summer two-week intensive Spanish study, followed by a two-week field biology course in Costa Rica. Students experience a home stay and language study near the capital, San Jose, then study lowland tropical jungle wildlife at La Selva research station, dry forest ecology and marine biology at Cabo Blanco on the Pacific Coast, and mountain rainforest ecology at the University of Georgia Ecological in Monteverde Cloud Forest.

For questions about COCC's Study Abroad program, contact Jon Bouknight, 541-330-4394, jbouknight@cocc.edu.

TUTORING AND TESTING CENTER

The Tutoring and Testing Center is located in the lower level of the Library with the Tutoring Annex in the back of the first floor of the Library. Hours of operation are available at www.cocc.edu/Tutoring-and-Testing. Math tutoring occurs when the Barber Library is open; proctored testing starts a half-hour after the building opens and ends a half hour before the building closes.

Tutoring

Tutoring services are free to COCC students for the COCC courses in which they are currently enrolled. Drop-in tutoring is offered for math, writing, sciences, foreign languages, business administration, computer science and the social sciences, as well as Career and Technical Education subjects. Tutoring is conducted on both an individual and a group basis. Tutor-led study groups are also an option for some key courses. Resources include printed materials, textbooks and graphing calculators. Math, computer science and writing tutoring are available on the Madras, Prineville and Redmond campuses. The Writing Center and computer science tutoring is located in the Tutoring Annex on the first floor of the Library. Students are encouraged to bring in their writing assignments for one-on-one help with any stage of the writing process. Tutoring sessions for anatomy and physiology, auto-CAD, chemistry, physics, emergency medical services, forestry, and automotive technology are held in those subject-specific labs.

Testing

The COCC Testing Center is a regional testing center serving a diverse constituency of students and community members. A charter member of the Consortium of College Testing (www.ncta-testing.org/cctc) and a certified PearsonVUE Virtual University Enterprise (www.pearsonVUE.com), Prometric APTC (www.prometric.com) and Computer Assisted Testing Service (www.catstest.com) FAA test site, the Testing Center's mission is to provide opportunities for Central Oregonians to obtain academic, professional and standardized testing locally. GED testing for the region is also available via the PearsonVUE Testing Center on the Redmond campus in Building #1 (www.cocc.edu/Tutoring-and-Testing/GED-Testing). For a current list of tests offered, visit the COCC Tutoring and Testing Center's website listed below. For more information about tutoring and testing services, contact the Tutoring and Testing Center at 541-383-7538 or visit www.cocc.edu/Tutoring-and-Testing.

TRANSPORTATION

In addition to the free campus shuttle bus, the City of Bend offers local transit service for the general public, Cascades East Transit (CET). For more information visit www.cascadeseasttransit.com.

Notice

The student services and activities descriptions in this catalog are valid for this academic year. Student services and activities are evaluated yearly to assess student needs and available College resources.

GLOSSARY OF ACADEMIC TERMS

The **academic year** consists of three terms (or “quarters”) of approximately 11 weeks each. Students may enter at the beginning of any term, but it may be advantageous to enter in the fall due to course sequence requirements. Summer is considered a separate, “stand-alone” term.

Credit load is the number of credits taken each term. Students may not take more than 19 credit hours per term without permission from Enrollment Services - Admissions and Records.

A **course** is an instructional program in which students study a subdivision of a subject such as U.S. History or English Literature, etc.

A **credit** usually represents three hours of the student’s time each week (approximately one hour in class plus two hours of outside preparation) for one term. This time may be assigned to work in a classroom or laboratory or for outside preparation. The number of lectures, recitations, laboratory, studio, or other periods per week for any course is listed in the course descriptions in the catalog. The typical amount of scheduled time for a non-laboratory academic class is 50 minutes per week for each credit hour. Laboratory and activity courses usually require more than one hour of class time per week for each hour of credit.

Curriculum is an organized program of courses and study arranged to provide definitive cultural or professional preparation.

An **enrolled student** is one who has satisfied all of the institutional requirements for attendance at the institution, a special admission/concurrent student, or any other student participating in credit or non-credit programs, and who is registered for the current term.

A **full-time student** is defined as one enrolled in 12 or more credits for federal financial aid, veterans and Social Security purposes. Half-time enrollment is defined as 6-8 credits and three-quarter time as 9-11 credits.

The COCC **credit class schedule** is a listing of the coming term’s classes and registration instructions. The schedule is available online at www.cocc.edu.

A **subject** is a designated field of knowledge (e.g., history or English).

Lower-division courses are freshman- and sophomore-level courses numbered 100-299.

Upper-division courses are junior- and senior-level courses offered through four-year colleges and universities. Generally they are numbered 300-499.

COURSE NUMBERING

Courses with subject names (e.g., MTH 111) and numbered **100-299** are designed to meet COCC certificate or degree requirements.

Courses with subject names (e.g., MTH 065) and numbered **below 100** do not normally transfer to four-year institutions.

Adult continuing education courses are non-transferable and are numbered through the digit-decimal system according to their type and purpose. A schedule of these courses, available through Community Learning, is published prior to each term. This schedule gives city and site locations for Community Learning classes throughout the College District.

ACADEMIC INFORMATION AND POLICIES

This section provides details concerning what each student needs to know about the College's academic expectations. For answers to specific questions about College policies, please contact Enrollment Services at welcome@cocc.edu or 541-383-7500.

GRADING POLICY

End-of-term grades are available via the student's Bobcat Web account only and will not be mailed or given out over the phone.

Only the grades in the following list may be assigned. All courses graded with a P, NP, W, X, I and IP do not apply to GPA.

To calculate GPA, multiply the number of credits for each course by the grade points for the grade received in that course (grade points listed below). Add these numbers together and divide by the total number of graded credits for that term (include "F" grades and exclude P, NP, W, X, I and IP grades).

Grade points

A	4.0	outstanding performance
A-	3.7	superior
B+	3.3	excellent
B	3.0	very good
B-	2.7	good
C+	2.3	better than satisfactory
C	2.0	satisfactory
D	1.0	passing

Note: Courses in which "D" grades are earned may not be used in the AAOT or to fulfill foundational requirements in other certificate or degree programs and may have limitations in specific certificate or degree programs. "D" grades are not considered passing for pre-requisite courses.

F	0	not passing
P		pass: not computed in GPA, applies toward percentage of credits completed, may be awarded only in authorized classes
NP		no pass: not computed in GPA, may be awarded only in authorized classes
W		withdraw: not computed in GPA, must be assigned by Records Office
IP		course in progress
I		incomplete: not computed in GPA, will convert to "F" if requirements of the Incomplete Grade Contract are not met by the end of the following term
X		audit: not computed in GPA, does not meet graduation requirements; not eligible for financial aid

Pass (P)/No Pass (NP)

"Pass" is interpreted as a "C" or better. The "pass/no pass" option is used for certain courses where it is deemed inappropriate to use the regular grading system. Credits are awarded but not calculated in GPA.

Challenge course pass/no pass

All challenge examinations will be graded on the "pass/no pass" basis. The standard for a "P" in challenge courses is performance at the level of a grade of "B-" or better. Credits are awarded but not calculated in GPA.

Withdrawal (W)

Students who withdraw from full-term courses between the eighth week of the term and the Wednesday before finals week will receive a "W" on their transcripts. Note: Permission of the instructor is required to withdraw from the course. A "W" is not computed in a student's GPA.

In Progress (IP)

This notation is made on a transcript if the course ends after the normal grading period. At the end of the course, a grade will be entered. Additionally, if an instructor does not submit a grade, the Enrollment Services - Admissions and Records office will assign an "IP" grade.

Incomplete (I)

An Incomplete (I) grade is assigned when a student successfully completes approximately 75 percent of course requirements, but for reasons acceptable to the instructor, the student is unable to complete remaining requirements during the given term. An "I" grade is not a substitution for a failing grade, but indicates that there is a reasonable expectation that the student will pass the course. An incomplete grade will not count toward academic warning, but it may affect Financial Aid and Satisfactory Academic Progress.

Students may request an Incomplete (I) grade by contacting the instructor prior to the end of the term. Students must complete the remaining requirements within one quarter after the end of the original course (summer term excluded) unless the instructor designates a later completion date. Instructors will submit a grade change to the Admissions and Records office within one week of the student completing the course requirements; if no grade is submitted, it is assumed the student did not complete the requirements and the "I" grade will convert to an "F." (Note that if the student has earned a different grade without completion of these requirements, the instructor has the option to submit that letter grade instead.)

Students and instructors are strongly encouraged to complete an Incomplete Grade Contract in order to outline remaining requirements. Please see "Incomplete Grade Contract" on COCC's website for more information.

Audit (X)

Students who want the experience of taking a particular class but do not want to receive college credit may register as audit students in any of the College's courses. Audit students are

not required to meet specific course requirements but should participate fully in class activities. If students wish to audit a class, they must indicate so at the time of registration and note the following:

- “X” appears on the transcript.
- “X” is not figured into a student’s GPA.
- Tuition is the same as classes taken for credit.
- Audited courses do not meet graduation or transfer requirements and are not eligible for financial aid.
- A student may convert “audit” status to “regular” status, and vice versa, before the end of the seventh week of the term for full-term classes.

GRADE CHANGES

The responsibility of assigning grades at COCC is entirely the instructor’s. A student who disputes the final grade (A–F, P, NP) in a course should meet with the instructor to review the grade. If not satisfied, the student may meet with the department chair, who can further review the grade with the instructor. If the student believes that the grade is arbitrary or capricious, the student has recourse through the College’s grade appeal procedure found in the Academic Procedures Manual on the COCC website.

Students who wish a change of grade to or from “W” or “X” must submit a petition directly to Enrollment Services – Admissions and Records. Requests for grade changes are considered only within one year of the grade being awarded.

MIDTERM GRADE REPORTS

Midway through each term, instructors have the option to file grades of “D” and “F” or “NP” for those students whose performance indicates it, including those who are not regularly attending class. It is entirely the instructor’s discretion to submit or not submit a midterm grade report. If an instructor submits a midterm grade, the student will be sent an email at his/her college email address.

Students must take responsibility for withdrawing if they do not wish to continue in a class.

DEAN’S LIST

Students enrolled in 12 or more graded credits who receive a term GPA of 3.60 or better will have a Dean’s List notation on their official transcript each term that the GPA is earned. The Dean’s List will also be published each term.

GRADUATION HONOR ROLL

Honors will be listed on the transcripts of COCC graduates based on the following cumulative GPA from the end of the term prior to the student’s graduation:

3.60–3.74	honors
3.75–3.89	high honors
3.90–4.00	highest honors

Graduates participating in commencement exercises will receive honor cords. Graduates with a 4.00 cumulative GPA will have an asterisk by their name in the annual commencement program.

REPEAT GRADE POLICY

Courses in music or theater performance, studio art, Cooperative Work Experience (CWE) and HHP activity classes may be repeated for credit. The grades and credits for such courses will be recorded on the transcript and totaled cumulatively. In some cases, there may be a limit to the number of total credits allowed from those courses when used toward a certificate or degree.

Students may choose to repeat other courses. The original course and grade will remain on the transcript, with an “R” indicating it is later repeated. The original course grade will not be counted in that term’s GPA or the cumulative GPA. Students may repeat a course as many times as they wish; however, only the original/first course’s grade will be excluded from the term and cumulative GPA and only the most recent course will be used toward graduation requirements. There is no limit to the number of courses a student may repeat, unless otherwise stated in specific program requirements. If students wish to use the grade repeat policy for music or theater performance, studio art, Cooperative Work Experience (CWE) and HHP activity classes, they must complete a student petition and submit it to the Admissions and Records office; the course repeat policy will automatically happen for all other coursework. See the COCC website for an illustration of the repeat grade policy.

Note: This option became available fall 2006. A student must be a student under a catalog in which this policy was in place in order to take advantage of the repeat grade policy (e.g., former students cannot request a grade change unless they enroll in the repeated course fall 2006 or later).

TRANSFER REPEAT POLICY

If a student takes the same course twice, whether at COCC or another institution, only one course may be used to satisfy a certificate or degree requirements. If two or more of the same courses exist, the College will use the following criteria to determine which course applies to needed requirements:

- The most recent COCC course with a grade “C” or better.
- If both courses came from other institutions, the transfer course with the best grade will be selected.
- Some degrees and certificates have specific policies on permissible age of transfer courses. Please refer to the applicable Program Description.

Note: The Transfer Repeat Policy does not alter or replace the COCC Repeat Grade/Grade Forgiveness policy.

ACADEMIC WARNING POLICY

Students are considered to be in good academic standing if they earn a minimum 2.0 GPA each term. Certificate- and degree-seeking students not meeting this requirement receive an academic warning. All students on academic warning will be sent an email to their COCC email address specific to their situation

the day after grades are processed; it is the responsibility of the students to monitor their academic standing and complete academic warning requirements in a timely manner.

Academic warning descriptions and requirements are as follows.

First Academic Warning

When students earn less than a 2.0 term GPA, they are placed on First Academic Warning. At this stage, students are strongly encouraged to meet with their advisor prior to registration.

Second Academic Warning

When students earn less than a 2.0 term GPA for two consecutive terms, they are placed on Second Academic Warning. At this stage, students are required to meet with an academic advisor and complete the Second Academic Warning worksheet. The worksheet must be submitted to Enrollment Services no later than 5 p.m., on Monday of the second week of the following term. If students are preregistered and fail to complete these steps, their registrations will be voided and a full tuition refund issued. (Bookstore expenses may not be refundable.) Second academic warning students will be prevented from registering for one calendar year or until such time as they complete the Second Academic Warning worksheet.

Third Academic Warning

When students earn less than a 2.0 term GPA for three consecutive terms, they are placed on Third Academic Warning. In order to attend classes, students must complete the Academic Reinstatement petition with their advisor and submit the petition to Enrollment Services no later than 5 p.m., on Monday of the second week of the following term. The Academic Reinstatement Committee will review completed petitions no later than Wednesday of that week. The Committee has three options:

- Approve the petition as is: Students continue attending classes, following the requirements of the petition. If students fail to follow the academic plan or requirements, their registration in classes may be voided and their petition is considered "denied."
- Approve the petition with revisions: If students fail to follow the revised academic plan or requirements, their registration in classes may be voided and their petition is considered "denied."
- Deny the petition: If denied, students will not be allowed to continue or register for classes; any current registrations will be voided and a full-tuition/fee refund will be issued. (Bookstore expenses may not be refundable.) The student may petition for reinstatement the following term or cease to attend classes for one calendar year. After one year, students may re-enroll and begin classes as if no academic warnings existed (grades on students' transcripts remain the same).

All petitions are final and are not subject to appeal unless there is information pertinent to the outcome that was not submitted at the time of the initial request.

Note: All students on third academic warning are required to participate in an activity (or activities) specifically chosen to address why they received three academic warnings. Depending on circumstances, this could be attending a study skills class or

workshop; meeting with a personal counselor to talk about time management, stress management, depression or other personal situations; attending a career counseling workshop or class; or other option recommended by the advisor. If students do not follow through with this activity or activities, they will be dropped from that term's classes. Financial aid recipients will need to pay back a prorated amount of their funding. (See the Financial Aid withdrawal penalty policy on page 13.)

If students are preregistered and fail to complete the petition, their registrations will be voided and a full-tuition refund issued, except books. Third academic warning students will be prevented from registering for one calendar year or until such time as their Academic Reinstatement petition is approved.

Fourth Academic Warning

When students earn below a 2.0 term GPA for four consecutive terms, they receive a Fourth Academic Warning and are blocked from all registration in credit classes for one calendar year. After one year, students may re-enroll and start their academic record as if no academic warnings existed. The students' transcripts, however, will remain the same.

Notes

1. Students who do not have an assigned advisor may request one through the CAP Center or Enrollment Services – Admissions and Records.
2. Students may appeal their suspension, in writing, to COCC's vice president for instruction, as outlined in the College's Concerns Procedure (see page 28).
3. Students on academic warning may not be self-advised, and students who were self-advised must meet with an advisor.
4. Students may not change advisors while on academic warning.

CHALLENGE COURSES

Students who feel they have knowledge and experience similar to a particular course and who cannot gain credit by one of the methods listed under Advanced Standing (see below) may challenge a course and receive credit for that course. However, in some cases, students may wish to discuss course requirement waivers with program faculty. There is no limit on the number of credits that may be earned by challenge with the following exceptions:

- Students cannot challenge courses at a lower level than ones in which they have already demonstrated competency, nor at a lower level than ones in which the students have already registered.
- Students may not challenge courses which they have already taken.
- Students may not challenge courses in which experiencing the course itself is essential.
- Challenged courses do not apply toward meeting residency requirements for a certificate or degree.
- Challenged courses do not count in determining financial aid eligibility.

In order to assess whether or not the student has a reasonable chance of successfully challenging a course, a student must receive permission from a faculty member in the subject area

and the department chair prior to challenging a course. If approved, the student and department complete the “Challenge Petition” form. This must be completed by the end of the sixth week of the term. The challenge paper or final must be completed prior to the end of the term.

Challenged courses are charged the regular tuition rate payable at the time the completed petition is processed in Enrollment Services – Admissions and Records. It is the student’s responsibility to schedule challenge examinations with the instructor. The exam may be rescheduled, only at the instructor’s discretion, in extraordinary circumstances. A grade of Pass or No Pass is assigned, where a Pass is earned for performance equivalent to a grade of “B–” or better. Students may not rechallenge a course if they do not pass the first attempt. Go to www.cocc.edu/General-Procedures-Manual/Academic/ and read “Course Challenge” section for complete details.

ADVANCED STANDING AND TRANSFER CREDIT

In keeping with the philosophy that college-level knowledge can be validated and documented in various ways, Central Oregon Community College recognizes many educational experiences for credit. A guiding principle of our transfer credit practice is that acceptable transfer credit is applied in the same manner as is COCC credit.

Transfer credits earned at another regionally accredited institution generally will be accepted as they apply to COCC degree requirements. Students who wish to use previous college credits toward a COCC degree should order official transcripts from the previous college. COCC will articulate the transcript toward the certificate or degree listed on the student’s admission application. The articulation will be viewable on GradTracks, COCC’s online degree audit tool.

Limits on college credit transfer are:

- Subject matter may not duplicate that for which credit has previously been awarded in transfer or at COCC.
- Credit awarded by another institution for life experience is not transferable to COCC.
- Courses which espouse a particular religious view normally do not equate to COCC courses.
- In some cases, science credits more than five years old may not be applicable to specific programs.
- Transfer credit is only considered for courses where a grade (of A, B, C, D, pass, satisfactory) and credit have been awarded. Note that a “D” will not be accepted for the AAOT degree, foundational requirements and for some programs. (See individual program requirements.)
- Students working toward a COCC degree must complete a minimum of 24 COCC credits. Certificate-seeking students must complete a minimum of 18 COCC credits. Challenge, Advanced Placement (AP), College Level Examination Program (CLEP) and Credit for Prior Certification (CPC) credits do not meet this requirement.

Credit for Prior Certification (CPC)

Several COCC Career and Technical Education programs offer credit for prior certification if students have completed a course, training or other program that is taught to state, national or other officially recognized standards. Credit is not awarded for other life experiences. Students interested in receiving credit for prior certification must submit official copies of prior certifications to the Admissions and Records office, along with a “Credit for Prior Certification” request form. Admissions and Records will then forward the documentation to the appropriate department for review and notify the student of any outcomes. If credit can be awarded, the student must pay a \$40/course fee prior to having credits transcribed.

Credits will be posted at the top of the student’s transcript in a section titled “Credit for Prior Certification” so as to not be confused with regular COCC coursework. COCC’s transcription of credit does not guarantee that the credit will be accepted by another higher education institution. Each institution establishes its own credit for prior certification policy and will evaluate prior certification based on that policy.

Credits transcribed for prior certification may not be used to acquire full-time status or to meet eligibility requirements for any other purpose, such as financial aid, veteran benefits or scholarships. For Career and Technical Education programs, a maximum of 24 credits for prior certification will be awarded for associate degrees; 12 credits for certificates. With the exception of apprenticeship programs, credit for prior certification does not apply toward the minimum 24 COCC credits required to complete a COCC degree (18 COCC credits for a certificate).

Noncollegiate and nonaccredited institutions

COCC will evaluate records for Career and Technical Education students from noncollegiate and nonaccredited institutions (such as business and trade schools) under the following guidelines:

- Only coursework that is technical in nature and certificate- or degree-applicable will be evaluated.
- Coursework will be evaluated by the appropriate Career and Technical Education program director.
- Sufficient documentation (transcripts, certificates, course descriptions, etc.) must be submitted to enable an informed review. Documentation must be received directly from the originating institution or program. The American Council on Education (ACE) guides will assist in evaluating the credentials. In some cases, COCC faculty will be consulted for evaluation of a particular credential.
- Material must be equivalent to regular credit courses offered at COCC. Credit is not considered based on what the student “knows,” but on the content of, and recorded achievement in, the course itself.
- Material may not duplicate that for which credit has previously been awarded in transfer or at COCC.

Military credit

Military credit will be evaluated as follows:

- The ACE guidelines will be used with discretion when considering military credit for courses (not occupations) documented on the DD-214 and/or other official training documents. Typically, credit is considered only when it is

equivalent to regular course offerings at COCC, when it is not duplicated and when it is applicable to a student’s degree requirements.

Advanced Placement (AP), the College Level Examination Program (CLEP) and International Baccalaureate (IB)

CLEP and IB results and international credentials will be evaluated as follows:

- Credit will normally be awarded following approved guidelines from COCC academic departments. Typically, credit is considered only when it is equivalent to regular course offerings at COCC and when it is not duplicated. AP and CLEP test scores are accepted as follows:

Advanced Placement (AP) will be evaluated at COCC as listed below.

AP Language and Composition, score 3+WR 121
 AP Lit and Comp, score 3+ 4 credits in one of: ENG 104, 105, 106, 107, 108, 109
 (No writing credits earned with Literature and Comp tests)

AP French Language, score 3FR 101, 102, 103
 AP French Language, score 4FR 103, 201, 202
 AP French Language, score 5FR 201, 202, 203
 AP Spanish Language, score 3SPAN 101, 102, 103
 AP Spanish Language, score 4SPAN 103, 201, 202
 AP Spanish Language, score 5SPAN 201, 202, 203

AP Biology, score 4+BI 101, 102, and 103
 AP Chemistry, score 4+CH 221, 222, 223
 AP Physics B, score 4+PH 201, 202, 203
 AP Physics C, score 5PH 201, 202, 203
 AP Physics C, Mechanics, score 4+PH 211
 AP Physics C, Elect, score 4+PH 212

AP Math Calculus AB, score 3MTH 251
 AP Math Calculus AB, score 4+MTH 251, 252
 AP Math Calculus BC, score 3MTH 251, 252
 AP Math Calculus BC, score 4+MTH 251, 252, 253
 AP Statistics, score 4+MTH 243

AP Comp Science A, score 4+CIS 161
 AP Comp Science AB, score 3CIS 161
 AP Comp Science AB, score 4+CIS 161, 162

AP US Government, score 3-5PS 201
 AP US History, score 4+HST 201
 AP European History, score 3+HST 101, 102
 AP Psych, score 3+ 4 credits, psychology prefix, discipline studies list
 AP Microeconomics, score 3+EC 201
 AP Macroeconomics, score 3+EC 202
 AP World History, score 4+8 credits, history electives (not discipline studies)

College Exam Program (CLEP) will be evaluated at COCC as listed below.

The following scores are listed as minimum.

CLEP English Comp, No credit, prefer challenge
 CLEP Humanities, score 50+9 credits of Arts and Letters discipline studies list
 CLEP Am Lit, score 50+ENG 253, 254, 255
 CLEP Eng Lit, score 50+ENG 101, 102, 103

CLEP Foreign Language, (no more than 12 credits per language)
 French: score 50+FR 101, 102, 103
 French: score 59+FR 201, 202, 203
 Spanish: score 50+SPAN 101, 102, 103
 Spanish: score 60+SPAN 201, 202, 203

CLEP General Math No credit
 CLEP College Algebra, score 50+MTH 111
 CLEP Calculus with Elem. Function, score 50+MTH 251
 CLEP Calculus with Elem. Function, score 60+MTH 251, 252

CLEP Biology, score 50+ BI 101, 102, 103
 CLEP Chemistry, score 50+ CH 221, 222, 223
 CLEP General Exam in Natural Sciences,
 score 50+9 non-lab science credits for “additional courses” or electives

CLEP Princ. of Mgmt., score 70+ equivalent course credit as elective in business
 CLEP Accounting, score 70+ equivalent course credit as elective in business
 CLEP Intro Business Law, score 70+ equivalent course credit as elective in business
 CLEP Princ. of Marketing, score 70+ equivalent course credit as elective in business

CLEP US History I, score 50+HST 201
 CLEP US History II, score 50+HST 202
 CLEP Western Civ I, score 50+HST 101
 CLEP Western Civ II, score 50+HST 103
 CLEP both Western CIV I and II, scores of 50+ HST 101, 102, 103
 CLEP Sociology, score 50+SOC 201
 CLEP Microeconomics, score 50+ EC 201
 CLEP Macroeconomics, score 50+ EC 202

Students may arrange to take the CLEP tests at the COCC Tutoring Center, 541-383-7539.

IB will be evaluated at COCC as listed below

COCC recognizes International Baccalaureate (IB) achievement by awarding credit to students who score 5 or above on Standard or High-level IB exams. A grid outlining how credit will be awarded is maintained on the COCC website. Credit is applied to a student’s record after the student has been admitted to COCC and official transcripts or score reports have been received by the Admissions and Records office. Students should allow 6-8 weeks for credit to be evaluated and to appear in their student records.

International credentials

International credentials will be evaluated using the following principles:

- Coursework must be completed at a nationally recognized, university-level institution and must be at a level of achievement comparable to COCC’s A, B, C and D grades. Note that a “D” will not be accepted for the AAOT degree and foundational requirements and for some programs. See individual program descriptions, pages 47-173. The applicability of such transfer credit will be evaluated as is credit from U.S. institutions.
- NAFSA: Association of International Educators and American Association of College Registrars and Admissions Officers (AACRAO) guidelines will be used in evaluating the credentials.
- The student will pay for any costs associated with international transcript evaluations.

It is the responsibility of each student with transcripts from foreign universities to have the transcript translated (if necessary) and evaluated for acceptance toward a COCC certificate or degree. The student must use a member of the National Association of Credential Evaluation Services. Details on foreign transcript evaluation are available at the COCC Admissions and Records office, Boyle Education Center. English taught outside the United States may not meet COCC’s English composition requirement. Degrees from foreign countries do not waive the general education or writing competency requirements.

TRANSFERRING CREDITS TO A FOUR-YEAR UNIVERSITY

As a general rule, four-year institutions of the Oregon University System will accept up to 124 lower-division quarter hours of transferable college credit. It is ultimately the responsibility of the students to know and meet the course requirements of the four-year college or university to which they wish to transfer. Students may obtain assistance from academic advisors.

Grades of A, B or C earned in transfer courses (numbered 100-299) are generally accepted by other colleges; other grades may have limited transferability. COCC has also made arrangements with select programs at four-year colleges and universities for the transfer of certain Career and Technical Education (CTE) courses.

Students seeking a Bachelor of Arts or a Bachelor of Science degree should be aware of foreign language and other degree or major-specific requirements. See pages 34-35 for a listing of degree requirements between COCC and various universities.

STUDENT EDUCATIONAL RECORDS AND DIRECTORY INFORMATION

Enrollment Services – Admissions & Records maintains all official academic records of enrolled students including transcripts, registration forms, transfer credits and degree evaluations. For record-keeping purposes, the College considers Web registration as part of a student's official record. Enrollment Services – Financial Aid maintains all student aid and scholarship records.

Central Oregon Community College follows the Federal Health Education and Welfare Guidelines for the Family Education Rights and Privacy Act of 1974 – Pell-Buckley Amendment (FERPA), which gives students attending post-secondary institutions the right to inspect their educational records. Those rights are:

1. The right to inspect and review their education records within 45 days of the day COCC receives a request for access.

Students should submit to the registrar written requests that identify the specific record(s) they wish to inspect. The registrar will make arrangements and notify the student of the time and place where the records may be inspected.

The College reserves the right to withhold transcripts from students who are in debt to the institution. Students have the right to discuss the matter with a representative empowered to resolve such disputes.

- 2 The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. Students should write the registrar, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, COCC will notify and advise the student of the decision and of his or her right to a hearing regarding the request for amendment. The College also

will provide additional information regarding the hearing procedures.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by COCC in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom COCC has contracted (such as an attorney, auditor or collection agent); a person serving on the Board of Directors; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by COCC to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-5901.

DIRECTORY/RELEASE OF INFORMATION

The College does not publish a student directory. Requests for directory information must clearly state the student's name.

Central Oregon Community College considers the following information to be directory information and may release it if requested on an individual basis:

- student's full name
- terms of attendance (not daily attendance)
- major field of study
- full- or part-time enrollment status
- degrees, certificates and honors awarded
- address and telephone number
- email address
- participation in officially recognized activities and sports
- most recent previous school attended
- class standing (freshman or sophomore status)

Students who do not wish the above information to be released by the College must submit a signed statement requesting that this information be withheld. Contact Enrollment Services for the necessary form and additional information. The request to withhold information remains in effect until the student submits a signed statement indicating that directory information may be released. Students should keep the College notified of current addresses and telephone numbers. Students can update this information through the College website, www.cocc.edu, via the Bobcat Web Account.

Information such as grades, progress in coursework, financial aid status and class schedule will not be released, except as authorized by law. If students wish to have this information released to parent/guardians, employers or other non-college entities, students must submit a "Release of Information" form, in writing, to Enrollments Services-Admissions and Records in the Boyle Education Center. The release is valid until June 30 of each year and must be refiled annually.

RELEASE OF DIRECTORY INFORMATION FOR MILITARY RECRUITING PURPOSES

Under the Solomon Amendment Interim Rule to implement the National Defense Authorization Act of 1995 and of 1996, and the Omnibus Consolidated Appropriations Act, 1997, schools receiving Title IV funding must provide military access to directory information for students 17 years of age or older. For purposes of the act, directory information is defined as name, address, telephone listing, date and place of birth, level of education, degrees received and the educational institution in which the student most recently was enrolled. Students who have formally requested COCC to withhold all directory information from third parties will not be included.

SOCIAL SECURITY NUMBER/ INFORMATION CONSENT

The College adheres to the following policy statement of the Oregon Department of Community Colleges and Workforce Development:

"Providing your social security number is voluntary. If you provide it, the College will use your social security number for keeping records, doing research, aggregate reporting, extending credit and collecting debts. Your social security number will not be given to the general public. If you choose not to provide your social security number, you will not be denied any rights as a student. Providing your social security number means that you consent to use of the number in the manner described."

OAR 589-004-0400 authorizes Central Oregon Community College to ask students to provide their social security numbers. The numbers will be used by the college for reporting, research and record keeping. The numbers will also be provided by the college to the Oregon Community College Unified Reporting System (OCCURS), which is a group made up of all community colleges in Oregon, the State Department of Community Colleges and Workforce Development and the Oregon Community College Association. OCCURS gathers information about students and programs to meet state and federal reporting requirements. It also helps colleges plan, research and develop programs. This information helps the colleges to support the progress of students and their success in the workplace and other education programs.

OCCURS or the College may provide a student's social security number to the following agencies or match it with records from the following systems:

- State and private universities, colleges and vocational schools, to find out how many community college students go on with their education and to find out whether community college courses are a good basis for further education.
- The Oregon Employment Department, which gathers information, including employment and earnings, to help state and local agencies plan education and training services to help Oregon citizens get the best jobs available.
- The Oregon Department of Education, to provide reports to local, state and federal governments. The information is used to learn about education, training and job market trends for planning, research and program improvement.
- The Oregon Department of Revenue and collection agencies only for purposes of processing debts and only if credit is extended to the student by the College.

State and federal law protects the privacy of student records. The social security number will be used only for the purposes listed above.

CONCERNS PROCEDURE

COCC has a college concerns procedure designed to provide employees, students and citizens a way to appeal decisions made within the College. Contact Enrollment Services – Admissions and Records, 541-383-7500 or welcome@cocc.edu, for a copy of the procedure, or view it online at www.cocc.edu/Human-Resources/Employment/Equal-Opportunity.

STUDENT RIGHTS AND RESPONSIBILITIES

In order to provide for the maximum safety, convenience and well-being of the total College community, certain standards of behavior have been established at COCC. Upon admission to the College, all students accept an unqualified commitment to adhere to such standards and to conduct themselves in a manner appropriate to an educational environment, one which reflects respect for themselves and the College. Such actions as academic dishonesty, abuse of property, harassment, any violation of federal or state law, possession of alcoholic beverages, and possession of illegal drugs are in violation of the College's standards and are cause for disciplinary action. The disciplinary action taken by the College covers a range of possibilities up to and including dismissal from college. A comprehensive Student Rights and Responsibilities guide is available online at www.cocc.edu/Student-Life/Student-Policies/.

ALCOHOL AND DRUG POLICY

In compliance with the Drug-Free Workplace Act of 1988 (Public Law 100-690, Title V, Subtitle D) and the Drug-Free Schools and Communities Act Amendment of 1989 (Public Law 101-226), it shall be the policy of Central Oregon Community College to maintain a drug-free campus for all employees and students. It is the responsibility of the College to notify students and staff of college policy. In accordance with this intent, the following policy is in effect:

Drug-free campus

The unlawful possession, use or distribution of illicit drugs and alcohol is prohibited on the College campus, in all College facilities or as part of any College-sponsored activity. Violators of this policy will be prosecuted to the full extent of state and federal law and, in addition, there are specific consequences for employees and for students which are stated in the College Drug-Free Campus Procedures.

Employees and students can find assistance, abuse prevention resources, and health risks information associated with the use of illicit drugs and the abuse of alcohol, and warning signals, online at <http://cocc.edu/Student-Life/Student-Resources/Abuse-Prevention-Information/>.

NONDISCRIMINATION POLICY

It is the policy of the Central Oregon Community College Board of Directors that there will be no discrimination or harassment on the basis of age, disability, gender, marital status, national origin, color, race, religion, sexual orientation or veteran status in any educational programs, activities or employment. Persons having questions about equal opportunity and nondiscrimination should contact the Equal Employment Officer, c/o COCC's Human Resources office, 541-383-7216.

Faculty, staff and students are protected from discrimination and harassment under Title VII of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972. Persons attending classes or events who need accommodation for a specific disability should contact the office of Services for Students with Disabilities at 541-383-7583. Persons needing physical accommodation for a college special event should contact ADA Coordinator, Joe Viola at 541-383-7775. Further inquiries may be directed to the Affirmative Action Officer, c/o COCC's Human Resources office, 541-383-7216.

SMOKING POLICY

Smoking is banned in all of the buildings of Central Oregon Community College. Smoking or the use of smokeless tobacco is limited to campus parking lots. Use in parking lots adjacent to buildings must be 25 feet away from any portion of the building. During high fire danger periods, smoking will be banned completely.

PRE-COLLEGE COURSEWORK

For those who find their academic skills need sharpening, the College maintains transitional courses designed to equip students with the basic writing, mathematics and reading skills needed to succeed at the college level. Using placement test results provided through the CAP Center, advisors will recommend courses that will provide the most help. These classes are pre-college level and non-transferable; however, they help build a solid foundation for success in future courses. They are extremely valuable for those who need preparation for success in retraining or re-entry into academic studies.

Two categories of instructional support are available:

1. Adult Basic Skills (ABS) courses which are non-credit
2. Pre-college level Basic Skills classes, which are credit courses numbered below 100. There are also 100-level courses addressing college success and study strategies available that will count toward degree completion and transfer to other institutions.

NON-CREDIT ADULT BASIC SKILLS

Non-credit Options

The Adult Basic Skills (ABS) program provides an effective and affordable means for a successful transition to the college setting. Support is offered for English language learners as well as GED and college prep students. Contact the Adult Basic Skills office, 541-504-2950, for details.

English Language Learning (ELL)

ELL classes are for students who need to learn to speak, read or write in English. Classes are offered at convenient times and locations throughout Central Oregon.

Basic Reading/Writing/Math for GED and College Preparation

The General Education Development (GED) certificate is accepted by colleges, training schools and employers nationwide as a high school equivalency. At COCC, students are prepared for and gain the necessary basic skills in reading, writing and math to pass the GED test and to enter college. Students also learn secondary skills to achieve success in college credit classes. Program fees are affordable and books are available to help with studies.

Adult High School Diploma (AHSD)

This program is for students who did not graduate from high school but are only a few credits short of a high school diploma. Credits may be earned by taking a combination of online high school courses through COCC's AHSD program and COCC credit classes. A fee is charged for each half credit plus students pay book expenses. A small fee is charged for the initial transcript evaluation.

Credit Recovery

Students who need high school credit and enjoy studying independently using the Internet can participate in COCC's credit recovery program. Public and private high school students can use these online courses to maintain their status during absences, regain failed credits or graduate early. Students are referred to this program by their high school counselor.

PRE-COLLEGE LEVEL CREDIT CLASSES

Credit Options

Several academic departments offer courses that prepare students for college-level courses that will count toward degree completion and are transferable to other institutions. These classes are frequently available online or in classrooms on the Bend, Madras, Prineville and Redmond campuses.

Check the current credit class schedule, [www.cocc.edu /Degrees-Classes/Schedule-of-Classes/](http://www.cocc.edu/Degrees-Classes/Schedule-of-Classes/), for convenient times and location.

Credit Classes by Subject

CIS 10	Keyboarding
CIS 70	Introduction to Computers: Windows
MTH 10	Developmental Mathematics
MTH 20	Pre-Algebra
MTH 29	Fraction Review Workshop
MTH 60	Algebra I
MTH 65	Algebra II
MTH 95	Intermediate Algebra
WR 60	Rhetoric and Critical Thinking I
WR 65	Rhetoric and Critical Thinking II
WR 95	Basic Writing II
HD 100CS	College Success
HD 100NT	Note Taking
HD 100OL	Exploring Online Learning
HD 100PM	Procrastination & Motivation
HD 100TM	Time Management
HD 100TT	Test Taking
HD 100VC	Values Clarification
HD 101	Study Strategies

PATHS TO SUCCESS: OVERVIEW OF COCC DEGREE OPTIONS

Central Oregon Community College offers a variety of transfer and Career and Technical Education (CTE) certificate and degree options, which allows students to choose their program based on their educational goals.

TRANSFER / BACHELOR DEGREE PREPARATION

Students wishing to attend COCC and use credits earned toward a bachelor's degree have several options that range from completing individual courses to completing an associate degree designed for transfer. COCC offers transfer students the following primary options for credentials in addition to the option of transferring individual credit: Oregon Transfer Module (OTM), Associate of Arts Oregon Transfer (AAOT), Associate of Science (AS), Associate of Science - Direct Transfer to Oregon State University (AS-DT), Associate of Science Oregon Transfer - Business (ASOT), and various articulation agreements with our two- and four-year partners.

ARTICULATION AGREEMENTS

Students may select individual courses at COCC and transfer them to a college or university. Students who will not complete a degree at COCC are encouraged to research degree requirements for the college at which they will earn their bachelor's degree and select courses accordingly. The Oregon public universities have equivalency guides to aid in selecting equivalent courses. Every college will have a policy on transfer credit that can usually be located on the destination college's website, often under the admissions information for transfer students. A COCC advisor or a CAP Center advisor can assist students with locating this information.

COCC partners with several colleges and universities to offer students a seamless transfer among institutions for certain majors. Current articulation agreements are as follows, and some degree requirements can be found on pages 47-174 in the catalog. Contact the COCC Admissions and Records office for requirements not listed on these pages.

Eastern Oregon University

Note that all of these degree options are available via online education and on the EOU Campus. Interested students should contact Brenda McDonald, EOU Distance Education coordinator, at 541-385-1137, or bmcdonal@eou.edu.

- Anthropology/Sociology
- Business Administration
- English
- Fire Services Administration
- History
- Physical Activity and Health
- Philosophy, Politics and Economics
- Public Administration
- Psychology
- Liberal Studies

Linn Benton Community College

Linn-Benton Community College (LBCC) offers a distance education program in Diagnostic Imaging (Radiological Technology). Students may complete their prerequisite coursework

through COCC and complete the LBCC Diagnostic Imaging coursework through a variety of distance education methods.

Linfield College

COCC's Associate of Applied Science in Nursing is articulated with Linfield College's Bachelor of Science degree in Nursing.

Oregon Health & Science University School of Nursing

COCC's Associate of Applied Science in Nursing is articulated with OHSU's Baccalaureate Completion Program for RNs.

Oregon Institute of Technology

- Specific COCC coursework is aligned with requirements for OIT's Medical Imaging Technology program.
- Associate of Science degree is articulated with OIT's Bachelor of Science degree in Information Technology - Health Informatics option.
- Associate of Applied Science in Aviation is articulated with OIT's Bachelor of Science in Operations Management.
- COCC's Apprenticeship programs are articulated with OIT's Bachelor of Applied Science in Technology and Management.

Oregon State University-Cascades

(See Associate of Science - Direct Transfer degree option, page 37.)

Portland Community College

Portland Community College offers an Associate of Applied Science degree in Medical Laboratory Technology. Students complete the program prerequisites and general education requirements at their local community college and the MLT program requirements through PCC's Distance Education program. Students in the Distance program will occasionally meet with PCC instructors; however, all of the MLT coursework is completed online. Clinical lab experiences are provided in Central Oregon at Cascade Health Care Community facilities.

Southern Oregon University

COCC's AAS in Early Childhood Education is articulated with Southern Oregon University's Bachelor of Arts/Sciences in Early Childhood Development.

CERTIFICATE AND ASSOCIATE DEGREE GENERAL REQUIREMENTS

Certificate/degree completion

Unless otherwise specified, the degrees listed in this catalog are intended to be offered for completion within the next two years. Unusual budget constraints or other changes in resources might necessitate discontinuing particular courses, programs or degrees. As far as resources allow, the College makes every effort to enable students to complete their degree programs in a timely manner. Students should work closely with advisors to obtain accurate information about their progress toward degrees and certificates. Students planning to transfer to another college are responsible for receiving and evaluating information from the destination institution.

A certificate or degree is awarded when it meets the appropriate course requirements listed in this catalog and the student has met the following guidelines:

- ❑ Complete the minimum number of credits required for the degree (see pages 34-42)
- ❑ Earn a minimum 2.0 cumulative grade-point average at COCC
- ❑ Owe no debt to the College
- ❑ Complete at least 24 degree-applicable residency credits for an associate's degree; 18 certificate-applicable residency credits for a certificate
- ❑ Meet at least one of the following criteria:
 1. Students have three years to complete their program under the catalog in which they began or any subsequent catalog.
 - a. The student's default catalog year is the year the student is admitted to COCC and the student may graduate under that default catalog year or either of the next two catalog years.
 - b. If the student has a break in enrollment of more than four consecutive terms, the student must reapply to COCC and the default catalog year will now be the year the student is readmitted.
 - c. The student's choice of catalog years is limited to two catalog years prior to the student's year of graduation. If the student does not graduate within three catalog years of student's admittance, the default catalog year will be updated yearly to the subsequent catalog year.
 2. The student transfers back to COCC other college credit and meets degree requirements listed in the current college catalog or the previous two catalogs.

When a student's completion of degree requirements coincides with the last term attended, the degree will be posted in that term. When the student uses transfer credit after an absence from the College, the degree will be posted in the term in which the degree evaluation is successfully completed, and when it has been determined that all degree requirements have been met.

Career and Technical Education certificates of completion

- Provide hands-on training in a variety of technical areas, with the goal of giving students the skills needed for various technical jobs (examples include dental assisting, drafting and medical transcription). Many certificates of completion allow students to stop at a variety of points, gain employment in the field and return at a later date for more advanced training.
- Range from one to six terms, noting that many of the allied health technical courses start fall term only (general education coursework can be done prior to, during or after completing technical courses).
- Require a minimum of 18 certificate-applicable COCC credits.

Some certificate requirements include limited general education coursework (including coursework in computation, human relations and communication). General Education courses must be completed at a "C" grade or higher. See individual program pages for a list of courses and requirements.

Multiple/concurrent degrees

Students applying for multiple or concurrent degrees must meet the degree requirements outlined above and as listed for each degree on the following pages. For each additional

degree, students must complete at least 15 COCC credits that are different from those used for the other degree(s) and are applicable to the additional degree requested.

Computer competency requirement

Some COCC associate degrees (AS, AAS and AGS) require students to demonstrate basic computer skills prior to graduation. To meet this requirement, students must successfully complete CIS 120 Computer Concepts, or pass Key Application and either LivingOnLine or Computer Fundamentals of the IC3 exams.

The IC3 exams may be taken at the COCC Tutoring and Testing Center or any authorized Certiport Testing Center. Locally, appointments can be made through the Tutoring and Testing Center located in the lower level of the Barber Library. A \$30 fee is charged for each test; one free retake is included in the \$30 fee. If a student needs to retake the exam a third time, another \$30 fee is charged. Passing two of three exams does not provide students with course credit; instead, a notation is placed on the student's record so that the testing may be used to meet degree requirements. Students who have proof they have previously received the IC3 certification will also receive a notation that the competency requirement has been met (documentation must be submitted to the Admissions and Records office).

Note: CIS courses may be required in some AS or AAS programs and the competency test will not substitute for that requirement. See individual program descriptions for details.

Graduation/Commencement Ceremony

Students who wish to earn a certificate or associate degree from COCC must submit a degree application to the Admissions and Records office at least two terms prior to the intended term of completion. After evaluation, students receive a copy of their degree evaluation confirming the completed courses that apply toward the certificate or degree program and indicating any remaining requirements. COCC provides advising toward its certificates and degrees; however, students are ultimately responsible for being informed about degree requirements and for selecting appropriate classes.

A commencement ceremony is held once each year in June, following the end of spring term, for students who have earned a certificate (45 credits or more) or an associate degree. All graduates who have completed their degrees in the previous academic year—beginning summer term—may participate. Those students who complete their required coursework in the summer term immediately following the commencement ceremony may also participate. Commencement information is sent in April to all students who applied for a degree or certificate. Students must submit their graduation application to the Admissions and Records office by May 1 in order for their name to appear in the commencement program. Students wishing to participate in the commencement ceremony must submit participation confirmation to the Admissions and Records office and attend the commencement rehearsal.

ASSOCIATE OF ARTS OREGON TRANSFER OUTCOMES

COCC outcomes are drawn from work accomplished by the Joint Boards Articulation Committee (JBAC). This is intended to ensure that courses used as general education courses meet equivalency requirements throughout public colleges and universities in Oregon.

Writing

As a result of completing the General Education Writing sequence, a student should be able to:

- Read actively, think critically, and write purposefully and capably for academic and, in some cases, professional audiences;
- Locate, evaluate, and ethically utilize information to communicate effectively; and
- Demonstrate appropriate reasoning in response to complex issues.

Information Literacy

As a result of taking General Education Writing courses infused with Information Literacy, a student who successfully completes should be able to:

- Formulate a problem statement;
- Determine the nature and extent of the information needed to address the problem;
- Access relevant information effectively and efficiently;
- Evaluate information and its source critically; and
- Understand many of the economic, legal, and social issues surrounding the use of information.

Speech/Oral Communication

As a result of taking General Education Speech/Oral Communication courses, a student should be able to:

- Engage in ethical communication processes that accomplish goals;
- Respond to the needs of diverse audiences and contexts; and
- Build and manage relationships.

Mathematics

As a result of taking General Education Mathematics courses, a student should be able to:

- Use appropriate mathematics to solve problems; and
- Recognize which mathematical concepts are applicable to a scenario, apply appropriate mathematics and technology in its analysis, and then accurately interpret, validate, and communicate the results.

Health

As a result of taking General Education Health courses, a student should be able to:

- Understand chronic health risks and how to implement holistic, lifestyle behavior change to enhance personal and community-wide safety, health and fitness.

Cultural Literacy

As a result of taking a designated Cultural Literacy course, learners would be able to:

- Identify and analyze complex practices, values, and beliefs and the culturally and historically defined meanings of difference.

Arts and Letters

As a result of taking General Education Arts and Letters* courses, a student should be able to:

- Interpret and engage in the Arts and Letters, making use of the creative process to enrich the quality of life; and
- Critically analyze values and ethics within a range of human experience and expression to engage more fully in local and global issues.

Social Science

As a result of taking General Education Social Science courses, a student should be able to:

- Apply analytical skills to social phenomena in order to understand human behavior; and
- Apply knowledge and experience to foster personal growth and better appreciate the diverse social world in which we live.

Science/Math/Computer Science

As a result of taking General Education Science/Math/Computer Science courses, a student should be able to:

- Gather, comprehend, and communicate scientific and technical information in order to explore ideas, models, and solutions and generate further questions;
- Apply scientific and technical modes of inquiry, individually, and collaboratively, to critically evaluate existing or alternative explanations, solve problems, and make evidence-based decisions in an ethical manner; and
- Assess the strengths and weaknesses of scientific studies and critically examine the influence of scientific and technical knowledge on human society and the environment.

*"Arts and Letters" refers to works of art, whether written, crafted, or performed and documents of historical or cultural significance.

ASSOCIATE OF ARTS OREGON TRANSFER DEGREE WORKSHEET

(All courses must be completed with a "C" or better.)
 Students must have a minimum cumulative GPA of 2.0 and must complete a total of 90 credits at the time the AAOT is awarded. Individual courses may only be used to fulfill one requirement.

Note: Both foundational requirements and discipline studies courses below must be a minimum of three (3) credits except for HHP which may be any number of credits. All elective courses may be any number of credits.

GENERAL EDUCATION Foundational Requirements (Courses numbered 199 or 299 will not fulfill Foundational Requirements.)

Writing - minimum of 8 credits
 WR 121 _____ cr
 WR 122 or WR 227 _____ cr

Oral Communication
 SP 111, 114, 115, 218 or 219 _____ cr

Mathematics
 MTH 105 or higher _____ cr

Health - 3 credits with HHP prefix
 Identical HHP activity courses (1 credit) can only be counted once in this section.

TOTAL CREDITS FOR AAOT DEGREE (90 credits) _____
--

_____ cr
 (continued on next page)

ASSOCIATE OF ARTS OREGON TRANSFER DEGREE WORKSHEET *(continued)*

About this degree option

Most students who intend to transfer will find that the Associate of Arts Oregon Transfer (AAOT) degree suits their needs as it is intended to meet the lower-division general education requirements for all Oregon public universities and some private colleges. The AAOT allows students to transfer with junior standing for registration purposes. Course, class standing or GPA requirements for specific majors, departments or schools are not necessarily satisfied by an AAOT degree.

Students who know their desired major should refer to the program description listed on pages 47-173 of this catalog. These descriptions list any courses recommended for specific majors. All courses should be aligned with the student’s intended program of study and the degree requirements of the baccalaureate institution to which the student plans to transfer. Students are encouraged to work closely with an advisor in the selection of courses.

Students may transfer prior to receiving an AAOT degree. However, they risk losing credits that are normally accepted within the degree or may fall short on the transfer institution’s general education requirements.

The degree is awarded as “Associate of Arts/Oregon Transfer.” The degree is not associated with a major.

Advantages

The AAOT is easily transferrable and is well suited for many “undecided” students. The principal advantage of the AAOT is that it fulfills the lower-division (freshman/sophomore) general education requirements for the baccalaureate degrees at all Oregon University System institutions. It guarantees that all general education credits that a student earned will be accepted as the general education requirements at the transfer institution.

Colleges which accept the COCC AAOT degree besides Oregon’s public universities include Evergreen State College (WA), Pacific Lutheran University (WA), Washington State University (WA), Concordia College (OR), George Fox College (OR), Linfield College (OR), Pacific University (OR), Marylhurst College (OR), University of Portland (OR), Warner Pacific College (OR) and Willamette University (OR).

Considerations

No formal agreements exist for this degree to meet basic skills and general education requirements at out-of-state colleges, although courses for COCC’s AAOT degree parallel many of them. Students transferring to an Oregon public university should review any foreign language and specialty course requirements of the transfer institution.

Entry requirements

Students are required to take COCC’s placement test prior to registration. As part of this degree, students should begin with the appropriate level of courses based on their placement test results. Students with credits from other institutions should send official transcripts to COCC’s Admissions and Records office prior to registering for classes; depending on courses taken, the placement test may be waived and credits may apply toward this degree.

Graduation requirements

Complete all requirements listed below:

- Complete all AAOT degree requirements, as listed on the previous page;
- Earn a minimum 2.0 cumulative COCC grade-point average;
- Complete at least 24 COCC degree-applicable credits;
- Submit a degree application to Admissions and Records;
- Owe no debt to the College;
- Fulfill catalog year requirement as outlined on page 32.

NOTES

- In some cases, students may also be able to use AAOT General Education courses to meet certain lower-division requirements in their intended majors. Caution is required, however, since the AAOT degree was not intended for this purpose. Students who have a major in mind, and also want to maximize the amount of AAOT coursework that will count toward it, should work closely with an academic advisor. General transfer information is available at: www.ous.edu/stucoun/transfer.
- Because the amount of coursework required for an AAOT degree corresponds to two academic years, degree recipients are considered juniors for purposes of registration at an Oregon University System institution. Keep in mind, however, that the AAOT does not guarantee that two additional years will suffice to earn a baccalaureate degree. This is because the AAOT does not give students junior-standing in their majors. Neither does it guarantee entrance into a competitive major. Students may need to take additional introductory work to prepare for certain majors and should check with an advisor

regarding availability at their local community colleges. In addition, it is common for students to change their majors and find that they must take introductory work in the new area.

- Students and academic advisors should recognize that although the AAOT provides an excellent structure for many students—particularly those who are unsure of their primary academic focus—it is not ideal for everyone. In particular, it does not articulate well with certain majors such as engineering, biological and physical sciences, and the fine and performing arts. Students contemplating these majors cannot easily accommodate their highly specific prerequisite coursework into the AAOT framework. In general, an AAOT recipient who is pursuing any course of study that is credit-heavy at the major lower-division level may have to take additional lower-division coursework, specific to the major after transfer.
- Students should review any foreign language and specialty course requirements of the transfer institution.

ASSOCIATE OF SCIENCE DEGREE WORKSHEET

GENERAL EDUCATION Foundational Requirements (19-24 credits) All courses must be completed with a "C" grade or better.

Writing - minimum of 8 credits
 WR 121 _____ cr
 WR 122 or 227 _____ cr

Health (if required by destination college)

GENERAL EDUCATION Discipline Studies

Discipline studies courses are listed on pages 44 and 45.

The following courses should be chosen with the assistance of an advisor and in consideration of transfer institution general education and major requirements.

Arts and Letters
 Choose two (2) courses from the discipline studies list.

Social Science
 Choose two (2) courses from the discipline studies list.

Science/Math/Computer Science
 Choose two (2) courses from the discipline studies list.

ELECTIVES

Choose enough elective credits to reach a minimum total of 90 overall degree credits. Elective classes must be numbered 100 or above and can be any combination of general electives, Career and Technical Education (CTE) courses (12 credits maximum, see page 49 for list) or CWE/HHP/performance classes (15 credits maximum). Students transferring to an Oregon public university should review any foreign language and specialty course requirements of the transfer institution.

TOTAL CREDITS FOR AS DEGREE (90 credits) _____
--

AS PROGRAM REQUIREMENTS

Courses must be 100-level and above, and should be chosen with the assistance of an advisor and in consideration of transfer institution major requirements.

(continued on next page)

ASSOCIATE OF SCIENCE DEGREE WORKSHEET *(continued)***About this degree option**

The Associate of Science (AS) degree is designed as a transfer degree for students who want to transfer to a specific four-year college or university in a specific major. The student and advisor work closely together to tailor the courses to meet the transfer institution's lower-division general education and major requirements.

The degree is awarded as "Associate of Science" on the transcript and diploma. The degree is not associated with a major. COCC offers Associate of Science degrees with an emphasis in the following areas:

Aviation (see page 56)

Business (see page 66)

Engineering (see page 98)

Exercise Science (see page 101)

Outdoor Leadership (see page 140)

Advantages

Students can meet all or most general education and/or major requirements for a specific transfer college or university if appropriate courses are chosen. The AS degree works well for students in more technical majors (e.g., science, business, pre-engineering), but can also be designed for other majors.

Considerations

Based on the courses chosen between the student and advisor, the AS degree is narrowly focused toward a specific transfer college or university's lower-division requirements. Therefore, the degree can limit a student's flexibility in choosing both the major and the transfer college.

The AS degree does not assure junior standing at Oregon transfer universities and does not guarantee that a student will meet all lower-division general education and major requirements. However, with careful academic advising and consideration of transfer institution requirements, the AS degree can be designed to do so.

Students transferring to an Oregon public university should review any foreign language and specialty course requirements of the transfer institution.

Entry requirements

Students are required to take COCC's placement test prior to registration. As part of this degree, students should begin with the appropriate level of courses based on their placement test results. Students with credits from other institutions should send official transcripts to COCC's Admissions and Records office prior to registering for classes; depending on courses taken, the placement test may be waived and credits may apply toward this degree.

Graduation requirements

Complete requirements listed below:

- Complete all AS degree requirements, as listed on the previous page;
- Earn a minimum 2.0 cumulative COCC grade-point average;

- Complete at least 24 COCC degree-applicable credits;
- Submit a degree application to the Admissions and Records office;
- Owe no debt to the College; and
- Fulfill catalog year requirement as outlined on page 32.

Associate of Science - for students transferring to Oregon State University-Cascades

(See individual program descriptions for course requirements.)

- Designed for students who plan to transfer to and receive a degree from Oregon State University-Cascades.
- Guarantees that students meet all lower-division general education and major-specific requirements for all OSU-Cascades programs.
- Guarantees that students will transfer with junior standing for registration purposes.
- Degree is noted as "Associate of Science" on the transcript and diploma.

Associate of Science - Oregon Transfer, Business Degree

(See page 66 for checklist of courses and requirements.)

- Designed for students with a high level of certainty about their decision to earn a bachelor's degree with a major in business from an Oregon public university.
- Includes the courses required for entrance not only into an Oregon public university but to the university's business college as well.

ASSOCIATE OF APPLIED SCIENCE DEGREE WORKSHEET

GENERAL EDUCATION Foundational Requirements

Courses must be completed with a "C" grade or better.

Writing and Communications

Three (3) credits in a writing course as specified by program (WR 65 through 100-level).

Mathematics

Three (3) credits in a math course as specified by program.

Human Relations

A human relations course is required for all AAS degrees. Check program requirements for the course options (such as BA 285, PSY 101, or SP 218).

<p>TOTAL CREDITS FOR AAS DEGREE</p> <p>(90 credits minimum) _____</p>
--

(continued on next page)

ASSOCIATE OF APPLIED SCIENCE DEGREE WORKSHEET *(continued)***About this degree option**

The Associate of Applied Science degree trains students in specific technical areas to prepare for immediate employment upon graduation. The checklist provides an outline of the degree; however, specific requirements for each of the Career and Technical Education (CTE) programs are provided on pages 47-174.

Advantages

The AAS degree provides students with the hands-on technical skills needed for employment or certification/licensure in a variety of career areas. Students should note that while the AAS degree is generally a two-year degree option for full-time students, COCC provides certificates of completion in many other Career and Technical Education (CTE) areas which require only one to six terms to complete. See individual program descriptions for options.

Considerations

The degree is not intended to transfer, though most general education and some Career and Technical Education (CTE) courses are eligible for transfer.

Entry requirements

Students are required to take COCC's placement test prior to registration. As part of this degree, students should begin with the appropriate level of courses based on their placement test results. Students with credits from other institutions should send official transcripts to COCC's Admissions and Records office prior to registering for classes. Depending on courses taken, the placement test may be waived and credits may apply toward this degree.

Graduation requirements

Complete all requirements listed below:

- Complete all AAS degree requirements, as listed on pages 47-174;
- Earn a minimum 2.0 cumulative COCC grade-point average;
- Complete at least 24 COCC degree-applicable credits;
- Submit a degree application to the Admissions and Records office;
- Owe no debt to the College; and
- Fulfill catalog year requirement as outlined on page 32.

<p>TOTAL CREDITS FOR AGS DEGREE</p> <p>(90 credits) _____</p>
--

(continued on next page)

ASSOCIATE OF GENERAL STUDIES DEGREE WORKSHEET *(continued)***About this degree option**

For students who are not pursuing specific transfer or Career and Technical Education (CTE) programs, the Associate of General Studies (AGS) degree provides an alternative to pursue a broad general education background and accomplish personal educational goals. It is important for a student to work closely with an advisor in designing a course plan for this degree.

Advantages

The AGS awards a degree for completion of college-level coursework in core skills and general education and allows students flexibility to customize more than half of the degree's required number of credits. It can be used to enhance employment, meet sponsoring agency requirements, and/or meet unusual baccalaureate requirements.

Considerations

The degree is not transferable as a whole and does not meet certification requirements for any Career and Technical Education (CTE) area.

It is important to note that the AGS degree does not guarantee that a student will meet all lower-division general education and major requirements; however, with careful academic advising and in consideration of transfer institution requirements, the AGS degree may be designed to do so.

Entry requirements

Students are required to take COCC's placement test prior to registration. As part of this degree, students should begin with the appropriate level of courses based on their placement test results. Students with credits from other institutions should send official transcripts to COCC's Admissions and Records office prior to registering for classes; depending on courses taken, the placement test may be waived and credits may apply toward this degree.

Graduation requirements

Complete all requirements listed below:

- Complete all AGS degree requirements, as listed on the previous page;
- Earn a minimum 2.0 cumulative COCC grade-point average;
- Complete at least 24 COCC degree-applicable credits;
- Submit a degree application to the Admissions and Records office;
- Owe no debt to the College; and
- Fulfill catalog year requirement as outlined on page 32.

OREGON TRANSFER MODULE *(All courses must be completed with a "C" or better.)*

GENERAL EDUCATION Foundational Requirements

Writing

Two college-level English Composition courses

Oral Communication

SP 111

Mathematics

MTH 105 or higher

GENERAL EDUCATION Discipline Studies

Arts and Letters

Three courses from the COCC arts and letters discipline studies list (page 44).

Science/Math/Computer Science

Three courses from the COCC science/math/computer science discipline studies list (page 44), including at least one biological science with a lab.

Social Science

Three courses from the COCC social science discipline studies list (page 45).

ELECTIVES

As required to bring overall credits to 45 credits. Courses must be from COCC's discipline studies list, pages 44 and 45.

About this degree option

The Oregon Transfer Module is designed for students who plan to transfer to an Oregon community college or public university. Composed of 45 credits in writing, math, speech, social sciences, sciences, arts and letters, and electives, it is similar to many institutions' freshman year requirements.

Advantages

Completion of the OTM guarantees that another Oregon community college or public university will accept all credits toward the institution's general education requirements and depending on courses chosen, may meet some lower-division major requirements. Additionally, the Oregon Transfer Module provides students with documentation of completion of a standard set of commonly accepted courses.

Considerations

Depending on the institution, students may be required to take additional general education courses. Students transferring to an Oregon public university should review any foreign language and specialty course requirements of the transfer institution.

Entry requirements

Students are required to take COCC's placement test prior to registration. As part of this degree, students should begin with the appropriate level of courses based on their placement test results. Students with credits from other institutions should send official transcripts to COCC's Admissions and Records office prior to registering for classes. Depending on courses taken, the placement test may be waived and credits may apply toward this degree.

Completion requirements

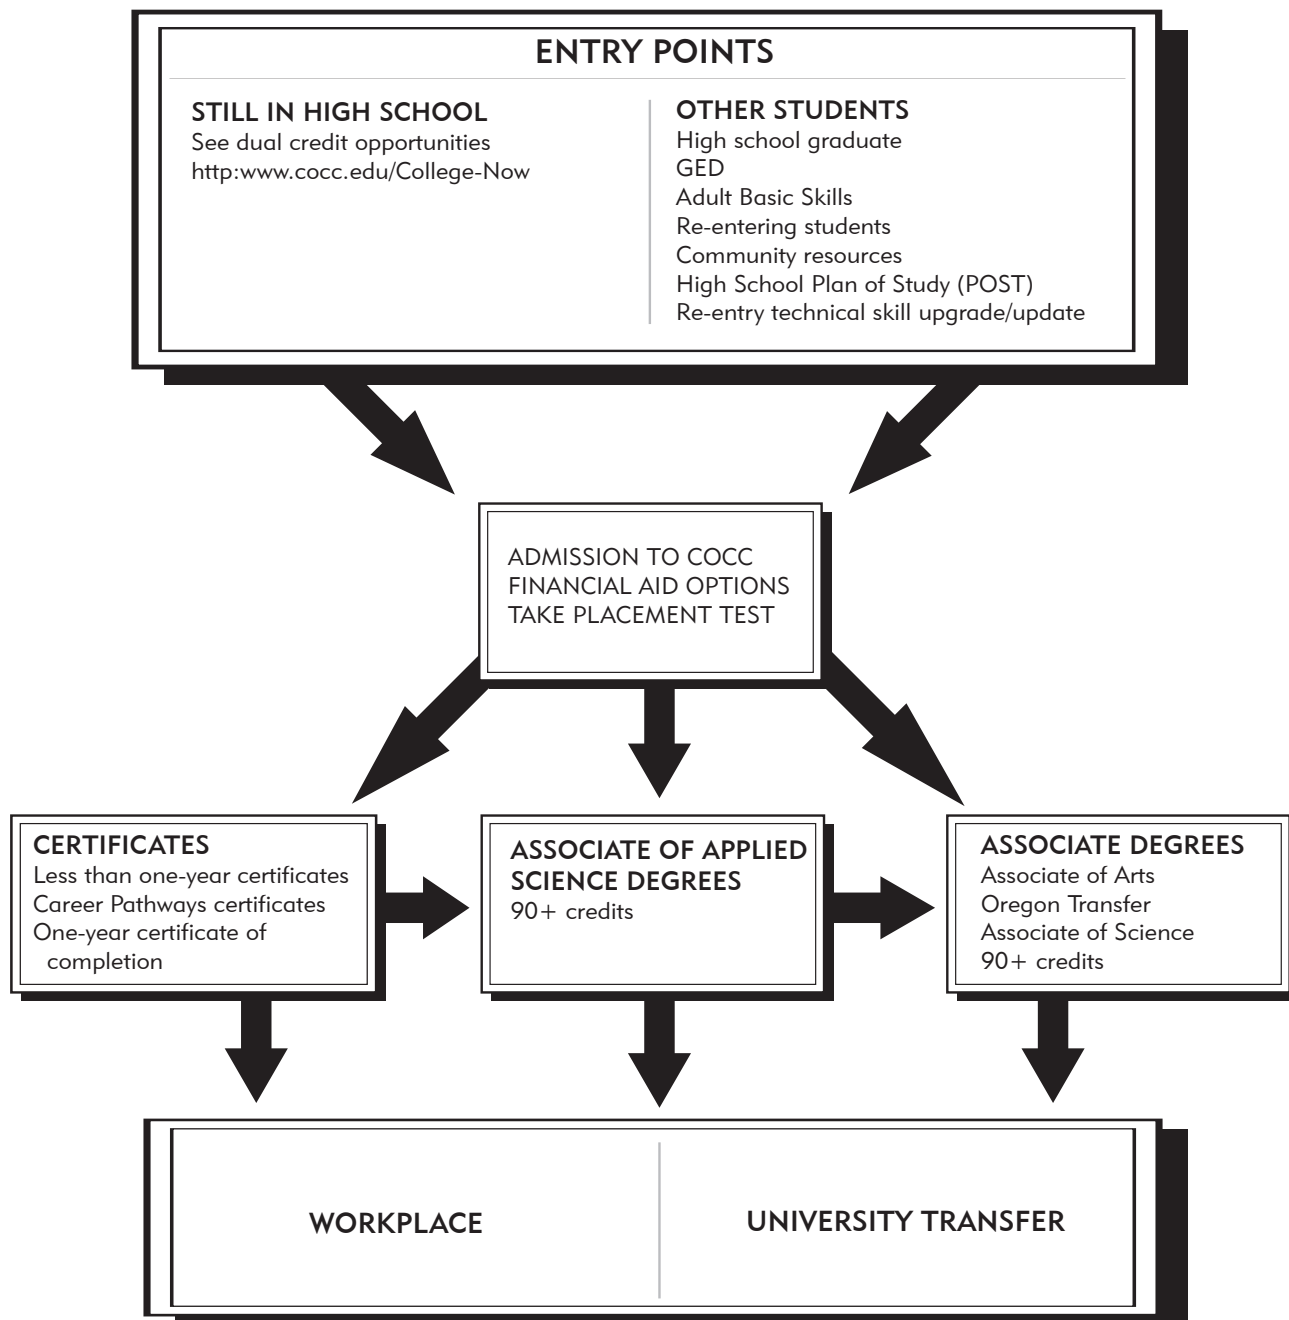

Complete all requirements listed below:

- Complete all OTM requirements as listed;
- Earn a minimum 2.0 cumulative COCC grade-point average;
- Complete at least three OTM-applicable credits at COCC;
- Submit a degree application to the Admissions and Records office;
- Owe no debt to the College; and
- Fulfill catalog year requirement as outlined on page 32.

CAREER PATHWAYS

Paths to Success: Degree Options

DISCIPLINE STUDIES COURSES

The following COCC courses have been approved by the College's Curriculum Committee for use as General Education Discipline Studies courses for the AAOT, AS, AAS and AGS degrees.

Arts and Letters discipline studies course options

*ARH 201, 202, 203 Intro to Art History I, II, III (4 credits each)
 *ARH 206 Modern Art History (4 credits)
 *ARH 207 Native American Art History (4 credits)
 ART 101 Intro to the Visual Arts (4 credits)
 ART 115 Basic Design: 2-D (3 credits)
 ART 116 Basic Design: Color (3 credits)
 ART 117 Basic Design: 3-D (3 credits)
 ART 131, 132, 133 Drawing I, II, III (3 credits each)
 CHN 201, 202, 203 Second Year Mandarin Chinese I, II, III (4 credits each)
 ED 112 Children's Literature Across the Curriculum (3 credits)
 ENG 104 Intro to Literature: Fiction (4 credits)
 ENG 105 Intro to Literature: Drama (4 credits)
 ENG 106 Intro to Literature: Poetry (4 credits)
 *ENG 107 Western World Literature: Ancient (4 credits)
 *ENG 108 Western World Literature: Middle Ages (4 credits)
 *ENG 109 Western World Literature: Modern (4 credits)
 ENG 140 Shakespeare Review in Ashland (3 credits)
 ENG 201, 202 Shakespeare (4 credits each)
 *ENG 204, 205 Survey of British Literature I, II (4 credits each)
 ENG 212W Autobiography (4 credits)
 *ENG 221 Intro to Children's Literature (4 credits)
 ENG 232C Topics in American Literature: Contemporary Fiction (4 credits)
 ENG 232M Topics in American Literature: Literature and Medicine (4 credits)
 *ENG 250 Intro to Folklore and Mythology (4 credits)
 *ENG 253, 254 Survey of American Literature I, II (4 credits each)
 ENG 256 Folklore and U.S. Popular Culture (4 credits)
 *ENG 260 Intro to Women Writers (4 credits)
 FA 101 Introduction to Film (3 credits)
 FA 125 World Cinema (4 credits)
 FA 257 Literature into Film (4 credits)
 *FR 201, 202, 203 Second Year French I, II, III (4 credits each)
 *FR 211, 212, 213 French Conversation & Culture I, II, III (3 credits each)
 *GER 201, 202, 203 Second Year German I, II, III (4 credits each)
 *GER 211, 212, 213 German Conversation & Culture I, II, III (3 credits each)
 HUM 106 British Life & Culture (3 credits)
 *HUM 210 Culture and Literature of Asia (4 credits)
 *HUM 211 Culture and Literature of Africa (4 credits)
 *HUM 212 Culture and Literature of the Americas (4 credits)
 *HUM 213 Culture and Literature of the Middle East (4 credits)
 HUM 230 Immigrant Experience in American Literature (4 credits)
 *HUM 240 Native American Literature & Culture (4 credits)
 *HUM 255 Cultural Diversity in Contemporary American Literature (4 credits)
 *HUM 256 Introduction to African-American Literature (4 credits)
 HUM 261 Popular Culture: Science Fiction (4 credits)
 *HUM 262 Popular Culture: The American Western (4 credits)
 HUM 263 Popular Culture: Detective Stories (4 credits)
 HUM 264 Popular Culture: Spy Thriller (4 credits)
 HUM 265 Popular Culture: Noir Film and Fiction (4 credits)
 HUM 266 Popular Culture: Travel Literature (4 credits)
 HUM 267 Popular Culture: Counterculture (4 credits)
 HUM 268 Digital Games Culture (4 credits)
 *IT 201, 202, 203 Second Year Italian I, II, III (4 credits)
 MUS 101 Music Fundamentals (3 credits)
 MUS 111, 112, 113 Music Theory IA, IB, IC (3 credits each)
 MUS 211, 212, 213 Music Theory IIA, IIB, IIC (3 credits each)
 MUS 201, 202, 203 Understanding Music (3 credits each)
 *MUS 205 Introduction to Jazz History (3 credits)
 MUS 207 History of Rock Music (3 credits)
 PHL 170 Philosophy of Love and Sex (3 credits)
 PHL 200 Fundamentals of Philosophy (4 credits)
 PHL 201 Problems of Philosophy - Epistemology (3 credits)
 PHL 202 Problems of Philosophy - Ethics (3 credits)
 PHL 203 Problems of Philosophy - Logic (3 credits)
 PHL 205 Medical Ethics (3 credits)
 *SPAN 201, 202, 203 Second Year Spanish I, II, III (4 credits each)
 *SPAN 211, 212, 213 Spanish Conversation and Culture I, II, III (3 credits each)
 *SP 115 Intro Intercultural Communication (3 credits)
 SP 230 Introduction to the Rhetoric of Film (3 credits)
 SP 234 Introduction to Visual Rhetoric
 SP 241 Media, Communication, Society (4 credits)
 TA 141, 142, 143 Acting I, II, III (3 credits each)

TA 200 Intro to Theater (3 credits)
 TA 207 Readings in Theater (3 credits)
 WR 240 Introduction to Creative Writing: Nonfiction (4 credits)
 WR 241 Introduction to Creative Writing: Fiction (4 credits)
 WR 242 Introduction to Creative Writing: Poetry (4 credits)
 WR 243 Introduction to Creative Writing: Scriptwriting (4 credits)
 *WS 101 Women's and Gender Studies (4 credits)

Science/Math/Computer Science discipline studies course options

**ANTH 234 Biological Anthropology (4 credits)
 ANTH 235 Evolution of Human Sexuality (4 credits)
 ANTH 237 Forensic Anthropology (4 credits)

ADDICTIONS STUDIES AND COUNSELING

Certificate of Completion
78-79 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Addictions Studies and Counseling

PROGRAM DESCRIPTION

The Addictions Studies and Counseling Certificate program trains individuals in the knowledge, attitudes and skills needed for employment in the drug- and alcohol-treatment field as entry-level counselors working under supervision in treatment centers. It is designed to prepare the student to take the Oregon Certified Alcohol and Drug Counselor (CADC) I exam upon completion of the coursework and 1,000 hours of supervised experience. The program also provides coursework in the addictions field to other human service and criminal justice workers who help addicted persons and their families.

All COCC students enrolled in Addictions Studies (which includes requirements for practical experience) may have to pass a Criminal Background Check (CBC) as a condition of their acceptance into a practicum for training. Students who do not pass the CBC may not be eligible to complete training at affiliated practicum sites, to sit for certification exams, or to be hired for some professional positions. Students whose past history may interfere with the ability to complete the program of study or to obtain licensure or certification in their chosen field should contact the appropriate state board or the program director.

ASSOCIATE OF APPLIED SCIENCE

After obtaining the CADC I credential, students looking for more advanced opportunities in the field should complete the Associate of Arts or the Associate of Applied Science degrees and acquire further work experience. The student could then sit for the CADC II exam.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Travel costs for practicum, three terms, costs based on location
- State Board exams (ACCBO): \$50 application fee; \$195 exam fee
- Videotaping fees for two terms: approximately \$50
- Background check for practicum placement: approximately \$50

PROGRAM PREPARATION AND PREREQUISITES

Recommended prior to entry in program (HS) courses

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement OR completion of WR 65/75/95 (C or better)
- Students should have basic computer competency skills

REGISTRATION INFORMATION

Students may take non-program support courses, particularly writing, if they need to build skills related to the prerequisites.

HS 161, HS 162, and HS 208 require completion of WR 121 WR 122 or WR 227, MTH 31 or higher, and HS 100 prior to enrollment.

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the program (HS) courses; students who do not meet this standard will not be awarded a certificate.

Other requirements may be found in the Addictions Studies Student Handbook available at www.cocc.edu/Addictions-Studies.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

The Addictions Studies program is a preparation for the state certification for becoming an Oregon Certified Alcohol and Drug Counselor (CADC) Level 1. This certification requires that students complete 1,000 hours of practicum (internship). Some practicum sites require that students successfully complete a criminal background check.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often most credits are considered as elective credits, transferrable to public or private baccalaureate institutions.

MINIMUM GPA OR GRADE REQUIREMENTS

All courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

A student may be considered ineligible for continued enrollment in the program if:

- The student has failed to satisfactorily complete a given Human Services/Addictions Studies course after re-enrolling in that course once (1 time).
- The student has two chances to pass a Human Services/Addictions Studies course.

PROGRAM COURSE REQUIREMENTS

General education/foundational requirements

WR 121	English Composition	4
MTH 031	Health Care Math (or higher)	3-4
WR 122	English Composition	4
or WR 227	Technical Writing	
HS 100	Orientation to Addictions Studies/Human Services	1

ADDICTIONS STUDIES AND COUNSELING

Associate of Applied Science (AAS) Degree
93-95 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Addictions Studies and Counseling

PROGRAM DESCRIPTION

The AAS degree prepares students academically for the CADC II certification. Individuals will need an additional 3,000 hours supervised experience (for a total of 4,000) to sit for this exam. For more information: www.acco.com/certifications.php

All COCC students enrolled in Addictions Studies (which includes requirements for practical experience) may have to pass a Criminal Background Check (CBC) as a condition of their acceptance into a practicum for training. Students who do not pass the CBC may not be eligible to complete training at affiliated practicum sites, to sit for licensure or certification exams, or to be hired for some professional positions. Students whose past history may interfere with the ability to complete the program of study or to obtain licensure or certification in their chosen field should contact the appropriate state board or the program director.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Travel costs for practicum, three terms, costs based on location
- State Board exams (ACCBO): \$50 application fee; \$195 exam fee
- Videotaping fees for two terms: approximately \$50
- Background check for practicum placement: approximately \$50

MINIMUM GPA OR GRADE REQUIREMENTS

All HS courses must be completed with a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

A student may be considered ineligible for continued enrollment in the program if:

- The student has failed to satisfactorily complete a given Human Services/Addictions Studies course after re-enrolling in that course once (1 time).
- The student has two chances to pass a Human Services/Addictions Studies course.

REGISTRATION INFORMATION

Students may take non-program support courses, particularly writing, if they need to build skills related to the prerequisites.

HS 161, HS 162, and HS 208 require completion of WR 121, WR 122 or WR 227, MTH 31 or higher, and HS 100 prior to enrollment.

PROGRAM COURSE REQUIREMENTS

General education/foundational requirements

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	
SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	
MTH 31	Health Care Math	3-4
or higher		
Health	(3 credits with HHP prefix)	3
HHP activity courses (1 credit each) are not to be duplicated		
HS 100	Orientation to Addictions Studies/Human Services	1
HS 161	Ethics for Human Services	4
HS 162	Effective Helping Skills I	4
HS 180	HIV/AIDS and Addictions	2
HS 200	Addictive Behavior	3
HS 201	Families and Addictions	3
HS 205	Youth and Addictions	3
HS 206	Group Counseling Skills for Human Services	4

HS 208	Multicultural Issues in Human Services	4
HS 210	Dual Diagnosis	4
HS 223	Drugs and Addictions	4
HS 250	Process Addictions	4
HS 260	Counseling Theories	3
HS 262	Effective Helping Skills II	4
HS 263	Counseling the Chemically Dependent Client	3
HS 266	Case Management	4
HS 290	Introduction to Practicum	1
HS 291	Practicum in Human Services I	4
HS 292	Practicum in Human Services II	4
HS 293	Practicum in Human Services III	4
PSY 219	Abnormal Psychology	4

GENERAL EDUCATION/DISCIPLINE STUDIES

Complete a minimum three (or more) credits of discipline studies courses.

The courses must be outside of the AAS program area and each must have a different prefix. Students may need additional coursework to reach the 93 minimum credits required for the Addictions Studies and Counseling AAS degree. See advisor for details.

TOTAL CREDITS: 93-95

ANTHROPOLOGY

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The Associate of Arts Oregon Transfer (AAOT) degree meets the State of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor’s degree in anthropology.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS (Courses must be completed with a grade of “C” or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 111	College Algebra	4
<i>(or higher for which Intermediate Algebra is a prerequisite)</i>		

Health (3 credits with HHP prefix)		3
<i>HHP activity courses (1 credit each) are not to be duplicated</i>		

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses chosen from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

ANTH 102	Archaeology	4
ANTH 103	Cultural Anthropology	4

Science/Math/Computer Science¹

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ANTH 234	Biological Anthropology (lab science)	4
----------	---------------------------------------	---

ELECTIVES

ANTH 240	Language and Culture	4
General Electives ²		24-30

ADVISING NOTES

¹ In general, very few bachelor’s degrees in Anthropology have specific science requirements. However, if the interest is primarily archaeological, then Geology would fulfill the lab requirements. If the interest is primarily in physical anthropology, then select a Biology sequence or the Human Anatomy and Physiology sequence.

² In choosing electives, consider two years of a foreign language since many BA degrees (including many anthropology programs) require two years or equivalent of a foreign language. Some Anthropology degrees may also require an upper-division statistics course. Taking MTH 243 and MTH 244 is good preparation for the upper-division requirement. Either of these could count toward the non-lab requirement in the Science/Math/Computer Science general education requirement.

ART

Associate of Arts Oregon Transfer (AAOT) Degree 90 credits

COCC's Art program includes courses in art history, drawing, 2D basic design, 3D design, painting, sculpture, ceramics, jewelry and metalwork, digital and darkroom photography, and watercolor. COCC's main art facility, Pence Hall, houses art studios equipped with drawing and design tables, easels and canvas preparation areas, potter's wheels, hand building, glazing and kiln firing areas, and metalwork equipment for student use.

The Associate of Arts Oregon Transfer(AAOT) degree meets the State of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in art.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher.)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite)		

Health (3 credits with HHP prefix)

HHP activity courses (1 credit each) are not to be duplicated	3
---	---

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses chosen from at least two (2) prefixes.

Select two art history courses from the following:

ARH 201	Art History I	4
ARH 202	Art History II	4
ARH 203	Art History III	4

plus one additional course from COCC's discipline studies list, with other than an ARH prefix, preferably with an ART prefix.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

ART 115	Basic Design: 2-D	3
ART 116	Basic Design II: Color	3
ART 117	Basic Design III: 3-D	3
ART 131	Drawing I	3

plus enough additional electives to reach the minimum of 90 credits for the AAOT. Art majors should take additional studio art classes in consultation with their advisor.

Two years of a foreign language is also recommended.

TRANSFER INFORMATION

Successful transfer to an upper-division arts school or program is usually based not only on transcripts but on the student's portfolio. Students seeking transfer to an accredited art school in Oregon or elsewhere are encouraged to work closely with their advisors to build that portfolio.

The University of Oregon offers a Bachelor of Fine Arts degree in several art media areas.

AUTOMOTIVE TECHNOLOGY-AUTOMOTIVE MANAGEMENT

Associate of Applied Science (AAS) Degree
97-101 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Automotive Management or Associate of Applied Sciences in Automotive Technology in Electronics and Diagnostics (TED) (pending).

PROGRAM DESCRIPTION

The Automotive Technology program emphasizes educating students as multi-skilled workers with the ability to complete a wide variety of tasks within the automotive technology service and repair setting. Coursework includes technical skills in computer applications, electrical, electronic, mechanical, hydraulic, and network systems, both in theory as well as hands-on training. A self-paced method of instruction is offered for the entry-level classes. Communication skills are also highly emphasized throughout each program.

Both the AAS degree and option enable students to enter the transportation industry as an automotive technician and/or middle management. Entry into the program at the beginning of each term is possible by meeting course prerequisites or receiving the instructor's permission. The Automotive Technology program is certified by the National Automotive Technicians Education Foundation (NATEF). The program is approved for veterans' training.

The following courses are required for COCC's AAS in Automotive Technology degree. Students should work closely with an advisor if they wish to attend part time. Note that several of the courses qualify students to also earn short-term certificates in various automotive technology areas. See the Automotive Technology certificates on the following pages. Students are expected to supply their own hand tools. A list is available from program instructors. Approximate cost of required tools and working clothes is \$1,700 to \$2,700. The College provides any needed specialized tools and equipment for use in courses.

It is recommended that the ASE (Automotive Service Excellence) certification test be taken as the student completes the program. Pre-testing for ASE Certification and ASE Test Prep courses will be made available.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Program fee of \$15 per required automotive course or course fee of \$200 (pending approval) per automotive advanced course – AUT 260 and above
- Materials (coveralls, safety glasses, work jacket, safety shoes, t-shirts): \$200
- ASE (Automotive Service Excellence) Certification - up to \$450 total for all eight areas of testing
- Cost of tools: \$1,500 to \$2,500 depending on the source

PROGRAM PREPARATION AND PREREQUISITES

In preparation for taking advanced program (AUT) courses:

- High school diploma or GED (recommended)
- Students must take the following automotive basic skills classes (10 credits):

AUT 101	Basic Electricity for Automotive	2
AUT 106	Automotive Program Orientation	1
AUT 107	Mechanical Systems I	3
AUT 109	Mechanical Systems II	1
AUT 110	Small Gas Engines	3

- All COCC students completing the Automotive Technology program may have to pass Criminal History Checks (CHC) and/or drug test as a condition of their employment.
- An Oregon driver's license is also required.

PROGRAM STANDARDS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher. Students who do not meet this standard may be dismissed from the program.

REGISTRATION INFORMATION

Program (AUT) courses begin every term, including summer. Expect to start with 10 credits of basic skills courses in addition to a required math or writing course. Some AUT courses offered each term must be taken together and sequentially. Full-time students are discouraged from working more than 15 hours each week due to a heavy course load.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

The Automotive Technology program is certified by the National Automotive Technicians Education Foundation (NATEF). This certification requires that students complete 1,080 hours of training, which applies toward the two-year minimum experience requirement for ASE Certification. A minimum of 288 hours of Cooperative Work Experience (CWE) is included in the training.

** Recommended preparation for CWE is 24 credits of automotive courses in addition to the basic skills courses.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

AUT 212	ASE Test Prep II	1

FOOTNOTES

¹ Pass computer basic skills competency test (see page 32 for details), or take CIS 120, Computer Concepts.

² Choose nine credits from COCC's discipline studies list (pages 44 and 45); each course must have a different prefix.

AUTOMOTIVE TECHNOLOGY – ELECTRONICS AND DIAGNOSTICS - REQUIREMENTS - OPTION (PENDING)

Heavy emphasis will be placed on the following three areas: (HEV) Hybrid Electric Vehicles / (EV) Electric Vehicles, Clean Diesel, and On-board Vehicle Networking. The title places emphasis on the ever-advancing electronics that are contained on all current vehicles, clearly stating the intent of the degree. This degree is an addition to our current Master Automotive Technician Certificate and *Automotive Engine Performance Certificate* with emphasis on the electrical / electronic portions of the automotive industry.

PROGRAM REQUIREMENTS**Year One****Fall term**

AUT 106	Automotive Program Orientation	1
AUT 107	Mechanical Systems I	3

or **AUT 216B		

Total Credits: 49**TOTAL CREDITS 97-101**

* Options for this requirement

**Automotive CWE may be taken after 24 credits of automotive courses in addition to the basic skills courses, including summer. Students may enroll in CWE without first being cleared by an instructor. Exceptions are based on individual student goals.

In addition to this degree, 9 certificates will be awarded as well.

ELECTIVES

AUT 112	Basic Engine Performance I	1
AUT 113	Basic Engine Performance II	1
AUT 211	ASE Test Prep I	1
AUT 212	ASE Test Prep II	1

FOOTNOTES

¹ Pass computer basic skills competency test (see page 32 for details), or take CIS 120, Computer Concepts.

² Choose nine credits from COCC's discipline studies list (pages 44 and 45); each course must have a different prefix.

AUTOMOTIVE TECHNOLOGY

Short-Term Certificates
14-27 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Short-term Certificate of Completion in:

- Automotive Electrical Technician-Basic
- Automotive Drive-Train Technician
- Automotive Engine Technician
- Under-Car Technician
- Automotive Heating & AC Technician
- Auto Electrical Technician-Advanced
- Auto Engine Performance Technician

PROGRAM DESCRIPTION

The Automotive Technology program emphasizes educating students as multi-skilled workers with the ability to complete a wide variety of tasks within the automotive technology service and repair setting.

Coursework includes technical skills in computer applications, electrical, electronic, mechanical, hydraulic, and network systems, both in theory as well as hands-on training. A self-paced method of instruction is offered for the entry-level classes. Communication skills are also highly emphasized throughout each program.

The program is planned so that students will be able to complete the Master Automotive Technician Certificate in approximately 12 to 15 months as well as earn up to seven short-term certificates of completion. The certificate enables students to enter the transportation industry as an automotive technician. Men and women who are changing jobs or careers, students who want to explore the possibility of a technician career, or those who simply want to know more about vehicles may enter the program each term. Entry into the program at the beginning of each term is possible by meeting course prerequisites or receiving the instructor's permission.

The Automotive Technology program is certified by the National Automotive Technicians Education Foundation (NATEF). The program is approved for veterans' training. Occupational supplementary courses with college credit may be offered in the evening. These classes are designed to meet community needs and will vary from one term to the next. Students are expected to supply their own hand tools. A list is available from program instructors. Approximate cost of required tools and working clothes is \$1,700 to \$2,700. The College provides any needed specialized tools and equipment for use in courses.

It is recommended that the ASE (Automotive Service Excellence) certification test be taken as the student completes the program. Pre-testing for ASE Certification and ASE Test Prep courses will be made available.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Program fee of \$15 per required automotive course
- Materials (coveralls, safety glasses, work jacket, safety shoes, t-shirts), \$200
- ASE (Automotive Service Excellence) Certification - up to \$450 total for all eight areas of testing
- Cost of tools \$1,500 to \$2,500 depending on the source

PROGRAM PREPARATION AND PREREQUISITES

In preparation for taking advanced program (AUT) courses:

- High school diploma or GED (recommended)
- Students must take the following automotive basic skills classes first (10 credits):

AUT 101	Basic Electricity for Automotive	2
AUT 106	Automotive Program Orientation	1
AUT 107	Mechanical Systems I	3
AUT 109	Mechanical Systems II	1
AUT 110	Small Gas Engines	3

- All COCC students completing the Automotive Technology program may have to pass a Criminal History Check (CHC) and/or a drug test as a condition of their employment.
- An Oregon driver's license is also required.

PROGRAM STANDARDS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher. Students who do not meet this standard may be dismissed from the program.

REGISTRATION INFORMATION

Program (AUT) courses begin every term, including summer. Expect to start with ten credits of basic skills courses. Some AUT courses offered each term must be taken together and sequentially. Full-time students are discouraged from working more than 15 hours each week due to a heavy course load.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

The Automotive Technology program is certified by the National Automotive Technicians Education Foundation (NATEF). This certification requires that students complete 1,080 hours of training, which applies toward the two-year minimum experience requirement for ASE Certification. A minimum of 288 hours of Cooperative Work Experience (CWE) is included in the training.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

AUTOMOTIVE DRIVE TRAIN TECHNICIAN

Short-term Certificate - 21 credits

From drivelines to transaxles, clutches to differentials, COCC's Transmission Technology program trains students on all elements of manual and automatic transmissions, as well as basic hydraulic and electrical principles. The automotive drive-train courses apply toward ASE certification in (A2) Automotive Automatic Transmission and (A3) Automotive Manual Drive Trains and Axles.

CERTIFICATE REQUIREMENTS

AUT 101	Basic Electricity for Automotive	2
AUT 106	Automotive Program Orientation	1
AUT 107	Mechanical Systems I	3
AUT 109	Mechanical Systems II	1
AUT 110	Small Gas Engines	3
AUT 202	Manual Drive Trains I	3
AUT 203	Manual Drive Trains II	3
AUT 251	Automatic Transmissions I	3
AUT 256	Automatic Transmissions II	2

AUTOMOTIVE TECHNOLOGY

Short-Term Certificates *(continued)*
14-27 credits

AUTOMOTIVE ELECTRICAL TECHNICIAN (BASIC)

Short-term Certificate - 14 credits

Preparation in the electrical technician coursework establishes skill in charging systems, starting systems, voltage drops, electrical troubleshooting, lighting, gauges, accessories, battery load testing and repairs. This coursework prepares students for the National Institute for Automotive Service Excellence (ASE) certification in (A6) Electrical/Electronic Systems.

CERTIFICATE REQUIREMENTS

AUT 101	Basic Electricity for Automotive	2
AUT 102	Automotive Electric I	4
AUT 106	Automotive Program Orientation	1
AUT 107	Mechanical Systems I	3
AUT 109	Mechanical Systems II	1
AUT 110	Small Gas Engines	3

AUTOMOTIVE ELECTRICAL TECHNICIAN (ADVANCED)

Short-term Certificate - 18 credits

Preparation in the electrical technician coursework establishes skill in charging systems, starting systems, voltage drops, electrical troubleshooting, lighting, gauges, accessories, battery load testing and repairs. This coursework prepares students for ASE certification in (A6) Electrical/Electronic Systems and (A8) Engine Performance.

CERTIFICATE REQUIREMENTS

AUT 101	Basic Electricity for Automotive	2
AUT 102	Automotive Electric I	4
AUT 103	Automotive Electric II	2
AUT 104	Automotive Electric III	2
AUT 106	Automotive Program Orientation	1
AUT 107	Mechanical Systems I	3
AUT 109	Mechanical Systems II	1
AUT 110	Small Gas Engines	3

AUTOMOTIVE ENGINE TECHNICIAN

Short-term Certificate - 16 credits

This program trains students to rebuild an engine or start building one from scratch. Coursework applies toward ASE certification in (A1) Automotive Engine Repair.

CERTIFICATE REQUIREMENTS

AUT 101	Basic Electricity for Automotive	2
AUT 105	Diesel Performance I	2
AUT 106	Automotive Program Orientation	1
AUT 107	Mechanical Systems I	3
AUT 109	Mechanical Systems II	1
AUT 110	Small Gas Engines	3
AUT 201	Automotive Engines	4

AUTOMOTIVE ENGINE PERFORMANCE TECHNICIAN

Short-term Certificate - 27 credits

This program trains students to be the key troubleshooter in figuring out a vehicle's driveability problems. Students learn to identify everything from powertrain malfunctions to ignition failures and other engine-related problems using state-of-the-art computer diagnostic equipment, as well as the best way to fix the problem for the client. COCC's Engine Performance Technician program applies toward ASE certification in (A6) Automotive Electrical/Electronic Systems and (A8) Automotive Engine Performance.

CERTIFICATE REQUIREMENTS

AUT 101	Basic Electricity for Automotive	2
AUT 102	Automotive Electric I	4
AUT 103	Automotive Electric II	2
AUT 105	Diesel Performance I	2
AUT 106	Automotive Program Orientation	1
AUT 107	Mechanical Systems I	3
AUT 109	Mechanical Systems II	1
AUT 110	Small Gas Engines	3
AUT 111	Computerized Engine Controls	5
AUT 205	Engine Performance I	2
AUT 206	Engine Performance II	2

AUTOMOTIVE HEATING & AIR CONDITIONING TECHNICIAN

Short-term Certificate - 17 credits

COCC's Automotive Heating and Air Conditioning classes give students a hands-on opportunity to learn about automotive air conditioning and heating systems, EPA Recovery Requirements for R-12, R-134a systems, and general diagnosis and service. Courses in this option apply toward ASE certification in (A7) Automotive Heating and Air Conditioning and (A6) Electrical/Electronic Systems.

CERTIFICATE REQUIREMENTS

AUT 101	Basic Electricity for Automotive	2
AUT 102	Automotive Electric I	4
AUT 106	Automotive Program Orientation	1
AUT 107	Mechanical Systems I	3
AUT 109	Mechanical Systems II	1
AUT 110	Small Gas Engines	3
AUT 253	Automotive Air Conditioning	3

UNDER-CAR TECHNICIAN

Short-term Certificate - 16 credits

This hands-on, short-term training gives students an in-depth understanding of under-vehicle systems: brakes, suspension, driveline and electrical, and prepares students for a job in suspension and brakes, either as a technician or manager. The under-car technician courses apply toward ASE certification in (A5) Automotive Brakes and (A4) Automotive Steering and Suspension.

CERTIFICATE REQUIREMENTS

AUT 101	Basic Electricity for Automotive	2
AUT 106	Automotive Program Orientation	1
AUT 107	Mechanical Systems I	3
AUT 109	Mechanical Systems II	1
AUT 110	Small Gas Engines	3
AUT 204	Steering and Suspension	3
AUT 208	Automotive Brakes	3

AUTOMOTIVE TECHNOLOGY- MASTER AUTOMOTIVE TECHNICIAN

Certificate of Completion
72 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Master Automotive Technology

PROGRAM DESCRIPTION

The Master Automotive Technology program emphasizes educating students as multi-skilled workers with the ability to complete a wide variety of tasks within the automotive technology service and repair setting.

Coursework includes technical skills in computer applications, electrical, electronic, mechanical, hydraulic, and network systems, both in theory as well as hands-on training. A self-paced method of instruction is offered for the entry-level classes. Communication skills are also highly emphasized throughout each program.

The program is planned so that students will be able to complete the Master Automotive Technician Certificate in approximately 12 to 15 months as well as earn up to seven short-term certificates of completion. The certificate enables students to enter the transportation industry as an automotive technician. Men and women who are changing jobs or careers, students who want to explore the possibility of a technician career, or those who simply want to know more about vehicles may enter the program each term. Entry into the program at the beginning of each term is possible by meeting course prerequisites or receiving the instructor's permission.

The Automotive Technology program is certified by the National Automotive Technicians Education Foundation (NATEF). The program is approved for veterans' training. Occupational supplementary courses with college credit may be offered in the evening. These classes are designed to meet community needs and will vary from one term to the next.

Students are expected to supply their own hand tools. A list is available from program instructors. Approximate cost of required tools and working clothes is \$1,700 to \$2,700. The College provides any needed specialized tools and equipment for use in courses.

It is recommended that the ASE (Automotive Service Excellence) certification test be taken as the student completes the program. Pre-testing for ASE Certification and ASE Test Prep courses will be made available.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Program fee of \$15 per required automotive course
- Materials (coveralls, safety glasses, work jacket, safety shoes, t-shirts), \$200
- ASE (Automotive Service Excellence) Certification - up to \$450 total for all eight areas of testing
- Cost of tools \$1,500 to \$2,500 depending on the source

PROGRAM PREPARATION AND PREREQUISITES

In preparation for taking advanced program (AUT) courses:

- High school diploma or GED (recommended)
- Students must take the following automotive basic skills classes first (10 credits):

AUT 101	Basic Electricity for Automotive	2
AUT 106	Automotive Program Orientation	1
AUT 107	Mechanical Systems I	3
AUT 109	Mechanical Systems II	1
AUT 110	Small Gas Engines	3

- All COCC students completing the Automotive Technology program may have to pass Criminal History Checks (CHC) and/or drug test as a condition of their employment.
- An Oregon driver's license is also required.

REGISTRATION INFORMATION

Program (AUT) courses begin every term, including summer. Expect to start with ten credits of basic skills courses in addition to a required math or writing course. Some AUT courses offered each term must be taken together and sequentially. Full-time students are discouraged from working more than 15 hours each week due to a heavy course load.

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the program (AUT). Students who do not meet this standard may be dismissed from the program.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

The Automotive Technology program is certified by the National Automotive Technicians Education Foundation (NATEF). This certification requires that students complete 1,080 hours of training, which applies toward the two-year minimum experience requirement for ASE Certification. A minimum of 288 hours of Cooperative Work Experience (CWE) is included in the training.

**Recommended preparation for CWE is 24 credits of automotive courses in addition to the basic skills courses.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

General education/foundational requirements

Communication

AUT 112	Basic Engine Performance I	1
AUT 113	Basic Engine Performance II	1
AUT 211	ASE Test Prep I	1
AUT 212	ASE Test Prep II	1

AVIATION PROGRAM

PREREQUISITES, STANDARDS and REQUIREMENTS

PROGRAM DESCRIPTION

The Aviation program trains individuals to work as professional pilots in the air transportation industry. The opportunities in the pilot career field are fascinating and many, and include piloting a commercial airliner, flying for a corporation providing a service to the leaders of the company, flying as a charter pilot taking passengers point-to-point, and providing flight instruction to new pilot students.

Students in the AAS Aviation degree program must earn FAA pilot certificates and ratings which require flight and simulator training as outlined below. Students in the airplane track will earn FAA Private Pilot and Commercial Pilot certificates (single and multiengine), the Instrument rating, and the Multiengine rating. The final step in the training is to earn the FAA Certified Flight Instructor certificate/ratings (CFI, CFII, MEI).

Students in the helicopter track will earn the FAA Private Pilot and Commercial Pilot certificates, the Instrument rating, and Certified Flight Instructor certificate/rating (CFI, CFII).

The AAS degree will only be awarded when the required courses have been successfully completed and the following certificates and ratings are obtained: Commercial Pilot certificate, and Instrument and Multiengine (airplane) ratings.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following program costs:

- Current cost of approximately 285 airplane or 200 helicopter hours of flight training and 50 hours of training time in our FAA-approved flight simulator. See the Aviation program director, call 541-318-3702 or go online at www.cocc.edu/Aviation, for the current estimated cost of training.
- Students who do not become proficient in the time covered by the flight fees charged may incur additional flight training fees.
- All fees for the term must be paid in full by 5 p.m. on Friday of the second week of the term. Students will be dropped from flight course(s) if fees are not paid on time.
- Used portions of flight and simulator fees are non-refundable.
- Pilot headset, approximately \$350.
- FAA airman knowledge exams, \$150 per flight certificate/rating (\$1,350).

Airplane

- FAA Designated Pilot Examiner fees, approximately \$400 per flight certificate/rating (\$3,200).

Helicopter

- FAA Designated Pilot Examiner fees, approximately \$750 per flight certificate/rating (\$3,750).

PROGRAM PREPARATION AND PREREQUISITES

Pilots are credentialed by the Federal Aviation Administration (FAA) based on Title 14 Code of Federal Regulations. Specific requirements for each pilot certificate/rating are listed in Part 61: Certification: Pilots and Instructors, and may be found in a current copy of the Federal Aviation Regulations/Aeronautical Information Manual (FAR/AIM), or online at www.faa.gov.

Pilots are required to meet specific medical requirements and must possess an appropriate class of medical certificate obtained from an FAA-approved Aviation Medical Examiner (AME) before exercising the privileges of a pilot in command for the level of pilot certificate required. Specific requirements for class and duration of medical certificates may be found in the FAR Part 61, Paragraph 61.23, or online at www.faa.gov.

Students who enroll in this course of study must have a valid FAA Medical Certificate and a student pilot certificate. The medical exam must be conducted by a doctor designated by the FAA as an Aviation Medical Examiner. Incoming students in the professional pilot program are encouraged to obtain at least a second-class medical certificate prior to entry into the program to ensure that they can eventually pursue a career in commercial aviation. The medical application form will ask the applicant's prior medical history, prior DUI/DUII, any record of alcohol or substance abuse, and any history of non-traffic misdemeanors or felonies.

MINIMUM GPA OR GRADE REQUIREMENTS

- All FAA airman knowledge exams must be passed with a minimum score of 70 percent.
- All aviation courses must be completed with a "C" grade or higher.
- Graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

The Aviation program accepts new students every term. Applicants should contact the Aviation program director, 541-318-3702, or other aviation advisor before applying.

Applicants must arrange their finances to ensure they can pay for the flight training. Financial aid is available, but it will not cover the total cost of the program. The Aviation program is approved for veteran's benefits and other federal financial aid.

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the program. Students who do not maintain this standard may be dismissed from the program. Reinstatement to the program is never automatic. A student must apply for re-determination of eligibility by completing a training plan with their COCC advisor.

Students must be prepared to fly three to four days per week in order to maintain the rigorous schedule that is required in order to complete the flight training in a timely manner. Students who fall behind without justifiable reasons may be dismissed from the program and their flight training fees will be returned to whomever paid the fees, i.e., the financial aid office, the Department of Veterans Affairs or the individual (for private-pay students). Students using veterans benefits who fail to complete a flight lab may be required to repay the Department of Veterans Affairs for the entire cost of the course.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

- Pilots are credentialed by the Federal Aviation Administration and must meet the requirements of the Federal Aviation Regulations to qualify for the pilot certificates/ratings.
- FAA medical certificate required prior to beginning flight training.
- Student Pilot certificate required prior to beginning flight training.
- The FAA requires applicants pass an airman knowledge exam for pilot certificates/ratings. Those exams are administered by a third-party company and a \$150 testing fee is required.
- Pilot certificates/ratings are issued after an applicant passes a practical exam (ground oral exam and flight check) administered by a Designated Pilot Examiner (DPE) who will charge a fee for that exam.
- Background checks and random drug screening can be expected in any aviation industry position.

Pilot certificates/ratings available:

- Private Pilot (Airplane or Helicopter)
- Instrument (Airplane or Helicopter)
- Multiengine (Airplane) • Commercial (Airplane or Helicopter)
- Single engine (Airplane) • Multiengine (Airplane)
- Certified Flight Instructor • CFI (Airplane or Helicopter)
- CFII (Airplane or Helicopter) • MEI (Airplane)
- Air Transport Pilot (ATP) (Not currently offered at COCC)

TRANSFER INFORMATION

Airplane students in particular should plan to transfer to an institution granting bachelor's degrees to enhance employment opportunities. Therefore, the program works with several universities for transfer options. The AAS degree is designed to train the student as a professional pilot. Universities that have an aviation bachelor's degree (Utah Valley University, Embry-Riddle Aeronautical University, etc.) will often accept the majority of these credits toward their degree.

Those wishing to transfer to Oregon Institute of Technology, should use the Associate of Science (AS) degree program. For information about transfer requirements at other institutions, contact the Aviation program director, 541-318-3702.

AVIATION, PROFESSIONAL PILOT – AIRPLANE

PROGRAM REQUIREMENTS

All Aviation courses must be completed with a "C" grade or better.

AV 101	Introduction to Aviation ¹	3
AV 104	Introduction to Aircraft Systems ¹	4
AV 108	Meteorology I ¹	4
AV 110	Private Pilot-Airplane ²	5
AV 112	Technically Advanced Aircraft	1
AV 112A	Technically Advanced Aircraft Lab	1
AV 150	Aerodynamics ¹	4
AV 200	Aviation Law ¹	3
or AV 201	Airport Management ¹	
AV 204	Advanced Aircraft Systems ¹	4
AV 208	Meteorology II ¹	4
AV 210	Instrument-Airplane ⁵	5
AV 220	Commercial Pilot-Airplane ⁵	4
AV 230	Multiengine Pilot ⁵	2
AV 235	Human Factors ¹	4
AV 246	Aviation Safety ¹	3
AV 250	Certified Flight Instructor Ground ¹	5
AV 271	Introduction to Unmanned Aerial Systems	3
AV 272	Unmanned Aerial Systems	4
AV 273	Remotely Piloted Vehicles	4

AIRPLANE FLIGHT LABS

(Select three credits from the following list. See Aviation advisor for individual recommendations. Labs may be repeated for separate credit.)

AV 275A	Unmanned Aerial Systems Flight Lab ^{3,7}	1
AV 275B	Unmanned Aerial Systems Flight Lab ^{3,7}	1
AV 275C	Unmanned Aerial Systems Flight Lab ^{3,7}	1
AV 275D	Unmanned Aerial Systems Flight Lab ^{3,7}	1
AV 275E	Unmanned Aerial Systems Flight Lab ^{3,7}	1
AV 275F	Unmanned Aerial Systems Flight Lab ^{3,7}	1
AV 275G	Unmanned Aerial Systems Flight Lab ^{3,7}	1

(Select 11 credits from the following list. See Aviation advisor for individual recommendations. Labs may be repeated for separate credit.)

AV 222A	Airplane Flight Lab ^{3,6}	1
AV 222B	Airplane Flight Lab ^{3,6}	1
AV 222C	Airplane Flight Lab ^{3,6}	1
AV 222D	Airplane Flight Lab ^{3,6}	1
AV 222E	Airplane Flight Lab ^{3,6}	1
AV 222F	Airplane Flight Lab ^{3,6}	1
AV 222G	Airplane Flight Lab ^{3,6}	1
AV 222H	Airplane Flight Lab ^{3,6}	1

AV 222I	Airplane Flight Lab ^{3,6}	1
AV 222J	Airplane Flight Lab ^{3,6}	1
AV 222K	Airplane Flight Lab ^{3,6}	1
AV 222L	Airplane Flight Lab ^{3,6}	1
AV 222M	Airplane Flight Lab ^{3,6}	1
AV 222N	Airplane Flight Lab ^{3,6}	1

FOOTNOTES

- ¹ May be taken in any order, in any term, and may be taken before, with, or after the flight courses.
- ² Must be taken as the first flight course. May be taken any term.
- ³ Flight fees, simulator fees, and FAA testing fees are required in addition to normal tuition for all flight labs and must be paid by the end of the second week of the term. Students will be dropped at that time for nonpayment of fees. Used portions of flight fees are not refundable. The fee structure is available on the Aviation website, www.cocc.edu/Aviation/. Contact the Aviation program director, 541-318-3702, for more information.
- ⁴ May be taken in any sequence, in any term.
- ⁵ Can be taken next in any sequence, together or separately, in any term. Earning the commercial pilot certificate is not dependent upon the instrument and multiengine ratings; however, pilots commonly include those ratings inside the total hours required for the commercial certificate in order to reduce the cost.
- ⁶ Airplane students will take 11 credits of AV 222, Airplane Flight Labs. The labs can be taken in any term. Labs are repeatable. See Aviation advisor for scheduling sequence.
- ⁷ Airplane students will take three credits of AV 275, Unmanned Aerial Systems Flight Labs. The labs can be taken in any term. Labs are repeatable. See Aviation advisor for scheduling sequence.

AVIATION

Associate of Science (OIT/Technology and Management Emphasis)
90 credits

This degree is intended to prepare students who complete COCC’s Associate of Applied Science (AAS) in Aviation degree, or other technical degree, to continue on to Oregon Institute of Technology’s Bachelor of Applied Science (BAS) in Technology and Management degree in order to promote career advancement into management or the aviation field. The BAS degree allows students to transfer 60 credits of career and technical education courses, in addition to the listed business, management, information technology and general education courses. This Associate of Science (AS) degree worksheet reflects the required courses at the lower division level beyond the AAS aviation courses. Students are encouraged to work closely with their COCC advisor to complete both the AAS and the AS degree.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

All courses must be completed with a “C” grade or better

Writing

WR 121	English Composition	4
WR 122	English Composition	4
WR 227	Technical Writing	4

Oral Communication

SP 111	Fundamentals of Public Speaking	3

---------	-----------------	---

GENERAL EDUCATION/DISCIPLINE STUDIES

Arts and Letters

Choose two (2) courses from the Discipline Studies list on page 44 6-8

Social Science

EC 201	Microeconomics	4
EC 202	Macroeconomics	4

Science/Math/Computer Science

Choose one (1) lab science course from the Discipline Studies list on page 44 4-5

AVIATION PROGRAM REQUIREMENTS 30 CREDITS

AV 108	Meteorology I	4
AV 208	Meteorology II	4
BA 206	Management Fundamentals I	4
BA 223	Marketing Principals I	4
BA 211	Financial Accounting I	3
BA 213	Managerial Accounting ¹	3
CIS 125A	Access	4
CIS 125E	Excel	4

Additional courses to reach 30 credits, must be 100-level and above and should be chosen with the assistance of an advisor.

ELECTIVES

Choose enough electives to reach a minimum total of 90 overall degree credits. Elective credits must be 100-level and above with a maximum of 12 CTE credits and 15 credits of CWE/HHP/performance courses. Oregon Institute of Technology’s BAS degree assumes that the student has completed 60 CTE credits to apply toward the degree.

ADVISING NOTES

¹ COCC recommends students to take BA 212 prior to BA 213

BIOLOGICAL SCIENCES

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The Associate of Arts Oregon Transfer (AAOT) degree, with an emphasis in biology, is designed for students who wish to pursue bachelor's degree areas such as health professions, life sciences or natural sciences. Graduates with a Bachelor of Science degree from their transfer institution will be well-equipped for graduate school and other careers in biomedical fields, industry, governmental agencies and non-governmental organizations which require a broad-based education in science, mathematics and communication. Those graduates may enter such fields as conservation or environmental science, science writing, education, botany, forest or marine science, veterinary medicine, agricultural research, pharmaceuticals, human medicine or other life science careers such as research in microbiology, biotechnology, bioinformatics or genetics.

Students are expected to make and maintain communication with their choice of transfer institution while pursuing coursework at the community college level, as some have specific requirements.

The Associate of Arts Oregon Transfer (AAOT) degree meets the State of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and review specific transfer requirements. The following is a suggested course of study for students interested in pursuing a bachelor's degree in biology.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 111	College Algebra	4
(or higher for which Intermediate Algebra is a prerequisite.)		

Health (3 credits with HHP prefix.)	3
HHP activity courses (1 credit each) are not to be duplicated.	

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses chosen from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

BI 211	Principles of Biology I	5
BI 212	Biology of Plants II	5
BI 213	Biology of Animals III	5

plus one additional course from the science/math/computer science discipline studies list with a different prefix.

ELECTIVES

Take enough elective courses to meet the minimum 90 credits required for the degree and lower-division major requirements.

CH 221	General Chemistry I ¹	5
CH 222	General Chemistry II ¹	5
CH 223	General Chemistry III ¹	5
FN 225	Human Nutrition	4
MTH 251	Calculus I	4
MTH 252	Calculus II	4
MTH 253	Calculus III	4
PH 201	General Physics I	5
PH 202	General Physics II	5
PH 203	General Physics III	5

The following courses are recommended for those entering health-related fields (these courses are not pre-requisites for admission into dental medicine, or veterinary programs, but may help a student preparing for any of those careers. They are prerequisite courses for admission to Physician Assistant and Physical Therapy programs in Oregon).

BI 231	Human Anatomy and Physiology I	4
BI 232	Human Anatomy and Physiology II	4
BI 233	Human Anatomy and Physiology III	4
BI 234	Microbiology	4

For a field identification course in the native flora		
BOT 203	General Botany	4

To enhance understanding of scientific terminology		
BI 205	Scientific Terminology	3

TRANSFER AND/OR ARTICULATION INFORMATION

Oregon universities with a biology major include: Eastern Oregon University, Oregon State University, Oregon Health Sciences University, Southern Oregon University, University of Oregon, Western Oregon University, Portland State University.

FOOTNOTES

¹ Recommended for students interested in medical, dental and veterinary schools.

BUSINESS ADMINISTRATION ACCOUNTING CLERK

Certificate of Completion - 44 credits

BUSINESS ADMINISTRATION ENTREPRENEURSHIP

Certificate of Completion - 45-46 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Accounting Clerk

PROGRAM DESCRIPTION

COCC's Accounting Clerk certificate is designed to give students a foundation for careers in clerical accounting. All coursework may be applied to an Associate of Applied Science (AAS) Business degree.

COST OF PROGRAM

Standard tuition, student fees and textbooks.

PROGRAM PREPARATION AND PREREQUISITES

Recommended

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 65 placement or completion of MTH 60 ("C" or better)

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

The required courses for the certificate are listed below under Program Course Requirements. Students should consult their advisor if they have transfer credits, are not able to attend full time, or are not at college level in reading, writing and math.

PROGRAM STANDARDS

Academic dishonesty will not be tolerated and can result in the offending student being dropped from the program. Students wishing reinstatement must seek endorsement from the department chair after completing a progressive review.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

The following is a suggested course of study for students interested in pursuing an Accounting Clerk certificate and will depend on course availability. A recommended sequence of the courses required for this certificate is listed below.

Fall term

BA 101	Introduction to Business	4
BA 104	Business Math	3
BA 111	Applied Accounting I	3
CIS 131	Software Applications	4

Winter term

BA 112	Applied Accounting II	3
BA 177	Payroll Accounting	3
CIS 125E	Excel	4
WR 121	English Composition	4

Spring term

BA 113	Applied Accounting III	3
BA 220	Business Analysis and Budgeting	4
BA 229	QuickBooks	3
BA 285	Business Human Relations	3

Summer term

BA 280	Co-op Work Experience	3
--------	-----------------------	---

ADVISING NOTES

Fall 2012 through spring 2015 courses in the Accounting Certificate of Completion will be available on Redmond, Madras and Prineville campuses. Students should work closely with their advisor to develop a schedule not requiring a commute to Bend.

CERTIFICATE AS AWARDED ON TRANSCRIPT:

Certificate of Completion, Entrepreneurship

PROGRAM DESCRIPTION

COCC's Entrepreneurship certificate is designed to give students a foundation for starting their own business, or assist in the business startup for others. All coursework may be applied to an Associate of Applied Science (AAS) Business degree.

COST OF PROGRAM

Standard tuition, student fees and textbooks.

PROGRAM PREPARATION AND PREREQUISITES

Recommended

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 65 placement or completion of MTH 60 ("C" or better)

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

The required courses for the certificate are listed below under Program Course Requirements. Students should consult their advisor if they have transfer credits, are not able to attend full time, or are not at college level in reading, writing and math.

PROGRAM STANDARDS

Academic dishonesty will not be tolerated and can result in the offending student being dropped from the program. Students wishing reinstatement must seek endorsement from the department chair after completing a progressive review.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

The following is a suggested course of study for students interested in pursuing an Entrepreneurship certificate and will depend on course availability. A recommended sequence of the courses required for this certificate is listed below.

Fall term

BA 101	Introduction to Business	4
BA 104	Business Math	3
CIS 131	Software Applications	4
WR 121	English Composition	4

Winter term

BA 111	Applied Accounting I	3
BA 206	Management Fundamentals I	4
BA 223	Marketing Principles I	4
CIS 125E	Excel	4

Spring term

BA 250	Entrepreneurship	4
BA 220	Business Analysis and Budgeting	4
BA 238	Selling and Negotiation	4

Final Term term

Choose one course from the following		3-4
BA 261	Consumer Behavior (4)	
BA 180	Co-op Work Experience (3)	

BUSINESS ADMINISTRATION

MARKETING

Certificate of Completion - 45 credits

OFFICE ASSISTANT

Certificate of Completion - 47 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Marketing

PROGRAM DESCRIPTION

BA 233	Internet Marketing	4
BA 180	Co-op Work Experience	3

ADVISING NOTES

Fall 2012 through spring 2015 courses in the Marketing Certificate of Completion will be available on Redmond, Madras and Prineville campuses. Students should work closely with their advisor to develop a schedule not requiring a commute to Bend.

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Office Assistant

PROGRAM DESCRIPTION

The Office Assistant certificate is designed for persons preparing for immediate entry-level employment in office occupations and those already in business who desire to update and enhance their skills.

COST OF PROGRAM

Standard tuition, student fees and textbooks.

PROGRAM PREPARATION AND PREREQUISITES

Recommended

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 65 placement or completion of MTH 60 ("C" or better)
- Keyboarding skills at 25 words per minute or better. (CIS 010 is recommended for basic keyboarding skills acquisition.)

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Full-time suggested term-by-term coursework schedule assumes college-level placement in reading, writing and math. Part-time students and those with schedule conflicts, should see an advisor for proper course sequencing and prerequisite requirements.

PROGRAM STANDARDS

Academic dishonesty will not be tolerated and can result in the offending student being dropped from the program. Students wishing reinstatement must seek endorsement from the department chair after completing a progressive review.

BUSINESS ADMINISTRATION-BUSINESS

Associate of Applied Science (AAS) Degree with Specializations
97-102 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Business Administration with specialization

PROGRAM DESCRIPTION

The AAS coursework prepares students for immediate employment in business occupations. Business administration AAS degrees may be awarded indicating emphasis in the following areas of specialization: General Business; Accounting; Information Systems Management; Management; Retail Operations Management; Hotel, Tourism and Recreation Management; or Small Business/Entrepreneurship.

COST OF PROGRAM

Standard tuition, student fees and textbooks.

PROGRAM PREPARATION AND PREREQUISITES

Recommended

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 65 placement or completion of MTH 60 ("C" or better)

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

The following is provided to assist students in planning their schedule. Students should take as many Level 1 courses as possible before attempting Level 2 courses, Level 2 courses before Level 3 courses, etc. This will enable students to approach each class with the background necessary to succeed and enjoy the course content.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Only selected credits are considered transferrable to public or private baccalaureate institutions. See advisor for additional information.

PROGRAM COURSE REQUIREMENTS

Level 1 Foundation Courses

Foundation courses ensure that students have basic skills and basic business concepts to address further skill development. Foundation courses include math, computer and writing skills. Students should take MTH 60 or have a placement score above MTH 60.

CIS 131	Software Applications	4
WR 121	English Composition	4
BA 111	Applied Accounting I	3
BA 101	Introduction to Business	4
BA 104	Business Math	3
BA 178	Customer Service	3
SP 111	Fundamentals of Public Speaking	3
or SP 219	Small Group Communication	

Level 2 Core Courses

Core courses that will allow students to begin to understand concepts in their specialization courses taken in Level 3.

CIS 125E	Excel	4
WR 214	Business Communication	3
BA 112	Applied Accounting II	3
BA 113	Applied Accounting III	3
BA 206	Management Fundamentals I	4
BA 223	Marketing Principles I	4
BA 226	Business Law I	4
BA 285	Business Human Relations	3

Level 3 Specialization Courses

» GENERAL BUSINESS SPECIALIZATION

Students interested in a general business focus, can take an additional 20 credits of coursework with a BA or HTRM prefix from the Business electives list (with careful attention to prerequisites) and earn an AAS in General Business.

» ACCOUNTING SPECIALIZATION

This specialization is for those who desire to be accountants for a small- to medium-sized business. (21 credits)

BA 177	Payroll Accounting	3
BA 211	Financial Accounting I	4
BA 212	Financial Accounting II	4
BA 213	Managerial Accounting	4
BA 228	Computer Accounting Applications	3
BA 229	QuickBooks	3

» INFORMATION SYSTEMS MANAGEMENT SPECIALIZATION

This specialization is for those who desire to apply software and computer technology to business applications such as accounting, human resources and manufacturing. (24 credits)

CIS 125A	Access	4
CIS 135DB	Database Theory/SQL	4
CIS 140	A+ Essentials	4
CIS 235	Information Technology in Business	4
Select two from the following		8
CIS 178	Internet in Depth (4)	
CIS 179	Networking Essentials (4)	
CIS 195	Web Development I (4)	
CIS 295	Web Development II (4)	

» MANAGEMENT SPECIALIZATION

This specialization is designed for those students who aspire to be managers in a small/medium-sized organization. This degree can also help those who wish to be more effective managers in their current position. (20 credits)

BA 207	Management Fundamentals II	4
BA 224	Human Resource Management	4
Select from the following		12
BA 203	Global Business (3)	
BA 211	Financial Accounting I (4)	
BA 212	Financial Accounting II (4)	
BA 213	Managerial Accounting (4)	
BA 229	QuickBooks (3)	
BA 233	Internet Marketing (4)	
BA 238	Selling and Negotiation (4)	
BA 250	Entrepreneurship (4)	
BA 253	Business Plan Elements (4)	
BA 261	Consumer Behavior (4)	
BA 286	Managing Business Processes (4)	

» SMALL BUSINESS/ENTREPRENEURSHIP SPECIALIZATION

This specialization is for those who plan to start up and run a successful business or grow an existing business. (19-20 credits)

BA 238	Selling and Negotiation	4
BA 250	Entrepreneurship	4
BA 253	Business Plan Elements	4
Select two from the following		7-8
BA 203	Global Business (3)	
BA 207	Management Fundamentals II (4)	
BA 233	Internet Marketing (4)	
BA 239	Marketing Principles II (4)	
BA 261	Consumer Behavior (4)	

BUSINESS ADMINISTRATION-BUSINESS *(continued)*

Associate of Applied Science (AAS) Degree with Specializations
97-102 credits

» RETAIL OPERATIONS MANAGEMENT SPECIALIZATION

This specialization is for those who desire to be sales representatives, sales management marketing directors, project managers, human resources managers, customer service specialists, and public relations specialists. (20 credits)

BA 224	Human Resources Management	4
BA 239	Marketing Principles II	4
BA 249	Retailing	4
BA 261	Consumer Behavior	4
Select one from the following		4
BA 207	Management Fundamentals II (4)	
BA 238	Selling and Negotiation (4)	

» HOTEL, TOURISM AND RECREATION MANAGEMENT SPECIALIZATION

This specialization is for those who desire to operate or manage hotels, restaurants or recreation businesses. (20 credits)

GEOG 212	Tourism and Recreation	3
HTRM 105	Food Service Management	4
HTRM 106	Lodging Management	3
Business electives (BA or CIS 135DB and CIS 235 or HTRM prefixes)		10
Recommended: HTRM 233 Event Planning		

Level 4 Advanced Core and Capstone Courses

These courses should be taken after completion of Level 1 and 2 and may be taken concurrently with specialization courses (Level 3). Instructor permission required.

BA 220	Business Analysis and Budgeting	4
BA 222	Business Finance	3
BA 280	Co-op Work Experience Business	3
BA 290	Business Seminar	3

REQUIRED DEGREE SUPPORT COURSES

These courses are required for AAS degrees and may be taken at any time.

General education requirements

See Discipline Studies list, pages 44-45	8
Recommended: GEOG 106, Economic Geography (4)	
HHP 295 or 242 or 266 or 258 or 231 or 252A	3-4
HHP activity course	1

BUSINESS ADMINISTRATION-BUSINESS TRANSFER

Associate of Science Oregon Transfer (ASOT) Business Degree
90 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Science Oregon Transfer-Business

PROGRAM DESCRIPTION

The Associate of Science Oregon Transfer Business degree (ASOT) is designed for students with a high level of certainty about their decision to earn a bachelor's degree with a major in business from an Oregon University system school.

PROGRAM PREPARATION AND PREREQUISITES

Recommended

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 20/31 placement or completion of MTH 10 ("C" or better)

MINIMUM GPA OR GRADE REQUIREMENTS

All courses must be completed at a "C" grade or better.

TRANSFER AND ADVISING INFORMATION

Any student having the Associate of Science Oregon Transfer - Business (ASOT - Business) degree recognized on an official college transcript will have met the lower division General Education requirements of baccalaureate degree programs of any institution in the Oregon University System.

Students transferring under this agreement will have junior status for registration purposes. Course, class standing, or GPA requirements for specific majors, departments, or schools are not necessarily satisfied by an ASOT – Business degree.

All courses should be aligned with the student's intended program of study and the degree requirements of the baccalaureate institution to which the student plans to transfer. Admission to an OUS institution is not guaranteed upon completion of the ASOT-Business degree. A student is encouraged to work with an advisor in the selection of courses within the ASOT-Business degree for alignment with the institution to which the student intends to transfer.

Specific Oregon public universities have identified additional lower-division business requirements to accompany the ASOT/Business; see handbook.ccwdwebforms.net/handbook/appendices/appendix-j--asot--business/.

Students planning to transfer to OSU-Cascades should make the following choices to meet OSU requirements: SP 111 (instead of other SP options listed above), MTH 111, MTH 241, MTH 243 and MTH 244, and BA 250.

Recommended courses to take as electives are BA 206, BA 223 and HHP 295.

FOUNDATIONAL REQUIREMENTS

Minimum of eight credits of college transfer writing courses:

WR 121	English Composition	4
WR 122	English Composition	4
and/or WR 227	Technical Writing	4

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

A minimum of three courses which include MTH 243, plus two (2) additional courses of MTH 105 or higher.

DISCIPLINE STUDIES REQUIREMENTS

Discipline studies courses are listed on pages 44 and 45. Courses numbered 199 or 299 will not fulfill discipline studies requirements. One of the Discipline Studies courses below must be a cultural literacy course, designated with an (*).

Arts and Letters

Three courses chosen from two or more disciplines.

Social Sciences

EC 201	Microeconomics	4
EC 202	Macroeconomics	4

Two (2) additional Social Science courses, one of which must have a different prefix than EC.

Science/Math/Computer Science

Four courses from at least two disciplines including at least three laboratory courses in biological and/or physical science.

Business specific requirements

BA 101	Introduction to Business	4
BA 211	Financial Accounting I	4
BA 212	Financial Accounting II	4
BA 213	Managerial Accounting	4
BA 226	Business Law I	4

ELECTIVES

Recommended courses to take as electives are BA 206 and BA 223. It is recommended that students planning to transfer to OSU take BA 250 and HHP 295. Sufficient number of transfer-level courses to meet total degree requirements of at least 90 credits may include a maximum of 12 Career and Technical Education (CTE) credits. See advisor for recommended electives as well as specific institution transfer requirements.

CASCADE CULINARY INSTITUTE-BAKING AND PASTRY ARTS

Career Pathway/Certificate of Completion
13 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate, Baking and Pastry Arts

PROGRAM DESCRIPTION

The Baking and Pastry Arts short-term certificate program is recognized as a Career Pathway Certificate of Completion (CPCC) by the Oregon Department of Community Colleges and Workforce Development (CCWD). Information about the Career Pathway Certificate of Completion and a flowchart can be found at www.cascadeculinary.com. The Baking and Pastry Arts short-term certificate is designed to expose students to the fundamental aspects of baking and pastry arts techniques and to serve as a competency-based learning experience that prepares students for successful entrance into the hospitality industry. Emphasis is given to technique and ratios over that of recipes. The curriculum emphasizes hands-on applied learning grounded in theory at an estimated ratio of 25 percent hands-on to 75 percent theory. This program is designed to provide a foundation in applied culinary arts related math and writing, career goal identification, and basic baking and pastry arts skill development. Within the applied foundation course, chef instructors conduct daily assessment of student learning in the areas of applied competency-based skill development, professionalism, food safety and sanitation, and organization; combined with standard homework assignments, quizzes and exams.

Field trips and guest speakers serve to enhance the student learning experience and to provide up-to-date information regarding current industry practices. Participation in student club activities also provides informal learning and industry networking opportunities for students outside of the classroom. Based upon the Career Pathway educational model, program completers are encouraged to consider the pursuit of the next level of education at the one-year certificate or AAS degree level as their next career pathway progression.

COST OF PROGRAM

In addition to standard COCC tuition rates and the ASCOCC technology and green energy fees, students should anticipate the following estimated program costs:

- Individual Course Fees:
 - \$25 for the www.optimalresume.com membership (CUL 120)
- General Course Fees:
 - \$135 per credit fee for lab and lecture/lab courses, which is equivalent to total program course fees of \$565
- Supplies Expense Estimate: \$1,068 for all required toolkit, uniforms and textbooks at the COCC Bookstore
- ASCOCC Technology and Green Energy Fees Estimate: \$101
- Total Tuition, Supplies and Fees Estimate:
 - In-District: \$2,865
 - Out-of-District and Border State: \$3,203
 - Out-of-State/Border State: \$4,737
- Housing Expense Estimate: Students who would like to research on-campus housing costs should visit www.cocc.edu/Residence-Life/

PROGRAM ENTRANCE REQUIREMENTS

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 60 placement or completion of MTH 20/31 ("C" or better)

MINIMUM GPA AND GRADE REQUIREMENTS

All courses required for the program must be completed at a "C" grade or better and graduates must have a cumulative 2.0 GPA or higher.

REGISTRATION INFORMATION

The Baking and Pastry Arts short-term certificate program is designed to be delivered in a cohort-based educational model; hence, coursework is experienced in sequence that benefits progressive skill development at an introductory level. Students are required to attend the coursework in sequence with the first-term cohort curriculum. Baking and Pastry Arts program cohorts are scheduled to begin during both winter and summer terms. Twenty seats are available in each cohort group. A maximum of 40 seats are available in the Baking and Pastry Arts program annually. Cascade Culinary Institute reserves the right to deviate from the below cohort admittance schedule.

Baking and Pastry Arts Program - Cohort Admittance Schedule

Winter	20 Students (1 cohort)
Summer	20 Students (1 cohort)

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the program. Students who do not meet this standard may be dismissed from their assigned cohort and requested to retake any necessary courses before advancing to the following term, which is contingent upon available space in the course(s) the student needs to retake. Students may be re-admitted to the program with an approved academic performance plan that is developed with their advisor. Additional information regarding program standards and student conduct is outlined in the Cascade Culinary Institute Student Handbook, which is available at www.cascadeculinary.com.

TRANSFER INFORMATION

It is common that only selected credits are considered transferrable to other institutions, which is determined by the receiving institution.

Certificate, Baking and Pastry Arts

PROGRAM DESCRIPTION

The Baking and Pastry Arts Certificate program is designed to expose students to the step-by-step process of classical and contemporary baking and pastry arts techniques and to serve as a competency-based learning experience that prepares students for a successful career within the hospitality industry. Emphasis is given to technique and ratios over that of recipes. The curriculum emphasizes hands-on applied learning grounded in theory at an estimated ratio of 70 percent hands-on to 30 percent theory. Chef Instructors conduct daily assessment of student learning in the areas of applied competency-based skill development, professionalism, food safety and sanitation, and organization; combined with standard homework assignments, quizzes and exams.

Field trips and guest speakers serve to enhance the student learning experience and to provide up-to-date information regarding current industry practices. Participation in student club activities also provides informal learning and industry networking opportunities for students outside of the classroom. Unique to Cascade Culinary Institute, the Baking and Pastry Arts Certificate program also features integrated, across-the-curriculum; applied learning modules that serve to enhance the student learning experience and provide repetition of knowledge and skill that will support successful entry into the work force.

COST OF PROGRAM

In addition to standard COCC tuition rates and the ASCOCC technology and green energy fees, students should anticipate the following estimated program costs:

- Individual Course Fees:
 - \$25 for the www.optimalresume.com membership (CUL 120)
 - \$131 for Oregon Liquor Control Card and Red Cross First-Aid / CPR Certification (CUL 190a)
- General Course Fees:
 - \$135 per credit fee for lab and lecture/lab courses, which is equivalent to total program course fees of \$4,426
- Supplies Expense Estimate: \$1,511 for all required toolkit, uniforms and textbooks at the COCC Bookstore
- ASCOCC Technology and Green Energy Fees Estimate: \$405
- Total Tuition, Supplies and Fees Estimate:
 - In District: \$10,692
 - Outside of District and Border State: \$11,992
 - Outside of State/Border State: \$17,892
- Housing Expense Estimate: Students who would like to research on-campus housing costs should visit www.cocc.edu/Residence-Life/

PROGRAM ENTRANCE REQUIREMENTS

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 60 placement (equivalent to CUL 90) or completion of MTH 20/31 ("C" or better)

MINIMUM GPA AND GRADE REQUIREMENTS

All required program courses must be completed at a "C" grade or better, and graduates must have a cumulative 2.0 GPA or higher.

REGISTRATION INFORMATION

The Baking and Pastry Arts Certificate program is designed to be delivered in a cohort-based educational model; hence, coursework is experienced in a sequencing that benefits progressive skill development from an introductory to advanced level. Students are required to attend the coursework in sequence. Baking and Pastry Arts program cohorts are scheduled to begin during both winter and summer terms. Twenty seats are available in each cohort group. A maximum of 40 seats are available in the Baking and Pastry Arts program annually. Cascade Culinary Institute reserves the right to deviate from the below cohort admittance schedule.

Baking and Pastry Arts Program - Cohort Admittance Schedule

Winter	20 Students (1 cohort)
Summer	20 Students (1 cohort)

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the program. Students who do not meet this standard may be dismissed from their assigned cohort and requested to retake any necessary courses before advancing to the following term, which is contingent upon available space in the course(s) the student needs to retake. Unique to Cascade Culinary Institute, the Baking and Pastry Arts AAS degree program also features integrated, across-the-curriculum; applied-learning modules that serve to enhance the student learning experience and to provide repetition of knowledge and skill that will support successful entry into the work force.

COST OF PROGRAM

In addition to standard COCC tuition rates and the ASCOCC technology and green energy fees, students should anticipate the following estimated program costs:

- Individual Course Fees:
 - \$25 for the www.optimalresume.com membership (CUL 120)
 - \$131 for Oregon Liquor Control Card and Red Cross First-Aid / CPR Certification (CUL 190a)
 - \$85 for the American Culinary Federation (ACF) Membership and Certified Pastry Culinarian (CPC) Certification (CUL 260)
- General Course Fees:
 - \$135 per credit fee for lab and lecture/lab courses, which is equivalent to total program course fees of \$8,341
- Supplies Expense Estimate: \$1,986 for all required toolkit, uniforms and textbooks at the COCC Bookstore.
- ASCOCC Technology and Green Energy Fees Estimate: \$709
- Total Tuition, Supplies and Fees Estimate:
 - In District: \$19,040
 - Outside of District and Border State: \$21,432
 - Outside of State/Border State: \$32,288
- Housing Expense Estimate: Students who would like to research on-campus housing costs should visit www.cocc.edu/Residence-Life/

PROGRAM ENTRANCE REQUIREMENTS

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement OR completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 60 placement (equivalent to CUL 90) OR completion of MTH 20/31 ("C" or better)

MINIMUM GPA AND GRADE REQUIREMENTS

All required program courses must be completed at a "C" grade or better, and graduates must have a cumulative 2.0 GPA or higher.

REGISTRATION INFORMATION

The Baking and Pastry Arts Certificate program is designed to be delivered in a cohort-based educational model; hence, coursework is experienced in a sequence that benefits progressive skill development from an introductory to advanced level. Students are required to attend the coursework in sequence. Baking and Pastry Arts program cohorts are scheduled to begin during both winter and summer terms. Twenty seats are available in each cohort group. A maximum of 40 seats are available

in the Baking and Pastry Arts program annually. Cascade Culinary Institute reserves the right to deviate from the below cohort admittance schedule.

Baking and Pastry Arts Program - Cohort Admittance Schedule

Winter	20 Students (1 cohort)
Summer	20 Students (1 cohort)

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the program. Students who do not meet this standard may be dismissed from their assigned cohort and requested to retake any necessary courses before advancing to the following term, which is contingent upon available space in the course(s) the student needs to retake. Students may be re-admitted to the program with an approved academic performance plan that is developed with their advisor. Additional information regarding program standards and student conduct is outlined in the Cascade Culinary Institute Student Handbook, which is available at www.cascadeculinary.com.

TRANSFER INFORMATION

It is common that only selected credits are considered transferrable to other institutions, which is determined by the receiving institution.

SPECIALIZATION COURSE OFFERINGS INFORMATION

This program provides an opportunity for students to take 12 credits (3 courses) of specialization courses with the intent to provide a customized option for students to select content that is oriented toward their individual interests and career goals. Students are required to take the specialization courses in alignment with the cohort program sequencing. Exceptions should be requested in writing to the director of Cascade Culinary Institute. These courses are denoted with an "S" following the course number in the catalog. Every specialization course is not available every term and specialization courses are offered on a rotating schedule based upon forecasted student demand. Students will often experience an afternoon or evening schedule during the specialization courses and should plan their schedule for this requirement in advance to the fifth and sixth term of the cohort curricular sequencing. Specialization courses are listed above.

ELEVATION CAPSTONE INTERNSHIP

The Baking and Pastry Arts program boasts of curriculum that concludes with an internal 200-hour internship at the student-operated restaurant, Elevation (www.elevationbend.com). This capstone course enables students to experience a blending of food preparation and service skills at a repetitive level to ensure the growth of student confidence and experience that will enable them to be better prepared as they transition from their academic career to the industry internship and final placement within the hospitality industry. An activity packet will be completed during this internship in order to ensure students are experiencing the student learning outcomes for this course. Students will experience an evening schedule during CUL 270 and should plan their schedule for this requirement in advance to the sixth term of the cohort curricular sequencing. This is a pass/no pass course.

RESTAURANT INDUSTRY INTERNSHIP

The Baking and Pastry Arts program concludes with a 200-hour industry internship. This internship is designed to reinforce the student learning experience at CCI. An internship packet is required to be completed for this course. This course serves as a supervised work experience designed to expand career knowledge and experiential confidence while increasing knowledge, speed, timing, organization, and ability to execute industry skills on a repetitive basis. Students will receive a diverse work experience that is designed on a systematic rotation of different stations in the kitchen, dining room and general operations positions. The industry internship is intended to serve as a formal opportunity for students to seek gainful employment prior to program completion. Students are required to complete six successful terms of progressive cohort curriculum experience prior to the industry internship. If a student desires to complete the internship out of sequence, they are required to request approval from the Cascade Culinary Institute director. This is a pass/no pass course.

CASCADE CULINARY INSTITUTE-CULINARY ARTS

Career Pathway/Certificate of Completion
13 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate, Culinary Arts

PROGRAM DESCRIPTION

The Culinary Arts short-term certificate program is recognized as a Career Pathway Certificate of Completion (CPCC) by the Oregon Department of Community Colleges and Workforce Development (CCWD). Information about the Career Pathway Certificate of Completion and a flowchart can be found at www.cascadeculinary.com. The Culinary Arts short-term certificate is designed to expose students to the fundamental aspects of culinary arts techniques and to serve as a competency-based learning experience that prepares students for successful entrance into the hospitality industry. Emphasis is given to technique and ratios over that of recipes. The curriculum emphasizes hands-on applied learning grounded in theory at an estimated ratio of 25 percent hands-on to 75 percent theory. This program is designed to provide a foundation in applied culinary arts related math and writing, career goal identification, and basic culinary arts skill development. Within the applied foundation course, chef instructors conduct daily assessment of student learning in the areas of applied competency-based skill development, professionalism, food safety and sanitation, and organization; combined with standard homework assignments, quizzes and exams.

Field trips and guest speakers serve to enhance the student learning experience and to provide up-to-date information regarding current industry practices. Participation in student club activities also provides informal learning and industry networking opportunities for students outside of the classroom. Based upon the Career Pathway educational model, program completers are encouraged to consider the pursuit of the next level of education at the one-year certificate or AAS degree level as their next career pathway progression.

COST OF PROGRAM

In addition to standard COCC tuition rates and the ASCOCC technology and green energy fees, students should anticipate the following estimated program costs:

- Individual Course Fees:
- \$25 for the www.optimalresume.com membership (CUL 120)
- General Course Fees:
- \$135 per credit fee for lab and lecture/lab courses, which is equivalent to total program course fees of \$565
- Supplies Expense Estimate: \$1,159 for all required toolkit, uniforms and textbooks at the COCC Bookstore
- ASCOCC Technology and Green Energy Fees Estimate: \$101
- Total Tuition, Supplies and Fees Estimate:
In-District: \$2,956
Out-of-District and Border State: \$3,294
Out-of-State/Border State: \$4,828
- Housing Expense Estimate: Students who would like to research on-campus housing costs should visit www.cocc.edu/Residence-Life/

PROGRAM ENTRANCE REQUIREMENTS

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement OR completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 60 placement (equivalent to CUL 90) OR completion of MTH 20/31 ("C" or better)

MINIMUM GPA AND GRADE REQUIREMENTS

All courses required for the program must be completed at a "C" grade or better and graduates must have a cumulative 2.0 GPA or higher.

REGISTRATION INFORMATION

The Culinary Arts short-term certificate program is designed to be delivered in a cohort-based educational model; hence, coursework is experienced in a sequence that benefits progressive skill development at an introductory level. Students are required to attend the coursework in sequence with the first-term cohort curriculum. Culinary Arts program cohorts are scheduled to begin during fall, winter, spring and summer terms. Twenty seats are available in each cohort group. A maximum of 100 seats are available in the Culinary Arts program annually. Cascade Culinary Institute reserves the right to deviate from the below cohort admittance schedule.

Culinary Arts Program - Cohort Admittance Schedule

Fall	40 students (2 cohorts)
Winter	20 students (1 cohort)
Spring	20 students (1 cohort)
Summer	20 students (1 cohort)

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the program. Students who do not meet this standard may be dismissed from their assigned cohort and requested to retake any necessary courses before advancing to the following term, which is contingent upon available space in the course(s) the student needs to retake. Students may be re-admitted to the program with an approved academic performance plan that is developed with their advisor. Additional information regarding program standards and student conduct is outlined in the Cascade Culinary Institute Student Handbook, which is available at www.cascadeculinary.com.

SPECIALIZATION COURSE OFFERINGS INFORMATION

This program provides an opportunity for students to take 12 credits (3 courses) of specialization courses with the intent to provide a customized option for students to select content that is oriented toward their individual interests and career goals. Students are required to take the specialization courses in alignment with the cohort program sequencing. Exceptions should be requested in writing to the director of Cascade Culinary Institute. These courses are denoted with an "S" following the course number in the catalog. Every specialization course is not available every term and specialization courses are offered on a rotating schedule based upon forecasted student demand. Students will often experience an afternoon or evening schedule during the specialization courses and should plan their schedule for this requirement in advance to the fifth and sixth term of the cohort curricular sequencing. Specialization courses are listed above.

CULINARY ARTS PROGRAM - ACCELERATED OPTION

The Culinary Arts AAS degree also has a special accelerated program option that can be completed in five terms. The intent of this option is to accommodate incoming students who possess a minimum of five years of culinary industry work experience, as well as the motivation and past academic performance (secondary or post-secondary) that supports college success. Unofficial transcripts of secondary and/or post-secondary education must be submitted with the application. The average term course load for the accelerated-paced program is 17 credits. Students who are interested in attending this program must request an application and interview with the CCI director no later than 60 days prior to their desired program start date. Students must submit their application with transcripts and two current letters of recommendation. For additional information about the Culinary Arts AAS accelerated degree option, contact the director of the Cascade Culinary Institute. The independent accelerated program course sequencing and requirements are listed below.

ELEVATION CAPSTONE INTERNSHIP

The Culinary Arts program boasts of curriculum that concludes with an internal 200-hour internship at the student-operated restaurant, Elevation (www.elevationbend.com). This capstone course enables students to experience a blending of food preparation and service skills at a repetitive level to ensure the growth of student confidence and experience that will enable them to be better prepared as they transition from their academic career to the industry internship and final placement within the hospitality industry. An activity packet will be completed during this internship in order to ensure students are experiencing the student learning outcomes for this course. Students will experience an evening schedule during CUL 270 and should plan their schedule for this requirement in advance to the sixth term of the cohort curricular sequencing. This is a pass/no pass course.

RESTAURANT INDUSTRY INTERNSHIP

The Culinary Arts program concludes with a 200-hour industry internship. This internship is designed to reinforce the student learning experience at CCI. An internship packet is required to be completed for this course. This course serves as a supervised work experience designed to expand career knowledge and experiential confidence while increasing knowledge, speed, timing, organization, and ability to execute industry skills on a repetitive basis. Students will receive a diverse work experience that is designed on a systematic rotation of different stations in the kitchen, dining room and general operations positions. The industry internship is intended to serve as a formal opportunity for students to seek gainful employment prior to program completion. Students are required to complete six successful terms of progressive cohort curriculum experience prior to the industry internship. If a student desires to complete the internship out of sequence, they are required to request approval from the Cascade Culinary Institute director. This is a pass/no pass course.

CASCADE CULINARY INSTITUTE-SUSTAINABLE FOOD SYSTEMS FOR CULINARY ARTS

Certificate of Completion - 51 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate, Sustainable Food Systems for Culinary Arts

PROGRAM DESCRIPTION

The Sustainable Food Systems for Culinary Arts Certificate program is designed to expose students to a blending of culinary arts skill development and that of sustainable operations and food sourcing practices. The Culinary Arts portion of this curriculum is designed to expose students to the step-by-step process of classical and contemporary culinary arts techniques and to serve as a competency-based learning experience that prepares students for a successful career within the hospitality industry. Emphasis is given to technique and ratios over that of recipes. The curriculum emphasizes hands-on applied learning grounded in theory at an estimated ratio of 70 percent hands-on to 30 percent theory. Chef instructors conduct daily assessment of student learning in the areas of applied competency-based skill development, professionalism, food safety and sanitation, and organization; combined with standard homework assignments, quizzes and exams. Field trips and guest speakers serve to enhance the student learning experience and provide up-to-date information regarding current industry practices. Participation in student club activities also provides informal learning and networking opportunities for students outside of the classroom. Within this program, students will also experience courses that emphasize sustainable restaurant operations, which will give them an in-depth knowledge of best practices that relate with sustainable operational and food sourcing practices. Students will be exposed to operational practices and knowledge throughout the program curriculum that emphasize recycling (plastics, paper/cardboard, metals, grease, food by-products, etc.), composting and energy conservation. Students will learn to conduct an operational assessment and present a long-term cost-to-benefit analysis of implementing sustainable systems into a restaurant or food service operation. They will also learn about the flow of food, distribution, carbon footprint and environmental impact of implementing sustainable systems. As part of a farm internship, students will also have a hands-on experience on the farm interacting with plants and the raising of livestock through planting, harvesting and preserving a diversity of regional foods.

COST OF PROGRAM

In addition to standard COCC tuition rates and the ASCOCC technology and green energy fees, students should anticipate the following estimated program costs:

- Individual Course Fees:
 - \$25 for the www.optimalresume.com membership (CUL 120)
 - \$85 for the American Culinary Federation (ACF) Membership and Certified Pastry Culinarian (CPC) Certification (CUL 260)
- General Course Fees:
 - \$135 per credit fee for lab and lecture/lab courses, which is equivalent to total program course fees of \$3,890
- Supplies Expense Estimate: \$1,791 for all required toolkit, uniforms and textbooks at the COCC Bookstore
- ASCOCC Technology and Green Energy Fees Estimate: \$405
- Total Tuition, Supplies and Fees Estimate:
 - In District: \$10,523
 - Outside of District and Border State: \$11,849
 - Outside of State/Border State: \$17,867
- Housing Expense Estimate: Students who would like to research on-campus housing costs should visit www.cocc.edu/Residence-Life/

PROGRAM ENTRANCE REQUIREMENTS

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement OR completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 60 placement (equivalent to CUL 90) OR completion of MTH 20/31 ("C" or better)

MINIMUM GPA AND GRADE REQUIREMENTS

All required program courses must be completed at a "C" grade or better, and graduates must have a cumulative 2.0 GPA or higher.

REGISTRATION INFORMATION

The Sustainable Food Systems for Culinary Arts program is designed to be delivered in a blended cohort-based and independent educational

model; hence, coursework is experienced in a sequence that benefits progressive skill development from an introductory to advanced level. Students are required to attend the coursework in sequence. Students in the Sustainable Food Systems for Culinary Arts Certificate program are expected to progress with a cohort through the Culinary Arts related courses, and take the additional sustainable foods related courses during the winter (CUL 205), spring (CUL 215), summer (CUL 225 and CUL 235s) and fall (CUL 295) terms. Culinary Arts program cohorts are scheduled to have a quarterly start, which includes fall, winter, spring and summer term. Twenty seats are available in each cohort group. A maximum of 100 seats are available in the Culinary Arts program annually, as two cohorts start during fall term. Cascade Culinary Institute reserves the right to deviate from the below cohort admittance schedule.

Sustainable Food Systems for Culinary Arts - Program Admittance Schedule

Students who intend on pursuing the Sustainable Food Systems for Culinary Arts Certificate as a standalone program will be admitted at any of the below listed terms in conjunction with students who are starting the Culinary Arts AAS program.

Fall	40 students (2 cohorts)
Winter	20 students (1 cohort)
Spring	20 students (1 cohort)
Summer	20 students (1 cohort)

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the program. Students who do not meet this standard may be dismissed from their assigned cohort and requested to retake any necessary courses before advancing to the following term, which is contingent upon available space in the course(s) the student needs to retake. Students may be re-admitted to the program with an approved academic performance plan that is developed with their advisor. Additional information regarding program standards and student conduct is outlined in the Cascade Culinary Institute Student Handbook, which is available at www.cascadeculinary.com.

TRANSFER INFORMATION

It is common that only selected credits are considered transferrable to other institutions, which is determined by the receiving institution.

SUSTAINABLE FOOD SYSTEMS FOR CULINARY ARTS PROGRAM - COURSE SEQUENCING REQUIREMENTS

Term One		
CUL 90	Applied Math for Culinary Arts	4
CUL 110	Culinary Arts Foundations I	4
CUL 120	Student Academic Success and Restaurant Industry Career Preparation	1
CUL 205	Sustainable Food Production Systems Overview and Operational Assessment	3

CASCADE CULINARY INSTITUTE-SUSTAINABLE FOOD SYSTEMS FOR CULINARY ARTS *(continued)*

Certificate of Completion - 51 credits

FARMING AND REGIONAL AGRICULTURE INTERNSHIP

The Sustainable Food Systems for Culinary Arts Certificate program concludes with a 200-hour on-the-farm internship. This internship is designed to reinforce the student learning experience at CCI. An internship packet is required to be completed for this course. This course serves as a supervised work experience designed to expand career knowledge and experiential confidence while increasing knowledge and practice as it relates to working on a farm with both plant and animal life. Students will receive a diverse work experience that is designed on a systematic rotation of different responsibilities on the farm. The farm internship is intended to serve as a formal opportunity for students to seek gainful employment prior to program completion. Students are required to complete three successful terms of progressive cohort curriculum experience prior to the industry internship. If a student desires to complete the internship out of sequence, they are required to request approval from the Cascade Culinary Institute director. This is a pass/no pass course.

CASCADE CULINARY INSTITUTE-NUTRITION AND DIETARY MANAGEMENT FOR CULINARY ARTS

Certificate of Completion - 42 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate, Nutrition and Dietary Management for Culinary Arts

PROGRAM DESCRIPTION

The Nutrition and Dietary Management for Culinary Arts Certificate program was accredited by the Association of Nutrition and Foodservice Professionals (ANFP) in 2003 and is uniquely designed to help students receive certification while employed in a health care facility or while obtaining a degree in Culinary Arts at Cascade Culinary Institute. The ANFP accreditation standards require a well-rounded curriculum that represents the disciplines of foodservice management, human resources management, nutrition and medical nutrition therapy, and food safety; combined with a 200-hour industry internship. The Culinary Arts portion of this curriculum is designed to expose students to the step-by-step process of classical and contemporary culinary arts techniques and to serve as a competency-based learning experience that prepares students for a successful career within the hospitality industry. Emphasis is given to technique and ratios over that of recipes. The curriculum emphasizes hands-on applied learning grounded in theory at an estimated ratio of 50 percent hands-on to 50 percent theory. Chef instructors conduct daily assessment of student learning in the areas of applied competency-based skill development, professionalism, food safety and sanitation, and organization; combined with standard homework assignments, quizzes and exams. Field trips and guest speakers serve to enhance the student learning experience and provide up-to-date information regarding current industry practices. Participation in student club activities also provides informal learning and networking opportunities for students outside of the classroom. Unique to Cascade Culinary Institute, the Nutrition and Dietary Management for Culinary Arts Certificate program also features integrated across-the-curriculum applied learning modules that serve to enhance the student learning experience and provide repetition of knowledge and skill that will support successful entry into the work force. Students completing the program will be prepared to sit for the national examination to become Certified Dietary Managers approved by the Dietary Managers Association. Information about program accreditation can be found at: www.anfponline.org/Training/programs.shtml.

COST OF PROGRAM

In addition to standard COCC tuition rates and the ASCOCC technology and green energy fees, students should anticipate the following estimated program costs:

- Individual Course Fees:
 - \$25 for the www.optimalresume.com membership (CUL 120)
 - \$85 fee will be assessed for the American Culinary Federation (ACF) Membership (CUL 260)
- General Course Fees:
 - \$135 per credit fee for lab and lecture/lab courses, which is equivalent to total program course fees of \$2,540
- Supplies Expense Estimate: \$1,791 for all required toolkit, uniforms and textbooks at the COCC Bookstore
- ASCOCC Technology and Green Energy Fees Estimate: \$405
- Total Tuition, Supplies and Fees Estimate:
 - In District: \$8,390
 - Outside of District and Border State: \$9,482
 - Outside of State/Border State: \$14,438
- Housing Expense Estimate: Students who would like to research on-campus housing costs should visit www.cocc.edu/Residence-Life/
- Other Fees:
 - Optional student membership, Association of Nutrition and Foodservice Professionals: \$35/\$60 www.anfponline.org/Docs/membershipApp.pdf
 - CDM®, CFPP® Credentialing Exam Study Materials: \$315 maximum www.anfponline.org/Docs/CredentialingExamBrochure.pdf
 - National Credentialing Exam: \$399

PROGRAM ENTRANCE REQUIREMENTS

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement OR completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 60 placement (equivalent to CUL 90) OR completion of MTH 20/31 ("C" or better)

MINIMUM GPA AND GRADE REQUIREMENTS

CENTER FOR ENTREPRENEURIAL EXCELLENCE & DESIGN NEW VENTURE CREATION

Certificate of Completion - 60 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, New Venture Creation

PROGRAM DESCRIPTION

New Venture Creation is the foundation of entrepreneurship and provides the core curriculum for CEED. Students will explore their own business ideas from concept to launch. Students will graduate with a comprehensive investment-ready business plan and the knowledge and communication skills necessary to critically defend and support the strategies and decisions therein. The CEED coursework contained in this certificate of completion may be taken sequentially as a member of a cohort (recommended), or individually.

The program is cross-disciplinary by design, self-contained, and is open to all disciplines and all majors.

All coursework may also be applied to an Associate of Applied Science (AAS) Entrepreneurial Management.

COST OF PROGRAM

Standard tuition, student fees and textbooks.

PROGRAM PREPARATION AND PREREQUISITES

Recommended

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 111 placement or completion of MTH 95 ("C" or better)

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

The required courses for the certificate are listed below under Program Course Requirements. Students should consult their advisor if they have transfer credits, are not able to attend full time or are not at college level in reading, writing and math.

PROGRAM STANDARDS

Academic dishonesty will not be tolerated and can result in the offending student being dropped from the program. Students wishing reinstatement must seek endorsement from the department chair after completing a progressive review.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

The following is a suggested course of study for students interested in pursuing the New Venture Creation certificate and will depend on course availability. A recommended sequence of the courses required for this certificate is listed below.

Term 1

BA 101	Introduction to Business	4
BA 211	Financial Accounting I	4
CIS 131	Software Applications	4
WR 121	English Composition	4

Term 2

MTH 111	College Algebra	4
BA 212	Financial Accounting II	4
BA 223	Marketing Principles I	4
SP 111	Fundamentals of Public Speaking	3

Term 3

BA 206	Management Fundamentals I	4
BA 213	Managerial Accounting	4
CIS 125E	Excel	4
CEED 213	Marketing Research (recommended)	4

Term 4

CEED 201	Business Modeling	2
CEED 202	Business Intelligence	2
CEED 203	Strategic Marketing	2
CEED 205	Managerial Finance	2

Term 5

CEED 204	Strategic Management	2
CEED 211	Good to Great	2
CEED 207	Tactical Operations	2
CEED 206	Presenting to Win	2

CENTER FOR ENTREPRENEURIAL EXCELLENCE & DESIGN

ENTREPRENEURIAL MANAGEMENT

Associate of Applied Science (AAS) Degree - 107 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Entrepreneurial Management

PROGRAM DESCRIPTION

The CEED, Center for Entrepreneurial Excellence & Development AAS Entrepreneurial Management is a rigorous preparatory program intended to equip potential entrepreneurs with the skill-set and knowledge necessary to successfully start and operate a new venture. The Entrepreneurial Management degree is structured to serve entrepreneurs, intrapreneurs, managers, leaders and business owners by providing a holistic and integrated immersion in all aspects and disciplines of business.

COST OF PROGRAM

Standard tuition, student fees and textbooks.

PROGRAM PREPARATION AND PREREQUISITES

Recommended

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 111 placement or completion of MTH 95 ("C" or better)

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better, and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

The required courses for the AAS Entrepreneurial Management are listed below under Program Course Requirements. Students should consult their advisor if they have transfer credits, are not able to attend full time or are not at college level in reading, writing and math.

PROGRAM STANDARDS

Academic dishonesty will not be tolerated and can result in the offending student being dropped from the program. Students wishing reinstatement must seek endorsement from the department chair after completing a progressive review.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

The following is a suggested course of study for students interested in pursuing the AAS Entrepreneurial Management and will depend on course availability. A recommended sequence of the courses required for this certificate is listed below.

Term 1

BA 101	Intro to Business	4
BA 211	Financial Accounting I	4
CIS 131	Software Applications	4
WR 121	English Composition	4

Term 2

MTH 111	College Algebra	4
BA 212	Financial Accounting II	4
BA 223	Marketing Principles I	4
SP 111	Fundamentals of Public Speaking	3

Term 3

BA 206	Management Fundamentals I	4
BA 213	Managerial Accounting	4
CIS 125E	Excel	4
EC 201	Microeconomics	4

Term 4

BA 220	Business Analysis & Budgeting	4
MTH 243	Introduction to Probability and Statistics I	4

EC 202	Macroeconomics	4
SOC 201	Introduction to Sociology	4

Term 5

BA 226	Business Law I	4
CEED 213	Marketing Research	4
MTH 244	Intro to Methods of Probability and Statistic2	4
PSY 216	Social Psychology	4

Term 6

BA 222	Business Finance	3
MTH 241	Calculus for Management/Social Science	4
WR 227	Technical Writing	4

Term 7

CEED 201	Business Modeling	2
CEED 202	Business Intelligence	2
CEED 203	Strategic Marketing	2
CEED 205	Managerial Finance	2

Term 8

CEED 204	Strategic Management	2
CEED 211	Good to Great	2
CEED 207	Tactical Operations	2
CEED 206	Presenting to Win	2

TRANSFER AND/OR ARTICULATION INFORMATION

Successful completion of the AAS Entrepreneurial Management program fulfills most prerequisites for transfer to a four-year university. See additional coursework below required to satisfy ASOT Business Transfer.

For those seeking an undergraduate business degree, the CEED AAS Entrepreneurial Management program satisfies the business department prerequisites of:

- Eastern Oregon University
- Oregon State University
- University of Oregon
- Oregon Institute of Technology
- Portland University

The ASOT Business degree articulates directly to Oregon public university business school requirements. The ASOT Business degree meets the lower-division general education requirements for all Oregon public universities and business schools and some private four-year business schools.

These additional courses are required for the ASOT Business Administration Business Transfer degree and may be taken concurrently with the AAS Entrepreneurial Management. (All courses must be completed with a "C" grade or higher.)

GENERAL EDUCATION REQUIREMENTS

WR 122 English Composition	4
----------------------------	---

DISCIPLINE STUDIES REQUIREMENTS

Arts and Letters

Minimum of 12 credits from COCC's Arts and Letters discipline studies list, chosen from at least two disciplines.

Science

Minimum of 12 credits of laboratory science in biological or physical sciences from COCC's Science/Math/Computer Science discipline studies list.

Electives

Recommended courses to take as electives: BA 207, BA 239 and BA 250.

A Sufficient number of transfer-level courses to meet total degree requirements of at least 90 credits may include a maximum of 12 Career and Technical Education (CTE) credits. See advisor for recommended electives as well as specific institution transfer requirements.

For more information about the Associate of Science (AS) degree and articulation agreements with local colleges and universities, see pages 36-37. For more information about the AAOT degree and articulation agreements with local colleges and universities, see pages 34-35.

CHEMISTRY

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

Chemists study the composition and transformations of matter. Chemists work in a wide variety of settings and find employment with government, academic and private institutions. Chemistry is frequently described as the "central science" because of the connections between it and all other scientific disciplines. Earning a degree in chemistry can be the first step toward careers with chemical, materials or pharmaceutical companies, biotech firms, or forensic laboratories. It can also be a stepping stone on the route to a professional medical degree, for instance in medicine, physical therapy or pharmacy. Chemists are readily employable after completion of a bachelor's degree. Earning an Associate of Arts Oregon Transfer (AAOT) degree with a chemistry emphasis is also excellent preparation for bachelor's degrees in related disciplines such as toxicology, atmospheric science, environmental science or materials science.

The Associate of Arts Oregon Transfer (AAOT) degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The department maintains the ability to offer CH 241, 242 and 243 - Organic Chemistry I, II and III - each with laboratory. Please see a chemistry faculty member or the department Chair if you have an interest in this subject.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in chemistry.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 111	College Algebra	4
(or higher for which Intermediate Algebra is a prerequisite)		

Health (3 credits with HHP prefix)	3
HHP activity courses (1 credit each) are not to be duplicated	

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

CH 221	General Chemistry I	5
CH 222	General Chemistry II	5
CH 223	General Chemistry III	5
PH 201 or 211	General Physics I	5

ELECTIVES

PH 202 or 212	General Physics II	5
PH 203 or 213	General Physics III	5
MTH 251	Calculus I	4
MTH 252	Calculus II	4
MTH 253	Calculus III	4

TRANSFER INFORMATION

Oregon public universities with a chemistry major include: University of Oregon, Oregon State University, Western Oregon University, Southern Oregon University, Eastern Oregon University, Portland State University.

COMPUTER AND INFORMATION SYSTEMS (CIS)

Associate of Applied Science (AAS) Degree 94-98 credits

For information about the Geographic Information Systems (GIS) program, see pages 108-109.

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Computer and Information Systems with Maj/Concentrations

PROGRAM DESCRIPTION

The Computer Information Systems (CIS) degree program is designed around a core curriculum and four distinct options. The program's core provides an introduction to computer concepts, software applications, operating systems, networking, database, computer servicing, Internet, math, human relations and writing. To gain practical work-related experience, students complete 99 hours of cooperative work experience in a related setting. Graduates work in information technology (IT) for a wide variety of commercial businesses, education, federal/state/local governments, e-commerce, publishing and real estate. CIS careers typically include positions such as PC technician, desktop support, network administrator, web developer, draftsman, database administrator, system administrator, and related managerial and administrative roles.

To earn an AAS in Computer Information Systems, a student must complete 67-71 core credits and an additional 28 credits of CIS electives. Students can choose to complete a general AAS in CIS by taking any 28 credits with a CIS prefix 100 or above, or a student may elect to complete an option in one or more of four emphasis areas: Networking, Computer Aided Drafting (CAD), Desktop Support, or Web Development/Database. If a student selects specific CIS electives to complete the requirements for one of the four options, the AAS degree awarded also specifies the emphasis area successfully completed. The general AAS provides the most flexibility in course selection and scheduling. To earn the CIS one-year certificate, the student completes 46-47 credits.

The **Computer Aided Drafting** option prepares students for entry-level employment in the drafting field. Students prepare for advanced CAD applications through an introductory set of CAD-based curriculum. Students will gain experience using dedicated architectural, civil and mechanical software.

The **Desktop Support** option prepares students to provide technical assistance to computer system users, answer questions, or resolve computer problems for clients in person, via telephone or from a remote location. Other responsibilities may include providing support for computer hardware and software, including printing, installation, word processing, spreadsheets, database, electronic mail and operating systems.

The **Networking** option prepares students for entry-level positions in network administration. Network specialists have the abilities to design, create, manage and maintain computer networks for small businesses. Courses cover both hardware and software and closely follow major industry certification requirements.

The **Web Development/Database** option prepares students for a career as a web developer or web/database administrator. These professionals are responsible for creating standards-based websites and web/database applications. In addition to programming skills in common markup, scripting and SQL languages, these types of professions require project management and communication skills.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs: Materials (4-16 GB usb/flash drive, basic office supplies - notebooks), \$100

Strongly recommended, but not required:

A home or laptop computer capable of running the latest version of the Windows operating system and the latest version of Microsoft Office, \$600. Contact program instructors for specifics.

PROGRAM PREPARATION AND RECOMMENDED PREREQUISITES

Recommended prior to entry in program (CIS) courses

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement, OR completion of WR 65 and/or WR 75 and/or WR 95 ("C" or better)
- Minimum placement scores resulting in MTH 85 placement OR completion of MTH 20 and/or MTH 60 equivalent
- Basic computer competency (or CIS 10 and CIS 70)

All COCC students enrolled in the Computer Information Systems program (which includes requirements for Cooperative Work Experience) may have to pass Criminal History Checks (CHC) as a condition of their acceptance into a work site. Students who do not pass the CHC may not be eligible to complete requirements at affiliated practicum sites or be hired for some professional positions. Students who believe their history may interfere with their ability to complete the program of study should contact the program director.

MINIMUM GPA OR GRADE REQUIREMENTS

All courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Core Computer and Information Systems program courses (CIS) are all offered two to three quarters each academic year. All CIS elective classes are offered one to two quarters an academic year. Planning ahead is important. Students may take non-program support courses any term to build skills related to prerequisites. Students receiving federal financial aid are encouraged to speak with their financial aid advisor.

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled; students who do not meet this standard may be dismissed from the program.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

While there are none currently required, various professional organizations offer certification that may enhance placement opportunities.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

CIS 178	Internet in Depth	4
CIS 179	Networking Essentials	4

CIS 244	Information System Analysis	4
CIS XXX	CIS elective (in addition to one of the CIS options)	4
CIS 280	Co-op Work Experience (CWE)	3

Other required courses (CIS electives)

(28 credits with CIS prefix or choose one of the following CIS options)

For a CIS AAS degree (with no option) select 28 credits with a CIS prefix numbered 100 or higher from the list in the course descriptions, pages 200-204. This choice provides the greatest flexibility in completing degree requirements.

For a CIS AAS degree with a specific option, select 28 credits from one of the following four CIS options.

Networking option (28 credits)

CIS 151C	Cisco Internetworking	4
CIS 152C	Cisco Router Configuration	4
CIS 154C	Cisco VLAN / WAN Technologies	4
CIS 279W7	Windows 7	4
CIS 279SA	Windows Server 2008 Administration	4
CIS 279NI	Windows Server 2008 Network Infrastructure	4
CIS 279AD	Windows Server 2008 Active Directory	4
CIS 279L	Linux+	4
CIS 279SE	Security +	4
CIS 125V	Visio	4

Desktop Support option (28 credits)

CIS 125E	Excel	4
CIS 125A	Access	4
CIS 125DW	Introduction to Dreamweaver	4
CIS 195	Web Development I	4
CIS 125G	Photoshop	4
CIS 295	Web Development II	4
CIS 279W7	Windows 7	4
CIS 235	IT in Business	4

Web Development/Database option (28 credits)

CIS 125G	Photoshop or CIS 125I Adobe Illustrator or	
CIS 125FL	Introduction to Flash	4
CIS 195	Web Development I	4
CIS 295	Web Development II	4
CIS 133JS	Introduction to JavaScript	4
CIS 133P	Introduction to PHP	4
CIS233P	Web Programming	4
CIS 276	Advanced SQL	4

CAD option (28 credits)

CIS 125A1	AutoCAD 1	4
CIS 125A2	AutoCAD 2	4
CIS 135S1	Solidworks 1	4
CIS 135S2	Solidworks 2	4

Certificate of Completion

46-47 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Computer and Information Systems

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:
Materials (4-16 GB usb/flash drive, basic office supplies - notebooks), \$100

Strongly recommended, but not required:

A home or laptop computer capable of running the latest version of the Windows operating system and the latest version of Microsoft Office, \$600. Contact program instructors for specifics.

PROGRAM PREPARATION AND RECOMMENDED PREREQUISITES

Recommended prior to entry in program (CIS) courses

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement, OR completion of WR 65 and/or WR 75 and/or WR 95 (C or better)
- Minimum placement scores resulting in MTH 85 placement OR completion of MTH 20 and/or MTH 60 equivalent
- Basic computer competency (or CIS 10 and CIS 70)

MINIMUM GPA OR GRADE REQUIREMENTS

All courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

There are none currently required.

CRIMINAL JUSTICE

PROFICIENCY AREAS

13-16 credits

Criminal Justice is a growing profession in Oregon and is expected to grow faster than the labor market on average into the foreseeable future. Job openings may call for a high school diploma, an associate degree, or a bachelor’s degree. COCC’s Associate of Applied Science in Criminal Justice program prepares students to begin a criminal justice career upon graduation.

COCC offers students four options within the Criminal Justice program.

PROFICIENCY AREAS

New to the Criminal Justice program, these five proficiency areas offer students a way to focus their electives. Upon completion of the electives in the different areas, the student will receive a signed training document from the department detailing the classes completed in each specific area.

CERTIFICATE OF COMPLETION

The statewide one-year certificate program with a concentration in juvenile corrections is specifically designed for individuals who want to work directly with juvenile offenders in various settings. These settings may include Oregon Youth Authority (OYA) as well as other public, private and nonprofit agencies/programs. A criminal background check is required to complete the one-year certificate or the two-year degree. The criminal background check is also a requirement for any job in the criminal justice field.

ASSOCIATE OF APPLIED SCIENCE

This degree is designed for those students who wish to pursue a career in law enforcement or corrections. Most city and state law enforcement and correctional facilities require a high school diploma or GED. In Oregon, the competition for these jobs is intense. A college education is almost always a minimum requirement for the application process.

THE ASSOCIATE OF ARTS OREGON TRANSFER

This degree meets the state of Oregon transfer degree requirements allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and review specific transfer requirements.

Students are encouraged to work closely with their advisors to decide which option is most appropriate based on long-term career goals. A criminal history may affect employment opportunities.

PROFICIENCY AREAS (13-16 CREDITS)

Law Enforcement (16 credits)

CJ 110	Law Enforcement	3
CJ 220	Substantive Law	3

CRIMINAL JUSTICE-JUVENILE CORRECTIONS

Statewide Certificate

54 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Juvenile Corrections (Statewide Certificate)

PROGRAM DESCRIPTION

The statewide one-year certificate program with a concentration in juvenile corrections is specifically designed for individuals who want to work directly with juvenile offenders in various settings. These settings may include Oregon Youth Authority (OYA) as well as other public, private and nonprofit agencies/programs. A criminal background check is required to complete the one-year certificate or the two-year degree. The criminal background check is also a requirement for any job in the criminal justice field.

COST OF PROGRAM

Standard tuition, student fees and textbooks.

MINIMUM GPA OR GRADE REQUIREMENTS

All general education/foundational skills and any course with a CJ prefix must be completed with a grade of "C" or higher.

REGISTRATION INFORMATION

Students may begin the Criminal Justice program in any term.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

Most agencies in the criminal justice field will require a background check and most likely a physical abilities test. Each agency may have different requirements at local, state and federal levels.

TRANSFER INFORMATION

This certificate/degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

CRIMINAL JUSTICE

Associate of Applied Science (AAS) Degree
93 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Criminal Justice

PROGRAM DESCRIPTION

Criminal Justice is a growing profession in Oregon and is expected to grow faster than the labor market on average into the foreseeable future. Job openings may call for a high school diploma, an associate degree or a bachelor's degree. COCC's AAS in Criminal Justice program prepares students to begin a criminal justice career upon graduation.

COCC offers students four options within the criminal justice program.

PROFICIENCY AREAS

New to the criminal justice program, these five proficiency areas offer students a way to focus their electives. Upon completion of the electives in the different areas, the student will receive a signed training document from the department detailing the classes completed in each specific area.

CERTIFICATE OF COMPLETION

The statewide one-year certificate program with a concentration in juvenile corrections is specifically designed for individuals who want to work directly with juvenile offenders in various settings. These settings may include Oregon Youth Authority (OYA) as well as other public, private and nonprofit agencies/programs. A criminal background check is required to complete the one-year certificate or the two-year degree. The criminal background check is also a requirement for any job in the criminal justice field.

ASSOCIATE OF APPLIED SCIENCE DEGREE

This degree is designed for those students who wish to pursue a career in law enforcement or corrections. Most city and state law enforcement and correctional facilities require a high school diploma or GED. In Oregon, the competition for these jobs is intense. A college education is almost always a minimum requirement for the application process.

ASSOCIATE OF ARTS OREGON TRANSFER DEGREE

The Associate of Arts Oregon Transfer degree meets the State of Oregon transfer degree requirements allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met.

Students should work closely with an advisor to select the best degree option and review specific transfer requirements. Students are encouraged to work closely with their advisors to decide which option is most appropriate based on long-term career goals. A criminal history may affect employment opportunities.

COST OF PROGRAM

Standard tuition, student fees and textbooks.

MINIMUM GPA OR GRADE REQUIREMENTS

All foundational skills (math, writing and SP 218), and program requirement courses must be completed with a "C" grade or better.

REGISTRATION INFORMATION

Students may begin the Criminal Justice program in any term.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

Most agencies in the criminal justice field will require a background check and most likely a physical abilities test. Each agency has different requirements at local, state and federal levels.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

General education/foundational requirements¹

MTH 20	Pre Algebra (or higher)	4
SP 218	Interpersonal Communication	3
WR 121	English Composition	4

Program requirements¹

CJ 100	Survey of the Criminal Justice System	3
CJ 101	Introduction to Criminology	4
CJ 120	Judicial Process	3
CJ 253	Corrections	4
CJ 201	Introduction to Juvenile Justice	3
CJ 280	Co-op Work Experience Criminal Justice ²	2
CJ Electives ³		15-18

Other required courses

Health and Human Performance ⁴		3-4
SP 111	Fundamentals of Public Speaking	3
SP 219	Small Group Communication	3
PSY 233	Psychology of Violence and Aggression	4
Two additional (2) courses with a PSY prefix		8
SOC 201	Introduction to Sociology	4
Any social science course (no CJ Prefix)		4
ED 265	Children at Risk	3
Discipline studies course (see pages 44-45, no CJ prefix)		4

ELECTIVES

Students should take enough electives to reach the necessary 93 minimum credit requirement from the following:

Any class from the discipline studies list, see pages 44-45.

Any 100-level or higher class from the following subject areas, or with approval from the CJ Program Director:

- Addiction Studies (HS prefix)
- Computer and Information Systems
- Criminal Justice
- Emergency Medical Services (EMT)
- Foreign Languages
- Geographic Information Systems
- Health and Human Performance (no repeats of activity classes)
- Military Science
- Speech
- Study Skills (HD prefix)
- ART 161, 162, 163, 261, 265

FOOTNOTES

¹ Must be completed with "C" grade or higher.

² CJ 280 is a program requirement. CJ 281 and CJ 282 may be taken as electives after successful completion of CJ 280.

³ Select from CJ 110, CJ 123, CJ 188, CJ 199, CJ 204, CJ 207, CJ 210, CJ 211, CJ 220, CJ 222, CJ 230, CJ 243, CJ 280, CJ 153, CJ 281 and CJ 282 or EMT 195.

⁴ HHP: 3-4 credits of health are required. This can be any HHP prefix. HHP Health classes are recommended. (HHP 252A, HHP 231, HHP 242, HHP 258, HHP 266, HHP 295 or any three credits of activity classes—no repeats.)

CRIMINAL JUSTICE

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The Associate of Arts Oregon Transfer (AAOT) degree meets the State of Oregon transfer degree requirements allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met.

Students should work closely with an advisor to select the best degree option based on long-term career goals and to review specific transfer requirements. Students are encouraged to work closely with their advisors to decide which option is most appropriate. A criminal history may affect employment opportunities.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher.)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite)		

Health (3 credits with HHP prefix.)		3
HHP activity courses (1 credit each) are not to be duplicated.		

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

Choose any college-level course that brings the total credits to 90 quarter hours. This may include up to 12 credits of Career and Technical Education courses designated by COCC as acceptable.

CJ 100	Survey of the Criminal Justice System	3
CJ 101	Introduction to Criminology	4
CJ 120	Judicial Process	3
CJ 253	Corrections	4
CJ 201	Introduction to Juvenile Justice	3
CJ 280	Cooperative Work Experience	2

ADVISING NOTES

If transferring to Southern Oregon University: CJ 210 and CJ 211 are recommended.

If transferring to Portland State University: CJ 101, CJ 110 and CJ 253 are recommended.

If transferring to Western Oregon University: CJ 100 is recommended.

If transferring to Oregon State University: HHP 295 and WR 227 is recommended.

DENTAL ASSISTING

Certificate of Completion

65-73 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Dental Assisting

PROGRAM DESCRIPTION

The Dental Assisting program trains individuals in a broad range of clinical and administrative skills such as preparing patients for dental exams and treatments, performing radiographic procedures, scheduling and appointment procedures, maintenance of medical records, performing basic secretarial and receptionist services, and communication and public relations skills. The program is accredited by the Commission on Dental Accreditation of the American Dental Association. Graduates are prepared for the Dental Assisting National Board and the Oregon Certification in Expanded Functions.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Program fee of \$167/term (or \$501 total for the year) while enrolled in the DA cohort
- Materials (uniform, goggles, lab jacket), \$100
- National Board exams, \$795 total
- In some cases: fees associated with immunizations, \$220, and/or CPR card, \$20-\$60

PROGRAM PREPARATION AND PREREQUISITES

Required prior to entry in program (DA) courses:

- 18 years old
- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement OR completion of WR 65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 20/31 placement OR completion of MTH 10 ("C" or better)

Recommended prior to entry in program (DA) courses:

- Completion of computer competency (either competency test or CIS 120)

All COCC students enrolled in Dental Assisting (which includes requirements for practical experience) may have to pass Criminal History Checks (CHC) as a condition of their acceptance into a medical or other facility for training. Students who do not pass the CHC may not be eligible to complete training at affiliated practicum sites, to sit for licensure or certification exams, or to be hired for some professional positions. Students who believe that their past history may interfere with their ability to complete the program of study or to obtain licensure or certification in their chosen field should contact the appropriate state board or the program director.

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a 75 percent grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Program (DA) courses begin once per year in fall term; students take non-program support courses if they begin in a term other than fall or if they need to build skills related to the prerequisites.

All DA courses offered each term must be taken together and sequentially. Students are discouraged from working during winter and spring terms of the program core due to a heavy course load.

The Dental Assisting program does not have a selective admissions process. However, students wishing to register in the fall DA cohort must meet the basic prerequisite competencies and may register according to seat availability on a first-come, first-served basis as determined by the priority registration schedule. Students may view the priority registration schedule at www.cocc.edu/Registration-Home.aspx.

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the program (DA) courses; students who do not meet this standard may be dismissed from the program.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

- The Dental Assisting Program is accredited by the Commission on Dental Accreditation (CODA). This accreditation requires that students complete 300 hours of practicum (internship) in a minimum of two different dental offices. Some dental offices require that students successfully complete a criminal background check.
- In Oregon it is not necessary to be a Certified Dental Assistant (CDA) or an Expanded Functions Dental Assistant (EFDA) to work as a dental assistant. However, opportunities for advancement in the occupation are limited without these two certifications.
- Dental Assisting students can earn a CDA certificate with the successful completion of these three DANB exams: Infection Control Exam (ICE), Radiation Health and Safety Exam (RHS) and General Chairside Exam (GC).
- Dental Assisting students can become an EFDA by: obtaining a certificate of completion from COCC, passing the written RHS exam, completing the proficiency exam in Dental Radiology, and submitting the required fee.
- In Oregon, a dental assistant must have a Radiology Certificate to take dental radiographs. This certificate is obtained by passing the RHS written exam and completing a proficiency exam, which includes submitting a diagnostic full set of radiographs.
- An EFDA in Oregon can also be certified to perform the following functions by taking courses approved by the Oregon Board of Dentistry: place dental sealants, place dental restorations (alloy and resin), reline dentures.
- Prior to taking any DANB exams, students must answer background information questions concerning felony convictions, regulatory board discipline, ethical violations at an educational institution, and mental competence. For more information, see www.danb.org/.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

General education/foundational requirements

WR 121	English Composition	4

DENTAL ASSISTING *(continued)*

Certificate of Completion

65-73 credits

COCC's Health Careers programs follow the current Center for Disease Control Healthcare Personnel Vaccination Recommendations.

The following are required after program entrance and prior to the start of the winter term:

Three dose series of Hepatitis B vaccines, or vaccine series in progress (dose #1 completed, #2 in one month, #3 approximately five months after #2) and anti-HBs serological testing showing immunity (taken one to two months after third immunization);

One-time dose of Tdap (Tetanus, Diptheria, Pertussis) as an adult;

Two Measles, Mumps, Rubella (MMR) vaccines, at least four weeks apart, or if born before 1957, one vaccine; or vaccine series in progress, with first dose prior to the winter term and second dose at one month; or laboratory evidence of measles, mumps and rubella immunity.

Two doses Varicella vaccine, four weeks apart; or serological evidence of immunity (titer) to Varicella.

- The CDC recommends the following vaccination but it is not required by the program:
- 1 dose of influenza vaccine annually.
- Current negative tuberculosis skin test (PPD). If the test was positive students are required to have a chest X-ray to determine state of health.
- Current CPR card (including adult and child CPR)

DIETARY MANAGER

This program is no longer accepting new students.¹
 Certificate of Completion - 23 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Short-term Certificate of Completion, Dietary Manager

PROGRAM DESCRIPTION

The Dietary Manager program is uniquely designed to help students to receive certification while employed in a health care facility or while obtaining a certificate or degree in Culinary Arts at Central Oregon Community College. The program can be completed in three terms. The courses give a foundation in quantity food production, personnel management, nutrition care principles and food service systems management. The field experience may be completed at the student’s work site or in the Culinary Arts program and will provide a practical application of the principles learned in coursework. Students completing the program will be prepared to sit for the national examination to become Certified Dietary Managers approved by the Dietary Managers Association.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Student membership in Dietary Manager Association, optional but recommended, \$35
- CDM®, CFPP® Certification Exam Study Guide, \$150
- National Credentialing Exam, \$390
- In some cases, fees associated with TB Testing or immunizations (if required by practicum site), \$222

PROGRAM PREPARATION AND PREREQUISITES

Required prior to entry in program:

- High school diploma or GED

Recommended prior to entry into program:

- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 (“C” or better)
- Minimum placement scores resulting in MTH 60 placement or completion of MTH 20/31 (“C” or better)

MINIMUM GPA OR GRADE REQUIREMENTS:

All required courses must be completed at a “C” grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Students may enroll in the Dietary Manager courses during any term. Coursework is not sequential.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

The Dietary Manager program is accredited by the Dietary Managers Association (DMA). This accreditation requires that students complete 150 hours of practicum (internship) in appropriate facilities, which may include long-term health care facilities, schools and hospitals. Some facilities require students to obtain immunizations and/or TB testing prior to the practicum.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

CUL 110	Culinary Foundations I	4
CUL 130	Culinary Nutrition and Applied Techniques of Healthy Cooking	4
DM 121	Practicum: Culinary Foundations	1
CUL 230	Hospitality Industry Supervision	3

EARLY CHILDHOOD EDUCATION

Associate of Applied Science (AAS) Degree
90-96 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Early Childhood Education

PROGRAM DESCRIPTION

At COCC, the Early Childhood Education program provides students who have an interest in early childhood, including the early primary elementary years, with a foundation in the theoretical, social, historical and legal aspects of early childhood programming. The COCC associate degree programs in early childhood education provide the foundational knowledge, field experiences and common skills and strategies to prepare students for multiple roles within the field of early childhood education. While the program prepares students for direct work with young children in classroom and educational settings, many associate degree-seeking students have additional professional goals (many requiring further education) including but not limited to:

- Early childhood educator roles such as an infant/toddler, preschool/pre-kindergarten, or K-3 grade classroom teacher, family child care provider, Head Start teacher, or paraprofessional in public schools, early interventionist;
- Home-family support roles such as family advocate, child protective services worker, or parent educator; or
- Professional support roles such as early childhood administrator in a child care or Head Start program, staff trainer, peer/program mentor, or advocate at the community, state or national level.

The Associate of Applied Science (AAS) degree prepares students with a strong emphasis in the theories, curriculum goals and developmentally appropriate teaching and guidance strategies necessary to lead an early childhood classroom program or work as a paraprofessional in the public schools.

COST OF PROGRAM

In addition to standard tuition, student fees, and textbooks, students should anticipate the following program costs: Background check (\$3-\$70), as well as cost of mileage to and from field placement/practicum sites.

PROGRAM PREPARATION AND PREREQUISITES

The ECE program requires a background check through the Oregon Employment Office-Child Care Division. Some field placement sites may require documentation of current immunizations.

MINIMUM GPA OR GRADE REQUIREMENTS

- Courses listed under the Foundational Skills section must be completed at a "C" grade or better, and graduates must have an overall 2.0 GPA.
- Program requirements (see definition below) must be completed at a "C" grade or better.
- Other required courses must be completed at a "C" grade or better.

REGISTRATION INFORMATION

It is recommended (but not required) that students take ED 140 before other Early Childhood Education courses.

PROGRAM STANDARDS

In addition to COCC policies, including students' rights and responsibilities, described in this catalog and detailed in the ECE syllabi, students in COCC's ECE program are expected to follow the policies specific to courses:

- Complete and pass a criminal background check;
- Adhere to the field placement contract; and
- Adhere to confidentiality, health-related and no-smoking policies as they pertain to field placement settings

Refer to the COCC Early Childhood Student Handbook (www.cocc.edu/Early-Childhood-Education) for an explanation of each of the above policies.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often, only selected credits are considered transferrable to public or private baccalaureate institutions.

The AAS degree is fully articulated with Southern Oregon University's Early Childhood Development program and allows students to transfer directly as juniors and to become admitted into the Early Childhood Development program at Southern Oregon University with no loss of credits to pursue a bachelor's degree. The program offers an excellent balance of early childhood and general education courses that support advanced study in the field of early childhood development.

Students should contact the SOU School of Education early in the beginning of their AAS in Early Childhood Education program to be advised about additional requirements and procedures for admission to the school or program. Students should be aware that if they transfer before completing this degree, their courses will be evaluated individually toward the general education requirements in effect at SOU. For more information, visit www.sou.edu, search "COCC" to access the articulation agreement.

PROGRAM COURSE REQUIREMENTS

General education/foundational requirements

Communication

WR 121	English Composition	4
--------	---------------------	---

Computation

MTH 60	Algebra I (or higher)	4
--------	-----------------------	---

Health

HHP 252A	Fit/First Aid	3-4
----------	---------------	-----

or HHP activity courses (1 credit each) are not to be duplicated

Human Relations

Human Relations list, see page 45	3
-----------------------------------	---

PROGRAM REQUIREMENTS

General education/foundational requirements

ED 140	Introduction to Early Childhood Education	4
ED 150	Environments and Curriculum in ECE	4
ED 151	Observation and Guidance in ECE Learning	4
ED 152	Family, School and Community Relationships in ECE	3
ED 172	Language and Literacy in Early Childhood Education	3
ED 173	Movement, Music, and the Arts in Early Childhood Education	3
ED 174	Math, Science, and Technology in Early Childhood Education	3
ED 219	Multicultural Issues in Education Settings in Early Childhood Education	3
ED 250	Advanced Curriculum Development and Teaching Methods in ECE	4
ED 261/262	Practicum I and II	6
ED 265	Children at Risk	3
ED 269	Exceptional Children in Early Childhood Education	3

OTHER REQUIRED COURSES

Discipline Studies courses, see list pages 44-45	6	
Computer competency	0-4	
ENG 221	Children's Literature	4
FN 225	Human Nutrition	4
GEOG 272	Geography for Teachers	3
PSY 201	Mind and Brain	4
PSY 215	Developmental Psychology	4
SOC 201	Intro to Sociology	4
WR 122	English Composition	4
or WR 227	Technical Writing	4

EARLY CHILDHOOD EDUCATION

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

CHILD, FAMILY & COMMUNITY STUDIES
Certificate of Completion - 37 credits

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite)		
or MTH 111	College Algebra	
or MTH 211-213	Fundamentals of Elementary Math I-III	12

Health (3 credits with HHP prefix)

HHP activity courses (1 credit each) are not to be duplicated

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

Note: For students intending to transfer to Oregon State University-Cascades program in Human Development and Family Sciences, please meet with an advisor in Early Childhood Education early in your course of study.

RECOMMENDED PROGRAM ELECTIVES

To provide the best preparation for upper-division courses, particularly at OSU-Cascades, students should work with their advisor to select the most applicable electives from the following:

ED 140	Intro to Early Childhood Education	4
ED 150	Environments and Curriculum in ECE	4
ED 151	Observation and Guidance of Young Children's Learning	4
ED 152	Family, School and Community Relationships in ECE	3
ED 172	Language and Literacy in Early Childhood Education	3
ED 173	Movement, Music and the Arts in Early Childhood Education	3
ED 174	Math, Science and Technology in Early Childhood Education	3
ED 216	Structure and Function of Education in a Democracy ¹	3
ED 219	Multicultural Issues in Education Settings ¹	3
ED 250	Advanced Curriculum Development and Teaching Methods in Early Childhood	4
ED 253	Learning Across the Life Span ¹	3
ED 265	Children at Risk	3
ED 290	English Language Learners	3
ENG 221	Introduction to Children's Literature	4
PSY 215	Developmental Psychology	4
HHP 100	Introduction to Public Health	4

¹ ED 216, 219, and 253 count toward the recommended courses for students pursuing the MAT at OSU-Cascades.

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Child, Family, and Community Studies

CERTIFICATE DESCRIPTION

The CFC Studies certificate is designed to support students seeking careers in school and human service settings. The CFC certificate is a step along the pathway to the AAS in Early Childhood Education. It invites students to apply theories and applications toward a broader perspective, including settings outside of school.

Students with intentions to seek higher degrees or career opportunities in settings serving children and families may use the CFC Studies Certificate to demonstrate coursework and field placement experience. Credits will apply toward the Head Start Reauthorization Act for highly qualified lead and assistant teachers and family advocates. Students considering the HDFS program through OSU may apply several courses (ED 140, PSY 202, SOC 201, FN 225) to HDFS program requirements.

CERTIFICATE REQUIREMENTS

ED 140	Introduction to Early Childhood Education	4
ED 151	Observation and Guidance in ECE Learning	4
ED 152	Family, School and Community Relationships in ECE	3
ED 219	Multicultural Issues in Education Settings in Early Childhood Education	3
ED 265	Children at Risk	3
FN 225	Human Nutrition	4
PSY 201	Mind and Brain	4
PSY 215	Developmental Psychology	4
SOC 201	Intro to Sociology	4
Additional Coursework from the Discipline Studies List		
	See pages 44 and 45	4

ECONOMICS

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

Economics is the study of how society allocates its scarce resources to satisfy its many needs and wants. The focus of lower-division economics courses at COCC is on how the U.S. economy works. The U.S. economy relies primarily on free markets to allocate resources and to provide final goods and services. To understand how markets work, students study the forces of supply and demand. They also look closely at both competitive markets and monopoly markets. Economics studies the role of government in the economy, both in promoting social objectives and in keeping the economy healthy through fiscal and monetary policies. Economics gives an understanding of how the U.S. produces and distributes the goods and services it needs and enjoys. This program is good preparation for careers in business, engineering, resource management or government, as well as solid training for graduate or law school.

The Associate of Arts Oregon Transfer (AAOT) degree meets the State of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in economics.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 111	College Algebra	4
---------	-----------------	---

Health (3 credits with HHP prefix)		3
HHP activity courses (1 credit each) are not to be duplicated		

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

EC 201	Microeconomics	4
EC 202	Macroeconomics	4

And at least two (2) additional courses with at least one different prefix.

Science/Math/Computer Science

At least three (3) laboratory courses in biological and/or physical science. Additional math as potential department requires (depending on baccalaureate university).

MTH 241	Calculus for Management/Social Science	4
MTH 243	Introduction to Methods of Probability and Statistics 1	4
MTH 244	Introduction to Methods of Probability and Statistics 2	4

ELECTIVES

Students must take enough elective courses to meet the minimum 90 credits required for the degree. This may include up to 12 credits of Career and Technical Education courses designated by COCC as acceptable.

ADVISING NOTES

Students pursuing a BA should consider completing three terms of a 200-level language courses at COCC. The 100-level language courses will count as electives. The 200-level language courses will partially fill the Arts and Letters requirement.

Students pursuing a BS should consider taking more math, social science and science courses. Language is not necessary for the BS degree, but would be valuable for students with a major or emphasis in international economics. For specific details, speak with an advisor.

EDUCATION

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

COCC offers lower-division coursework for students preparing to become teachers in Oregon.

In general, the Associate of Arts Oregon Transfer (AAOT) degree (see pages 34-35 for the AAOT degree checklist) is reasonable preparation for students intending to transfer to a teacher preparation program.

In Oregon, students may achieve an initial license to teach through a bachelor's program, a post-baccalaureate program or a master's-level program. Students prepare to teach at different grade levels of authorization, depending on their background, interests and the requirements of specific programs of study. Students may prepare for a transfer degree in Early Childhood Education through COCC (see page 93) as the initial preparation for early childhood education as well as elementary grade-level teaching. However, it is important to work closely with an advisor to ensure that the degree contains the necessary prerequisite coursework for the desired licensure program.

For students intending to stay in Central Oregon to pursue their studies in education, there are several options for completing a teaching licensure program.

Students should consult with an education advisor as early as possible to discuss program options and determine which courses fulfill transfer requirements to different institutions and different levels of licensure.

For more information on teacher preparation programs in Oregon, see www.tspc.state.or.us and the Oregon Teacher advising guide, www.ous.edu/stucoun/prospstu/teached. Students may wish to review COCC's advising guide for teacher education as well: www.cocc.edu/CAP/Advising/.

EMERGENCY MEDICAL SERVICES

Associate of Applied Science (AAS) Degree
98-104 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Emergency Medical Services

PROGRAM DESCRIPTION

An Associate of Applied Science (AAS) degree in Emergency Medical Services (Paramedic) contains many courses to develop technical skills and knowledge for employment and advancement in pre-hospital employment. The program is challenging and will require participants to spend between 600 and 800 hours in clinical and field settings. The program contains certification requirements at the Emergency Medical Technician (EMT) and Paramedic levels. Students will need to satisfy a computer-based and practical hands-on test through the National Registry to complete certification.

Paramedics work in a variety of settings. These include fire departments, private and public ambulance services, hospitals (emergency departments), emergency communication systems, law enforcement agencies, search and rescue, recreation industry, forest service/smokejumpers, and some rural clinical environments. Paramedics provide many services to their communities, often working in teams where communication and technical skills are expected. Starting salaries range from \$2,500 to \$3,500 per month.

COST OF PROGRAM

In addition to standard tuition, student fees, lab fees and textbooks, students should anticipate the following estimated program costs:

- CPR for Healthcare Provider card: \$55. Must remain current throughout Basic and Paramedic classes.
- Background Check: \$55. This will be required prior to Basic class and Paramedic class.
- Materials (stethoscope, paramedic field manual, uniforms, etc.) range from \$20-\$150.
- Testing fees which include National Registry computer exams, practical skills testing, fingerprint background checks (depending on location of practical testing): range from \$450-\$1,000 (includes travel outside of the area).
- Documentation of completion of the following immunizations Hepatitis B, current TB, MMR, annual Influenza, Tetanus within previous 10 years, Varicella (Chickenpox).
- Paramedic students should anticipate costs for housing and living expenses when doing their field internship outside of the local area.

Note: As some of the above fees are paid to outside institutions, rates may vary throughout the academic year.

PROGRAM PREPARATION AND PREREQUISITES

The AAS in Emergency Medical Services (EMS) is designed for students seeking a career in EMS and/or the fire service industry. The program meets or exceeds the required technical skills and knowledge necessary for national and state licensure testing. The program contains certification at the EMT and Paramedic levels.

ADVISING INFORMATION

- It is strongly advised that candidates enrolling in the EMS program have a strong background in high school or college math and chemistry. This knowledge will enhance the student's success in Anatomy and Physiology and college-level math.
- Required for Paramedic course: Completion of WR121 or higher and MTH 65 or higher.
- Second-year Paramedic courses are open only to students who have been admitted to the program.
- Students should contact the Admissions office to obtain details for Paramedic course selection and application process.
- Speak with an advisor prior to registration to get a list of recommended courses in categories that offer more than one option such as the general education requirement.
- Speak with program director to make sure students understand the state and national testing process for EMT and Paramedic courses.

REQUIRED PRIOR TO ENTRY IN PROGRAM EMT OR PARAMEDIC COURSES

- High school diploma or GED.
- Students must be 18 years old or older to test for state and national exams.
- A current Health Care Provider CPR card is required prior to placement into EMT or Paramedic courses. Basic students have until the end of the second day to complete the CPR requirement.
- Criminal background check. Basic students have until the end of the second class of the term to have background check process started.
- Information on the courses that are required for entry into the Paramedic course as prerequisites and those used to calculate points for selection can be found on the EMS website, www.cocc.edu/Emergency-Medical-Services/EMS-Program-Requirements/.
- All COCC students enrolled in an EMT, paramedic course and/or seeking agency affiliation requiring practical experience, will have to pass a Criminal History Check (CHC) as a condition of their acceptance into a medical, fire or other facility for training. Students who do not pass the CHC may not be eligible to complete training at affiliated sites, to sit for licensure or certification exams, or to be hired for some professional positions. Students who believe their personal history may interfere with their ability to complete the program of study or to obtain licensure or certification in their chosen field should contact the appropriate state board or the program director.

REQUIRED PRIOR TO ENTERING PARAMEDIC COURSE FALL TERM

- Complete application process found www.cocc.edu/Emergency-Medical-Services/EMS-Program-Requirements/.
- Acceptance into the program based on the selection process found on the website listed above.
- All required prerequisite courses completed with an overall GPA of 3.0 (Required prerequisite courses are listed at www.cocc.edu/Emergency-Medical-Services/EMS-Program-Requirements/).

MINIMUM GPA OR GRADE REQUIREMENTS

All required prerequisite courses must be completed at an average of a 3.0 GPA grade or better and students must maintain a minimum 2.7 GPA to stay enrolled in the Paramedic course. Students who fall below a minimum 2.7 ongoing GPA during the Paramedic course will have one term to correct the deficit and bring their grades up. Students who fail to bring their grades up may not be allowed to register the following term and complete the course. They may be re-admitted the following year if they meet current requirements as set in Paramedic program readmission policy. Students applying for re-admission that have failed a course will have to repeat the entire program sequence.

REGISTRATION INFORMATION

Program (EMS) courses begin once per year in fall term for the Paramedic course. All other courses are offered multiple times throughout fall, winter and spring terms. See the online schedule (www.cocc.edu/Degrees-Classes) for information.

PROGRAM STANDARDS

State requirements: 85 percent attendance in EMT or paramedic classes; 100 percent attendance for clinical and field rotations; and students must pass the overall EMT or Paramedic class at a minimum of 76 percent to sit for state and national registry testing and certification.

Students are required to score 76 percent or better on all mid-term and final exams.

The EMS handbook outlines requirements for class, lab, clinical, and field settings; these can be obtained by contacting the Director of EMS/SFS programs. Continuation in the EMS program will be determined on an individual basis and will depend on the ability of the student to correct deficiencies, broken relationships with clinical personnel and show continued improvements in grades and skills.

EMERGENCY MEDICAL SERVICES

Associate of Applied Science (AAS) Degree *(continued)*

98-104 credits

Failure to successfully complete each term may affect a student’s ability to finish the program and sit for state and national testing.

Each course must be taken in succession. Failure of any course will require the student to repeat all previous levels (i.e. failure of EMT 152 requires EMT 151 and EMT 152 to be taken; failure of EMT 294 requires EMT 290, EMT 291, EMT 292 and EMT 293 to be repeated).

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

The Emergency Medical Services program is accredited by the Board of Education and the Oregon State Health Services and Trauma section. This accreditation requires that students complete didactic, lab, clinical and field internships as outlined in the Oregon Administrative Rules (OAR).

In Oregon it is required to have an AAS degree or higher with completion of all the required EMS courses and certifications to perform as a paramedic. The OARs can be obtained at www.oregon.gov/DHS/ph/ems/.

National Registry requirements may be obtained at www.nremt.org.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Students who choose to pursue a higher degree in the field of EMS will have several options for transfer of credits; however, students who choose to pursue higher degrees in general studies should be aware that only selected credits may be transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

General education/foundational skills

WR 121	English Composition	4
MTH 65 ¹	Algebra II or higher	4

Human Relations

FOR 211	Supervision and Leadership	3
or BA 285	Business Human Relations	

Computer competency

CIS 120	Computer Concepts	0-4
or pass computer competency test, see page 32		

EMS program requirements

AH 111	Medical Terminology	3
BI 231	Human Anatomy and Physiology I	4
BI 232	Human Anatomy and Physiology II	4
BI 233	Human Anatomy and Physiology III	4
EMT 151	Emergency Medical Technician Part A	5
EMT 152	Emergency Medical Technician Part B	5
EMT 170	Emergency Response Comm/Doc	2
EMT 171	Emergency Response Patient Transport	2
EMT 175	Introduction to Emergency Services	3
or SFS 101	Introduction to Emergency Services	
EMT 195	Crisis Intervention	3
EMT 290	EMT Paramedic Part 1	8
EMT 291	EMT Paramedic Clinic Part 1	2
EMT 292	EMT Paramedic Part 2	8
EMT 293	EMT Paramedic Clinic Part 2	3
EMT 294	EMT Paramedic Part 3	7
EMT 295	EMT Paramedic Clinic Part 3	4
EMT 280	EMT-Paramedic Co-op Work Experience	8
SFS 230	Rescue Practices	3

Other requirements

The following is a list of general requirement courses that must be completed for graduation:

HHP 242	Stress Management	3
or HHP 266	Nutrition for Health	
or HHP 295	Health and Fitness	
SP 111	Fundamentals of Public Speaking	3-4
or higher		

EMS Electives²		3-4
----------------------------------	--	------------

Upon completion of EMT 151 and 152, students must pass the National Registry exam and be certified in the State of Oregon before continuing in Paramedic courses. Currently certified students do not need to retake the courses for the degree but must hold a current EMT Oregon License or higher to enter the Paramedic course. License must remain current during entire program including CWE; failure to maintain current license and CPR card will result in student removal from the program.

FOOTNOTES

¹Students planning to transfer should take MTH 105 or 111.

²Approved EMS electives: ANTH 103, CJ 100, OL 244, PSY 201, PSY 202, PSY 101, PSY 216, SOC 201, SOC 206.

ENGINEERING

Associate of Science (Engineering emphasis)
90 credits

COCC offers freshman and sophomore core science, engineering and general education courses needed for most engineering majors. Students earning an engineering degree choose from among the many branches of engineering available, such as: civil, mechanical, electrical, chemical, computer and OSU-Cascades' energy engineering management. Certain engineering majors and branches may require additional courses not offered at COCC.

Students who wish to complete lower-division science, engineering and general education courses while at COCC may choose either the Associate of Arts Oregon Transfer degree (which allows students to transfer to an Oregon public university having met all lower-division general education requirements) or an Associate of Science (which includes the science and engineering courses and some general education, more closely mirroring a university course of study). Students should work closely with an advisor to select the best degree option and review specific transfer requirements.

GENERAL EDUCATION/ FOUNDATIONAL REQUIREMENTS

All courses must be completed with a "C" grade or better

Writing

WR 121	English Composition	4
WR 227	Technical Writing	4

Oral communication

SP 111	Fundamentals of Public Speaking	3
--------	---------------------------------	---

Mathematics

MTH 251	Calculus I	4
---------	------------	---

Health

HHP 295	Health and Fitness	3
---------	--------------------	---

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

Choose two (2) courses from the Discipline Studies list.	6-8
--	-----

Social Science

Choose two (2) courses from the Discipline Studies list. (EC 201 is recommended.)	6-8
--	-----

PROGRAM REQUIREMENTS

MTH 252	Calculus II	4
MTH 254	Vector Calculus I	4
MTH 256	Applied Differential Equations	4
GE 101	Engineering Orientation	3
GE 102	Engineering Problem Solving and Technology	3
CH 221	General Chemistry I	5
CH 222	General Chemistry II	5
PH 211	General Physics I	5
PH 212	General Physics II	5
PH 213	General Physics III	5
ENGR 201	Electrical Fundamentals	4
ENGR 202	Electrical Fundamentals II	4
ENGR 211	Statics	4
ENGR 212	Dynamics	4
ENGR 213	Strength of Materials	4

ELECTIVES¹

Choose enough electives to reach a minimum total of 90 overall degree credits. Elective credits must number 100 or above with a maximum of 12 CTE credits and 15 credits of CWE/HHP/performance courses.

ADVISING NOTES

¹ AS Elective Notes: Most engineering majors have few, if any, true electives and students must sequence courses very intentionally. The elective category should be used to tailor the program toward a specific engineering major or branch. Following are some general guidelines though we recommend students to research requirements directly.

Chemical: CH 223, MTH 253. Note that OSU requires a year-long sequence prior to the junior year that COCC does not offer.

Energy Engineering Management: MTH 253, ENGR 202, ENGR 212, EC 201, BA 217, CS 161.

Mechanical: ENGR 212, MFG 103, MFG 112, MFG 113, CIS 125A1, CIS 125A2, CIS programming class (CIS 122, CIS 133JS, CIS 133, CIS 161, CIS 162) Civil: ENGR 212.

ENGLISH/LITERATURE

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

English majors and minors with a solid humanities foundation and strong writing, reading, critical thinking and research skills, are sought after in many careers, including advertising, business, marketing and public administration, communication and media, computer-based information and education, software and Web development, counseling and social services, government civil service, law and criminal justice, recreation, and teaching/education.

The AAOT degree meets the State of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in English/Literature.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite)		

Health (3 credits with HHP prefix)

HHP activity courses (1 credit each)	are not to be duplicated	3
--------------------------------------	--------------------------	---

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.
English/Literature majors are advised to choose two courses with an English prefix in British and/or American Literature from:

ENG 204	Survey British Literature I	4
ENG 205	Survey British Literature II	4
ENG 253	Survey American Literature I	4
ENG 254	Survey American Literature II	4

plus one additional course from the arts and letters discipline studies list with a different prefix.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

Choose enough electives to reach the minimum of 90 credits required for the AAOT. Most Oregon and other universities require English/Literature majors to complete lower-division coursework in surveys of British and American Literature, as well as at least one course in Shakespeare; therefore English/Literature majors are encouraged to complement their general education/discipline studies arts and letters courses with electives chosen from the following courses:

ENG 201	Shakespeare	4
or ENG 202	Shakespeare	
ENG 204	Survey British Literature I	4
ENG 205	Survey British Literature II	4
ENG 253	Survey American Literature I	4
ENG 254	Survey American Literature II	4

NOTE: ENG 140, *Shakespeare in Ashland* (3) may also satisfy the Shakespeare requirement at some universities.

However, lower-division requirements for majors, minors and related specializations in English/Literature vary among four-year institutions. To make wise elective course choices, students are advised to work closely with their advisors, consult college catalogs of the destination institution to which they wish to transfer, and determine whether one or more of the following courses should be elected to fulfill their degree objectives.

Education programs may require or recommend

ENG 221	Children's Literature	4
---------	-----------------------	---

English/Literature and humanities degree programs may also require or recommend one or more courses in:

(1) Western World Literature

ENG 107	Western World Literature: Ancient	4
ENG 108	Western World Literature: Middle Ages	4
ENG 109	Western World Literature: Modern	4

(2) Non-Western World Literature (may satisfy cultural diversity requirements)

HUM 210	Culture and Literature of Asia	4
HUM 211	Culture and Literature of Africa	4
HUM 212	Culture and Literature of the Americas	4
HUM 213	Culture and Literature of the Middle East	4

(3) American Multiculturalism (may satisfy cultural diversity requirements)

HUM 230	Immigrant Experience American Literature	4
HUM 240	Native American Literature and Culture	4
HUM 255	Cultural Diversity in Contemporary American Literature	4
HUM 256	Introduction to African-American Literature	4

(4) Introductory genre courses in Literature, Film, Popular Culture and/or Women's Studies courses

ENG 104	Introduction to Literature: Fiction	4
ENG 105	Introduction to Literature: Drama	4
ENG 106	Introduction to Literature: Poetry	4
ENG 232	Topics in American Literature	4
ENG 250	Introduction to Folklore and Mythology	4
ENG 256	Folklore and U.S. Culture	4
ENG 260	Introduction to Women Writers	4
FA 101	Introduction to Film	3
FA 257	Literature into Film	4
HUM 105	Italian Life and Culture	2
HUM 106	British Life and Culture	3
HUM 261	Popular Culture: Science Fiction	4
HUM 262	Popular Culture: The American Western	4
HUM 263	Popular Culture: Detective Stories	4
HUM 264	Popular Culture: Spy Thriller	4
HUM 265	Popular Culture: Noir Film and Fiction	4
HUM 266	Popular Culture: Travel Literature	4
HUM 267	Popular Culture: Counterculture	4
HUM 268	Digital Games Culture	4
WS 101	Women's and Gender Studies	4

EXERCISE SCIENCE

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The AAOT degree meets the State of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements. The following is a suggested course of study for students interested in pursuing a bachelor's degree in Exercise Science.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 111	College Algebra	4
(or higher for which Intermediate Algebra is a prerequisite.)		

Health (3 credits with HHP prefix.)

HHP activity courses (1 credit each) are not to be duplicated.

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes. Recommend including:

PSY 201	Mind and Brain	4
PSY 202	Mind and Society	4
SOC 201	Intro to Sociology	4

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science. Recommend including:

BI 231	Human Anatomy and Physiology I	4
BI 232	Human Anatomy and Physiology II	4
BI 233	Human Anatomy and Physiology III	4
HHP 261	Exercise Physiology	4

ELECTIVES

17-34 credits. Choose enough elective credits to reach a minimum total of 90 overall degree credits. Elective classes must be numbered 100 or above and can be any combination of general electives, Career and Technical Education (CTE) courses (12 credits maximum) or CWE/HHP/performance classes (15 credits maximum). The following is a list of recommended electives:

HHP 100	Introduction to Public Health	4
HHP 131	Intro to Exercise/Sport Science	3
HHP 212A	CPR-AHA Health Care Providers	1
HHP 259	Care and Prevention of Athletic Injury	3
HHP 260	Anatomical Kinesiology	4
HHP 262	Training Theory and Applications	3
HHP 266	Nutrition for Health	3
HHP 270	Sport and Exercise Psychology	3
HHP 280	EXSS Practicum	2

TRANSFER INFORMATION

Oregon University System (OUS) universities that offer bachelor's degrees with majors, minors or specializations in exercise science and related fields include:

- Eastern Oregon University-Distance Education Physical Activity and Health
- Oregon State University Health and Human Sciences
- Oregon State University-Cascades
- Portland State University Health Studies
- Southern Oregon State University Health and Physical Education

ADVISING NOTES

Lab fees:

- \$23 for HHP 295 (3 credits), or HHP 252A (3 credits).
- \$20 for HHP 212 (1 credit) and HHP 212A (1 credit).
- \$16 for all HHP 185 activity classes for Mazama Gym user fee.
- \$14 for HHP 266.

EXERCISE SCIENCE

Associate of Science

91 credits

The Associate of Science (Oregon State University, Exercise Science emphasis) is intended for students who know that they are on the academic path to obtaining a Bachelor of Science in Applied Exercise Science from Oregon State University-Cascades. Students who are unsure of where they will be attending after COCC should instead focus on the Associate of Arts Oregon Transfer degree. This AS degree is only for those students transferring from the COCC Exercise Science associate degree program to the OSU Applied Exercise Science bachelor's program and includes lower division major and general education requirements to help guide those students; please note that requirements can change and students in this degree are not guaranteed of completion of requirements.

BACCALAUREATE CORE**Skills**

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	
SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 218	Interpersonal Communication	

Mathematics

MTH 112	Trigonometry	4
---------	--------------	---

Fitness

HHP 295	Health and Fitness	3
---------	--------------------	---

Perspectives

Physical Science (met by major)

Biological Science

BI 101	General Biology I	4
or BI 102	General Biology II	4
or BI 103	General Biology III	4
or BI 211	Principles of Biology I	5
or BI 234	Microbiology	4
or FOR 208	Soils: Sustainable Ecosystems	4

Physical or Biological Science (met by major)

Social Processes and Discrimination (met by major)

Difference, Power, and Discrimination

HST 201	History of the United States	4
or HST202	History of the United States	
or HST 225	US Women's History	
or SOC 212	Race, Class, Ethnicity	
or SOC 215	Social Issues and Social Movements	
or WS 101	Introduction to Women's and Gender Studies	

EXERCISE AND SPORT SCIENCE CORE

HHP 100	Introduction to Public Health	4
HHP 260	Anatomical Kinesiology	4
HHP 261	Exercise Physiology	4
HHP 262	Training Theory and Applications	3
HHP 270	Sport and Exercise Psychology	3

Required supporting courses

CH 221	General Chemistry I	5
CH 222	General Chemistry II	5
CH 223	General Chemistry I	5
PH 201	General Physics I	5
PSY 201	Mind and Brain	4
BI 231	Human Anatomy and Physiology I	4
BI 232	Human Anatomy and Physiology II	4
BI 233	Human Anatomy and Physiology III	4

APPLIED EXERCISE AND SPORT SCIENCE OPTION REQUIREMENTS

HHP 131	Introduction to Exercise/Sport Science	3
HHP 280	EXSS Practicum	2

Support courses

6 credits of 100-level or higher electives support courses should align with graduate school or career choices; see your advisor for recommendations.

ADVISING NOTES

The following are not required in the Associate of Science degree but will be required for the Bachelor of Science in Applied Exercise Science from Oregon State University-Cascades. Students can meet these requirements with COCC courses but should plan around OSU's upper-division requirement:

- Cultural Diversity
- Literature and the Arts

(See a complete list of COCC courses that meet the above requirements at: oregonstate.edu/admissions/baccalaureate-core-course-equivalencies-central-oregon-community-college)

Applied EXSS option requirement, Section B, EXSS electives
Options include: HHP 266 (3 credits) or HHP 259 (3 credits) or HHP 267 (3 credits).

OSU Exercise Science major GPA requirements: OSU requires Exercise Science majors to earn a minimum 2.25 GPA in option courses and a minimum 2.5 GPA in all EXSS/HHP department courses.

For further information on the admissions process contact OSU advisors or visit www.osucascades.edu/future-students/cocc-students.

FOREIGN LANGUAGES

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

In today's globally interconnected world and increasingly competitive job market, students with proficiency in more than one language, supported by cultural knowledge, and empathetic experience of diverse U.S. and world cultures, have a decided advantage in whatever career they may pursue. Bachelor's degree requirements at most Oregon and other universities include demonstrating proficiency at the second-year level in a foreign language.

COCC's World Languages and Cultures department offers first-and second-year French, Spanish and Mandarin Chinese, and other courses needed to satisfy lower-division requirements for bachelor's degrees and to prepare transfer students for success in achieving their academic and professional goals. COCC students seeking a bachelor's degree in French, Spanish or Mandarin Chinese, or a related degree, or a teaching endorsement featuring foreign language, literature and culture studies are often best served by pursuing the Associate of Arts degree. Students wishing to begin or continue study of a foreign language at COCC are encouraged to consult college catalogs and work closely with their advisors.

The Associate of Arts Oregon Transfer (AAOT) degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in foreign languages.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite)		

Health (3 credits with HHP prefix)	3
HHP activity courses (1 credit each) are not to be duplicated	

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

Students must choose enough electives to reach the minimum of 90 credits required for the AAOT. Note: First-year foreign language courses may be counted as electives, as may any second-year foreign language courses not used to satisfy the arts and letters general education/discipline studies requirement above.

TRANSFER INFORMATION

Oregon University System (OUS) universities that offer bachelor's degrees, minors, certificates or endorsements in foreign languages and related fields:

- Oregon State University-Corvallis
- University of Oregon
- Portland State University
- Eastern Oregon University
- Southern Oregon University
- Western Oregon University

FOREST RESOURCES TECHNOLOGY

Short-term Certificates
12-15 credits

There are six short-term certificate programs as well as the Associate of Applied Science (AAS) degree available to students. The following certificates include classes that are already included in the Forest Resources Technology AAS degree requirements. These short-term certificates allow for completion along the path to a two-year degree. The certificates are best designed for those who hold degrees in other areas or are already in the work force, and are looking to enhance their skills in a specific area.

The following short-term certificates are available in addition to or in lieu of the AAS degree. All required courses must be passed with at least a "C" grade. Students are expected to provide their own appropriate field clothing and tools.

ADVANCED FOREST CONCEPTS

Short-term Certificate (12 credits)

(Three quarters to complete)

This certificate is designed to train individuals on the complexities of determining forest utilization, planning and management.

FOR 205	Silviculture and Harvesting Processes	5
FOR 215	Forest Resource Capstone	3
FOR 220C	Resource Sampling	4

CONSERVATION OF NATURAL RESOURCES

Short-term Certificate (14 credits)

(Three quarters to complete)

This certificate is designed to train individuals on basic concepts of conserving natural resources including forest, wildlife, soil and water resources.

FOR 111	Forestry Perspectives	4
FOR 208	Soils: Sustainable Ecosystems	4
FOR 240B	Wildlife Ecology	3
FOR 260	Conservation of Natural Resources	3

FOREST ECOLOGY

Short-term Certificate (12 credits)

(Three quarters to complete)

This certificate is designed to introduce the practical aspects of forest ecology, dendrology and their applications.

FOR 203	Applied Forest Ecology	3
FOR 240A	Forest Ecology	3
FOR 241A	Field Dendrology	3
FOR 241B	Dendrology	3

FOREST MEASUREMENTS

Short-term Certificate (13 credits)

(Three quarters to complete)

This certificate is designed to train individuals on basic measurements of trees and land and on-land navigation using maps, compass and GPS.

FOR 220A	Aerial Photo	3
FOR 220B	Resource Measurement	4
FOR 230A	Map, Compass and GPS	3
FOR 230B	Forest Surveying	3

FOREST PROTECTION

Short-term Certificate (15 credits)

(Three quarters to complete)

This certificate is designed to train individuals on identification of forest disease and insects and the basic techniques used to protect forests from fire, disease and insects.

FOR 110	Wildland Fire Science I	2
FOR 202	Forest Entomology/Pathology	3
FOR 203	Applied Forest Ecology	3
FOR 205	Silviculture and Harvesting Processes	5
FOR 210	Wildland Fire Science II	2

MAPPING CARTOGRAPHY

Short-term Certificate (14 credits)

(Two quarters to complete)

This certificate is designed to train individuals on the basic use and production of maps focusing on field techniques and use of basic geographic information systems.

FOR 230A	Map, Compass and GPS	3
FOR 230B	Forest Surveying	3
GEOG 211	Computer Cartography	4
GEOG 265	Geographic Information Systems	4

FOREST RESOURCES TECHNOLOGY

Associate of Applied Science (AAS) Degree
105 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Forest Resources Technology

PROGRAM DESCRIPTION

The Associate of Applied Science (AAS) degree program in Forest Resources Technology provides the education and practical skills needed to succeed as a technician in forestry and natural resource fields throughout the western U.S. The AAS degree program from COCC is accredited by the Society of American Foresters. Job opportunities exist in government agencies (both state and federal) as well as private industry (contractors, consultants and private companies). The U.S. Forest Service is the primary employer for graduates of this program.

Jobs in the forestry industry offer many opportunities for employment locally and nationally. Traditional forest technician positions are now often referred to as natural resource technicians. Technicians spend considerable time outdoors. Typical entry-level positions might include forest management activities such as evaluation of reforestation efforts, timber sale layout, tree measurements, forest damage assessment and numerous other activities that are required when managing a forest. Additionally, entry-level natural resource technicians may perform noxious weed identification and eradication, plant and wildlife surveys, fire protection and suppression, and stream monitoring and restoration. Natural resource technicians can work for state or federal government agencies and manage public property or work for private industry and private land owners.

COCC's Forest Resources Technology program has the advantage of being located among several national forests. A majority of the courses within the program include outdoor lab opportunities to gain first-hand experiences and knowledge of the necessary elements of being a natural resource technician. Additionally, students are able to take advantage of job opportunities working with local agencies to develop and implement land management plans in the capstone course at the end of their second year.

Students who are interested in gaining employment in wildland fire or are adding these courses to their Forest Resource Technology degree can accomplish both degrees within three years. Students seeking the Wildland Fire Science degree are typically advised to complete the Forest Resources Technology degree first and return for a third year to complete the Wildland Fire Science degree. The dual-degree option is the ideal approach for those students interested in both wildland fire fighting and forestry.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Additional lab fees of approximately \$300
- Equipment costs ranging from \$665-\$915 (suggested equipment includes: hardhat, boots, vest, compass, GPS, tatum, plant press, hand lens, rain gear, field book)

PROGRAM PREPARATION AND PREREQUISITES

This program can be completed within two years provided the student is adequately prepared to take MTH 85 and WR 121 and coursework is initiated during fall term. Students entering in winter or spring term and/or who require developmental writing or math courses, can complete the program within a three-year period. Students are expected to provide their own appropriate field clothing and tools. A list will be provided in FOR 100, Forestry Program Orientation.

MINIMUM GPA OR GRADE REQUIREMENTS

All courses must be completed with a "C" grade or better.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions. Institutions with which COCC has articulation agreements in Forest Resources Technology are Oregon State University and Oregon State University-Cascades.

Students planning to transfer to Oregon State University, the University of Idaho or Humboldt State University to acquire a Bachelor of Science degree should meet with a COCC Forestry program advisor to discuss current transfer requirements. Many of the required undergraduate courses for the Bachelor of Science degrees can be taken at COCC and transferred accordingly.

PROGRAM REQUIREMENTS

The following is the course sequence required for students able to attend full time who intend to complete the degree in 2 years. Students are encouraged to meet with a faculty advisor in the Forestry program to discuss a two- or three-year educational plan. Students who have obtained a degree or completed coursework from another institution may be able to transfer some coursework to apply toward the AAS in Forest Resources Technology. A meeting with faculty or their advisor is strongly recommended.

SAMPLE SCHEDULE

Year One

Fall term

FOR 100	Forestry Program Orientation	1
FOR 111	Forestry Perspectives	4
FOR 230A	Map, Compass and GPS	3
FOR 240A	Forest Ecology	3
FOR 241A	Field Dendrology	3
MTH 085	Technical Math I ¹	4

Winter term

Computer competency ²		0-4
FOR 203	Applied Forest Ecology	3
FOR 220B	Resource Measurement	4
FOR 230B	Forest Surveying	3
MTH 086	Technical Math II	4

Spring term

FOR 110	Wildland Fire Science I	2
FOR 126	Field Studies Pacific NW Forests	1
FOR 127	Plants of the Pacific Northwest	1
FOR 202	Forest Entomology/Pathology	3
FOR 220A	Aerial Photo	3
FOR 241B	Dendrology	3
WR 121	English Composition ³	4

Summer term

FOR 180	Co-op Work Experience Forestry	3
---------	--------------------------------	---

FOREST RESOURCES TECHNOLOGY

Associate of Applied Science (AAS) Degree *(continued)*

105 credits

Year Two

Fall term

FOR 205	Silviculture and Harvesting Processes	5
FOR 210	Wildland Fire Science II	2
FOR 240B	Wildlife Ecology	3
HHP 252A	Fitness/First Aid	3
SP 111	Fundamentals of Public Speaking	3
or SP 115	Intro to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Winter term

FOR 211	Supervision and Leadership	3
FOR 220C	Resource Sampling	4
Forest Resource elective ⁴		2
GEOG 265	Geographic Information Systems	4
General education discipline studies courses (see pages 44-45)		4

Spring term

FOR 208	Soils: Sustainable Ecosystems	4
FOR 215	Forest Resource Capstone	3
FOR 260	Conservation of Natural Resources	3
FW 218	Survey of Northwest Mammals	
or FW 212	Survey of Northwest Birds	2
General education discipline studies courses (see pages 44-45)		4

FOOTNOTES

- ¹Students can choose to take MTH 85 and MTH 86, or MTH 111. Students planning to transfer should consider MTH 111 and consult with their advisor for other specific transfer requirements.
- ²Pass computer basic skills competency test (see page 32 for details) or take CIS 120.
- ³Transfer students should also take WR 227.
- ⁴The Forest Resource elective can be any course with the following prefixes: BI, CH, FW, GEOG, G or FOR courses not already in the program coursework. The electives can be taken in any term.

FORESTRY

TRANSFER OPTIONS

Credits vary

Students planning on transferring to Oregon State University, Oregon State University-Cascades or the University of Idaho to acquire a Bachelor of Science degree should meet with a COCC Forestry Program advisor to discuss current transfer requirements. Many of the required undergraduate courses for the Bachelor of Science degrees can be taken at COCC and transferred accordingly.

Oregon State University (www.cof.orst.edu)

Environmental Economics and Policy
Fisheries and Wildlife
Forest Engineering
Forest Engineering/Civil Engineering
Forest Operations Management
Forest Management
Rangeland Ecology and Management
Recreation Resource Management
Renewable Materials

Oregon State University-Cascades (www.osucascades.edu/academics/naturalresources)

Natural Resources-Conservation and Technology
Tourism and Outdoor Leadership-Policy and Management

University of Idaho (www.uidaho.edu/cnr)

Ecology and Conservation Biology
Fishery Resources
Forest Products
Forest Resources
Rangeland Ecology and Management
Resource Recreation and Tourism
Wildlife Resources

TRANSFER AND ARTICULATION INFORMATION

Transfer and articulation options currently exist with:

- Oregon State University
- Oregon State University-Cascades

GENERAL SCIENCE

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The general science curriculum allows students to design academic programs that lead to a Bachelor of Science degree, which provides more breadth than traditional science programs. General science can work for many career interests and for students whose scientific interests do not fit well within a single discipline. Students planning graduate study or technical careers, as well as students preparing for careers in the health sciences, science education, science-related business or social service might be best served by a well-designed multidisciplinary science program. The neurosciences, environmental sciences and biophysical sciences are examples of such cross-disciplinary areas. Combined with a second major or minor in English, for example, general science can be excellent preparation for a writing career in science, technology or natural history. The major also works well for students who want to teach elementary-school or middle-school science.

The Associate of Arts Oregon Transfer (AAOT) degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in general science.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite)		

Health (3 credits with HHP prefix)	3
HHP activity courses (1 credit each) are not to be duplicated	

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

BI 211	Principles of Biology I	5
BI 212	Biology of Plants II	5
BI 213	Biology of Animals III	5
CH 221	General Chemistry I	5
CH 222	General Chemistry II	5
CH 223	General Chemistry III	5
G148	Volcanoes & Earthquakes	4
G 201	Geology I	4
G 202	Geology II	4
G 203	Geology III	4
MTH 251	Calculus I	4
MTH 252	Calculus II	4
MTH 253	Calculus III	4
PH 201	General Physics I	5
PH 202	General Physics II	5
PH 203	General Physics III	5
or PH 211	General Physics I	
PH 212	General Physics II	5
PH 213	General Physics III	5

GEOGRAPHIC INFORMATION SYSTEMS (GIS)

Certificate of Completion

50 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Geographic Information Systems

PROGRAM DESCRIPTION

The GIS certificate program is designed for students already possessing a two- or four-year college degree that seek to add specific GIS skills to their discipline.

GIS is an information system designed to work with data referenced by spatial or geographic coordinates. GIS is both a database system with specific capabilities for spatially referenced data, as well as a set of operations for working with (analyzing) the data. The program is built on a foundation of computer-aided mapping and surveying technology for collecting spatial data, database generation and manipulation for tabular data, and GIS-specific courses for organization, analysis and reporting.

Graduates work in retail and commercial businesses, natural resources, education, federal/state/local governments, banking and insurance, internet, publishing and real estate. GIS careers typically include positions such as GIS technician, project manager, computer programmer, database administrator, system administrator, cartographic designer, business development, and related managerial and administrative roles.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Materials (jump drive, maps, assorted office supplies), \$250

Recommended, but not required:

- A home or laptop computer capable of running the GIS software, \$750. Contact program instructor for specifics.

PROGRAM PREPARATION AND PREREQUISITES

Recommended prior to entry in program (GIS) courses:

- Two- or four-year degree from accredited institution
- Completion of computer competency (either IC3 exam or CIS 120)

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Program (GIS) courses begin once per year, in fall term. Students take non-program support and/or selected GIS courses if they begin in a term other than fall or if they need to build skills related to prerequisites.

PROGRAM STANDARDS

GIS courses offered each term must be taken together and sequentially. Students are discouraged from working more than 10 hours per week during any term due to heavy course load.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

While there are none currently required, various professional organizations offer certification that may enhance placement opportunities.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

General education/foundational requirements:

Communication

WR 121 English Composition	4

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science Degree, Geographic Information Systems

PROGRAM DESCRIPTION

GIS is an information system designed to work with data referenced by spatial or geographic coordinates. GIS is both a database system with specific capabilities for spatially referenced data, as well as a set of operations for working with (analyzing) the data. The program is built on a foundation of computer-aided mapping and surveying technology for collecting spatial data, database generation and manipulation for tabular data, and GIS-specific courses for organization, analysis and reporting. Graduates work in retail and commercial businesses, natural resources, education, federal/state/local governments, banking and insurance, internet, publishing and real estate. GIS careers typically include positions such as GIS technician, project manager, computer programmer, database administrator, system administrator, cartographic designer, business development, and related managerial and administrative roles.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Materials (jump drive, maps, assorted office supplies), \$250.

Recommended, but not required

- A home or laptop computer capable of running the GIS software, \$750. Contact program instructor for specifics.

PROGRAM PREPARATION AND PREREQUISITES

Recommended prior to entry in program (GIS) courses:

- High school diploma or GED
- Minimum placement scores resulting in WR121 placement, OR completion of WR65/75/95 ("C" or better)
- Minimum placement scores resulting in MTH 85 placement OR completion of MTH 20 and/or MTH 60 equivalent

Recommended prior to, or upon entry, in program (GIS) courses:

- Completion of computer competency (either IC3 exam or CIS 120 which may be taken as part of program).

All COCC students enrolled in the Geographic Information Systems program (which includes requirements for Co-operative Work Experience) may have to pass Criminal History Checks (CHC) as a condition of their acceptance into a work site. Students who do not pass the CHC may not be eligible to complete requirements at affiliated practicum sites or be hired for some professional positions. Students with a history that may interfere with their ability to complete the program of study should contact the program director.

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Program (GIS) courses begin once per year, in fall term. Students take non-program support and/or selected GIS courses if they begin in a term other than fall or if they need to build skills related to prerequisites. Students receiving federal financial aid are encouraged to speak with the financial aid advisor.

GIS courses, offered each term, must be taken together and sequentially. Students are discouraged from working more than 10 hours per week during any term due to heavy course load.

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in GIS program courses. Students who do not meet this standard may be dismissed from the program.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

While there are none currently required, various professional organizations offer certification that may enhance placement opportunities.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

Communication

WR 121	English Composition	4
WR 227	Technical Writing	4

Computation

MTH 85	Technical Mathematics I	4
and MTH 86	Technical Mathematics II	4
or MTH 105	Intro to Contemporary Mathematics (or higher)	4

Human Relations

Course from Human Relations list, page 45	3
---	---

PROGRAM REQUIREMENTS

GEOG 211	Computer Cartography	4
GEOG 265	Introduction to Geographic Information Systems	4
GEOG 266	ArcGIS	5
GEOG 267	Geodatabase Design	5
GEOG 273	Spatial Data Collection	5
GEOG 275	GIS Capstone	5
GEOG 280	Co-Op Work Experience GIS	3
GEOG 284	GIS Customization	5
GEOG 285	Data Conversion and Documentation	5
GEOG 286	Remote Sensing	5
GEOG 287	Analysis of Spatial Data	5

Other required courses

CIS 135DB	Database Theory/SQL	4
FOR 230A	Map, Compass and GPS	3
FOR 220B	Resource Measurements	4
HHP 252A	Fitness/First Aid	3
Discipline studies courses, see list pages 44-45	(minimum)	8

ELECTIVES

Two courses minimum

CIS 120	Computer Concepts	4
CIS 125A1	AutoCAD I	4
FOR 220A	Aerial Photo	3
FOR 230B	Forest Surveying	3

GEOGRAPHY

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The Associate of Arts Oregon Transfer (AAOT) degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in geography.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite.)		

Health (3 credits with HHP prefix.)		3
HHP activity courses (1 credit each) are not to be duplicated.		

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

GEOG 106	Economic Geography	4
GEOG 201	World Regional Geography I ¹	4
GEOG 202	World Regional Geography II ¹	4

plus another course from the Social Science discipline studies list that does not have a GEOG prefix.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

Recommended:

GEOG 278	Physical Geography-Landforms and Water ^{1,2}	4
or GEOG 279	Physical Geography-Weather and Climate ^{1,2}	

ELECTIVES

GEOG 107	Cultural Geography	4
GEOG 190	Environmental Geography	4

Plus choose any college-level course that brings the total credits to 90 quarter hours. This may include up to 12 credits of Career and Technical Education courses designated by COCC as acceptable.

FOOTNOTES

¹ Courses in Geography do not need to be taken in sequence.

² Lab science courses.

ADVISING NOTES

Students pursuing a BA after transfer should consider completing three terms of a 200-level language course. The 100-level language courses will count as electives. The 200-level language courses will partially fulfill the arts and letters requirement.

Students pursuing a BS after transfer should consider taking more math and science courses. Language is not necessary. For specific details, speak with an advisor.

GEOLOGY

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

Geology provides an understanding of the materials that constitute the earth and the processes that have shaped the earth, from its deep interior to the surface landforms. It is a science that addresses problems by combining field investigations with laboratory experiments and theoretical studies. Geology addresses many natural hazards that affect humans, such as earthquakes, flooding and volcanic eruptions. It also addresses the impact of humans on the Earth’s surface environment where we extract resources, contaminate ground water, contribute to rapid erosion, or attempt to re-engineer rivers and shorelines. In addition, geology draws upon many other disciplines including biology, chemistry, mathematics and physics in order to understand earth processes in the reference frame of geologic time. Emphasis areas vary among universities and typically include mineralogy, paleontology, environmental geology and geophysics.

The Associate of Arts Oregon Transfer (AAOT) degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor’s degree in geology.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of “C” or higher.)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite)		

Health (3 credits with HHP prefix)	3

PH 212	General Physics II	5
PH 213	General Physics III	5

FOOTNOTE

¹ Lab science.

ADVISING NOTES

Students planning to transfer to OUS institutions should take the following:

CH 221, 222 and 223
PH 201, 202 and 203 or PH 211, 212 and 213

Those planning to transfer to

- OSU should take MTH 112, 251 and 252;
- PSU should take MTH 251, 252, 253 and 254;
- SOU should take MTH 111, 112, 251 and 252;
- UO should take MTH 251, 252 and 253.

Students are strongly encouraged to contact the appropriate transfer university for the most current requirements of their major and emphasis area.

TRANSFER INFORMATION

Oregon universities with a geology major include University of Oregon, Oregon State University, Portland State University and Southern Oregon University.

HEALTH INFORMATION TECHNOLOGY

Certificates: Insurance; Medical Office Specialist; Medical Transcription; Medical Billing Specialist; Coding Competency
37-84 credits

The Health Information Technology program provides a career-ladder approach to the health information management profession. Students proceed up the ladder as follows:

- When students have completed the first two academic quarters, they receive an Insurance Certificate.
- At the end of the first three quarters (year one) students are awarded a Medical Office Specialist Certificate.
- After completing the first three quarters of coursework (year one), plus the completion of HIT131C, Transcription Applications, offered summer term, and passing a qualifying exam, students earn a Medical Transcription Certificate.
- After completing four academic quarters (year one plus fall quarter of year two), students earn a Medical Billing Specialist Certificate.
- Adding two additional coding courses and passing a proficiency exam qualifies students for a Medical Coding Competency Certificate.
- At the end of six academic quarters (two years), students earn an Associate of Applied Science degree in Health Information Technology and are eligible to take the Registered Health Information Technician (RHIT) national credential examination.

Students have the freedom to exit and re-enter the program after the first year. The program includes preparation in technical coursework, human relations, communications, computation and computer technology. It is strongly recommended that students obtain competency in the following areas before entering the health information curriculum:

- Keyboarding: 40 WPM minimum
- Study skills
- Spelling skills
- Reading skills
- Word processing skills (essential)

The Health Information Technology program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). It is one of only two accredited health information programs in the State of Oregon.

The following is the suggested course sequence for students able to attend full time. Students are encouraged to consult their academic advisor if they have transfer credits and/or are not able to attend full time in order to determine an appropriate course schedule. Additionally, students should reference the course descriptions to determine required lab hours. All courses must be completed with a "C" grade or better.

INSURANCE

Short-term Certificate of Completion

(37 credits; two quarters to complete if attending full time)

The following is a suggested course of study for students interested in pursuing a certificate in Insurance and will depend on course availability.

Fall term

AH 111	Medical Terminology I	3
BI 231	Human Anatomy and Physiology I	4
CIS 120	Computer Concepts	4
HIT 103	Health Information Systems and Procedures	5
MTH 031	Health Care Math	3

Winter term

AH 112	Medical Terminology II	3
BI 232	Human Anatomy and Physiology II	4
HIT 104	Health Data Content and Structure	5
HIT 180	HIPAA Management	2
WR 121	English Composition	4

MEDICAL OFFICE SPECIALIST

Certificate of Completion

(56 credits; three quarters to complete if attending full time)

The following is a suggested course of study for students interested in pursuing a certificate in Medical Office Specialist and will depend on course availability.

Complete Insurance Certificate 37

Spring term

HIT 184	Advanced Pathophysiology	5
BI 233	Human Anatomy and Physiology III	4
HIT 131A	Document Management and Technology	3
HIT 182	Introduction to Medical Coding	4
SP 218	Interpersonal Communication	3
or BA 285	Business Human Relations	
or PSY 101	Applied Psychology	

MEDICAL TRANSCRIPTION (NOT REQUIRED FOR AAS DEGREE)

Certificate of Completion

(60 credits; four quarters to complete if attending full time)

The following is a suggested course of study for students interested in pursuing a certificate in Medical Transcription and will depend on course availability.

Complete Medical Office Specialist Certificate 56

Summer term

HIT 131C	Medical Transcription Applications	4
Pass qualifying exam		

MEDICAL BILLING SPECIALIST

Certificate of Completion

(71 credits; five quarters to complete if attending full time)

The following is a suggested course of study for students interested in pursuing a certificate in Medical Billing Specialist and will depend on course availability.

Complete Medical Office Specialist Certificate 56

HIT 193 Directed Practice I 2

Fall term

HIT 284	Classification and Reimbursement Systems	4
HIT 205	Introduction to Medical Record Analysis	3
HIT 296	Ambulatory Data Systems	3
SP 111	Fundamentals of Public Speaking	3

CODING COMPETENCY

Certificate of Completion

(81-85 credits; seven quarters to complete if attending full time)

The following is a suggested course of study for students interested in pursuing a certificate in Coding Competency and will depend on course availability.

Complete Medical Billing Specialist Certificate 71-75

Winter term

HIT 283 Coding Classifications 6

Spring term

HIT 285 Advanced Coding Classification 4

Pass proficiency exam (given summer term)

HEALTH INFORMATION TECHNOLOGY

Associate of Applied Science (AAS) Degree
104 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Health Information Technology

PROGRAM DESCRIPTION

The Health Information Technology program trains individuals in technical coursework, human relations, communications, computation and computer technology. The program employs a career ladder approach that includes the following certificates:

- Medical Insurance
- Medical Office Specialist
- Medical Transcription
- Medical Billing Specialist
- Medical Coding

At the end of six academic quarters (approximately two years), students earn an Associate of Applied Science (AAS) degree in Health Information Technology. Students are eligible to take the RHIT (Registered Health Information Technician) national credential examination upon completion of the AAS degree. The Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM) accredits the Health Information Technology program.

Health information technicians collect, analyze, code, manage and maintain medical information regarding patients. Health information technicians must be highly organized and pay attention to detail, maintain patient medical information in a complete, accurate and secure manner maintaining high ethical standards. Health information technicians work in a wide range of health care facilities including but not limited to hospitals, clinics, doctors' offices and nursing homes. In Oregon, the number of jobs for health information technicians is expected to grow much faster than the average for all occupations through the year 2016.

COST OF PROGRAM

Total cost depends upon preparatory coursework and extent of completion within the program - certificate/degree.

- Additional costs estimated to be approximately \$1500 include textbooks, technology fees, Directed Practice travel expense, OrHIMA Convention, criminal history check, etc.
- Students are strongly encouraged to have access to a home computer with high-speed Internet access.

PROGRAM PREPARATION AND PREREQUISITES

Successful students in this program have high-level communication skills, computation skills and an aptitude for science and technology. Prior to enrolling in HIT 103 students must pass CIS 120 (required course) AH 111 and WR 121 with a grade of "C" or better. Students entering the HIT program are required to have a criminal history check prior to enrolling in HIT 103. A student may be prevented from entering the program if there is a felony conviction on their record.

MINIMUM GPA OR GRADE REQUIREMENTS

All courses must be completed with a "C" grade or better to advance to the second year, and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

HIT is a cohort program, which begins each fall. Students can complete non-HIT courses prior to entry into the cohort or concurrently. Courses are in sequence for first and second year. Students must complete all first-year courses before enrolling in second-year coursework.

PROGRAM STANDARDS

All COCC students enrolled in the Health Information Technology program leading to the AAS degree must pass a Criminal History Check (CHC) as a condition of their acceptance into a medical or other facility for directed practice. Students who do not pass the CHC may not be eligible to complete training at affiliated practicum sites (this could also prevent graduation from the program) or to sit for the certification exam (RHIT).

Unethical or unprofessional conduct is cause for dismissal from the program, i.e., cheating, plagiarism. Breach of confidentiality is grounds for immediate dismissal.

TRANSFER INFORMATION

This degree is designed primarily for students planning to enter their chosen career upon graduation. However, credits are transferable per an articulation agreement with the University of Cincinnati for students choosing to pursue an online BS in Health Information Management. Graduates of the HIT program who obtain their RHIT and already have a baccalaureate in any field are eligible to apply to Oregon Health Science University to complete a one-year online Master Certificate in Health Information Management, which leads to eligibility to sit for the Registered Health Information Administrator (RHIA) exam.

REQUIRED FOUNDATIONAL SKILLS

General education/foundational requirements

Communication

WR 121	English Composition	4
SP111	Fundamentals of Public Speaking	3

Computation

MTH 031	Health Care Math	3
---------	------------------	---

Human Relations

SP 218	Interpersonal Communication	3
or PSY 101	Applied Psychology	
or BA 285	Business Human Relations	

All courses with an HIT prefix require instructor approval.

PROGRAM COURSE REQUIREMENTS

HIT 103	Health Info Systems/Procedures	5
HIT 104	Health Data Content and Structure	5
HIT 131A	Document Mgmt Technology (offered online)	3
HIT 180	HIPAA Management (offered online)	2
HIT 182	Intro to Medical Coding	4
HIT 184	Advanced Pathophysiology	5
HIT 131C	Medical Transcription Applications (optional)	4
(Proficiency Exam)		
HIT 193	Directed Practice	2
HIT 284	Classification and Reimbursement Systems	4
HIT 205	Intro/Medical Record Analysis	3
HIT 296	Ambulatory Data Systems	3
HIT 283	Coding Classification	6
HIT 201	Legal Aspects of Health Care	3
HIT 203	Health Care Delivery/Technology	3
HIT 272	Health Information Management	5
HIT 281	Health Data Collection	3
HIT 282	Quality Improvement in Health Care	4
HIT 285	Advanced Medical Coding	4
HIT 293	Directed Practice II	2

Other required courses

AH 111	Medical Terminology I	3
AH 112	Medical Terminology II	3
BI 231	Human Anatomy & Physiology I	4
BI 232	Human Anatomy & Physiology II	4
BI 233	Human Anatomy & Physiology III	4
CIS 120	Computer Concepts	4
HHP 252A	Fitness/First Aid	

HEALTH PROMOTION

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

Careers in health promotion are multifaceted, as are the areas of further study. Careers include health promotion, health education/teaching health, working in various disciplines of public health, health science, health care administration and environmental health. This AAOT program is designed as a broad-based degree in the area of health studies. It is also designed for maximum transferability to several specific health programs including:

- Portland State University (School of Community Health)
- Eastern Oregon University (School of Education)
- Eastern Washington University (School of Community Health Education)
- Boise State University (School of Education/Health Promotion)
- Oregon State University (College of Public Health and Human Sciences)
- Eastern Oregon University and Southern Oregon University Department of Health and Physical Education (Health Promotion/Fitness Management).

Students should check with each school to ensure the latest transfer information is used when designing their program.

The AAOT degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in transferring to a bachelor's degree program in health promotion.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 111	College Algebra	4
(or higher for which Intermediate Algebra is a prerequisite.)		

Health (3 credits with HHP prefix.)	3
HHP activity courses (1 credit each) are not to be duplicated.	

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes. Recommended:

PSY 201	Mind and Brain	4
PSY 202	Mind and Society	4
HHP 248	Health Psychology	3
ANTH 283	Introduction to Medical Anthropology	4

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

Recommended:

BI 231	Human Anatomy and Physiology I	4
BI 232	Human Anatomy and Physiology II	4
BI 233	Human Anatomy and Physiology III	4
BI 234	Microbiology	4
or FN 225	Human Nutrition	
or HHP 261	Exercise Physiology	4

ELECTIVES

Choose enough elective credits to reach a minimum total of 90 overall degree credits. Elective classes must be numbered 100 or above and can be any combination of general electives, Career and Technical Education (CTE) courses (12 credits maximum) or CWE/HHP/performance classes (15 credits maximum).

Recommended electives: HHP 258 (4 cr), HHP 267 (3 cr), HHP 100 (4 cr), HHP 266 (3 cr), HHP 231 (3 cr), HHP 242 (3 cr), HHP 252 (3 cr), HHP 295 (3 cr).

ADVISING NOTES

The following courses carry an additional fee:

- \$23 for HHP 295 (3 credits) or HHP 252A (3 credits)
- \$20 for HHP 212A (1 credit)
- \$16 for all HHP 185 activity classes for Mazama Gym user fee

HISTORY

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The Associate of Arts Oregon Transfer (AAOT) degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in history.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite.)		

Health (3 credits with HHP prefix.)		3
HHP activity courses (1 credit each) are not to be duplicated.		

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.
Recommend 12 credits of any HST prefix course.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

Choose any college-level course that brings the total credits to 90 quarter hours. This may include up to 12 credits of Career and Technical Education courses designated by COCC as acceptable.

ADVISING NOTES

In the field of history it is often necessary to achieve a graduate degree in order to work in the field as a professional. A student who takes a major or minor in history graduates with writing, research and communication skills that can lead to success in multiple career areas other than history. Students pursuing a BA after transfer should consider completing three terms of a 200-level language course. The 100-level language courses will count as electives. The 200-level language courses will partially fill the Arts and Letters requirement. Students pursuing a BS after transfer should consider taking more math and science courses. Language is not necessary. For specific details, speak with an advisor.

ARTICULATION INFORMATION

- Oregon State University-Cascades:
- American Studies (major)
 - Art History (minor)

HUMAN SERVICES

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

Human services programs prepare students to work for organizations that serve people in need. Students learn the theories, principles and practice of providing services. Human services jobs can include drug abuse counselor, youth worker, mental health aide or probation officer, and provide services to schools, prisons, government agencies and nonprofit groups.

The Associate of Arts Oregon Transfer (AAOT) degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Health (3 credits with HHP prefix.)	3
HHP activity courses (1 credit each) are not to be duplicated.	
MTH 105 Intro to Contemporary Mathematics (or higher for which Intermediate Algebra is a prerequisite.)	4
SP 111 Fundamentals of Public Speaking or SP 114 Argumentation and Critical Discourse or SP 115 Introduction to Intercultural Communication or SP 218 Interpersonal Communication or SP 219 Small Group Communication	3
WR 121 English Composition	4
WR 122 English Composition or WR 227 Technical Writing	4

GENERAL EDUCATION/DISCIPLINE STUDIES

(One of the courses must be a cultural literacy course, designated by an asterisk.)

HS 208 Multicultural Issues in Human Services fulfills this requirement.

Arts and Letters

At least three (3) courses chosen from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

HS 206 Group Skills for Human Services could fulfill one requirement.

HS 208 Multicultural Issues in Human Services¹

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

32 credits from the Addictions Studies/Counseling Certificate will be applied toward elective credits. No additional elective credits are needed to earn the AAOT.

FOOTNOTES

¹ Recommended to meet cultural literacy requirement.

ADVISING NOTES

Locally, OSU-Cascades offers a bachelor's degree with a major in Human Development and Family Science, Human Services option. This degree requires careful and accurate planning of the first 90 credits. Details can be found at www.osucascades.edu/academics/hdfs. Students pursuing a BA after transfer should consider completing three terms of a 200-level language course. The 100-level language courses will count as electives. The 200-level language courses will partially fill the arts and letters requirement.

HUMANITIES

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

Oregon and other universities offer bachelor’s degrees in specific and interdisciplinary fields of the humanities, which include literature and writing, modern and classical languages, philosophy and ethics, theory and criticism of the arts, history, humanistic content and methods of other social sciences, as well as the “study and application of the humanities to the human environment with particular attention to reflecting our diverse heritage, traditions and history and to the relevance of the humanities to the current conditions of national life” (National Endowment for the Humanities). Many U.S. and global careers are open to students with a solid humanities foundation, which includes strong writing, reading, critical thinking, research skills proficiency in one or more foreign languages.

COCC’s Humanities department offers courses in:

- English (American, British, Children’s and Western World Literature, and Introduction to Literature: Fiction, Drama, Poetry);
- Foreign Languages (French and Spanish);
- Humanities (American Multiculturalism, Women’s Studies, Film Arts, Non-Western Cultures and Literature, Popular Culture);
- Philosophy (Ethics, Epistemology, Logic);
- Reading
- Writing (English Composition, Technical Writing, and Creative Writing: Fiction, Non-Fiction, Poetry, Scriptwriting)

A combination of these courses may be used to satisfy lower-division requirements for bachelor’s degrees and to prepare transfer students for success in achieving their academic and professional goals. Students seeking a bachelor’s degree in humanities fields are often best served by pursuing the Associate of Arts degree. COCC transfer students are encouraged to consult college catalogs and work closely with their advisors.

The Associate of Arts Oregon Transfer degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor’s degree in humanities.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of “C” or higher.)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite.)		

Health (3 credits with HHP prefix.)	3
HHP activity courses (1 credit each) are not to be duplicated	

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science

ELECTIVES

Students must choose enough electives to reach the minimum of 90 credits required for the AAOT.

TRANSFER INFORMATION

Transfer students seeking a bachelor’s degree in specific or interdisciplinary humanities fields are advised to select general education/discipline studies and elective courses that will also fulfill major and minor requirements at the destination university to which they intend to transfer. COCC transfer students are encouraged to consult college catalogs and work closely with their advisors.

MANUFACTURING TECHNOLOGY-CNC MACHINING

Certificate of Completion

44 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, CNC Machining

PROGRAM DESCRIPTION

The CNC Machining One-Year Certificate of Completion program is a self-directed, outcome-based program designed to prepare students for technician-level employment in manufacturing environments using CNC equipment. The program is offered exclusively at the Manufacturing and Applied Technology Center (MATC) at COCC's Redmond Campus. Department approval is required for enrollment at the Manufacturing and Applied Technology Center.

All credits required to satisfy the requirements of this one-year certificate can also be applied toward the Associate of Applied Science degree in Manufacturing Technology.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Program fees of \$35-\$135 per class are assessed when taking classes with Amatrol-based content. See online class schedule for class-specific fees. Classes that have Amatrol content include: MFG 101, 109, 110, 115, 116, 118, 133, 160, 211, 213, 241, 242, 244, 245, 246
- Welding personal protective equipment and tools, approximately \$400

PROGRAM PREPARATION AND PREREQUISITES

Recommended prior to entry in program (MFG) courses:

- High school diploma or GED
- Minimum placement scores resulting in WR 95 placement OR prior completion of WR 60 or higher ("C" or better)
- Minimum placement scores resulting in MTH 20 placement OR prior completion of MTH 10 or higher ("C" or better)
- Successful completion of or current enrollment in MATC new-student orientation class MFG 100
- Certificate courses require instructor permission
- Recommended completion of CIS 70

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better, and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Nearly all MATC courses are self-directed, outcome-based curricula. This provides students with a greater degree of flexibility than most other COCC programs. The MATC hours of operation provide students with ample time to complete their coursework during a term.

Upon starting their program, students review their desired certificate or degree outcome with their advisor and a sequence of coursework is identified for them. With the exception of classes in a series (e.g. Manufacturing Processes I,II,III) or those with specific prerequisites (as identified in the catalog) most classes can be taken in any order, provided that instructor permission is obtained.

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA each term while enrolled in the program (MFG) courses. Students who do not meet this standard may be dismissed from the program. Students wishing to re-enter the program after being dismissed must gain the prior approval of their MATC advisor.

NATIONAL AND/OR STATE LEGAL ELIGIBILITY REQUIREMENTS FOR LICENSURE OR ENTRY INTO OCCUPATION

Employer requirements vary considerably regarding secondary certifications in Manufacturing. The MATC offers certification preparation classes to assist students in obtaining certifications. Students desiring specific certification such as that provided by AWS or SME should discuss this with their advisor.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions. Prior to starting any MATC program, students are advised to contact the institution to which they intend to transfer and identify what credits may be transferrable.

MANUFACTURING TECHNOLOGY

Two-Year Certificate of Completion
85 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Manufacturing Technology II

PROGRAM DESCRIPTION

The two-year Certificate of Completion, Manufacturing Technology program is a self-directed, outcome-based program designed to prepare students for technician-level employment in a variety of manufacturing environments. The program is offered exclusively at the Manufacturing and Applied Technology Center (MATC) at COCC's Redmond Campus. Departmental approval is required for enrollment at the MATC.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Program fees of \$35-\$135 per class are assessed when taking classes with Amatrol-based content. See online class schedule for class specific fees. Classes that have Amatrol content include: MFG 101, 109, 110, 115, 116, 118, 133, 160, 211, 213, 241, 242, 244, 245, 246.
- Welding personal protective equipment and tools, approximately \$400.

PROGRAM PREPARATION AND PREREQUISITES

Recommended prior to entry in program (MFG) courses:

- High school diploma or GED
- Minimum placement scores resulting in WR 95 placement OR prior completion of WR 60 or higher ("C" or better)
- Minimum placement scores resulting in MTH 20 placement OR prior completion of MTH 10 or higher ("C" or better)
- Successful completion of or current enrollment in MATC new-student orientation class MFG 100
- Certificate courses require instructor permission
- Recommended completion of CIS 70

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Nearly all MATC courses are self-directed, outcome-based curricula. This provides students with a greater degree of flexibility than most other COCC programs. The MATC hours of operation provide students with ample time to complete their coursework during a term.

Upon starting their program, students review their desired certificate or degree outcome with their advisor and a sequence of coursework is identified for them. With the exception of classes in a series (e.g. Manufacturing Processes I,II,III) or those with specific prerequisites (as identified in the catalog) most classes can be taken in any order, provided that instructor permission is obtained.

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA each term while enrolled in the program (MFG) courses. Students who do not meet this standard may be dismissed from the program. Students wishing to re-enter the program after being dismissed must gain the prior approval of their MATC advisor.

NATIONAL AND/OR STATE LEGAL ELIGIBILITY REQUIREMENTS FOR LICENSURE OR ENTRY INTO OCCUPATION

Employer requirements vary considerably regarding secondary certifications in Manufacturing. The MATC offers certification preparation classes to assist students in obtaining certifications. Students desiring specific certification such as that provided by AWS or SME should discuss this with their advisor.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions. Prior to starting any MATC program, students are advised to contact the institution to which they intend to transfer and identify what credits may be transferrable.

Associate of Applied Science (AAS) Degree

99 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Manufacturing Technology

PROGRAM DESCRIPTION

The Manufacturing Technology AAS degree program is a self-directed, outcome-based program designed to prepare students for technician-level employment in a variety of manufacturing environments. The program is offered exclusively at the Manufacturing and Applied Technology Center (MATC) at COCC's Redmond Campus. Department approval is required for enrollment at the MATC.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Program fees of \$35-\$135 per class are assessed when taking classes with Amatrol based content. See online class schedule for class-specific fees. Classes that have Amatrol content include: MFG 101, 109, 110, 115, 116, 118, 133, 160, 211, 213, 241, 242, 244, 245, 246.
- Welding personal protective equipment and tools, approximately \$400.

PROGRAM PREPARATION AND PREREQUISITES

Recommended prior to entry in program (MFG) courses:

- High school diploma or GED
- Minimum placement scores resulting in WR 95 placement OR prior completion of WR 60 or higher ("C" or better)
- Minimum placement scores resulting in MTH 20 placement OR prior completion of MTH 10 or higher ("C" or better)
- Successful completion of or current enrollment in MATC new-student orientation class MFG 100
- Certificate courses require instructor permission
- Recommended completion of CIS 70

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Nearly all MATC courses are self-directed, outcome-based curricula. This provides students with a greater degree of flexibility than most other COCC programs. The MATC hours of operation provide students with ample time to complete their coursework during a term.

Upon starting their program, students review their desired certificate or degree outcome with their advisor and a sequence of coursework is identified for them. With the exception of classes in a series (e.g. Manufacturing Processes I,II,III) or those with specific prerequisites (as identified in the catalog) most classes can be taken in any order, provided that instructor permission is obtained.

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA each term while enrolled in the program (MFG) courses. Students who do not meet this standard may be dismissed from the program. Students wishing to re-enter the program after being dismissed must gain the prior approval of their MATC advisor.

NATIONAL AND/OR STATE LEGAL ELIGIBILITY REQUIREMENTS FOR LICENSURE OR ENTRY INTO OCCUPATION

Employer requirements vary considerably regarding secondary certifications in Manufacturing. The MATC offers certification preparation classes to assist students in obtaining certifications. Students desiring specific certification such as that provided by AWS or SME should discuss this with their advisor.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions. Prior to starting any MATC program, students are advised to contact the institution to which they intend to transfer and identify what credits may be transferrable.

PROGRAM COURSE REQUIREMENTS

Foundational requirements

WR 60	Rhetoric and Critical Thinking (or higher)	4
MTH 85	Technical Math I (or higher)	4

Program requirements

MFG 100	MATC Orientation	1
MFG 101	Blueprint Reading	2
MFG 103	Welding Technology I	3
MFG 105	Welding Technology II	3
MFG 107	Welding Technology III	3
MFG 109	Lean Practices	2
MFG 110	Manufacturing Processes I	3
MFG 112	Manufacturing Processes II	3

MASSAGE THERAPY PROGRAM

PREREQUISITES, STANDARDS and REQUIREMENTS

PROGRAM DESCRIPTION

Students study the sciences relating to the human body and theories of the practice of massage therapy. Students are taught skills that include a variety of massage techniques and modalities, how to maintain client and business records, practice ethical client/practitioner boundaries, demonstrate excellent client communication skills and use universal sanitation practices at all times.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following program costs:

- Program fees per credit for all LMT courses (at time of publication fee per credit under review) \$88
- Textbooks \$600-\$700
- Black COCC logo polo shirt and black pants \$40
- CPR certification \$35-\$40
- Oregon Board of Massage Therapist License \$150
- Licensing exams (one written and one practical required for licensure)
- Oregon Board of Massage Therapists practical exam \$200
- Written exams:
 - MBLEx (Massage and Bodywork Licensing Exam) \$195
 - or NCBTMB (National Certifying Board of Therapeutic Massage and Bodywork) \$225
- Tools:
 - Massage table \$400-\$700
 - Massage chair \$200-\$400
 - Bolster \$30-\$40
 - Lotion bottle and holster \$10-\$15
 - Stool \$35-\$85
 - Sheets and blanket \$40-\$65
 - Face covers \$15-\$25
 - Lotions \$38-\$60

PROGRAM PREPARATION AND PREREQUISITES

Required prior to entry in LMT program courses:

- 18 years of age
- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement or completion of WR 65 or WR 75 or WR 95
- Completion of BI 121 or BI 122 or BI 231 or BI 232 or BI 233
- Placement score into MTH 20 or complete MTH 10 or higher

Recommended prior to entry in LMT program courses:

LMT 101 Intro to a Massage Therapy Career

Criminal background and fingerprinting for Massage Therapy licensing information.

A student who has been arrested or convicted of a crime, excluding minor traffic violations, or has been sanctioned by any other licensing agency in any state or jurisdiction will be required to provide a copy of the police report, a copy of the judgment and a copy of the settlement of the judgment or final order to the Oregon Board of Massage Therapists when applying for the state licensing practical exam.

An arrest record and/or conviction do not automatically result in a denial of licensure. The Oregon Board of Massage Therapists will require that an applicant submit to fingerprinting and may use the fingerprints to request a criminal records check of the applicant. For information, see the Oregon Board of Massage Therapists website, www.oregon.gov/OBMT/miscinfo.shtml.

Students whose past history may interfere with their ability to complete the program of study or to obtain licensure in the massage therapy field, should contact the appropriate state board or discuss this with the program director.

MINIMUM GPA OR GRADE REQUIREMENTS

All Massage Therapy program one- and two-year certificate and AAS degree required courses must be completed with a grade of "C" (75 percent) or higher. Students must maintain a 2.0 overall GPA to graduate.

No contact hours will be awarded toward licensure requirements if the grade earned was less than 75 percent.

Verification of contact hours are part of the Oregon Board of Massage Therapist's licensing requirements.

Courses listed under the Foundational Skills section must be completed at a "C" grade or better, and graduates must have an overall 2.0 GPA.

REGISTRATION INFORMATION

Students are offered two opportunities to enter the Massage Therapy program each year which includes a fall day-program start and a spring evening-program start. Each program start requires the block of classes to be completed before moving to the next sequence of related classes. Students may take non-Massage Therapy courses (any course that doesn't begin with a LMT prefix) at any time prior to enrollment into the LMT program or during enrollment in the LMT program if time is available.

PROGRAM STANDARDS

The following actions may result in probation and/or dismissal of a student from the LMT program:

- Poor personal hygiene resulting in verbal notification to the student that may include, but is not limited to: perfumes, smoking, and hygiene
- Improper attire that exposes the midriff, the gluteal cleft or breast cleavage
- Continued failure to keep up an academic level of 75 percent
- Unsatisfactory attendance or excessive tardiness
- Missing more than 10 percent of classroom instruction
- Habitual tardiness
- Behaving in an illegal or non-professional manner or in any manner that may harm the massage profession's reputation and/or the Central Oregon Community College LMT program's reputation
- Behaving in a manner that interferes with class instruction or class participation such as sleeping, non-participation, illness or aggressive actions
- Attending classes under the influences of alcohol, illegal drugs or prescription drugs that adversely affect behavior
- Failure to be current on tuition payments
- Displaying inappropriate sexual overtures or behaviors
- Harassment or verbal abuse toward any student, staff member or clinic participant that may include rudeness, ridiculing or condescending actions
- Failure to comply with probationary requirements as designated in the student action plan

STATE ELIGIBILITY REQUIREMENTS FOR LICENSURE

Massage Therapy is regulated by the State of Oregon. The Oregon Board of Massage Therapists sets the standards for licensure and may be subject to change. The Oregon Board of Massage Therapists currently requires 500 hours of contact hours in specific subjects. They require both a written and a practical examination. Students may apply for a massage therapy license after passing both written and practical exams. The license may be contingent on a criminal background check and fingerprinting.

TRANSFER INFORMATION

This certificate/degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

MASSAGE THERAPY PROGRAM

Certificates of Completion
52-81 credits

MATHEMATICS

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The Associate of Arts Oregon Transfer degree meets the State of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in mathematics.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite)		

Health (3 credits with HHP prefix)		3
HHP activity courses (1 credit each) are not to be duplicated		

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

Recommend:

PH 211	General Physics I	5
PH 212	General Physics II	5
PH 213	General Physics III	5
MTH 112	Trigonometry	4

ELECTIVES

MTH 113	Topics in Precalculus	4
MTH 231	Discrete Mathematics I	
MTH 232	Discrete Mathematics II	
MTH 241	Calculus for Management/Social Science	4
MTH 243	Introduction to Methods of Probability and Statistics 1	4
MTH 244	Introduction to Methods of Probability and Statistics 2	4
MTH 245	Mathematics for Management, Life, and Social Sciences	4
MTH 251	Calculus I	4
MTH 252	Calculus II	4
MTH 253	Calculus III	4
MTH 254	Vector Calculus I	4
MTH 255	Vector Calculus II	4
MTH 256	Applied Differential Equations	4

ADVISING NOTES

Students planning to transfer to OSU need to take:

HHP 295	Health and Fitness	3
and HHP 185	Activity class	1

MEDICAL ASSISTANT

Certificate of Completion
63-68 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Medical Assistant

PROGRAM DESCRIPTION

The Medical Assistant program is a five- to six-term program that trains individuals to assist health care providers in their offices or other medical settings in both clinical and administrative procedures. Medical assistants work primarily in medical offices and are usually responsible for both clinical and administrative functions. Clinical duties include infection control, taking patient histories and vital signs, preparing patients for medical procedures, assisting the providers with examinations and treatments, and administering selected diagnostic tests and medications as directed by the clinician. Administrative duties include scheduling and receiving patients, preparing and maintaining medical documentation, handling oral and written correspondence between the office and outside agencies and individuals, and working with insurance regulations and requirements. The medical assistant may also be responsible for equipment maintenance and supply inventories, as well as managing financial records.

Students are eligible to sit for the AAMA CMA (Certified Medical Assistant) certification examination upon completion of the certificate. The Medical Assistant program is accredited by CAAHEP (Commission on Accreditation of Allied Health Education Programs).

COST OF PROGRAM

Due to the rapidly changing nature of health care and associated costs, the following are only estimates.

Supplies

- Stethoscope and blood pressure cuff estimated at \$35, uniform estimated at \$60 but cost will vary depending on where purchased
- Course and lab packets estimated at \$60-\$100 per term
- Lab fees estimated at \$450-\$600

Other Costs

- Current TB test (completed within the previous year), two MMR immunizations, a varicella vaccination, evidence of one pertussis immunization as an adult (tdap) and a Hepatitis B immunization series including titer (or must sign a release form indicating refusal to be immunized). Total cost estimated at \$450, but cost varies depending on the clinic
- By the end of winter term after entering the program, enrolled students must have CPR and first aid cards issued upon successful completion of HHP 252A (\$20 fee in addition to tuition)
- Criminal background check completed in the month prior to entering fall term (estimated at \$55)
- American Association of Medical Assistants (AAMA CMA) Examination (\$125)
- Books: Estimate \$500/term for full-time attendance

PROGRAM PREPARATION AND PREREQUISITES

Required prior to entry into program (MA) courses:

- High school diploma or GED
- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 ("C" or better). See the CAP Center website for scores needed to place in the above classes.
- Background check completed the month prior to entering the program (for details see www.cocc.edu/Allied-Health/Programs-and-Classes/).
- Completion of AH 111, AH 112, MTH 20 or 31, CIS 120 (or test out prior to registration for MA 113 and MA 125), BI 121, BI 122 (BI 231 and 232 and 233 may be substituted for BI 121 and BI 122).
- COCC's Health Careers programs follow the current Center for Disease Control *Healthcare Personnel Vaccination Recommendations*.

The following are required prior to entering the program. Practicum sites may not accept students that have not met immunization requirements:

- Three dose series of Hepatitis B vaccines, or vaccine series in progress (dose #1 completed prior to start of fall term, #2 in one month, #3 approximately five months after #2) and anti-HBs serological testing showing immunity (taken one to two months after third immunization);
- One-time dose of Tdap (Tetanus, Diphtheria, Pertussis) as an adult;
- Two Measles, Mumps, Rubella (MMR) vaccines, at least four weeks apart, or if born before 1957, one vaccine; or vaccine series in progress, with first dose prior to the fall term and second dose at one month; or laboratory evidence of measles, mumps and rubella immunity.
- Two doses Varicella vaccine, four weeks apart; or serological evidence of immunity (titer) to Varicella
- The CDC recommends the following vaccination but it is not required by the program:
- 1 dose of influenza vaccine annually.
- Current negative tuberculosis skin test (PPD). If the test was positive students are required to have a chest X-ray to determine state of health.
- Completion of HHP 252 or 252A with successful acquisition of current CPR and first aid cards by end of winter term (including adult, child and infant CPR as well as first aid)
- All COCC students enrolled in the Medical Assistant program, which includes requirements for practical experience have to complete Criminal History Checks (CHC) as a condition of their acceptance into the program.
- Students who have violations that appear on the CHC may not be eligible to complete training at affiliated practicum sites, to sit for licensure or certification exams, or to be hired for some professional positions. Felonies and some misdemeanors may dramatically reduce a student's chance of completing the practicum or finding employment. If personal history may interfere with the ability to complete the program of study or to obtain licensure or certification in the chosen field, contact the appropriate state board or the program director.
- Students are required to follow the dress and professional standards set by the program and practicum sites.
- Students are required to sign the program student handbook, program letter of agreement, invasive procedure consents, release of information consents (for practicum sites) and background check consents. Some practicum sites may require additional background checks or immunizations at the student's expense.
- Flexibility during weekday hours and transportation to Central Oregon locations are necessary during the term when practicum hours occur.
- Students give and receive injections and blood draws as part of the learning process in the program.

MINIMUM GPA OR GRADE REQUIREMENTS

All courses required for the program must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Program (MA) courses begin once per year in fall term. The Medical Assistant program does not have a selective admissions process. However, students wishing to register in the fall MA cohort must meet the basic prerequisite competencies and may register according to seat availability on a first-come, first-served basis as determined by the priority registration schedule. Students may view the priority registration schedule at www.cocc.edu/Registration-Home.aspx.

All Medical Assistant courses offered each term must be taken together and sequentially. Students are discouraged from working during the term(s) they are assigned practicum due to the need to be flexible enough to attend practicum assignments when facilities are available. For any questions please see the Medical Assistant program website or contact the program director and/or the CAP Center for current information.

MEDICAL ASSISTANT

Certificate of Completion *(continued)*
63-68 credits

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the program (MA) courses; students who do not meet this standard may be dismissed from the program. In order to maintain a “C” in core classes, students must maintain an average of 70 percent on tests and quizzes in each class and an overall average of 75 percent in each class and each lab. In addition, CAAHEP accreditation requires 100 percent of all medical assisting graduates pass 100 percent of all psychomotor and affective competencies. Students must participate in at least 80 percent of the classes and the labs for each section to be retained in the program and must pass all required check-offs, work samples and skill demonstrations.

The following actions may also result in probation and/or dismissal of a student from the Medical Assistant program:

- Poor personal hygiene resulting in verbal notification to the student that may include, but is not limited to: perfumes, smoking and hygiene
- Improper attire that exposes the midriff, the gluteal cleft or breast cleavage
- Habitual tardiness
- Behaving in an illegal or non-professional manner which may harm the reputation of either the Medical Assistant program or that of Central Oregon Community College.
- Behaving in a manner that interferes with class instruction or class participation such as sleeping, non-participation, illness or aggressive actions
- Attending classes under the influences of alcohol, illegal drugs or prescription drugs that adversely affect behavior
- Displaying inappropriate sexual overtures or behaviors
- Harassment or verbal abuse toward any student, staff member or clinic participant that may include rudeness, ridiculing or condescending actions
- Failure to comply with probationary requirements as designated in the student action plan

Students with physical or mental conditions that have the potential to jeopardize patient safety may need medical clearance and/or additional supervision by preceptors and instructors in the practicum settings. Students who cannot meet safety requirements may be dismissed from the program.

Students must be available to attend a minimum of 160 hours of practicum when assigned. Practicum schedules are often changed during the term due to facility availability. Students’ personal schedules cannot be accommodated due to the volume of students and limited number of practicum sites available.

Students who leave or are dropped from the program may re-enter the next fall with the permission of the program director. In rare cases, a student may re-enter at a different point in the program on a space-available basis and with permission from the director of the program. Students may be required to repeat demonstrations of previous competencies to ensure they retained the required skills and knowledge to progress in the program.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

The Medical Assistant program is accredited by CAAHEP (Commission on Accreditation of Allied Health Education Programs). Upon successful completion of the program, students receive a certificate of completion from COCC. At that time students are eligible to submit an application and, if accepted, sit for the AAMA CMA Certification examination. Upon passing the AAMA exam, medical assistants have earned the CMA (Certified Medical Assistant). Only graduates of accredited medical assistant programs are eligible to sit for the AAMA CMA Certification Examination.

In Oregon it is not necessary to be a CMA to work as a medical assistant. However, opportunities for advancement in the occupation are enhanced with certification.

Individuals who have been found guilty of a felony, or who have pleaded guilty to a felony, may not be eligible to sit for licensure or certification examinations. However, the Certifying Board may grant a waiver based on mitigating circumstances. See the Certified Medical Assistant Examination Application for specifics at www.aama-ntl.org.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

WR 121	English Composition	4
MTH 20	Pre-Algebra	3-4
or MTH 31	Health Care Math (recommended) (or higher)	
SP 218	Interpersonal Communication	3

Program requirements

MA 113	Introduction to Medical Assisting	4
MA 125	Medical Office Procedures I	4
MA 123	Medical Assisting Basic Procedures	5
MA 150	Pharmacology for Medical Assistants	3
MA 135	Medical Office Procedures II	4
MA 133	Medical Assisting Advanced Procedures	4
MA 145	Computerized Medical Office Procedures	1
MA 147	Medical Assistant Practicum I	5

Other required courses

AH 111	Medical Terminology I	3
AH 112	Medical Terminology II	3
BI 121	Human Anatomy and Function I	4
BI 122	Human Anatomy and Function II	4
CIS 120	Computer Concepts	0-4

or computer competency test passed prior to registration for MA 113 and MA 125

CIS 10	Computer Keyboarding	1
HHP 252	First Aid and CPR	3
or HHP 252A	Fitness/First Aid	
AH 113	Introduction to the Study of Disease	5

SUGGESTED COURSE OF STUDY

Prior to entering the program:

(Any class not beginning with the letters MA can be completed prior to entering the program. It is suggested that students complete as many as possible in addition to the prerequisites prior to entering the program.)

Prerequisites:

MTH 20	Pre-Algebra (or higher)	3-4
or MTH 31	Health Care Math (recommended)	
AH 111	Medical Terminology I	3
AH 112	Medical Terminology II	3
BI 121	Human Anatomy and Function I	4
BI 122	Human Anatomy and Function II	4
CIS 120	Computer Concepts	0-4
or computer competency test		

Total prior to entry: 17-22

MEDICAL ASSISTANT

Certificate of Completion *(continued)*

63-68 credits

The following classes can be taken any time before, during or after entry into the Medical Assistant program, but are recommended prior to entry:

WR 121	English Composition	4
SP 218	Interpersonal Communication	3
CIS 10	Computer Keyboarding	1

(Note: HHP 252 First Aid and CPR or HHP 252A Fitness/First Aid and AH 113 Introduction to Study of Disease can also be taken prior to entry if desired.)

TOTAL REQUIRED PRIOR TO ENTRY: 17-22

TOTAL RECOMMENDED PRIOR TO ENTRY: 25-38

After entering the program:

Fall

AH 113	Introduction to the Study of Disease	5
MA 113	Introduction to Medical Assisting	4
MA 125	Medical Office Procedures I	4
MA 145	Computerized Medical Office Procedures	1
MA 147	Medical Assistant Practicum I	2-5

Total fall: 14

Winter

MA 123	Medical Assisting Basic Procedures	5
MA 135	Medical Office Procedures II	4
MA 150	Pharmacology for Medical Assistants	3
HHP 252	First Aid and CPR	3
or HHP 252A	Fitness/First Aid	

Total winter: 15

Spring

MA 133	Medical Assisting Advanced Procedures	4
MA 147	Medical Assistant Practicum I	2-5

(Some or all of practicum may be offered in the summer depending on availability.)

Total spring: 4-9

Summer

MA 147	Medical Assistant Practicum I	2-5
--------	-------------------------------	-----

(Some or all of practicum may be offered in the summer depending on availability.)

Total summer: 0-5

MUSIC

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The mission of COCC’s Music program is to provide the opportunity for music majors pursuing a transfer degree (and those simply interested in music) to take the core classes that are typically required in the first two years of a bachelor’s of music program. This includes music fundamentals, class piano, two years of music theory and musicianship, and a listening-based class called Understanding Music. Additionally, most music schools require participation in a major ensemble and private lessons in voice or instrument every term. To that end, we have no fewer than six ensembles in which a student can participate, including the Cascade Chorale, College Choir, Central Singers, Big Band Jazz, Cascade Winds Symphonic Band and Central Oregon Symphony.

The Associate of Arts Oregon Transfer degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor’s degree in music.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of “C” or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite.)		

Health (3 credits with HHP prefix.)	3
HHP activity courses (1 credit each) are not to be duplicated.	

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses chosen from at least two (2) prefixes. Recommend MUS 101, MUS 201 and MUS 111 as well as another non-music arts and letters course. Additional MUS classes can that will be applied to the AAOT as elective credits.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

Choose enough electives to reach the minimum of 90 credits for the AAOT. Music majors should participate in a performing ensemble each term, and take Musicianship IA, IB, IC, IIA, IIB and IIC, Music Theory IA, IB, IC, IIA, IIB and IIC, and have proficient keyboard skills, which can be gained by taking Class Piano I, II, and III, and Applied or Private Lessons (MUP 74, 174, 274).

MUS 201 Understanding Music, while not required, is an excellent survey course of music history and provides a solid background for future in-depth studies of music history.

MUP 74, 174, 274 Applied Voice or Private Lessons, while not required, will help develop individual growth and provide a solid background in solo repertoire, proper language enunciation and in-depth studies of music genres.

A second year of a foreign language is also recommended.

TRANSFER INFORMATION

All music schools have slightly different requirements and expectations of their music majors. While it is true that an Oregon college or university will accept the AAOT degree as a package, which allows students to transfer junior class status, most music schools will not accept a direct transfer of credits for classes intended specifically for music majors, such as Music Theory. Instead, they will test students upon arrival to see what they have learned in their previous classes, and then place them at the appropriate level for their program. It has been our experience that students who perform well in COCC music theory and musicianship classes regularly meet or exceed the requirements to continue on with the next level of study at the transfer institution (i.e., students who have completed the first year of theory typically test into the second year of theory at their new school).

NURSING PROGRAM

PREREQUISITES, STANDARDS and REQUIREMENTS

CERTIFICATE/DEGREE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Practical Nursing
Associate of Applied Science, Nursing

PROGRAM DESCRIPTION

The Nursing program is approved by the Oregon State Board of Nursing to provide students with the academic and clinical preparation to sit for the national licensure exam upon completion of the program. The Nursing program provides a career ladder with exit points at the nursing assistant (NA), practical nurse (PN) and registered nurse (RN) levels. All students, regardless of desired exit point, apply and enter the Nursing program together.

After completing all required support and prerequisite courses, as well as the first three terms of the nursing courses, students are awarded COCC's certificate in Practical Nursing. This certificate qualifies students to take the NCLEX-PN national licensure examination and apply for licensure as a practical nurse (PN) from the Oregon State Board of Nursing.

After completion of all required support and prerequisite courses, as well as all six terms of the nursing courses, the students are awarded an AAS in nursing degree and are eligible to take the NCLEX-RN national licensure examination and apply for licensure as a registered nurse (RN) from the Oregon State Board of Nursing. Students admitted into the Nursing program and completing the first year of nursing courses may continue into the RN sequence of courses without additional application requirements.

Students may choose to exit the program at the end of the first or second term of nursing courses to work at the nursing assistant level. Students leaving at the end of the first term would be required to reapply to the program. Students leaving at the end of the second term may apply for readmission. Students may choose to exit the program at the end of the first year of nursing courses to work at the PN level. Students may apply for advanced placement into the second year of the program at a later time. Students leaving the Nursing program at any point must apply for re-admission into the program. Re-admission is competitive and on a space-available basis. Students seeking re-admission should look at the COCC website for current prerequisite and support courses requirements and the Nursing program's re-admission policy. LPNs who have graduated from another nursing program may seek advanced placement into the RN level of the program and should look at the COCC website for the advanced placement requirements and application materials.

COST OF PROGRAM

In addition to the standard tuition, student fees and textbooks, students should anticipate the following additional estimated program costs:

- Nursing textbooks \$1500
- Nursing courses \$300 per term fee
- Nursing course supplies \$90 first year, \$45 second year
- Specialized clothing or uniform \$150
- Tools and equipment; \$80
- State exam/licensure fee \$320 (\$160 LPN, \$160 RN)
- State fingerprinting fee \$104 (\$52 LPN, \$52 RN)
- Criminal History Check \$55
- Immunizations \$200
- CPR certification \$50

PROGRAM PREPARATION AND PREREQUISITES

For a detailed discussion of all program admission requirements, students must refer to the current year Selection Process Handbook on the Nursing website. Students must complete a Nursing program application, and submit any required documentation, as part of their application packet. Admission packets are available at www.cocc.edu/Nursing. Applications are accepted annually during spring term for admission to the Nursing program the following fall term.

An applicant must be classified as an in-district resident for the term in which they will be admitted to the program.

Students must complete an Oregon nursing assistant course for credit from a regionally accredited college in Oregon with a "C" grade or higher and provide an official transcript from the college if not taken at COCC (this course may be no older than five years at the time of application to the Nursing program); OR complete either a nursing assistant course from an unaccredited agency (i.e., nursing home or hospital) or COCC's Community Learning nursing assistant course and obtain an Oregon CNA certificate. The CNA certificate must be issued or renewed within the last five years.

All applicants must demonstrate basic computer skills by completing CIS 120 Computer Concepts, or by passing the computer competency exam. This may be no older than five years at the time of completed application to the Nursing program. The five-year requirement is defined as the academic year the course or exam was taken, e.g., five years from 2013-2014 is 2008-2009.

Students must complete the following support courses with a "C" grade or better to meet degree requirements:

GS 105	Physical Science: Chemistry ¹	4
or CH 104	Intro to Chemistry I ¹	5
or CH 221	General Chemistry I ¹	5
FN 225	Human Nutrition	4
PSY 215	Developmental Psychology	4
or PSY 215N	Developmental Psychology for Nurses	4
WR 122	English Composition	4
or WR 227	Technical Writing	4

Completion of the following prerequisite courses:

BI 231	Anatomy and Physiology I ²	4
BI 232	Anatomy and Physiology II ²	4
BI 233	Anatomy and Physiology III ²	4
BI 234	Microbiology ²	4
MTH 95	Intermediate Algebra or higher	4
WR 121	English Composition	4

Prerequisite courses must be completed with a "C" grade or better, with a cumulative GPA of 3.0 or higher.

FOOTNOTES

¹ Chemistry may be no older than five years at the time of completed application to the Nursing program. The five-year requirement is defined as the academic year the course was taken, e.g., five years from 2013-2014 is 2008-2009.

² Anatomy & Physiology and Microbiology may be no older than five years at the time of application to the Nursing program. The five-year requirement is defined as the academic year the course was taken, e.g., five years from 2013-2014 is 2008-2009.

Completion of the Test of Essential Academic Skills (TEAS-V)[™] a scholastic aptitude test designed to measure basic essential skills identified as important for entry-level Nursing program applicants.

Once admitted into the Nursing program, students will need to complete the following before the start of fall term: (See *Nursing Program Entrance Policies and Technical Standards* handbook for more details on the Nursing website)

- Criminal history check
- Healthcare provider CPR certification Documentation of completion of immunizations as follows:
 - Hepatitis
 - Measles, Mumps, Rubella
 - Varicella
 - Tdap
 - TB test

NURSING PROGRAM

PREREQUISITES, STANDARDS and REQUIREMENTS *(continued)*

MINIMUM GPA OR GRADE REQUIREMENTS

3.0 cumulative GPA for BI 231, 232, 233, 234, WR 121 and MTH 95. All other support courses must be completed with “C” or higher. Once admitted to the Nursing program, Students must pass Nursing Theory at >76.55 percent or 77 percent to pass the Nursing course and pass clinical practicum to remain in the Nursing program.

REGISTRATION INFORMATION

Students are admitted to the Nursing program through a selective admission process. The application process is handled through Admissions and Records. Admission to the Nursing program is competitive and enrollment is limited. Admission to the program allows a student to take the required Nursing (NUR) courses. Program courses must be taken in sequence.

Students are required to attend a Nursing orientation session offered by Enrollment Services to learn about COCC’s Nursing program and admission requirements. Students should refer to the Nursing Selection Process Handbook found on the COCC website for all current admission requirements and for specific information about the process, financial aid and strategies for program success. Nursing program prerequisite and support courses are open to all students. Due to the rigor and time required for program-specific coursework, students are highly encouraged to complete non-specific program coursework prior to admission.

PROGRAM STANDARDS

The Nursing program reserves the right to refuse or discontinue enrollment at any time of any student if the student violates the Nurse Practice Act of the state of Oregon. Additionally, students are required to consistently meet the outcomes, technical standards, policies and/or safety standards of the program and College. Failure to do so may result in probation or removal from the program. It is the COCC student’s responsibility to know and abide by the College policies including Student Rights and Responsibilities which can be found at www.cocc.edu/Student-Life/Student-Policies/. The Nursing program progression policy can be found by going to www.cocc.edu/Nursing/Traditional-Nursing-Program/ and clicking on Progression Polices near the bottom of the page.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

Completion of the Practical Nursing certificate qualifies graduates to take the NCLEX-PN national licensure exam and to apply for licensure as a practical nurse from a state board of nursing.

Licensure information in Oregon can be found at www.oregon.gov/OSBN/RN-LPN/licensure.shtml.

Completion of the AAS degree in Nursing qualifies graduates to take the NCLEX-RN national licensure exam and to apply for licensure as a registered nurse from a state board of nursing.

TRANSFER INFORMATION

This certificate/degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

Graduates of the Practical Nurse certificate program may continue to the second year of COCC’s Nursing program or seek admission or advanced placement at any Oregon community college.

Articulation agreements are in place for graduates of the AAS degree Nursing program wanting to continue on to a Bachelor of Science in Nursing degree with Linfield College and Oregon Health Sciences University. Several other universities and colleges in Oregon and Washington offer RN-BSN completion.

NURSING**PRACTICAL NURSING**

Certificate of Completion 60-64 credits

ADVISING NOTES

Students considering pursuing a bachelor's degree in nursing should see a nursing advisor, the COCC website or the baccalaureate institution's catalog for other course requirements.

NURSING

Associate of Arts Oregon Transfer (AAOT) Degree - Transfer Preparation
90 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associates of Arts Oregon Transfer Degree

In addition to the registered nurse license, COCC students may choose from several paths to transfer into upper-division Bachelor of Science in Nursing (BSN) programs.

Option 1: Students may complete the RN, AAS at COCC and then complete an online RN-to-BSN program. Information on the RN, AAS program is available on page 138 of this catalog.

Option 2: Students may complete prerequisite coursework for a specific university at COCC and then apply to that university's BSN program.

Option 3: Students may complete the prerequisites for applying to the majority of Oregon's BSN programs by completing the AAOT degree at COCC, then apply to multiple BSN programs.

The AAOT degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some private and out-of-state universities having met all lower-division general education requirements. With appropriate planning, all lower-division major requirements may also be met. Students should carefully review the program websites for any universities they are considering and then work closely with an advisor to review specific transfer requirements. All of Oregon's BSN programs have a selective admission process and are highly competitive.

Oregon has six baccalaureate degree programs (offered at 10 universities or colleges). For specific information, contact the school. The following programs are approved by the Oregon State Board of Nursing.

Concordia University

OUTDOOR LEADERSHIP

Associate of Science - Direct Transfer (AS-DT) and Associate of Science (AS) Degree

93 credits

The general area of outdoor leadership includes developing students to participate professionally in various outdoor related industries, including: outdoor recreation, outdoor education, adventure education, wilderness therapy, and tourism and leisure enterprises. A student can earn an AAOT (see page 141) or AS-DT degree with a focus in outdoor leadership at COCC in preparing to transfer to a baccalaureate institution to pursue a higher degree in any one of the above areas.

The AS-DT is designed for students planning to transfer to OSU-Cascades. This degree will allow students to meet all lower-division baccalaureate and major requirements for a Bachelor of Science in Tourism and Outdoor Leadership.

There are no entrance requirements for the outdoor leadership program; however, there are several pre-requisites for many of the OL courses. Please refer to the list below, which outlines the variety of courses. Students entering into the OL program are expected to complete a set of first year courses before enrolling in second year courses.

First Year Outdoor Leadership Courses – Major Requirements

WR 121	English Composition	4
WR 122	English Composition	4
SP 111	Fundamentals of Public Speaking	3
CIS 120 or CIS 131	Computer Concepts Software Applications	4
OL 111	Introduction to Outdoor Leadership	3
OL 253	Wilderness Advanced First Aid	3
OL 255	Outdoor Living Skills	5

First Year completion requirements for enrollment into the second year level include: a completion of OL prefixed courses at a grade of "C" or higher; completion of a minimum of 36 college-level credits made up, in part, by the above courses. See advisor for details.

Second Year Outdoor Leadership Courses – Major Requirements

OL 207	Seminar in Outdoor Leadership	2
OL 244	Psychology of Risk and Adventure	3
OL 271	Facilitating Group Experiences	4
OL 273	Outdoor Recreation Leadership	5
OL 294	(variety)	3

During their First and Second Years in the Outdoor Leadership Program, students are encouraged to complete a variety of general distribution requirements for the AS-DT, and the BS in Tourism and Outdoor Leadership at OSU-Cascades. Please refer to the list below for suggested courses that meet these requirements. See advisor with any questions.

OL Pre-Requisite Program

Course	Pre-Req.
OL 111	WR 65
OL 271	OL 111, OL 253, OL 255, WR 121
OL 273	OL 111, OL 253, OL 255, WR 121
OL 294 Whitewater Raft Guiding	OL 271, OL 273, OL 171
OL 294 Teaching Rock Climbing	OL 271, OL 273, OL 171
OL 294 Challenge Course Practices	OL 271, OL 273, OL 171

SAMPLE AS-DT TWO-YEAR PLAN (INCLUDES ATTENDANCE IN THE FALL BLOCK)

Year One

Fall term – Fall Block (Students complete the following classes as a cohort of students. Classes are held in an outdoor classroom and students complete an 8 day backpacking trip at the end of the term.)

OL 111	Intro to Outdoor Leadership	3
OL 253	Wilderness Advanced First Aid	3
OL 255	Outdoor Living Skills	5
OL 171	Technical Skills	3
HHP 185	Orienteering (elective)	1
OL 162	Processing the Experience (elective)	1

Winter term

BA 101	Intro to Business	4
CIS 120 or CIS 131	Computer Concepts Software Applications	4
MTH 111	College Algebra	4
WR 121	English Composition	4

Spring term

Difference, Power and Discrimination requirement ¹		3-4
Social Processes requirement ¹		3-4
SP 111	Fundamentals of Public Speaking	3
WR 122	English Composition	4
HHP 185	Activity Class (elective)	1

Year Two

Fall term

OL 271	Facilitating Group Experiences	4
Literature and the Arts requirement ¹		3-4

OL Skills course(s) requirement ²		3-4
Science requirement ¹		4-5

Summer Term

HHP/OL 280	Co-op Work Experience	2
------------	-----------------------	---

GENERAL EDUCATION/DISCIPLINE STUDIES

(See OSU website or advisor for details)

Science: Choose one biological science, one physical science, and one additional biological or physical science from the approved list at: www.oregonstate.edu/admissions/main/course-equivalencies-central-oregon-community-college.

Recommended courses to choose from:

GS 106	Geology	4
GS 107	Astronomy	4
GS 108	Oceanography	4
BI 102	General Biology II	4
BI 103	General Biology III	4

ELECTIVES

Choose enough elective credits to reach a minimum total of 93 overall degree credits. Elective classes must be numbered 100 or above and can be any combination of general electives, Career and Technical Education (CTE) courses (12 credits maximum) or CWE/HHP/performance classes (15 credits maximum).

Lab fees may be assessed at time of registration for certain OL courses pending approval by the College Affairs Committee

- \$23 for HHP 295 or HHP 252A
- \$16 for all HHP 185 classes for Mazama user fee

- \$75 for OL 294CC

FOOTNOTES

¹ Choose one approved course from the list at www.oregonstate.edu/admissions/main/course-equivalencies-central-oregon-community-college.

² Choose one from:

HTRM 233	Event Planning	3
OL 294CC	Challenge Course Practices	3
OL 294RC	Teaching Rock Climbing	3
OL 294WG	Whitewater Raft Guiding	3
OL 199MA	Alpine Climbing	3
OL 199	Mountain Bike Guiding	3

OUTDOOR LEADERSHIP

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The general area of outdoor leadership includes specific careers in outdoor recreation, outdoor education, wilderness therapy, and tourism and leisure enterprises. A student can earn an AAOT or AS-DT (see page 140) degree with a focus in outdoor leadership at COCC to prepare to transfer to a baccalaureate institution to pursue a higher degree in any one of the areas mentioned above.

The AAOT degree meets the State of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

There are no entrance requirements for the Outdoor Leadership program. However, students entering the program are required to complete a set of freshman courses before enrolling in the sophomore-level courses. Freshman completion requirements for enrollment into the sophomore level include completion of a minimum of 36 college-level credits made up, in part, by the following courses. See advisor for details.

WR 121	English Composition	4
WR 122	English Composition	4
SP 111	Fundamentals of Public Speaking	3
HHP 295	Health and Fitness for Life	3
CIS 120	Computer Concepts	4
or CIS 131	Software Applications	
OL 111	Introduction to Outdoor Leadership	3
OL 253	Wilderness Advanced First Aid	3
OL 255	Outdoor Living Skills	5

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite.)		

Health (3 credits with HHP prefix.)	3
HHP activity courses (1 credit each) are not to be duplicated.	

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

Choose enough elective credits to reach a minimum total of 90 overall degree credits. Elective classes must be numbered 100 or above and can be any combination of general electives, Career and Technical Education (CTE) courses (12 credits maximum) or CWE/HHP/performance classes (15 credits maximum). The following courses are recommended:

FOR 240A	Forest Ecology	3
FOR 251	Recreational Resource Management	3
GEOG 212	Tourism and Recreation	3
OL 111	Introduction to Outdoor Leadership	3
OL 253	Wilderness Advanced First Aid	3
OL 255	Outdoor Living Skills	5
OL 271	Facilitating Group Experiences	4
OL 273	Outdoor Recreation Leadership	5
OL 294WG	Whitewater Raft Guiding	3
or OL 294RC	Teaching Rock Climbing	
or OL 294CC	Challenge Course Practices	
or FOR 255	Resource Interpretation	

ADVISING NOTES

Lab fees may be assessed at time of registration for certain OL courses pending approval by the College Affairs Committee

- \$23 for HHP 295 or HHP 252A
- \$5 for OL 271
- \$75 for OL 294CC

PHARMACY TECHNICIAN

Certificate of Completion

44-48 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Pharmacy Technician

PROGRAM DESCRIPTION

The Pharmacy Technician training program prepares individuals for employment in the pharmacy industry. Pharmacy technicians are skilled workers who are educated and trained to work in a pharmacy and assist in all areas of the pharmacy not requiring the professional judgment of the registered pharmacist. Some current practice areas for the pharmacy technician include retail, hospital, manufacturing, disease state management, and mail order and insurance claim specialists. The pharmacy technician processes prescriptions and medication orders and plays an integral role in maintaining the pharmacy department.

Courses are completed in an online and hybrid format, and focus on the abilities needed to assist the pharmacist and provide the skills necessary to process prescriptions accurately, participate in administration and management of a pharmacy, and maintain inventory. Topics of study include medical terminology, anatomy and functions of the human body, therapeutic classification and drug names, pharmacy procedures, pharmaceutical calculations, pharmacy law, and interpersonal communications. Students will have a working knowledge of sterile technique, standards of practice, quality assurance, and patient confidentiality. In addition, students will develop and practice communication skills needed to function in a professional setting. In order to gain workplace experience, students will also participate in a hospital and retail pharmacy practicum.

The pharmacy technician curriculum was developed using the accreditation standards of the American Society of Health-System Pharmacists (ASHP) and is tailored specifically to the students in the program. This program prepares students to pass the National Pharmacy Technician Certification exam required by the Oregon Board of Pharmacy to practice as a pharmacy technician in the state of Oregon. Students are required to obtain a pharmacy technician license from the Oregon Board of Pharmacy to participate in the practicum. The application process for the pharmacy technician license will require a criminal background search.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following program costs:

- Program fee of \$150 per term (or a total of \$450 for the three-term pharmacy technician cohort);
- In some cases \$150 to \$300 for fees associated with required immunizations and tuberculosis screening;
- \$55 drug screening (if required by practicum site);
- \$65 background search (if required by practicum site);
- \$35 pharmacy technician license;
- \$65 for American Heart Association CPR for Health Care Providers certificate;
- Distance students will be responsible for the cost of travel and expenses to the COCC campus for the two-weekend lecture labs in the spring term.

PROGRAM PREPARATION AND PREREQUISITES

Required prior to entry into the pharmacy technician program:

- High school diploma or GED;
- WR 65/75/95 ("C" or better) or placement into WR 121;
- MTH 20 or MTH 31 ("C" or better) or placement into MTH 60;
- CIS 120 ("C" or better) or pass Computer Competency exam;
- Current American Heart Association CPR for Health Care Providers certification;
- Complete COCC Online Orientation available at www.cocc.edu/onlineorientation;
- All COCC students enrolled in the Pharmacy Technician program, which includes requirements for practical experience, will have to

pass Criminal History Checks (CHC) and/or a urine screen for drugs as a condition of their acceptance into a hospital or retail pharmacy practicum.

Required prior to the start of the fall term:

COCC's Health Careers programs follow the current Center for Disease Control *Healthcare Personnel Vaccination Recommendations*.

Three dose series of Hepatitis B vaccines, or vaccine series in progress (dose #1 completed, #2 in one month, #3 approximately five months after #2) and anti-HBs serological testing showing immunity (taken one to two months after third immunization);

One-time dose of Tdap (Tetanus, Diphtheria, Pertussis) as an adult;

Two Measles, Mumps, Rubella (MMR) vaccines, at least four weeks apart, or if born before 1957, one vaccine; or vaccine series in progress, with first dose prior to the winter term and second dose at one month; or laboratory evidence of measles, mumps and rubella immunity.

Two doses Varicella vaccine, four weeks apart; or serological evidence of immunity (titer) to Varicella.

Current negative tuberculosis skin test (PPD). If the test was positive students are required to have a chest X-ray to determine state of health.

- The CDC recommends the following vaccination but it is not required by the program:
 - 1 dose of influenza vaccine annually.

The Pharmacy Technician program allows for entry into the core PHM course once per year in the fall term. The Pharmacy Technician program does not have a selective admissions process. However, students wishing to register in the fall PHM cohort must meet the basic prerequisite competencies and may register according to seat availability on a first-come, first-served basis as determined by the priority registration schedule. Students may view the priority registration schedule at www.cocc.edu/Registration-Home.aspx.

The program coursework is for the most part an online format and computer competency is a program admission requirement. It is highly recommended that the student begin general education courses such as English Composition, Anatomy and Function, Medical Terminology or Interpersonal Communication prior to registering for the Pharmacy Technician program.

Once admitted to the program, students must obtain a one-year nonrenewable Pharmacy Technician License from the Oregon Board of Pharmacy. This license is required to participate in the Pharmacy Technician practicum courses. Applicants must have a high school diploma equivalency (GED) and be at least 18 years of age. Application for the license will require a background check. Students unable to obtain a pharmacy technician license will not be able to complete training at affiliated practicum sites or obtain employment in a pharmacy. Students who believe their past may interfere with their ability to obtain a license should contact the program director. Information for licensure is available from the Oregon Board of Pharmacy and can be found at www.pharmacy.state.or.us/ or by calling 971-673-0001.

Due to the nature of this curriculum and access to drugs, all students will have to declare themselves "drug free" and may be subject to a criminal background check. A urine screen for drugs may be requested prior to the practicum. A positive drug test or criminal background check may prevent the student from registering for the practicum coursework and completing the program.

MINIMUM GPA OR GRADE REQUIREMENTS

To earn a certificate of completion all required courses must be completed with a grade of "C" or better and students must maintain a 2.0 overall GPA or higher.

PHARMACY TECHNICIAN

Certificate of Completion *(continued)*

44-48 credits

REGISTRATION INFORMATION

The Pharmacy Technician program is a cohort which begins once a year in the fall term. Students can take the general education requirement (any course that does not have a PHM prefix) at any time prior to or concurrent with the program.

Students must be flexible during the spring term to participate in the practicum. Students must perform a three-week block of practicum in a hospital or institution and a three-week block of practicum in a retail or community pharmacy. The practicum will be scheduled by the Pharmacy Technician department and the student must be free of commitments to complete the practicum.

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the Pharmacy Technician program. Students who do not meet this standard may be dismissed from the program.

If a student is arrested for any reason while in the Pharmacy Technician program it should be reported to the program director immediately. The information will be reviewed and may affect the student’s ability to obtain a pharmacy technician license. If a student is unable to obtain a pharmacy technician license he/she will be unable to complete the practicum and this will result in the student’s dismissal from the Pharmacy Technician program.

NATIONAL AND/OR STATE LEGAL ELIGIBILITY REQUIREMENTS FOR LICENSURE OR ENTRY INTO OCCUPATION

Students must be at least 18 years of age, have a high school diploma, no criminal record and pass a National Pharmacy Technician Certification Exam to apply to the Oregon Board of Pharmacy for a Certified Pharmacy Technician License to practice as a pharmacy technician in Oregon.

TRANSFER INFORMATION

This certificate is designed for students planning to enter the pharmacy technician field upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PHYSICS

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

While there are small differences between the physics programs, COCC works to provide the courses common to all programs. Students may have to take some additional classes at the university after transferring to reach junior status within their major.

The Associate of Arts Oregon Transfer (AAOT) degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in physics.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

English Composition

WR 121	English Composition	4
WR 227	English Composition	4

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 251	Calculus I	4
---------	------------	---

Health (3 credits with HHP prefix.) 3

HHP activity courses (1 credit each) are not to be duplicated.

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44-45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three courses from at least two (2) prefixes.

Science/Math/Computer Science

PH 211	General Physics I	5
PH 212	General Physics II	5
PH 213	General Physics III	5
MTH 252	Calculus II	4

Social Science

A minimum of 15 credits from the social science discipline studies list, see pages 44-45, with at least two different prefixes and at least two courses with the same prefix. At least four courses chosen from at least two (2) prefixes.

ELECTIVES

CH 221	General Chemistry I	5
CH 222	General Chemistry II	5
CH 223	General Chemistry III	5
ENGR 201	Electrical Fundamentals	4
ENGR 202	Electrical Fundamentals II	4
ENGR 211	Statics	4
ENGR 212	Dynamics	4
ENGR 213	Strength of Materials	4
GE 101	Engineering Orientation	3
GE 102	Engineering Problem Solving and Technology	3
MTH 253	Calculus III	4
MTH 254	Vector Calculus I	4
MTH 255	Vector Calculus II	4
MTH 256	Applied Differential Equations	4

POLITICAL SCIENCE

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The Associate of Arts Oregon Transfer degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in political science.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite)		

Health (3 credits with HHP prefix)		3
HHP activity courses (1 credit each) are not to be duplicated		

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

PS 201 ¹	Intro to US Government and Politics	4
PS 204 ¹	Intro to Comparative Politics	4
PS 205 ¹	Intro to International Relations	4

plus another course from the Social Science discipline studies list that does not have a PS prefix.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

PS 206 ¹	Intro to Political Thought	4
---------------------	----------------------------	---

Plus choose any college-level course that brings the total credits to 90 quarter hours. This may include up to 12 credits of Career and Technical Education courses designated by COCC as acceptable.

FOOTNOTE

¹ Courses in Political Science do not need to be taken in sequence.

ADVISING NOTES

Students pursuing a BA after transfer should consider completing three terms of a 200-level language course. The 100-level language courses will count as electives. The 200-level language courses will partially fill the arts and letters requirement.

Students pursuing a BS after transfer should consider taking more math and science courses. Language is not necessary. For specific details, speak with an advisor. It is recommended that students pursuing a political science major take additional social sciences courses to fulfill some of their elective credits. Economics, geography and history courses are particularly helpful in this regard.

PRE-DENTAL HYGIENE

Transfer Preparation
51-55 credits

While Central Oregon Community College does not offer a Dental Hygiene program, many students begin their courses here with the intent of transferring to another college for their actual degree. Below is a listing of courses that fulfill most pre-dental hygiene transfer requirements, although students should contact their intended transfer school to determine exact requirements.

BI 231	Human Anatomy and Physiology I	4
BI 232	Human Anatomy and Physiology II	4
BI 233	Human Anatomy and Physiology III	4
BI 234	Microbiology (optional)	4
CH 104	Introduction to Chemistry I	5
CH 105	Introduction to Chemistry II	5
CH 106	Introduction to Chemistry III	5
FN 225	Human Nutrition	4
MTH 111	College Algebra	4
PSY 201	Mind and Brain	4
SOC 201	Introduction to Sociology	4
SP 111	Fundamentals of Public Speaking	3
WR 121	English Composition	4
WR 122	English Composition	4

Colleges in Oregon that offer a dental hygiene program include:

- Lane Community College - Eugene
- Mt. Hood Community College - Gresham
- ODS College of Dental Sciences - La Grande
- Oregon Institute of Technology – Klamath Falls
- Pacific University - Hillsboro
- Portland Community College - Portland
- Carrington College - Portland
- Oregon Institute of Technology/Chemeketa - Salem

PRE-LAW

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The Associate of Arts Oregon Transfer degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

Most law schools have no requirements for a pre-law curriculum and will accept a bachelor’s degree in any major. Students should develop an educational program that is broad, yet provides depth of understanding in at least one subject area, along with fundamental insights into human institutions and values. The emphasis should be on a degree program that meets students’ needs and interests, that students find challenging, and in which students will do their best work and will earn good grades.

Legal educators agree that the development of particular skills and habits will contribute more to success in law school than a major in any one subject. Therefore, coursework should focus on strengthening habits of thoroughness, intellectual curiosity, scholarship, the ability to research a topic, write concisely, analyze information and think critically. Verbal and written communication skills are very important.

Courses in literature, language, composition, logic and linguistics are directly concerned with the cultivation of these skills. In addition, lawyers must be adept at problem solving and organizing information to support a point of view. Courses in political science, economics, American and British history, journalism, philosophy and business principles will provide an opportunity to practice these skills and to gain an understanding of social institutions and values.

The following is a suggested course of study for students interested in pursuing a bachelor’s degree in pre-law.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of “C” or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite)		

Health (3 credits with HHP prefix)	3
HHP activity courses (1 credit each) are not to be duplicated	

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

Choose any college-level course that brings the total credits to 90 quarter hours. This may include up to 12 credits of Career and Technical Education courses designated by COCC as acceptable.

ADVISING NOTES

Students pursuing a BA after transfer should consider completing three terms of a 200-level language course. The 100-level language courses will count as electives. The 200-level language courses will partially fill the arts and letters requirement.

Students pursuing a BS after transfer should consider taking more math and science courses. Language is not necessary. For specific details, speak with an advisor.

PRE-MEDICINE, PRE-DENTISTRY, PRE-VETERINARY

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

Students interested in pursuing professional degrees in medicine, dentistry or veterinary medicine are required to complete a bachelor's degree, preferably in a related area, including any of the biological sciences. To provide a solid foundation for bachelor's degree work, students are encouraged to complete the Associate of Arts Oregon Transfer degree, with an emphasis on pre-med, -vet and -dentistry related coursework. A suggested course of study is listed below. Students may transfer to a baccalaureate institution without the AAOT; however, completion of this degree guarantees that a student will transfer with junior standing and that all lower-division general education coursework is complete.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite)		

Health (3 credits with HHP prefix)		3
HHP activity courses (1 credit each) are not to be duplicated		

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses chosen from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

BI 211	Principles of Biology I	5
BI 212	Biology of Plants II	5
BI 213	Biology of Animals III	5
CH 221	General Chemistry I	5

ELECTIVES

CH 222	General Chemistry II	5
CH 223	General Chemistry III	5
FN 225	Human Nutrition	4
MTH 112	Elementary Functions	4
MTH 113	Analytic Geometry	4
MTH 251	Calculus I	4
MTH 252	Calculus II	4
MTH 253	Calculus III	4
PH 201	General Physics I	5
PH 202	General Physics II	5
PH 203	General Physics III	5
or PH 211	General Physics I	
PH 212	General Physics II	
PH 213	General Physics III	

Students should take enough electives to reach the 90 minimum credits required for the AAOT degree.

PRE-PHYSICIAN ASSISTANT AND PRE-PHYSICAL THERAPY

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

Students interested in pursuing professional degrees to become a Physician Assistant (PA) or Physical Therapist (PT) are required to complete a bachelor's degree, preferably in a related area, including any of the biological sciences. To provide a solid foundation for bachelor's degree work, students are encouraged to complete the Associate of Arts Oregon Transfer degree, with an emphasis on pre-PA or pre-PT coursework. A suggested course of study is listed below. Students may transfer to a baccalaureate institution without the AAOT; however, completion of this degree guarantees that a student will transfer with junior standing and that all lower-division general education coursework is complete.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 111	College Algebra or higher	4
---------	---------------------------	---

HHP activity courses (1 credit each) are not to be duplicated		

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Science/Math/Computer Science

The two PA programs in Oregon, at Oregon Health & Sciences University (OHSU) and Pacific University have a year of human anatomy & physiology as a pre-requisite. BI 231-233 (Human Anatomy & Physiology I-III) fulfills this requirement.

The OHSU PA program also has a Microbiology lecture-and-lab course as a pre-requisite. BI 234 fulfills this requirement. BI 234 also can be applied as a biological sciences pre-requisite for the PA program at Pacific University.

The two PA programs in Oregon also have a chemistry prerequisite, which can be met with courses in CH 104-106 and/or CH 221-223. The Pacific University PT program also has one year of general physics (non-calculus based) as a pre-requisite, which can be met with PH 201-203.

The student and her/his advisor should review program pre-requisites to determine what other courses may be taken at COCC to fulfill them.

The AAOT itself has the following requirements:

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

Recommend:

BI 211	Principles of Biology I	5
BI 212	Biology of Plants II	5

Students should take enough electives to reach the 90 minimum credits required for the AAOT degree.

The following websites are helpful tools in identifying colleges across the U.S. which offer either a Physician Assistant and/or Physical Therapy degree and their respective lower division requirements.

American Physical Therapy Association web site (www.apta.org/).

Physician Assistant Education Association (www.paeaonline.org/).

PSYCHOLOGY

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The Associate of Arts Oregon Transfer degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in psychology.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher.)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite.)		
Recommended: MTH 111 College Algebra		

Health (3 credits with HHP prefix.)		3
HHP activity courses (1 credit each) are not to be duplicated.		

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

PSY 201 ¹	Mind and Brain	4
PSY 202 ¹	Mind and Society	4

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

Choose any college-level course that brings the total credits to 90 quarter hours. This may include up to 12 credits of Career and Technical Education courses designated by COCC as acceptable.

ADVISING NOTES

Students pursuing a BA after transfer should consider completing three terms of a 200-level language course. The 100-level language courses will count as electives. The 200-level language courses will partially fill the arts and letters requirement.

Students pursuing a BS after transfer should consider taking more math and science courses. Language is not necessary. However, if a student has graduated high school or earned a GED after 1997, two years of the same foreign language must be earned at the high school level or two quarters of the same foreign language at the undergraduate level is required for admittance to most OUS institutions. For specific details, speak with an advisor. In general two 100+ math classes beyond the foundational mathematics requirement fulfills the Bachelor of Science. These will also partially fulfill the Science/Math/Computer Science discipline studies requirements.

Although students may take whichever science sequence they prefer, it is recommended to take BI 101-103 or BI 231-233 due to the relevance these courses have to upper-division psychology courses.

Students are advised to consider the following psychology courses as electives to gain a further insight into the field and to help them determine what area of psychology they may be interested in pursuing: PSY 213, PSY 214, PSY 215, PSY 219, PSY 216, PSY 233, PSY 227 and any other potential special topics courses that are offered from time to time.

Students who are considering clinical or counseling psychology might consider the following electives: HS 162, HS 262, HS 161, HS 206, HS 201, HS 260, EMT 195 and ED 265.

Psychology students will be required to take Statistics when they transfer. Although MTH 111 is sufficient for the math requirement, advisors recommend taking one or both of MTH 243 and MTH 244 to finish the science requirement and to allow students to be exposed to statistics beforehand.

TRANSFER INFORMATION

Note that individual institutions may have additional requirements or will change the category that a course satisfies if the AAOT is not completed, or is transferred to an out-of-state college or university. For admission into a particular program, courses may be added. Students who plan to transfer should contact the institution they plan to attend to ensure they have fulfilled the specific requirements for their program.

Students have the option of pursuing a bachelor's degree in psychology through Oregon State University (contact Diane Pritchard, OSU advisor, 541-322-2023) or through a distance program with Eastern Oregon University (contact Brenda McDonald, EOU advisor, 541-385-1137); both programs are available in Central Oregon. Students planning to attend OSU should include in their AA degree the following OSU major requirements: WR 227, BI 101-103 or BI 211-213, PSY 201, PSY 202.

FOOTNOTES

¹ These courses do not need to be taken in sequence.

SOCIOLOGY

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

The Associate of Arts Oregon Transfer degree meets the State of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in sociology.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS
(Courses must be completed with a grade of "C" or higher.)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	
or SP 115	Introduction to Intercultural Communication	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite.)		
Recommended: MTH 111 College Algebra		

Health (3 credits with HHP prefix.)		3
HHP activity courses (1 credit each) are not to be duplicated.		

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.		
SOC 201	Introduction to Sociology	4

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

Choose any college-level course that brings the total credits to 90 quarter hours. This may include up to 12 credits of Career and Technical Education courses designated by COCC as acceptable.

ADVISING NOTES

Students pursuing a BA after transfer should consider completing three terms of a 200-level language course. The 100-level language courses will count as electives. The 200-level language courses will partially fill the arts and letters requirement.

Students pursuing a BS after transfer should consider taking more math and science courses. Language is not necessary. For specific details, speak with an advisor.

Students are advised to consider the following sociology courses as electives to gain further insight into the field and to help them determine what area of sociology they may be interested in pursuing: SOC 206, SOC 211, SOC 208, SOC 212, SOC 215, SOC 219, SOC 250 and any other potential special topics courses that are offered from time to time.

Sociology students typically will be required to take Statistics when they transfer. Although MTH 111 is sufficient for the math requirement, advisors recommend taking one or both of MTH 243 and MTH 244 to finish the science requirement and to allow students to be exposed to statistics beforehand.

TRANSFER INFORMATION

Note that individual institutions may have additional requirements or will change the category that a course satisfies if the AAOT is not completed, or is transferred to an out-of-state college or university. For admission into a particular program, courses may be added. Students who plan to transfer should contact the institution they plan to attend to ensure they have fulfilled the specific requirements for their program.

SPEECH COMMUNICATION

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

COCC's Speech Communication program offers courses in public speaking, small group communication, interpersonal communication, as well as classes on the media, gender, intercultural communication and communicating love. One-credit, workshop-style courses are also available for those who want to learn team skills, conflict management, listening skills and emotional intelligence. A degree in speech communication can lead to a career in teaching, the hospitality industry, broadcast and cyber media, human resources, business management, public relations, politics, law or the arts.

The Associate of Arts Oregon Transfer degree meets the state of Oregon transfer degree requirements, allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. Students should work closely with an advisor to select the best degree option and to review specific transfer requirements.

The following is a suggested course of study for students interested in pursuing a bachelor's degree in speech communication.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

(Courses must be completed with a grade of "C" or higher.)

Writing

WR 121	English Composition	4
WR 122	English Composition	4
or WR 227	Technical Writing 4	

Oral Communication

SP 111	Fundamentals of Public Speaking	3
or SP 114	Argumentation and Critical Discourse	3
or SP 115	Introduction to Intercultural Communication	3
or SP 218	Interpersonal Communication	3
or SP 219	Small Group Communication	3

Mathematics

MTH 105	Intro to Contemporary Mathematics	4
(or higher for which Intermediate Algebra is a prerequisite.)		

Health (3 credits with HHP prefix.)

HHP activity courses (1 credit each)	are not to be duplicated.	3
--------------------------------------	---------------------------	---

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes. Speech communication majors should consider courses with ART, HUM, ENG, PHL, SP, or TA prefixes.

Social Science

At least four (4) courses from at least two (2) prefixes.

Speech communication majors interested in quantitative communication studies should consider courses with a PSY or SOC prefix.

Speech communication majors interested in rhetoric and public address should consider courses with an HST or PS prefix.

Science/Math/Computer Science

At least four (4) courses from at least two (2) prefixes including at least three (3) laboratory courses in biological and/or physical science.

ELECTIVES

Choose enough electives to reach the minimum of 90 credits for the AAOT. In addition to the recommendations listed below, speech communication majors should consider taking a broad range of courses.

SP 115	Introduction to Intercultural Communication	3
SP 218	Interpersonal Communication	3
SP 219	Small Group Communication	3
SP 220	Gender Communication	3
SP 230	Introduction to the Rhetoric of Film	3
SP 234	Introduction to Visual Rhetoric	3
SP 241	Media, Communication and Society	4
SP 270	Communicating Love	3

ADVISING NOTES

Students planning to transfer to OSU need to take:

HHP 295	Health and Fitness	3
and HHP 185	Activity class	1

TRANSFER INFORMATION

The Oregon University System offers a variety of programs for speech communication majors who seek a bachelor's or more advanced degree. Some Oregon 2-year and 4-year colleges have required speech courses that are 4 credits, so students transferring to those colleges may find it helpful to take one of the 1 credit courses, such as SP 250, SP 252 or SP 253, to supplement one of the 3 credit speech courses.

Oregon State University-Cascades offers a speech communication minor; contact its Admissions office for more information.

OSU's (Corvallis) Department of Speech Communication offers undergraduate programs leading to BA or BS degrees, with concentrations in communication or theater art. Additionally, students at OSU can complete a minor either in communication or theater arts, as well as one in the multimedia minors. At the graduate level they participate in the Master of Arts in Interdisciplinary Studies program. The University of Oregon's School of Journalism and Communication offers majors in six areas: advertising, electronic media, communication studies, magazine journalism, news-editorial or public relations.

Southern Oregon University's Department of Communication provides students the opportunity to develop verbal and nonverbal communication knowledge and skills through exploration of human communication, mass media studies and journalism. In addition to these three degree programs, the department offers four minor options to support a variety of goals: human communication, journalism, media studies and public relations.

Western Oregon University's Speech Communication Department offers a 57-hour major and a 27-hour minor in speech communication. In the liberal arts tradition, their program emphasizes classic texts of rhetoric, modern communication theory, and the latest developments in mass media and communication technology.

STRUCTURAL FIRE SCIENCE

Associate of Applied Science (AAS) Degree
95-96 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Structural Fire Science

PROGRAM DESCRIPTION

The AAS degree in Structural Fire Science is designed for students seeking a career in the fire service industry or upgrading their skills for current fire service employment. The program meets or exceeds the required technical skills and knowledge necessary for employment in many fire service organizations throughout the country.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- CPR for Healthcare Provider card \$55, must remain current throughout Basic and Paramedic classes
- Background check \$55. This will be required prior to Basic and Paramedic classes
- EMT 151 Basic Part A: program uniform shirt, \$25; FISDAP account, \$30; lab equipment, \$27.50; badges, \$5
- EMT 152 Basic Part B: lab equipment, \$27.50
- Fee for State Certification Testing and National Registry Test (currently \$170-\$250)
- Materials (boots, ear protection, gloves, etc.), \$200-\$350
- In some cases fees associated with immunizations can range from \$20-\$200
- Other special equipment and clothing may be required as part of this program.

ADVISING NOTES

The program requires hands-on training in fire and emergency medical skills and significant on-the-job training (OJT) by joining a fire agency. Most local fire agencies have student and volunteer positions. Students must apply and compete for these positions. Passing a physical training exam is required. Students are required to work with and around mechanical equipment, ropes, fire pumps, fire hose and appliances, ladders, various apparatus, and hand tools (both manual and powered). Students will need to be aware of the College insurance policy prior to participation in the program. A statement concerning College insurance policies is listed on all SFS degree syllabi. Students desiring to complete a degree in EMS and a degree in Structural Fire Science must follow a specific course of study. Please see the program director for information.

PROGRAM PREPARATION AND PREREQUISITES

Recommended prior to entry into Structural Fire program-specific courses:

- High school diploma or GED
- Students must be 18 or older for state and national testing for EMT-B and for affiliation with a fire agency. Students do NOT need to be 18 to begin taking SFS courses.
- Documentation of completion of the following immunizations Hepatitis B, current TB, MMR, annual Influenza, Tetanus within previous 10 years, Varicella (Chickenpox).

All COCC students enrolled in EMT-B and seeking agency affiliation or any course requiring practical experience, will have to pass a Criminal History Check (CHC) as a condition of their acceptance into a medical, fire or other facility for training. Students who do not pass the CHC may not be eligible to complete training at affiliated sites, to sit for licensure or certification exams, or to be hired for some professional positions. Students who believe their personal history may interfere with their ability to complete the program of study or to obtain licensure or certification in their chosen field should contact the appropriate state board or the program director.

MINIMUM GPA OR GRADE REQUIREMENTS

All courses listed in the degree requirements must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Most Structural Fire Science program-specific courses begin once per year in fall term; there are a few entry-level courses offered several times per year and non-program support courses can begin in a term other than fall or if students need to build skills related to the prerequisites. As a general rule, 100-level courses are recommended for first year, and 200-level recommended for second year. Exceptions can be made based on individual student education and experience.

PROGRAM STANDARDS

Students must maintain a minimum 2.0 GPA while enrolled in the program and if affiliated and receiving a scholarship will be held to a higher GPA standard; students who do not meet this standard may be dismissed from the program. Students may also be dismissed if the student has violated a criminal or ethical standard.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

The Structural Fire Science program is accredited by the Department of Public Safety Standards and Training (DPSST) and is an approved National Fire Academy (NFA) Fire and Emergency Services Higher Education (FESHE) college.

Prior to taking the EMT-Basic exam, students must answer background information questions concerning felony convictions, any regulatory discipline, ethical violations and mental competence. For more information, contact the EMS director, 541-383-7751.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions. Currently, the COCC Structural Fire Science program has articulation agreements with Eastern Oregon University. For more information on these bachelor degree programs, please contact the Fire Programs director at 541-383-7751.

PROGRAM COURSE REQUIREMENTS

Foundational requirements

Communication

WR 121	English Composition	4
WR 227	Technical Writing	4

Computation

MTH 065	or higher ¹	4
---------	------------------------	---

Program requirements

EMT 151	Emergency Medical Technician-Part A	5
EMT 152	Emergency Medical Technician-Part B	5
SFS 101	Introduction to Emergency Services	3
or EMT 175	Introduction to Emergency Services	
SFS 230	Rescue Practices	3
SFS 102	Firefighter Safety and Survival	3
SFS 105	Fire Behavior and Combustion I	3
SFS 110	Building Construction for Fire	3
SFS 112	Public Education and Fire Prevention	3
SFS 120	Fixed Systems & Extinguisher	3
SFS 205	Fire Behavior and Combustion II	3
SFS 210	Fire Investigation	3
SFS 212	Fire Codes and Ordinances	3

SFS 233	Fire Entry Exams	3

STRUCTURAL FIRE SCIENCE

Associate of Applied Science (AAS) Degree *(continued)*
95-96 credits

Other required courses

Health and Human Performance course ²	3
HHP activity course	1
GS 105 Chemistry	4
GS 104 Physics	4
FOR 211 Supervision & Leadership or BA 285 Business Human Relations	3
SP111 Fundamentals of Speech or Higher	3

Approved Human Relations course 3-4
ANTH 103, PSY 101, PSY 201, PSY 216, SOC 201, SOC 206
And select one course from the Human Relations list on page 45.

ELECTIVES

Students are required to choose nine credits from the SFS technical elective list:

AH 111 Medical Terminology	3
EMT 170 Emergency Response Comm./Documentation	2
EMT 171 Emergency Response and Patient Transport	2
EMT 195 Crisis Intervention	3
FOR 130 Chainsaw Use & Maintenance	2
SFS 121 Fire Law	1
SFS 122 Fire Department Budgets	1
WF 100 Incident Command Systems	3
WF 101 Introduction to Fire Behavior and Training	3
WF 201 NFPA Instructor I	3

FOOTNOTES

¹ Students planning to transfer to an institution offering a four-year degree should take MTH 105 or higher.

² Students can choose between HHP 295, HHP 242 or HHP 266.

The following are required for graduation in the SFS program and are only obtainable through affiliation in a fire agency:

- NFPA Firefighter I
- NFPA Hazmat Awareness & Operations
- I-200 FEMA or NWCG certified course

Upon Completion of EMT 151 and EMT 152, student must pass the national Registry written and Oregon Practical exams. Currently certified students do not need to retake the courses for the degree. Students must hold a current EMT or higher Oregon certification for graduation with an SFS degree.

VETERINARY TECHNICIAN

Associate of Applied Science
105 credits

PROGRAM DESCRIPTION

Veterinary technicians are professionals who typically conduct clinical work under the supervision of licensed veterinarians, but may also work in research, laboratory animal medicine, pharmaceutical or veterinary supply sales, and other zoological medicine, practice management, education, non-profit and shelter medicine scientists and more. Duties may include animal restraint, medication administration, anesthesia induction, monitoring and recovery, performing laboratory tests, cleaning teeth, dental prophylaxis, taking X-rays, preparing an animal for surgery, assisting the veterinary doctor in surgery and client communication.

The COCC Associate of Applied Science degree in Veterinary Technician is a two-year program which will prepare students to take the National Veterinary Technician Examination (VTNE) to become a Certified Veterinary Technician (CVT). After January 1, 2013, "on the job" training experience (grandfathering) will no longer qualify an applicant to sit for the VTNE. Only students who graduate from an AVMA accredited program will be able to take the exam and become certified in this state. COCC will apply for, and make every effort to be granted, AVMA accreditation.

The Veterinary Technician program includes instruction in animal nursing and husbandry, animal health and nutrition, animal handling, clinical pathology, parasitology, hematology, microbiology, radiology, anesthesiology, dental prophylaxis, surgical assisting, office administration, records management and includes internships designed to give students practical "hands-on" experience in honing the skills learned in the classroom.

Veterinary technicians and technologists held about 79,600 jobs in 2008, with about 91 percent working in veterinary services. Employment of veterinary technicians is expected to grow 36 percent over the ten-year period 2008-2018 with employment growing much faster than the average for all occupations.

PROGRAM PREPARATION AND PREREQUISITES

Prior to enrolling, students must have completed the first four classes listed below. It is highly recommended to complete the last two classes prior to enrolling as well.

Students must also possess a high school diploma or GED equivalency and complete 40 hours of observation in a veterinary clinical setting.

Veterinary Technician program prerequisites

(from AVMA Accreditation Standards) 22 credits of:

MTH 60	Applied Mathematics	4
or higher		
BI 101 or BI 211	Biological Science	4
WR 121	English Composition	4
GS 105	Physical Science: Chemistry	4
or CH 104	Introduction to Chemistry I	5
SP 218 ¹	Interpersonal Communication	3

Health¹	(Three credits with HHP prefix)	3
Identical HHP activity courses (one credit) can only be counted once in this section.		
40 hours of observation in a veterinary clinic		

FOOTNOTE

¹ May be taken while in program

REGISTRATION INFORMATION

The Veterinary Technician program does not have a selective admissions process. However, students wishing to register in the VT cohort must have completed the prerequisite courses and observation hours. Once completed, students may register in the program according to seat availability on a first-come, first-served basis as determined by the priority registration schedule. Students may view the priority registration schedule at www.cocc.edu/Registration-Home.aspx.

PROGRAM STANDARDS

Students must enroll full time in all courses listed for each term. In order to progress to the next term, students must pass all previous coursework with a grade of "C" or better. All Veterinary Technician coursework must be successfully completed prior to entering the Clinical Practicum course.

TRANSFER INFORMATION

This program is intended for students seeking employment as veterinary technicians. These courses are not intended as preparation for a doctor of veterinary medicine degree (see page 148 for Pre-Vet program). Some courses may transfer to other veterinary technician programs. Please contact your transfer institution for more information.

PROGRAM FEES

In addition to standard tuition, student fees and textbooks, students should anticipate additional program costs.

Costs will include:

Immunization for Tetanus and Rabies	\$100-\$786
Background check	\$55
Scrubs x 2	\$60
Lab jacket	\$21
Coveralls	\$35
Farm Boots-rubber	\$25
Stethoscope	\$20
Thermometer	\$5
Bandage Scissors	\$6-\$40
Watch with second hand, water resistant	\$25

TWO-YEAR COURSE SCHEDULE

(students must enroll in all courses each term)

First term

VT 101	Introduction to Veterinary Tech	4
VT 105	Animal Anatomy and Physiology I	4
VT 103	Animal Hospital and Office Procedures	4
VT 102	Veterinary Terminology	3

Second term

VT 108	Animal Nursing I	4
VT 106	Animal Anatomy and Physiology II	4
VT 104	Animal Diseases	4
VT 110	Clinical Pathology I	4

Third term

VT 109	Animal Nursing II	4
VT 107	Animal Anatomy and Physiology III	4
VT 115	Pharmacology I	3
VT 111	Clinical Pathology II	4

Fourth term

VT 210	Animal Nursing III	4
VT 212	Clinical Pathology III	4
VT 205	Pharmacology II	3
VT 201	Anesthesiology and Surgery	4

Fifth term

VT 211	Animal Nursing IV	4
VT 202	Veterinary Special Procedures	4
VT 204	Veterinary Radiology	4

Sixth term

VT 280	Clinical/practicums (300 hours onsite at veterinary practices)	10
VTNE Review and Preparation		

WILDLAND FIRE/FUELS MANAGEMENT-FIREFIGHTER TYPE II CERTIFICATE

Short-term Certificate
13 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Short-term Certificate of Completion, Wildland Firefighter Type II

PROGRAM DESCRIPTION

The certificate is designed to provide basic skills for students interested in working in the wildland fire profession. Courses are open to all students and the certificate takes one term/quarter (winter) to complete for students attending full time.

The Wildland Fire program also offers more extensive training with a Certificate of Completion in Wildland Fire Suppression (page 157) as well as an Associate of Applied Science (AAS) degree in Wildland Fire/Fuels Management (page 158).

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs: Hard hat, gloves, 12" leather boots with Vibram soles, fire clothes, ear protection, eye protection: \$250 - \$500. (Some fire clothes may be provided by the college, check with the program director. Boots will NOT be provided.)

PROGRAM PREPARATION AND PREREQUISITES

High school diploma or GED is recommended

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Program courses begin in winter term.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

For all Suppression short courses (S-courses), students will be given National Wildfire Coordinating Group (NWCG) certification. Minimum qualifications for entry into the occupation is Firefighter Type II (FFT2) which is offered winter term for the less-than-one-year Firefighter Type II certificate.

Students will need to be physically fit for employment in the occupation of wildland firefighter. For an FFT2 position, students are required to pass the arduous "pack test" (three miles in 45 minutes carrying 45 pounds).

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

FOR 100	Forestry Program Orientation	1
FOR 111	Forestry Perspectives	4
WF 100	Incident Command Systems	3
WF 101	Introduction to Fire Behavior and Firefighter Training	3
WF 134 S-134	Lookouts, Communication, Escape Routes, Safety Zones	2

WILDLAND FIRE/FUELS MANAGEMENT-WILDLAND FIRE SUPPRESSION

Certificate of Completion
47 credits

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Wildland Fire Suppression

PROGRAM DESCRIPTION

The certificate of completion is designed to provide basic skills for students interested in working in the wildland fire profession. Courses are open to all students and the certificate takes three terms/quarters to complete for students attending full time.

The Wildland Fire program also offers more extensive training with an Associate of Applied Science (AAS) degree in Wildland Fire/Fuels Management (page 158).

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Hard hat, gloves, 12" leather boots with Vibram soles, fire clothes, ear protection, eye protection: \$250-\$500. (Some fire clothes may be provided by the College, check with the program director. Boots will NOT be provided.)

PROGRAM PREPARATION AND PREREQUISITES

- High school diploma or GED is recommended
- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 with a grade "C" or better.
- Minimum placement scores resulting in MTH 60/85 placement or completion of MTH 20 with a grade "C" or better.

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Program courses begin once per year in fall term. Students can take non-program support courses if they begin in a term other than fall or if they need to build skills related to the prerequisites.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

- For all Suppression short courses (S-courses), students will be given National Wildfire Coordinating Group (NWCG) certification.
- Minimum qualifications for entry into the occupation is Firefighter Type II (FFT2) which is offered winter term for the less-than-one-year Firefighter Type II certificate.
- Students will need to be physically fit for employment in the occupation of wildland firefighter. For an FFT2 position, students will be required to pass the arduous "pack test" (three miles in 45 minutes carrying 45 pounds).

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM REQUIREMENTS

BA 101	Intro to Business	4
FOR 100	Forestry Program Orientation	1
FOR 110	Wildland Fire Science I	3
FOR 111	Forestry Perspectives	4
FOR 130	Chainsaw Use and Maintenance	2
FOR 230A	Maps, Compass and GPS	3
HHP 252A	Fitness/First Aid	3
WF 100	Incident Command Systems	3
WF 101	Introduction to Fire Behavior and Firefighter Training	3
WF 134 S-134	Lookouts, Communication, Escape Routes, Safety Zones	2
WF 211 S-211	Portable Pumps	2
WF 270 S-270	Basic Air Operations	2
WF 281 L-280	Followership/Leadership	2
WF 290 S-290	Intermediate Wildfire Behavior	3

ADVISING NOTES

Because the short courses are sponsored by the East Slope Training region, the short courses (S-courses) are available to students in the following order:

1. Sponsored government and state employees, including structure fire agencies, from within the East Slope Training area;
2. Sponsored government and state employees, including structure fire agencies, from outside the East Slope Training area; and
3. Full-time COCC students/part-time COCC students/private contractors (in that order) who meet the qualifications of the course. Students must provide a copy of training records to the program director.

WILDLAND FIRE/FUELS MANAGEMENT

Associate of Applied Science (AAS) Degree
102-106 credits

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Wildland Fire/Fuels Management

PROGRAM DESCRIPTION

The degree is designed to update the skills of fire/fuels employees. It is a supplementary degree for current employees of wildland fire suppression organizations only. New students interested in earning an AAS degree are encouraged to pursue the AAS in Forest Resources or talk with the Wildland Fire director about other options.

COST OF PROGRAM

In addition to standard tuition, student fees and textbooks, students should anticipate the following estimated program costs:

- Hard hat, gloves, 12" leather boots with Vibram soles, fire clothes, ear protection, eye protection: \$250-\$500. (Some fire clothes may be provided by the College, check with the program director. Boots will NOT be provided.)

PROGRAM PREPARATION AND PREREQUISITES

High school diploma or GED is recommended

- Minimum placement scores resulting in WR 121 placement or completion of WR 65/75/95 with a grade "C" or better.
- Minimum placement scores resulting in MTH 60/85 placement or completion of MTH 20 with a grade "C" or better.
- Current employment with a wildland fire suppression organization.

MINIMUM GPA OR GRADE REQUIREMENTS

All required courses must be completed at a "C" grade or better and graduates must have an overall 2.0 GPA or higher.

REGISTRATION INFORMATION

Program courses begin once per year in fall term. Students can take non-program support courses if they begin in a term other than fall or if they need to build skills related to the prerequisites.

Please note that first year and second year core courses if not taken in consecutive years, may overlap on time. Please check with your advisor and the current schedule.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

- All Suppression short courses (S-courses), students will be given National Wildfire Coordinating Group (NWCG) certification.
- Minimum qualifications for entry into the occupation is Firefighter Type II (FFT2) which is offered winter term for the less-than-one-year Firefighter Type II certificate.
- Students will need to be physically fit for employment in the occupation of Wildland Firefighter. For an FFT2 position, students will be required to pass the arduous "pack test" (three miles in 45 minutes carrying 45 pounds).

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

HHP 252A	Fitness/First Aid	3
SP 111	Public Speaking	3
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	
Computer Competency		
or CIS 120	Computer Concepts	0-4
Discipline Studies courses (see pages 44-45)		9

Other program requirements

A minimum of 60 days fire-related work experience approved by the Wildland Fire Science director is required for graduation.

ELECTIVES

Students can choose three credits of Wildland Fire open electives (any course with a WF prefix) and four credits of Wildland Fire specific electives (see list below).

BA 101, FOR 130, FOR 208, FOR 240B, WF 134, FOR 100, FOR 126, FOR 220C, FW 218, FOR 111, FOR 127, FOR 230B, GEOG 211

ADVISING NOTES

Because the short courses are sponsored by the East Slope Training region, the short courses (S-courses) are available to students in the following order:

1. Sponsored government and state employees, including structure fire agencies, from within the East Slope Training area;
2. Sponsored government and state employees, including structure fire agencies, from outside the East Slope Training area; and
3. Full-time COCC students/part-time COCC students/private contractors (in that order) who meet the qualifications of the course. Students must provide a copy of training records to the program director.

INDUSTRIAL MECHANICS AND MAINTENANCE TECHNOLOGY APPRENTICESHIP-BOILER OPERATOR PATHWAY

Certificate of Completion - 16 credits

Apprenticeship is a structured training program combining on-the-job training and classroom coursework. COCC contracts with trade specific committees to provide classroom coursework for the trade listed above. For information on how to become an apprentice in these trades, contact Lou Long at 541-279-1543. Some of these programs are only open to employees of training agents registered with the local apprenticeship committee. For information about other Apprenticeship programs and jobs, phone the Bureau of Labor and Industries/Apprenticeship & Training at 971-673-0760 or visit its website at www.boli.state.or.us.

Registered apprentice training at COCC is offered in accordance with Oregon Law and Plan of Apprenticeship and Training, U.S. Department of Labor and Oregon State Apprenticeship Council.

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Boiler Operator

PROGRAM DESCRIPTION

The Boiler Operator Apprenticeship program prepares apprentices to run automatically fired boilers generating steam for buildings or industrial plants. The work includes feeding fuel into furnaces or boilers, observing pressure, temperature and draft meters on panels to verify specified boiler fuel feed, draft openings, water level and steam pressure. A person in this position will also maintain meter logs, read gauges and record data.

These workers maintain and repair stationary steam boilers and boiler house auxiliaries, using hand tools and portable power tools. They clean or direct other workers to clean boilers and auxiliary equipment, using rakes, breaker bars, scrapers, wire brushes and cleaning solvent. In addition, they inspect and repair boiler fittings, such as safety valves, regulators and plates. Boiler repairers may remove and replace defective firebrick.

Work is often in close and confined spaces and often requires the use of potentially dangerous equipment such as torches and power grinders. The work is physically demanding and dirty.

COST OF PROGRAM

Standard tuition, student fees, textbooks and any cost related to becoming a journeyman in the state of Oregon.

PROGRAM PREPARATION AND PREREQUISITES

To enroll in this program students must be an employee of a training agent registered with the local apprenticeship committee and accepted into the state-approved apprenticeship program.

MINIMUM GPA OR GRADE REQUIREMENTS

To earn a certificate, students must complete the following coursework with a grade of "C" or better.

REGISTRATION INFORMATION

This program is only open to employees of training agents registered with the local apprenticeship committee who have been accepted into the state-approved apprenticeship program. All new students to COCC are required to submit a \$25 nonrefundable application fee at the time of application. Applications will not be processed without this fee.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

At this time, no state licensing exam is required for boiler operator in the state of Oregon.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

COST OF PROGRAM

Standard tuition, student fees, textbooks and any cost related to becoming a journeyperson in the state of Oregon.

PROGRAM PREPARATION AND PREREQUISITES

To enroll in this program students must be an employee of a training agent registered with the local apprenticeship committee and be accepted into the state-approved apprenticeship program or be a journeyperson in the field. Journeypersons who have completed their related training in a registered Oregon apprenticeship program outside of COCC may earn an AAS degree from COCC in this career pathway by submitting a college transcript or course syllabi for credit evaluation. To earn a degree under this pathway, a student must have 57 credits of trade-specific related training, complete all required general education classes and obtain 11 credits for on-the-job training, awarded after presenting a journeyperson's card, and all other degree requirements have been met. Twenty-four of the general education or related training coursework credits must be completed at COCC.

MINIMUM GPA OR GRADE REQUIREMENTS

Graduates must complete the following coursework with a grade of "C" or better and have a valid journeyperson's card.

REGISTRATION INFORMATION

To earn an AAS degree in this field a student must have completed or be concurrently enrolled in the related training courses required for this trade. This program is only open to journeypersons in the field or current employees of training agents registered with the local apprenticeship committee who have been accepted into the state-approved apprenticeship program. All new students to COCC are required to

submit a \$25 nonrefundable application fee at the time of application. Applications will not be processed without this fee.

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Boiler/Turbine Operator

PROGRAM DESCRIPTION

The Boiler/Turbine Operator Apprenticeship program prepares apprentices to run and control steam-driven turbo generators in electric power generating stations. The work includes starting turbines, turbine auxiliaries and boiler auxiliary units, adjusting throttle and vacuum-breaker valves to regulate turbine speeds, monitoring panel boards to control turbine operations and stopping turbines when malfunctions occur. Workers record instrument readings at specified intervals and may perform minor maintenance of equipment.

In addition, boiler/turbine operators run automatically fired boilers to generate steam for buildings or industrial plants. The work includes feeding fuel into furnaces or boilers, observing pressure, temperature and draft meters on panels to verify specified boiler fuel feed, draft openings, water level and steam pressure. A person in this position will also maintain meter logs, read gauges and record data.

These workers maintain and repair turbines, turbine auxiliaries, stationary steam boilers and boiler house auxiliaries, using hand tools and portable power tools. They clean or direct other workers to clean boilers and auxiliary equipment, using rakes, breaker bars, scrapers, wire brushes and cleaning solvent. In addition, they inspect and repair boiler fittings, such as safety valves, regulators and plates. Boiler repairers may remove and replace defective firebrick.

Work is typically performed indoors in an industrial setting.

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Limited Maintenance Electrician

PROGRAM DESCRIPTION

The Limited Maintenance Electrician Apprenticeship program trains apprentices to maintain, repair and replace electrical installations on the premises of industrial plants where the individual is employed, or on electrical systems that are less than 600 volts phase to phase on the premises of commercial office buildings or buildings occupied by the state or a local government entity where the individual is employed.

This work can be dirty and strenuous, with considerable standing, bending and reaching. Tools used include electrical metering devices, cable pulling devices, electrical hand tools, soldering tools, hammers, drills and side cutters. Hazards include electric shock, burns, falls and falling objects.

COST OF PROGRAM

Standard tuition, student fees, textbooks and any cost related to becoming a licensed journeyman in the State of Oregon.

PROGRAM PREPARATION AND PREREQUISITES

To enroll in this program students must be an employee of a training agent registered with the local apprenticeship committee and be accepted into the state-approved apprenticeship program.

MINIMUM GPA OR GRADE REQUIREMENTS

Graduates must complete the following coursework with a grade of "C" or better.

REGISTRATION INFORMATION

This program is only open to employees of training agents registered with the local apprenticeship committee who have been accepted into the state approved apprenticeship program. PROGRAM PREPARATION AND PREREQUISITES

To enroll in this program students must be an employee of a training agent registered with the local apprenticeship committee and be accepted into the state-approved apprenticeship program or be a journeyman in the field. Journeymen who have completed their related training in a registered Oregon apprenticeship program outside of COCC may earn an AAS degree from COCC in this career pathway by submitting a college transcript or course syllabi for credit evaluation. To earn a degree under this pathway, a student must have 57 credits of trade-specific related training, complete all required general education classes and obtain 11 credits for on-the-job training, awarded after presenting a journeyman's card and all other degree requirements have been met. Twenty-four of the general education or related training coursework credits must be completed at COCC.

MINIMUM GPA OR GRADE REQUIREMENTS

Graduates must complete the following coursework with a grade of "C" or better and have a valid journeyman's card.

REGISTRATION INFORMATION

To earn an AAS degree in this field a student must have completed or be concurrently enrolled in the related training courses required for this trade. This program is only open to journeymen in the field or current employees of training agents registered with the local apprenticeship committee who have been accepted into the state-approved apprenticeship program. All new students to COCC are required to submit a \$25 nonrefundable application fee at the time of application. Applications will not be processed without this fee.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

Journey-level limited maintenance electricians must qualify for a state license by passing an exam given by the Oregon Building Codes Division.

TRANSFER INFORMATION

This degree is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

PROGRAM COURSE REQUIREMENTS

Limited maintenance electrician related training

APR 101	Electrical/Manufacturing Plant 1 Basic Electrical Theory	4
APR 102	Electrical/Manufacturing Plant 2 Basic Wiring	4
APR 103	Electrical/Manufacturing – Industrial Wiring	4
APR 104	Electrical/Manufacturing Plant 4 Commercial Wiring	4

Industry electives to bring trade-specific training to 57 credits

ELECTRICIAN APPRENTICESHIP TECHNOLOGIES-MANUFACTURING PLANT ELECTRICIAN PATHWAY

Certificate of Completion - 43 credits

Apprenticeship is a structured training program combining on-the-job training and classroom coursework. COCC contracts with trade specific committees to provide classroom coursework for the trade listed above. For information on how to become an apprentice in these trades, contact Lou Long at 541-279-1543. Some of these programs are only open to employees of training agents registered with the local apprenticeship committee. For information about other Apprenticeship programs and jobs, phone the Bureau of Labor and Industries/Apprenticeship & Training at 971-673-0760 or visit its website at www.boli.state.or.us.

Registered apprentice training at COCC is offered in accordance with Oregon Law and Plan of Apprenticeship and Training, U.S. Department of Labor and Oregon State Apprenticeship Council.

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Manufacturing Plant Electrician

PROGRAM DESCRIPTION

The Manufacturing Plant Electrician Apprenticeship program prepares apprentices to provide basic electrical maintenance on existing equipment in factories and industrial manufacturing facilities. In addition, they learn how to install and wire electric motors and machinery of all sizes, perform preventive maintenance on production and facilities equipment, initiate and modify electrical designs, and update electrical drawings.

The work is done primarily indoors, but often requires climbing, working on ladders, and operating mechanical lifts. Hazards include electrical shocks and burns.

COST OF PROGRAM

Standard tuition, student fees, textbooks and any cost related to becoming a licensed journey person in the State of Oregon.

PROGRAM PREPARATION AND PREREQUISITES

To enroll in this program students must be an employee of a training agent registered with the local apprenticeship committee and be accepted into the state-approved apprenticeship program.

MINIMUM GPA OR GRADE REQUIREMENTS

To earn a certificate, students must complete the following coursework with a grade of "C" or better.

REGISTRATION INFORMATION

This program is only open to employees of training agents registered with the local apprenticeship committee who have been accepted into the state-approved apprenticeship program. All new students to COCC are required to submit a \$25 nonrefundable application fee at the time of application. Applications will not be processed without this fee.

NATIONAL/STATE LEGAL ELIGIBILITY OR UNIQUE REQUIREMENTS FOR LICENSURE AND/OR ENTRY INTO OCCUPATION, OR ADVANCEMENT IN THE OCCUPATION

Journey-level manufacturing plant electricians are required to obtain a state license by passing an exam given by the Oregon Building Codes Division.

TRANSFER INFORMATION

This certificate is designed for students planning to enter their chosen career upon graduation. Often only selected credits are considered transferrable to public or private baccalaureate institutions.

Registered apprentice training at COCC is offered in accordance with Oregon Law and Plan of Apprenticeship and Training, U.S. Department of Labor and Oregon State Apprenticeship Council.

DEGREE AS AWARDED ON TRANSCRIPT

Associate of Applied Science, Manufacturing Plant Electrician

PROGRAM DESCRIPTION

Earning an AAS degree in Electrician Apprenticeship Technologies takes an apprentice above and beyond the standard related training classes that are required to become a journey person in this field, giving the student a more well rounded education in the trades with greater opportunity for advancement to a supervisory position.

The Manufacturing Plant Electrician Apprenticeship program prepares apprentices to provide basic electrical maintenance on existing equipment in factories and industrial manufacturing facilities. In addition, they learn how to install and wire electric motors and machinery of all sizes, perform preventive maintenance on production and facilities equipment, initiate and modify electrical designs, and update electrical drawings.

The work is done primarily indoors, but often requires climbing, working on ladders, and operating mechanical lifts. Hazards include electrical shocks and burns.

COST OF PROGRAM

Standard tuition, student fees, textbooks and any cost related to becoming a licensed journey person in the State of Oregon.

PROGRAM PREPARATION AND PREREQUISITES

To enroll in this program students must be an employee of a training agent registered with the local apprenticeship committee and be accepted into the state-approved apprenticeship program or be a journey person in the field. Journey persons who have completed their related training in a registered Oregon apprenticeship program outside of COCC may earn an AAS degree from COCC in this career pathway by submitting a college transcript or course syllabi for credit evaluation. To earn a degree under this pathway, a student must have 46 credits of trade-specific related training, complete all required general education classes and obtain 22 credits for on-the-job training, awarded after presenting a journey person's card and all other degree requirements have been met. Twenty-four of the general education or related training coursework credits must be completed at COCC.

MINIMUM GPA OR GRADE REQUIREMENTS

Graduates must complete the following coursework with a grade of "C" or better and have a valid journey person's card.

REGISTRATION INFORMATION

To earn an AAS degree in this field a student must have completed or be concurrently enrolled in the related training courses required for this trade. This program is only open to journey persons in the field or current employees of training agents registered with the local apprenticeship committee who have been accepted into the state-approved apprenticeship program. All new students to COCC are required to submit a \$25 nonrefundable application fee at the time of application. Applications will not be processed without this fee.

CERTIFICATE AS AWARDED ON TRANSCRIPT

Certificate of Completion, Sheet Metal

PROGRAM DESCRIPTION

The Sheet Metal Apprenticeship program prepares apprentices to fabricate and install fittings and duct work used in construction or industry for heating, ventilation and air conditioning systems in residential, commercial and industrial applications. They also learn to set up and operate shears, hand brakes, bending rolls, welding machines and other equipment to cut, form and attach metal together for applications such as metal roofing and stainless steel work for restaurants, kitchens and hospitals. Apprentices learn to prepare shop and field drawings manually and with computer programs. Computer skills are becoming increasingly important for controlling industrial equipment.

The work is performed both indoors and out, using scaffolding, ladders and high lifts, and in awkward positions and cramped spaces. Sheet metal workers may work in shops performing fabrication work or on construction sites, doing installation.

COST OF PROGRAM

Standard tuition, student fees, textbooks and any cost related to becoming a journeyperson in the State of Oregon.

PROGRAM PREPARATION AND PREREQUISITES

To enroll in this program students must be an employee of a training agent registered with the local apprenticeship committee and be accepted into the state-approved apprenticeship program.

MILITARY SCIENCE

The Military Science program, in conjunction with Oregon State University ROTC, offers the best leadership program in America. This program of study is open to all students and is designed to give students instruction and experience in the art of organizing, motivating and leading others. The program focuses on leadership, goal setting and implementation, planning and plans execution. Classroom and practical exercises are designed to challenge students in all aspects. Study and classroom materials are provided for most classes. The ROTC program provides college-trained officers for the Army, Army Reserves and Army National Guard.

The Army ROTC program is divided into two phases which can be attained through coursework at COCC and OSU-Cascades (the Basic course and the Advanced course).

The Basic course takes place during the students' first two years in college, as elective courses. Students will learn basic military skills and the fundamentals of leadership, and will start the groundwork toward becoming an Army leader. Students can take Army ROTC Basic courses without a military commitment.

The Advanced course takes place during the students' last two years in college, as elective courses. It includes one class and lab each semester in addition to the requisite physical training and field-training exercises, plus a summer leadership camp. Students will learn advanced military tactics and gain experience in team organization, planning and decision making. To benefit from the leadership training in the Advanced course, all cadets must have completed either the Basic course, Basic Training, or have attended the Leader's Training Course. Entering the Advanced course requires a commitment to serve as an officer in the U.S. Army after a student graduates.

The Military Science program curriculum is designed to meet the Basic course requirements to ROTC. Students completing the Basic course requirements and earning two years of college credit toward a four-year degree (180 credit hours) can move on to the Advanced Course. Upon graduation with a bachelor's degree from an approved four-year college, students can compete to earn a commission as an Army officer. Merit scholarship opportunities exist for students in any approved academic discipline. It is required that students pursuing this program of study, work with a Military Science program advisor. For more information, contact the Reserve Officer Training Corps office at 541-318-3774.

TOTAL: 80 CREDITS AT OR ABOVE THE 100-LEVEL COURSES

OREGON GREEN TECHNOLOGY

Program availability is dependent on state-level provision for the 2013-2014 academic year.

Certificate¹ - 45 credits

The Oregon Green Technology certificate will prepare entry-level employees with the foundation skills needed in a variety of industries that are associated with or support green jobs. While it may ultimately be adopted statewide, the Oregon Green Tech certificate is being designed to meet the unique needs of rural Oregon, where companies tend to be smaller, many occupations may have only one or two local job openings, and employers need workers who have basic technical skills that can transfer to different kinds of work and work settings as employer requirements and labor market demands shift. Please contact Jackie Grenz, at the Oregon Consortium, 541-928-0241, ext. 214, or at Jackie.g@tocowa.org, to determine whether you are eligible to enroll in this program.

Individuals who complete the one-year Oregon Green Technology certificate will:

- be multi-skilled, systems thinkers and problem solvers.
- be prepared for a broad array of green occupations across a variety of diverse industries, such as green energies production, equipment manufacturing (such as solar panel, wind turbine, wave energy, bio-energy component), construction and installation, monitoring and repair, building retro-fitting, process recycling, hazardous materials removal work and others.
- have a fundamental understanding of sustainability, green technologies, process improvements/elimination of waste, and an overview of various careers in green technology.
- be able to demonstrate the applied reading and workplace math skills needed on the job, as well as the workplace skills employers need: critical thinking, problem solving, team work, etc.
- possess a unique set of entry-level electrical, mechanical, and heating/cooling systems skills—as taught through the lens of green energy and energy efficiency—that will allow graduates to learn quickly on the job and be prepared for success in advanced programs of study.

Training will be provided by 10 Oregon community colleges located in rural Oregon through a combination of online instruction, hands-on labs and, in some areas, work experience in the field. The core content will be 45 credits, depending on the level of general education courses offered and the number of specialty electives a student may take.

First term

GT 101	Introduction to Industrial Sustainability	3
GT 102	Green Industrial Safety	2
GT 103	Mechanical Systems	3
GT 104	Electrical Systems Troubleshooting I	3
GT 105	Applied/Workplace Math	4
or MTH 085	Technical Math I	
WR 095	Basic Writing II (or higher)	3

Second term

GT 106	Introduction to Green Technologies	2
GT 107	Electrical Systems Troubleshooting II	3
GT 108	Building Systems	2
GT 109	HVACR Systems Operations	3
GT 110	Workplace Communication	3
or SP 111	Fundamentals of Public Speaking	
or SP 218	Interpersonal Communication	
or SP 219	Small Group Communication	

Third term

GT 111	Preventive Maintenance/Energy Conservation	2
GT 112	Control Systems	3
GT 113	Fluid Power	3
GT 114	Local Applications/Alternative Energy	3
GT 115	Human Relations/Customer Service	3-4

PRE-MEDICAL LAB TECHNOLOGY

Transfer Preparation
52-60 credits

Portland Community College (PCC) offers an Associate of Applied Science degree in Medical Laboratory Technology (MLT) via distance education. Students complete specific prerequisite courses at COCC and then apply to the PCC distance-learning MLT program. Acceptance into the program is on a limited basis, and is dependent on clinical space available. Additionally, continuation into the second year is contingent upon performance during the first year of the program. The medical laboratory technology courses are taught primarily online and the clinical practicum is completed at local area clinical laboratories in Central Oregon. Occasional day or weekend travel to Eugene or Portland is necessary for additional PCC-required laboratory activities. Please see an advisor for details.

PCC's Medical Laboratory Technology program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS).

REQUIRED PREREQUISITES

(All courses can be taken at COCC)

WR 65	Rhetoric and Critical Thinking II	0-4
or WR 75	Basic Writing I	
or WR 95	Basic Writing II	
or placement test score that places the student in WR 121		
MTH 95	Intermediate Algebra	0-4
or placement test score that places the student in MTH 95		
CH 104	Introduction to Chemistry I ¹	5
BI 101	General Biology I	4
or BI 102	General Biology II	
or BI 103	General Biology III	

Year One

(All courses can be taken at COCC except MLT 111, MLT 112 and MLT 213, which are taken online through PCC.)

Fall term

BI 121	Anatomy and Function I ²	4
or BI 231	Human Anatomy and Physiology I ²	
MLT 111	Medical Technology I (online)	4
WR 121	English Composition	4

Winter term

BI 122	Anatomy and Function II ²	4
or BI 232	Human Anatomy and Physiology II ²	
CH 105	Introduction to Chemistry II ¹	5
MLT 112	Medical Technology II (online)	4
General education elective		4

Spring term

BI 233	Human Anatomy and Physiology III ²	4
CH 106	Introduction to Chemistry III ¹	5
MLT 113	Introduction to Medical Microbiology (online)	4
General education elective		4

Year Two

Students who wish to continue should contact PCC and apply for acceptance to the second year of the Medical Laboratory Technology program. Once students are officially accepted into the PCC MLT program, they will enroll in all remaining courses through PCC. For details go to www.pcc.edu/Programs/Medical-Lab/.

Students are responsible for verifying all information directly with the transfer college, as changes in programs, procedures, requirements and application deadlines may change.

FOOTNOTES

¹ PCC will accept GS 105 to meet the 100-level chemistry requirement for admission. However, students are still required to complete CH 104, CH 105 and CH 106.

² PCC will accept BI 211, BI 212, BI 213 in lieu of Anatomy and Function and Anatomy and Physiology.

PRE-MEDICAL IMAGING TECHNOLOGY

Transfer Preparation 51-54 credits

PRE-RADIOLOGY TECHNOLOGIST

Transfer Preparation 39-53 credits

Central Oregon Community College provides the prerequisite courses for Oregon Institute of Technology's Bachelor of Science in Medical Imaging Technology degree. Students complete specific courses at COCC and then apply for admission into Oregon Institute of Technology's MIT program. Admission is highly competitive; see www.oit.edu/programs/mit/ for program details and admission process. Students spend the second and third years of the program at the Klamath Falls campus and the fourth year at a hospital site for externship.

PREREQUISITE COURSES

AH 111	Medical Terminology I	3
BI 231	Human Anatomy and Physiology I	4
BI 232	Human Anatomy and Physiology II	4
BI 233	Human Anatomy and Physiology III	4
CH 104	Introduction to Chemistry I	5
or CH 221	General Chemistry I	
MIT 103	(offered online via OIT, www.oit.edu/dist)	3
MTH 111	College Algebra	4
MTH 112	Trigonometry	4
PSY 201	Mind and Brain	4
or PSY 202	Mind and Society	
SP 111	Fundamentals of Public Speaking	3
WR 121	English Composition	4
WR 122	English Composition	4
Social science electives ¹		3-4
Arts and letters (OIT humanities) electives ¹		3-4

Students are responsible for verifying all information directly with the transfer college, as changes in programs, procedures, requirements and application deadlines may change.

FOOTNOTES

¹ These courses must be selected from OIT's list of approved courses. See advisor for recommendations.

Central Oregon Community College provides the prerequisite courses for Linn-Benton Community College's Associate of Applied Science degree in Diagnostic Imaging. Students complete specific courses at COCC and then apply for admission into LBCC's Diagnostic Imaging program. Course information below is based on the LBCC website and communications between COCC and the LBCC Diagnostic Imaging liaison. Admission is highly competitive and enrollment is limited to 2-4 students per year; see the link below for program details and admission process. The LBCC diagnostic imaging courses are taught online and the clinical component courses are taught by LBCC in various locations in Central Oregon.

Advising assistance is available for COCC students at the CAP Center. Call 541-383-7200 for information.

PREREQUISITE COURSES

AH 111	Medical Terminology I	3
BI 231	Human Anatomy and Physiology I ¹	4
BI 232	Human Anatomy and Physiology II ¹	4
BI 233	Human Anatomy and Physiology III ¹	4
Computer competency ²		0-4
Health course ³		3
MTH 111	College Algebra	4
SP 111	Fundamentals of Public Speaking	3
or SP 218	Interpersonal Communication	
WR 121	English Composition	4
Cultural diversity course ⁴		3-4
Science & Society course ⁵		

SUPPORT COURSES

CH 104	Introduction to Chemistry	5
or GS 105	Physical Science: Chemistry	
or CH 221	General Chemistry I	
BI 101	Introduction to Biology I	4
or BI 102	Introduction to Biology II	
or BI 103	Introduction to Biology III	
or BI 211	Principles of Biology I	
PH 201	General Physics	4
or PH 211	General Physics I	
or GS 104	Physical Science: Physics	
AH 112	Medical Terminology II	3

Students are responsible for verifying all information directly with the transfer college, as changes in programs, procedures, requirements and application deadlines may change.

FOOTNOTES

¹ BI 232 Human Anatomy and Physiology II and BI 233 Human Anatomy and Physiology III are not required to apply but are highly recommended.

² Pass computer basic skills competency test (see page 32 for details) or take CIS 120.

³ To meet this requirement, students can choose from HHP 231, HHP 242, HHP 258, HHP 266, HHP 295 or HHP 252A. LBCC highly encourages completion of HHP 295.

⁴ See Radiology Technologist Selection Process Handbook (www.cocc.edu/Allied-Health/Programs-and-Classes/) for a list of qualifying courses.

⁵ This requirement was under review at the time the COCC catalog was in production. Check with the LBCC Diagnostic Imaging program to determine if this is still a required course for the 2014 application.

COURSE DESCRIPTIONS

Central Oregon Community College has a diverse selection of transfer and Career and Technical Education (CTE) courses. Prerequisites are specified in many of the course descriptions. It is the student’s responsibility to meet the prerequisite conditions before enrolling in the course.

Not every class is offered every term. All of COCC’s current courses may not be included in this list because the College may add or subtract classes after the catalog is published. Consult the COCC credit class schedule online (www.cocc.edu) for information about where and when classes meet.

HOW TO READ A COURSE DESCRIPTION

COURSE LISTING

EXPLANATION

BI 212
BIOLOGY OF PLANTS II
 Surveys diversity of Monera, Protista, Fungi and plant kingdoms; examines living plants, their evolutionary interrelationships, morphology and physiology. Prerequisite: BI 211 or instructor’s permission.
Credits: 5 Lecture: 4 Lab: 3

Courses are grouped by area of study and listed alphabetically by letter prefix and course number. Courses numbered 100 and above are designed for transfer to other colleges for degree credit.

BIOLOGY OF PLANTS II. The **title of the course** is listed in all capital letters.

Surveys diversity of Monera, The **course description** briefly summarizes the course content.
 Protista, Fungi and plant

Prerequisites: BI 211. **Prerequisites**, if any, are listed by course number after the course description. It is important to note prerequisites prior to registering. A prerequisite is a course that should be completed with a “C” grade or higher prior to enrolling in the selected course. A **corequisite** is a course which should be completed prior to or while attending the selected course.

Credits: 5 Lecture: 4 Lab: 3. The number of hours per week in **lecture** and **labs** is noted, as is the number of **credits** earned by taking the course.

ADDICTIONS STUDIES/HUMAN SERVICES

HS 100

ORIENTATION TO HUMAN SERVICES

This is an introduction to the human services profession. The goal of this course is to help students evaluate their fit within the Addictions Studies/ Human Services field. Emphasis is on self-understanding and individual compatibility with human services occupations.

Credits: 1 Lecture: 1

HS 161

ETHICS FOR HUMAN SERVICES

Course is designed for those desiring employment in the helping fields. A professional can expect to encounter complexities in keeping the client's needs as the primary concern. Students will explore how to set and maintain professional boundaries. The course will relate abstract ethical principles to tangible examples and will offer a practical framework for analyzing ethical issues. Required prerequisites: WR 121 or WR 122 or WR 227, MTH 31 or higher, and HS 100. No placement score equivalent, must complete an actual course.

Credits: 4 Lecture: 4

HS 162

EFFECTIVE HELPING SKILLS I

Introductory course for people interested in pursuing a career in the helping professions or who may be working in a helping role now. Students practice basic interviewing skills, learn to create a helping climate, and organize and conduct an informational interview. Introduces students to basic interaction, referral, interviewing and listening skills. Required prerequisites: WR 121 or 122 or 227; MTH 31 or higher and HS 100. No placement score equivalent, must complete an actual course.

Credits: 4 Lecture: 4

HS 180

HIV/AIDS AND ADDICTIONS

Provides a thorough investigation of HIV/AIDS epidemic and expectations of professionals in dealing with it. Covers epidemiology, HIV/AIDS related policy, effects of chemical dependency and chemical use in promoting the spread of HIV infection, routes of exposure to the virus and the manner in which various populations are infected and treated. Guidelines and directives for counseling individuals who are HIV seropositive and those at high risk for HIV infection.

Credits: 2 Lecture: 2

HS 199

SELECTED TOPICS: HUMAN DEVELOPMENT

Credits: 1 to 4

HS 200

ADDICTIVE BEHAVIOR

Provides a broad overview of the field of addictions through a look at the issues and treatments involved. Includes history, prevention regarding alcohol, drugs, nicotine, eating disorders, depression, and relapse prevention. Recommended preparation or recommended to be taken with: WR 121.

Credits: 3 Lecture: 3

HS 201

FAMILIES AND ADDICTIONS

Designed for people who are training to become chemical dependency counselors or current counselors who are seeking to increase their knowledge base. Focuses on basic theory, technique and experience in doing family therapy with families of addicts. Primary models of family therapy used will be systemic and structural. Recommended preparation or recommended to be taken with: WR 121.

Credits: 3 Lecture: 3

HS 205

YOUTH AND ADDICTIONS

Provides a beginning knowledge of child/adolescent development and results in an understanding of the effects of substance abuse on that development. Covers the signs of substance abuse and addiction; describes assessment, treatment, and prevention philosophies, protocols and models; describes recovery and covers relapse prevention and the signs of relapse in young people. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

HS 206

GROUP COUNSELING SKILLS FOR HUMAN SERVICES

Provides strategies from accepted and culturally appropriate models for facilitating group counseling with clients with a variety of disorders including substance abuse. Focuses on the ethical use of groups as an effective therapeutic intervention. Addresses leadership behaviors, group formation, group stages; common and difficult therapeutic problems also addressed.

Credits: 4 Lecture: 4

HS 208

MULTICULTURAL ISSUES IN HUMAN SERVICES

Highlights the impacts of cultural differences on both client and human service provider. Examines the major categories of diversity, heritage, biases, and stereotypes and how these might impact client treatment. Identifies cultural expectations that may lead to high risk for various mental health challenges as well as chemical dependency problems. Examines how knowledge of diversity issues can be essential to the counselor in communications, treatment planning and implementation. Prerequisites: WR 121, 122 or 227; MTH 31 or higher; HS 100. No placement score equivalent, must complete an actual course.

Credits: 4 Lecture: 4

HS 210

DUAL DIAGNOSIS

Introduces clinical presentation and management of dually diagnosed chemical abusers. The complex interplay of psychiatric illness and substance abuse in clients with depression, anxiety, schizophrenia, as well as other conditions, will be explored. Students will become familiar with diagnostic criteria as well as chemical dependency. Treatment strategies for addressing the needs of the dually diagnosed will be presented. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HS 223

DRUGS AND ADDICTION

This course covers the knowledge required to pass the pharmacology section of the Certified Alcohol and Drug Counselor (CADC) 1 exam. It includes the ways drugs are used, controlled and valued culturally; how the human body functions normally, including knowledge of cells, nerve cells, and basic bodily systems (i.e., respiratory, circulatory, endocrine and digestive; how drugs are absorbed, distributed, metabolized and excreted and how drugs affect these systems).

Credits: 4 Lecture: 4

HS 250

PROCESS ADDICTIONS

Provides a broad overview of process addictions including a look at the issues and treatments involved. Process addictions are defined as addiction to certain mood-altering behaviors, actions or routine of actions such as gambling, eating, shopping, working or sexual activities. Recommended preparation or must be taken with: WR 121.

Credits: 4 Lecture: 4

HS 260

COUNSELING THEORIES

Introduces major counseling theories that have demonstrated effectiveness with a variety of mental health issues including substance abuse disorders. Includes an overview of 10 specific theories (including affective, behavioral and cognitive approaches), their founders, key concepts, techniques, and appropriate applications. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

HS 262**EFFECTIVE HELPING SKILLS II**

Introduces students to intentional interviewing/motivational interviewing as a foundation for developing basic counseling skills. Focus will be on developing more intensive counseling skills with significant opportunity for hands-on practice. Videotaping is used extensively. Recommended preparation: HS 162 or instructor approval.

Credits: 4 Lecture: 4

HS 263**COUNSELING THE CHEMICALLY DEPENDENT CLIENT**

Trains students in a systematic approach to screening, assessing and treatment planning. Goal is to determine the most appropriate course of action given the client's needs and characteristics and the available resources. This is a collaborative, ongoing process in which the counselor and the client develop desired treatment outcomes and identify strategies to achieve them.

Credits: 3 Lecture: 3

HS 266**CASE MANAGEMENT FOR THE CHEMICALLY DEPENDENT CLIENT**

Provides foundation skills to successfully manage client cases in a treatment setting. Includes skills in client assessment, treatment planning, treatment plan review, writing of clinical progress notes, treatment summary and discharge planning and coordination with other agencies. Methods of instruction include role-play, lecture, class discussion, guest speakers, student presentations and review of students' videotaped assessment interviews. Recommended to be taken with WR 121.

Credits: 4 Lecture: 4

HS 290**INTRODUCTION TO PRACTICUM IN HUMAN SERVICES**

This is an introduction to practicum and should be taken at least one term before the practicum. The goal of this course is to prepare students for a successful practicum. In this course students will develop their resume, job search and job interviewing techniques, and research possible internship sites.

Credits: 1 Lecture: 1

HS 291**PRACTICUM IN HUMAN SERVICES I**

Practicum is closely supervised opportunity to implement professional skills, knowledge and attitudes presented in prior Human Services coursework. Provides experience working on site in a human service agency to integrate field and classroom experience. Students also attend a weekly seminar and meet individually with both the practicum instructor and the site supervisor throughout the quarter. Students are required to have a placement confirmed prior to the term they decide to begin. Addictions Studies students must have completed HS 161, HS 162, HS 206 and HS 290 prior to enrolling in this class. NOTE: 1,000 hours supervised experience are required before taking the Oregon Certified Alcohol and Drug Counselor I exam.

Credits: 4 Lecture: 1 Other: 9

HS 292**PRACTICUM IN HUMAN SERVICES II**

This second-term practicum is more comprehensive and provides an opportunity to develop more advanced skills. Addictions Studies students must have completed HS 161, HS 162, HS 206, and HS 291 prior to enrolling in this class. With instructor approval only students may co-enroll in HS 291. NOTE: 1,000 hours supervised experience are required before taking the Oregon Certified Alcohol and Drug Counselor I exam.

Credits: 4 Lecture: 1 Other: 9

HS 293**PRACTICUM IN HUMAN SERVICE III**

This third-term practicum is more comprehensive and provides an opportunity to develop more advanced skills. Addictions Studies students must have completed HS 161, HS 162, HS 206, HS 291 and HS 292 prior to enrolling in this class. With instructor approval only students

may co-enroll in HS 292. NOTE: 1,000 hours supervised experience are required before taking the Oregon Certified Alcohol and Drug Counselor I exam. Course may be repeated for credit.

Credits: 4 Lecture: 1 Other: 9

HS 299**SELECTED TOPICS: HUMAN SERVICES**

Credits: 1 to 6

**ALLIED HEALTH****AH 100****INTRODUCTION TO HEALTH OCCUPATIONS**

Introduces current issues in the health care professions, with an emphasis placed on those programs offered at COCC. Guest speakers from the Allied Health Programs will present an overview of their profession and give a sample lecture from a course within their discipline. Other topics may include human relations in health care, career development for the health professional, confidentiality and medical ethics.

Credits: 2 Lecture: 2

AH 111**MEDICAL TERMINOLOGY I**

Covers terminology pertaining to medical term construction, body structure, integumentary, hematopoietic/lymph, cardiovascular, oncology, respiratory and musculoskeletal systems. Includes standard abbreviations, anatomic, diagnostic, symptomatic and operative terms related to these body systems. Students (online and face-to-face) must pass a face-to-face written final exam at 70% or higher to pass this class.

Credits: 3 Lecture: 3

AH 112**MEDICAL TERMINOLOGY II**

Covers terminology pertaining to pharmacology, nervous, mental health, special senses (eye and ear), reproductive (male and female), obstetrics, digestive, urinary and endocrine systems. Includes standard abbreviations, anatomic, diagnostic, symptomatic and operative terms related to these body systems. Recommended preparation: AH 111. Students (online and face-to-face) must pass a face-to-face written final exam at 70% or higher to pass this class.

Credits: 3 Lecture: 3

AH 113**INTRODUCTION TO THE STUDY OF DISEASE**

Reviews abnormal pathological changes that occur within individual organs and body systems as the result of a disease process. Disease processes are studied in detail with regard to the cause, pathological features, physical signs and symptoms, diagnostic procedures, current preferred treatment, prognosis and pertinent public health issues. Fulfills program requirements for Health Information Technology and Medical Assisting. Recommended preparation: BI 122 or BI 233.

Credits: 5 Lecture: 5

AH 199**SPECIAL TOPICS: ALLIED HEALTH**

Reserved for courses that cover topics of general interest in health occupations.

Credits: 1 to 3

AH 283**INTRODUCTION TO ALTERNATIVE MEDICINE**

Introduces the historical and sociopolitical context of biomedicine and "alternative" medical systems in the United States. A number of alternative medical practices will be examined as independent systems and also as parts within the larger context of integration into the overall health care system in America. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

AH 299**SELECTED TOPICS: ALLIED HEALTH**

Credits: 1 to 4

PHL 205**MEDICAL ETHICS**

Explores the relation of traditional ethical precepts to current biomedical ethical controversies. Open to all students without prerequisites, but recommended primarily for students enrolled in, or planning to enroll in, programs in nursing or other health care professions. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

ANTHROPOLOGY

ANTH 102**ARCHAEOLOGY**

Provides an introduction to archaeological method and theory along with a survey of human world prehistory through the rise of great civilizations. Topics include archaeological concepts, survey, excavation, analysis, and interpretation of data, dating techniques, research methods, and theories of cultural change.

Credits: 4 Lecture: 4

ANTH 103**CULTURAL ANTHROPOLOGY**

Provides an introduction to the diversity of human beliefs and behaviors around the world. Explores cross-cultural similarities and differences in systems of values, family, religion, economics, politics, and social structure, including issues of race and ethnicity. The goals of this course are to foster an appreciation of cultural diversity, to use this appreciation to better understand the student's culture(s), and to learn to be active and aware participants of local and global communities.

Credits: 4 Lecture: 4

ANTH 141**FILM & SOCIETY: RACE, GENDER, AND CLASS**

Examines the representation of race, social class and gender in film. Special attention is given to how particular representations reflect the broader historical context surrounding when the films were produced and culturally-based audience sentiments. Anthropological and sociological analyses of the films will be provided to give a multi-disciplinary account of how films reflect, create and support various ideological positions regarding race, class and gender.

Credits: 2 Lecture: 1 Lab: 3

ANTH 142**FILM & SOCIETY: GLOBAL CULTURES**

Examines global issues in both foreign and domestic films from sociological and anthropological perspectives. Selected films cover topics that are relevant to understanding global processes such as global economy and Islam in the contemporary world, as well as films that address the more regionally localized processes of community and family. The purpose of the course is to use film to expose students to diverse perspectives and to encourage the critical awareness of the global

interconnections that influence and constrain our modern lives. Films will include documentaries, as well as feature films.

Credits: 2 Lecture: 1 Lab: 3

ANTH 143**FILM & SOCIETY: CONTEMPORARY ISSUES**

Examines contemporary issues in film from sociological and anthropological perspectives. Selected films cover such topics as youth culture, nationalism, local culture and poverty, mental health or other social problems. The content of the films, as well as issues of film production, historical context and audience reception will be the major focus of analysis.

Credits: 2 Lecture: 1 Lab: 3

ANTH 188**SPECIAL STUDIES: ANTHROPOLOGY**

Credits: 1 to 3

ANTH 199**SELECTED TOPICS: ANTHROPOLOGY**

Credits: 1 to 4

ANTH 202**ARCHAEOLOGY OF OREGON**

Investigates the diverse nature of Oregon archaeology. Prehistoric patterns of human occupation in five distinct regions will be analyzed: the Great Basin, Columbia Plateau, Lower Columbia and Coast, Willamette Valley and the Southwestern Mountains. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ANTH 212**ARCHAEOLOGY FIELD METHODS**

Provides an introduction to archaeological field methods as applied to the study of pre-history, including, but not limited to: field inventory, site recording, mapping, archaeological excavation and data/artifact collection, laboratory analysis and documentation/report preparation.

Credits: 4 Lecture: 2.75 Other: 22.5

ANTH 234**BIOLOGICAL ANTHROPOLOGY**

An introduction to biological anthropology. The goal of this course is to achieve the basic scientific literacy necessary to understand contemporary human variation, bio-cultural interactions, and five million years of human evolution. It examines the biological evidence for human evolution and population variation. Lecture topics include mechanisms of evolution, cell biology and human genetics, human variation and adaptations, primate behavior, and the fossil evidence for human evolution.

Credits: 4 Lecture: 3 Lab: 3

ANTH 235**EVOLUTION OF HUMAN SEXUALITY**

Examines the complex interplay between culture and biology in human sexual behavior with particular attention to anatomy and physiology as traits that have evolved from our primate and mammalian ancestors. Focus will be on theoretical issues in evolution and the implications of these theoretical models on human behavior. Topics include human mating systems across cultures, sexual selection, reproduction, as well as the non-reproductive aspects of human sexuality and the physiological and hormonal processes of sexuality. Recommended Preparation: ANTH 234

Credits: 4 Lecture: 4

ANTH 237**FORENSIC ANTHROPOLOGY**

This course teaches the basic analysis of human remains for the medico-legal profession, and will cover the history of the discipline, the human skeleton, determining postmortem interval, trauma evaluation, and individual identification. It will also cover the investigation of crime scenes, the role of the forensic anthropologist, and case studies from a number of various situations. Recommended preparation: ANTH 234

Credits: 4 Lecture: 4

ANTH 240 LANGUAGE AND CULTURE

An introduction to the relationship between communication and culture. Designed to help students become familiar with and understand the mechanics of language from brain structure to how we make sounds; cross-cultural and historical variations between and within communicative systems; and language as a form of social interaction, specifically exploring the complex and diverse relationships between language, socio-cultural, politics and identity. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ANTH 250 FOOD AND CULTURE

Provides an introduction to the diversity of food ways and the cultural significance of food and eating around the world. Topics explored will include food rules and rituals, consumption and health, food movements, food scarcity and poverty, global movement of foods, as well as the gendered dimensions of food and eating, with particular focus on body and body image. By the end of the course, students will have gained a broad-ranging familiarity with the cultural, political and economic aspects of past and present human food systems and be able to recognize and analyze the social linkages and hierarchies embedded in food systems. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ANTH 254 MAGIC, WITCHCRAFT, RELIGION

Introduces students to the subject of religion in the broad anthropological context, contributes to a deeper awareness of diverse expressions of religious faith in a multicultural world, and promotes openness to and tolerance of world views different from the student's own. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ANTH 283 INTRODUCTION TO MEDICAL ANTHROPOLOGY

Introduces the main theories, concepts, and methods of exploring health, illness, disease and health care systems from a medical anthropological perspective. Uses a cultural interpretive approach to explore health beliefs, healing practices, and healer's and patient's roles within the context of world health care systems. Includes an examination of the biomedical model of health care as a cultural construct created through Western belief systems. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ANTH 295 GENDER AND SEXUALITY IN AN ANTHROPOLOGICAL PERSPECTIVE

Examines the constructions of femininities, masculinities and sexualities from a cross-cultural perspective. The cross-cultural focus will provide students with the comparative framework necessary to understand the diversity of gender roles within the context of specific cultural, political and economic processes. While exploring how both Western and non-Western cultures from diverse parts of the world imagine, negotiate, and even contest gender identities and relations, this course will also address key theoretical issues and anthropological approaches to understanding gender. Recommended preparation: WR 121 and ANTH 103.

Credits: 4 Lecture: 4

ANTH 299 SELECTED TOPICS: ANTHROPOLOGY

Credits: 1 to 4

APPRENTICESHIP

APR 101 ELEC/MFG PLANT 1 - BASIC ELECTRIC THEORY

Students will be introduced to content in trade math, fundamental concepts of electricity, resistance, Ohm's law, series circuits, parallel circuits, grounding, grounding electrode systems, and the National Electrical Code. This course will be taught in a lecture/lab format with hands-on use of meters, power supplies, relays and switches.

Credits: 4 Other: 8.4

APR 102 ELEC/MFG PLANT 2 - BASIC WIRING

This course includes principles of inductance, capacitance, transformer fundamentals, generator fundamentals, electric motors, enclosure grounding, and the National Electrical Code as it applies to these topics. This course will be taught in a lecture/lab format, with labs demonstrating the electrical functions of the various elements.

Credits: 4 Other: 8.4

APR 103 ELEC/MFG PLANT 3 - INDUSTRIAL WIRING

Students will be introduced to commercial building plans and specs, reading drawings, branch and feeder circuits, appliance circuits, lighting circuits, panel boards, protection circuits, cooling systems, and the National Electrical Code as it applies to these topics. This course will be taught in a lecture/lab format, with a field trip to either a hospital, a newspaper publishing facility or a mill.

Credits: 4 Other: 8.4

APR 104 ELEC/MFG PLANT 4 - COMMERCIAL WIRING

Course content includes industrial plans and site work, substations, panel boards and feeders, wire tables, determining conductor size, motors, controllers, ventilating, system protection, site lighting hazards, programmable logic controllers, and the National Electric Code as it applies to these topics. This course will be taught in a lecture/lab format, with labs to include hands-on PLC programming and ladder logic development.

Credits: 4 Other: 8.4

APR 121 BOILER OPERATOR 1 - STATIONARY ENGINE PRINCIPLES

The course will cover stationary engineering principles, boiler types and accessories, and trade math.

Credits: 4 Other: 8.4

APR 122 BOILER OPERATOR 2 - BOILER ACCESSORIES

The course content will cover boiler accessories, fuel burning equipment, combustion and draft controls.

Credits: 4 Other: 8.4

APR 141 SHEET METAL CORE CURRICULUM

This course is an introduction to construction and maintenance skills used in various crafts. Basic concepts in safety, math, tools, blueprints and rigging are examined this first term. In addition, employment opportunities will be explored through various apprenticeship trades.

Credits: 4 Other: 8

APR 142 SHEET METAL I

This course presents related training material consistent with the minimum skill requirements of the sheet metal trade. The content includes elements of trade specific tools and fundamentals of duct layout and safety as it relates to the sheet metal trade.

Credits: 4 Other: 8

APR 143**BASIC LAYOUT**

Introduction to trade terminology, trade math, tools, shop safety, shop equipment, basic layout of duct work and fittings.

Credits: 4 Other: 8

APR 144**SHEET METAL MATH**

Covers fractions and decimals, geometric shapes, equation solutions, ratios and proportions, perimeters, areas, volumes of geometric shapes and powers and use of the scientific calculator. Emphasis is on applications to applied sheet metal fabricators. There will be lab time in the class to work on assignments.

Credits: 4 Other: 8

APR 145**BLUEPRINT READING**

Introduction to blueprint reading, drafting blueprints, scaling existing buildings and drafting mechanical systems.

Credits: 4 Other: 8

APR 146**ARCHITECTURAL SHEET METAL**

The study of architectural sheet metal in the context of today's industry. The course of study includes the following: discovery of various types of materials; study profiles of roofing panels, water conductors, various types of roof flashings; related trades that are integral with this trade; the philosophy of layout in the field; and the application of actual installations, safety equipment and practices applicable to the trade.

Credits: 4 Other: 8

APR 201**ELEC/MFG PLANT 5 - MOTOR CONTROLS**

Course of study includes reversing circuits applied to motors, power distribution systems, transformers, electronic control devices, relays, photoelectric and proximity controls, programmable controllers, starters, preventive maintenance, and the National Electric Code as it applies to these topics. This course is taught in a lecture/lab format, with labs covering wiring and operation of listed equipment to control a small motor.

Credits: 4 Other: 8.4

APR 202**ELEC/MFG PLANT 6 - MOTOR CONTROLS/CIRCUITS**

Course of study includes reversing circuits applied to motors, power distribution systems, transformers, electronic control devices, relays, photoelectric and proximity controls, programmable controllers, starters, preventive maintenance, and the National Electric Code as it applies to these topics. This course will be taught in a lecture/lab format, with the lab portion including the demonstration of and hands on programming of variable speed drives.

Credits: 4 Other: 8.4

APR 203**ELEC/MFG PLANT 7 - MOTOR APPLICATIONS**

Topics include safety, commercial and residential calculations; wiring methods; related theory and the National Electric Code as it applies to these topics. This course will be taught in a lecture/lab format. Lab will include field trip to a commercial building with walk-through of service equipment and heating/cooling equipment.

Credits: 4 Other: 8.4

APR 204**ELEC/MFG PLANT 8 - NEC CODE**

Topics include theory and application of motor controls, solid state fundamentals, special termination, layout, hazardous locations and transformer locations, operation and maintenance of high voltage switchgear and starters, and a thorough review of the National Electric Code. This course will be taught in a lecture/lab format, with students having the opportunity to take practice quizzes and practice code exams.

Credits: 4 Other: 8.4

APR 221**BOILER OPERATOR 3 - BOILER OPERATION**

The course content will include boiler operation, maintenance, water treatment, and boiler room safety.

Credits: 4 Other: 8.4

APR 222**BOILER OPERATOR 4 - STEAM USAGE**

The course content includes steam usage and management, basic electricity principles and basic knowledge of steam turbines.

Credits: 4 Other: 8.4

APR 223**TURBINE OPERATOR 1 - APPLIED MECHANICS**

The course content will include mathematics, mensuration, applied mechanics, thermodynamics, steam and internal combustion engines, steam and gas turbines, refrigeration, air compression, and lubrication.

Credits: 4 Other: 8.4

APR 224**TURBINE OPERATOR 2 - INSTRUMENTATION**

The course content will include basic electricity, electronics and control instrumentation, fluid mechanics, pumps, power plant piping systems, air compressors, and different types of power plants.

Credits: 4 Other: 8.4

APR 225**TURBINE OPERATOR 3 - THERMODYNAMICS**

The course content will include internal combustion engines, lubrication, thermodynamics, heat engines, steam engines, and steam and gas turbines.

Credits: 4 Other: 8.4

APR 226**TURBINE OPERATOR 4 - ELECTRICAL THEORY**

The course content will include electrical theory, AC and DC electrical machines, transformers and rectifiers, steam turbine theory, construction of steam turbines, and steam turbine and condenser operation and maintenance.

Credits: 4 Other: 8.4

APR 241**BUILDING CODES AND INSTALLATION MANUALS**

This course is an overview of the mechanical codes as related to the HVAC industry in commercial and residential applications. In addition, installation manuals will be explored as to proper installation and usage of HVAC equipment. During the term there will be three field trips to visit job sites where students will identify code applications and violations.

Credits: 4 Other: 8

APR 242**DUCT FABRICATION/DESIGN**

Introduction to duct design, different styles of duct design, and multilevel duct system design. Heat loss, heat gain calculations and instruction on use of duct calculators.

Credits: 4 Other: 8

APR 243**GENERAL FABRICATION**

This course is the study of the sheet metal trade as it is applied to general-needs metal work. The work studied is that outside of the traditional HVAC and architectural scope as studied in previous terms with a broader base of skills to be learned, such as custom, decorative and artistic finished products.

Credits: 4 Other: 8

APR 244**PROJECT SUPERVISION**

Introduction to construction management skills as they apply to project supervision.

Credits: 4 Other: 8

ART

ARH 188

SPECIAL STUDIES: ART HISTORY

Credits: 1 to 4

ARH 199

SELECTED TOPICS: ART HISTORY

Credits: 1 to 4

ARH 201

INTRODUCTION TO ART HISTORY

Surveys the major periods of visual arts in the West. Introduces students to the concepts of art and surveys the development of art in historical context from Paleolithic cave paintings up through early Christians. Emphasizes selected works of painting, sculpture, architecture, and other arts studied in relation to the cultures producing them. Need not be taken in sequence.

Credits: 4 Lecture: 4

ARH 202

INTRODUCTION TO ART HISTORY

Surveys the major periods of visual arts in the West. Introduces students to the concepts of art and surveys the development of art in historical context from early Medieval up through the Mannerists. Emphasizes selected works of painting, sculpture, architecture, and other arts studied in relation to the cultures producing them. Need not be taken in sequence.

Credits: 4 Lecture: 4

ARH 203

INTRODUCTION TO ART HISTORY

Surveys the major periods of visual arts in the West. Introduces students to the concepts of art and surveys the development of art in historical context from Baroque through Modern. Emphasizes selected works of painting, sculpture, architecture, and other arts studied in relation to the cultures producing them. Need not be taken in sequence.

Credits: 4 Lecture: 4

ARH 206

MODERN ART HISTORY

Survey of modern art from mid-19th century impressionism through the "isms" of the 20th century emphasizing painting, sculpture, architecture and photography. Not offered every year.

Credits: 4 Lecture: 4

ARH 207

NATIVE AMERICAN ART HISTORY

Survey of the arts indigenous to Mesoamerican and North American Indian cultures emphasizing architecture, pottery, painting and the fiber arts. Usually offered spring term.

Credits: 4 Lecture: 4

ART 101

INTRODUCTION TO THE VISUAL ARTS

Introduces approaches to the understanding and appreciation of the visual arts. Provides a foundation in the basic concepts, vocabulary of the elements and principles of design as well as materials, methods and processes. A wide variety of artworks are explored. May include some hands-on experience with various mediums.

Credits: 4 Lecture: 4

ART 115

BASIC DESIGN: 2-D

Introduction to theory and studio practice using the elements of line, value, shape and texture with the principles of organization to articulate visual ideas in black and white.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 116

BASIC DESIGN: COLOR

Introduction to color theory and studio practice using value, hue and intensity with the elements of line, shape, texture and the principles of organization to articulate visual ideas with two-dimensional color design problems.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 117

BASIC DESIGN: 3-D

Explores elements and principles of design using hands-on experience to make three-dimensional constructions using inexpensive materials.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 131

DRAWING I

Emphasis on observing and developing fundamental drawing and composition skills. Still life material used extensively. Recommended preparation: ART 115.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 132

DRAWING II

Concepts and skills developed in ART 131 will be applied to introduction to drawing the figure and portraits. Recommended preparation: ART 131.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 133

DRAWING III

Emphasis on landscape drawing and creative expression working with a broader range of media. Recommended preparation: ART 131.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 154

CERAMICS I

Hand-building skills in Ceramics I include developing designs for both functional and nonfunctional work, texturing, and glaze application. Development of imaginative ideas for expression in clay media is expected. Should be taken in sequence.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 155

CERAMICS II

Improve hand-building skills with more complex designs and learn wheel throwing. Includes developing designs for both functional and nonfunctional work. Development of imaginative ideas for expression in clay media is expected. Should be taken in sequence.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 156

CERAMICS III

Ceramics III includes developing designs for both functional and nonfunctional work, mastering hand building and throwing skills, and glaze application. Development of imaginative ideas for expression in clay media is expected. Should be taken in sequence. Recommended preparation: ART 155, ART 117 and ART 131.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 157**METALCRAFT I**

Basic skills necessary to work nonferrous metals plus hot and cold fabrication, forging, texturing and cabochon stone-setting are included in the metalwork sequence. Projects can be jewelry, hollowware or small sculpture. Development of imaginative ideas and personal aesthetic direction is expected. Experimentation and invention is encouraged. Should be taken in sequence. Recommended preparation: MTH 60. Not offered every term.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 157A1**METALWORK & JEWELRY - HOT FABRICATION I**

Introduction to the basic skills used to fabricate non-ferrous metals including silver, copper and copper alloys to make jewelry or other small metal objects. Projects will be joined using high temperature silver solder and natural gas/compressed air torches as the heat source. Additional instruction includes developing designs, annealing, drilling, sawing, filing, texturing, dapping and finishing techniques. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 157A2**METALWORK & JEWELRY - HOT FABRICATION II**

Builds the skills learned in ART 157A1. Students will develop soldering skill by designing more complex and dimensional projects. Bezel setting a cabochon stone, making hinges, and more complex forming techniques and texturing methods will also be included. Recommended preparation: ART 157A1. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 157B1**METALWORK & JEWELRY - COLD FABRICATION I**

Introduction to the basic skills used to fabricate non-ferrous metals including silver, copper and copper alloys to make jewelry or other small metal objects. Projects will be joined using rivets, tabs, links and other methods of cold connections. Additional instruction includes developing design, annealing, drilling, sawing, filing, texturing, dapping and finishing techniques. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 157B2**METALWORK & JEWELRY - COLD FABRICATION II**

Builds the skills learned in ART 157B1 with more challenging project assignments. Students will develop technical skills by designing projects which include simple forming techniques, moving parts, incorporating found objects and/or stone settings. Recommended preparation: ART 157B1. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 157C1**JEWELRY - PRECIOUS METAL CLAY I**

An introduction to working with Precious Metal Clay (PMC) to make fine silver jewelry. The course will include designing projects, making a texture stamp, manipulation and joining techniques for both soft and unfired PMC, kiln firing and finishing techniques. Not offered every term.

Credits: 1 Other: 2

ART 157C2**JEWELRY - PRECIOUS METAL CLAY II**

Builds on the skills learned in ART 157C1. It will include making hollow and three-dimensional forms, making molds and multiples, setting stones, torch firing, fusing gold and simple soldering. Recommended preparation: ART 157C1. Not offered every term.

Credits: 1 Other: 2

ART 158A1**METALWORK & JEWELRY - SURFACES I**

Includes a number of methods used to change the surface of non-ferrous metals. The techniques used for projects may include reticulation, keum-boo, patinas, embossing, overlay and fusing. Recommended preparation: Either ART 157A1 or ART 157B1. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 158A2**METALWORK & JEWELRY - SURFACES II**

Builds on the skills learned in ART 158A1. It may include marrying metal, granulation, inlay, electro-plating, using acrylic paint and colored pencils on metal. Recommended preparation: ART 157A1 and ART 158A1. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 158B1**JEWELRY - CASTING & CHAIN MAKING I**

An introduction to centrifugal lost wax casting process. Additive and subtractive methods will be used to sculpt small-scale wax models which will be sprued, invested and cast. Fusing links to weave simple chains and finishing techniques will be included. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 158B2**JEWELRY - CASTING & CHAIN MAKING II**

Builds on the skills learned in ART 158B1. It will include centrifugal, vacuum, cuttlebone casting and sand casting. The use of molds to duplicate textures to transfer onto wax, creating stone settings in wax, controlling the wax burn-out and weaving complex linked chains will be included. Recommended preparation: ART 157A1 and ART 158B1. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 158C1**JEWELRY - ENAMELING I**

Basic introduction to enameling on copper and fine silver. Techniques for texturing, using stencils, sifting and wet-packing enamel, adding foils, kiln firing, cold connecting and finishing techniques will be included. Not offered every term.

Credits: 1 Other: 2

ART 158C2**JEWELRY - ENAMELING II**

Builds on the skills learned in ART 158C1. Techniques of champleve, cloisonne, image transfer and fusing the enamel with a torch will be included. Recommended preparation: ART 157A1 and ART 158C1. Not offered every term.

Credits: 1 Other: 2

ART 159A1**METALWORK & JEWELRY - FORMING I**

Students will make non-ferrous metal projects which include a third dimension. The projects can be fabricated jewelry, containers, or small-scale sculpture made using folding, scoring, chasing and repousse, or other metalworking techniques used to form sheet metal. Projects may include the use of hot and/or cold connections and non-metal materials. Recommended preparation: ART 157A1. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 159A2**METALWORK & JEWELRY - FORMING II**

Builds on the skills learned in ART 159A1. The projects can be fabricated from sheet metal using angle raising, shell-forming, hydraulic-press forming and electro-forming. Projects may include the use of hot and/or cold connections and non-metal materials. Recommended preparation: ART 157A1 and ART 159A1. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 159B1**METALWORK & JEWELRY - ETCHING & HYDRAULIC PRESS I**

Includes using PNP paper, nail polish and tapes as resists for etching copper to create textures. Embossing and non-conforming silhouette dies will be made to form the etched metal using the hydraulic press. The use of patinas will also be covered. Recommended preparation: Either ART 157A1 or ART 157B1. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 159B2**METALWORK & JEWELRY - ETCHING & HYDRAULIC PRESS II**

Builds on the skills learned in ART 159B1. Etching resists will include markers, oil paint and asphaltum varnish as resists for copper. Non-conforming carved acrylic and liquid steel conforming dies will be made to form the etched metal using the hydraulic press. Recommended preparation: ART 159B1 and either ART 157A1 or ART 157B1. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 159C1**JEWELRY - PRECIOUS METAL CLAY & ENAMELING I**

Focuses on improving designs for fine silver precious metal clay. The fired projects will be enhanced with enamel to add color and then fired again to fuse the enamel. Recommended preparation: ART 157C1. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 159C2**JEWELRY - PRECIOUS METAL CLAY & ENAMELING II**

Focuses on designing projects to create recesses in the precious metal clay. After firing the PMC, enamel is placed in the depressions. The project is fired again to fuse the enamel. Cold connections and adding gold will also be covered. Recommended preparation: ART 159C1. Not offered every term.

Credits: 2 Lecture: 1 Lab: 3

ART 161**PHOTOGRAPHY I**

Introduction to traditional black and white film photography including camera operation, composition, film processing, printing and presentation. Emphasis is on creative problem solving and understanding the basic photographic concepts used to create good visual communication. Weekly photo assignments will require shooting outside of class, as will text readings. In-class critiques of work are a major part of this course. Recommended preparation: ART 115.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 162**PHOTOGRAPHY II**

Introduction to black and white fine printing in the traditional wet darkroom. Course includes a basic overview of the Zone System, with the goal of "pre-visualizing" a scene as a finished photograph being an expected outcome. Students work with fiber-base printing paper, print bleaching, toning, archival print finishing and other advanced techniques to create an expressive print statement. Creative problem solving and development of personal vision are a course emphasis. Weekly shooting and printing assignments, class critiques and a final project are part of the course. Recommended preparation: ART 161.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 163**PHOTOGRAPHY III**

An exploration of alternative darkroom processes including hand coloring, multiple image printing, selective/multiple toning, "solarization" (Sabattier effect), negative prints and more. A course goal is to use a "post-visualization" approach, allowing students to evolve visual communication beyond what was initially conceived in the field. Creative problem solving and development of personal vision are emphasized. Weekly printing assignments, class critiques and a final project are part of the course. Recommended preparation: ART 161.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 181**PAINTING I**

Introduction to materials and techniques using alkyd oil, acrylic and/or water-soluble oil paints, building canvas supports, stretching canvas and preparing painting grounds. Studio experience using still life, self-portrait, landscape and the figure. Recommended preparation: ART 115, ART 131 or instructor approval.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 182**PAINTING II**

Introduction to color theory and personal expression. Studio experience using still life, portrait, figure and landscape. Application of compositional principles using the grid, sequential imagery and continuous field. Recommended preparation: ART 131 and ART 181 or instructor approval.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 183**PAINTING III**

Exploration of personal iconography. Studio experience using still life, landscape, figure in context, abstract spatial and abstract geometric. Recommended preparation: ART 131 and ART 182 or instructor approval.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 184**WATERCOLOR I**

Studio exploration of the unique qualities of watercolor as a painting medium. Emphasis on fundamental skills, color and composition while painting from a variety of subjects. Should be taken in sequence.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 185**WATERCOLOR II**

Studio exploration of the unique qualities of watercolor as a painting medium. Emphasis on fundamental skills, color and composition while painting from a variety of subjects. Should be taken in sequence. Recommended preparation: ART 131 and ART 184 or instructor approval.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 186**WATERCOLOR III**

Studio exploration of the unique qualities of watercolor as a painting medium. Emphasis on fundamental skills, color and composition while painting from a variety of subjects. Should be taken in sequence. Recommended preparation: ART 131 and ART 185 or instructor approval.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 188**SPECIAL STUDIES: ART**

Credits: 1 to 3

ART 190**FIGURATIVE CLAY SCULPTURE**

Introduction to modeling the human form in clay from clothed and unclothed models using traditional additive and subtractive processes. Historical treatments of the figure and contemporary approaches will be referenced. Not offered every term. Recommended preparation: ART 131 and ART 154.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 191**SCULPTURE**

Studio introduction to articulation of visual ideas in three dimensions using additive, subtractive and construction processes. Recommended preparation: ART 117 and ART 131. Not offered every year.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 197
ART PORTFOLIO CREATION**

Art Portfolio Creation prepares students for the business and professional art world. Students will create both digital and hard-copy portfolios while learning about public relations, marketing, promoting, business guidelines, time management, contracts, presentations, goal setting, long-term inspiration and commitment to their craft, as well as exhibition hanging, timelines and reception set-ups. Students will review art school requirements and learn how to fill out applications for art schools, residencies, grants and art scholarships. This course also includes practical experience in art exhibitions in the Pence Gallery at Pinckney Center.

Credits: 2 Lecture: 2

**ART 199
SELECTED TOPICS: ART**

Credits: 1 to 3

**ART 234
FIGURE DRAWING I**

Studio introduction to drawing the clothed and unclothed figure using a variety of techniques and media. Recommended preparation: ART 131 or instructor approval.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 235
FIGURE DRAWING II**

Studio introduction to drawing the clothed and unclothed figure using a variety of techniques and media. Recommended preparation: ART 234 or instructor approval.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 236
FIGURE DRAWING III**

Studio introduction to drawing the clothed and unclothed figure using a variety of techniques and media. Recommended preparation: ART 235 or instructor approval.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 254
CERAMICS IV**

Ceramics classes include developing designs for both functional and nonfunctional work, mastering hand building, advanced throwing skills and glaze application. Development of imaginative ideas for expression in clay media is expected. Should be taken in sequence. Recommended preparation: ART 117 and ART 131.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 255
CERAMICS V**

Ceramics classes include developing designs for both functional and nonfunctional work, mastering hand building, advanced throwing skills and glaze application. Glaze formulation and the firing process may be included. Development of imaginative ideas for expression in clay media is expected. Should be taken in sequence. Recommended preparation: ART 117 and ART 131.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 256
CERAMICS VI**

Ceramics classes include developing designs for both functional and nonfunctional work, mastering hand building, advanced throwing skills and glaze application. Glaze formulation and the firing process will be included in the upper-level classes. Development of imaginative ideas for expression in clay media is expected. Should be taken in sequence. Recommended preparation: ART 117 and ART 131.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 261
DARKROOM PHOTOGRAPHY**

This course is an application of darkroom photography. Students must have prior knowledge of traditional black and white film photography including: camera operation, film processing and darkroom printing.

Emphasis is on creative problem solving and understanding the photographic concepts used to create good visual communication. Requirements include outside-of-class shooting, independent in-lab processing and printing. In-class photo critiques of work and a hanging of work are a major part of this course. Recommended preparation: ART 161.

Credits: 3 Lecture: 2 Lab: 3

**ART 265
DIGITAL PHOTOGRAPHY**

Introduces students to the basics of composition and camera settings and provides an understanding of digital photo-editing for the purpose of creating successful landscape, portrait, montage and other photographic forms. Students must own a digital camera.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 266
RAKU-SPECIAL TOPICS**

Short course focusing on the raku firing process. Recommended preparation: ART 154. Usually offered fall and spring terms.

Credits: 2 Lecture: 1 Lab: 3

**ART 267
DIGITAL PHOTOGRAPHY II**

This course is an intermediate continuation of digital photography including: the zone system technique for image exposure, advanced photo-editing techniques, lighting concepts and presentation. Emphasis is on creative problem solving and mastering the basic photographic concepts used to create good visual communication. Requirements include outside-of-class shooting, as well as readings. In-class photo labs and critiques of work are a major part of this course. Recommended preparation: ART 265.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 270
PRINTMAKING**

Students will practice printmaking, including relief, intaglio process on an individual project basis. Processes and materials are presented for students to complete four to five hand-pulled prints. All projects serve as an introduction to various printmaking methods and reproduction printing techniques. Recommended preparation: ART 131.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 281
PAINTING IV**

Introduction to materials and techniques using alkyd oil, oil and/or water-soluble oil paints and mediums. Studio emphasis on exploration, self expression and nontraditional supports. Recommended preparation: ART 131 and ART 183 or instructor approval.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 282
PAINTING V**

Emphasis on individual exploration of color, visual concepts, critical doubling, the diptych and scale. Recommended preparation: ART 131 and ART 281 or instructor approval.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 283
PAINTING VI**

Emphasis on independent projects, the triptych, exploration of contemporary problems in painting, statement of a thesis, painting the proposition through a series of interrelated works and the professional documentation and exhibition of the paintings. Recommended preparation: ART 131 and ART 282 or instructor approval.

Credits: 3 Lecture: 1.5 Lab: 4.5

**ART 291
MOLD MAKING FOR CERAMICS & SCULPTURE**

Intermediate studio course with emphasis on developing skills and technical knowledge in mold making processes. Topics covered include plaster molds for ceramic slip casting, block molds, two part and complex molds. Lecture and research topics encompass Mold Making and Casting

in Art and Industry, Historical Uses of Mold Making, and Contemporary Materials/Processes. Recommended preparation: ART 117 and/or ART 191.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 292

INSTALLATION ART SCULPTURE

Intermediate studio course designed to acquaint students with the possibilities of using non-traditional means such as site, time, and interaction to communicate ideas. The Pinckney Gallery serves as both classroom and studio in this unique term-long endeavor. Through a process of research and collaboration, students create interactive sculptural artworks on-site. Culminates with a public exhibition of individual and group projects. Recommended preparation: ART 117 and ART 191.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 293

PUBLIC/ECO SCULPTURE

Intermediate project-based sculpture course in which students explore the meaning and varieties of art created in and for public places, especially concentrating on work that addresses environmental and social issues. Each student artist will generate several proposals, informed by research and readings, and will create a work of public art as the primary goal. Recommended preparation: ART 117 and ART 191.

Credits: 3 Lecture: 1.5 Lab: 4.5

ART 299

SELECTED TOPICS: ART

Credits: 1 to 3

AUTOMOTIVE TECHNOLOGY

AUT 101

BASIC ELECTRICITY FOR AUTOMOTIVE

Provides understanding of fundamental principles of electricity. Covers basic electrical quantities, Ohm's law, power, series, and parallel circuits, magnetism, electromagnetism and an introduction to DC-current troubleshooting. Introduces student to the use of a digital multimeter and oscilloscope. Student will also be introduced to electrical schematics. A self-paced course. Recommended preparation: MTH 10.

Credits: 2 Lab: 6

AUT 102

AUTOMOTIVE ELECTRIC I

Studies disassembly, testing and rebuilding of various electrical equipment. Stresses troubleshooting and using various test equipment common to the automotive trade. Prerequisites: AUT 101, AUT 106, AUT 107, AUT 109, AUT 110.

Credits: 4 Lecture: 2 Lab: 6

AUT 103

AUTOMOTIVE ELECTRIC II

Studies disassembly, testing and rebuilding of various electrical equipment. Stresses troubleshooting and using various test equipment common to the automotive trade. Prerequisites: AUT 101, AUT 102, AUT 106, AUT 107, AUT 109, AUT 110.

Credits: 2 Lecture: 1 Lab: 3

AUT 104

AUTOMOTIVE ELECTRIC III

A hands-on study and familiarization of repair procedures for air bag, security entry and cruise control systems. Learn diagnostic and repair procedures using body control modules. Learn diagnostics and repair procedures for hybrid and new electrical systems. Prerequisites: AUT 101, AUT 102, AUT 103, AUT 106, AUT 107, AUT 109, AUT 110.

Credits: 2 Lecture: 1 Lab: 3

AUT 105

DIESEL PERFORMANCE I

Introduces principles of diesel systems and basic diagnosis. Includes engine analysis, cooling and exhaust systems, fuel management systems and diesel engines. Prerequisites: AUT 101, AUT 102, AUT 106, AUT 107, AUT 109, AUT 110.

Credits: 2 Lecture: 1 Lab: 3

AUT 106

AUTOMOTIVE PROGRAM ORIENTATION

Introduction to the Automotive program. Provides an understanding of the fundamental principles of automotive shop safety and tool care. Instruction given to the self-paced course program. This course is required prior to taking any automotive course. This is a three-day, intensive course that is only taught at the beginning of each term. Permissible to be taken in a term along with other automotive courses.

Credits: 1 Lecture: 1

AUT 107

MECHANICAL SYSTEMS I

Provides an understanding of the fundamental principles of automotive shop safety and tool care. Develops mechanical knowledge and skills utilized throughout a career in the automotive field. Includes techniques of routine vehicle maintenance. Includes customer vehicle identification and handling, new vehicle pre-delivery inspection and preparation, safety inspection, lubrication tasks, and light line tasks. A self-paced course. Prerequisite: AUT 106 or corequisite of AUT 106. Corequisites: AUT 101, AUT 106, AUT 109, AUT 110.

Credits: 3 Lab: 9

AUT 109

MECHANICAL SYSTEMS II

This course will provide a good understanding of the fundamental principles of hand tool names and usage through catalog identification, scan tool introduction and function, based on the Snap-On SolusPro

menu and Parameter Identification. Application and resume writing is included to prepare the new student for a job interview in the automotive industry. A self-paced course. Recommended preparation: AUT 106. Co-requisites: AUT 101, AUT 106, AUT 110.

Credits: 1 Lab: 3

AUT 110

SMALL GAS ENGINES

Designed to study and apply the theory, operation, diagnoses and repair of small gas engines and their use in the world today. A self-paced course. Prerequisite: Completion of AUT 106 or co-requisite of AUT 106.

Corequisites: AUT 101, AUT 106 and MTH 10.

Credits: 3 Lab: 9

AUT 111

COMPUTERIZED ENGINE CONTROLS

Studies advanced electrical systems found on late-model vehicles. Provides solid understanding of computerized automotive engine control systems and how they operate and the ability to diagnose, troubleshoot and repair computerized engine control systems. Prerequisites: AUT 101, AUT 102, AUT 103, AUT 106, AUT 107, AUT 109, AUT 110, AUT 205 and MTH 20.

Credits: 5 Lecture: 3.5 Lab: 4.5

AUT 112

BASIC ENGINE PERFORMANCE

This course is designed to study and apply the theory, operation, diagnoses and repair of the points-type ignition and carburetion systems as they were used in vehicles of the past. Recommended preparation: AUT 101, AUT 106, AUT 107, AUT 109, AUT 110.

Credits: 1 Lab: 2

AUT 113

BASIC ENGINE PERFORMANCE II

Course is designed to continue the study and apply the theory presented in AUT 112 Basic Engine Performance I. This course will continue with the operation, diagnoses, and repair of the carburetion system as it was used in vehicles of the past.

Credits: 1 Other: 2

AUT 199

SELECTED TOPICS: AUTOMOTIVE

Credits: 1 to 4

AUT 201

AUTOMOTIVE ENGINES

Provides information on the construction, operation and design of the internal combustion engine. Teaches the concepts and procedures of engine work to cover the proper procedure in rebuilding a four-cycle internal combustion engine. Includes a combination of guided lecture and laboratory applications, stressing safety, accuracy of measure, proper usage of tools, and application of repair manuals through actual overhaul of engines. Prerequisites: AUT 101, AUT 106, AUT 107, AUT 109, AUT 110 and MTH 10.

Credits: 4 Lecture: 2 Lab: 6

AUT 202

MANUAL DRIVE TRAINS I

A self-paced course that studies standard transmissions and transaxles. Students will learn on college-owned components. The students will learn operating principles, diagnosis, construction, approved repair procedures, and overhaul of current transmission types on manual transmissions and transaxles. Prerequisites: AUT 101, AUT 106, AUT 107, AUT 109, AUT 110.

Credits: 3 Lab: 9

AUT 203

MANUAL DRIVE TRAINS II

Second part of a manual transmission sequence. A study of standard transmission and the relationship to clutches, driveshafts, rear axle assembly, transaxle, shift controls and four-wheel drive components. Students will learn on college-owned components. The student will learn operating principles, diagnosis and approved repair procedures on manual transmissions and related power train components. Includes

emphasis on diagnosis, service, and procedure to conform to current service manuals. Prerequisites: AUT 101, AUT 106, AUT 107, AUT 109, AUT 110.

Credits: 3 Lecture: 1.5 Lab: 4.5

AUT 204

STEERING AND SUSPENSION

Designed to study and apply the theory, operation, diagnoses and repair of the modern suspension and steering systems. Prerequisites: AUT 101, AUT 106, AUT 107, AUT 109, AUT 110, AUT 208 and MTH 10.

Credits: 3 Lecture: 1.5 Lab: 4.5

AUT 205

ENGINE PERFORMANCE I

Studies the diagnosis of drivability problems. Covers engine analysis, cooling and exhaust systems, ignition and fuel management systems. Prerequisites: AUT 101, AUT 103, AUT 106, AUT 107, AUT 109 and AUT 110.

Credits: 2 Lecture: 1 Lab: 3

AUT 206

ENGINE PERFORMANCE II

Studies diagnosis of drivability problems. Includes further study of engine analysis, ignition and fuel management systems, and super performance diagnosis. Provides the technician with a look into the causes of automotive emissions in relation to vehicles that are four years old and newer. Looks at various methods of emissions inspection/maintenance testing, the diagnosis of failed vehicles, and enhanced on-board computer systems. Also covers the testing of alternative-fuel vehicles. Prerequisites: AUT 101, AUT 102, AUT 103, AUT 104, AUT 106, AUT 107, AUT 109, AUT 110, AUT 111 and AUT 205.

Credits: 2 Lecture: 1 Lab: 3

AUT 208

AUTOMOTIVE BRAKES

Studies the theory, operation, diagnosis and repair of the modern braking systems of both domestic and import vehicles. Includes an introduction to anti-lock brake systems. Prerequisites: AUT 101, AUT 106, AUT 107, AUT 109, AUT 110 and MTH 10.

Credits: 3 Lecture: 1.5 Lab: 4.5

AUT 211

ASE TEST PREP I

This self-paced, program-specific course allows the student to study in preparation for the ASE A1-A5 areas. Recommended preparation: completion of two terms of Automotive Technology curriculum and WR 60.

Credits: 1 Lab: 3

AUT 212

ASE TEST PREP II

This self-paced, program-specific course allows the student to study in preparation for the ASE A6-A8 areas. Recommended preparation: completion of two terms of Automotive Technology curriculum and WR 60.

Credits: 1 Lab: 3

AUT 216

CO-OP WORK EXPERIENCE AUTOMOTIVE

Provides an environment in which students can begin to recognize their strengths and limitations in their chosen career. The student is placed in an actual job environment where pressure, production and personalities are experienced. Cooperative Work Experience is a program requirement for students in the Automotive Technology program. Two CWE sections are required for the student who will achieve the Master Automotive Technician Certificate. Prerequisite: completion of two terms of Automotive Technology curriculum.

Credits: 1 to 4

AUT 216A**CWE AUTOMOTIVE A**

The student is provided with the environment in which he/she can begin to recognize his/her strengths and limitations in their chosen career. The student is placed in an actual job environment where the experiences of pressure, production, and personalities are experienced. Cooperative Work Experience is a program requirement for students in the Automotive Technology Program. Two CWE sections are required for the student who will achieve the Master Automotive Technician Certificate. Prerequisite: AUT 106, AUT 101, AUT 107, AUT 109, AUT 110. Instructor approval required. Recommended preparation, an additional 24 credits of automotive courses. 4 credits per section (144 hours).

Credits: 4

AUT 216B**CWE AUTOMOTIVE B**

The student is provided with the environment in which he/she can begin to recognize his/her strengths and limitations in their chosen career. The student is placed in an actual job environment where the experiences of pressure, production, and personalities are experienced. Cooperative Work Experience is a program requirement for students in the Automotive Technology Program. Two CWE sections are required for the student who will achieve the Master Automotive Technician Certificate. Prerequisite: AUT 106, AUT 101, AUT 107, AUT 109, AUT 110. Instructor approval required. Recommended preparation, an additional 24 credits of automotive courses. 4 credits per section (144 hours).

Credits: 4

AUT 251**AUTOMATIC TRANSMISSIONS I**

Provides an understanding of the basic principles and theory of planetary gear sets, torque converters and hydraulic controls as applied to automatic transmissions. Includes construction, operation and overhaul of current transmission types with emphasis on diagnosis, service and procedures to conform to current service manuals. A self-paced course. Prerequisites: AUT 101, AUT 106, AUT 107, AUT 109, AUT 110 and MTH 20.

Credits: 3 Lab: 9

AUT 253**AUTOMOTIVE AIR CONDITIONING**

A hands-on study of automotive air conditioning and heating systems, concurrent with EPA Recovery Requirements for R-12, R-134a systems, diagnosis and service. A study of advanced electrical systems found on late-model vehicles. Recommended preparation: AUT 101, AUT 102, AUT 106, AUT 107, AUT 109, AUT 110 and MTH 20.

Credits: 3 Lecture: 1.5 Lab: 4.5

AUT 256**AUTOMATIC TRANSMISSIONS II**

This is the second part of an automatic transmission sequence. This course will continue principles and theory of planetary gear sets, torque converters, and hydraulic controls as applied to automatic transmissions. Includes emphasis on diagnosis, service, and procedures to conform to current service manuals. The student will also be introduced to Constant Velocity Transmissions/Hybrid Electric Vehicles/Electric Vehicle type transmissions. Prerequisites: AUT 106, AUT 101, AUT 107, AUT 109, AUT 110. Instructor approval is required.

Credits: 2 Lecture: 1 Lab: 3

AUT 260**DIESEL PERFORMANCE II**

This is the second part of a diesel performance sequence. This course will provide the operational principles and theory of: Hydraulically actuated Electronically controlled Unit Injection ** (HEUI) systems, the Electronic Unit Injection *(EUI) systems, and the Common Rail (CR) systems, as they are applied to Diesel Engine Performance. The course will include, in depth, Controller Area Networking (CAN) multiplexing, Controller Area Networking (CAN C) language (J1939 protocol), Software Updates, (J2534 re-flash), Vehicle Communication Interface (VCI), Selective Catalytic Reduction (SCR), Exhaust Gas Recirculation (EGR) systems, Variable Geometry Turbo-chargers (VGT), Constant Geometry Turbo-

chargers (CGT) systems, Diesel Particulate Filter (DPF) variations, Diesel Oxidation Catalyst (DOC) systems, and diagnostic strategies, that will lead to accurate conclusions. The student will be exposed to multiple vehicle product lines during this course and will be introduced to the proper techniques and procedures to repair them. Prerequisites: AUT 106, AUT 101, AUT 107, AUT 109, AUT 110. Instructor approval is required.

Credits: 4 Lecture: 2 Lab: 6

AUT 270**AUTOMOTIVE CONTROLLER SYSTEMS I**

Technological advancements in modern vehicles have changed how we perform diagnosis. This course examines various methods of those enhancements of automotive drive systems, with major emphasis on electronic programming, and how to accurately repair them, using computers and scan tools. This course will require the student technician to build on current diagnostic routines into advance applications.

Prerequisites: AUT 106, AUT 101, AUT 107, AUT 109, AUT 110.

Instructor approval is required.

Credits: 4 Lecture: 2 Lab: 6

AUT 271**AUTOMOTIVE CONTROLLER SYSTEMS II**

Vehicle performance is enhanced by a variety of methods. This course examines various methods of performance enhancements of automotive drive systems with major emphasis on electronic programming. Manufacturer scan tools will be included with vehicle testing. Prerequisites: AUT 106, AUT 101, AUT 107, AUT 109, AUT 110. Instructor approval is required.

Credits: 4 Lecture: 2 Lab: 6

AUT 280**HYBRID ELECTRIC VEHICLES I**

A study of HEV (hybrid electric vehicles) and EV (electric vehicles). Safety procedures will be strongly emphasized. Vehicle systems that will be covered: hybrid safety and service procedures, introduction to hybrid batteries and service, introduction to hybrid electric motors, generators, and controls, regenerative braking systems, introduction to hybrid vehicle transmissions and transaxles, hybrid vehicle heating and air conditioning, first responder safety and procedures, introduction to manufacturer scan tools, hybrid vehicle diagnostic trouble codes. Prerequisites: AUT 106, AUT 101, AUT 107, AUT 109, AUT 110. Instructor approval is required.

Credits: 4 Lecture: 2 Lab: 6

AUT 281**HYBRID ELECTRIC VEHICLES II**

A study of HEV (hybrid electric vehicles) and EV (electric vehicles) part 2. Safety procedures will be strongly emphasized. Vehicle systems that will be covered include: Hybrid safety and service procedures, advanced hybrid batteries testing and service, advanced testing of hybrid electric motors, generators, and controls along with extensive manufacturer scan tools use and vehicle testing. Prerequisites: AUT 106, AUT 101, AUT 107, AUT 109, AUT 110. Instructor approval is required.

Credits: 4 Lecture: 2 Lab: 6

AVIATION - PROFESSIONAL PILOT

AV 101

INTRODUCTION TO AVIATION

This course introduces the student to the Federal Aviation Regulations/ Aeronautical Information Manual (FAR/AIM). Designed to build an understanding of the pilot credentials required for a career in aviation and help students explore various career options. A variety of employment opportunities are investigated, including commercial, business, corporate, military and general aviation-related business. Emphasis will be given to careers in operations and flight technology. Airplane and helicopter pilot careers will be emphasized.

Credits: 3 Lecture: 3

AV 104

INTRODUCTION TO AIRCRAFT SYSTEMS

Introduces the student to the training aircraft that are used in general aviation, and will look in detail at those aircraft used in this program. Aircraft in current use for training by industry will be studied and emphasis placed on basic aircraft systems operations, including emergencies. Applicable Federal Aviation Administration regulations, including the use of Minimum Equipment Lists, will be studied.

Credits: 4 Lecture: 4

AV 108

METEOROLOGY I

A survey course in atmospheric science that covers weather basics and atmospheric circulations. Included is a systematic development of the following: the atmosphere, energy and temperature, wind, atmospheric moisture, horizontal and vertical pressure patterns, clouds, atmospheric circulation, stability, air masses, fronts, fog, icing, thunderstorms, jet streams and turbulence. Students will study surface weather observations, routine weather reports and forecasts, surface maps and constant pressure maps.

Credits: 4 Lecture: 4

AV 110

PRIVATE PILOT - AIRPLANE

Provides initial ground instruction in aeronautical skills and knowledge for the FAA Private Pilot certificate. Involves an introduction to fundamentals of flight, aerodynamics, flight operations, airspace, weather and weather products, flight planning, decision-making, human factors, human factors in aviation, and crew resource management. Comprehensive course that prepares student for the FAA Private Pilot airman knowledge written exam. Recommended preparation: MTH 20.

Credits: 5 Lecture: 5

AV 112

TECHNICALLY ADVANCED AIRCRAFT

The course covers the differences in design, handling characteristics, capability, and operation of complex avionics packages in today's modern aircraft. Course will concentrate on the Garmin 430, Garmin 1000, and Avidyne glass cockpit systems.

Credits: 1 Lecture: 1

AV 112A

TECHNICALLY ADVANCE AIRCRAFT LAB

The lab course provides one-on-one hands-on training in a simulator using the FAA -Industry Training Standards (FITS) program that emphasizes the importance of aerial world training exercises in the form of scenario training. Students will learn to program and utilize advance automated flight decks.

Credits: 1 Lab: 3.2

AV 115

PRIVATE PILOT-HELICOPTER

Covers fundamentals of flight, flight operations, aviation weather, performance, navigation, aircraft systems, aeronautical publications, FAA regulations, flight planning, radio procedures, meteorology and human factors. Comprehensive course that prepares student for the FAA Private

Pilot airman knowledge exam. Recommended preparation: MTH 20. Co-requisite: AV 117.

Credits: 5 Lecture: 5

AV 117

HELICOPTER FUNDAMENTALS

This course covers fundamentals of helicopter flight, flight operations, helicopter performance, navigation, helicopter systems, aeronautical publications, helicopter flight maneuvers, flight planning, radio procedures, meteorology, and human factors. Recommended preparation: MTH 20. Co-requisite: AV 115.

Credits: 3 Lecture: 3

AV 150

AERODYNAMICS

An in-depth study of aerodynamics, beginning with a brief history of the development of flight and flight theory. The physics of lift, drag, weight and thrust are related to airfoil and aircraft design and operational characteristics. Aircraft stability and control are related to aircraft performance and safety. Students will demonstrate their knowledge of aerodynamics through projects in which they predict aircraft performance. Recommended preparation: MTH 85.

Credits: 4 Lecture: 4

AV 188

SPECIAL STUDIES: AVIATION

Credits: 1 to 5

AV 199

SELECTED TOPICS: AVIATION

Credits: 1 to 8

AV 200

AVIATION LAW

This course offers an introductory analysis of legal concepts related to the aviation industry, including aircraft operations, airports, fixed based operators (FBOs), contracts, insurance and liability, regulatory statutes, and case law. The historical development of aviation law in the United States is included.

Credits: 3 Lecture: 3

AV 201

AIRPORT MANAGEMENT

This course is a study of the development of airports and the functions and responsibilities of airport management. This course provides an historical background and studies the roles of various governmental agencies in the management and regulation of airports.

Credits: 3 Lecture: 3

AV 204

ADVANCED AIRCRAFT SYSTEMS

Encompasses a detailed study of aircraft systems and structures and enables the students to progress into heavier, more complex single and multi-engine aircraft. Aircraft in current use by industry will be studied with an emphasis placed on operations, including emergencies. Applicable FAR and Minimum Equipment Lists, will be studied. Recommended preparation: AV 104.

Credits: 4 Lecture: 4

AV 208

METEOROLOGY II

Focuses on application of meteorology theory and the availability, understanding and use of weather products. Emphasis is placed on maximizing aircraft performance and minimizing exposure to weather hazards. Includes examining the weather forecasting models, detailed use and interpretation of graphic weather products, access to telephone and internet weather briefing sites, and utilization of weather products. Recommended preparation: AV 108 or instructor approval.

Credits: 4 Lecture: 4

AV 210**INSTRUMENT - AIRPLANE**

The instrument rating ground school prepares students for the FAA Instrument airman knowledge test and an FAA Instrument Rating. Includes an in-depth study of basic attitude instrument flying, IFR navigation systems and procedures, aircraft flight instruments, aviation weather, applicable FARs and the instrument charts required for IFR flight. Recommended preparation: AV 110 and/or Private Pilot Certificate.
Credits: 5 Lecture: 5

AV 215**INSTRUMENT HELICOPTER**

The instrument rating ground school for helicopter prepares students for the FAA Instrument knowledge test and an FAA Instrument Rating. Includes an in-depth study of aircraft flight instruments, basic attitude instrument flying, IFR navigation systems and procedures, aviation weather, applicable FARs, and the instrument charts required for IFR flight. Recommended preparation: AV 115 and/or FAA Private Pilot Certificate.
Credits: 5 Lecture: 5

AV 220**COMMERCIAL PILOT-AIRPLANE**

Ground instruction of aeronautical skills and knowledge applicable to the FAA Commercial Pilot Certification portion of the Professional Pilot training syllabus. Covers night flight, aviation physiology, advanced aerodynamics, aircraft performance, weight and balance, complex aircraft operations, advanced airplane systems, commercial operations and FAA Regulations for commercial pilots and noncommercial flight operations, with emphasis on human factors, crew resource management, and decision-making. Recommended preparation: AV 110 and/or FAA Private Pilot Certificate.
Credits: 4 Lecture: 4

AV 222A-222N**AIRPLANE FLIGHT LAB**

The Professional Pilot flight labs provide ground, simulator, and flight instruction and training for students desiring careers as professional pilots in the air transportation industry. The Professional Pilot course includes certification training for the commercial pilot certificate with instrument rating in single engine and multiengine airplanes. Professional Pilot students will be prepared to become airplane-certified flight instructors (CFI) with ratings for single engine land, multiengine land, and instrument airplane. Flight, ground, and simulator training fees apply. See Aviation Program director for current fee schedule. Instructor approval required.
Credits: 1 Lab: 3.2

AV 225**COMMERCIAL PILOT-HELICOPTER**

Reviews the principles of flight, aircraft systems, pertinent federal aviation regulations and airman publications and service in order to prepare the student for the FAA Commercial Helicopter Pilot airman knowledge exam. Recommended preparation: AV 115 and/or FAA Private Pilot Certificate.
Credits: 4 Lecture: 4

AV 227A-227N**HELICOPTER FLIGHT LAB**

The Professional Pilot flight labs provide ground, simulator, and flight instruction and training for students desiring careers as professional pilots in the air transportation industry. The Professional Pilot course includes certification training for the commercial pilot certificate with instrument rating. Professional Pilot students will be prepared to become certified flight instructors (CFI) with the instrument (CFII) helicopter rating. Flight, ground, and simulator training fees apply. See Aviation Program director for current fee schedule and lab scheduling. Instructor approval required.
Credits: 1 Lab: 3.2

AV 230**MULTIENGINE PILOT**

Ground instruction of aeronautical skills and knowledge applicable to the private multiengine pilot certification in light twins. The course may also be taken by those pilots who have a commercial single engine rating to obtain an additional rating for commercial multiengine. Emphasis is on engine failure, multiengine aerodynamics, minimum controllable airspeed, propeller feathering, V-speeds, flight planning, decision-making, human factors, and crew resource management. Recommended preparation: AV 110 and/or FAA Private Pilot Certificate.
Credits: 2 Lecture: 2

AV 235**HUMAN FACTORS**

An introduction to the field of human behavior and characteristics as critical factors in the design and operation of electronic/machine systems. Emphasis is on crew resource management and human factors, including the study of human performance in complex systems with an examination of personality, stress, anxiety, fatigue, communication skills, decision-making, situational awareness, analysis of aviation and accidents, and practical application of human factors and performance to modern aviation.
Credits: 4 Lecture: 4

AV 245**ADVANCED HELICOPTER OPERATIONS**

The course will address advanced helicopter operations in a ground school environment. Students will be introduced to operations of turbine helicopters. The mountain flying phase will provide students with a working knowledge of operations in and around mountainous terrain. The external load phase covers the basic skills of flying with an external longline attached to the aircraft. The night vision goggle (NVG) phase will introduce the student to a new realm of flying safely at night, and will be completed using an Internet based FAA approved Part 141 training syllabus and classroom instruction. NVG course licensing fee applies. See aviation program director for current course fee.
Credits: 4 Lecture: 4

AV 246**AVIATION SAFETY**

A detailed introduction into aspects of aviation safety, intended to promote flight safety in the general aviation and training environment. Topics include risk management, pilot psychology, human factors, accident trends and analysis of accident reports.
Credits: 3 Lecture: 3

AV 250**CERTIFIED FLIGHT INSTRUCTOR-AIRPLANE**

Provides the flight instructor applicant with fundamental concepts and practice for successful flight instruction at the recreational, private and commercial pilot level. Elements include fundamentals of instruction, developing lesson plans for private pilot and commercial pilot syllabus, designing curriculum, creating objective evaluation and grading criteria, and practical application in presenting technical material in an interactive classroom setting. Two FAA airman knowledge tests are required to obtain the CFI certificate, and a third is recommended. See Aviation Program director for current fees. Recommended preparation: AV 220 or FAA Commercial Pilot Certificate and Instrument Rating.

Credits: 5 Lecture: 5

AV 255**CERTIFIED FLIGHT INSTRUCTOR-HELICOPTER**

Teaches techniques of flight and ground instruction, analysis of maneuvers, aircraft performance and federal aviation regulations applicable to flight instructors. Practice instructing will be required. Student will prepare for the FAA Fundamentals of Instruction (FOI), CFI Helicopter, and Advanced Ground Instructor (AGI) exams. See Aviation Program director for current fee schedule. Recommended preparation: AV 225 and/or FAA Commercial Pilot Certificate.

Credits: 5 Lecture: 5

AV 271**INTRODUCTION TO UNMANNED AERIAL SYSTEMS**

This course introduces students to the history of Unmanned Aerial Systems (UAS) and surveys current UAS platforms, sensors, terminology, challenges to integrating unmanned systems into the national airspace system, operational theory, and the Federal Aviation Administration (FAA) certificate of authorization (COA) process.

Credits: 3 Lecture: 3

AV 272**UNMANNED AERIAL SYSTEMS**

This course will be surveying current UAS platforms, sensors, terminology, challenges to integrating unmanned systems into the national airspace system, operational theory, and the FAA certificate of authorization (COA) process. Recommended preparation: AV 271.

Credits: 4 Lecture: 4

AV 273**REMOTEY PILOTED VEHICLES**

Advanced UAS mission planning and operation of available Unmanned Aerial Vehicles (UAVs). Topics include mission planning and operations; communications; autopilots; autonomous navigation, guidance, and control; launch/recovery procedures; ground control station operations; normal/abnormal and emergency procedures; safety/air vehicle pilot checklist procedures; and software-in-the-loop/hardware-in-the-loop simulated missions. Recommended preparation: AV 272.

Credits: 4 Lecture: 4

AV 275A-275G**UAS FLIGHT LAB**

UAS Remotely Piloted Vehicles (RPV) flight labs provide ground, simulator, and flight instruction and training for students desiring careers as UAS/RPA operators in commercial or military contract operations. The UAS courses include training in micro/mini/ small/large UAV; airborne/ground/water-based sensors; launch and recovery procedures; UAS navigation and control; and UAS simulation testbeds. Flight, ground and simulator training fees apply. See Aviation Program director for current fee schedule and lab scheduling. Instructor approval required.

Credits: 1 Lab: 3.2

AV 288**SPECIAL STUDIES: AVIATION**

Credits: 1 to 5

AV 299**SELECTED TOPICS: AVIATION**

Credits: 1 to 8

BIOLOGY**BI 101****GENERAL BIOLOGY I**

Designed to fulfill general education requirements, courses are intended for non-major students whose program requires biology courses. Centers on concepts of unity of living organisms including evolution, biochemistry, cell biology (morphology and physiology), genetics and development. Need not be taken in sequence. Lab meets first week of classes.

Credits: 4 Lecture: 3 Lab: 3

BI 102**GENERAL BIOLOGY II**

Designed to fulfill general education requirements, courses are intended for non-major students whose program requires biology courses. Focus is on concepts of biological diversity including evolution and adaptations to local environments. Need not be taken in sequence. Lab meets the first week of classes.

Credits: 4 Lecture: 3 Lab: 3

BI 103**GENERAL BIOLOGY III**

Designed to fulfill general education requirements, courses are intended for non-major students whose program requires biology courses. Focus is on interconnections such as co-evolutionary adaptations among organisms and interactions with environmental factors/resources. Field trips required. Need not be taken in sequence. Lab meets the first week of classes.

Credits: 4 Lecture: 3 Lab: 3

BI 121**ANATOMY AND FUNCTION I**

Covers body organization, the cell, skin, blood, heart and circulation, immunity, respiration, bones and skeletal muscles. Designed for pharmacy technician, medical assisting and massage therapy programs. Lecture and lab are taken simultaneously; they are not offered as separate classes.

Credits: 4 Lecture: 3 Lab: 3

BI 122**ANATOMY AND FUNCTION II**

Covers the nervous system, eyes, ears, reproduction, genetics, digestion, urinary system, hormones and diabetes. Designed for pharmacy technician, medical assisting and massage therapy programs. Lecture and lab are taken simultaneously; they are not offered as separate classes. Recommended preparation: BI 121.

Credits: 4 Lecture: 3 Lab: 3

BI 188**SS: BIOLOGY**

Credits: 1 to 6

BI 200**TROPICAL FIELD ECOLOGY**

Offered as a required course in the Costa Rica study abroad program. Broad overview of the geography, terrestrial ecosystems, and aquatic ecosystems of Costa Rica. Ecosystem concepts and processes will be emphasized, including human interactions in ecosystems. Recommended preparation: WR 121 and BI 101.

Credits: 4 Lecture: 1 Lab: 6

BI 205**SCIENTIFIC TERMINOLOGY: LATIN AND GREEK ROOTS**

Designed for majors in natural science and social science wishing to enhance their understanding of the basic Latin and Greek prefixes, suffixes, and language roots that are applicable to study and reading in science-related fields. Develops skill in how words are formed, the history, meaning, pronunciation and spelling of scientific terms.

Credits: 3 Lecture: 3

**BI 211
PRINCIPLES OF BIOLOGY I**

Introduces basic principles common to all living organisms. Emphasizes chemistry and evolution of life, cellular morphology and genetics. Designed for majors in the life sciences and should be taken in sequence. Recommended preparation: CH 221.

Credits: 5 Lecture: 4 Lab: 3

**BI 212
BIOLOGY OF PLANTS II**

Surveys bacteria, kingdoms of protists, fungi and plants; examines evolutionary and ecological interrelationships and emphasizes aspects of plant morphology and physiology. Designed for majors in life sciences as well as those pursuing botany, and should be taken in sequence. Prerequisite: BI 211. Field Trips may be required.

Credits: 5 Lecture: 4 Lab: 3

**BI 213
BIOLOGY OF ANIMALS III**

Examines diversity and evolution of living animals, their interrelationships, morphology and physiology. Designed for majors in life sciences and should be taken in sequence. Prerequisite: BI 211. Field Trips may be required.

Credits: 5 Lecture: 4 Lab: 3

**BI 214
BIOCHEMISTRY AND GENETICS**

Through a combination of lectures, problem solving and laboratory exercises this course explores amino acid chemistry, the structures and functions of proteins, basic metabolism and energy conservation, the genetics of biochemical pathways, assortment and linkage of genes, the structure and replication of DNA, mutation and repair; gene mapping, complementation and the structure and regulation of genes. Recommended preparation: BI 211 or CH 223 or equivalent.

Credits: 4 Lecture: 3 Lab: 3

**BI 231
HUMAN ANATOMY AND PHYSIOLOGY I**

Examines the structure and function of the human body utilizing a systems approach. Emphasizes body organization, cells, tissues, as well as microscopic and gross anatomy along with the functional roles of the integumentary, skeletal and muscular systems, and concludes with nerve cells and tissue. Concurrent labs include hands-on dissections of a variety of tissues, organs, rats, fetal pigs and/or cats. First course of a sequence for students in pre-nursing and other pre-professional health programs. Prerequisite: WR 65, 75 or 95, or Reading and Writing placement test scores that place the student into WR 121.

Credits: 4 Lecture: 3 Lab: 3

**BI 232
HUMAN ANATOMY AND PHYSIOLOGY II**

Continuation of examination of the structure and function of the human body utilizing a systems approach with an emphasis on anatomical and physiological relationships between nervous, endocrine and cardiovascular systems. Concurrent labs include hands-on dissections of a variety of tissues, organs, fetal pigs and/or cats. For students in pre-nursing and other pre-professional health programs. Prerequisite: BI 231.

Credits: 4 Lecture: 3 Lab: 3

**BI 233
HUMAN ANATOMY AND PHYSIOLOGY III**

Continuation of examination of the structure and function of the human body utilizing a systems approach. BI 233 emphasizes the anatomical and physiological relationships between the lymphatic/immune, respiratory, digestive, urinary, and reproductive systems. Concurrent labs include hands-on dissections of a variety of tissues, organs, fetal pigs and/or cats. For students in pre-nursing and other pre-professional health programs. Prerequisite: BI 232.

Credits: 4 Lecture: 3 Lab: 3

**BI 234
MICROBIOLOGY**

This course is designed for students to learn the characteristics and disease-causing features of microorganisms, especially the bacteria and viruses that cause serious infectious diseases in humans. It covers defense mechanisms against infections and disease, and the development of immunity against future infections. The mechanisms of action of certain classes of anti-microbial drugs are discussed. The course also covers some of the historically-common human infections and diseases. This course is designed especially for students in nursing, pre-pharmacy and other pre-professional health programs. Prerequisite: Completion of WR 65 or higher, or placement testing in WR 095 or higher.

Credits: 4 Lecture: 3 Lab: 3

**BI 280
CO-OP WORK EXPERIENCE BIOLOGY**

Credits: 1 to 4

**BI 288
SPECIAL STUDIES: BIOLOGY**

Credits: 1 to 4

**BI 299
SELECTED TOPICS: BIOLOGY**

Credits: 1 to 5

**BOT 203
GENERAL BOTANY**

Surveys flowering plant families by identification of local flora and the use of taxonomic keys. Studies floral morphology, history and development of classification, and systematics. Recommended preparation: BI 103 or BI 212.

Credits: 4 Lecture: 3 Lab: 3

BUSINESS ADMINISTRATION

BA 080

WORKING INTERNSHIP

Provides college credit for student employment in fields pertaining to business curriculum. Credit is given based upon a total workload of 35 hours and completion of learning objectives. Learning experience coordinated with student's supervisor and teacher. This course is designed for students entering the workforce or a particular industry. May not be repeated for credit. Instructor approval required.

Credits: 1 Other: 3

BA 081

PUBLIC RELATIONS

Illustrates history and theory of public relations (PR). Describes interactions of PR with other marketing promotion activities. Examines basic uses of media and provides experience in creating news releases and public announcements. Recommended preparation: BA 223.

Credits: 3 Lecture: 3

BA 101

INTRODUCTION TO BUSINESS

In this course students will learn about the many exciting and challenging facets of business and its dynamic role in today's environment. Students will gain a working knowledge of components of business including discussion of management, marketing, entrepreneurship and finance. During this course students will be introduced to topics which are covered in greater depth in higher level business courses. Students are encouraged to use this course to explore the breadth of business topics offered in the Business Administration degrees and identify specific areas of interest or specialization.

Credits: 4 Lecture: 4

BA 104

BUSINESS MATH

Designed to equip students with skills to handle everyday arithmetic problems relative to a business environment and lay the foundation for other business courses including computer classes that use basic business math as examples and assignments. Topics include ratio, proportion, percent, interest, time value of money, markup and discounts, payroll, stocks and bonds, and depreciation. Prerequisite: MTH 60, MTH 60 equivalency met, or appropriate placement exam score.

Credits: 3 Lecture: 3

BA 111

APPLIED ACCOUNTING I

Designed to acquaint students with the basic functions of the bookkeeping and accounting process--journalizing transactions into the journal, posting to the general ledger, analyzing and adjusting the ledger, preparing simple financial statements for a service business and gaining an understanding and working knowledge of the overall payroll function. No previous accounting is required. Prerequisite: MTH 60.

Credits: 3 Lecture: 3

BA 112

APPLIED ACCOUNTING II

Continuation of Applied Accounting I. It provides a detailed study of the mechanical and theoretical aspects of the bookkeeping and accounting process as it relates to a merchandising business. Prerequisite: BA 111.

Credits: 3 Lecture: 3

BA 113

APPLIED ACCOUNTING III

Continuation of Applied Accounting II. It provides students with an in-depth, more detailed background of specific areas of accounting so that they will be able to effectively deal with most accounting situations as they relate to all business forms. Prerequisite: BA 112.

Credits: 3 Lecture: 3

BA 150

THE BUSINESS OF MESSAGE

Designed specifically for massage therapy students to answer the many questions involved in turning their skill and knowledge into a successful career and business. Presents basic tenets of business entrepreneurship. Covers identifying trends, target markets, analyzing competition, location analysis, distribution, financing businesses, legal issues, management of small businesses, and writing a business plan.

Credits: 3 Lecture: 3

BA 156

BUSINESS ECONOMICS

Examines principles involved with and dependent upon the American economic system. Covers laws of supply and demand, pricing policy, differences between economic systems and business organizations, money and monetary policy, Keynesian vs. supply-side economics and global economics.

Credits: 3 Lecture: 3

BA 177

PAYROLL ACCOUNTING

Provides the fundamental accounting skills to calculate payroll for any business organization. Topics include calculating payroll based on current laws and regulations, recording payroll transactions in the general journal and general ledger, and completing required federal payroll tax forms and reports. Recommended preparation or recommended to be taken with: BA 112 or BA 212.

Credits: 3 Lecture: 3

BA 178

CUSTOMER SERVICE

Introduces concepts of basic customer service. Covers how to develop and establish a customer service vision. Examines how to understand customer expectations before, during and after service delivery. Reviews tenets of developing, managing and evaluating service strategies.

Credits: 3 Lecture: 3

BA 180

CO-OP WORK EXPERIENCE

Cooperative work experience is a learning strategy designed to enhance a student's knowledge, personal development, professional development, and professional preparation by integrating academic study with practical experience. Student completes on-the-job training in an office environment. BA 180 is designed for Level I and Level II students participating in AAS Business or Office Administration Certificate. Emphasis will be placed on management, marketing, accounting, and operational concepts covered in Introduction to Business and/or Level II classes. Recommended preparation or recommended to be taken with: BA 101 or instructor approval.

Credits: 1 to 3

BA 188

SPECIAL STUDIES: BUSINESS

Engages students with projects from local businesses in the areas of accounting, marketing, management and operations. Recommended preparation: completion of most Level I and Level II classes from the AAS degree. Instructor approval required.

Credits: 1 to 3

BA 199

SELECTED TOPICS: BUSINESS

Offers selected topics of study through workshop and independent study formats. Provides opportunities for students to investigate topics of interest beyond what is covered in current degrees. Instructor approval required.

Credits: 1 to 5

BA 203**GLOBAL BUSINESS**

Prepares students for better understanding of many facets of dealing with foreign entities. Surveys institutions, environments, forces and problems involved with the conduct of global trade. Examines trade organizations, monetary systems, government relations, language and custom barriers, and future trends. Recommended preparation: BA 223.

Credits: 3 Lecture: 3

BA 206**MANAGEMENT FUNDAMENTALS I**

Introduces students to the theory and vocabulary of management in a business setting. All of the major theoretical foundations for understanding individual and group behavior and leadership are reviewed in a lecture and discussion instructional format. Recommended preparation: BA 101.

Credits: 4 Lecture: 4

BA 207**MANAGEMENT FUNDAMENTALS II**

Covers the scope of activities and roles required to be an effective manager. Applying individual and group behavior and leadership theories, and exploring the critical skills of self-management, communication, logical thinking and team building, the major functional areas of management are examined in depth through the exploration of practical applications. Case study analysis and discussion are used extensively as the instructional methods. Recommended preparation: BA 206.

Credits: 4 Lecture: 4

BA 209**BUSINESS ETHICS**

Explores current issues in business ethics from the owner, employee and consumer viewpoints. Ethical theories are reviewed and cases are used to evaluate conflicts existing between business profits, the legal environment and morality. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

BA 211**FINANCIAL ACCOUNTING I**

Introduces financial accounting theory, including the accounting cycle, recording transactions, financial analysis, and reporting corporate financial information in accordance with generally accepted accounting principles. BA 111, 112 and 113 are required for AAS accounting specialization. Recommended preparation: MTH 60.

Credits: 4 Lecture: 4

BA 212**FINANCIAL ACCOUNTING II**

Continues the presentation of fundamental accounting issues begun in BA 211, with emphasis on corporate investing and financing activities and preparation of the statement of cash flows. Recommended preparation: BA 211.

Credits: 4 Lecture: 4

BA 213**MANAGERIAL ACCOUNTING**

Introduces managerial accounting theory, including cost-volume-profit analysis, product costing, budgeting, capital investing, and cost management in manufacturing and service organizations. Recommended preparation: BA 212.

Credits: 4 Lecture: 4

BA 217**ACCOUNTING FUNDAMENTALS**

Introduces non-business majors to the accounting process and the informational reports it generates. Topics include the analyzing, recording, summarizing, and reporting of business transactions, with a special focus on using accounting reports to make informed business decisions. This course is for non-business majors and no previous accounting is required. Recommended preparation: MTH 60.

Credits: 4 Lecture: 4

BA 218**PERSONAL FINANCE**

Gives students skills in basic money management. Investigates spending habits and develops personal and family financial budgets. Also focuses on dealing with financial institutions, applying for loans and establishing personal credit. Develops understanding of managing major household expenses. Develops skill in renting, buying and selling residential property. Also focuses on buying and leasing transportation, personal income taxes and different types of insurance. Covers scope and planning of investments and retirement planning. Students develop understanding of different investments including mutual funds, stock market, real estate as an investment and Social Security. Also covers wills and trusts.

Credits: 3 Lecture: 3

BA 220**BUSINESS ANALYSIS AND BUDGETING**

This course is designed to develop mathematical analytical skills in performing the daily tasks of a manager or salesperson. The course has a threefold focus: strengthening understanding and use of business terminology in regards to financial information; development of spreadsheet skills in evaluating the costing, pricing and financing strategies of products and services; and development of skills in evaluating and making budgeting, financial and investment decisions. This is a hands-on, skills-oriented course. Prerequisites: BA 104, CIS 131, BA 112. Recommended preparation: CIS 125E.

Credits: 4 Lecture: 3 Other: 2

BA 222**BUSINESS FINANCE**

Targets role of financial management in business and provides understanding of the effect of finance on business decisions. The course covers financial forecasting, capital budgeting and risk, financial institutions, securities markets, the investment process and working capital management. Prerequisites: BA 104 and BA 113 or BA 212.

Credits: 3 Lecture: 3

BA 223**MARKETING PRINCIPLES I**

Develops skills in understanding and developing strategies in the marketing environment. Covers principles and techniques of market research, consumer behavior, product development, pricing, distribution and promotion. Establishes basis for creating a marketing plan. Recommended preparation: BA 101.

Credits: 4 Lecture: 4

BA 224**HUMAN RESOURCES MANAGEMENT**

Covers principles and techniques of human resources management. Includes the following topics: hiring practices, orientation, training, job enrichment, motivation, and performance and review. Covers wage policies, benefits programs and how to comply with a myriad of legal requirements. Recommended preparation: BA 206.

Credits: 4 Lecture: 4

BA 226**BUSINESS LAW I**

Introduces general concepts, principles and individual conduct of business. The overview of law presented by this course introduces the general concepts of contract law which forms the foundation for the general conduct of business. Covers contract formation, dispute resolution, warranties, legal forms of business, and credit and collections. Emphasizes managing risk in the business environment. Recommended preparation: sophomore standing, WR 121 and BA 101.

Credits: 4 Lecture: 4

BA 228**COMPUTER ACCOUNTING APPLICATIONS**

Introduces double-entry, fully-integrated computerized accounting software on the microcomputer. Students will get hands-on experience recording a variety of business transactions and preparing financial statements using the software. Recommended preparation: CIS 131 and either BA 111 or BA 211.

Credits: 3 Lecture: 2 Other: 2

BA 229**QUICKBOOKS**

Introduces students to QuickBooks accounting software. It is designed to give students the basic skills to effectively use QuickBooks and to reinforce the concepts students learned in their first accounting course. Students will get hands-on experience using the software, including recording a variety of accounting transactions and creating financial statements and other financial reports useful in making business decisions. Recommended preparation: CIS 131 and either BA 111 or BA 211.

Credits: 3 Lecture: 2 Lab: 2

BA 233**INTERNET MARKETING**

Building on the marketing concepts from BA 223, this course develops marketing skills in pricing, promotion and distribution strategies while using the internet. Design and content development for email, website and social media marketing based in an understanding of consumer behavior will also be covered. Additional topics include site optimization along with how to use analytic tools that will determine effectiveness of Internet marketing efforts. Note: this course does not cover HTML programming. Recommended preparation: BA 223.

Credits: 4 Lecture: 4

BA 238**SELLING AND NEGOTIATION**

Covers the role of personal selling in the firm's marketing mix. Emphasizes creating value and the techniques used for building buyer relationships during the selling process. Also emphasizes customer service, handling complaints and sales force management techniques. Recommended preparation: BA 223.

Credits: 4 Lecture: 4

BA 239**MARKETING PRINCIPLES II**

Develops understanding of the principles and techniques necessary to develop an advertising campaign for a business with a focus on the promotion component of the marketing mix. Examines the ways in which advertising fits into the scheme of business marketing. Also discusses advertising and its relationships with other promotional activities. Includes a thorough look into the use of different media choices and the planning of advertising campaigns. Also covers some of the basics regarding the design of commercials and printed copy. Includes work on real-life advertising campaigns. Recommended preparation: BA 223.

Credits: 4 Lecture: 4

BA 249**RETAILING**

Develops skills in understanding and developing strategies in the retail environment. Examines the retail industry including store location, layout, display, merchandise selection, inventory and operational controls and promotion. Includes tours of local retail stores. Recommended preparation: BA 223.

Credits: 4 Lecture: 4

BA 250**ENTREPRENEURSHIP**

This course provides a solid foundation in entrepreneurship and small business management. Students will learn about the challenges facing entrepreneurship today, business management strategies, guerrilla marketing for success, the importance of financial planning and how to effectively present an elevator pitch. Additionally, students will learn about the various legal forms of business ownership, sources of financing a business, and E-Commerce. A balance between the practical learning and "real life" situations will be followed throughout the course. Recommended preparation: BA 101 and BA 212.

Credits: 4 Lecture: 4

BA 253**BUSINESS PLAN ELEMENTS**

This course focuses on the elements of a business plan, including feasibility analysis, the marketing plan, management plan, operations, pro forma financials, and presenting the plan. The elements are reviewed

in an application-driven, hands-on, real-world format for the student. From this course, a student will understand the process of thinking through the issues important to starting a business and develop the knowledge and skills to write their own business plan. Recommended preparation: BA 113, BA 206, BA 223 and BA 250.

Credits: 4 Lecture: 4

BA 261**CONSUMER BEHAVIOR**

Explores the determinants of consumer buying behavior and the process consumers use to make buying decisions. Study includes psychological and sociological principles and their impact on purchasing behaviors. Understanding of these behaviors and the purchase process are used to help design marketing strategies. Recommended preparation: BA 223.

Credits: 4 Lecture: 4

BA 280**CO-OP WORK EXPERIENCE BUSINESS**

Provides work learning credit for student employment in fields pertaining to the business curriculum. Credit is given based upon a total workload of 100 hours per term and completion of learning objectives. Learning experience coordinated with student's supervisor. May be repeated once. Instructor approval required.

Credits: 1 to 3

BA 285**BUSINESS HUMAN RELATIONS**

Examines the sociological and psychological aspects of the workplace with practical applications. Based on the premise that the practice of sound human relations is essential to success in any context. Group exercises, discussion, and lecture are the pedagogies used, in that order of importance. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

BA 286**MANAGING BUSINESS PROCESSES**

Introductory course in understanding and managing business processes. Develops understanding of general concepts and principles of process management. Includes implementation procedures and specific tools used in analyzing processes, uncovering problems and finding solutions to those problems. Recommended preparation: BA 101 and BA 206.

Credits: 4 Lecture: 4

BA 290**BUSINESS SEMINAR**

BA 290 is the capstone course for all specializations in the Associate of Applied Science degree in Business. It is an opportunity for the student to demonstrate all they have learned in the areas of accounting, management, finance, marketing and operations. It also allows for the opportunity to demonstrate one's communication and technology skills. The end result will be a great sample of work for the portfolio that students can use in seeking employment or advancement. This is a hands-on, skills-oriented course. Prerequisites: BA 113, BA 206, BA 220 and BA 223.

Credits: 3 Lecture: 3

CCI: BAKING AND PASTRY ARTS

BAK 100 WANT TO BE A PASTRY CHEF?

This course serves as an introduction to the field of baking and pastry arts. It is designed for students considering declaring Baking and Pastry Arts as a major; or those taking courses to enhance placement scores to enter the next Cascade Culinary Institute cohort start. This course will enable students to experience an introduction to baking and pastry arts with a demonstration and hands on class that covers the basics of baking techniques and flavor profiling. Students will “get a taste” of the baking industry, while learning the secrets of being a successful pastry professional.

Credits: 2 Other: 4

BAK 110 BAKING AND PASTRY FOUNDATIONS I

In this introductory course to the pastry arts, students will be presented with an overview of the Cascade Culinary Institute Baking and Pastry program. Students will have the opportunity to learn basic principles guiding professional introductory baking techniques. Lecture and lab topics will include: Servsafe Safety and sanitation certification; the history of the baking industry; career opportunities in baking; trends in baking and pastry; standards of professionalism; ingredient and equipment identification/selection; the functions of ingredients; the use of a standardized recipe; fruit desserts; cookies; meringues; pate a choux and basic custards. Key components of the course include discussion of chef tools, knife skills, commercial equipment and its intended uses; basic baking science principles, ratio and techniques. Emphasis in this course will be given to Tuckman’s Group Development Model on the “forming” stage. Students will complete the National Restaurant Association Educational Foundation (NRAEF) ServSafe examination certification as part of this course. Prerequisites: Math 20 or placement exam score that places the student in MTH 60 or above; Writing 65, 75, or 95 or a placement exam score that places the student in WR 121 or above.

Credits: 4 Other: 8

BAK 140 BAKING AND PASTRY FOUNDATIONS II

In this baking foundations class students will have the opportunity to learn basic principles and techniques involved in the production of breads and yeast risen doughs, laminate doughs and pies and tarts. Lecture and lab topics will include: the 12 stages of yeast dough production; continuing discussion on product identification and selection; wheat based flours; baker percentages; gluten development; lean straight doughs; soft crusted breads; basic laminate doughs. Students will have opportunities for hands-on learning in all of these topics Emphasis in this course will be given to Tuckman’s Group Development Model on the “storming” stage. Prerequisites: BAK 110, CUL 90, CUL 120, WR 121.

Credits: 4 Other: 8

BAK 170 BAKING AND PASTRY FOUNDATIONS III

In this Baking Foundations class, students will have the opportunity to learn basic principles and techniques involved in the production of quick breads and dessert foundation sauces; mixing and baking cake layers and assembling classic cakes. Students will obtain a first aid/CPR certification. Lecture topics will include menu planning with consideration of food and labor cost as well as balancing flavors and textures in desserts. Emphasis in this course will be given to Tuckman’s Group Development Model on the “norming” stage. Prerequisites: BAK 140, CUL 130, CUL 150, CUL 160.

Credits: 4 Other: 8

BAK 180 CONTEMPORARY CUSTARDS, FROZEN DESSERTS AND TARTS

Preparation techniques and production skills for a variety of custards, puddings, Bavarians and mousses; still-frozen and churn-frozen desserts, ice creams, granitas, sorbet and sherbet production and presentations; basic pastry dough production including pate brisee, pate sable, and pie

doughs used in the production of a variety of pies, tarts and turnovers. Preparation techniques for various types of fruits from fresh seasonal to commercially prepared when preparing deserts, pies and tarts.

Prerequisites: BAK 140, CUL 130, CUL 150, CUL 160.

Credits: 4 Other: 8

BAK 195 BAKING AND PASTRY ARTS PRACTICAL AND WRITTEN EXAMINATION I

In the baking practical exam, students will be tested on the fundamentals of baking: doughs, batters, cakes, Danish and puff pastry. They will also draw an assignment and prepare three items. Emphasis in this course will be given to Tuckman’s Group Development Model on the “forming” stage. Prerequisites: BAK 140, CUL 130, CUL 150, CUL 160.

Credits: 1 Other: .13

BAK 199 SELECTED TOPICS: BAKING AND PASTRY ARTS

Provides opportunity for students with exceptional background or need to continue beyond normal Baking and Pastry Arts program content. Content and credit(s) earned are established by mutual agreement between instructor and student and detailed in written agreement at the start of the term.

Credits: 1 to 6

BAK 210 MODERN SUGAR AND CHOCOLATE DECOR

In this course, students are taught a variety of chocolate and sugar decorations and sculpting techniques to produce decorations that can embellish other desserts or artistic showpieces for display. They will learn techniques such as applying chocolate colors with a spray gun, use of various types of molds, making cut-out decorations, and silk screens, that will be applied to showpieces. Students are introduced to various sugar techniques such as pastillage, saturated sugar, pulled sugar such as ribbons and flowers, blown sugar to create three-dimensional shapes, spun, piped, bubble, straw, and poured sugar, and airbrushing techniques to create a variety of showpieces. Students will use a given theme upon which they must design and build a sugar as well as a chocolate showpiece. Emphasis in this course will be given to Tuckman’s Group Development Model on the “forming” stage. Prerequisites: BAK 170, BAK 180, BAK 195, CUL 190.

Credits: 4 Other: 8

BAK 220**WEDDING CELEBRATION AND SPECIALTY CAKES**

In this course, students learn the history of celebration cakes, such as the wedding cake, and how to make British and American-style celebration cakes, including baking, decoration and assembly work. Students will bake sponge cakes, create buttercream fillings, make gumpaste flowers, royal icing piped decorations, and rolled fondant. Students will then produce wedding and celebration cakes incorporating all these elements, from design, baking and assembly to covering and decorating. Students will also make the classic French wedding cake, the Croquenbouche. Emphasis in this course will be given to Tuckman's Group Development Model on the "forming" stage. Prerequisites: BAK 170, BAK 180, BAK 195, CUL 190.

Credits: 4 Other: 8

BAK 235S**CLASSICAL FRENCH PASTRIES**

In this course, students learn to produce a wide variety of classic and modern French cakes or "entremets" suitable for large or small-scale productions using the latest assembling techniques and cost-effective production methods. These cakes will be highlighted with decorations such as silk screens, printed logos and chocolate and sugar decorations. Students will utilize updated methods of traditional French recipes using fresh ingredients. Students' cakes in this course will represent a variety of textures and flavors. Also taught will be classic French tarts, giving further practice to different elements in pastry such as different types of crusts, doughs and fillings, and present new opportunities for combining those elements in cakes and tarts. Emphasis in this course will be given to Tuckman's Group Development Model on the "forming" stage. Prerequisites: BAK 210, BAK 220, CUL 200, CUL 230.

Credits: 4 Other: 8

BAK 240**THE CRAFT OF ARTISAN BREADS**

This course gives students the chance to learn the principles and techniques of preparing multigrain breads, sourdoughs, bagels, pretzels, holiday or seasonal breads and flat breads. Special emphasis will be placed on regional breads and breads of the world; handling grains (such as soakers) for specialty breads; mixing, shaping, and finishing specialty breads; and learning innovative baking methods. Emphasis in this course will be given to Tuckman's Group Development Model on the "forming" stage. Prerequisites: BAK 210, BAK 220, CUL 200, CUL 230.

Credits: 4 Other: 8

BAK 245S**ADVANCED SUGAR DECOR AND CHOCOLATE SCULPTING**

In this course students are taught a variety of chocolate and sugar decorations and sculpting techniques to produce decorations that can embellish other desserts or artistic showpieces for display. They will learn techniques such as applying chocolate colors with a spray gun, use of various types of molds, making cut-out decorations and silk screens, that will be applied to showpieces. Students are introduced to various sugar techniques such as pastillage, saturated sugar, pulled sugar such as ribbons and flowers, blown sugar to create three-dimensional shapes, spun, piped, bubble, straw, and poured sugar, and airbrushing techniques to create a variety of showpieces. Students will use a given theme upon which they must design and build a sugar as well as a chocolate showpiece. Emphasis in this course will be given to Tuckman's Group Development Model on the "forming" stage. Prerequisites: BAK 210, BAK 220, CUL 200, CUL 230.

Credits: 4 Other: 8

BAK 250**PETIT FOURS, CANDIES AND CLASSICAL MIGNARDISE**

In this course students will learn how to make individual mini French pastries and petits fours such as the traditional éclair, fruit and lemon tartlettes, macaroons and madeleines. This course will allow students to practice many different types of elements used in French pastry such as pastry cream, buttercream, glazes, cream-based fillings, fruit-based fillings, chocolate-based fillings and doughs. Students will also learn how to present a beautiful display of their petits fours. Students learn how to make sugar confectioneries, such as pâté de fruit (fruit pastes)

in a variety of flavors, guimauve (marshmallow), praline, caramels with salted butter, chocolate caramels, nougats, lollipops and gummies.

Students will also learn how to properly package their candies and how to display them. Emphasis in this course will be given to Tuckman's Group Development Model on the "forming" stage. Prerequisites: BAK 210, BAK 220, CUL 200, CUL 230.

Credits: 4 Other: 8

BAK 255S**ADVANCED ARTISAN BREADS AND SHOWPIECES**

During this course students will learn a variety of specialty breads such as multigrain, 80% rye, flax seed rye, organic baguette and organic spelt. Students will make products with a large amount of rye flour, gaining an understanding of the technology and how to manipulate and work with these very specific types of doughs. This course will also focus on the production of a large variety of breads. Different analyses of the flour will be addressed, as well as the technology of making organic breads and the health and nutritional benefits of these recipes. Emphasis in this course will be given to Tuckman's Group Development Model on the "forming" stage. Prerequisites: BAK 210, BAK 220, CUL 200, CUL 230.

Credits: 4 Other: 8

BAK 275**BAKING AND PASTRY ARTS PRACTICAL AND WRITTEN EXAMINATION II**

In the baking practical examination, students are required to produce plated desserts from a mystery basket, demonstrate an understanding of baking and pastry production, and perform at an advanced level. Emphasis in this course will be given to Tuckman's Group Development Model on the "forming" stage. Prerequisites: BAK 240, BAK 250 and CUL 260.

Credits: 1 Other: 2

BAK 280**BAKING AND PASTRY ARTS INDUSTRY INTERNSHIP**

This course serves as a supervised work experience designed to expand career knowledge and experiential confidence while increasing knowledge, speed, timing, organization and the ability to execute industry skills on a repetitive basis. Students will receive a diverse work experience that is designed on a systematic rotation of different stations in the kitchen, dining room and general operations positions. Students can complete 100% of the experience in competencies that are relevant to Baking and Pastry Arts. Prerequisites: BAK 275, CUL 270.

Credits: 6 Other: 20

CCI: CULINARY ARTS**BAK 160****APPLIED BASIC CULINARY ARTS PRINCIPLES**

This introductory-level course covers the basic theory and skill sets used throughout the field of culinary arts. Topics covered include the use of hand tools and equipment found in the professional kitchen, as well as the exploration of ingredients and their functions. Students will gain a working knowledge of the fundamentals of kitchen operations, basic knife skills; an overview of stock, sauce and soup preparation; and coverage of the primary dry heat, moist heat and combination heat cooking methods. Students will also taste and evaluate products they create in class to enhance their understanding of the course material. Prerequisites: BAK 110, CUL 90, CUL 120, WR 121.

Credits: 4 Other: 8

CUL 090**APPLIED MATH FOR CULINARY ARTS**

In this course, students will learn mathematics critical to the discipline of Culinary Arts and Baking and Pastry Arts. The list of topics to be covered includes the following: metric system of measurement, unit conversion, yield testing and percentages, calculating food and beverage costs, recipe scale and conversions, and kitchen ratios. Also this course will include basic algebraic concepts with culinary applications, basic statistics and graphing, and graphing in a rectangular coordinate system. Most of the material within this course will be sourced from the course textbook; however, some

material will be introduced in class in the form of labs and interactive learning activities that relate directly to the discipline. Instruction will be provided by the Mathematics department in cooperation with a Cascade Culinary Institute chef instructor. Prerequisites: MTH 20 or placement exam score that places the student in MTH 60 or above; WR 65, 75 or 95 or a placement exam score that places the student in WR 121 or above.

Credits: 4 Lecture: 4

CUL 100 WANT TO BE A CHEF?

This course serves as an introduction to the field of culinary arts. Students considering declaring either Culinary Arts or Baking and Pastry Arts as a major, or students taking courses to enhance their placement scores to enter the next Cascade Culinary Institute cohort start, will find that this course will enable them to experience an introduction to cooking with a demonstration-based class that covers the basics of cooking technique and flavor profiling. Students will “get a taste” of the restaurant industry, while learning the secrets of being a successful culinary professional.

Credits: 2 Other: 4

CUL 110 CULINARY FOUNDATIONS I

In this introductory Culinary Arts course, students will have the opportunity to learn the basic principles that relate to the following: history of the restaurant industry, culinary nomenclature, equipment orientation, kitchen operations, food safety and sanitation, basic knife skills and a cooking technique overview. Students will also learn the understanding of ratios and technique in contrast to recipe usage. An introduction to stock, sauce and soup cookery will also be covered. This course will serve as the foundation for future skill development; hence, much of the course will be lecture and demonstration in orientation. Hands-on application of basic knife skills will take place at an individual level, while an introduction to classical and emulsion sauces will also be executed in teams. Emphasis in this course will be given to Tuckman’s Group Development Model on the “forming” stage. Students will complete the NRAEF ServSafe examination certification as part of this course. Prerequisites: MTH 20 or placement exam score that places the student in MTH 60 or above; WR 65, 75 or 95 or a placement exam score that places the student in WR 121 or above.

Credits: 4 Other: 8

CUL 120 STUDENT ACADEMIC SUCCESS AND RESTAURANT INDUSTRY CAREER PREP

The focus of this course is to promote student success in both the formal and informal learning opportunities at the Cascade Culinary Institute. Students will learn how to successfully prepare for their coursework while being exposed to work habit characteristics and professionalism standards that will lead to success within the restaurant industry. Guest speakers will present on a diversity of career path opportunities which will serve as a catalyst for students to begin researching career goals to join the workforce. Students will also begin the process of designing their personal e-folio, which is a web-based system utilized to celebrate student learning and success throughout their educational career. The e-folio is a documentation medium that will serve as a personal marketing tool to support students during their final post-graduation employment search process. An overview of presenting in the discipline, group dynamics and applied leadership development in the discipline and reading and writing in the discipline will also be covered. Lastly, students will be exposed to the philosophy of service learning and how it will influence their experientially-based learning activities throughout their academic career at Cascade Culinary Institute. Prerequisites: MTH 20 or placement exam score that places the student in MTH 60 or above; WR 65, 75 or 95 or a placement exam score that places the student in WR 121 or above.

Credits: 1 Lecture: 1

CUL 130 CULINARY NUTRITION AND APPLIED TECHNIQUES OF HEALTHY COOKING

This course serves as an introduction to viewing nutrition through the lens of food and cooking. Emphasis will be placed upon the relationship between the preparation of flavorful food and its impact upon the body. Current dietary guidelines along with the function of nutrients within

the body will be discussed. Modern healthy cooking techniques will be executed in the lab portion of this course with the intent to expose students to meeting the nutritional needs and requests of health conscious diners. Exposure to menu and recipe design will be covered as students will learn how to re-engineer classical recipes and present healthful and flavorful alternatives. Instruction will be provided by a registered dietician from the Nutrition department in cooperation with a Cascade Culinary Institute chef instructor. Prerequisites: BAK 110, CUL 90, CUL 120, WR 121.

Credits: 4 Other: 8

CUL 131 HOSPITALITY INDUSTRY SUPERVISION AND PRINCIPLES OF LEADERSHIP

This course introduces the student to the skills needed to be an effective leader within the hospitality industry. Class topics will include communicating effectively, planning, organizing, goal setting, supervising teams, decision-making, employee training and development. Students will also analyze cases, and role-play and become familiar with solving problems that relate to the industry. Students will examine the skills needed for effective leadership, the ethical dilemmas of leadership, the foundation and context of moral choice, the moral implication of decision making, and the impact upon staff morale, personal integrity, and citizenship. The purpose of the course is to develop an understanding of the student’s own leadership style and how that will influence the student’s transition into the workforce and future career goals. Lastly students will combine the two aspects of organizational behavior- the research and its applications- to understand how they improve the functioning of organizations and the satisfaction of the people who work within them.

Credits: 3 Lecture: 3

CUL 140 CULINARY FOUNDATIONS II

This course is intended to serve as a transition from the introductory skill and theory development that took place in Culinary Foundations I. Students will execute classical knife cuts at an accelerated rate with increased accuracy. Exposure to advanced terminology, flavor profiling and development, and ratio usage will serve as themes within this course. Emphasis will be placed upon food science principles and how they relate with the systematic process of the primary cooking techniques. Proper use of commercial equipment and understanding of ingredients, measurement, formulas and building individual confidence within a professional kitchen will aid in constructing a sound foundation of basic skills. Competency-based learning activities include the preparation of stocks, soups, mother sauces, contemporary sauces, vegetables, grains and eggs. Sanitation and safety, professionalism, organization and the competency-based learning activities serve as the primary function of the student’s educational experience. Emphasis in this course will be given to Tuckman’s Group Development Model on the “storming” stage. Prerequisites: CUL 90, CUL 110, CUL 120 and WR 121.

Credits: 4 Other: 8

CUL 150 PROCUREMENT, INGREDIENT IDENTIFICATION AND FOOD COST CONTROL

This course provides students an overview to the principles of cost control, product yield tests, vendor relations and procurement, and an introduction to ingredient identification and tasting. Lectures focus on the design and implementation of cost control measures and effective purchasing procedures. Students will be exposed to a basic understanding of profit and loss statements and how to track cost as it relates to the flow of food. In the lab portion of this course, students will also have the opportunity to place, receive and store food orders, conduct quality assurance on all food items, and execute an electronic end-of-month inventory utilizing advanced scanning technology. As an applied learning activity, students will be directly involved in the issuing of all course ingredient and supply requisitions. Lastly this course will serve as an opportunity for industry vendors to speak with students, conduct ingredient tastings, and provide updates regarding modern industry practices. Prerequisites: BAK 110, CUL 90, CUL 120, WR 121.

Credits: 3 Lecture: 1 Lab: 6

CUL 160**MENU COMPOSITION AND ANALYSIS**

Within this course students will conduct an analysis of menu design and effectiveness for a diversity of local restaurant establishments. Topics to be covered include standardized recipes and cost cards, understanding the income statement and profit and loss statements, nutritional aspects of menu planning and design, and menu configuration. Students will analyze and critique industry menus and create menus from the perspective of concept, clarity, cost, price, and efficiency. Students will also conduct an analysis of the sales mix for the Elevation Restaurant as part of a group assignment, evaluate the sales distribution of food and beverage items and conduct presentations to the Elevation Restaurant staff as to how to make perspective design and offering improvements. Prerequisites: BAK 110, CUL 90, CUL 120, WR 121.

Credits: 3 Lecture: 3

CUL 170**CULINARY FOUNDATIONS III**

This course builds on the techniques and principles demonstrated in both the Culinary Foundations I and II courses. Basic knife skills will continue to be exercised as an integrated learning activity within each competency. Within this course, knife skills and cooking techniques at a repetitive level are designed to build student confidence and skill via repetition. Utilization of a sound step-by-step process as it relates to the primary techniques will be highly emphasized within this course. Flavor profiling and pairing are further discussed and applied. Students will have the opportunity to develop skills in the identification, butchery and fabrication used in the cooking of a variety of meats, poultry and seafood products. Small sauce production and the preparation of vegetables, grains, legumes and pastas are emphasized within this course. Students will apply modern composition and presentation techniques utilized in the restaurant industry. Emphasis in this course will be given to Tuckman's Group Development Model on the "norming" stage. Prerequisites: CUL 130, CUL 140, CUL 150 and CUL 160.

Credits: 4 Other: 8

CUL 180**MODERN GARDE MANGER**

Modern garde manger can refer to different things in the professional kitchen. In many restaurants it is a station which is generally an entry-level cooking position within a restaurant as it often involves preparing salads or other smaller plates which can be heated and quickly plated without significant experience. In other high-profile classically influenced restaurants and hotels, the position pertains to classical cold food preparations. Within the context of this course, garde manger represents an introduction to the cold kitchen. Students will learn how to prepare canapes, hot and cold hors d'oeuvres, appetizers, salads, sandwiches, and a diversity of forcemeats; the role of garnishes, food preservation and ice sculpture centerpiece skill development. Students will also learn contemporary styles of presenting food for a buffet setting. Prerequisites: CUL 130, CUL 140, CUL 150 and CUL 160.

Credits: 4 Other: 8

CUL 190**CONTEMPORARY DINING ROOM SERVICE OPERATIONS, ETIQUETTE AND GUEST RELATIONS-ELEVATION RESTAURANT**

This course is designed to expose students to the importance of service, sanitation and appearance in a real-life dining room setting. The students will experience styles of service including ala carte, reception, banquet and deluxe buffet. Other topics include covering the primary guidelines for service, guest relations, etiquette, and phone and opentable.com reservation system management. Students will also learn about the different dining room staff positions and how they relate with the overall restaurant operation and guest experience. Proper management of tabletop flatware, china, and glassware combined with table set-up will also be covered. Students will also create service experience assignments analyzing the difference between good and bad service. Students will also have the opportunity to receive training and be awarded the OLCC Alcohol Service Permit. Prerequisites: CUL 130, CUL 140, CUL 150 and CUL 160.

Credits: 5 Lecture: 3 Lab: 6

CUL 195**CULINARY ARTS PRACTICAL AND WRITTEN EXAMINATION I**

This culinary examination tests knowledge and proficiency in the primary cooking techniques and predefined fundamental cooking methods (roasting, sauteing, frying, stewing, poaching, braising, and broiling). Students will be given an assignment (which includes a soup, protein, vegetable, and starch) to prepare, present, taste and explain. Prerequisites: CUL 130, CUL 140, CUL 150 and CUL 160.

Credits: 1 Other: 2

CUL 199**SELECTED TOPICS: CULINARY ARTS**

Provides opportunity for students with exceptional background or need to continue beyond normal Culinary Arts program content. Content and credit(s) earned are established by mutual agreement between instructor and student and detailed in written agreement at the start of the term.

Credits: 1 to 6

CUL 200**COMPREHENSIVE KITCHEN OPERATIONS FOR THE RESTAURANT INDUSTRY**

Students will learn to prepare modern and seasonal dishes in a restaurant setting and put previously learned skills into practice in the college's dining room. This course will emphasize cooking techniques and ingredients used in contemporary and classical cuisines and cover planning and ordering for production, station organization, preparation and plating, timing, palate development and other production realities of a restaurant. Prerequisites: CUL 170, CUL 180, CUL 190 and CUL 195.

Credits: 4 Lecture: 2 Lab: 6

CUL 205**SUSTAINABLE FOOD PRODUCTION SYSTEMS OVERVIEW AND OPERATIONAL ASSESSMENT**

This course is designed to expose students to the landscape of issues and interpretations of sustainability and how they directly relate with their careers within the restaurant and foodservice industry. The historical context of food distribution, culture and economics will be discussed. Students will then learn about the variables that influence cost and sustainable farm practices that relate with American culture, economics and the final influence upon the environment. Interactions with regional family farms will serve to provide both context and understanding as to how develop partnerships that will support sustainable farming initiatives. Through the use of the National Restaurant Association ConServe Solutions for Sustainability Program, the American Culinary Federation Sustainability Video Series, and the Green Restaurant Association students will learn best practices and develop individual and group skills to assess such practices within a local restaurant or food service establishment. They will learn sustainable practices that relate with environmental issues, disposable product management, chemical usage, food and beverage selection, energy and water conservation, building construction, and waste management.

Credits: 3 Lecture: 3

CUL 210**WINE AND SPECIALTY BEVERAGE MANAGEMENT AND SERVICE**

This course incorporates theoretical and practical information about the organization of a beverage program within the overall operation of a hospitality business. Topics to be covered include the legal and moral responsibilities that come with the sale of alcoholic beverages, purchasing and marketing. Information on distillation, brewing, mixology and non-alcoholic beverage service will also be presented. Emphasis will be placed on cost control measures for beverages, inventory, and sanitation laws and practices. Students will develop the skills to prepare and serve spirits, beer, coffee and tea. Prerequisites: CUL 170, CUL 180, CUL 190 and CUL 195.

Credits: 3 Lecture: 3

CUL 215 APPLIED GROWING AND RAISING OF FARM PLANTS AND ANIMALS

This course is designed to provide students with an overview of sustainable farm operations and maintenance as it relates with raising plants and animals. Students will learn the principles of running a sustainable farm, while also experience practice on the farm on a weekly basis that will enable hands-on exposure to caring for crops and animals. Students will apply sustainable farm management practices, while learning the difference between convention and sustainable farm practices. Students will gain an understanding of the value of high quality soil in the raising of healthy crops, and will learn the value of seed banks and soil analysis in the process of raising healthy food. Students will also learn about the variations of raising livestock in conventional venues with hormones and antibiotics. Lastly, students will work on a final project where they design and present a model of a sustainable farm concept.

Credits: 4 Other: 8

CUL 220 INTERNATIONAL CUISINE AND GLOBAL FLAVOR PROFILING

This hands-on lab course traces common global ingredients used in many regional dishes. It combines lecture, demonstration, production and presentation as the means to explore other cultures through the understanding of global culinary heritages. The attitudes and tastes of the more global and knowledgeable customers sets a greater expectation of balance in a professional culinarian's repertoire. Students examine food in the context of culture, geography, history and that influences cuisines have had on each other. Prerequisites: CUL 170, CUL 180, CUL 190 and CUL 195.

Credits: 4 Other: 8

CUL 225 APPLIED HARVESTING AND FOOD PRESERVATION PRINCIPLES

This course is intended to serve as an overview of sustainable harvesting techniques for plants and animals and the application of preservation techniques. Students will learn about the importance of sourcing seasonal foods as it relates to pricing, flavor and quality. Students will conduct harvesting techniques of plant based foods, and participate in slaughtering process of animal based foods. Students will process the harvested items and conduct a diversity of preservation techniques to include canning, smoking, pickling, freezing, freeze-drying, dehydrating, etc. Students will execute a final harvest event for regional farmers and ranchers to celebrate the partnership with Cascade Culinary Institute and local sustainable agricultural partners.

Credits: 4 Other: 8

CUL 230 HOSPITALITY INDUSTRY SUPERVISION AND PRINCIPLES OF LEADERSHIP

This course introduces the student to the skills needed to be an effective leader within the hospitality industry. Class topics will include communicating effectively, planning, organizing, goal setting, supervising teams, decision-making, employee training and development. Students will also analyze cases, and role-play and become familiar with solving problems that relate to the industry. Students will examine the skills needed for effective leadership, the ethical dilemmas of leadership, the foundation and context of moral choice, the moral implication of decision making, and the impact upon staff morale, personal integrity, and citizenship. The purpose of the course is to develop an understanding of the student's own leadership style and how that will influence the student's transition into the workforce and future career goals. Lastly students will combine the two aspects of organizational behavior - the research and its applications - to understand how they improve the functioning of organizations and the satisfaction of the people who work there. Prerequisites: CUL 170, CUL 180, CUL 190 and CUL 195.

Credits: 3 Lecture: 3

CUL 231 CULINARY NUTRITION AND APPLIED TECHNIQUES OF HEALTHY COOKING

This course serves as an introduction to viewing nutrition through the lens of food and cooking. Emphasis will be placed upon the relationship between the preparation of flavorful food and its impact upon the body. Current dietary guidelines, along with the function of nutrients within the body, will be discussed. Modern healthy cooking techniques will be executed in the lab portion of this course with the intent to expose students to meeting the nutritional needs and requests of health conscious diners. Exposure to menu and recipe design will be covered, as students will learn how to reengineer classical recipes and present healthful and flavorful alternatives. Instruction will be provided by a Registered Dietician in cooperation with a Chef Instructor. Prerequisites: CUL 170, CUL 180, CUL 190 and CUL 195.

Credits: 4 Other: 8

CUL 235S FARM TO TABLE AND SUSTAINABLE CUISINE PRACTICES

Students gain valuable insight into the most significant trend in the culinary world today. Students discover the benefits of using locally produced crops and products at their peak of freshness through hands-on experience at a working farm. Students learn relevant techniques - from sourcing sustainable local ingredients to preparing them - and the short- and long-term advantages of this vital practice. Students will understand small-scale farming and food production - from local farms to farmers' markets to the kitchen. There will be field trips during the course. A permission slip will be required if under the age of 18. Students provide their own transportation or arrange carpooling with fellow classmates. Prerequisites: CUL 200, CUL 210, CUL 220 and CUL 230.

Credits: 4 Other: 8

CUL 240 THE ART OF BUTCHERY AND CHARCUTERIE

In this course students learn skeletal and muscular composition of animals raised for consumption and how they fabricated into primal and sub primal cuts. An overview of quality and grading along with terminology, availability and commonly used industry cuts. Class will include small carcass breakdown and fabrication for the charcuterie portion combined with a discussion of locally available products. Students will prepare a variety of charcuterie products from fresh sausage to dry cured salamis, brined to smoked poultry and seafood. Traditional galantines, terrines and pates will be discussed and prepared with a modern approach. Prerequisites: CUL 200, CUL 210, CUL 220 and CUL 230.

Credits: 4 Other: 8

CUL 245S MODERNIST CUISINE AND THE EVOLUTION OF COOKING

This course introduces students to the scientific investigation of cooking from the ground-breaking work of Nicholas Kurti through today's leading proponents, Grant Achatz, Ferran Adria and Heston Blumenthal. Techniques of specification, thermal immersion, liquid nitrogen for flash freezing, hydrocolloids for thickening and gelling will be applied in the kitchen to a variety of foods. Food pairing methods will be reviewed with the goal of inspiring new food combinations which are theoretically sound on a basis of their flavor. Prerequisites: CUL 200, CUL 210, CUL 220 and CUL 230.

Credits: 4 Other: 8

CUL 250 APPLIED BASIC BAKING AND PASTRY PRINCIPLES

This introductory-level course covers the basic theory and skill sets used throughout the field of baking and pastry. Topics covered include the use of hand tools and equipment found in a bakeshop as well as the exploration of baking and pastry ingredients and their functions. Students will gain a working knowledge of the major methods such as creaming, blending, foaming, meringues, pre-cooked, cut-in, lamination, straight dough, custards, frozen desserts, chocolates and sauces. Students will also taste and evaluate products they create in class to enhance their understanding of the course material. Prerequisites: CUL 200, CUL 210, CUL 220 and CUL 230.

Credits: 4 Other: 8

CUL 255S**EVENT PLANNING AND EXECUTION WITH MODERN BANQUET COOKERY**

This course examines the varied ways in which banquets and catering events may be executed. Terms relating to equipment, food preparation, service and presentation will be discussed. Students will prepare a menu each day, following the principles and techniques associated with preparing and serving food to large groups, as well as concentrating on principles of modern batch cookery. An emphasis will be placed on maintaining quality and foundational cooking methodology. Students will also learn how to organize, plan and operate a banquet kitchen. Cooking applications are at an advanced level in preparation for later work in the public restaurants. Prerequisites: CUL 200, CUL 210, CUL 220 and CUL 230.

Credits: 4 Other: 8

CUL 260**RESTAURANT INDUSTRY CAREER SUCCESS AND INTERNSHIP PREPARATION**

Continued instruction in the process of securing one's externship position, including review and critique of a strong resume and cover letter. Interviewing techniques are discussed. Securing the position is reviewed along with the training agreement, the follow-up process and continued discussion of career networking and career planning. Prerequisites: CUL 200, CUL 210, CUL 220 and CUL 230.

Credits: 1 Lecture: 1

CUL 265S**ADVANCED SKILL DEVELOPMENT AND CULINARY COMPETITION MASTERY**

Competitions play a vital role in culinary arts as they continually raise the standards of culinary excellence. There is no better way for culinarians to hone their craft than by putting their skills and knowledge to the test in a competitive format. Continually raises the standards of culinary excellence and professionalism. Nurtures the creativity of individual chefs. Provides a showcase for individual skills, techniques and styles. Prerequisites: CUL 200, CUL 210, CUL 220 and CUL 230.

Credits: 4 Other: 8

CUL 270**CULINARY ARTS CAPSTONE INTERNSHIP - ELEVATION RESTAURANT DINNER**

Culinary Arts and Baking & Pastry Arts AAS students facilitate the food production and service of the student-operated restaurant, Elevation. The food items are prepared using techniques and knowledge learned in all classes taken during their culinary education within both disciplines. Students are evaluated on the skills needed to support all operational aspects of a fine dining full-service restaurant. Assessment measures student knowledge and skills in the following areas: food safety and sanitation, organization, professionalism, and the applied learning competencies that they experienced within both the Culinary Arts and Baking & Pastry Arts curriculum. This final capstone course is designed to serve as a compilation of the entire curricular experience and to provide a last opportunity for assessment and instructor evaluation of student skill sets prior to graduation. Students will experience a full rotation of all of the appropriate stations in both the kitchen and dining room alike in order to experience the entire restaurant operation, while gaining the advantage of repetition and confidence building as an outcome. Students will also experience station rotation assignments that will enable them to synthesize, evaluate and alter the restaurant operation from a food preparation, management, guest service experience, food costing, marketing, and financial perspective. Emphasis in this course will be given to Tuckman's Group Development Model on the "performing" stage. Prerequisites: CUL 240, CUL 250 and CUL 260.

Credits: 6 Other: 18

CUL 275**CULINARY ARTS PRACTICAL AND WRITTEN EXAMINATION II**

This culinary examination tests students' understanding of culinary principles and more advanced proficiency in the principles of cooking. Students will be given a food selection tray and will construct a menu from it which will include a soup, vegetable, starch, and animal protein.

They are also tested on station setup, preparation skills, product presentation and flavor, and ability to answer a range of questions posed by the faculty member.

Credits: 1 Other: 2

CUL 275S**FOOD IN THE MEDIA - THE BLOGOSPHERE, PHOTOGRAPHY AND SOCIAL MEDIA**

This course will provide students an overview of food writing that is specific to the restaurant industry. An analysis of the use of blogs within the restaurant industry will take place, along with an applied learning activity that relates to the development of an active blog for both Cascade Culinary Institute and Elevation Restaurant. Students will blog about their dining experience in Elevation Restaurant throughout the term, while telling the story of their learning experience within an assigned lab course. They will support the blogosphere experience with the integration of photography and social media usage on the CCI Facebook and Web page and Elevation Web page. Students will blend the outcomes in blogging and food writing, food photography and the use of a diversity of social media mediums to enhance their personal marketing for future career advancement as an outcome of this course. Prerequisites: CUL 200, CUL 210, CUL 220 and CUL 230.

Credits: 4 Other: 8

CUL 280**CULINARY ARTS INDUSTRY INTERNSHIP**

This course serves as a supervised work experience designed to expand career knowledge and experiential confidence while increasing knowledge, speed, timing, organization and ability to execute industry skills on a repetitive basis. Students will receive a diverse work experience that is designed on a systematic rotation of different stations in the kitchen, dining room and general operations positions. Students can complete 100% of the experience in competencies that are relevant to Culinary Arts. Prerequisites: CUL 270 and CUL 275.

Credits: 6 Other: 20

CUL 290**SERVICE LEARNING AND E-FOLIO PRESENTATION**

This course serves as a culmination of the student's academic career at Cascade Culinary Institute and COCC. The goal of this course is to empower students as they transition across the threshold from academia to either a four-year institution to continue their education or to the hospitality industry workforce. Emphasis in this course will also be given to Tuckman's Group Development Model on the "adjourning" stage, as this content will aid students as they transition from college to the workforce, while also serving to set up a formal network for support and resources for their post graduation experience. Students will also learn at this time about the CCI Alumni Association, CCI graduation celebration and dinner, and how to stay involved with CCI as industry leaders after graduation. Students will design a self-marketing promotional video or presentation that will be integrated with their personal e-portfolio, in which they will elaborate on their academic career and service learning activities while enrolled at CCI. The goal is to celebrate student success, while also empowering students as they are on the verge of graduation. Discusses ACF Certified Culinarian and Certified Pastry Culinarian certifications. Prerequisites: CUL 270 and CUL 275.

Credits: 1 Lecture: 1

CUL 295**FARMING AND REGIONAL AGRICULTURE INTERNSHIP**

This course serves as a supervised work experience designed to expand career knowledge and experiential confidence while increasing knowledge, speed, timing, organization, and ability to execute industry farm management and operational skills on a repetitive basis. Students will receive a diverse work experience that is designed on a systematic rotation of different stations on the farm. Based upon the Sustainable Food Systems for Culinary Arts Certificate curriculum design.

Credits: 4 Other: 13.3

CUL 2955 RESTAURANT INDUSTRY ENTREPRENEURSHIP AND CONCEPT DEVELOPMENT

This course introduces students to the process of food service outlet concept development and general operations. Examples of design concepts can include full-service, quick service, mobile food outlets, pop-ups and micro outlets. Class topics include facility design and planning, equipment selection process, menu design and analysis, budgeting and controls, staffing and leadership skill development, technology integration and organizational marketing. Students will have the opportunity to partner with a regional industry mentor as it relates to restaurant concept development and operations of an actual local restaurant. Students will then work in teams to develop a "real" restaurant concept that will be presented to a panel of regional industry professionals and CCI faculty/staff at the conclusion of the term. A restaurant design simulation program will support the student learning outcomes in this course. Prerequisites: CUL 200, CUL 210, CUL 220 and CUL 230.

Credits: 4 Other: 8

DM 111 PRACTICUM: HOSPITALITY SUPERVISION

Practical application of concepts presented in Hospitality Industry Supervision and Principles of Leadership (CUL 230). Includes work experience, project completion and completion of a workbook. Recommended preparation: CUL 230.

Credits: 1 Other: 3

DM 121 PRACTICUM: CULINARY FOUNDATIONS I

Practical application of concepts presented in Culinary Foundations I (CUL 110). Includes work experience, project completion and completion of a workbook. Recommended preparation: CUL 110.

Credits: 1 Other: 3

DM 131 PRACTICUM: PROCUREMENT, INGREDIENT IDENTIFICATION AND FOOD COST CONTROL

Practical application of concepts presented in Procurement, Ingredient Identification and Food Cost Control (CUL 150). Includes work experience, project completion and completion of a workbook. Recommended preparation: CUL 150.

Credits: 1 Other: 3

DM 210 NUTRITION THERAPY

In-depth study of common diseases and the specific diets used in their treatment. Class format is based on case studies, with nutrition assessment including review of laboratory data, developing care plans and discussion of recommended diet modifications. Co-requisites: DM 211.

Credits: 3 Lecture: 3

DM 211 PRACTICUM: NUTRITION THERAPY

Practical application of concepts presented in Nutrition Therapy. Includes work experience, attendance at patient care conferences and completion of a workbook. Recommended preparation: DM 210.

Credits: 1 Other: 3

DM 221 PRACTICUM: FOOD SERVICE NUTRITION

Practical application of concepts presented in Culinary Nutrition and Applied Techniques of Healthy Cooking (CUL 130). Includes work experience, project completion and completion of a notebook. Recommended preparation: CUL 130.

Credits: 1 Other: 3

CAREER/LIFE PLANNING

HD 109 EFFECTIVE JOB SEARCH STRATEGIES

Introduces students to an effective, comprehensive approach to the job search process. Students will learn how to develop a job search plan, accurately and effectively complete job applications, write resumes and cover letters accordingly, identify marketable skills, and prepare for job interviews.

Credits: 2 Lecture: 2

HD 110 CAREER PLANNING

Career Planning is a lifelong process that strengthens academic and career decisions. The process of self-awareness includes clarifying values, exploring preferences, defining interests, identifying skills and strengths, and developing strategies to support and use personal preferences. Personal knowledge is merged with current labor market information to begin the lifelong process of career decision-making.

Credits: 3 Lecture: 3

HD 114 LIFE PLAN FOR WOMEN

Credits: 2 Lecture: 2

HD 188 SPECIAL STUDIES: HUMAN DEVELOPMENT

Credits: 1 to 3

HD 190 OLI LEADERSHIP SKILLS I

HD 190 is the first in a 3-quarter series. This first quarter lays the foundation for the series by providing high school students with activities that encourage them to: establish personal and team goals; develop effective teamwork skills; explore and articulate their cultural identity; explore aspects of leadership including varying styles, qualities, and cultural implications. Interaction with college mentors prepares students of varying races and ethnicities to embrace post-secondary education as both desirable and attainable. Instructor approval required.

Credits: 1 Other: 2

HD 191 OLI LEADERSHIP SKILLS II

HD 191 is the second in a three-quarter series. Building upon the foundation of leadership and teamwork considered in a cultural context, high school students explore issues of personal responsibility; strategies for advocacy and organizing; and opportunities for developing intercultural awareness. Interaction with college mentors expands to focus on the college challenges, requirements, tools for success, and the application process. Instructor approval required.

Credits: 1 Other: 2

HD 192 OLI LEADERSHIP SKILLS III

HD 192 is the third in a 3-quarter series. It provides high school students with opportunities to explore and attain skills in leadership, teamwork, communication and conflict resolution. Interaction with college mentors prepares students of varying races and ethnicities to embrace post-secondary education as a viable option. Instructor approval required.

Credits: 1 Other: 2

HD 193 OLI MIDDLE SCH. MENTORING I

HD 193 is the first in a three-term series. This first term provides the foundation for developing skills in mentoring Latino middle school students. Students explore the concepts of leadership, mentoring, teamwork, conflict resolution, intercultural communication and public speaking. This course fosters cultural pride and appreciation for the value of continuing education. Recommended preparation: HD 190, HD 191 and HD 192 or instructor approval.

Credits: 1 Lecture: 1

HD 194**OLI MIDDLE SCHOOL MENTORING II**

HD 194 is the second in a three-term series. This second term builds on the foundation of the previous term to develop skills in mentoring Latino middle school schools. Students continue in the exploration of the concepts of leadership, mentoring, teamwork, conflict resolution, intercultural communication and public speaking. This program fosters cultural pride and appreciation for the value of continuing education. Recommended preparation: HD 193 or instructor approval.

Credits: 1 Lecture: 1

HD 195**OLI MIDDLE SCHOOL MENTORING III**

HD 195 is the third in a three-term series. This third term builds on the foundation of the previous two terms to develop skills in mentoring Latino middle school students. Students continue in the exploration of the concepts of leadership, mentoring, teamwork, conflict resolution, intercultural communication and public speaking. This program fosters cultural pride and appreciation for the value of continuing education. Recommended preparation: HD 194 or instructor approval.

Credits: 1 Lecture: 1

HD 199**SELECTED TOPICS: HUMAN DEVELOPMENT**

Credits: 1 to 4

HD 211**MENTORING FOR OLI INSTITUTE I**

HD 211 is the first class in the three-term mentoring course sequence. It provides a theoretical and practical framework for exploring the mentoring process as well as intercultural skills and effective communication strategies. College mentors learn and practice skills necessary to promote lifelong learning and leadership. They demonstrate and share these skills with high school students, who are primarily of Latino descent, in the tri-county area at nine intensive day-long sessions one Saturday per month. The mentoring relationship requires a three-term commitment. Recommended preparation: HD 100CS or instructor approval.

Credits: 3 Lecture: 2 Other: 2

HD 212**MENTORING FOR OLI INSTITUTE II**

HD 212 is the second course in the three-term series. Students will build on the skills required to promote lifelong learning and leadership, and to apply these skills to their own lives as well as to convey them to high school student mentees, who are primarily of Latino descent. Practice of the mentoring process, team building, communication and presentation skills are covered in class and demonstrated with OLI mentees at day-long sessions one Saturday per month. Recommended preparation: HD 211 or instructor approval.

Credits: 3 Lecture: 2 Other: 2

HD 213**MENTORING FOR OLI III**

HD 213 is the third course in the three-term series. Students will build on the skills required to promote lifelong learning and leadership, and to apply these skills to their own lives as well as to convey them to high school student mentees, who are primarily of Latino descent. Practice of the mentoring process, team building, communication and presentation skills are covered in class and demonstrated with OLI mentees at day-long sessions one Saturday per month. Recommended preparation: HD 212 or instructor approval.

Credits: 3 Lecture: 2 Other: 2

HD 299**SELECTED TOPICS: HUMAN DEVELOPMENT**

Credits: 1 to 6

CHEMISTRY**CH 104****INTRODUCTION TO CHEMISTRY I**

Introduces basic principles of general chemistry, including atomic theory, chemical formulas and equations, bonding, stoichiometry, acid/base chemistry, and solutions. Supporting laboratory work included.

Prerequisite: MTH 95 or higher. Not designed for science majors.

Credits: 5 Lecture: 4 Lab: 3

CH 105**INTRODUCTION TO CHEMISTRY II**

Builds on concepts from CH 104 introducing basic principles of general and organic chemistry, including bonding in carbon compounds, equilibrium, stereochemistry and functional group chemistry. Supporting laboratory work included. Prerequisite: CH 104 or equivalent. Not designed for science majors.

Credits: 5 Lecture: 4 Lab: 3

CH 106**INTRODUCTION TO CHEMISTRY III**

Builds on concepts from CH 105 introducing basic principles of general and biochemistry, including consideration of protein, carbohydrate and lipid structure and metabolism, bioenergetics, enzymes and nucleic acid chemistry. Prerequisite: CH 105 or equivalent.

Credits: 5 Lecture: 4 Lab: 3

CH 188**SPECIAL STUDIES: CHEMISTRY**

Credits: 1 to 4

CH 221**GENERAL CHEMISTRY I**

Explores experimental and theoretical principles of chemistry including matter, measurement, atomic structure, periodicity, stoichiometry, solutions, molecular structure, bonding, oxidation/reduction and thermochemistry. The course is algebra-based and includes supporting laboratory work. This course is appropriate for science and engineering majors. High school chemistry is recommended. Prerequisite: MTH 111 or higher.

Credits: 5 Lecture: 4 Lab: 3

CH 222**GENERAL CHEMISTRY II**

This course builds on concepts from CH 221, by exploring experimental and theoretical principles of chemistry including gases, liquids, solids, solutions, kinetics, equilibrium, acids and bases. The course is algebra-based and includes supporting laboratory work. This course is appropriate for science and engineering majors. Prerequisite: CH 221.

Credits: 5 Lecture: 4 Lab: 3

CH 223**GENERAL CHEMISTRY III**

This course builds on concepts from CH 222 by exploring experimental and theoretical principles of chemistry including solubility equilibria, acid-base equilibria, electrochemistry, nuclear chemistry, metals and organic compounds. The course is algebra-based and includes supporting laboratory work. This course is appropriate for science and engineering majors. Prerequisite: CH 222.

Credits: 5 Lecture: 4 Lab: 3

CH 288**SPECIAL STUDIES: CHEMISTRY**

Credits: 1 to 4

COMPUTER & INFORMATION SYSTEMS

CIS 010

COMPUTER KEYBOARDING

Develops touch keystroking skills for persons who will be using computer terminals for information processing. Emphasis on proper techniques, speed and accuracy development on alphabetic keyboard and numeric keypad. For non-office administration majors. Pass/No pass grading.

Credits: 1 Other: 2

CIS 070

INTRODUCTION TO COMPUTERS: WINDOWS

Students will gain confidence in the use of personal computers and the Windows operating system. Topics include fundamental computer terminology, introductory use of a graphic user interface including mouse usage, windows, menus, icons and dialog boxes. Also included are file management and an introduction to word processing, web browsing and email. Pass/No pass grading.

Credits: 2 Lecture: 1 Other: 2

CIS 085

INTRODUCTION TO AUTOCAD

An introductory course in AutoCAD designed for the non-CAD user. Students will be exposed to basic AutoCAD fundamentals focusing on drawing. Students will gain confidence in the use of AutoCAD through short lectures and practical hands on experience. Topics include navigating the AutoCAD system, drawing, viewing and printing.

Credits: 2 Lecture: 2

CIS 099

SELECTED TOPICS: COMPUTER AND INFORMATION SYSTEMS

Credits: 1 to 4

CIS 120

COMPUTER CONCEPTS

Follows the Internet and Computing Core Certificate (IC3) national standard for digital literacy used at numerous colleges and universities across the country as well as industry. The course objectives are broken down into three modules: Computer Fundamentals, Key Applications, and Living Online. This class provides students with the knowledge and skills needed to use computers successfully at the college level. Recommended preparation: Keyboarding, CIS 070 or equivalent computer skills.

Credits: 4 Lecture: 3 Other: 2

CIS 122

INTRODUCTION TO PROGRAMMING

Introduction to computer programming for those with little or no programming experience. Provides a strong, fundamental understanding of Visual Basic.Net. Introduces students to elementary programming concepts of algorithm design, control structures, and user interface. Students will use the basic constructs of programming including constants, variables, expressions and control structures for sequential, iterative and decision processing to solve a variety of problems. Recommended preparation: CIS 120 and CIS 131.

Credits: 4 Lecture: 3 Other: 2

CIS 125A

ACCESS

Introduction to the most popular desktop database software, Microsoft Access. This course will help students prepare for the latest Microsoft certification for Access (#77-885) which helps students validate the skills industries require. The course teaches users how to create and modify database tables, forms, queries and reports. The focus is on optimizing the databases for efficient data entry and generating comprehensive reports. Database design issues are discussed but not emphasized in this course. Recommended preparation: CIS 131.

Credits: 4 Lecture: 3 Other: 2

CIS 125A1

AUTOCAD 1

First course in a two-term sequence introducing AutoCAD software as a drafting tool. Instruction will be given in file handling, basic command function, drafting techniques, presentation and plotting. Architectural and mechanical applications will be used in lab exercises to demonstrate AutoCAD commands. Work will be completed with AutoCAD.

Recommended preparation or recommended to be taken with: CIS 120.

Credits: 4 Lecture: 3 Other: 2

CIS 125A2

AUTOCAD 2

Second course in a two-term sequence covering intermediate AutoCAD commands including dimension styles, templates, CAD standards, attribute blocks, attribute extraction, external references, object linking/embedding, advanced drawing set-up and plotting, and the program parameter file. Work will be completed with AutoCAD. Recommended preparation: CIS 125A1.

Credits: 4 Lecture: 3 Other: 2

CIS 125DW

INTRODUCTION TO DREAMWEAVER

Explores the skills necessary to become an Adobe Certified Associate (ACA) in Web communication using Adobe Dreamweaver. Outcomes include an overall understanding of Dreamweaver as well as setting project requirements and identifying, building, and evaluating rich communication elements. Recommended preparation: CIS 120 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 125E

EXCEL

Covers intermediate and advanced features of Excel 2010 such as lists, pivot tables, working with multiple worksheets, templates, what-if-analysis, data tables, advanced formulas and functions, goal seek, solver, consolidating and importing data. Students will apply these Excel features to create and revise business worksheets. Recommended preparation: CIS 120 and CIS 131.

Credits: 4 Lecture: 3 Other: 2

CIS 125FL

INTRODUCTION TO FLASH

Explores the skills necessary to become an Adobe Certified Associate (ACA) in rich media communication using Adobe Flash. Outcomes include an overall understanding of Flash as well as setting project requirements and identifying, building, and evaluating rich media elements. Recommended preparation: CIS 120 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 125G

PHOTOSHOP

Covers the learning objectives as outlined by Adobe to become an Adobe Certified Associate (ACA) in visual communication using Adobe Photoshop. Outcomes include an overall understanding of Photoshop as well as setting project requirements, identifying design elements, manipulating images, and evaluating digital images. Recommended preparation: CIS 120 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 125I

ADOBE ILLUSTRATOR

The course follows the Adobe Certification Guidelines for Adobe Illustrator. The goal of this course is help students be prepared to take the Adobe® Illustrator Certification Exam. The Adobe Certified Expert (ACE) certification is internationally recognized. An Adobe Certified Expert (ACE) is a person who has demonstrated a professional level in proficiency with one or more Adobe software products. Recommended preparation: CIS 120 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

**CIS 125V
VISIO**

This course is an introduction to Microsoft Visio, a vector-based illustration tool. Students will learn fundamental skills while creating several types of basic diagrams including workflows, flowcharts, organizational charts, directional maps, network and floor plans. Recommended preparation: CIS 120.

Credits: 4 Lecture: 3 Other: 2

**CIS 131
SOFTWARE APPLICATIONS**

Course outcomes focus on learning Word and Excel competencies as defined by the industry standard Microsoft Office Specialist (MOS) certification for Office 2010. Recommended preparation: CIS 120 or IC3 certification and MTH 060/085 or BA 104.

Credits: 4 Lecture: 3 Other: 2

**CIS 133JS
INTRODUCTION TO JAVASCRIPT**

Expands on existing Web development skills by introducing JavaScript for client-side scripting. Students will learn JavaScript language/syntax, functions, objects, arrays and event handling as they are used for dynamic page content--form validation, user interaction and navigation menus. Recommended preparation: CIS 120 and CIS 195 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

**CIS 133P
INTRODUCTION TO PHP**

Expands on existing Web development skills by introducing PHP for server-side scripting. Students will learn to use PHP and MySQL (database) to create websites with email forms, file submission forms, dynamic content, customer/client logins, and discussion boards. Recommended preparation: CIS 120, CIS 122 and CIS 195 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

**CIS 135A1
AUTODESK REVIT 1**

Introduces fundamental aspects of architectural drafting with AutoDESK Revit software. Covers drafting of residential and light commercial buildings, sections and elevations, schedules, design layouts, details and working drawings. Recommended preparation: CIS 125A1.

Credits: 4 Lecture: 3 Other: 2

**CIS 135A2
AUTODESK REVIT 2**

Continues with AutoDESK Revit, covering construction drawing sets, commercial planning, residential remodeling, drawing details and drawing production. Term culminates with targeted project covering aspects studied in Revit. Recommended preparation: CIS 135A1.

Credits: 4 Lecture: 3 Other: 2

**CIS 135C1
AUTOCAD CIVIL 3D**

Students will learn basic civil drafting theory along with developing drawings that include plats, related civil infrastructure, public utilities, contours and roads. Work will be completed with AutoCAD Civil 3D. Recommended preparation: CIS 125A2.

Credits: 4 Lecture: 3 Other: 2

**CIS 135DB
DATABASE THEORY/SQL**

An introductory course of database concepts. This course includes discussion of the parts of a database and database management systems. Other topics include database design theory, the concept of normalization, and understanding data models. Introduces SQL. Students will be introduced to several of the most popular database management systems such as Access, Microsoft SQL Server and MySQL. Recommended preparation: CIS 120 or IC3 certification, CIS 131.

Credits: 4 Lecture: 3 Other: 2

**CIS 135S1
SOLIDWORKS 1**

This course is an introduction to engineering graphics as used for the communication of concepts in design and manufacturing. Practical applications using solid modeling software will be used to capture design intent and to generate engineering drawings. Adherence to industrial standards and formats will be maintained.

Credits: 4 Lecture: 3 Other: 2

**CIS 135S2
SOLIDWORKS 2**

This course continues the discussion of engineering graphics as used for the communication of concepts in design and manufacturing. Practical applications using solid modeling software will be used in comprehensive assemblies, working drawing sets, sheet metal modeling, weldments, content reuse, functional design and assembly simulation. Adherence to industrial standards and formats will be maintained.

Credits: 4 Lecture: 3 Other: 2

**CIS 140
A+ ESSENTIALS I**

A+ Essentials is the starting point for a career in IT. The course outcomes cover the fundamentals of computer technology, installation and configuration of PCs, laptops and related hardware, and basic networking concepts. The course also prepares students to pass the vendor neutral CompTIA A+ Essentials certification exam (220-801). Recommended preparation: CIS 120 and CIS 178. Recommended to be taken with CIS145.

Credits: 4 Lecture: 3 Other: 2

**CIS 145
A+ ESSENTIALS II**

The course prepares students with the skills and knowledge associated with the CompTIAs A+ 220-802 outcomes. The curriculum covers the skills required to install and configure PC operating systems, as well as configuring common features (e.g. network connectivity and email) for mobile operating systems Android and Apple iOS. Recommended Preparation: CIS 120 and CIS 178. Recommended to be taken with CIS140.

Credits: 4 Lecture: 3 Other: 2

**CIS 151C
CISCO INTERNETWORKING**

First of a three-course sequence for preparation of the Cisco Certified Network Associate (CCNA) certification exam. Cisco Internetworking I implements Cisco's online semester 1 curriculum developed by Cisco Systems experts. Covers OSI models, LANs, cabling, cabling tools, topologies, networking devices, IP addressing, network standards and various protocols. The lecture/lab environment allows the student the opportunity to practice skills learned throughout the term. Recommended preparation: CIS 179.

Credits: 4 Lecture: 3 Other: 2

**CIS 152C
CISCO ROUTER CONFIGURATION**

Second of a three-course sequence for the preparation of the Cisco Certified Network Associate (CCNA) certification exam. Cisco Router Configuration implements Cisco's online semester 2 curriculum developed by Cisco Systems experts. Topics include commands used for configuring and monitoring a Cisco 2600 series router. Also included are commands used to secure a LAN. The lecture/lab environment allows the student the opportunity to practice skills learned throughout the term. Recommended prerequisite: CIS 151C.

Credits: 4 Lecture: 3 Other: 2

**CIS 154C
CISCO VLAN AND WAN TECHNOLOGIES**

Third of three-course sequence for the preparation of the Cisco Certified Network Associate (CCNA) certification exam. Cisco VLAN and WAN technologies implements Cisco's online semester 3 and semester 4 curriculum developed by Cisco Systems experts. Topics include LAN switches, VLAN, LAN and WAN design, routing protocols and

WAN protocols. The lecture/lab environment allows the student the opportunity to practice skills learned throughout the term. Recommended preparation: CIS 152C.

Credits: 4 Lecture: 3 Other: 2

CIS 178

INTERNET IN DEPTH

Introduces the concepts and technologies of the Internet. The course explores a wide variety of Internet protocols and examines the history and infrastructure of the Internet. Students will learn about web applications, E-commerce, social media, and how to create and publish a Web site with common design tools. Topics include World Wide Web, secure use of the Internet, web browser and e-mail basics, searching the Web, E-learning resources, mass communication and real-time communication on the Internet. Recommended preparation: Keyboarding, CIS 070 or equivalent computer skills.

Credits: 4 Lecture: 3 Other: 2

CIS 179

NETWORKING ESSENTIALS

The course covers network technologies, installation and configuration, media and topologies, management, and security. The outcomes prepare students for job roles, which include network administrator, network technician, network installer, help desk technician and IT cable installer and the CompTIA N10-005 certification exam. Prerequisites: CIS 140 and CIS 145.

Credits: 4 Lecture: 3 Other: 2

CIS 195

WEB DEVELOPMENT I

Explores the use of development tools, HTML and CSS to create valid websites for a variety of topics. Students will practice site planning, design, navigation, usability and publishing. Recommended preparation: CIS 120 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 198

COMPUTER AND INFORMATION SYSTEMS PROJECTS

Students are placed in local businesses working on small projects that a local business might need. Student is responsible for project, documentation and users' manuals, if necessary. Student is sponsored by a CIS instructor. Recommended preparation: CIS 120 and CIS 131 or instructor approval.

Credits: 3 Other: 9

CIS 199

SELECTED TOPICS: COMPUTER AND INFORMATION SYSTEMS

Reserved for courses that cover topics of general interest, projects in computer science and experimental courses. Instructor approval required.

Credits: 1 to 7

CIS 233P

WEB PROGRAMMING

This course will expose students to techniques used to create interactive, dynamic content. Students will design interactive user interfaces (using JavaScript and XML) which will interact with custom databases residing on a server (using PHP and MySQL). The course will explore the concepts of event-driven programming to create interactive interfaces using dynamic content. Students will write server-side scripts, design custom databases to both store, and provide access to content. The course will conclude with a final project where students will design their own dynamic websites. Recommended preparation: CIS133P, CIS133J or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 235

IT IN BUSINESS

Uses advanced software features in Word, Excel, PowerPoint and Access to solve and analyze business problems using integration of the applications in a business environment. Recommended preparation: CIS 120 and CIS 131.

Credits: 4 Lecture: 3 Other: 2

CIS 244

INFORMATION SYSTEMS ANALYSIS

Provides broad overview of the skills necessary for a systems analyst, consultant or project manager to work as an independent contractor or as part of an IT department. Topics include information systems concepts and tools, goal setting, project management, working in teams, documentation and communication. Recommended preparation: CIS 120 and CIS 131.

Credits: 4 Lecture: 3 Other: 2

CIS 275

INTRODUCTION TO DATABASE MANAGEMENT AND DESIGN

Introduces students to the design, uses, and terminology of a database management system. Identifies entity-relationship and object data modeling techniques, the importance of normalizing data models and methods to implement the models into a database schema. Introduces students to Structured Query Language. Recommended preparation: CIS 135DB or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 276

ADVANCED SQL

Focuses on design, development and implementation of SQL programming for all types of relational database applications including client/server and Internet databases. The course introduces students to the procedural language used to extend SQL in a programmatic manner. Students will learn to write complicated interactive and embedded SQL statements. Emphasis will be on using Microsoft SQL server. Recommended preparation: CIS 122 and CIS 135DB or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 279AD

WINDOWS SERVER 2008, ACTIVE DIRECTORY, CONFIGURING

Introduces students to Microsoft Windows 2008 Active Directory and prepares them to plan, configure, and administer an Active Directory infrastructure. Provides the information necessary to pass the Microsoft Certification exam 70-640, Windows Server 2008 Active Directory, Configuring. Recommended preparation: CIS 140 and CIS179 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 279ES

EXCHANGE SERVER 2007, CONFIGURING

Introduces students to Microsoft Exchange Server 2007 and prepares them to plan, configure, and administer an Exchange Server 2007 electronic communications infrastructure. Provides the information necessary to pass the Microsoft Certification exam, 70-266: Exchange Server 2007, Configuring. Recommended preparation: CIS 140 and CIS 179 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 279L

LINUX+

This course introduces the Unix operating system using Linux. It follows the CompTIA Linux + exam outcomes and competencies and is therefore 'vendor neutral'. It is designed as an introductory course to the Linux operating system but previous experience with other PC operating systems is expected. The class teaches the basics of the Unix operating system from a command-line perspective including installation, management, configuration, security, documentation and hardware. Recommended preparation: CIS 120 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 279NI

WINDOWS SERVER 2008, NETWORK INFRASTRUCTURE, CONFIGURING

Introduces students to advanced configuration principles for Microsoft Windows 2008, including DNS, DFS, IPv4, IPv6, DHCP, WSUS, and GPO. The class also provides the information necessary to pass the Microsoft

Certification exam 70-642, Windows Server 2008 Network Infrastructure, Configuring. Recommended preparation: CIS 140, CIS 179 and CIS 279SA or CIS 279V or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 279SA

WINDOWS SERVER 2008, SERVER ADMINISTRATOR

Introduces students to basic administrative principles for Microsoft Windows 2008, and prepares them to manage the server operating system, file, and directory services as well as also distributing software and updates, monitoring server performance and troubleshooting. The class also provides the information necessary to pass the Microsoft Certification exam 70-646, Windows Server 2008, Server Administrator. Recommended preparation: CIS 140 and CIS 179 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 279SE

SECURITY +

The course outcomes cover: network security; compliance and operational security; threats and vulnerabilities; application, data and host security; access control and identity management and cryptography. The material prepares students to pass the CompTIA Security+ certification. Security+ is an international, vendor-neutral certification. Prerequisite: CIS 179.

Credits: 4 Lecture: 3 Other: 2

CIS 279SP

SHAREPOINT CONFIGURATION

Introduces students to Microsoft SharePoint Server and prepares them to plan, configure, and administer an SharePoint Environment. Provides the information necessary to pass the Microsoft Certified Technology Specialist on SharePoint Configuration. Recommended preparation: CIS 179 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 279W7

WINDOWS 7

This course prepares the student for the Microsoft Certified Technology Specialist examination on the Windows 7 operating system (#70-680). It includes the beginning information and hands-on practice students need to build the knowledge and skills needed for IT professional certifications such as MCITP: Enterprise Administrator and Enterprise Desktop Administrator. Recommended preparation: CIS 140 and CIS 179 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 280

CO-OP WORK EXPERIENCE CIS

A learning strategy designed to enhance a student's knowledge, personal development, professional development and professional preparation by integrating academic study with practical experience. Student completes on-the-job training in a computer environment. Students complete a minimum of 33 clock hours of work for each credit hour earned. Instructor approval required.

Credits: 1 to 3

CIS 295

WEB DEVELOPMENT II

Expands on existing HTML/CSS skills and explores the process of making websites, particularly e-commerce sites for clients. Students will practice site planning, development, content management and client relations as they create, document and present a single website project. Topics include search engine optimization, usability testing, server-side scripting (PHP) and content management systems (CMS). Recommended preparation: CIS 195 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CIS 299

SELECTED TOPICS: CIS

Credits: 1 to 7

CS 160

COMPUTER SCIENCE ORIENTATION

Gives a broad overview of the discipline of computer science. Students learn about the foundations of computer science such as problem solving and algorithms, programming concepts, and computer hardware. Students also research careers available in computer science, research pathways to computer careers, and reflect on some of the influences computers have had and continue to have on society. Students also write programs in a variety of programming languages. Recommended preparation: CIS 120 and MTH 095 or instructor approval.

Credits: 4 Lecture: 3 Other: 2

CS 161

COMPUTER SCIENCE I

Examines the nature of computer programming; includes discussion of a computer model, methods of problem solving and programming structures; information representation; algorithm construction; object-oriented design using Java. Appropriate for computer science/math/science. Prerequisites: MTH 112 or MTH 251. Recommended Preparation: CS 160.

Credits: 4 Lecture: 3 Other: 2

CS 162

COMPUTER SCIENCE II

CS 162 emphasizes the development of data structures, algorithm analysis, recursion, and sorting. However we will also explore/review several basic programming constructs, Inheritance, Interfaces, Exceptions, and Files/Streams. A strict emphasis will be placed on software engineering methods; proper program development and attention to program planning and documentation. Prerequisite: CIS 161. Co-requisite: MTH 231.

Credits: 4 Lecture: 3 Other: 2

CRIMINAL JUSTICE

CJ 100

SURVEY OF THE CRIMINAL JUSTICE SYSTEM

Introductory survey of the functional components of the U.S. criminal justice system. Includes law enforcement, the courts and corrections.

Credits: 3 Lecture: 3

CJ 101

INTRODUCTION TO CRIMINOLOGY

Interdisciplinary approach to theoretical perspectives on the causes, treatment and prevention of crime.

Credits: 4 Lecture: 4

CJ 110

LAW ENFORCEMENT

Surveys the roles and responsibilities of local, state and federal law enforcement agencies in American society. Looks at historical development, role concept and conflicts, professionalization, current enforcement practices and career opportunities.

Credits: 3 Lecture: 3

CJ 120

JUDICIAL PROCESS

Examines the history and development of court systems and processes in the American justice system. Organization, administration and roles of the federal and state courts are examined, as well as distinctions between civil, criminal and appellate courts.

Credits: 3 Lecture: 3

CJ 123

SPANISH FOR LAW ENFORCEMENT PERSONNEL

Designed for students who are interested or are currently enrolled in the Criminal Justice program as well as current criminal justice employees. Emphasizes important daily phrases that someone in the criminal justice fields may encounter. Students' basic skills in listening, reading, writing and speaking are developed as well as exposure to the culture of Spanish-speaking citizens and their customs that directly

affect interaction with criminal justice professionals. Recommended preparation: SPAN 101.

Credits: 2 Lecture: 2

CJ 153

ETHICAL ISSUES IN CRIMINAL JUSTICE

This course outlines various ethical systems and applies them to the individual's analysis and evaluation of ethical dilemmas, duties and responsibilities in the field of criminal justice. The students will explore his/her own ethical framework and decision making while learning to integrate the obligations to society and the codes of conduct prescribed by professional criminal justice organizations and agencies. An emphasis will be placed on the ethical and responsible use of discretion, authority and power as endowed by society.

Credits: 3 Lecture: 3

CJ 188

SPECIAL STUDIES: CRIMINAL JUSTICE

Instructor approval required.

Credits: 1 to 12

CJ 199

SPECIAL TOPICS: CRIMINAL JUSTICE

Presents selected topics of study in criminal justice offered on a temporary or experimental basis.

Credits: 1 to 4

CJ 201

INTRODUCTION TO JUVENILE JUSTICE

Introduces the historical reason for establishment of juvenile courts in the United States, current juvenile justice process, and functions of various components within the system. Prevention, intervention and rehabilitation aspects are covered in terms of Oregon's juvenile court law, as well as potential alternatives for change.

Credits: 3 Lecture: 3

CJ 204

CONTROVERSIES IN CRIMINAL JUSTICE

This course defines, describes and evaluates the crises and conflicts which face law enforcement agencies today. Topics include: use of force, police pursuits, recruitment and the death penalty.

Credits: 3 Lecture: 3

CJ 207

SEMINAR IN CRIMINAL JUSTICE

Examines current controversial issues, questions and procedures within the criminal justice system.

Credits: 3 Lecture: 3

CJ 210

CRIMINAL INVESTIGATION I

Examines history, fundamentals and scientific resources involved in criminal investigation. Emphasizes practical aspects of the investigator's approach to criminal acts, crime scene, gathering facts and information, seizing evidence, reporting the total investigation and presenting evidence within court.

Credits: 3 Lecture: 3

CJ 211

CRIMINAL INVESTIGATION II

Reviews fundamental and scientific resources involved in criminal investigations. Examines in depth criminal investigation techniques and skills necessary to conduct investigations into the more serious and complex crimes.

Credits: 3 Lecture: 3

CJ 220

INTRODUCTION TO SUBSTANTIVE LAW

Examines basic concepts of substantive law and criminal procedural law. Explores effects of substantive laws upon the lives of American citizens through topics such as crimes involving property, fraud and deception, or against persons, state and public order.

Credits: 3 Lecture: 3

CJ 222

SEARCH AND SEIZURE

Study of procedural aspects of criminal law, i.e., how criminal law is enforced and administered by agents of the criminal justice system. Emphasis on examining the law of arrest, searches and seizures, and interrogation of suspects.

Credits: 3 Lecture: 3

CJ 230

JUVENILE CORRECTIONS

Studies historical and contemporary perspectives on juvenile offenders, juvenile code and juvenile court procedures. Describes treatment programs and differences between adult and juvenile court procedures.

Credits: 3 Lecture: 3

CJ 243

DRUGS AND CRIME IN SOCIETY

Introduction to problems of substance abuse, including alcohol, in our society. Equips criminal justice, social service and other human service workers with increased awareness of today's drug technology and options for dealing with substance abusers.

Credits: 3 Lecture: 3

CJ 253

CORRECTIONS

Focuses on historical background, current practices and contemporary issues within correctional processes, institutions and policies pertaining to offenders. Emphasizes the goals of corrections, including deterrence and rehabilitation and the role of local, state and federal corrections in the criminal justice system, including community corrections.

Credits: 4 Lecture: 4

CJ 280

CO-OP WORK EXPERIENCE CRIMINAL JUSTICE

Provides an opportunity to work for a local agency in a field of criminal justice applying classroom theory with on-the-job experience. Credit given based on total workload of 60 hours per term. Learning experience will be coordinated with student's supervisor. Permission of Co-op Work Experience coordinator required prior to registration. Students must pass a criminal history background check. Recommended preparation: sophomore standing and a minimum of 12 credit hours completed in criminal justice courses and instructor approval.

Credits: 1 to 3

CJ 281

CWE CRIMINAL JUSTICE II

CJ 281 provides a continuing opportunity to work for a local agency in a field of criminal justice with on the job experience. (See description of CJ 280) Instructor's approval only. CJ 280 must be completed prior to CJ 281.

Credits: 2

CJ 282

CWE CRIMINAL JUSTICE III

CJ 282 provides a continuing opportunity to work for a local agency in a field of criminal justice with on the job experience. (See description of CJ 280) Instructor's approval only. CJ 280 and CJ 281 must be completed prior to CJ 282.

Credits: 2

DENTAL ASSISTING

DA 110

BASIC DENTAL ASSISTING

General overview of the Dental Assisting profession through lecture, discussions, demonstrations, laboratory activities and on-site clinic visitation. Includes examining dentistry as a profession, charting and data collection, taking and recording vital signs, four-handed dentistry and equipment use and maintenance. Laboratory portion gives students initial skills for the clinical experience in the areas of instrument identification and transfer, oral-evacuation and use of the air-water syringe. Infection control protocols established by OSHA, the Oregon Board of Dentistry and the Centers for Disease Control and Prevention will be implemented. Prerequisite: entrance into the Dental Assisting program. Co-requisite: DA 115, DA 125, DA 145 and DA 134.

Credits: 4 Lecture: 2 Other: 4

DA 115

DENTAL SCIENCE

Introduces the student to the following areas of study: basic anatomy and physiology, basic head and neck anatomy, dental embryology, oral histology, anatomy of the face and oral cavity, and tooth morphology. Also includes an introduction to the study of oral pathology. Prerequisite: entrance into the Dental Assisting program. Co-requisites: DA 110, DA 125, DA 134 and DA 145.

Credits: 4 Lecture: 4

DA 120

ADVANCED DENTAL ASSISTING

Continuation of DA 110 and furthers student's knowledge of the dental assisting profession. Includes lecture, power point presentations, videos, discussions, demonstrations and lab participation. Covers the advanced dental assisting skills of dental dam placement and procedures involved with the dental specialties of endodontics, periodontics and oral surgery. Also covers the expanded functions of coronal polishing, suture removal and pit and fissure sealants as mandated by the Oregon Board of Dentistry. Prerequisite: DA 110. Co-requisites: DA 131, DA 160, DA 182 and DA 191.

Credits: 4 Lecture: 2 Lab: 4

DA 125

DENTAL INFECTION CONTROL

Covers the principles of infection control related to the dental office, including an introduction to microbiology, cross-contamination and hazard control. Also covers OSHA standards of hazard communication and blood-borne pathogens. The management of material safety data sheets and labeling of hazardous material will be implemented. After successful completion of this course, the student will be eligible to take the Dental Assisting National Board (DANB) Infection Control Exam (ICE). Prerequisite: entrance into the Dental Assisting program. Co-requisites: DA 110, DA 115, DA 134 and DA 145.

Credits: 3 Lecture: 3

DA 130

DENTAL MATERIALS I

Covers lecture and laboratory experience in alginate impression materials, impressions and impression trays, diagnostic casts, pouring study models, trimming diagnostic casts, occlusal bite registrations and bleach tray fabrication on a vacuum former. Also covers tofflemire matrix placement, the armamentarium for amalgam and composite, and assisting with the placement of amalgam and composite on dexter. Prerequisite: entrance into the Dental Assisting program. Co-requisites: DA 135, DA 150, DA 151, DA 181 and DA 190.

Credits: 3 Lecture: 2 Lab: 3

DA 131

DENTAL MATERIALS II

Provides a fundamental knowledge of the materials commonly used in dental practice. Lectures cover physical, chemical and manipulative characteristics of final impression materials, cements, bases, cavity liners, cavity varnishes, waxes, composites, metals and resins. Additionally explores the indications and contraindications of each. Laboratory

portion prepares students to correctly manipulate all of these materials. Students will acquire the skills necessary to fabricate custom impression trays on preliminary casts which will be used for final impressions for crowns, bridges and dentures; to clean and polish removable appliances and prostheses; and to fabricate acrylic, polycarbonate and preformed aluminum provisional restorations. Various types of laboratory-fabricated, fixed prosthodontics, their indications and contraindications will be covered. Prerequisite: DA 130. Co-requisites: DA 120, DA 160, DA 182 and DA 191.

Credits: 3 Lecture: 2 Lab: 3

DA 134

DENTAL RADIOLOGY I

Introduces Dental Radiology for the dental auxiliary. Includes basic principles of radiography, the history of radiation and an introduction to the physics of radiation. Also covers the biological effects of radiation for both the safety and comfort of the patient and the operator. Introduces the radiographic unit and dental x-ray film. Prerequisites: Entrance into the Dental Assisting Program or instructor approval. Co-requisites: DA 110, DA 115, DA 125 and DA 145.

Credits: 3 Lecture: 3

DA 135

DENTAL RADIOLOGY II

Continuation of DA 134. Furthers the student's knowledge of dental radiology. Covers the relationship of dental anatomy and facial structure to the exposure of dental films. Includes instruction in the various types of film available to the dental professional. The student will perform exposure and processing techniques to a determined level of competency on manikins and then to a determined level of competency on patients. Prerequisites: DA 134. Co-requisites: DA 130, DA 150, DA 181 and DA 190.

Credits: 4 Lecture: 2 Lab: 4

DA 145

PREVENTIVE DENTISTRY

Covers the components of preventive dentistry including oral hygiene education, plaque control, fluoride and dietary considerations for the dental patient. Includes ergonomics, dentistry for the special patient and the dental specialties of pediatric dentistry and orthodontics. Also includes the exploration of dental public health programs. Prerequisite: entrance into the Dental Assisting program. Co-requisites: DA 110, DA 115, DA 125 and DA 134.

Credits: 3 Lecture: 3

DA 150

INTRO TO DENTAL OFFICE MANAGEMENT

Covers key competencies related to office practices and administrative responsibilities of the dental assistant as identified by the American Dental Association. Covers dental record preparation and maintenance, applicable computer applications, legal issues, general office management principles and professionalism in the dental office. Provides related instruction in computation. Teaches cover letter and resume writing, interviewing skills and HIPAA regulations. Prerequisite: entrance into the Dental Assisting program. Co-requisites: DA 130, DA 135, DA 151, DA 181 and DA 190.

Credits: 3 Lecture: 3

DA 151

DENTAL COMPUTING

Computers are an integral part of today's dental offices. They have become the method of choice for managing patient dental records, appointment scheduling, charting, processing insurance claims and establishing financial arrangements. Computer systems allow for the generation of reports, patient statements, professional and patient correspondence, treatment plans, and fees for service. This course is designed to give students the training necessary to successfully complete these front-office tasks. Prerequisite: entrance into the Dental Assisting program. Co-requisites: DA 130, DA 135, DA 150, DA 181 and DA 190.

Credits: 1 Lecture: 1

DA 160**ORAL MEDICINE**

Introduces students to diagnosis, treatment and pharmacology used in the practice of dentistry. Also includes additional information on oral pathology and the dental assistant's role in dealing with dental emergencies in the dental office. Students completing this course will be capable of recognizing, reacting to, and treating the most common medical emergencies in the dental practice. Emphasis will be placed on prevention of such emergencies. Prerequisite: entrance into the Dental Assisting program. Co-requisites: DA 120, DA 131, DA 182 and DA 191. **Credits: 3 Lecture: 3**

DA 181**DENTAL SEMINAR I**

Seminar discussions on various aspects of winter term practicums in local dental offices. Guest speakers representing dental specialties and alternative dental employment possibilities will also be scheduled. Students will share work-related experiences with the instructor and their peers. Addresses employment opportunities, completing job applications, and interviewing skills. Prerequisite: entrance into the Dental Assisting program. Co-requisites: DA 130, DA 135, DA 150, DA 151 and DA 190. **Credits: 1 Lecture: 1**

DA 182**DENTAL SEMINAR II**

Seminar discussions on various aspects of spring term practicums in local dental offices. Guest speakers representing dental specialties and alternative dental employment possibilities will also be scheduled. Students will share work-related experiences with the instructor and their peers. Covers employment opportunities, resume writing, completing job applications, and interviewing skills. Student will also prepare for the Dental Assisting National Board (DANB) General Chairside Exam. Prerequisite: entrance into the Dental Assisting program. **Credits: 1 Lecture: 1**

DA 190**DENTAL ASSISTING PRACTICUM I**

A supervised, unpaid learning experience which takes place on site at a prearranged clinical facility. Provides students with the opportunity to perform clearly identified competencies within the clinical setting. Each credit is equivalent to 30 hours in the clinical setting. Prerequisite: entrance into the Dental Assisting program and DA 110, DA 115, DA 125. Co-requisites: DA 130, DA 135, DA 150, DA 151 and DA 181. **Credits: 1 to 5**

DA 191**DENTAL ASSISTING PRACTICUM II**

A supervised, unpaid learning experience which takes place on site at a prearranged clinical facility. Provides students with the opportunity to perform clearly identified competencies within the clinical setting. Each credit is equivalent to 30 hours in the clinical setting. Prerequisite: entrance into the Dental Assisting program and DA 190. **Credits: 5 Other: 15**

DA 199**SELECTED TOPICS: DENTAL ASSISTING**

Credits: 4

DA 999**DENTAL ASSISTING PROGRAM**

Credits: 17 Lecture: 15 Other: 4

EARLY CHILDHOOD EDUCATION

ED 112**CHILDREN'S LITERATURE & CURRICULUM**

This course provides an overview of children's literature across the early childhood curriculum (preschool-primary grades) from a curricular perspective. Different genres of children's literature will be examined as it relates to curricular areas: literacy, math, science, history, health, movement, music, and the arts. This course is recommended for early childhood and education majors. This course will address the importance of literacy acquisition of young children (preschool through the primary grades) and how children's literature can support co-curricular standards, goal, and objectives. **Credits: 3 Lecture: 3**

ED 140**INTRODUCTION TO EARLY CHILDHOOD EDUCATION**

Beginning course in early childhood education which focuses on the teacher as a professional (advocacy, ethical practices, work-force issues, associations); provides strategies to manage an effective program operation; how to plan a safe, healthy learning environment; and gives an overview of the philosophy and history of ECE. Three hours of supervised weekly field placement required. **Credits: 4 Lecture: 3 Other: 3**

ED 150**ENVIRONMENTS & CURRICULUM IN EARLY CHILDHOOD EDUCATION**

Utilizes knowledge in child development to design, implement and evaluate activities in the major domains of development for children ages birth to 8 years. Three hours of supervised weekly field placement required. Recommended preparation: ED 140. **Credits: 4 Lecture: 3 Other: 3**

ED 151**OBSERVATION & GUIDANCE IN EARLY CHILDHOOD EDUCATION LEARNING**

Introduces observation techniques and tools to accurately collect data on children and how to use assessments to make appropriate decisions about the child's needs regarding programming and the early childhood education environment. Three hours of supervised weekly field placement required. Recommended preparation: ED 140. **Credits: 4 Lecture: 3 Other: 3**

ED 152**FAMILY, SCHOOL AND COMMUNITY RELATIONSHIPS IN EARLY CHILDHOOD EDUCATION**

Introduces communication skills needed to enhance partnerships between families, schools and communities in early childhood education. Three hours of supervised weekly field placement required. **Credits: 3 Lecture: 2 Other: 3**

**ED 172
LANGUAGE AND LITERACY IN EARLY CHILDHOOD
EDUCATION**

Covers language and literacy development as it relates to early childhood education. Also covers the history of literacy development, the family's role, how young children learn to read and write, using books with children, concepts of print, comprehension, differing abilities in literacy development, and the role of observation and assessment. Three hours of supervised weekly field placement required. Recommended preparation: ED 140.

Credits: 3 Lecture: 2 Other: 3

**ED 173
MOVEMENT, MUSIC AND THE ARTS IN EARLY CHILDHOOD
EDUCATION**

Introduces physical education, rhythmic activities, visual arts, and performing arts in the early childhood years. Covers basic motor skills and artistic processes, from a developmental perspective. Three hours of supervised weekly field placement required. Recommended preparation: ED 140.

Credits: 3 Lecture: 2 Other: 3

**ED 174
MATH, SCIENCE, AND TECHNOLOGY IN EARLY CHILDHOOD
EDUCATION**

Introduces program and curricular activities that enhance a child's development of math, science, and technology understanding and skills. Processes explored are constructivist in nature, with a focus on interdisciplinary approaches. Three hours of supervised weekly field placement required. Recommended preparation: ED 140.

Credits: 3 Lecture: 2 Other: 3

**ED 188
SPECIAL STUDIES: PRACTICUM**

Credits: 1 to 3

**ED 199
SELECTED TOPICS: EARLY CHILDHOOD EDUCATION**

Credits: 1 to 4

**ED 250
ADVANCED CURRICULUM DEVELOPMENT & TEACHING
METHODS IN EARLY**

Compares and contrasts various teaching methods for children ages 3 to 8 years. Focuses on constructivist teaching methodology and strategies, based on best practices in early childhood education. Three hours of supervised weekly field placement required. Recommended preparation: WR 121, ED 140, ED 150 and ED 151.

Credits: 4 Lecture: 3 Other: 3

**ED 261
EARLY CHILDHOOD EDUCATION PRACTICUM I**

Students participate in a weekly 50-minute seminar and six hours of practicum work in an ECE setting, outside of student's workplace. Students select, with their COCC practicum supervisor, an appropriate pre-kindergarten or early primary (K-3) practicum placement. All ECE courses required for an Early Childhood Education AAS degree need to be successfully completed before taking ED 261.

Credits: 3 Other: 9

**ED 262
EARLY CHILDHOOD EDUCATION PRACTICUM II**

Students participate in a weekly 50-minute seminar and six hours of practicum work in an ECE setting, outside of the student's workplace. Students select, with their COCC practicum supervisor, an appropriate pre-kindergarten or early primary (K-3) practicum placement. Recommended preparation: ED 261.

Credits: 3 Other: 9

**ED 265
CHILDREN AT RISK**

Issues of child abuse are presented from the multidisciplinary perspectives of education, criminal justice and psychology. Topics covered include

definition and prevalence of child abuse, lifelong effects, prevention, identification and intervention. The course will focus on biopsychosocial outcomes and education concerns, as well as legal processes and implications from criminal justice.

Credits: 3 Lecture: 3

**ED 269
EXCEPTIONAL CHILDREN IN EARLY CHILDHOOD
EDUCATION**

Acquaints students with the exceptional child and his/her family. Local resources are explored to understand the referral process for children, birth to 5 years of age. Explores typical and atypical development and common delays and disabilities in all domains of child development. Includes discussion about teaching methods and strategies that are adapted or modified to meet individual child needs. Three hours of supervised weekly field placement required. Recommended preparation: ED 140 and ED 151.

Credits: 3 Lecture: 2 Other: 3

**ED 290
ENGLISH LANGUAGE DEVELOPMENT IN THE PRIMARY
CLASSROOM**

This is an introductory course that will explore how to best meet the needs of English Language Learners in early childhood and elementary classrooms. We will examine how language skills are acquired and how to assess what stage of language acquisition students are in. We will also explore a variety of effective teaching strategies and materials that can be used in the classroom to help students develop both social and academic language proficiency.

Credits: 3 Lecture: 3

**ED 299
SELECTED TOPICS: EARLY CHILDHOOD EDUCATION**

Credits: 1 to 4

ECONOMICS

**EC 101
CONTEMPORARY ECONOMIC ISSUES**

Introduction to contemporary public policy using basic economic principles. Topics may include poverty, income distribution, environmental policy, anti-trust, government budget, unemployment, international trade and economic development.

Credits: 4 Lecture: 4

**EC 188
SPECIAL STUDIES: ECONOMICS**

Credits: 1 to 3

**EC 199
SELECTED TOPICS: ECONOMICS**

Credits: 4

**EC 201
MICROECONOMICS**

Presents theoretical analysis of the market system in capitalism and analyzes how the market operates under various degrees of competition. Studies supply, demand, price determination, production, monopoly power, allocation of resources, distribution of income and environmental economics. Recommended preparation or recommended to be taken with: WR 121 and MTH 65.

Credits: 4 Lecture: 4

**EC 202
MACROECONOMICS**

Analyzes our national economy as whole and basic subdivisions of the economy: business, households and government. Also looks at the international economy. Studies unemployment, inflation, economic growth, fiscal, monetary and growth policies, money, banking and international economics. Recommended preparation or recommended to be taken with: WR 121 and MTH 65.

Credits: 4 Lecture: 4

EDUCATION

ED 200

INTRODUCTION TO EDUCATION

Survey of the field and foundations of education, especially the teaching profession and the role of education in society. Explores philosophical, economic, legal, ethical, historical, psychological and social foundations of teaching and learning, and includes an overview of educational methods and approaches. Specializations within the field and training requirements for prospective teachers will also be addressed. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

ED 210

PRACTICUM IN TEACHING

Acquaints potential educators with roles and responsibilities of teachers at elementary and secondary levels. The student will observe and work as an instructional assistant in a local classroom to assess interests and potential for making teaching a career. ED 210 includes six hours field placement per week. Recommended preparation: WR 121 and ED 200 or instructor approval.

Credits: 3 Lecture: 1 Other: 6

ED 216

PURPOSE, STRUCTURE AND FUNCTION OF EDUCATION IN A DEMOCRACY

Analyzes the system of education in a democratic society. This course introduces the historical, social, philosophical, political, legal and economic foundations of education to provide a framework from which to analyze contemporary educational issues. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

ED 219

MULTICULTURAL ISSUES IN EDUCATION SETTINGS

Examines the context of working with students, school, communities and workplaces. Explores the diversity of learners, learning cultures (urban, suburban, and rural) and the diversity among learners within those different cultures. Considers the influence of culture on one's learning. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

ED 253

LEARNING ACROSS THE LIFESPAN

Explores how learning occurs at all ages from early childhood through adulthood, major and emerging learning theories, individual learning styles including one's own learning styles, self-reflection on implications of how learning occurs, and the impact of these issues on the development and delivery of instruction. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

EMERGENCY MEDICAL SERVICES

EMT 151

EMERGENCY MEDICAL TECHNICIAN PART A

This course includes all skills necessary for the individual to provide emergency medical care as outlined by scope of practice established by the Oregon board of medical examiners. Serves as the first of a two-part series of courses. Students must meet standards as set by the Oregon EMS Office. Follows the approved Oregon EMS Division and Department of Transportation curriculum. At completion of the two-term program candidate will be eligible for testing at National Registry EMT Basic level. Prerequisites: must meet requirement of enrollment regarding entrance testing, background check, current health care provider CPR card and vaccination records. Only students who successfully completed Part A will proceed into EMT 152 Part B of program.

Credits: 5 Other: 10

EMT 152

EMERGENCY MEDICAL TECHNICIAN BASIC PART B

Follows the approved Oregon EMS Division and Department of Transportation curriculum. At completion of the two-term program candidate will be eligible for testing at National Registry EMT Basic level. Prerequisites: must meet requirement of enrollment regarding entrance testing, background check, current health care provider CPR card and vaccination records. Only students who successfully complete both Part A and B are allowed to sit for National Registry Exam.

Credits: 5 Other: 10

EMT 165

EMERGENCY MEDICAL TECHNICIAN-INTERMEDIATE PART A

Covers theory and practical applications including responsibilities delegated to the Oregon EMT-1 by the Department of Health for the state of Oregon. Incorporates discussion, didactic written demonstration, and practical demonstration with applications for the following: roles and responsibilities, ethics, HIPPA, patient assessment--medical and traumatic, oxygenation, ventilation, airway adjuncts, shock management, intravenous and intraosseous therapy, basic EKG monitoring and, when applicable, defibrillation and/or proper pharmacology medication interventions, and proper EMT-Intermediate protocols. Upon successful completion of the two-term course (76-hour didactic with 44 hours clinical skills program), the candidate will be eligible for the Oregon DHS EMS testing at an Oregon EMT Intermediate level at an approved Oregon site. Student must hold a current Oregon EMT-B certification and show proof of current immunizations required by the accrediting agency the DHS office. HCP, CPR and AED certification must be on file prior to acceptance into the course. All students must meet all requirements of enrollment entrance testing and vaccinations records. Only students who successfully pass EMT Intermediate Part A are allowed to enroll in EMT Intermediate Part B.

Credits: 4 Lecture: 3 Lab: 3

EMT 166

EMERGENCY MEDICAL TECHNICIAN INTERMEDIATE PART B

Covers theory and practical applications including responsibilities delegated to the Oregon EMT-1 by the Department of Health for the state of Oregon. Incorporates discussion, didactic written demonstration, and practical demonstration with applications for the following: roles and responsibilities, ethics, HIPPA, patient assessment--medical and traumatic, oxygenation, ventilation, airway adjuncts, shock management, intravenous and intraosseous therapy, basic EKG monitoring and, when applicable, defibrillation and/or proper pharmacology medication interventions, and proper EMT-Intermediate protocols. Upon successful completion of the two-term course (76-hour didactic with 44 hours clinical skills program), the candidate will be eligible for the Oregon DHS EMS testing at an Oregon EMT Intermediate level at an approved Oregon site. Mandatory prerequisite: current immunizations required by the accrediting agency the Oregon DHS office. Oregon Basic plus HCP, CPR and AED certification must be on file prior to acceptance into the course. All students must meet all requirements of enrollment regarding entrance testing and vaccinations records. Only students who successfully

pass EMT Intermediate Part A (75% grade and 80% attendance) are allowed to enroll in EMT Intermediate Part B.

Credits: 4 Lecture: 3 Lab: 3

**EMT 170
EMERGENCY RESPONSE COMMUNICATION/
DOCUMENTATION**

Covers principles of therapeutic communication, verbal, written, and electronic communications in the provision of EMS, documentation of elements of patient assessment, care and transport, communication systems, radio types, reports, codes and correct techniques.

Credits: 2 Lecture: 2

**EMT 171
EMERGENCY RESPONSE PATIENT TRANSPORT**

This is a mandatory introductory course for all students seeking to enter the EMS degree program. This course is also very helpful for those students wishing to have a successful career in emergency services. This will offer tools that are essential in the daily activity as a firefighter, law enforcement officer or EMT. This course includes a broad-based overview of the elements that make up a safe and successful emergency response.

Credits: 2 Other: 4

**EMT 175
INTRODUCTION TO EMERGENCY SERVICES**

Provides an overview of fire protection and EMS; career opportunities within and related fields; philosophy and history of fire and EMS; fire loss analysis; organization and function of public and private fire and EMS services; fire department as part of local government; laws and regulations affecting the fire service; fire and emergency service nomenclature; specific fire protection functions.

Credits: 3 Lecture: 3

**EMT 188
SPECIAL STUDIES: EMERGENCY MEDICAL TECHNICIAN**

Credits: 5

**EMT 195
CRISIS INTERVENTION**

Prepares the student to deal with situations facing both the patient and caregiver. Included are all facets of crisis intervention techniques and recent advances in critical incident stress debriefing intervention.

Credits: 3 Lecture: 3

**EMT 280
PARAMEDIC CO-OP WORK EXPERIENCE**

This course will provide the educational field internship experience required to prepare the student to achieve licensure as a paramedic. The field internship allows the paramedic student to apply learned theory and practical skills while under the direct observation and guidance of a preceptor. Student must have successfully completed all paramedic lecture/lab and clinical requirements in order to register. Student must have passed terminal competency test-out on course cumulative written and practical exams.

Credits: 8

**EMT 290
PARAMEDIC PART I**

Offers first term of a three-term course, which includes EMT 292 and EMT 294. Focuses on patient assessment; airway/ventilation; pathophysiology of shock; general pharmacology; and respiratory, cardiovascular, neurological, behavioral, and acute abdominal emergencies. Applies didactic knowledge to campus-based laboratory skills practice and clinical patient care in the hospital setting. Corequisite: EMT 291. Prerequisite: current immunizations, current Oregon EMT-B or higher certification, current CPR for the health care provider and acceptance into the Paramedic program.

Credits: 8 Other: 16

**EMT 291
PARAMEDIC PART I CLINICAL**

This is a competency-based clinical experience, which emphasizes patient assessment, formulation of presumptive diagnoses and treatment plans. The clinical experiences are performed at local hospitals. This is the first of three courses in the clinical setting for a paramedic student. Student must have been accepted into the Paramedic program. Corequisite: EMT 290.

Credits: 2 Other: 7.2

**EMT 292
PARAMEDIC PART II**

Offers second part of a three-term course, which includes EMT290, EMT294. Focuses on anaphylactic, toxicological, environmental, geriatric, pediatric, neonatal, and endocrine emergencies; infectious diseases; capnography; special patient populations; hematology; psychiatric care; crime scene presentation; genitourinary care; and trauma care. Applies didactic knowledge to campus-based laboratory skills practice and clinical patient care in the hospital setting's. Corequisite: EMT 293. Prerequisites: successful completion of EMT 290, 291, current immunizations, current Oregon EMT-B or higher certification, current CPR for the health care provider, and acceptance into the Paramedic program.

Credits: 8 Other: 16

**EMT 293
PARAMEDIC CLINICAL PART II**

This is a competency-based clinical experience, which emphasizes patient assessment, formulation of presumptive diagnoses and treatment plans. The clinical experiences are performed at local hospitals. This is the second of three courses in the clinical setting for a paramedic student. Student must have successfully completed EMT 290 and 291 to be allowed into this class. Corequisite: EMT 292.

Credits: 3 Other: 9.8

**EMT 294
PARAMEDIC PART III**

Offers third part of a three-term course, which includes EMT 290, EMT 292. Continues on anaphylactic, toxicological, environmental, geriatric, pediatric, neonatal, and endocrine emergencies; infectious diseases; capnography; special patient populations; hematology; psychiatric care; crime scene presentation; genitourinary care; and trauma care. Applies didactic knowledge to campus-based laboratory skills practice and clinical patient care in the hospital setting. Corequisite: EMT 295. Prerequisite: current immunizations, current Oregon EMT-B or higher certification, current CPR for the health care provider, acceptance into the Paramedic program and completion of EMT 290, EMT 291, EMT 292 and EMT 293.

Credits: 7 Other: 14

**EMT 295
PARAMEDIC CLINICAL PART III**

This is a competency-based clinical experience, which emphasizes patient assessment, formulation of presumptive diagnoses and treatment plans. The clinical experiences are performed at local hospitals. This is the third and final clinical setting for a paramedic student. Student must have successfully completed EMT 290, EMT 291, EMT 292 and EMT 293 to be allowed into this class.

Credits: 4 Other: 14.4

**EMT 299
SELECTED TOPICS: EMERGENCY MEDICAL TECHNICIAN**

Credits: 5

ENGINEERING & ENGINEERING TECH

ENGR 188

SPECIAL STUDIES: ENGINEERING

Provides an opportunity to explore an area of engineering by doing a special project or to gain practical experience by working with a professional engineer.

Credits: 1 to 6

ENGR 199

SELECTED TOPICS: ENGINEERING

Credits: 1 to 6

ENGR 201

ELECTRICAL FUNDAMENTALS

Topics covered in this course include: DC and 1st order transient analysis, Ohm's Law, Kirchhoff's Law (KCL and KVL), nodal analysis, branch analysis, source transformations, Thevenin and Norton equivalent circuits, maximum power transfer, operational amplifiers, inductance, capacitance, and transient response of RL and RC. Recommended preparation: PH 202, PH 212 and MTH 251, MTH 252.

Credits: 4 Lecture: 3 Lab: 3

ENGR 202

ELECTRICAL FUNDAMENTALS II

Topics covered in this course include: AC and 2nd order transient analysis, sinusoids and phasors, sinusoidal steady-state analysis, nodal analysis, branch analysis, source transformations, Thevenin's and Norton's equivalent circuits, sinusoidal steady-state power calculation, and balanced three-phase circuits. Recommended preparation: ENGR 201 and MTH 251, MTH 252.

Credits: 4 Lecture: 3 Lab: 3

ENGR 211

STATICS

Analyses forces induced in structures and machines by various types of loading. Recommended preparation: MTH 251 and PH 201, PH 211.

Credits: 4 Lecture: 3 Lab: 2

ENGR 212

DYNAMICS

Studies kinematics, Newton's law of motion, and work-energy and impulse-momentum relationships as applied to engineering systems. Recommended preparation: ENGR 211 and MTH 252.

Credits: 4 Lecture: 3 Lab: 2

ENGR 213

STRENGTH OF MATERIAL

Studies properties of structure materials. Analyzes stress and deformation in axially-loaded members, in circular shafts and beams and in statically indeterminate systems containing these components. Recommended preparation: MTH 252 and ENGR 211.

Credits: 4 Lecture: 3 Lab: 2

GE 101

ENGINEERING ORIENTATION

Introduces students to many different engineering fields through guest lectures, field trips, and hands-on engineering projects and problem-solving exercises. Develops understanding of similarities and differences between the engineering fields. Discusses professional engineering testing and licensing requirements.

Credits: 3 Lecture: 2 Lab: 2

GE 102

ENGINEERING PROBLEM SOLVING AND TECHNOLOGY

Introduces the use of Microsoft Excel for the solution of engineering problems and familiarizes students with the decision making and report preparation process in engineering design. Development of spreadsheets for analyzing engineering problems and preparation of final design reports that outline in detail design evaluation, recommendation and implementation. Recommended preparation: MTH 112.

Credits: 3 Lecture: 2 Lab: 2

ENTREPRENEURIAL EXCELLENCE

CEED 200

CEED SEMINAR

Succeed. An introduction to the CEED | Center for Entrepreneurial Excellence & Development. CEED Seminar prepares students for the program and provides the orientation necessary to navigate and succeed within it. Each of the program ladders will be discussed, including exposure to Industry and Community Professionals who will provide career insights and opportunities in the employment landscapes. Topics covered include Entrepreneurship and New Venture Creation, Management, Leadership, Marketing, Innovation, Inventing, Manufacturing and Operations. Teaching methods include an abundance of guest lectures and field trips.

Credits: 1 Lecture: 1

CEED 201

BUSINESS MODELING

Students explore their own small business ideas. From brainstorming and ideation through business model generation, business planning and feasibility studies. This class is hands-on and production-oriented utilizing an assortment of tools and methodologies to isolate key success and risk factors. Topics are explored through the filters of design thinking, innovation and rapid prototyping. Other topics include legal structure and form, finding mentors, advisors and the resources available to support new business development. Recommended preparation: WR 121.

Credits: 2 Lecture: 2

CEED 202

BUSINESS INTELLIGENCE

Thorough research is critical to small business success. During this course, students will perform a comprehensive environmental scan including macro and micro economic factors, industry analysis, SWOT analysis and the collection of competitive intelligence. Competitive profiles will be produced for their top three competitors utilizing various research methodologies. Students will isolate the core competence of their business and inherent strategic and competitive Advantage. Recommended preparation: WR 121, SP111, CIS 131, BA 101, EC 201 and EC 202.

Credits: 2 Lecture: 2

CEED 203

STRATEGIC MARKETING

Students will participate in the exploration of various marketing strategies. Students will focus on the market research necessary to segment the market, isolate target market(s) and formulate the appropriate marketing mix (product, price, placement and promotion) and positioning to address these market(s). Students will complete a strategic marketing plan. Recommended preparation: WR 121, SP111, CIS 131, BA 101, BA 223, BA 233 and BA 239.

Credits: 2 Lecture: 2

CEED 204

STRATEGIC MANAGEMENT

Fundamental to small business success is establishing the appropriate infrastructure, focus and talent necessary to endure and navigate the hurdles and pitfalls that face new ventures. This course will explore and apply tested strategies to build a successful endeavor. Topics include business strategy, organizational structure, recruiting talent, operations and logistics, value chain management, critical path management, and leveraging core competencies. Students will produce a comprehensive strategic management plan. Recommended preparation: WR 121, SP111, CIS 131, BA 101, BA 206, BA 207 and BA 224.

Credits: 2 Lecture: 2

CEED 205

MANAGERIAL FINANCE

"Cash is king." This course will lay the groundwork for understanding and establishing the fundamentals of entrepreneurial accounting and finance. Students will learn how to read a financial report and manage profits and cash flow. Topics include start-up costs, raising capital, investment and growth decisions, access to capital and forecasting and budgeting.

Students will produce pro-forma (forecasted) financial statements and the nuances of presenting them to investors. Recommended preparation: WR 121, SP111, CIS 131, BA 101, BA 211, BA 212, BA 213 and BA 222.

Credits: 2 Lecture: 2

CEED 206

PRESENTING TO WIN

The capstone of the New Venture Creation curriculum, Presenting to Win will assist students in the packaging, branding and formatting of a professional business plan. Students will learn how to write a compelling executive summary and create a slide-driven presentation. In-class exercises will assist the student in gaining mastery of the elevator pitch, the 20-minute business presentation and objection and defense strategies. Recommended preparation: WR 121, SP111, CIS 131, BA 101, CIS 195 and CIS 295.

Credits: 2 Lecture: 2

CEED 207

TACTICAL OPERATIONS

Students will learn how to translate Strategy into Tactical Excellence. Topics include, how to create an organization that "adds value" throughout the Value Chain; how to manage an effective supply chain, minimize costs, and manage a successful feedback loop assuring accountability and customer satisfaction. Tactical Operations is the first course in a six-course sequence, in this module students will create the foundation for Entrepreneurial Excellence. Recommended preparation: WR 121, SP 111, CIS 131 and BA 101.

Credits: 2 Lecture: 2

CEED 211

GOOD TO GREAT

An in depth exploration of the works of Jim Collins and his Boulder, Colorado based research team; students will explore what separates the good from the great and how to build, manage and lead companies which are built to last by design. Topics include an introduction to level 5 leadership, first who, then what, the value of simplicity, a culture of discipline and others. Recommended preparation: CEED 201-206.

Credits: 2 Lecture: 2

CEED 213

MARKETING RESEARCH

Effective Marketing Research is essential to modern business development. The marketing concept is, by definition, customer driven. Without an accurate and complete assessment of customer needs, wants, demands and desires business risk is increased. Marketing research has become the driving force of business excellence in the 21st century. This course will explore the best methodologies for confirming strategic initiatives before committing tactical assets. Marketing provides the critical and essential input for crafting a strategy and developing a business model. Recommended preparation: WR 121, SP 111 and BA 223.

Credits: 4 Lecture: 4

ETHNIC STUDIES

ES 199

ETHNIC STUDIES

Selected topics in Ethnic Studies.

Credits: 1 to 4

ES 299

ETHNIC STUDIES

Selected topics in Ethnic Studies.

Credits: 1 to 4

FOREIGN LANGUAGES

CHN 101

FIRST YEAR MANDARIN CHINESE I

The first course of a three-course sequence in introductory Mandarin Chinese language and culture class, with a well-balanced emphasis on effective communicative skills in both the written and spoken language and an understanding of the practices and products of native Chinese culture. Helps the early beginning learners to acquire language proficiency as well as cultural awareness and understanding.

Credits: 4 Lecture: 4

CHN 102

FIRST YEAR MANDARIN CHINESE II

The second course of a three-course sequence in introductory Mandarin Chinese language and culture class, with the expansion on effective communicative skills in both the written and spoken language and an understanding of the practices and products of native Chinese culture. Expands beginning learners' language proficiency as well as cultural awareness and understanding. Recommended preparation: CHN 101 or instructor approval.

Credits: 4 Lecture: 4

CHN 103

FIRST YEAR MANDARIN CHINESE III

The third course of three-course sequence in introductory Mandarin Chinese language and culture class, expanding on effective communicative skills in both the written and spoken language and understanding the practices and products of native Chinese culture. Expands beginning learners' language proficiency as well as cultural awareness and understanding. Recommended preparation: CHN 102 or instructor approval.

Credits: 4 Lecture: 4

CHN 110

CHINESE CHARACTERS

An introductory course on Chinese Simplified Characters, with an emphasis on the recognition, writing, and etymology of said characters. This course will help the beginning student of Chinese, or those who have an interest in studying Chinese characters, learn to recognize many of the most common characters, write those characters using correct stroke order, and learn the etymology of many of those characters. Students will also gain an understanding of the importance of Chinese characters in Chinese culture, and Chinese character's influence in Asia in general. Note: This is not a calligraphy course. Recommended preparation: CHN 101

Credits: 4 Lecture: 4

CHN 201

SECOND YEAR MANDARIN CHINESE I

The first course of a three-course sequence of second-year Mandarin Chinese language and culture. This course will focus on effective communication in the Mandarin Chinese language, emphasizing both the written and spoken language, as well as an understanding of the practices and products of Chinese culture. Particular attention will be given to exploring the relationship between Chinese language, literature, philosophy, and culture. Recommended Preparation: CHN 103 and CHN 110 or instructor approval.

Credits: 4 Lecture: 4

CHN 202

SECOND YEAR MANDARIN CHINESE II

The second course of a three-course sequence of second-year Mandarin Chinese language and culture. This course will focus on effective communication in the Mandarin Chinese language, emphasizing both the written and spoken language, as well as an understanding of the practices and products of Chinese culture. Particular attention will be given to exploring the relationship between Chinese language, literature, philosophy, and culture. Recommended Preparation: CHN 201 or instructor approval.

Credits: 4 Lecture: 4

CHN 203**SECOND YEAR MANDARIN CHINESE III**

The third course of a three-course sequence of second-year Mandarin Chinese language and culture. This course will focus on effective communication in the Mandarin Chinese language, emphasizing both the written and spoken language, as well as an understanding of the practices and products of Chinese culture. Particular attention will be given to exploring the relationship between Chinese language, literature, philosophy, and culture. Recommended Preparation: Chinese 202 or instructor approval.

Credits: 4 Lecture: 4

FL 199**SELECTED TOPICS FOREIGN LANGUAGE**

This course will cover special topics in language.

Credits: 4

FL 299**SELECTED TOPICS FOREIGN LANGUAGE**

This course will cover special topics in language.

Credits: 4

FR 101**FIRST YEAR FRENCH I**

Designed for beginners. Emphasizes active communication in French. Develops students' basic skills in listening, reading, writing, and speaking. Successful completion of this sequence prepares students for entry into second-year level at COCC or any other university. Should be taken in sequence. Students who have previously learned French should contact the instructor for advice on which class to take.

Credits: 4 Lecture: 4

FR 102**FIRST YEAR FRENCH II**

Continues the development of reading, writing, listening and speaking skills. Students are expected to have completed FR 101 material, and are encouraged to review French 101 concepts and vocabulary prior to class. Recommended preparation: FR 101, one year of high school French, or instructor approval. Course should be taken in sequence. Students who have previously learned French should contact the instructor for advice on which class to take.

Credits: 4 Lecture: 4

FR 103**FIRST YEAR FRENCH III**

Continues the development of reading, writing, listening and speaking skills. Students are expected to have completed FR 102 material, and are encouraged to review the concepts of FR 101 and 102 prior to class. Recommended preparation: FR 102, two years of high school French, or instructor approval. Course should be taken in sequence. Students who have previously learned French should contact the instructor for advice on which class to take.

Credits: 4 Lecture: 4

FR 199**SELECTED TOPICS: FRENCH**

Credits: 1 to 4

FR 201**SECOND YEAR FRENCH I**

Continues the work of First Year French, reviewing, expanding and perfecting pronunciation, structure and vocabulary for the purpose of active oral and written communication. Emphasis on writing and reading skills. Incorporates culture in all aspects of the course; class taught mostly in French. Course should be taken in sequence. Recommended preparation: FR 103 or equivalent, or instructor approval.

Credits: 4 Lecture: 4

FR 202**SECOND YEAR FRENCH II**

Continues the work of FR201, reviewing, expanding and perfecting pronunciation, structure and vocabulary for the purpose of active oral and written communication. Increasing emphasis on writing and reading skills. Incorporates culture in all aspects of the course; class taught

mostly in French. Course should be taken in sequence. Recommended preparation: FR 201 or equivalent, or instructor approval.

Credits: 4 Lecture: 4

FR 203**SECOND YEAR FRENCH III**

Continues the work of French 202, reviewing, expanding and perfecting pronunciation, structure and vocabulary for the purpose of active oral and written communication. Increasing emphasis on writing and reading skills. Incorporates culture, regionalisms, and argot; class taught mostly in French. Course should be taken in sequence. Recommended preparation: FR 202 or equivalent, or instructor approval.

Credits: 4 Lecture: 4

FR 211**FRENCH CONVERSATION AND CULTURE I**

Intended for students who wish to maintain and continue mastering fluency in the acquisition of French. Also an excellent option for the non-degree-seeking student. Recommended preparation: FR 103, equivalent or instructor approval.

Credits: 3 Lecture: 3

FR 212**FRENCH CONVERSATION AND CULTURE II**

Intended for students who wish to maintain and continue mastering fluency in the acquisition of French. Also an excellent option for the non-degree-seeking student. Recommended preparation: FR 211 or FR 201 equivalent or instructor approval.

Credits: 3 Lecture: 3

FR 213**FRENCH CONVERSATION AND CULTURE III**

Intended for students who wish to maintain and continue mastering fluency in the acquisition of French. Also an excellent option for the non-degree-seeking student. Recommended preparation: FR 212 or FR 202 equivalent or instructor approval.

Credits: 3 Lecture: 3

SPAN 101**FIRST YEAR SPANISH I**

Begins the development of reading, writing, listening and speaking skills. Focuses on the concepts of pronunciation, gender, descriptions, possessives, verb tenses, numbers, question words, time, weather, demonstratives, verbs and vocabulary which includes the following categories: alphabet, calendar, clothing, people, greetings, school items, body, family and activities. This class is for beginners only. Advanced students are strongly discouraged from taking this as a review class. Students with prior Spanish experience should take the Spanish Placement Test which is available at www.cocc.edu/spt.

Credits: 4 Lecture: 4

SPAN 102**FIRST YEAR SPANISH II**

Continues the development of reading, writing, listening and speaking skills. Focuses on irregular and stem-changing verbs, questions, direct object pronouns (lo, la), ser vs. estar, reflexive verbs, indirect object pronouns, present progressive, obligation, the verbs estar, ir, hacer, salir, jugar, saber, poder, pensar and vocabulary which includes the following categories: prepositions, university, city, foods, holidays, daily routines, physical and mental states, classroom activities and workplaces. Students are encouraged to review Spanish 101 concepts and vocabulary prior to class. Recommended preparation: SPAN 101, one year of high school Spanish, placement test score of 176-225 (www.cocc.edu/spt), or instructor approval.

Credits: 4 Lecture: 4

SPAN 103**FIRST YEAR SPANISH III**

Continues the development of reading, writing, listening and speaking skills. Focuses on the concepts of comparisons, preterite (past) tense, hacer as a past expression, negative statements, impersonal se, the verbs conocer, pedir, servir and vocabulary which includes these categories: house, furniture, neighborhood, chores, comparisons, nature, restaurant, foods, measurements and kitchen. Students are encouraged to review

the concepts of SPAN 101 and 102 prior to class. Recommended preparation: SPAN 102, two years of high school Spanish, placement test score of 226-280 (www.cocc.edu/spt), or instructor approval.

Credits: 4 Lecture: 4

SPAN 188

SPECIAL STUDIES: SPANISH

Credits: 1 to 4

SPAN 199

SELECTED TOPICS: SPANISH

Credits: 4

SPAN 201

SECOND YEAR SPANISH I

Continues, after Spanish 103, with the development of reading, writing, listening and speaking skills. Focuses on the concepts of the imperfect (past) tense (with and without the preterite tense), the present perfect tense, past participles, exclamations, *por* and *para*, creating adverbs and vocabulary which includes the following categories: family and relatives, childhood activities, geography, climate, ecology, environment and animals. Class begins with a review of Spanish 101, 102 and 103. Recommended preparation: SPAN 103, three years of high school Spanish, placement test score of 281-360 (www.cocc.edu/spt), or instructor approval.

Credits: 4 Lecture: 4

SPAN 202

SECOND YEAR SPANISH II

Continues with the development of reading, writing, listening and speaking skills. Focuses on the concepts of polite commands, the present tense of the subjunctive mood, the imperfect progressive, the verb *haber*, changes in states, indirect object pronouns with commands, unplanned occurrences, narrating past experiences, adjectives used as nouns, demonstrative pronouns, *por* and *para*, two object pronouns together and vocabulary which includes the following categories: polite commands, the present tense of the subjunctive mood, the imperfect progressive, the human body, illnesses, symptoms, health, medicines, medical professions, accidents, emergencies, materials that things are made of, clothing and jewelry, shopping and appliances. Recommended preparation: SPAN 201, four years of high school Spanish, placement test score of 361-430 (www.cocc.edu/spt), or instructor approval.

Credits: 4 Lecture: 4

SPAN 203

SECOND YEAR SPANISH III

Continues with the development of reading, writing, listening and speaking skills. Focuses on the concepts of reciprocal pronouns, polite and informal commands, subjunctive mood in softened commands, future tense, subjunctive mood in adjectival clauses, subjunctive mood in time clauses, doubt, conditional, past subjunctive in "if" clauses, and vocabulary which includes the following categories: personal relationships, reciprocal actions, opinions, general lists of nouns, verbs, adverbs, adjectives and review of and additions to past vocabulary topics. Recommended preparation: SPAN 202, four years of high school Spanish, placement test score of 431-550 (www.cocc.edu/spt), or instructor approval.

Credits: 4 Lecture: 4

SPAN 211

SPANISH CONVERSATION AND CULTURE I

Designed for students who wish to continue mastering fluency in the speaking of Spanish. Objective is to study various Spanish-speaking cultures. Taught exclusively in Spanish and some student participation is required. Does not meet baccalaureate degree language requirements. Recommended preparation or recommended to be taken with: SPAN 203 or instructor approval.

Credits: 3 Lecture: 3

SPAN 212

SPANISH CONVERSATION AND CULTURE II

Designed for students who wish to continue mastering fluency in the speaking of Spanish. Objective is to study various Spanish-speaking cultures. Taught exclusively in Spanish and some student participation is

required. Does not meet baccalaureate degree language requirements. Recommended preparation or recommended to be taken with: SPAN 203 or instructor approval.

Credits: 3 Lecture: 3

SPAN 213

SPANISH CONVERSATION AND CULTURE III

Designed for students who wish to continue mastering fluency in the speaking of Spanish. Objective is to study various Spanish-speaking cultures. Taught exclusively in Spanish and some student participation is required. Does not meet baccalaureate degree language requirements. Recommended preparation or recommended to be taken with: SPAN 203 or instructor approval.

Credits: 3 Lecture: 3

SPAN 288

SPECIAL STUDIES: SPANISH

Credits: 1 to 4

SPAN 299

SELECTED TOPICS: SPANISH

Credits: 1 to 4

FOREST RESOURCE TECHNOLOGY/ FORESTRY

FOR 100

FORESTRY PROGRAM ORIENTATION

Provides students with an orientation to the Forest Resources Technology program. The course is designed to give students knowledge and tools to succeed in the Forest Resources AAS, the natural resources work force, and in an academic career beyond COCC. The course is required of all students seeking the Forest Resources Technology AAS degree, and is highly recommended for students in the Wildland Fire program.

Credits: 1 Lecture: 1

FOR 105A

FOREST SPORTS INTRODUCTION

Introduces students to the competition of forest sports which includes tree climbing, wood chopping, crosscut sawing, axe throwing and log rolling. Provides a comprehensive introduction to any student who is interested in acquiring or enhancing outdoor skills. Students have the opportunity to compete in collegiate local and regional contests. Instruction will include basic skills for the beginner or instruction for the experienced student.

Credits: 1 Lab: 3

FOR 105B

FOREST SPORTS CONDITIONING

Forest Sports will introduce, define and interpret a variety of events making up the art of timbersports. Students will learn the correct weight training regiment for this sport. Course will focus on skills, training and conditioning during off-season periods to train for upcoming competitions.

Credits: 1 Lab: 3

FOR 105C

FOREST SPORTS COMPETITION

Course will focus on development of skills and training for participation in forest sports contests to be held later in the fall. Course is intended to give new comers to the sport an opportunity to experience the different events in a low-key environment without the pressure of immediate competition. Returning forestry sports competitors will work to enhance their skills while also assisting in demonstrations of technique and form for potential new competitors. When appropriate, members of the class will also be responsible for hosting a High School Skills contest, showcasing a variety of the events at the High School level.

Credits: 1 Lab: 3

**FOR 110
WILDLAND FIRE SCIENCE I**

Focuses on the effects of Wildland Fire Policy, current fire suppression strategies and tactics; weather, topography, fuel models and how each interact to effect fire behavior. Additional topics include the wildland fire environment as it relates to situational awareness and personal safety. An overview of modern wildland firefighting with an emphasis on understanding and applying fireline safety. Course cannot be challenged, but will be waived for those with proof of wildland fire single resource status.

Credits: 2 Lecture: 1 Lab: 3

**FOR 111
FORESTRY PERSPECTIVES**

Introduction to the entire discipline of forestry, including the history of forest use and management, North American forest regions, forest ecology, mensuration and management, forest products and the importance of forest resources other than wood fiber. Also provides overview of state, regional and local employment opportunities.

Credits: 4 Lecture: 3 Lab: 3

**FOR 123
LICHENOLOGY BASICS**

Introduction and identification, distribution and ecology of lichens found in a variety of Oregon habitats and substrate types. This course has two parts: the lecture portion will present a number of lichen species found in Oregon and the lab portion will provide hands on identification methods as well as some field trips to view lichens in their natural environment.

Credits: 3 Other: 6

**FOR 126
FIELD STUDIES PACIFIC NORTHWEST FORESTS**

This course examines the ecology, management, and human uses of Pacific Northwest forests. Field experience takes place during a 4-day field trip to the Oregon coast and Northern California and includes visiting forest environments, forest product manufacturing facilities, field lectures and guided tours, as well as individual and small-group exercises.

Credits: 1 Lab: 3

**FOR 127
PLANTS OF THE PACIFIC NORTHWEST**

Identification, classification and distribution of shrubs, forbs, and grasses found in low-, mid-, and high-elevation Oregon habitat types. Emphasis is placed upon proper field identification through use of terminology and taxonomic keys. Also discusses sensitive plants and noxious weeds.

Credits: 1 Lab: 3

**FOR 130
CHAINSAW USE AND MAINTENANCE**

Covers basic tree falling, bucking and limbing techniques. Equipment safety, use, maintenance and repairs of saws is covered. Designed for inexperienced or novice chainsaw operators or can be used as refresher course for experienced saw operators.

Credits: 2 Lecture: 1 Lab: 3

**FOR 180
CO-OP WORK EXPERIENCE FORESTRY**

Provides opportunity for on-the-job training in forestry field operations, forest products manufacturing or work related to these areas. Normally undertaken during summer months on a full-time basis but can occur any term.

Credits: 1 to 7

**FOR 188
SPECIAL STUDIES: FORESTRY**

Credits: 1 to 3

**FOR 195
WILDERNESS CONCEPTS**

Introduction to concepts of wilderness and wilderness management principles. Introduction to the history of wilderness and the National Wilderness Preservation System.

Credits: 2 Lecture: 2

**FOR 199
SELECTED TOPICS: FORESTRY**

Provides opportunity for students with exceptional background or need to continue beyond normal program content. Content and credit earned by mutual agreement between instructor and student and detailed in written agreement. Prerequisite: instructor approval. Maximum of three credits may be applied to degree.

Credits: 1 to 3

**FOR 202
FOREST ENTOMOLOGY/PATHOLOGY**

Emphasizes the recognition and effects of diseases, insects and mammals affecting forest ecosystems in the Pacific Northwest. Course will examine the role of insects, diseases and animals in forest functioning, health and management, as well as control measures and integrated pest management. Lab work is largely field-based and emphasizes identification of damaging forest insects and diseases common in Oregon.

Credits: 3 Lecture: 2 Lab: 3

**FOR 203
APPLIED FOREST ECOLOGY**

Applies principles of forest ecology to develop a basic understanding of forest stand dynamics and silvicultural principles. Emphasis is placed on stand development, regeneration and stand analysis. Students will develop a practical understanding of stand establishment, maintenance and stand data collection.

Credits: 3 Lecture: 2 Lab: 3

**FOR 205
SILVICULTURE AND HARVESTING PROCESSES**

Emphasizes interrelated systems of silviculture and harvesting. Discussions provide an understanding of the various treatments and harvesting systems applied to forest stands to meet various management objectives for forest ecosystems. Topics include forest regeneration processes and intermediate operations (thinning, pruning, etc.) and different methods of timber harvest. Observation and data collection will be performed in lab sections. Written reports interpreting prescriptions and harvest systems will be required.

Credits: 5 Lecture: 3 Lab: 6

**FOR 208
SOILS: SUSTAINABLE ECOSYSTEMS**

Focuses on the basics of Soil Science, ranging from physical properties to use and management. Soils with respect to traditional agricultural, wildlands and rangelands, watersheds and modern environmental perspectives will be discussed. New and current events of soils applications and the science of soils in the world around us will be reviewed to better understand the role soil has in our everyday lives. Lab component will include in and out of classroom lab work and field trips.

Credits: 4 Lecture: 3 Lab: 3

**FOR 209
FIRE ECOLOGY AND EFFECTS**

Discusses the role of fire in Pacific Northwest ecosystems. Identifies effects on flora, fauna, soils, water; fire and cultural/visual resource management; fire and insect interactions. Covers the effects of fire on different forest and range ecosystems.

Credits: 3 Lecture: 2 Lab: 3

**FOR 210
WILDLAND FIRE SCIENCE II**

A study of hazardous fuel management and treatment practices. Incorporates current fuel measurement and analysis techniques, fire behavior prediction models and hazardous wildland fuel mitigation methods.

Credits: 2 Lecture: 1 Lab: 3

**FOR 211
SUPERVISION AND LEADERSHIP**

Covers basic human relations and management skills as applied to first-line supervision in forestry, fire science and EMS. Defines work environment. Identifies and discusses subordinate, peer, and supervisory relationships. Case studies, including students' own work experiences will be used.

Credits: 3 Lecture: 3

**FOR 215
FOREST RESOURCE CAPSTONE**

Students conduct a sample survey of a large area and present their findings, along with recommendations for management of the area, in a written report. Oral presentation also made to department staff. Limited to second year students or those who have fulfilled majority of Forest Resources Technology Degree requirements. Instructor approval required.

Credits: 3 Lecture: 1.5 Lab: 4.5

**FOR 220A
AERIAL PHOTO**

Covers practical use of aerial photographs including photo interpretation, navigation, scale, area and distance determination, corner search, basic type-mapping and GPS application. Recommended preparation: FOR 230B.

Credits: 3 Lecture: 2 Lab: 3

**FOR 220B
RESOURCE MEASUREMENT**

Students will learn the fundamentals of measuring and quantifying natural resources, including cruising and scaling timber to determine merchantable volume, quantifying wildlife and fisheries habitat, measuring and estimating forage production for wildlife and livestock, and sampling wildlife populations. Course will also introduce basic statistical concepts and their applications in resource management.

Credits: 4 Lecture: 3 Lab: 3

**FOR 220C
RESOURCE SAMPLING**

Includes instruction in log scaling, tree measurement techniques, sampling statistics, tree volume and tree taper equations, sampling and field procedures for equal probability (sample tree and fixed area) and variable probability (3P and point sampling) sampling systems. Recommended preparation: FOR 220A.

Credits: 4 Lecture: 2.5 Lab: 4.5

**FOR 230A
MAP, COMPASS AND GPS**

Teaches the basic skills of field and forest navigation with compass and GPS. Competency obtained in pacing, paper and computer map use, compass and basic GPS use.

Credits: 3 Lecture: 2 Lab: 3

**FOR 230B
FOREST SURVEYING**

Studies basic surveying techniques and equipment emphasizing traversing, differential leveling, profiling, GPS mapping and basic coordinate geometry. Recommended preparation: FOR 230A or instructor approval.

Credits: 3 Lecture: 2 Lab: 3

**FOR 240A
FOREST ECOLOGY**

Provides students with an overview of basic plant structure and function and introduces students to functioning of forest ecosystems. Class will examine the physical environment and how it affects growth and distribution of organisms and ecological processes. Course concludes with an examination of communities, disturbance and succession.

Credits: 3 Lecture: 2 Lab: 3

**FOR 240B
WILDLIFE ECOLOGY**

Explores wildlife ecology and biodiversity in context of forest and range management. Focuses on relationship between wildlife and forest and range ecosystems, and examines the role of forest and

range management in wildlife habitat management. Recommended preparation: FOR 240A.

Credits: 3 Lecture: 2 Lab: 3

**FOR 241A
FIELD DENDROLOGY**

Identification, classification, and distribution of common trees and shrubs found in the Western United States and major tree species of North America. The course emphasizes botanical nomenclature and proper identification using plant keys and field characteristics.

Credits: 3 Lecture: 1 Lab: 6

**FOR 241B
DENDROLOGY**

Covers identification, classification and distribution of plant communities (tree, shrub, forb and grass) found within Oregon and major North American plant communities. This class covers in lecture format the structure and function of the primary organs and tissues that comprise woody plants. This course is the classroom portion of FOR 241A. Course does not need to follow FOR 241A.

Credits: 3 Lecture: 3

**FOR 251
RECREATIONAL RESOURCE MANAGEMENT**

Overview of recreational resource management including study of land and water resources used for outdoor recreation. Includes planning and management of natural and cultural resources for long-term resource productivity.

Credits: 3 Lecture: 2 Lab: 3

**FOR 255
RESOURCE INTERPRETATION**

Introduces fundamental theories of interpretation and active and passive techniques of interpretation including: activities, presentations, signage, brochures and information kiosks. Course allows optional certification as an interpreter.

Credits: 3 Lecture: 2 Lab: 3

**FOR 260
CONSERVATION OF NATURAL RESOURCES**

Examines current utilization and issues surrounding natural resources availability and management, as well as the effect of human population on resource use and the environment. Includes critical analysis of sustainable development and resource use concepts, including principles of conservation and management. Emphasis placed on current issues. Two-day field trip required. Recommended preparation: WR 121.

Credits: 3 Lecture: 2 Lab: 3

**FOR 262
URBAN FORESTRY**

Examination of the role and values of trees and other vegetation in the urban environment. Draws on traditional forest management concepts to describe successful urban forestry programs, including public participation, funding and the production of human benefits. Covers the role and duties of an urban forester.

Credits: 3 Lecture: 2 Lab: 3

**FOR 265
WOOD TECHNOLOGY & UTILIZATION**

Introduces manufacturing and use of forest products, including lumber, plywood, composition board, pulp, paper and other products. Lab work focuses on visiting manufacturing facilities and the identification of woods of different species.

Credits: 4 Lecture: 3 Lab: 3

**FOR 299
SELECTED TOPICS: FORESTRY**

Credits: 1 to 5

**FW 135
MUSEUM TECHNIQUES**

Course will teach the fundamentals of preparing and preserving mammal and bird specimens for use in education and research. Students will complete a minimum of three projects which requires skinning and

preserving wildlife specimens suitable for display. This course is a hands on technique course.

Credits: 1 Lab: 3

FW 199

SELECTED TOPICS: FISH/WILDLIFE

Provides students with hands-on field experience and aids students in acquiring experience which may meet basic qualification standards required by federal agencies. Content and credit earned by mutual agreement between instructor and student in detailed written agreement. Prerequisite: instructor approval. Maximum of three credits may be applied to a degree.

Credits: 1 to 4

FW 212

SURVEY OF NORTHWEST BIRDS

This course is an introduction to bird systematics, and surveys ecologically, economically, and socially important bird species in the Pacific Northwest with an emphasis on field identification and basic life history. Recommended preparation: BI 102 or BI 213 or FOR 241A.

Credits: 2 Lab: 6

FW 218

SURVEY OF NORTHWEST MAMMALS

This course is an introduction to mammal systematics, and surveys ecologically, economically, and socially important mammal species in the Pacific Northwest with an emphasis on identification and basic life history. Recommended preparation: BI 102 or BI 213 or FOR 241A.

Credits: 2 Other: 4

FW 251

WILDLIFE CONSERVATION

Introduces fundamentals of wildlife ecology and management and their role in wildlife conservation. Examines history of wildlife management, current issues and case examples in wildlife conservation. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

GENERAL SCIENCE

GS 104

PHYSICAL SCIENCE: PHYSICS

Energy is used as the theme to develop basic understanding of introductory principles of physics. Energy topics include mechanical, acoustic, heat, electric, radiant and nuclear. Emphasis placed on practical application of various energy forms. Recommended preparation: one year of high school algebra or equivalent or concurrent enrollment in MTH 60.

Credits: 4 Lecture: 3 Lab: 2

GS 105

PHYSICAL SCIENCE: CHEMISTRY

Provides an introduction to properties and structures of matter, chemical bonding, solutions, equilibrium, electrolytes, and acids and bases. Also includes quantitative discussions of the mole, stoichiometry and solution concentration. Recommended preparation: one year of high school algebra or equivalent or concurrent enrollment in MTH 60.

Credits: 4 Lecture: 3 Lab: 2

GS 106

PHYSICAL SCIENCE: GEOLOGY

Study of physical characteristics of, and processes within, solid earth. Principal topics include minerals, earthquakes, plate tectonics, igneous, sedimentary and metamorphic processes, glaciation and geologic time. Recommended preparation: one year of high school algebra or equivalent or concurrent enrollment in MTH 60.

Credits: 4 Lecture: 3 Lab: 2

GS 107

PHYSICAL SCIENCE: ASTRONOMY

Introduction to astronomy including solar system, stellar systems and cosmology. Some individual observing may be required. Recommended

preparation: one year of high school algebra or equivalent or concurrent enrollment in MTH 60.

Credits: 4 Lecture: 3 Lab: 2

GS 108

PHYSICAL SCIENCE: OCEANOGRAPHY

Survey course that includes topics from four main areas of oceanography: geology of ocean basins and coasts; waves and currents; sea water chemistry; and marine biology. Recommended preparation: one year of high school algebra or equivalent or concurrent enrollment in MTH 60.

Credits: 4 Lecture: 3 Lab: 2

GS 199

SPECIAL TOPICS: GENERAL SCIENCE

Credits: 1 to 6

GEOGRAPHIC INFORMATION SYSTEMS

GEOG 211

COMPUTER CARTOGRAPHY

Develops skills needed to produce maps using ArcGIS. Outlines cartographic principles and map use. Emphasis on mapping techniques within a GIS. Recommended preparation: FOR 230A. Usually offered winter term.

Credits: 4 Lecture: 3 Other: 2

GEOG 265

GEOGRAPHIC INFORMATION SYSTEMS

Introduces students to principles and practice of GIS, while providing experience using ArcGIS Desktop and Spatial Analyst software. Develops both theoretical understanding of GIS and experience in accessing GIS datasets. Students exposed to raster and vector GIS. Usually offered fall and winter terms.

Credits: 4 Lecture: 3 Lab: 3

GEOG 266

ARC GIS

Provides working knowledge of ArcGIS Desktop. In addition, students undertake designing and developing a GIS database, performing spatial analysis, creating maps, and generating a report using the desktop products. Usually offered fall term. Recommended to be taken with GEOG 265.

Credits: 5 Lecture: 4 Other: 2

GEOG 267

GEODATABASE DESIGN

Covers fundamentals of creating, using, editing, and managing spatial and attribute data stored in a geodatabase in ArcGIS. Topics include data migration; data loading; topology rules; use of subtypes, attribute domains, and relationship classes. Also covered are creation, editing and analysis of geometric networks. Usually offered spring term. Recommended to be taken with GEOG 266.

Credits: 5 Lecture: 4 Other: 2

GEOG 273

SPATIAL DATA COLLECTION

Provides the skills to collect location information for the purpose of integration with a Geographic Information System. The focus is on proper utilization of Global Positioning System (GPS) receivers and data collection. Usually offered fall term. Recommended preparation: FOR 230A or instructor approval.

Credits: 5 Lecture: 4 Other: 2

GEOG 275

GIS CAPSTONE

Culmination GIS project. Students are presented with a set of criteria and perform all steps necessary to complete the project including: project planning, designing and developing a GIS database, data collection and editing, performing spatial analysis, creating maps, generating reports and presenting of project output. See instructor for details. Usually offered spring term. Recommended preparation: GEOG 285 or instructor approval.

Credits: 5 Lecture: 4 Other: 2

GEOG 280**CO-OP WORK EXPERIENCE GIS**

Provides opportunity for on-the-job experience in the GIS field. Normally taken summer term, but may occur during any term. See instructor for details. Instructor approval required.

Credits: 1 to 3

GEOG 284**GIS CUSTOMIZATION**

Utilizes techniques to program the user interface for ArcGIS software. Emphasis is placed on creating customized applications. Usually offered winter term. Recommended preparation: CIS 122 or instructor approval.

Credits: 5 Lecture: 4 Lab: 2

GEOG 285**DATA CONVERSION AND DOCUMENTATION**

Covers a variety of techniques to collect and convert data between various formats, projections and coordinate systems, etc. Cultivates student's ability to research and experiment with data and enhance problem-solving skills. Stresses use of metadata which allows the data user to determine whether a particular data set is suitable for its proposed use. Usually offered winter term. Recommended preparation: GEOG 266 or instructor approval.

Credits: 5 Lecture: 4 Other: 2

GEOG 286**REMOTE SENSING**

Introduces students to the theory and methods of remote sensing through use of satellite imagery. Practical exercises involve use of SPOT, LANDSAT and Quickbird images with ERDAS Imagine software. Digital analysis is discussed and performed including preprocessing, image classification and image evaluation. Usually offered spring term. Recommended preparation: FOR 220A or instructor approval.

Credits: 5 Lecture: 4 Other: 2

GEOG 287**ANALYSIS OF SPATIAL DATA**

Leads students through the analytical capabilities of GIS. Course begins with the more elementary but useful techniques involving locating and describing features, then proceeds to more advanced techniques based on higher-level spatial objects. Lab exercises utilize the Spatial Analyst Extension of ArcGIS to perform analysis of raster datasets. Usually offered spring term. Recommended preparation: GEOG 266 or instructor approval.

Credits: 5 Lecture: 4 Other: 2

**GEOGRAPHY****GEOG 100****INTRODUCTION TO GEOGRAPHY**

Designed to examine the key themes, concepts and ideas in geography and to develop a geographical perspective of the contemporary world. A basic foundation of the fundamental themes in geographic education will be extended to the study of places and regions. Emphasis will be placed on the development of cartographic and map interpretation skills.

Credits: 4 Lecture: 4

GEOG 106**ECONOMIC GEOGRAPHY**

Introductory view on how economic activity varies across space. Besides covering locational theories for different economic sectors, course explores such issues as economic development, business affairs analysis, resource distribution, urbanization patterns, population growth, rural economics and coping with a changing world economy. Recommended preparation: Writing placement test score that places the student in WR 65.

Credits: 4 Lecture: 4

GEOG 107**CULTURAL GEOGRAPHY**

Examination of different cultural traits in the world. Special emphasis on perception of space and landscape, language, world religion and folk and popular culture issues. Recommended preparation: writing placement test score that places the student in WR 65.

Credits: 4 Lecture: 4

GEOG 190**ENVIRONMENTAL GEOGRAPHY**

Introductory view of the environment and how it is shaped by and shapes human activity. Units include famine, water resources, deforestation, energy use, biodiversity and sustainable land-use practices. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

GEOG 195WC**THE WILDERNESS CONCEPT**

Introduction to the concept of wilderness and management principles and issues associated with applying that concept to National Wilderness Preservation System units, using Three Sisters Wilderness as an example.

Credits: 1 Lecture: 1

GEOG 198**FIELD GEOGRAPHY OF CENTRAL OREGON**

Field course that examines natural and cultural landscapes of Central Oregon sub-regions such as the Bend Core, Sisters Country, High Desert, and Upper and Lower Deschutes Basins. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

GEOG 199**SELECTED TOPICS: GEOGRAPHY**

Series of mini-courses focusing on selected geographical topics including the following: an invitation to geography and natural regions of the world (deserts, mountains, humid tropics) and thematic topics.

Credits: 1 to 4

GEOG 201**WORLD REGIONAL GEOGRAPHY I**

Introductory Geography course that explores the following regions: Europe, the former Soviet Union, Anglo-America, Australia and Japan. Evaluate how culture, politics, economics, history and the physical environment help create differences across regions. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

GEOG 202**WORLD REGIONAL GEOGRAPHY II**

Introductory Geography course that explores the following regions: Latin America, Middle East/North Africa, Sub-Saharan Africa, East, South

and Southeast Asia. Evaluate how culture, politics, economics, history and the physical environment help create differences across regions. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

GEOG 207 GEOGRAPHY OF OREGON

Survey of the state of Oregon focusing on natural environment, economic developments and human geography. Special emphasis on historical geography and demographic changes. Includes studies of major regions of Oregon. Recommended preparation: WR 065.

Credits: 3 Lecture: 3

GEOG 212 TOURISM AND RECREATION

Includes a study of various components of the tourist industry and an analysis of the economic and environmental impacts of tourism and recreation upon communities. Examines tourism and recreation in Central Oregon and in other selected parts of the world. Recommended preparation: WR 065.

Credits: 3 Lecture: 3

GEOG 213 GEOGRAPHY OF PACIFIC NORTHWEST

General introduction to geographical characteristics of the Pacific Northwest and, through this regional emphasis, to some of the basic principles and concepts of geography as a discipline. Comprises three broad sections dealing in turn with historical geography, physical geography and economic geography. Recommended preparation: WR 065.

Credits: 3 Lecture: 3

GEOG 235 LAND USE RESEARCH

Introduces students to techniques in land-use research. Classroom instruction focuses on planning and zoning. Students are involved in a Bend-area research project. Recommended preparation: WR 121.

Credits: 3 Lecture: 1 Lab: 6

GEOG 240 GEOGRAPHY OF CENTRAL OREGON

Regional study of diversity of landscapes of Central Oregon with emphasis on natural environments, economy of the area, population growth and settlements. Recommended preparation: WR 065.

Credits: 3 Lecture: 3

GEOG 270 MAP INTERPRETATION AND DESIGN

Looks at the world of maps. How to design, interpret and critique many forms of maps. Recommended preparation: MTH 60 or equivalent.

Credits: 4 Lecture: 4

GEOG 272 GEOGRAPHY FOR TEACHERS

Designed for public and private school teachers in Geography and for all teachers wishing to include geographic content and concepts in their social studies classes. Emphasizes how to teach Geography at any grade level and incorporates the benchmarks and curriculum goals of the state of Oregon Department of Education as well as National Geography standards. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

GEOG 278 PHYSICAL GEOGRAPHY-LANDFORMS AND WATER

Introduction to the science of landforms and the processes that form them, including both internal and external processes, and how these processes interact and form a system. The course will survey different landform types, such as fluvial, Aeolian, glacial, volcanic, coastal, karst, and periglacial landforms and identify where, on a global basis, these landforms are likely to occur.

Credits: 4 Lecture: 3 Lab: 3

GEOG 279

PHYSICAL GEOGRAPHY: WEATHER AND CLIMATE

This course is an introduction to the sciences of meteorology and climatology. The focus of study for the meteorology section of the course will be on the troposphere, which is the layer of the atmosphere closest to the earth. The last portion of the course will study climatic classification and the relationship of climate with natural vegetation and human activity.

Credits: 4 Lecture: 3 Lab: 3

GEOG 290 ENVIRONMENTAL PROBLEMS

Examines intentional and inadvertent human modification of the natural environment and local, regional and global problems it may cause. Includes deforestation, urbanization, resource depletion and climate.

Recommended preparation: WR 121.

Credits: 3 Lecture: 3

GEOG 295 WILDERNESS AND SOCIETY

Cultural and historical overview of the changing attitudes toward wilderness as reflected through literature and the history of federal land legislation. Attempts to define the social and economic values of wilderness lands and where they occur geographically. A reading intensive course.

Credits: 4 Lecture: 4

GEOG 299 SELECTED TOPICS: GEOGRAPHY

Credits: 1 to 4

GEOLOGY

G 148

VOLCANOES AND EARTHQUAKES

This lab science course examines the global occurrence, origin, and geological processes that create volcanoes and earthquakes. In addition, the course explores geologic hazards, risks, monitoring techniques, and prediction methods associated with earthquakes and volcanism.

The course makes extensive use of historic and prehistoric records of earthquakes and volcanic events and highlights examples from Oregon and the western United States.

Credits: 4 Lecture: 3 Lab: 3

G 162CO

CENTRAL OREGON

Consists of field studies of selected areas with emphasis on relationship between rock type, geologic setting and topography with a focus on the Geology of Central Oregon. Includes lectures, laboratory and weekend field trips.

Credits: 3 Lecture: 1 Lab: 6

G 162CV

CASCADE VOLCANOES

Consists of field studies of selected areas with emphasis on relationships between rock type, geologic setting and topography. Includes lectures, laboratory and weekend field trips. Topic areas include the different types of Cascade Volcanoes.

Credits: 3 Lecture: 1 Lab: 6

G 162OC

OREGON COAST

Consists of field studies of selected areas with emphasis on relationship between rock type, geologic setting and topography with a focus on the Geology of the Oregon Coast. Includes lectures, laboratory and weekend field trips.

Credits: 3 Lecture: 1 Lab: 6

G 162OR GEOLOGY OF OREGON

Consists of field studies of selected areas with emphasis on relationship between rock type, geologic setting and topography. Includes lectures, laboratory and weekend field trips. Topic areas include the various types of Geology in Oregon.

Credits: 3 Lecture: 1 Lab: 6

G 199 SELECTED TOPICS: GEOLOGY

Credits: 1 to 6

G 201 GEOLOGY I

Examines the nature and origins of igneous metamorphic and sedimentary rocks, volcanism and volcanic hazards, geological resources, interior of the earth and plate tectonics.

Credits: 4 Lecture: 3 Lab: 3

G 202 GEOLOGY II

Examines the nature of earthquakes, mass wasting, rivers, glaciers, groundwater, deserts, rock deformation, mountain building and plate tectonics. Need not be taken in sequence.

Credits: 4 Lecture: 3 Lab: 3

G 203 GEOLOGY III

Examines earth history, geologic time, plate tectonics, fossils and the origin of earth. Need not be taken in sequence.

Credits: 4 Lecture: 3 Lab: 3

G 207 GEOLOGY OF THE PACIFIC NORTHWEST

This is a one-term introductory lab science course in geology. It provides an introduction to the regional geology of the Pacific Northwest with emphasis on Oregon, Washington and parts of neighboring states and provinces. Includes basic geologic principles, earth materials and geologic history of the Pacific Northwest. Required weekend field trip

Credits: 4 Lecture: 3 Lab: 3

G 291 ROCKS AND MINERALS

Studies identification, occurrence and origin of rocks and minerals, emphasizing most common materials of the Earth's crust and mineral resources of the Earth. Includes lectures, laboratory and field trips. Recommended preparation: G 106 or G 201.

Credits: 3 Lecture: 2 Lab: 3

HEALTH AND HUMAN PERFORMANCE: ACTIVITY COURSES

HHP 185AB ADVANCED BASEBALL

Allows students to learn and understand the rules and strategy of advanced baseball and to learn to communicate with teammates on the field, demonstrating sportsmanship. Helps improve the student overall physical conditioning, game strategies and master situational drills. Students will learn the philosophy of the game and be expected to implement assignments in game situations.

Credits: 1 Lab: 3

HHP 185BA BARRE BODY

Combines ballet & Pilates fundamentals with motivating music to improve fitness through use of ballet or body barres. This low-impact class is ideal for all fitness levels without traditional gym equipment. Muscles are engaged in strategic patterns that intensify small isometric movements with greater range of motion working towards a defined physique.

Credits: 1 Lab: 3

HHP 185BB SNOWBOARDING I

For beginning snowboarders. Students will learn the fundamentals of snowboarding with qualified instructors. Equipment must be provided by the student.

Credits: 1 Lab: 3

HHP 185BC SNOWBOARDING II

For intermediate to advanced snowboarders. Students will be provided instruction to enhance their current skill level.

Credits: 1 Lab: 3

HHP 185BE SNOWBOARDING III COMPETITIVE FREESTYLE RIDING

Focuses on freestyle techniques for advanced riders. Emphasis of instruction is on freestyle maneuvers, including straight airs, 180's, and straight airs with grabs, as well as etiquette when riding in the half-pipe, slope-style facilities and natural freestyle terrain.

Credits: 1 Lab: 3

HHP 185BF BASKETBALL

Accommodates all skill levels of basketball and will focus on fundamentals of the game as well as team play.

Credits: 1 Lab: 3

HHP 185BJ BRAZILIAN JUIJITSU

Modified version of traditional Japanese Jujitsu and martial art sport that focuses on gaining a dominant position over your opponent. Students will learn proper techniques, using leverage, sparring and self-defense drills to gain self-confidence.

Credits: 1 Lab: 3

HHP 185BS SWIMMING I: SWIM FITNESS & TECHNIQUE

Swim Fitness and Technique helps student feel safe and comfortable in the water for at least 10 minutes at a time, incorporating and refining swimming strokes.

Credits: 1 Lab: 3

HHP 185BW BOOT CAMP FOR WOMEN

Introduction to exercises that improve cardiovascular endurance, muscular strength and flexibility in a supportive team atmosphere. Focus on improving strength and aerobic fitness, utilizing interval training, core strength, plyometrics, running, games and weights.

Credits: 1 Lab: 3

**HHP 185CF
CORE FUSION**

Using the most effective strengthening exercises of yoga, Pilates and group fitness, this class is designed to fatigue the core with emphasis on the upper and lower abdominals, the obliques, the back, quadriceps, hamstrings, glutes and triceps.

Credits: 1 Lab: 3

**HHP 185CT
CIRCUIT TRAINING**

General, core and cardio. Traditional circuit training class for total body conditioning that includes interval training using various equipment and core circuit training using equipment that emphasizes core-area workout.

Credits: 1 Lab: 3

**HHP 185CY
CYCLING: ROAD, STUDIO, MOUNTAIN**

Two types of cycling modes are offered at varying times throughout the year: indoor studio cycling, and mountain biking which will include local trail systems.

Credits: 1 Lab: 3

**HHP 185DA
AEROBIC DANCE I**

Kickboxing class incorporating traditional aerobic moves along with some resistance and abdominal training. Turbokick provides cross-training incorporating noncontact, martial arts aerobic exercises.

Credits: 1 Lab: 3

**HHP 185DB
AEROBIC DANCE II-BENCH/STEP**

Step Bench, Intervals. Traditional step bench and step class which has a combination of both cardio and strength exercises and routines.

Credits: 1 Lab: 3

**HHP 185DC
AEROBIC DANCE III-HIP HOP**

Explains the growing awareness of hip hop as a mind-body, dance-style aerobic movement. Includes choreographed moves with each class and building upon each other as a sequenced routine.

Credits: 1 Lab: 3

**HHP 185DD
DANCERCISE**

High-energy class emphasizing dance movements including jazz, contemporary and salsa styles.

Credits: 1 Lab: 3

**HHP 185GL
GOLF**

Held at local golf courses and is taught by local pro instructors. Instruction of all skill levels will be accommodated.

Credits: 1 Lab: 3

**HHP 185GM
GOLF ADVANCED**

Designed for skilled golfers looking to improve on the fundamentals of golf. This course will also place emphasis on the mental game of golf, rules and etiquette of golf, as well as increasing skills on irons, woods, sand play, putting, and chipping/pitching.

Credits: 1 Lab: 3

**HHP 185GN
GYMNASTICS**

Along with an opportunity for improving fitness, this class will provide an insight into the history of gymnastics, its benefit to other sports, specific body positions used, skill progression, various conditioning activities appropriate for age and abilities, and the coaching and judging details of gymnastics.

Credits: 1 Lab: 3

**HHP 185IM
INTERMEDIATE MOUNTAIN BIKING**

This course is designed to build upon fundamental mountain bike skills. Trail etiquette and basic nutrition will be reviewed. Intermediate bike maintenance and advanced riding techniques will be introduced. Rides will take place on local trails. Previous mountain biking experience is necessary.

Credits: 1 Lab: 3

**HHP 185JG
JOGGING**

Focuses on improving running skills through various running activities. Students will run at both on and off campus sites.

Credits: 1 Lab: 3

**HHP 185KA
KI AIKIDO**

Introduces the martial art of Aikido, a form of self-defense and non-fighting. It is based upon coordination of mind and body, not only in throwing, but also in the art of falling (ukemi). Can accommodate all levels.

Credits: 1 Lab: 3

**HHP 185KB
ADVANCED KI-AIKIDO**

More closely explains the martial arts of Aikido and its application to daily life. Basic concepts taught in beginning Ki Aikido will continue and are now an expectation. Recommended preparation: HHP 185KA.

Credits: 1 Lab: 3

**HHP 185KR
TRADITIONAL JAPANESE SHOTOKAN KARATE**

Beginner class on Traditional Japanese Shotokan Karate with application of basic techniques includes blocks, kicks, punches, strikes and body movements. This course will introduce the student to the philosophy, discipline and techniques of a traditional Asian martial art from experienced instructors and lay the foundation for future development in martial arts.

Credits: 1 Lab: 3

**HHP 185MS
MASTERS SWIMMING**

This course is designed to strengthen swimming stroke skills to the advanced level, to introduce advanced concepts of fitness swimming, and to prepare the student for lifetime participation in swimming and racing if desired. Students will attend organized masters swim team practices. Previous swimming experience expected.

Credits: 1 Lab: 3

**HHP 185RC
ROAD CYCLING**

This course is designed to develop fundamental road cycling skills. Road etiquette, basic nutrition, bicycle maintenance and other fitness related information will be addressed. Rides will begin and end on campus and will take place on surrounding roads. Previous cycling experience is not necessary, but a basic level of fitness will help.

Credits: 1 Lab: 3

**HHP 185RG
BEGINNING RUGBY**

This is an activity course designed to familiarize the student with the rules, skills, strategy, fitness level and basic concepts of modern Rugby Union Football. The class will equip the student to be an informed Rugby participant.

Credits: 1 Lab: 3

**HHP 185SA
SKI ALPINE I**

For beginning downhill skiers. Students will learn the fundamentals of skiing with qualified instructors. Equipment must be provided by the student.

Credits: 1 Lab: 3

**HHP 185SB
SKI ALPINE II**

For intermediate to advanced skiers. Students will be provided instruction to enhance their current skill level.

Credits: 1 Lab: 3

**HHP 185SF
SOFTBALL**

Focuses on fundamental skill development and team play for all levels of players.

Credits: 1 Lab: 3

**HHP 185SH
STRETCH AND RELAXATION**

Introduces students to progressive stretching activities, including the value of stretching to the overall relaxation process.

Credits: 1 Lab: 3

**HHP 185SK
SKI CONDITIONING (NORDIC)**

General, Performance Two levels of conditioning: a general course for all types of groomed and off-track Nordic skiing and a performance for improving fitness and technique for racing and groomed skiing.

Credits: 1 Lab: 3

**HHP 185SL
SAND VOLLEYBALL**

Accommodates all skill levels of sand volleyball and will focus on skill building, team play, and conditioning.

Credits: 1 Lab: 3

**HHP 185SR
SOCCER**

Focuses on fundamental skill development and team play for all levels of players.

Credits: 1 Lab: 3

**HHP 185SS
SOCCER ADVANCED**

Geared toward students demonstrating a high skill level. Recommended preparation: HHP 185SR.

Credits: 1 Lab: 3

**HHP 185ST
PILATES**

Familiarizes students with the awareness of core flexibility and strength, relative muscle groups and joint actions of the core. Provides Pilates vocabulary and training techniques, including specific stretching, as well as stretching for general health. Also, provides proper sequence form for stretching, the slide, exercise balls and weights.

Credits: 1 Lab: 3

**HHP 185SU
PILATES-ALL LEVELS**

Includes a brief review of Pilate's fundamentals or proper spine alignment, elongation, thoracic breath and core control. Class sequence of Pilates exercises with appropriate modifications for all fitness levels.

Credits: 1 Lab: 3

**HHP 185SW
SWIMMING FUNDAMENTALS**

Basic swim instruction for individuals with limited to no experience. Learn basic swim skills (floating, breathing techniques, and flutter kicking), swimming theory concepts and strokes (front and back crawl and breaststroke) at your own pace.

Credits: 1 Lab: 3

**HHP 185SX
SKI X-COUNTRY I**

For beginning cross-country skiers with little or no experience. Students will learn the fundamentals of skate-skiing with a qualified instructor.

Skate equipment must be provided by the student.

Credits: 1 Lab: 3

**HHP 185SY
SKI X-COUNTRY II**

Focus on skate-skiing for intermediate to advanced skiers. Students will improve technique and overall fitness required for groomed-trail skiing or racing. Skate equipment must be provided by student. Offered as needed.

Credits: 1 Lab: 3

**HHP 185TA
TENNIS I**

Focuses on skill development for beginning tennis players. Students will learn through various drills and court games.

Credits: 1 Lab: 3

**HHP 185TB
TENNIS II**

Geared toward students with intermediate or advanced tennis skills. Should be able to demonstrate prior experience. Recommended preparation: HHP 185TA.

Credits: 1 Lab: 3

**HHP 185TF
TOTAL FITNESS**

High intensity and very demanding class. Geared toward improving overall fitness.

Credits: 1 Lab: 3

**HHP 185TI
TAI CHI/QIGONG**

Introduces the basic techniques of Tai Chi Yang style simplified form and three Qigong exercises, as well as theories and concepts for better health and relaxation through meditation in movement. Can accommodate all levels.

Credits: 1 Lab: 3

**HHP 185TJ
TAI CHI/QIGONG-INTERMEDIATE**

Introduces Tai Chi Chaun Yang Style 48 form and several additional Qigong exercises for continued health and relaxation through meditation in movement, at the intermediate level. Course encourages students to incorporate daily practice into their schedules and to practice together in study groups. Recommended preparation: HHP 185TI Beginning Tai Chi/Qigong. Offered as needed.

Credits: 1 Lab: 3

**HHP 185TK
TAE KWON DO**

Improves cardiovascular endurance, muscular strength and flexibility. Includes: self-defense, social, etiquette and cultural introduction of dojang.

Credits: 1 Lab: 3

**HHP 185TR
10K RUNNING**

10K training is designed to increase individual endurance through running specific workouts, strength, form work, nutrition and specific needs of each student. Previous running experience is helpful.

Credits: 1 Lab: 3

**HHP 185VC
VOLLEYBALL ALL LEVELS**

Focuses on fundamental skill development and team play for beginning students and continuing students who want to enhance their skill level.

Credits: 1 Lab: 3

**HHP 185VD
VOLLEYBALL (DOUBLES)**

Provides rules and strategy of doubles volleyball. Includes communication with teammates on the courts due to the faster pace of the game.

Credits: 1 Lab: 3

**HHP 185WA
PROGRESSIVE WALKING**

A group class designed to prepare and progressively maintain health and fitness at a target heart rate through walking.

Credits: 1 Lab: 3

**HHP 185WE
WATER AEROBICS**

Introduces water aerobics which improves cardiovascular endurance, muscular strength and flexibility.

Credits: 1 Lab: 3

**HHP 185WN
WILDERNESS TRAINING**

Classes under the HHP 185WN Wilderness Training course number include the following: Wilderness Training Beginning, Orienteering, Hiking and Backpacking, Snowshoeing, Beginning Rock Climbing, Intermediate Rock Climbing, and Back Country Skiing. Recommended preparation for Intermediate Rock Climbing: Beginning Rock Climbing or instructor approval. See the footnote in the class schedule for further course descriptions.

Credits: 1 Lab: 3

**HHP 185WT
WEIGHT TRAINING**

Covers the basic principles of weight training and proper use of weight room equipment and safety. The course includes a variety of weight training methods and incorporates core strength and flexibility activities. Students will develop their own weight lifting program throughout the term.

Credits: 1 Lab: 3

**HHP 185WW
WILDERNESS TRAINING: WATER**

Rafting I; Rafting II; Kayaking I; Kayaking II.

Credits: 1 Lab: 3

**HHP 185YA
INTERMEDIATE YOGA**

Appropriate for any student who has a yoga background and is familiar with basic yoga postures, breathing and intentions. Self-exploration is enhanced through the introduction of variations of alternative movements to basic poses such as arm balances. Following a dynamic warm-up, students will participate in a flow-type session with quick movements to increase heart rate. Deep stretch and shavasana will conclude each class. Students will often work in pairs on advanced postures.

Credits: 1 Lab: 3

**HHP 185YG
YOGA**

Introduces the basic techniques of yoga incorporating a wide range of yoga styles. Classes vary according to instructor offerings, which include Ashtanga, Hatha, Vinyasa, Yin, Restorative and Kundalini.

Credits: 1 Lab: 3

**HHP 185YH
YOGA-ALL LEVELS**

Appropriate for all levels. Modification and additional variation in postures for students wanting a more challenging practice, using a blend of different yoga styles.

Credits: 1 Lab: 3

**HHP 185YI
YOGA/PILATES BLEND**

Focuses on a blend of two modalities, with the flexibility of yoga and core strength training of Pilates.

Credits: 1 Lab: 3

**HHP 185YJ
YOGA-VINYASA RISING**

Vinyasa Rising is a dynamic flow of yoga linking breath and movement for a strengthening cardio practice set to rock and popular music. Emphasis is on Ashtanga Yoga in the tradition of Sri Jayakumar

Swamysree from the University of Mysore, India. A combination of Vinyasa, Vini and Ashtanga styles of yoga styles will be taught.

Credits: 1 Lab: 3

**HHP 185YK
GENTLE YOGA**

This course is a gentle and restorative flow of yoga designed to heal and strengthen the body; includes various forms of breath work, postures for a more restful sleep, injury recovery, and therapeutic yoga for back and shoulders. The class will also be geared towards relaxing the mind and body, adding flexibility and allowing quiet moments during the yoga practice.

Credits: 1 Lab: 3

**HHP 185ZU
ZUMBA**

ZUMBA dance fitness fuses hypnotic rhythms and easy-to-follow moves to create a dynamic fitness program. This course is designed to include cardiovascular strengthening, muscle toning with resistance and movements to enhance flexibility and balance.

Credits: 1 Lab: 3

**HHP 188
SPECIAL STUDIES: HHP**

Credits: 1 to 6

HHP 199**SELECTED TOPICS: HEALTH AND HUMAN PERFORMANCE ACTIVITIES**

Includes both introductory courses and activities.

Credits: 1 to 6

HHP 299**SELECTED TOPICS: HHP**

Health topics requiring advanced level of critical thinking, writing and/or other skills.

Credits: 1 to 3

HEALTH AND HUMAN PERFORMANCE: EXERCISE SCIENCE

HHP 100**INTRODUCTION TO PUBLIC HEALTH**

Covers basic elements of public health and complex ethical and political issues. Open to all COCC students who want to know more about the field of public health, what it is, how it's organized, and how it works. Requirement for OSU-Cascades Exercise Science (EXSS) majors and is equal to H100 at OSU. Meets health requirements for AAOT degree and serves as an elective for any degree or certificate. Recommended Preparation: WR 65 or higher.

Credits: 4 Lecture: 4

HHP 131**INTRODUCTION TO EXERCISE/SPORT SCIENCE**

Introduces students to the profession of exercise science including an overview of basic concepts and careers in exercise physiology, athletic training, personal training, coaching, sports medicine, physical therapy and fitness management. Provides a comprehensive introduction to any student who is considering a career in the area of health, fitness, wellness, exercise physiology and sports medicine. Also, includes guest speakers currently working in the profession, as well as tours of local fitness facilities. Various fitness certifications are compared and contrasted. Recommended Preparation: WR 65 or higher.

Credits: 3 Lecture: 3

HHP 259**CARE AND PREVENTION OF ATHLETIC INJURY**

Introduces management of athletic injuries, injury recognition and assessment, proper care and treatment of athletic injuries and rehabilitation of athletic injuries. Emphasizes hands-on experience included for mastery of surface anatomy, injury assessment and

proficiency in rudimentary injury care and rehabilitation practices.
Recommended preparation: WR 65 or higher and HHP 260 or BI 121.
Credits: 3 Lecture: 3

HHP 260**ANATOMICAL KINESIOLOGY**

This is an introduction to the science of human movement (kinesiology). The class explores the anatomical elements such as muscle action and joint structure and function involved in the gross motor movement. Major emphasis will be on structural anatomy, primary movers of each joint, and muscle utilization for specific sport actions. Recommended preparation: WR 65 or higher and BI 231.

Credits: 4 Lecture: 3 Lab: 3

HHP 261**EXERCISE PHYSIOLOGY**

This course is designed to provide the student with an introductory foundation for understanding the physiology associated with exercise. Emphasis will be placed on how the various tissues and systems of the body adjust to acute work stress and ultimately adapt to chronic exercise training. Course materials will include metabolic, musculoskeletal, cardiovascular, and respiratory adaptations to exercise and exercise training. Recommended Preparation: WR 65 and MTH 20 or higher.

Credits: 4 Lecture: 4

HHP 262**TRAINING THEORY AND APPLICATIONS**

Provides physiological knowledge surrounding cardiovascular training and physiologic mechanisms underlying improvement in strength and flexibility. Explores various testing techniques, training methods, application and periodization as related to physical training. Acts as a practical guide for understanding of individualized exercise prescription (personal training). Initial client consultation, required paperwork, risk-factor stratification and legal implications are also discussed. Recommended Preparation: HHP 260 and HHP 261.

Credits: 3 Lecture: 3

HHP 267**WELLNESS COACHING FUNDAMENTALS**

Explore components of behavior change by providing an overview of the dimensions of wellness, coaching technique and models in health. Foundational concepts of positive psychology, including the history, theory and ethics, as well as mindfulness, appreciative inquiry and self-efficacy will be examined and applied. Recommended preparation: WR 65 or higher.

Credits: 3 Lecture: 3

HHP 270**SPORT AND EXERCISE PSYCHOLOGY**

Introduces broad range of topics relevant to sport and exercise psychology, including sport personality, motivation, psychological skills training, energy management, attention, imagery, competitive anxiety and mental relaxation. Content is relevant for coaches, athletes and others interested in the psychology of sport. Recommended Preparation: WR 65 or higher.

Credits: 3 Lecture: 3

HEALTH AND HUMAN PERFORMANCE: HEALTH COURSES

HHP 212**CPR - AMERICAN HEART ASSOCIATION HEARTSAVER WITH PEDIATRIC**

The Heartsaver Automatic External Defibrillator (AED) with Pediatric CPR course teaches the basic techniques of adult CPR and use of an AED. Pediatric CPR skills may be taught if students live or work in a setting where children are present. Students also learn to use barrier devices in CPR and give first aid for choking for responsive adult, child and infant victims. Course teaches how to recognize the signs of four major emergencies: heart attack, stroke, cardiac arrest, and foreign-body airway obstruction. Through the American Heart Association. Course meets the Dental Assistant standards.

Credits: 1 Lecture: 1

HHP 212A**CPR - AMERICAN HEART ASSOCIATION HEALTHCARE PROVIDER**

Basic Life Support Healthcare Providers course teaches the skills of CPR for victims of all ages (including ventilation with a barrier device, a bag-mask device, and oxygen), use of an automatic external defibrillator and relief of foreign-body airway obstruction in responsive and nonresponsive victims. The course is designed for health care providers who care for patients in a wide variety of settings, both in and out of hospital. Through the American Heart Association. Course meets the Allied Health and Nursing standards.

Credits: 1 Lecture: 1

HHP 220**INTRODUCTION TO EPIDEMIOLOGY**

Combines fields of statistics, sociology, microbiology and other relevant sciences. Considered a fundamental science of public health and defined as the study of distribution and determinants of disease frequency in human populations, and the application of this science to the control of health problems. Topics covered include: history of epidemiology, study design (cohort and case control), and measure of disease frequency, prevalence and incidence. Offered as needed. Recommended preparation: MTH 20 or higher.

Credits: 3 Lecture: 3

HHP 231**HUMAN SEXUALITY**

Explores physiological, sociological and psychological factors relating to human sexual behavior. Topics include male and female sexual anatomy, gender identity and roles, relationships and communication, fertility management and sexual diseases and dysfunctions. Recommended preparation: WR 65 or higher.

Credits: 3 Lecture: 3

HHP 242**STRESS MANAGEMENT**

Helps students develop a comprehensive approach to the management of stress. Examines the historical, emotional, intellectual, spiritual, psychological and physiological foundations of the stress concept. This broad understanding of stress will be the basis for the study of the role that stress plays in health and disease. Students will experiment with a wide variety of stress management and relaxation techniques. Recommended preparation: WR 065 or higher.

Credits: 3 Lecture: 3

HHP 243**OCCUPATION HEALTH, AHA BLS CPR**

This class provides an introduction to major concepts and issues in occupational health and safety, including health promotion, injury and disease prevention, and protection of worker populations from environmental hazards. The course will also include a section on stress management with a focus on the application of managing stress on the job, and will include the American Heart Association (AHA) Basic Life

Support (BLS) for Health Care Providers (HCP) CPR course which is what we currently teach in our one-credit HHP 212A class.

Credits: 3 Lecture: 3

HHP 248 HEALTH PSYCHOLOGY

Health is defined as “a state of complete physical, mental, and social wellbeing, and not merely the absence of disease” (World Health Organization, 1948). With that definition in mind, this course examines how biological, psychological, social, and environmental factors affect physical health and wellbeing. Specific topics include historical and cultural perspectives of health, the psychology and physiology of stress, health behavior modification with emphases on primary prevention and health promotion, socioeconomic and healthcare inequalities, and an exploration of biopsychosocial factors related to chronic diseases like obesity, heart disease, and HIV/AIDS. Recommended preparation: WR 65 or higher.

Credits: 4 Lecture: 4

HHP 252 FIRST AID & HCP PROVIDER CPR

The course will be devoted entirely to the instruction of First Aid & CPR. Immediate and temporary care for a wide variety of injuries, illnesses, conditions and events will be taught. Students will learn the skills of CPR for victims of all ages (including ventilation with a face shield, pocket mask and a bag-mask device), use of an automated external defibrillator (AED), and relief of choking. Both one- and two-person CPR will be taught as well as compression-only CPR. The practical exam will consist of individual hands-on testing. Upon successful completion of course (>80% on the three written exams and >80% on the practical exam), students will receive a National Safety Council Standard First Aid card valid for three years & an American Heart Association (AHA) Health Care Provider (HCP) Basic Life Support (BLS) (Adult & Pediatric CPR) card valid for two years. Recommended preparation: WR 65 or higher.

Credits: 3 Lecture: 3

HHP 252A FITNESS/FIRST AID

Introduces both first aid and wellness topics, such as immediate and temporary care for injury and illness, control of bleeding, care for poisoning, splinting, bandaging and transportation, as well as fitness, nutrition and stress management. Students earn first aid and CPR cards in both adult and infant from the National Safety Council upon completion of course. Recommended preparation: WR 65 and MTH 20 or higher.

Credits: 3 Lecture: 3

HHP 258 HOLISTIC WELLNESS

Looks beyond health risk factors to broader wellness dimensions (i.e. mental, emotional, spiritual, environmental, cultural & financial). Conventional & alternative paradigms of chronic disease causes plus modalities for healing will be explored through the role of our minds, environment, relationships, spirituality, & social support. Recommended preparation: WR 65 or higher.

Credits: 4 Lecture: 4

HHP 266 NUTRITION FOR HEALTH

Introduces the basics of nutrition for a physically active, healthy lifestyle. The course emphasizes nutrient function, energy production, weight management, body composition, psychosocial health, global impact of nutrition, prevention of nutrition related diseases, food guide pyramid, ergogenic aids fad diets, dieting and nutritional research. Course also includes a computerized nutritional assessment. Recommended preparation: MTH 20 or higher.

Credits: 3 Lecture: 3

HHP 268 SUSTAINABLE FOOD AND NUTRITION

Farmer and author Wendell Berry once wrote that eating is an “agricultural act”. It is also an ethical, cultural, political, and environmental act. In an attempt to understand the full impact of our

food choices, this course will explore American food production from start to finish, past to present, and field to fork. Along the way we will answer questions such as: How does a plant grow? What is the difference between conventional vs. organic agriculture? How and why did our current food system evolve? How much does a fast-food cheeseburger really cost? What and why is food biotechnology? Where can I buy a local head of lettuce or leg of lamb? And, ultimately, what should I eat? Recommended preparation: WR 65 or higher.

Credits: 4 Lecture: 4

HHP 280 CO-OP WORK EXPERIENCE - HEALTH AND HUMAN PERFORMANCE

Provides practicums by the department in conjunction with the community in recreation, youth sports, intramurals, strength and conditioning, fitness programming, exercise science and health promotion. Students must be approved for enrollment by an HHP advisor before registering for this course.

Credits: 1 to 3

HHP 291 LIFEGUARD TRAINING

Provides awareness of common hazards associated with various types of aquatic facilities and develops knowledge and skills to eliminate or minimize such hazards. Course develops skills necessary to recognize a person in a distress or drowning situation and helps students understand the lifeguard/employer and lifeguard/patron relationships. Provides explanations, demonstrations, practice and a review of the rescue skills essential for lifeguards.

Credits: 2 Lecture: 1 Lab: 2

HHP 295 HEALTH AND FITNESS

Introduces a comprehensive overview of wellness concepts including fitness, nutrition, stress, disease prevention, and various other lifestyle factors that improve the quality of life. Each student’s health and fitness is individually evaluated through a series of tests measuring cardiovascular endurance, strength, body composition, flexibility, blood pressure, nutrition, stress levels and blood lipid and blood glucose. Recommended preparation or recommended to be taken with: WR 65 and MTH 20 or higher.

Credits: 3 Lecture: 3

HEALTH AND HUMAN PERFORMANCE: OUTDOOR LEADERSHIP

OL 111 INTRODUCTION TO OUTDOOR LEADERSHIP

Designed to introduce students to the field of outdoor recreation, outdoor education, adventure education, therapeutic recreation, and experiential education. Upon completion of this course, students should have a good understanding of the differences between the subspecialties in the field. Includes the history of programs, an introduction to theories, current topics, career options, and preparation needed for those careers. Course may help students decide if an educational path in outdoor leadership is something they wish to pursue. Guest speakers representing various careers/areas will present their experiences to the class. This is a foundation course and recommended preparation to outdoor leadership program courses. Pre-requisite: WR 65.

Credits: 3 Lecture: 3

OL 160 PROCESSING THE EXPERIENCE

Students will be introduced to a variety of creative processing tools to be used either during or after the experience. The use of a field journal for reflection notes, as well as for processing through creative pursuits like sketching or painting will be introduced, as will group-based processing tools like formal debriefs, creating skits and collaborative art projects.

Credits: 2 Lecture: 2

OL 171**TECHNICAL SKILLS FOR OUTDOOR LEADERSHIP**

This course focuses on introducing students to a variety of basic skills, gear, and systems necessary for a variety of Outdoor pursuits, including alpine mountaineering, challenge course and rock climbing. Students are introduced to a variety of skills, with the intention of moving into more guide oriented courses later in their program. This class will present students with various technical skills that will serve as a foundation for the advanced training in specific outdoor disciplines. Students will be introduced to gear, such as software (ropes, webbing, harnesses) and hardware (carabiners, friction devices); skills, such as knots, belaying, rappelling; and systems such as anchors, raises, lowers.

Credits: 2 Other: 4

OL 194AA**AVALANCHE LEVEL I**

This course is designed to introduce the student to the various factors that contribute to avalanche hazard including terrain, weather, snowpack, and the human component (good vs. bad decision making). Avalanche safety equipment such as transceivers, probes and shovels are also presented, with instruction on how to use each of these critical pieces of safety gear. Additional field time is spent on practicing transceiver search techniques (single and multiple burial), snowpack assessment (through a 'Test-pit Plus'), and safe travel practices / group travel skills. The course includes one or more mock avalanche rescues.

Credits: 1 Other: 2

OL 194AB**AVALANCHE LEVEL I REFRESHER**

This course is designed to review the materials from Avalanche Level I, including the various factors that contribute to avalanche hazard including terrain, weather, snowpack, and the human component (good vs. bad decision making). Avalanche safety equipment such as transceivers, probes and shovels are also reviewed, along with how to use each of these critical pieces of safety gear. Field time is spent practicing transceiver search techniques (single and multiple burial), snowpack assessment (through a 'Test-pit Plus'), and safe travel practices and group travel skills. Students must have completed an Avalanche Level I course within the past five years. Recommended preparation: OL 194AA or instructor approval.

Credits: 1 Other: 2

OL 194AC**AVALANCHE LEVEL II**

This course is designed to build on the skills developed in an Avalanche Level I course. The various factors that contribute to avalanche hazard including terrain, weather, snowpack, and the human component (good vs. bad decision making) will be reviewed, as will avalanche safety equipment such as transceivers, probes and shovels and their correct use. New material will include use of a field notebook and standardized data recording, as well as completing full pit profiles. Field time is spent practicing and reviewing transceiver search techniques (single and multiple burial), snowpack assessment (through test pit, test pit plus, and full pit), and safe travel practices and group travel skills. Students must have completed an Avalanche Level I or Level I Refresher course within the past five years. Recommended preparation: OL 194AA or OL 194AB or instructor approval.

Credits: 2 Lecture: 1 Other: 2

OL 194MA**MOUNTAINEERING I**

This course is designed as an introduction to safe travel in the mountains. The basics of outdoor clothing, mountaineering equipment and snow camping will be covered, as will navigation, snow anchors, snow travel (ice axe and crampon use), route planning and roped travel. Environmental hazards such as weather and avalanches will also be discussed.

Credits: 2 Lecture: 1 Lab: 3

OL 194MB**MOUNTAINEERING II**

This course is designed to introduce the student to technical mountain travel with specific emphasis on rock, snow and ice anchors, glacier travel and crevasse rescue, and climbing steep snow and ice. Additional relevant topics may also be introduced (avalanche safety, high altitude mountaineering, etc.). Recommended preparation: OL 194MA.

Credits: 2 Lecture: 1 Lab: 3

OL 199**SELECTED TOPICS: OUTDOOR LEADERSHIP**

Credits: 1 to 4

OL 207**SEMINAR IN OUTDOOR LEADERSHIP**

This course will help prepare students for entering the job market and/or setting up a professional practicum through the following: where to search for jobs, how to apply and how to interview; and how to prepare professional resumes, cover letters, experience resumes and professional portfolios. Professional development opportunities such as conferences, certifications, trainings, etc. will be discussed, as will current research and trends in employment in fields related to outdoor leadership.

Credits: 2 Lecture: 2

OL 244**PSYCHOLOGY OF RISK AND ADVENTURE**

Introduces students to psychological theories and topics relevant to adventure and risk, including perception, motivation, anxiety, arousal and risk-taking. This course will provide a theoretical and skills-based approach to understanding why the psychological components of risk and adventure play a pinnacle role in outdoor leadership. Recommended preparation: OL 111, OL 253 and OL 255. Recommended preparation or recommended to be taken with: WR 122. Instructor permission required.

Credits: 3 Lecture: 3

OL 253**WILDERNESS ADVANCED FIRST AID**

This Course is designed to provide the student with the necessary knowledge and skills to care for an injured or suddenly ill person in a remote location. The methods and protocols presented in this class follow the Wilderness Medical Society guidelines for a 36 hour certification and are specific to a wilderness setting. The Wilderness Medical Society defines wilderness as a remote geographical location more than one hour from definitive care.

Credits: 3 Lecture: 2 Other: 2

OL 255**OUTDOOR LIVING SKILLS**

Educates the student on how to travel safely for extended periods in the backcountry. Presents essentials of life (water, food and shelter/clothing) and how they can be provided in an outdoors setting. Also, discusses navigation, backcountry medicine and wilderness use/wilderness concepts. Lecture, discussion and lab (demonstration, practical application and practice) used. Students conduct one solo overnight and one group weekend outing. This is a foundation course and recommended preparation to outdoor leadership program courses.

Credits: 5 Lecture: 4 Lab: 3.6

OL 271**FACILITATING GROUP EXPERIENCES**

Introduces the broad concepts of group facilitation and presents the various "generations" of adventure facilitation. Students will become familiar with various models of the facilitation process and how each relates to experiential learning. Coursework integrates introductory concepts of leadership, foundational experiential education theory and the practice of facilitation. Students are responsible for facilitating various group initiatives as a way to further comprehend the concepts presented. Successful students will be prepared to effectively and confidently facilitate groups in a variety of learning environments. This is a foundation course and a recommended prerequisite to outdoor

leadership program courses. Pre-Requisites: OL 111, OL 253, OL 255, WR 121

Credits: 4 Lecture: 3 Lab: 3

OL 273

OUTDOOR RECREATION LEADERSHIP

This course is designed to provide both theoretical and practical knowledge of group leadership in an outdoor setting. Topics will be presented in lecture, discussed in various leadership scenarios, and then applied in group outings that the students will plan and lead. Special emphasis will be placed on group safety issues and risk assessment/risk management. Pre-requisites: OL 111, OL 253, OL 255 and WR 121.

Credits: 5 Lecture: 4 Lab: 3.6

OL 294CC

CHALLENGE COURSE PRACTICES

This course is designed to educate the student on the history, philosophy, principles, management, and use of challenge courses (high and low). Course competencies will be fostered through experiential learning methodologies and practical experiences in challenge course environments. Risk management, maintenance, staff training, operational procedures, course construction, and program planning will be emphasized. Pre-Requisites: OL 171, OL 271 and OL 273.

Credits: 3 Lecture: 1.5 Lab: 4.5

OL 294RC

TEACHING ROCK CLIMBING

This course is designed as an introduction to guiding/teaching rock climbing. Students will be instructed on the use of a variety of climbing equipment and techniques used for top-roped and lead climbing in guiding/teaching situations (this course will not teach beginning level material except in how to teach such material to a beginner student/client/friend). Topics will include such areas as: client care and welfare, managing a group setting, risk assessment, as well as technical skills. Emphasis will be placed on group work, discussion and practical application. Although some time will be spent climbing, this is not an activity course; all aspects of the course will be designed to teach the basic concepts of leading others in a variety of rock climbing situations. Pre-Requisites: OL 171, OL 271 and OL 273.

Credits: 3 Lecture: 1.5 Lab: 4.5

OL 294WG

WHITewater RAFT GUIDING

This course is designed to instruct the student on how to provide a fun and safe whitewater raft experience to people of all ages through a combination of lecture and hands-on practice. Students will learn how to guide paddle rafts and oar rafts, read whitewater, lead group trips, and execute various whitewater rescue techniques. The majority of the class time for this course will be spent in the field, including overnight camping, and a variety of weather conditions may be encountered. A background in camping or outdoor living skills is strongly recommended. Please dress appropriately! Pre-requisites: OL 271, OL 273 and OL 171.

Credits: 3 Lecture: 1.5 Lab: 4.5

HEALTH INFORMATION TECHNOLOGY

HIT 103

HEALTH INFORMATION SYSTEMS AND PROCEDURES

Health Information Procedures is a course designed to provide the student with a fundamental knowledge of health information delivery and information systems, functions of the health record, and the skills necessary to integrate theoretical knowledge with application functions. Pre-requisites: WR 121, AH 111 and CIS 120.

Credits: 5 Lecture: 4 Lab: 3

HIT 104

HEALTH DATA CONTENT/STRUCTURE

Utilization and application of health care data content (health record analysis) with special emphasis on mechanics of physician's orders, clinical lab tests, diagnostic and treatment modalities, pharmacology and an overview of applicable consent and confidentiality principles. Lab will

include application of health care procedures via the AHIMA Web-based virtual lab. Enrollment limited to HIT majors. Prerequisite: HIT 103. Instructor approval required. Offered winter term.

Credits: 5 Lecture: 4 Lab: 3

HIT 131A

DOCUMENT MANAGEMENT AND TECHNOLOGY

Provides specific fundamental experience in the identification and application of inpatient and outpatient records and reports. It is important to have strong skills in spelling, medical terminology, the English language, attention to detail, proofreading, quality editing and grammatical appropriateness. Prerequisite: HIT 104. Instructor approval required. Offered spring term.

Credits: 3 Lecture: 3

HIT 131C

MEDICAL TRANSCRIPTION APPLICATIONS

Provides training and practical experience in the transcription of various medical reports and is designed to instill accuracy and perfection. Students will spend twelve hours per week in lab. This time affords the opportunity to obtain entry-level transcription skills. Required for Medical Transcription certificate. Prerequisite: completion of HIT program first-year curriculum. Instructor approval required. Offered summer term.

Credits: 4 Lab: 12

HIT 180

HIPAA MANAGEMENT

Presents a medical-legal foundation with respect to HIPAA (Health Insurance Portability and Accountability Act), federal legislation enacted in 1996. HIPAA encompasses the privacy, security and electronic transaction standards for maintaining and transmitting protected health information. This course is designed to provide a basis for understanding the impact this legislation imposes on the health care industry and on health information management. Offered online and face-to-face.

Credits: 2 Lecture: 2

HIT 182

INTRODUCTION TO MEDICAL CODING

Explores the history, arrangement and application of ICD9CM and CPT coding systems. ICD9CM/CPT conventions, updates, influencing entities and how these expectations are communicated to health care providers, coding clearinghouses, ethical and quality coding, coder responsibilities, etc. will be determined. Basic coding guidelines by body system and/or payor requirements will be explored and applied including reporting of ICD-9-CM/CPT codes, inpatient and ambulatory reporting/billing. Recommended preparation or recommended to be taken with: AH 111, AH 112, BI 231, BI 232, BI 233, AH 113, HIT 103 and HIT 104. Instructor approval required. Offered spring term.

Credits: 4 Lecture: 4

HIT 184

ADVANCED PATHOPHYSIOLOGY

This course provides an in-depth study of human pathological processes, which affect body organs and interrelated body systems. Upon completion of this course, students will know the etiology, physical signs and symptoms, pathogenesis, diagnosis, treatment modalities and prognosis of disease conditions identified in specific body systems. Students will be able to analyze and interpret laboratory, EKG, pulmonary and radiologic findings. This course will prepare students to understand and apply clinical concepts to medical coding, utilization review, quality management and clinical documentation. Prerequisites: AH 112 and BI 232. Recommended to be taken with: BI 233.

Credits: 5 Lecture: 5

HIT 193

DIRECTED PRACTICE I

In the realm of health information management, this is a course in which students report to a health care facility and experience planned activities in the environment of the actual workplace. Provision for technical experiences is an integral component of curricula. Provides for lecture preparation and application of classroom and laboratory objectives in a supervised affiliation site in Oregon, typically. Performed under leadership of a registered health information administrator or registered

health information technician. Fulfills 60 of the 120 total clinical hours distributed in the curriculum at various points of program completion. Forty hours of actual clinical and 20 hours of preparatory instruction. Prerequisite: successful completion of first-year HIT curriculum (or higher) or permission of the HIT director. Offered summer term between the first and second year.

Credits: 2 Other: 6

HIT 199

SELECTED TOPICS: HEALTH INFORMATION TECHNOLOGY

Credits: 4

HIT 201

LEGAL ASPECTS HEALTH CARE

This course presents the medical-legal aspects of health care. The course is designed to provide a foundation for understanding the rapidly expanding field of laws and regulations affecting the health care industry. Special emphasis is placed in the areas of preservation of medical records, hospital and physician liability, statutes of limitations, consents for treatment, release of information. Preparation of medical records in answer to a subpoena duces tecum, behavior of the medical record practitioner in court, principles of confidentiality highlights the technical role of the professional. Special legal implications for medical administration and risk management also are addressed. Instructor Approval Required.

Credits: 3 Lecture: 3

HIT 203

HEALTHCARE DELIVERY AND TECHNOLOGY

Provides analysis of the common terms and procedures related to the development and implementation of information systems; specifically networks and interfaces (in reference to electronic health records), the personal health record (PHR), public health and other administrative application/systems, database architecture and design along with systems analysis and database informatics. Also provided in this class is an overview of the health care delivery system and its relationship to technology in health care. Prerequisite: completion of first-year HIT program curriculum; enrollment limited to second-year HIT majors. Instructor approval required. Offered winter term.

Credits: 3 Lecture: 3

HIT 205

INTRODUCTION TO MEDICAL RECORD ANALYSIS

Application of qualitative and quantitative analyses of health records based on accreditation standards, licensing and certifying agencies. The applications of accrediting standards are also covered. Prerequisite: Completion of first-year HIT program curriculum; enrollment limited to second-year HIT majors. Instructor approval required. Offered fall term.

Credits: 3 Lecture: 3

HIT 272

HEALTH INFORMATION MANAGEMENT

Studies organization and management principles in order to develop effective skills in leadership, motivation and team-building techniques for the health care workplace. Covers computer concepts with emphasis on DRG grouping and encoding applications via AHIMA virtual lab Web-based software. Prerequisite: Completion of first-year HIT program curriculum; enrollment limited to second-year HIT majors. Instructor approval required. Offered spring term.

Credits: 5 Lecture: 4 Lab: 2

HIT 281

HEALTH DATA COLLECTION

Studies data computation, presentation, and analysis of health statistics with an emphasis on validity and reliability. Includes definitions, the use of graphs and tables, measures of central tendency, percentile and Z scores. Prerequisite: Completion of first-year HIT program curriculum; enrollment limited to second-year HIT majors. Instructor approval required. Offered winter term.

Credits: 3 Lecture: 2 Lab: 2

HIT 282

QUALITY IMPROVEMENT IN HEALTH CARE

Application and analysis of quality management, utilization management, risk management and other related studies. Also covered is the analysis of clinical data to identify trends that demonstrate quality, safety and effectiveness of health care. Abstraction of data for facility-wide quality management and performance improvement programs is also utilized. In addition, review of registries (cancer, disease, diabetes, etc.), indexes and databases are covered. Prerequisite: Completion of first-year HIT program curriculum; enrollment limited to second-year HIT majors. Instructor approval required. Offered spring term.

Credits: 4 Lecture: 3 Lab: 2

HIT 283

CODING CLASSIFICATIONS

Places major emphasis on coding guidelines and application of codes for diseases and operations in the ICD-9-CM system. Prerequisites: Completion of first-year HIT program curriculum; enrollment limited to second-year HIT majors. Instructor approval required. Offered winter term.

Credits: 6 Lecture: 3 Lab: 6

HIT 284

CLASSIFICATION AND REIMBURSEMENT SYSTEMS

Applies advanced coding principles with application based on legislative developments. Emphasizes merger of clinical and financial data for patient care reimbursement. Focuses on specialized coding pertinent to the Prospective Payment System including HCPCS coding. Explores alternate coding systems and extensive application of CPT coding system. Offered for second-year program students. Instructor approval required. Strongly recommend ICD-9-CM coding skills. Offered fall term.

Credits: 4 Lecture: 4

HIT 285

ADVANCED CODING CLASSIFICATIONS

The use of ICD-10-CM/PCS will offer greater coding detail and granularity and will greatly enhance the precision with which hospitals measure quality, collect statistical data and submit claims for reimbursement. This course is designed to provide advanced level hands on application of ICD-10-CM/PCS (and ICD-9-CM until the complete transition) and in depth instruction in ICD-10-PCS. Prerequisites: HIT 283 and HIT 284. Instructor approval is required for this course.

Credits: 4 Lecture: 4

HIT 288

SPECIAL STUDIES: HEALTH INFORMATION TECHNOLOGY

Credits: 1 to 3

HIT 293

DIRECTED PRACTICE II

In the realm of health information management, this is a course in which students report to a health care facility and experience planned activities in the environment of the actual workplace. Provision for technical experiences is an integral component of curricula. Provides for application of classroom and laboratory objectives in supervised affiliation sites in Oregon, typically. Performed under leadership of a registered record administrator or accredited record technician. Fulfills 60 of the 120 total DP clinical hours for the program. Total of 40 clinical hours plus 20 preparatory instruction hours are distributed in the curriculum at various points of program completion. Prerequisite: Must have successfully completed first year and second year of HIT curriculum (or higher) or permission of the HIT director. Offered summer term following graduation.

Credits: 2 Other: 6

HIT 294

RHIT EXAM PREPARATION

Helps prepare students for the National RHIT Examination. Students will review core curriculum identified by AHIMA as essential domains of learning and take practice exams to familiarize them with the types of questions and formats they will encounter when taking the national

exam. Completion of the Health Information Technology AAS degree required.

Credits: 1 **Lecture:** 1

HIT 295

CCA EXAM PREPARATION

This course is designed for graduates of the HIT Program to prepare them to take the national credential exam for Certified Coding Associate. The HIT Advisory Committee and local employers have indicated that potential entry-level coders will be required to obtain this credential within six months after hire. This course will provide support for student success in the workplace. Instructor approval required.

Credits: 1 **Lecture:** 1

HIT 296

AMBULATORY DATA SYSTEMS

Focuses on electronic information systems in non-acute facilities with emphasis on professional medical billing. Course will focus on insurance, legal and regulatory conditions, coding systems, reimbursement issues, and filing claims utilizing electronic medical data systems. Prerequisites: Completion of first-year HIT program curriculum; enrollment limited to second-year HIT majors. Instructor approval required. Offered fall term.

Credits: 3 **Lecture:** 2 **Lab:** 2

HIT 297

CURRENT TOPICS

Discusses current trends, topics and procedures affecting the medical record professional and the delivery system in general. May be repeated once.

Credits: 1 **Lecture:** 1

HIT 299

SELECTED TOPICS: HIT

Credits: 4

HISTORY

HST 101

HISTORY OF WESTERN CIVILIZATION

Surveys political, social and cultural changes from prehistoric times to the early Medieval period. Emphasizes the great civilizations of the ancient world, contributions of the Greeks and Romans and the establishment of early European civilization. Need not be taken in sequence.

Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 **Lecture:** 4

HST 102

HISTORY OF WESTERN CIVILIZATION

Surveys development of European civilization from the high Medieval period through the 1700s. Focuses on cultural, religious, political and intellectual changes brought about by the Renaissance, Reformation, Enlightenment and Scientific Revolution, as well as the tensions in European society which culminated in the French Revolution. Need not be taken in sequence. Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 **Lecture:** 4

HST 103

HISTORY OF WESTERN CIVILIZATION

Explores western European civilization from French Revolution to present. Focuses on the establishment of nations, the Industrial Revolution, major wars of the 19th and 20th centuries, and social and cultural trends accompanying these events. Need not be taken in sequence.

Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 **Lecture:** 4

HST 104

WORLD HISTORY

World civilizations and their historical interactions. Origins of civilizations in the Middle East, the Mediterranean area, Africa, China, Indian subcontinent and the Americas. Chronologically, covers the period from

prehistory to the end of the classical era. Need not be taken in sequence. Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 **Lecture:** 4

HST 105

WORLD HISTORY

World civilizations and their historical interactions. Traces the post-classical through early modern period in Europe and China, the spread of Islamic empires in Africa, India, Middle East and Western Europe's first worldwide expansion. Need not be taken in sequence. Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 **Lecture:** 4

HST 106

WORLD HISTORY

World civilizations and their historical interactions. Impact of industrialization and imperialism in both a Western context and a non-Western context; the modern period of world history with a focus on WWI, WWII and postwar reordering of world civilizations. Need not be taken in sequence. Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 **Lecture:** 4

HST 188

SPECIAL STUDIES: HISTORY

Credits: 1 to 3

HST 199

SELECTED TOPICS: HISTORY

Credits: 1 to 4

HST 201

UNITED STATES HISTORY TO 1820

This course provides an overview of the development of the U.S. from the pre-Columbian era to the present. Attention is given to economic, political, and social trends, as well as to international relations. Covers pre-Columbian and colonial origins to 1820. Recommended preparation: WR 121.

Credits: 4 **Lecture:** 4

HST 202

UNITED STATES HISTORY, 1820-1920

This course surveys the divisive issues that led to the Civil War, the Reconstruction Era, the rapid industrialization, impact of new immigration and resulting cultural diversity, from the end of the Civil War to the gradual emergence of the U.S. as a world power during the early 20th century. Recommended preparation: WR 121

Credits: 4 **Lecture:** 4

HST 203

UNITED STATES HISTORY FROM 1920 TO PRESENT

This course examines the rise of the United States as a global power in the 20th century and into the first decade of the 21st century. Topics to be studied include American foreign policy, the Cold War, economic development, civil rights, and American political trends. Recommended Preparation: WR 121

Credits: 4 **Lecture:** 4

HST 204

HISTORY OF THE CIVIL WAR

Examines problems of the Civil War period including politics, military leadership, troop life and activity, civilians, Native Americans, African-Americans, technology, and unique geographic challenges in order to better understand the impact of the war on the entire nation of this "brothers' war". Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 **Lecture:** 4

HST 207

HISTORY OF THE AMERICAN WEST

Examines Native American tribal life, the emergence of a multicultural frontier, the problems, failures, and success of new settlement patterns in the growing commercial development of the West's unique assets.

Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 **Lecture:** 4

HST 218**NATIVE AMERICAN HISTORY**

Examines Native American (or First Peoples) lifestyles before and after contact with European settlers. With increasing demands by whites and new immigrants for land, Native Americans struggled for survival implementing various tactics to retain control of their homelands and retain their unique cultures. Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 Lecture: 4

HST 225**US WOMEN'S HISTORY**

Survey of the problems and achievements of U.S. women from the 16th to the 20th century, including issues of race, ethnicity and class. Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 Lecture: 4

HST 236**WOMEN IN 20TH CENTURY EUROPEAN HISTORY**

Offers students an introductory survey of European women's history in the 20th century and provides them with a basic understanding of how gender has been a factor in this historical context. Recommended preparation or recommended to be taken with: WR 121, LIB 127.

Credits: 4 Lecture: 4

HST 242**HISTORY OF THE PACIFIC NW**

Overview of Native American societies of the Pacific Northwest, patterns of white movement into the area, acquisition of the region by the United States, the long road to statehood, and the impact of national politics on this unique region. Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 Lecture: 4

HST 258**COLONIAL LATIN AMERICAN HISTORY**

Surveys the history of economic, political and social development in Mexico, Central America and South America from the 15th century through the Wars of Independence. Recommended that HST 258 and HST 259 be taken in sequence, but not required. Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 Lecture: 4

HST 259**MODERN LATIN AMERICAN HISTORY**

Surveys Latin American history in Mexico, Central and South America from the Wars of Independence through modern times. Recommended that HST 258 and HST 259 be taken in sequence, but not required. Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 Lecture: 4

HST 260**HISTORY OF THE MIDDLE EAST**

The Middle East is considered to be home of the three great monotheisms of Western theology and much of today's philosophy. This course will cover the 4,000 years of history from origins to the modern era, providing students with a foundation to evaluate current events in the context of Middle Eastern influences.

Credits: 4 Lecture: 4

HST 270**20TH CENTURY EUROPEAN HISTORY**

Introduces the intellectual, political and cultural history of 20th century European history. Studies significant events in a European context, identifying the historical setting and significance of major occurrences in Europe, such as fascism, world war, communism and decolonization. Recommended preparation or recommended to be taken with: WR 121 and LIB 127.

Credits: 4 Lecture: 4

HST 280**CO-OP WORK EXPERIENCE HISTORY**

Credits: 1 to 3

HST 290**EAST ASIAN HISTORY**

Traditional China as the foundation of East Asian civilization.

Recommended that HST 290, HST 291 and HST 292 be taken in sequence, but not required. Recommended preparation or recommended to be taken with: WR 121.

Credits: 4 Lecture: 4

HST 291**EAST ASIAN HISTORY**

Development of Chinese, Japanese and Korean societies through the late 19th century. Recommended that HST 290, HST 291 and HST 292 be taken in sequence, but not required. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HST 292**EAST ASIAN HISTORY**

Late Imperial China, Japan and Korea and their evolution/revolution into modern nation-states. Recommended that HST 290, HST 291 and HST 292 be taken in sequence, but not required. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HST 299**SELECTED TOPICS: HISTORY**

Credits: 1 to 4

HOSPITALITY, TOURISM & RECREATION

HTRM 105**FOOD SERVICE MANAGEMENT**

Covers principles of managing a food service operation including concept development, site selection, how to develop an operational plan, how to develop and price a menu, principles of local food service marketing, how to estimate sales, developing an understanding of food costs and controls, and how to obtain funding for building a restaurant. Involves students in assessing service and determining service niches in the community. Students prepare detailed business plans for fictitious or actual operations.

Credits: 4 Lecture: 4

HTRM 106**LODGING MANAGEMENT**

Covers principles of managing lodging operations. Explores current operational practices of lodging operations throughout the world. Discusses management functions related to front office, housekeeping, marketing, reservations, maintaining customer accounts, laws affecting lodging operations and typical service problems. Students will go on field trips to learn about different kinds of lodging operations throughout the state.

Credits: 3 Lecture: 3

HTRM 188**SPECIAL STUDIES: HOSPITALITY, TOURISM AND RECREATION**

Credits: 1 to 3

HTRM 233**EVENT PLANNING**

Introduces students to special event planning processes and techniques. Emphasis is on the designing, planning, marketing and staging events. Additional topics will focus on management, legal compliance, risk management, financial control and successful event evaluation.

Credits: 3 Lecture: 3

HUMANITIES/FILM**FA 101****INTRODUCTION TO FILM**

Enhances student enjoyment and understanding of film through exploring the cinematic languages of acting, directing cinematography and narrative. Recommended preparation: WR 121 or equivalent skills.

Credits: 3 Lecture: 3

FA 125**WORLD CINEMA**

Introduction to comparative study of compelling feature films and their directors from around the globe, analyzing subject matter, theme, genre, narrative structure, character, film style and technique as expressions of diverse cultural worldviews and distinctive artistic visions. Recommended preparation: WR 121 or equivalent skills.

Credits: 4 Lecture: 4

FA 257**LITERATURE INTO FILM**

Implements analysis of the structure of motion pictures to teach about structure of literature, allowing students to see the comparative strengths of each form. Aspects of narrative to be compared include plot and structure, character development, point of view, figurative discourse, symbol and allegory and means of controlling and expressing passage of time. Recommended preparation: WR 121 or equivalent skills.

Credits: 4 Lecture: 4

HUM 105**ITALIAN LIFE AND CULTURE**

Offered as a required course in the Florence Quarter study abroad program. The student will gain a broad overview of contemporary Italian society by examining cultural traditions and values. Besides topical lectures by native guest lecturers, the course engages students in experiential learning through field trips to such historic and cultural sites as Etruscan Fiesole, the Uffizi Gallery, the Accademia Museum and the Medici Pitti Palace.

Credits: 2 Lecture: 2

HUM 106**BRITISH LIFE AND CULTURE**

Offered as a required course in the London Quarter study abroad program. The student will gain a broad overview of contemporary British culture and society by examining traditions and institutions that impact the British way of life in the twenty-first century. Besides topical presentations by native guest lecturers, the course engages students in experiential learning through field trips to such historic and cultural sites

as the Museum of London, the National Gallery, Shakespeare's Globe Theatre and the Houses of Parliament.

Credits: 3 Lecture: 3

HUM 107**SPANISH LIFE AND CULTURE**

Offered as a required course in the Barcelona Quarter study abroad program. The student will gain a broad overview of contemporary Spanish society by examining cultural traditions and values. Besides topical lectures by native guest lecturers, the course engages students in experiential learning through field trips to such historic and cultural sites as Gaudi's Barcelona, the Gothic quarter, and the Dali museum. (Elective credit only: Does not satisfy general education requirements)

Credits: 3 Lecture: 3

HUM 188**SPECIAL STUDIES: HUMANITIES**

Credits: 1 to 4

HUM 199**SELECTED TOPICS: HUMANITIES**

Credits: 1 to 4

HUM 210**CULTURE AND LITERATURE OF ASIA**

Introductory study of representative literary texts, films and related language arts, in English or in translation, of Asian regions and countries, such as China, India and Japan, examined in the context of their histories and cultural traditions. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 211**CULTURE AND LITERATURE OF AFRICA**

Introductory study of representative oral arts, literature, film and related creative arts, in English or in translation, of sub-Saharan African peoples, examined in context of their histories and cultural traditions. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 212**CULTURE AND LITERATURE OF THE AMERICAS**

Interdisciplinary study of representative literary and historical texts (and other media) from Hispanic and Afro-Caribbean cultures of traditional, colonial and post-colonial origin. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 213**CULTURE AND LITERATURE OF MIDDLE EAST**

Introductory study of representative Arabic, Persian and Hebrew literary texts in translation, placed in the context of films and other cultural media of the Middle East and Northern Africa. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 230**IMMIGRANT EXPERIENCE AMERICAN LITERATURE**

Introductory survey of the immigrant experience in the United States as reflected in literature, autobiography and film. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 240**NATIVE AMERICAN LITERATURE AND CULTURE**

Introduction to traditional oral and contemporary Native American texts with an emphasis on cultural contexts and continuity. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 255**CULTURAL DIVERSITY IN CONTEMPORARY AMERICAN LITERATURE**

This course examines cultural diversity as recorded in American literature since 1965, emphasizing literary and cultural values in poetry, fiction, and drama. Readings focus on writers'™ views of life within historically

marginalized groups based on ethnicity, gender, and sexual identity. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 256

INTRODUCTION TO AFRICAN-AMERICAN LITERATURE

Survey of African-American literature (selected fiction, autobiography, poetry and drama of the 19th and 20th centuries), placed in the context of major African-American achievements in the visual arts, music and film. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 261

POPULAR CULTURE: SCIENCE FICTION

Focuses on the significance of science, technology and on such topics as the idea of the future and the "limits of the human" as revealed in popular culture through genres such as fiction, film, music, comics, anime and manga and advertising. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 262

POPULAR CULTURE: THE AMERICAN WESTERN

Historical study of the Western story and the cowboy hero in American culture through genres such as fiction, film, song, art and advertising. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 263

POPULAR CULTURE: DETECTIVE STORIES

Historical study of crime stories and the detective figure as revealed in popular culture through genres such as fiction, film, television, comics and journalism. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 264

POPULAR CULTURE: SPY THRILLER

Thematic study of espionage stories and the spy figure, as revealed in popular culture through genres such as fiction, film, advertising and journalism. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 265

POPULAR CULTURE: NOIR FILM AND FICTION

Historical, thematic and technical study of film noir and related fiction as a subversive force in popular culture. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 266

POPULAR CULTURE: TRAVEL LITERATURE

Cross-cultural study of travel as exploration, personal narrative, anthropological inquiry and social criticism of places and peoples represented as "other" or "exotic." Examines popular culture as depicted in genres such as travel memoirs, journalism, advertising, educational videos and feature films that critique touristic assumptions. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 267

POPULAR CULTURE: COUNTERCULTURE

An exploration of the chaos and transformation that shaped America in the second half of the 20th century. A study of key personalities, artistic expressions, and social movements in this period. Retraces the tumultuous trajectory of the time from precursors in Henry Miller and others through Kerouac and the Beats to Timothy Leary, Hippies, Yippies, communes and ultimately the breakdown of the counterculture movement and its rejection in the Punk movement of the late 1970s. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 268

DIGITAL GAMES CULTURE

This course will approach digital games through an academic socio-cultural lens, identifying key elements of evolving game studies theory,

which considers digital game design, digital games play and digital games as a cultural practice that, in addition to play/entertainment, offers a new and developing medium for story-telling and learning. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

HUM 299

SELECTED TOPICS: HUMANITIES

Credits: 1 to 4

WS 101

INTRODUCTION TO WOMEN'S AND GENDER STUDIES

Explores the impact of women's and gender studies in many academic fields. Examines women's status and achievements, and the issues raised for men and women by feminism and the women's movement. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

JOURNALISM

J 188

SPECIAL STUDIES: JOURNALISM

Credits: 1 to 3

J 199

SELECTED TOPICS: JOURNALISM

Credits: 1 to 4

J 215

PUBLICATIONS LAB

Practical application of communications instruction through work on the student newspaper. Students are involved in all areas of production including reporting, photojournalism, advertising, production and distribution. Recommended prerequisite or recommended to be taken with: J 216.

Credits: 1 Lab: 3

J 216

REPORTING 1

A beginning class in newswriting. Emphasis is placed on writing leads, developing the story and a sense for news. Character and communication of news and the rights and responsibilities of journalists explored. Open to all students. Recommended preparation: WR 121 or instructor approval.

Credits: 3 Lecture: 3

J 217

REPORTING 2

A continuation of Reporting 1 with emphasis placed on comprehensive news story writing, covering speeches and meetings and interviewing. Recommended preparation: J 216 or instructor approval.

Credits: 3 Lecture: 3

J 280

JOURNALISM PRACTICUM

Community work experience in journalism (may include internships in local media).

Credits: 1 to 3

J 299

SELECTED TOPICS: JOURNALISM

Credits: 1 to 4

LIBRARY

LIB 100

INTRO TO FINDING INFORMATION

Students will learn how to find, evaluate and responsibly use Web-based and other information resources. This course is for students at the WR 60 or WR 65 level who want an introduction to information resources and research skills.

Credits: 1 Lecture: 1

LIB 127

INFORMATION RESEARCH SKILLS

Library 127 teaches college-level research and information skills including finding and accessing resources in physical and digital formats; developing topics and research strategies; learning and applying advanced search techniques; exercising critical thinking to evaluate information and using the Internet as a research tool.

Credits: 3 Lecture: 3

LIB 199

SPECIAL TOPICS: LIBRARY

Credits: 1 to 3

LIB 227

MAPPING INFO WORLD

This course familiarizes students with the world of information and research. Students become familiar with various issues related to the "information society" as well as the world of research. Specifically, the course addresses the impact of information in our lives, the life cycle and characteristics of information as it transforms in different publication formats, use and selection of information tools based on the nature of research need, the explosion and implications of Web 2.0 technology, and ethical issues in the use of information with specific reference to issues of plagiarism and proper citation.

Credits: 1 Lecture: 1

LIB 299

SPECIAL TOPICS: LIBRARY

Credits: 1 to 3

LITERATURE

ENG 104

INTRODUCTION TO LITERATURE: FICTION

Explores human purposes, literary structures, cultural values and rich varieties of the short story and the novel. Close reading, interpretation and evaluation of selected works of fiction, with attention to authors' contexts, creative process, narrative elements (such as theme, character, plot, point of view, setting, symbol, and style) and reader responses. Recommended preparation: Reading and Writing placement test scores that place a student in WR 121; or a grade of "C" or higher in WR 65 or WR 95.

Credits: 4 Lecture: 4

ENG 105

INTRODUCTION TO LITERATURE: DRAMA

Examines drama as literature, through its traditions, imaginative purposes and organizing visions, such as tragedy, comedy and realism. Close reading and interpretation of selected plays with attention to the cultural contexts of their creation and to the literary dimensions of character, dialogue, plot, setting, language and theme. Need not be taken in sequence. Recommended preparation: Reading and Writing placement test scores that place a student in WR 121; or a grade of "C" or higher in WR 65 or WR 95.

Credits: 4 Lecture: 4

ENG 106

INTRODUCTION TO LITERATURE: POETRY

Explores critical and personal pleasures of poetry as a powerful and compact means to express feelings and ideas and respond to the varieties of human experience. Close reading of a wide range of poetry with attention to poets' roles, literary traditions and poetic strategies expressed through tone, speaker, situation and event, theme, irony, language, images, sounds, rhythms, symbols, open and closed poetic forms. Need not be taken in sequence. Recommended preparation: Reading and Writing placement test scores that place a student in WR 121; or WR 65 or WR 95.

Credits: 4 Lecture: 4

ENG 107

WESTERN WORLD LITERATURE: ANCIENT

Explores origins of Western culture through a study of representative Greek, Roman and other literary philosophical and historical texts. Mythology and the hero's quest as incorporated in Homer and Virgil may form the core of the readings. Need not be taken in sequence. Recommended preparation: WR 121 or equivalent skills.

Credits: 4 Lecture: 4

ENG 108

WESTERN WORLD LITERATURE: MIDDLE AGES

Survey of representative texts explores Middle Ages, Renaissance, up to the 18th century Enlightenment, including rise of Christianity, chivalry, and the vision quest. Need not be taken in sequence. Recommended preparation: WR 121 or equivalent skills.

Credits: 4 Lecture: 4

ENG 109

WESTERN WORLD LITERATURE: MODERN

Surveys representative texts, authors, and genres from the late 18th century to the present; explores modern Western world literary movements and their historical-intellectual contexts, from romanticism and realism to post-colonialism and contemporary global trends. Need not be taken in sequence. Recommended preparation: WR 121 or equivalent skills.

Credits: 4 Lecture: 4

ENG 140

SHAKESPEARE REVIEW IN ASHLAND

Reading and critical analyses of plays by Shakespeare and other dramatists performed by the Oregon Shakespeare Festival and other theaters in Oregon. Required field trip(s) to view productions. May be

repeated with different content. Recommended preparation: WR 121 or equivalent skills.

Credits: 3 Lecture: 3

ENG 188

SPECIAL STUDIES: LITERATURE

Credits: 1 to 4

ENG 199

SELECTED TOPICS: LITERATURE

Credits: 1 to 4

ENG 201

SHAKESPEARE

The major plays of Shakespeare's early and middle periods. May also include selected study of his sonnets. Need not be taken in sequence. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ENG 202

SHAKESPEARE

The major plays of Shakespeare's middle and later periods. May also include selected study of his sonnets. Need not be taken in sequence. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ENG 204

SURVEY BRITISH LITERATURE I

Examines representative texts from the heroic age (Medieval) through the Enlightenment (18th century). Literary forms such as the epic, chivalric romance, morality play and folk ballad, lyric and narrative poetry, drama, the speculative essay, prose non-fiction and the novel are studied.

Explores relations between texts and their cultural and historic contexts. Need not be taken in sequence. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ENG 205

SURVEY BRITISH LITERATURE II

Examines representative texts from the Romantic period through Contemporary literature. The romance of nature, industrial growth, urban experience, the rise of new class identities and alienation of the individual are themes in this period. Literary forms such as lyric and narrative poetry, short stories, the novel, and the drama of social realism and literature of the absurd are studied. Explores relations between texts and their cultural and historical contexts. Need not be taken in sequence. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ENG 212W

AUTOBIOGRAPHY

Examines diverse modes of autobiographical writing as texts that represent the self in society and where writers construct and represent memories. Explores the ways in which writers construct and represent memory and the impact these narratives have on our understanding of the political and cultural context in which they are produced. Explores autobiography from various places and periods. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ENG 221

INTRODUCTION TO CHILDREN'S LITERATURE

Provides an overview of children's literature for toddlers through teens by examining the different genres of children's literature, including picture books, myths and folklore, poetry, nonfiction, historical fiction, and fantasy, as well as the criteria for evaluation of each genre. This course is recommended for education majors as well as parents (present and future) who are interested in children's literature and issues related to children's literature. Recommended preparation: WR 121 or equivalent skills.

Credits: 4 Lecture: 4

ENG 232C

TOPICS IN AMERICAN LITERATURE: CONTEMPORARY FICTION

In-depth study of several works of contemporary (late 20th/early 21st century) American fiction. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ENG 232M

TOPICS IN AMERICAN LITERATURE: LITERATURE & MEDICINE

This course examines fiction, poetry, drama and creative nonfiction by and about members of the health professions. The goal is to understand multiple perspectives on illness, health, and healing as presented in the course material. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ENG 250

INTRODUCTION TO FOLKLORE AND MYTHOLOGY

Study of the systematic ways to explain how and why so many of the world's great religions, past and present, share similar stories, heroes and ways of attempting to understand and explain the unknowable. Analyzes tales from, among other locales, India, China, Africa, and North and South America. Some of the key myths include those of the Aztecs and Mayans, Native North Americans, the Sumerians and the Gnostics. The first few weeks of the course will provide an introduction to folklore. It will then provide insight into the social, psychological and aesthetic nature of mythology and an introduction to the theoretical approaches to understanding mythology. Recommended preparation: WR 121 or equivalent skills.

Credits: 4 Lecture: 4

ENG 253

SURVEY AMERICAN LITERATURE I

Reading and interpretation of writings from the diverse cultures which inhabited, colonized or developed this country through material from the Civil War period. Includes the Native American oral tradition, the journals of Columbus and other explorers, the diaries of settlers in the British colonies, and more traditional forms of literature through the mid-19th century. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ENG 254

SURVEY AMERICAN LITERATURE II

Covers selected works of American literature written during the late 19th century and the 20th century. Covers the transition from Realism and Naturalism to Modernism, the Jazz Age, the Harlem Renaissance, the Confessional and "Beat" poets and writers and late 20th century short fiction. Need not be taken in sequence. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ENG 256

FOLKLORE AND US POPULAR CULTURE

Explores the relationship between folklore and popular culture, with special emphasis on the analysis of legends, myths, icons, stereotypes, heroes, rituals, and celebrations. Recommended preparation: WR 121 or equivalent skills.

Credits: 4 Lecture: 4

ENG 260W

INTRODUCTION TO WOMEN WRITERS

Focuses on the achievements and perspectives of women writers through critical analysis of their literary works and literary strategies. Uses a chronological, stylistic or thematic approach. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

ENG 288

SPECIAL STUDIES: LITERATURE

Credits: 1 to 4

ENG 299

SELECTED TOPICS: LITERATURE

Credits: 1 to 4

MANUFACTURING TECHNOLOGY

MFG 100

MFG ORIENTATION

Provides new MATC students with the required information before participating in self-directed learning at MATC. Includes understanding MATC procedures, safety, manufacturing careers, introduction to lean manufacturing and computer login procedures.

Credits: 1 Lecture: 1

MFG 101

BLUEPRINT READING

Provides student with training to read and interpret various types of industrial blueprints. Includes interpretation of line types, geometric tolerancing and dimensioning, surface finish callouts, auxiliary views and orthographic projection. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 102

BLUEPRINT READING SHEET METAL

Provides student with training to read and interpret various types of sheet metal blueprints. Covers line and print development, sheet metal layout, pattern drafting and bend allowances, maximum utilization of material, identification of sheet metal types and grades, correct use of sheet metal for the application and sheet metal bend and shear strengths. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 103

WELDING TECHNOLOGY I

Introductory course covering basic welding processes. Includes relevant safety topics and introduction to shielded metal arc welding and gas metal arc welding. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 3 Lab: 9

MFG 105

WELDING TECHNOLOGY II

Intermediary course focused on welding carbon steel plate in specific out-of-position set-ups. Includes continuing practice in GMAW and SMAW welding and interpretation of inspection standards related to weld quality. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 3 Lab: 9

MFG 107

WELDING TECHNOLOGY III

Final course offered in the basic welding technology series. Includes welding practice utilizing electrodes F-1 through F-4 in the SMAW process and introduction to gas tungsten arc welding and flux core arc welding. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 3 Lab: 9

MFG 109

LEAN PRACTICES

Lean practices are methods used to eliminate waste in any process to which they are applied. This course provides students with an understanding of lean practices commonly used in industry including: value stream mapping, standardized work, 5S, structured problem solving, visual factory, Kanban/pull systems other lean tools. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lecture: 2

MFG 110

MANUFACTURING PROCESSES I

Overview of manufacturing theory and manual operation of machine tools. Includes safety, using hand tools, bandsaw, drill press, lathe and

milling machine operations. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 3 Lab: 9

MFG 112

MANUFACTURING PROCESSES II

Continued student proficiency development in machining operation including speed and feed calculations, milling machine and lathe practice. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 3 Lab: 9

MFG 114

MANUFACTURING PROCESSES III

Final course in the basic manufacturing processes series. Continued student proficiency development in the operation of basic machine tools, introduction to computer numerical control programming and operations, and a capstone project to demonstrate machining proficiency. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 3 Lab: 9

MFG 115

DESIGN PROCESSES I

Introduction to computer-aided manufacturing. Includes interpretation and construction of technical drawings and technical sketching. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 116

MANUFACTURING ELECTRICAL SYSTEMS

Studies electrical circuitry and components used in manufacturing applications. Includes introductory AC/DC electrical circuit construction and Ohm's Law. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 118**FLUID POWER SYSTEMS I**

Introductory fluid power class. Includes single/double-acting cylinder operations, directional control valve operations, fluid power symbols and the creating of operational hydraulic and pneumatic circuits. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 133**QUALITY ASSURANCE**

An introductory quality control course that includes precision and semi-precision measuring, digital measuring tool operations, measuring practice using digital gauges, micrometers, depth gauge and height gauge measuring tools. The course also includes an introduction to statistical process control and pneumatic gauging topics. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 3 Lab: 9

MFG 160**MATERIALS ENGINEERING**

A continuation of Quality Assurance topics focused on materials. Includes shear, hardness, tensile and compression testing and other material analyzing techniques. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 201**BENCH WORK**

Using hand tools, files, hacksaw, chisels and coated abrasives. Includes shop safety, hand tapping, thread measurement, arbor press operations, micrometer and vernier caliper reading. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 202**METALS PREPARATION**

Bandsaw, cold saw auto stop operations, ironworker hole punching and abrasive power tool operations. Includes safety, profile cutting, shearing, material identification, blade welding, blade selection and offhand grinding operations. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 203**LAYOUT**

Semi-precision and precision layout practices. Includes height gauge operations, surface plate set-ups, bolt circle layout, and the use of hand and power tools to produce accurate workpiece profiles. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 205**DRILL PRESS**

Drill press operations training. Includes safety, machine nomenclature, measuring and sharpening drills, machine set-up, cutting tool selection, magnetic based drill, electric drill motor and radial arm drill operations. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 210**VERTICAL MILLING**

Vertical milling machine operations. Includes safety, work holding, table set-ups, power feeds, digital read-out operation, cutter selections, climb and conventional cutting and spindle speed changes. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 211**CNC MILL OPERATOR**

Computer numerical control machining center operator training. Includes safety, machine maintenance, tool offsets, controller editing and operations, cutting tool set-ups, carbide insert and holders and part

running. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 213**CNC TURNING OPERATOR**

Computer numerical control turning center operator training. Includes safety, machine maintenance, coordinate systems, tool length offsets, controller editing and operations, overrides, tool set-ups and loading, carbide insert and holder selections, tool vectors and part running.

Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 214**LATHE OPERATOR I**

Introductory manual lathe operations training. Includes safety, machine maintenance, quick-change tooling, chuck set-ups, compound taper cutting, general turning and drilling operations. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 216**LATHE OPERATOR II**

Advanced lathe operations training. Four-jaw chucking, taper turning, carbide cutting tool selections, boring, single point threading, thread measurement and other precision turning operations. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 230**CNC PROGRAMMING MILL**

Programming computer numerical control mills and machining centers. Includes G & M programming, canned cycles, subroutines, profile milling, cutter diameter compensation, part proofing. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 232**CNC PROGRAMMING LATHE**

Programming computer numerical control turning center. Includes G & M manual programming, canned cycles, subroutines, profile shaping, TNR, tool vectors, cutter selection and part proofing. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 234**CAD/CAM MILL**

CAD/CAM operations related to programming a computer numerical control machining center. Includes drilling 2 1/2 D and 3-D milling operations using wire frame and solids model geometry. A student considering this course should be familiar with CNC milling machine operations and G & M programming. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 236**CAD/CAM LATHE**

CAD/CAM operations related to programming computer numerical control turning centers. Includes drilling, grooving and threading operations using wire frame and solids model geometry. A student considering this course should be familiar with CNC lathe operations and G & M programming. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 238**OPTICAL COMPARATOR**

Optical comparator operations. Includes operation of H-14 metrology controller, stage set-up and fixturing, inspection of rectangular and round workpieces. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 Lab: 3

MFG 239**COORDINATE MEASUREMENT MACHINE**

Coordinate measuring machine operations. Includes establishment of part coordinate systems, touch probe calibration procedures and measuring workpiece geometry. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 Lab: 3

MFG 241**ELECTRIC MOTOR CONTROL**

Peripheral devices used to control motors. Includes study of components used to control industrial motors and automated systems. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 242**PROGRAMMABLE LOGIC CONTROLLERS I**

Introduction to programmable logic controller programming. Includes ladder logic, sealing circuits and event sequencing. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 243**INDUSTRIAL SENSORS**

Sensor applications. Includes study of mechanical, electronic and proximity sensor applications found in a typical manufacturing environment. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 244**PROGRAMMABLE LOGIC CONTROLLERS II**

Continuation of Programmable Logic Controller training. Includes advanced programming problems, discrete IO interfacing, PLC timers and counters. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 245**ELECTRICAL CONTROL/FLUID POWER**

Electrical control of pneumatic and hydraulic circuits. Includes pressure valves, sensors, interfacing with PLC, control sequencing, timing and circuit design. Instructor approval required.

Credits: 2 Lab: 6

MFG 246**MECHANICAL TROUBLESHOOTING**

This course is an overview of mechanical drive systems and safety, key fasteners, power transmission systems, lubrication concepts, plain bearings, ball bearings, roller bearings, and gaskets and seals. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 250**ADDITIVE MANUFACTURING**

This course provides students with a basic understanding of Additive Manufacturing concepts including various processes used in rapid prototyping. Students will be able to design and create sample parts using a 3-D printing process. Recommended preparation: MFG 100, MATC Orientation, CIS 13551 and instructor approval.

Credits: 2 Lab: 6

MFG 254**MANUFACTURING JIGS AND FIXTURES**

Jig and fixture design practices. Includes clamps, locators, degrees of freedom, radial and conical locators, templates, automated clamping and modular fixturing. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 262**WELDING INSPECTION/QUALITY CONTROL**

Studies quality control issues related to weld joint inspection. Includes student exposure to visual and nondestructive inspection techniques that are utilized by welders and inspectors to interpret and monitor AWS quality standards. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 264**AUTOMATED WELDING AND CUTTING**

Cutting and welding steel shapes using numerically controlled processes. Includes cutting torch settings, set-up, maintenance practices and plasma-cutting exercises. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 266**MANUFACTURING COST ESTIMATION**

Cost estimation techniques used in the analysis and planning of manufacturing projects. Includes software estimates, manufacturing costs, standard vs. actual costs, fixturing and welding-related topics. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 267**OXYGEN-FUEL AND PLASMA CUTTING**

Gas torch, air carbon arc and plasma gas cutting. Includes torch set-up and maintenance, flame setting, diagnostics, track torch operations, circle cutting and carbon arc scarfing practice. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 271**SMAW I**

Shielded metal arc welding. Includes machine set-up, fillet and groove welds on plain carbon steel in all positions. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 272**GMAW I**

Gas metal arc welding. Includes machine set-up for short-circuiting and spray transfer on plain carbon steel. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 273**SMAW II**

Shielded metal arc welding. Includes machine set-up, groove welds on plain carbon steel plate, stainless steel plate and pipe. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 274**GMAW II**

Gas metal arc welding. Includes machine set-up for groove welds on plain carbon steel pipe and plate and aluminum plate. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 275**SMAW III**

Shielded metal arc welding. Includes machine set-up, groove welds on plain carbon steel to a limited plate thickness of 3/4" and pipe in all positions. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 276**GMAW III**

Gas metal arc welding. Includes machine set-up, groove welds on plain carbon steel and stainless steel in all positions. Recommended

preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 280

CO-OP WORK EXPERIENCE MANUFACTURING

Credit granted for applicable on-the-job work experience. Minimum of 90 hours of work for the three credits granted. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 to 3

MFG 281

GTAW I

Gas tungsten arc welding. Includes machine setup for fillet and groove welds on plain carbon steel in all positions. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 282

FCAW I

Flux core arc welding. Includes machine set-up for fillet and groove welds on plain carbon steel in all positions. Limited thickness to 3/4" plate. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 283

GTAW II

Gas tungsten arc welding. Includes machine set-up for fillet and groove welds on plain carbon steel, aluminum, stainless steel tubing and plate in all positions. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 284

FCAW II

Flux core arc welding. Includes machine set-up for fillet and groove welds on pipe and plain carbon steel plate to a limited plate thickness to 3/4". Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 285

GTAW III

Gas tungsten arc welding. Includes machine set-up, groove welds on plain carbon, aluminum and stainless steel pipe in all positions. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 286

FCAW III

Flux core arc welding. Includes machine set-up and groove welds on plain carbon steel plate and pipe in limited positions to a plate thickness of less than 3/4". Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 2 Lab: 6

MFG 287

CNC PRESS BRAKE AND SHEARING

Covers safety and operation of equipment utilized in parting, forming and fabricating sheet metal. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 3 Lab: 9

MFG 288

INDUSTRIAL FABRICATION

Sheet metal fabrication focusing on proper fit techniques, length and width allowances, welding processes, utilization of jigs and fixtures, and the use of fasteners. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 3 Lab: 9

MFG 289

MATERIAL HANDLING-FORK LIFT SAFETY

Focuses on identifying and ordering sheet metal materials plus the safe storage and handling of those materials. Includes OSHA safety regulations and fork lift operation and safety. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 Lab: 3

MFG 290

CERTIFICATION TEST PREPARATION AWS I

Testing materials preparation for Level One Weld Certification Testing. Includes materials test sample preparation, set-up, testing, grinding samples and evaluation. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 Lab: 3

MFG 291

CERTIFICATION TEST PREPARATION NIMS I

Testing materials preparation for Level One NIMS Certification Testing. Includes materials test workpiece preparation, set-up, testing and evaluation activities. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 Lab: 3

MFG 292

CERTIFICATION TEST PREPARATION AWS II

Testing materials preparation for Level Two Weld Certification Testing. Includes materials test sample preparation, set-up, testing and evaluation activities. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 Lab: 3

MFG 293

CERTIFICATION TEST PREPARATION NIMS II

Testing materials preparation for Level Two NIMS Certification Testing. Includes materials test workpiece preparation, set-up, testing and evaluation activities. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 Lab: 3

MFG 294

CERTIFICATION TEST PREPARATION AWS III

Testing materials preparation for Level Three Weld Certification Testing. Includes materials test sample preparation, set-up, testing, grinding samples and evaluation. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 Lab: 3

MFG 295

CERTIFICATION TEST PREPARATION NIMS III

Testing materials preparation for Level Three NIMS Certification Testing. Includes materials test workpiece preparation, set-up, testing and evaluation activities. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 Lab: 3

MFG 296

CERTIFICATION TEST PREPARATION SME

Testing materials preparation for Society of Manufacturing Engineers Certification Testing. Includes set-up, testing and evaluation activities. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 Lab: 3

MFG 297

CERTIFICATION TEST PREPARATION NAIT

Testing materials preparation for NAIT Certification Testing. Includes set-up, testing and evaluation activities. Recommended preparation: MFG 100, MATC Orientation, and instructor approval.

Credits: 1 Lab: 3

MASSAGE THERAPY

LMT 101

INTRO MASSAGE THERAPY CAREER

This introductory course will allow a student to explore the educational and academic requirements of the LMT program and licensing for massage therapy in Oregon.

Credits: 1 Lab: 2

LMT 113

KINESIOLOGY I

An introduction and overview of the basic principles of kinesiology. Emphasis is placed on anatomical terminology, skeletal anatomy and function, and the study of the joints and their functions. Palpation skills will be emphasized. This is the first part of a four-part series of Kinesiology for massage therapists. Prerequisite: entrance into the Massage Therapy program; BI 121 or BI 122 or BI 231 or BI 232 or BI 233. Co-requisites: LMT 130, LMT 155, LMT 170.

Credits: 3 Lecture: 2 Lab: 3

LMT 118

KINESIOLOGY II

The study of the muscles that will include attachments, actions, nerves, joints and the bony landmarks. Palpation skills will be emphasized. This is the second of a four-part series of Kinesiology for massage therapists.

Prerequisite: LMT 113.

Credits: 4 Lecture: 3 Lab: 3

LMT 124

KINESIOLOGY III

The study of the muscles that will include attachments, actions, nerves, joints and the bony landmarks. Palpation skills will be emphasized. This is the third of a four-part series of Kinesiology for massage therapists.

Prerequisite: LMT 118.

Credits: 3 Lecture: 2 Lab: 3

LMT 128

KINESIOLOGY IV

The study of the muscles that will include attachments, actions, nerves and bony landmarks. Palpation skills will be emphasized. This is the last of a four part series of Kinesiology for massage therapists. Prerequisite: LMT 124.

Credits: 3 Lecture: 2 Lab: 3

LMT 130

MASSAGE FUNDAMENTALS

Will introduce the student to the fundamental skills needed to lay the foundation of an entry-level massage therapist. These skills will include: the history of massage, positive body mechanics, basic medical terminology, universal sanitation precautions, draping, communication and the effects of Swedish Massage strokes. Prerequisites: entrance into the massage therapy program and BI 121 or BI 122 or BI 231 or BI 232 or BI 233. Co-requisites: LMT 113, LMT 155 and LMT 170.

Credits: 2 Lecture: 2

LMT 140

PATHOLOGY

The study of the basic Indications and the effects of massage therapy on the body systems. Contraindications to massage therapy will be discussed. The basic mechanisms of the disease process and medical terminology will be reviewed. Prerequisites: BI 121, BI 122 or BI 231, BI 232.

Credits: 4 Lecture: 4

LMT 145

MASSAGE I

This course will build the fundamental Swedish massage techniques and SOAP charting skills as required for an entry-level massage therapist. The theory of massage, physiological effects and practical application will be incorporated into the development of a massage therapy routine. Prerequisites: LMT 130, LMT 170.

Credits: 4 Lecture: 2.5 Lab: 4.5

LMT 150

MASSAGE II

Students progress to level two by learning how to do basic assessment of a client and how to design a treatment plan. Students learn the theory and practice of various modalities: sports, deep tissue, trigger point therapy, muscle energy technique, and PNF stretching. Prerequisites: LMT 145, LMT 118.

Credits: 4 Lecture: 2.5 Lab: 4.5

LMT 155

EASTERN THEORY & PRACTICE

This course has been designed to provide massage students a fundamental introduction to Eastern philosophy, complimentary healing techniques and acupuncture points. This course will focus primarily on traditional Chinese medicine as the model that is the most comprehensive and philosophically neutral. Prerequisite: entrance into the Massage Therapy program; BI 121 or BI 122 or BI 231 or BI 232 or BI 233. Co-requisites: LMT 113, LMT 130, LMT 170.

Credits: 2 Other: 4

LMT 160

HYDROTHERAPY

Introduces the principles and techniques of water in its three forms: solid, liquid and vapor while working within the massage therapy profession.

Prerequisites: LMT 145.

Credits: 1 Other: 2

LMT 170

PROFESSIONAL ETHICS AND RULES

Introduces and examines the professional boundaries, ethics, rules and laws that govern the practice of massage therapy. Oregon Administrative Rules and Statutes that apply to licensed massage therapists will be discussed. Prerequisite: entrance into the Massage Therapy program; BI 121 or BI 122 or BI 231 or BI 232 or BI 233. Corequisites: LMT 113, LMT 130, LMT 155.

Credits: 2 Lecture: 2

LMT 175

CLINIC I

Students will practice basic relaxation massage on the general public while demonstrating professionalism, client communication, client consent and client safety during this supervised clinic. Prerequisites: LMT 145.

Credits: 2 Lecture: 1 Lab: 3

LMT 180

CLINIC II

Students will practice treatment and relaxation massage on the general public. SOAP charting, treatment plans and assessments will be practiced. Students will demonstrate professionalism, client communication, client consent and client safety during this supervised clinic. Prerequisite: LMT 150.

Credits: 3 Lecture: 1 Lab: 6

LMT 188

SPECIAL STUDIES: LMT

Specific modules that relate to first year courses.

Credits: 1 to 4

LMT 199

SELECTED TOPICS: LICENSED MASSAGE THERAPY

Selected Topics related to Massage Therapy.

Credits: 4

LMT 210

ADVANCED CLINIC

A case study and discussion course for advanced treatment students. Internships and/or a public clinic may be available for the students to practice their treatment skills. Recommended preparation: one-year Massage Therapy certificate, LMT, or other related health care professional.

Credits: 2 Lecture: 1 Other: 3

LMT 216**AROMATHERAPY I**

An introduction to the properties and benefits of essential oils and their effects on the body when used in clinical and holistic settings.

Credits: 1 Other: 2

LMT 217**AROMATHERAPY II**

Advanced exploration of the essential oils examined in Aromatherapy I and how to utilize them in a massage therapy session. Prerequisite: LMT 216

Credits: 1 Other: 2

LMT 226**THAI MASSAGE I**

Traditional fundamentals of Thai bodywork techniques will be explored. A basic Thai floor massage routine will be practiced using traditional Thai equipment. Students should have the ability to kneel and move around on their feet and knees. Prerequisite: LMT 130, LMT 155

Credits: 2 Lecture: 1 Other: 2

LMT 227**THAI MASSAGE II**

Students will explore the deeper roots of Thai bodywork and the "Sen". Advanced techniques and stretches will be practiced in a Thai bodywork routine using traditional Thai equipment. Students should have the ability to kneel and move around on their feet and knees. Prerequisites: LMT 226

Credits: 2 Lecture: 1 Other: 2

LMT 228**THAI FOOT REFLEXOLOGY**

Students will practice Thai reflexology routines, pressure points, and techniques that combine to make a unique foot massage like those enjoyed throughout Thailand.

Credits: 2 Lecture: 1 Other: 2

LMT 240**NEUROMUSCULAR TREATMENTS**

Advanced myofascial coursework that focuses on the treatment of specific injuries and conditions that fall within the scope of a massage therapist. Treatment protocols will be practiced. This course will be offered in two sections: trunk and extremities. Recommended preparation: one-year Massage Therapy certificate, LMT, or other related health care professional.

Credits: 5 Lecture: 4 Lab: 3

LMT 241**NEUROMUSCULAR TREATMENT EXT**

Advanced myofascial coursework that focuses on the treatment of specific injuries and conditions that fall within the scope of a massage therapist. Treatment protocols will be practiced. This course will be offered in two sections: LMT 240 trunk and LMT 241 extremities.

Credits: 2 Lecture: 1 Other: 2

LMT 245**EFFECTIVE OFFICE DECISIONS**

This course will explore insurance billing, retail selling, target marketing, bookkeeping, credentialing and other issues a massage practice may encounter. Recommended preparation: one-year Massage Therapy certificate, LMT, or other related health care professional.

Credits: 2 Lecture: 2

LMT 250**CRANIAL SACRAL LEVEL I**

This course will offer a cranio sacral approach to massage therapy with an emphasis on relevant anatomy. Recommended preparation: one-year Massage Therapy certificate, LMT, or other related health care professional.

Credits: 5 Lecture: 4 Lab: 3

LMT 255**ZEN SHIATSU**

Zen Shiatsu history, basic theory and techniques used in this massage modality will be introduced. This class will offer hands-on experience while working with a clothed client in the style of Shizuto Masunaga. Recommended preparation: LMT 155 and LMT 130.

Credits: 3 Lab: 6

LMT 260**SPA TREATMENTS**

This course will focus on treatments commonly used in spa facilities. A variety of spa treatments will be practiced in the classroom. Spa visits may be incorporated into this course. Contraindications, hygiene, sanitation and spa etiquette will be included. Recommended preparation: one-year Massage Therapy certificate, LMT, or other related health care professional.

Credits: 5 Lecture: 4 Lab: 3

LMT 261**ANCIENT HAWAIIAN MASSAGE**

Introduction to the history and the traditions of ancient Hawaiian precepts on bodywork and healing.

Credits: 1 Other: 2

LMT 265**SPORTS MASSAGE**

Introduces the principles and techniques of massage as it relates to sports and exercise. deep tissue and muscle energy techniques specific to athletes are explored. Relevant anatomy, physiology and assessment are included that may assist in the rehabilitation of sports injuries. Prerequisite: LMT 150.

Credits: 3 Lab: 6

LMT 270**CLINICAL ASSESSMENTS**

This is a nontreatment course that will evaluate and assess ROM, posture, gait and soft tissue injury when determining massage therapy treatment options. Students taking Advanced Treatment courses are advised to enroll. Recommended preparation: one-year Massage Therapy certificate, LMT, or other related health care professional.

Credits: 4 Lecture: 3 Lab: 3

LMT 271**PREGNANCY MASSAGE**

Advanced massage training when working with pregnant clients that will include precautions, draping, positioning and how massage can support women in labor. Prerequisite: LMT 145.

Credits: 1 Other: 2

LMT 288**SPECIAL STUDIES: LMT**

Specific coursework related to massage therapy. Recommended preparation: one-year Massage Therapy certificate, LMT, or other related health care professional.

Credits: 4

LMT 295**INTEGRATED THERAPIES**

This course will explore the history and cultural aspects of Ayurveda principles and bodywork and how it may be integrated into a traditional massage therapy setting. Recommended preparation: one-year Massage Therapy certificate, LMT, or other related health care professional.

Credits: 3 Lecture: 2 Lab: 3

LMT 299**SELECTED TOPICS: LMT**

Selected topics related to massage therapy. Recommended preparation: one-year Massage Therapy certificate, LMT, or other related health care professional.

Credits: 7

LMT 999**FIRST TERM LMT PROGRAM CLASSES**

Credits: 9 Lecture: 6 Lab: 3 Other: 4

MATHEMATICS

MTH 010 DEVELOPMENTAL MATHEMATICS

Introduces mathematics and its application; explains language and symbols used in math; develops concepts in whole number, fraction, and decimal operations and applications; and develops analytical thinking while emphasizing study and learning skills necessary for success in math courses and overcoming anxiety toward math.

Credits: 4 Lecture: 4

MTH 020 PRE-ALGEBRA

Emphasizes applications of basic arithmetic skills. Equips students to handle everyday arithmetic problems and lays a foundation for algebra. Topics include ratio, proportion, percent, measurement, perimeter, area, volume and integers. Recommended preparation: MTH 10 or equivalent.

Credits: 4 Lecture: 4

MTH 029 FRACTION REVIEW WORKSHOP

Provides a concentrated experience for students needing a review of fractions and associated number theory skills. This course is not a replacement for students who place into or need to take MTH 10. May be taken concurrently with another math class.

Credits: 2 Lecture: 2

MTH 031 HEALTH CARE MATH

This is a three-credit course designed for students majoring in Addiction Studies, Massage Therapy, Health Information Technology, among others. Includes topics from pre-algebra and descriptive statistics. MTH 31 is not designed to serve as a prerequisite to MTH 60. Recommended preparation: MTH 10.

Credits: 3 Lecture: 3

MTH 060 ALGEBRA I

Introduction to algebra, integers, rational and real numbers, algebraic expressions, linear equations and inequalities in one and two variables, and systems of equations and inequalities. Recommended preparation: MTH 20 or equivalent.

Credits: 4 Lecture: 4 Other: 2

MTH 065 ALGEBRA II

Continues development of manipulative algebra skills from MTH 60. Includes algebraic expressions and polynomials, factoring algebraic expressions, rational expressions, roots and radicals, and quadratic equations. Recommended preparation: MTH 60.

Credits: 4 Lecture: 4 Other: 2

MTH 085 TECHNICAL MATHEMATICS I

First in a two-term sequence designed for majors in forest technology, fire science, CADD and GIS, among others. Includes introduction to algebra and geometry with a focus on units of measurement, formula manipulation, solving linear and literal equations, exponents, three-dimensional geometry and preparation for trigonometry. Real-world applications are emphasized. Recommended preparation: MTH 20 and/or MTH 60 equivalent.

Credits: 4 Lecture: 4

MTH 086 TECHNICAL MATHEMATICS II

Second in a two-term sequence designed for majors in forest technology, fire science, CADD and GIS, among others. Includes a review of geometry and a thorough discussion of trigonometry with an introduction to vectors and their applications. The second half of the term includes an introduction to functions and their applications including graphing equations, developing equations from graphs, analysis of linear and non-linear functions and functions as models. Students will work in teams to develop and analyze a complex, real-world application and submit a technical report detailing the results. A graphing calculator is required. TI-83 or TI-84 recommended. Recommended preparation: MTH 85 or equivalent.

Credits: 4 Lecture: 4

MTH 095 INTERMEDIATE ALGEBRA

Continues the algebra foundation necessary to study college-level mathematics and statistics. Includes systems of equations and inequalities, linear and quadratic regressions, functions and function notation, equation solving through manual and graphical means, inequalities and complex numbers. Recommended preparation: MTH 65 or equivalent. Graphing calculator required; a large percentage of the course will be learned using it. TI-83 or TI-84 recommended.

Credits: 4 Lecture: 4 Other: 2

MTH 099 SELECTED TOPICS: MATHEMATICS

Offers selected topics in mathematics for courses generally available only once. Topics and credits to be arranged.

Credits: 1 to 3

MTH 105 INTRODUCTION TO CONTEMPORARY MATHEMATICS

Introduces concepts of contemporary mathematics to students considering pursuing liberal arts majors. This course helps students develop a working knowledge of math and a better understanding of its breadth and importance. Topics selected from finite mathematics, probability, descriptive statistics and mathematical problem solving, examples of major mathematical ideas and applications. Topic presentation includes group discovery activities and writing assignments. Prerequisite: MTH 95 or MTH 95 equivalency met, appropriate placement exam score, or instructor approval.

Credits: 4 Lecture: 4

MTH 111 COLLEGE ALGEBRA

Introduces graphs and functions (linear, quadratic, polynomial, rational, exponential and logarithmic) using a graphing calculator. First term of a precalculus sequence for science students. Recommended preparation: MTH 95 or equivalent. Graphing calculator required, TI-83 or TI-84 recommended.

Credits: 4 Lecture: 4

MTH 111F**MATH FIT FOR COLLEGE ALGEBRA**

Helps students improve their success in a concurrent mathematics course. All presentations are designed as collaborative group activities. Course is graded pass/no pass. Recommended to be taken with MTH 111.

Credits: 1 Lab: 2

MTH 112**TRIGONOMETRY**

Examines the applied, real-world and theoretical mathematical implications of the trigonometric functions. The symbolic, numerical, and graphical representations of these functions and their applications form the core of the course. Emphasizes solving problems symbolically, numerically and graphically and understanding the connections among these methods in interpreting and analyzing results. Recommended preparation: MTH 111 or equivalent. Graphing calculator required, TI-83 or TI-84 recommended.

Credits: 4 Lecture: 4

MTH 113**TOPICS IN PRECALCULUS**

Examines topics chosen from the applied, real-world and theoretical mathematical implications of analytic geometry, nonrectangular coordinate systems, vectors, matrices and sequences. The symbolic, numerical, and graphical representations of these functions and their applications form the core of the course. Emphasizes solving problems symbolically, numerically and graphically and understanding the connections among these methods in interpreting and analyzing results. The primary focus is preparation for Calculus. Recommended preparation: MTH 112 or equivalent. Graphing calculator required, TI-83 or TI-84 recommended.

Credits: 4 Lecture: 4

MTH 188**SPECIAL STUDIES: MATHEMATICS**

Credits: 1 to 3

MTH 198**PRACTICUM IN MATHEMATICS**

Allows students to gain exposure to an elementary classroom setting, gain experience in teaching/tutoring math to elementary-school-age children and gain an understanding of learning theory and processes as they apply to mathematics education.

Credits: 2 Lecture: 1 Other: 3

MTH 199**SELECTED TOPICS: MATHEMATICS**

Offers selected topics in mathematics for courses generally available only once. Topics and credits to be arranged.

Credits: 1 to 3

MTH 211W**FUNDAMENTALS OF ELEMENTARY MATHEMATICS I-WIC**

Introduces problem-solving, sets, natural and whole numbers, number theory and fractions. First term of a sequence for students planning to become elementary teachers but open to any students wanting to study the foundations of mathematics. Recommended preparation: MTH 95 or equivalent.

Credits: 4 Lecture: 4

MTH 212W**FUNDAMENTALS OF ELEMENTARY MATHEMATICS II - WIC**

Covers decimals, percents, ratio and proportion, integers, rational and real numbers, and statistics and probability. Second term of a sequence for students planning to become elementary teachers but open to any student wanting to study the foundations of mathematics. Recommended preparation: MTH 211 or equivalent.

Credits: 4 Lecture: 4

MTH 213W**FUNDAMENTALS OF ELEMENTARY MATHEMATICS III - WIC**

Covers geometric shapes, measurement, congruence and similarity, and coordinate and transformational geometry. Third term of a sequence

for students planning to become elementary teachers but open to any student wanting to study the foundations of mathematics. Recommended preparation: MTH 211.

Credits: 4 Lecture: 4

MTH 231**DISCRETE MATHEMATICS I**

First of two courses designed to introduce concepts of mathematics applicable to the field of computer science. Topics in the course will examine in detail the applied, real-world and theoretical mathematical implications of the mathematical concepts of logic, sets, Boolean Algebra, mathematical induction, relations, functions and recursion. The symbolic, numerical and graphical representations of the mathematical concepts will be expanded and explored. Emphasis will be on solving problems symbolically, numerically and graphically and understanding the connections among these methods in interpreting and analyzing results. Recommended prerequisite: MTH 111.

Credits: 4 Lecture: 4

MTH 232**DISCRETE MATHEMATICS II**

Second of two courses designed to introduce concepts of mathematics applicable to the field of computer science. Topics examine in detail the applied, real-world and theoretical mathematics implication of the mathematical functions including 1-1, inverse and composition, combinations, including counting rules and the multiplication principle; and graph theory, including paths, circuits, directed and undirected graphs, matrix representation of graphs, and trees. The symbolic, numerical and graphical representations of the mathematical concepts are expanded and explored. Emphasis on solving problems symbolically, numerically and graphically, and understanding connections among these methods in interpreting and analyzing results. Recommended preparation: MTH 231, equivalent course or competencies, or instructor approval.

Credits: 4 Lecture: 4

MTH 241**CALCULUS FOR MANAGEMENT/SOCIAL SCIENCE**

Introduces basic concepts of differential and integral calculus for students majoring in management and social science. Includes elementary differential and integral calculus of polynomial, logarithmic and exponential functions, and their applications to business, management and social sciences. Recommended preparation: MTH 111. A graphing calculator is required, TI-83 or TI-84 recommended.

Credits: 4 Lecture: 4

MTH 243**INTRODUCTION TO PROBABILITY AND STATISTICS I**

Introduces probability and descriptive statistics. Includes critical readings of graphs and data, basic probability theory, random variables, and binomial and normal probability distributions. Culminates with the Central Limit Theorem. Recommended preparation: MTH 111 (for those needing MTH 241 or MTH 251), MTH 105, or instructor approval. A graphing calculator is required, TI -83 or TI -84 recommended.

Credits: 4 Lecture: 4

MTH 244**INTRODUCTION TO PROBABILITY AND STATISTICS 2**

Introduces methods of inferential statistical analysis. Includes sampling techniques, confidence intervals, hypothesis testing, tests of association, linear regression and categorical analysis. Basic computer skills (especially spreadsheet knowledge) are desirable. A graphing calculator is required, TI -83 or TI -84 recommended. Prerequisites: MTH 243 or MTH 243 equivalency met or instructor approval.

Credits: 4 Lecture: 4

MTH 245**MATH FOR MGMT/SOCIAL SCIENCE**

This is a Finite Math course that covers techniques of counting, probability and elements of statistics including binomial and normal distributions, introductory matrix algebra, and elements of linear programming. Recommended preparation is MTH 111.

Credits: 4 Lecture: 4

**MTH 251
CALCULUS I**

Introduces concepts of differential calculus for science, mathematics and engineering students. Includes limits and continuity; the derivative; rates of change; derivatives of polynomial, rational and trigonometric functions; applications including maximum-minimum problems; antiderivatives and definite integrals. Topic presentation includes group discovery activities. Real applications, technical writing, group activities and group projects are emphasized. A graphing calculator is required. TI-83 or TI-84 is recommended. Computer literacy recommended. Recommended preparation: MTH 112, MTH 113 or equivalent or instructor approval.

Credits: 4 Lecture: 3 Lab: 3

**MTH 252
CALCULUS II**

Introduces concepts of integral calculus to science, mathematics and engineering students. Includes antidifferentiation, fundamental theorem, integration techniques, numerical methods, improper integrals and mathematical modeling with applications to geometry, physics, economics, and population dynamics. Topic presentation includes group discovery activities. Real applications, technical writing, group activities and group projects are emphasized. A graphing calculator is required, TI-83 or TI-84 recommended. Computer literacy recommended. Recommended preparation: MTH 251.

Credits: 4 Lecture: 3 Lab: 3

**MTH 253
CALCULUS III**

Introduces further calculus concepts to science, mathematics and engineering students. Includes infinite sequences, infinite series, Taylor series, parametric equations and functions in polar coordinates, and an introduction to linear algebra including systems of linear equations, vectors, matrices, linear independence/dependence, matrix inverses, determinants, eigenvalues, eigenvectors. Real applications, technical writing, group activities and group projects are emphasized. A graphing calculator is required, TI-83 or TI-84 is recommended. Computer literacy recommended. Recommended preparation: MTH 252.

Credits: 4 Lecture: 3 Lab: 3

**MTH 254
VECTOR CALCULUS I**

Introduces concepts of vector calculus to science and engineering students. Includes vectors and vector functions, parametric curves, functions of several variables, partial derivatives, gradients, directional derivatives and optimization problems. A graphing calculator is required, TI-83 or TI-84 is recommended. Computer skills required. Recommended preparation: MTH 253.

Credits: 4 Lecture: 3 Lab: 2

**MTH 255
VECTOR CALCULUS II**

Continuation of the study of vector analysis for science and engineering students. Includes double and triple integrals with applications to area, volume and center of mass; introduction to vector analysis including divergence, curl, line integrals and work, surface integrals; conservative fields and the theorems of Green and Stokes. A graphing calculator is required, TI-83 or TI-84 recommended. Basic computer skills required. Recommended preparation: MTH 254.

Credits: 4 Lecture: 3 Lab: 2

**MTH 256
APPLIED DIFFERENTIAL EQUATIONS**

Introduction to the application of differential equations for science and engineering students. Includes first- and second-order linear and nonlinear equations, systems of linear first-order differential equations and applications appropriate for science and engineering; numerical, graphical, series and analytical solutions are covered. Computer skills are recommended and a graphing calculator is required, TI-83 or TI-84 is recommended. Recommended preparation: MTH 253.

Credits: 4 Lecture: 3 Lab: 2

MEDICAL ASSISTANT**MA 113
INTRODUCTION TO MEDICAL ASSISTING**

First of three classes which cover key competencies related to clinical responsibilities of the medical assistant as identified by the American Association of Medical Assistants. Fundamental principles include medical aseptic technique, standard precautions, patient preparation and education, assisting with routine and specialty physical examinations, vital signs, patient interview and history, medical record documentation, preparation and maintenance of examination and treatment areas and administration of oral medications. Math component includes basic skills in preparation for understanding and calculating medication dosage. Prerequisites: GED or high school diploma, background check, WR 65 or WR 75 or WR 95, or placement test score consistent with placement in WR 121, MTH 020 or higher, AH 111, AH 112, CIS 120, BI 121, BI 122 (BI 231, BI 232, BI 233 series may be substituted for BI 121 and BI 122). Co-requisites: MA 125 and MA 145.

Credits: 4 Lecture: 3 Lab: 3

**MA 123
MEDICAL ASSISTING BASIC PROCEDURES**

Second of three classes which cover key competencies related to clinical responsibilities of the medical assistant as identified by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Fundamental principles include key concepts related to diagnostic testing and follow-up, maintenance of the clinician-owned lab and CLIA-waived testing, quality control measures, surgical asepsis, fundamentals of assisting with procedures, patient preparation, education and post-procedure care, safe delivery of parenteral medications, and introduction to phlebotomy. Math components include basic skills review in preparation for understanding, calculating, and delivering oral and parenteral medications. Body structure, function, pathology, medical terminology, diagnostic testing and procedures are reviewed in relationship to their impact on various body systems. Co-requisite: MA 135 and MA 150. Prerequisites: MA 113, MA 125, MA 145, all required immunizations, diplomas and background checks completed. Co-requisites: MA 135 and MA 150.

Credits: 5 Lecture: 4 Lab: 3

**MA 125
MEDICAL OFFICE PROCEDURES I**

First of two classes which cover key competencies related to office practices and administrative responsibilities of the medical assistant as identified by the American Association of Medical Assistants. Course includes maintaining professionalism and confidentiality, appropriate written and oral communication within the medical setting, telephone techniques, legal concepts, introductory scheduling concepts and appointment triage, office safety, ethical and cultural considerations in the medical setting, office management, and medical record preparation, documentation and maintenance. Co-requisites: MA 113 and MA 133.

Credits: 4 Lecture: 4

**MA 133
MEDICAL ASSISTING ADVANCED PROCEDURES**

Third of three classes which cover key competencies related to clinical responsibilities of the medical assistant as identified by the American Association of Medical Assistants. Advanced principles include: phlebotomy, variations on parenteral and other medication delivery systems, additional CLIA-waived testing, assisting with procedures, specialty exams and office emergencies, relevant patient preparation and education and implementation of ECGs, catheterization and pulmonary function testing. Math components include applying methods of dosage calculation to prepare and administer medication as directed by an appropriate health care provider. Body structure, function, pathology, medical terminology, diagnostic testing and procedures are reviewed in relationship to their impact on various body systems. Prerequisites: MA 123, MA 125 and MA 130. Corequisite: MA 145.

Credits: 4 Lecture: 3 Lab: 3

MA 135**MEDICAL OFFICE PROCEDURES II**

Second of two classes which cover key competencies related to office practices and administrative responsibilities of the medical assistant as identified by the American Association of Medical Assistants. Includes application of computerized medical office software, office management skills, banking and accounting procedures, billing and collections, coding and insurance. Prerequisites: MA 113 and MA 125. Co-requisites: MA 123 and MA 150.

Credits: 4 Lecture: 4

MA 145**COMPUTERIZED MEDICAL OFFICE PROCEDURES**

Computers and electronic medical records are integral parts of today's medical facilities. They are the method of choice for managing administrative tasks as well as documenting delivery of patient care. This course gives students an introduction to the application of electronic medical records software in the medical office. Prerequisites: MA 123, MA 135 and MA 150. Corequisite: MA 133.

Credits: 1 Lab: 2

MA 147**MEDICAL ASSISTANT PRACTICUM I**

The clinical practicum is a required, supervised, unpaid learning experience which takes place on site at a prearranged clinical facility. It provides students with the opportunity to perform clearly identified competencies within the clinical setting. Students must have a total of five clinical credits. A minimum of 160 hours in the clinical setting is required. Students must be available during all potential weekday hours indicated in the class schedule to attend practicum as placements become available. Students must be able to provide transportation to sites in Central Oregon. Students must have updated adult/infant/child CPR and First Aid cards as well as updated background checks and immunization as required by practicum sites. Instructor approval required.

Credits: 5 Other: 16

MA 150**PHARM FOR MEDICAL ASSISTANTS**

This course introduces medical assistant students to the general principles of pharmacology as required by the standards adopted by the American Association of Medical Assistants (AAMA) and the Commission on Accreditation of Allied Health Education Programs (CAAHEP).

Drugs are discussed in the context of drug classes, mechanics of action, disease types and body systems. The goal is to provide medical assistants with sufficient background information so that they will be able to play a key role avoiding dispensing errors, as well as achieving a basic understanding of pharmacologic categories and factors affecting drug kinetics. Successful completion of the first term of the Medical Assistant program is required prior to enrollment in this class. Prerequisites: MA 113 and MA 125. Corequisites: MA 123 and MA 135.

Credits: 3 Lecture: 3

MA 199**SELECTED TOPICS: MEDICAL ASSISTANT**

Credits: 1 to 4

MA 999**MEDICAL ASSISTING PROGRAM**

Credits: 7 Lecture: 6 Lab: 3

**MILITARY SCIENCE****MS 111****LEADERSHIP AND PERSONAL DEVELOPMENT**

This course introduces students to the personal challenges and competencies that are critical for effective leadership. Students will learn the basic skills related to leadership and the Army profession. The focus is on developing basic knowledge and comprehension of Army leadership dimensions while gaining a comprehensive understanding of the ROTC program, its purpose in the Army, and its advantages for the student. This course is open to any student in any course of study.

Credits: 1 Lecture: 1

MS 112**INTRODUCTION TO TACTICAL LEADERSHIP**

This course introduces students to the personal challenges and competencies that are critical for effective leadership. Topics include developing life skills such as goal setting, time management, physical fitness and stress management relative to leadership, officership, and the Army profession. Students will further explore Army leadership dimensions in depth, as they relate to tactical leadership. This class is open to any student in any course of study. Recommended preparation: MS 111.

Credits: 1 Lecture: 1

MS 113**ORIENTEERING AND LAND NAVIGATION**

This course introduces students to basic orienteering and map reading. Students will gain confidence in their ability to read different types of maps, plan routes and find their location on the ground using a military map and compass. Students will learn to identify terrain features on a map and on the ground. Students will use these skills to move from one point to another by orienteering and terrain association. This class is open to any student in any course of study. Recommended preparation: MS 112.

Credits: 1 Lecture: 1

MS 180**ARMY PHYSICAL FITNESS**

The course familiarizes the students with the Army Physical Fitness Program and FM 21-20 through an individually-regimented physical fitness training program. Students will receive guidance on proper nutrition and fitness to excel in a physically demanding environment as

well as being given the opportunity to plan and implement their own total fitness program. Class is open to any student in any course of study.

Credits: 1 Lab: 3.6

MS 205

OCS PHASE I

Intensive two-week, pre-commissioning phase held during summer term. Course is oriented on leader development and individual/small unit training and a physically and mentally demanding environment. Individual proficiency in land navigation and communications skills are evaluated. Each student is provided practical experience in a variety of leadership positions. Prerequisite: instructor approval.

Credits: 5 Lecture: 4 Lab: 3

MS 211

FOUNDATIONS IN LEADERSHIP

This course explores the dimensions of creative and innovative tactical leadership strategies and styles by examining team dynamics and effective communication techniques. Aspects of personal motivation and team building are practiced during the conduct of leadership coursework. The focus continues to build on developing knowledge of the skills that Army leaders need to excel, as well as broadening knowledge of operations of the current military. No military obligation is incurred through participation in the course. This class is open to any student in any course of study. Recommended preparation: MS 113.

Credits: 2 Other: 4

MS 212

EFFECTIVE TEAM BUILDING

This course examines the challenges of leading tactical teams in the complex contemporary operating environment (COE). This course explores dimensions of terrain analysis and land navigation, small unit tactics and the fundamentals of patrolling. It continues to explore the dimension of creative and innovative tactical leadership strategies and styles by examining team dynamics and effective time management techniques. Aspects of personal motivation and team building are practiced during the conduct of Leadership Labs. No military obligation is incurred through participation in the course. This course is open to any student in any course of study. Recommended preparation: MS 211.

Credits: 2 Other: 4

MS 213

FUNDAMENTALS OF MILITARY OPERATIONS

This course introduces the fundamentals of military operations by exploring the military approach to conducting various operations, and the planning and procedures required to be successful in these operations. It continues to explore the dimensions of creative and innovative tactical leadership strategies and styles by examining team dynamics and effective time-management techniques. An introduction to squad-level tactics will focus on applying military decision-making processes and delivering military orders. No military obligation is incurred through participation in the course. Leadership coursework will be used to reinforce the tactical and operational concepts covered in the course. Recommended preparation: MS 212.

Credits: 2 Other: 4

MS 215

AMERICAN MILITARY HISTORY

This course is designed to utilize American military history as a tool for studying military professionalism. This course examines the military heritage of the United States from the colonial period to the present time. Through an in-depth study of the extensive literature in American military history, students will assess the key individuals, military policies, postures, organizations, strategies, campaigns, tactics and battles that define the American military experience.

Credits: 3 Lecture: 3

MS 299

SELECTED TOPICS: MILITARY SCIENCE

Credits: 4 Lecture: 4 Lab: 12 Other: 12

MUSIC

MUS 188

SPECIAL STUDIES: MUSIC

Credits: 1 to 3

MUS 101

MUSIC FUNDAMENTALS

Presents the fundamentals of music making, including notation of pitch, rhythm, music terminology, scales, key signatures, intervals and chord spelling. Requires no previous musical experience. This course is an ideal preparation for students who intend to enroll in MUS 111, Music Theory. Students interested in learning about music history, styles and composers (baroque, classical, romantic, etc.) should consider MUS 201, MUS 202 or MUS 203.

Credits: 3 Lecture: 3

MUS 111

MUSIC THEORY IA

Harmony of the common-practice period with attention to part writing (the melodic aspects of music). An entrance placement exam will be given during the first class session. This sequence course should be taken by all students who intend to major or minor in music. Recommended preparation: MUS 101 or equivalent. Recommended to be taken with MUS 114.

Credits: 3 Lecture: 3

MUS 112

MUSIC THEORY IB

Harmony of the common-practice period with attention to part writing (the melodic aspects of music). This sequence course should be taken by all students who intend to major or minor in music. Recommended preparation: MUS 111. Recommended to be taken with MUS 115.

Credits: 3 Lecture: 3

MUS 113

MUSIC THEORY IC

Harmony of the common-practice period with attention to part writing (the melodic aspects of music). This sequence course should be taken by all students who intend to major or minor in music. Recommended preparation: MUS 112. Recommended to be taken with MUS 116.

Credits: 3 Lecture: 3

MUS 114

MUSICIANSHIP IA

Focuses on developing practical skills necessary for any musician. Builds aural acuity through drill and practice in ear training, sight singing and dictation. Keyboard (piano) exercises will be an important part of the work. Course is designed to be taken concurrently with MUS 111.

Credits: 2 Lecture: 2

MUS 115

MUSICIANSHIP IB

Focuses on developing practical skills necessary for any musician. Builds aural acuity through drill and practice in ear training, sight singing and dictation. Keyboard (piano) exercises will be an important part of the work. Course is designed to be taken concurrently with Music Theory IB. Recommended preparation: MUS 114.

Credits: 2 Lecture: 2

MUS 116

MUSICIANSHIP IC

Focuses on developing practical skills necessary for any musician. Builds aural acuity through drill and practice in ear training, sight singing and dictation. Keyboard (piano) and computerized drill and exercises will be an important part of the work. Course is designed to be taken concurrently with Music Theory IC. Recommended preparation: MUS 115.

Credits: 2 Lecture: 2

MUS 199

SELECTED TOPICS: MUSIC

Credits: 1 to 3

MUS 201**UNDERSTANDING MUSIC**

Introduces the history of Western fine-art music and its literature. Encompasses the study of musical vocabulary, style, form, principal composers and the historical development of music in various style periods. The content of each course varies somewhat from term to term, but typically MUS 201 covers medieval, renaissance, baroque and classical era music while MUS 202 discusses music and composers from the romantic, 20th century and contemporary periods. MUS 203, when offered, covers topics such as World Music. The classes need not be taken in sequence and do not require any previous musical experience. Students interested in learning how to read musical notation (rhythm, notes, etc) should enroll in MUS 101.

Credits: 3 Lecture: 3

MUS 202**UNDERSTANDING MUSIC**

Introduces the history of Western fine-art music and its literature. Encompasses the study of musical vocabulary, style, form, principal composers and the historical development of music in various style periods. The content of each course varies somewhat from term to term, but typically MUS 201 covers medieval, renaissance, baroque and classical era music while MUS 202 discusses music and composers from the romantic, 20th century and contemporary periods. MUS 203, when offered, covers topics such as World Music. The classes need not be taken in sequence and do not require any previous musical experience. Students interested in learning how to read musical notation (rhythm, notes, etc) should enroll in MUS 101.

Credits: 3 Lecture: 3

MUS 203**UNDERSTANDING MUSIC**

Introduces the history of Western fine-art music and its literature. Encompasses the study of musical vocabulary, style, form, principal composers and the historical development of music in various style periods. The content of each course varies somewhat from term to term, but typically MUS 201 covers medieval, renaissance, baroque and classical era music while MUS 202 discusses music and composers from the romantic, 20th century and contemporary periods. MUS 203, when offered, covers topics such as World Music. The classes need not be taken in sequence and do not require any previous musical experience. Students interested in learning how to read musical notation (rhythm, notes, etc) should enroll in MUS 101.

Credits: 3 Lecture: 3

MUS 205**INTRODUCTION TO JAZZ HISTORY**

Covers the history of jazz. Styles and significant artists are studied in depth. No previous musical knowledge required. Not offered every term.

Credits: 3 Lecture: 3

MUS 207**HISTORY OF ROCK MUSIC**

Students will learn the history of rock music from its beginnings in earlier forms of popular music to the present; to understand the relationship of this music to larger cultural, political, and economic formations; and to become familiar with aspects of musical structure that have been used in rock music. Students will communicate their knowledge through participation with discussion groups, activities, listening examples, and a written project about an artist or rock band that came out of Rock Music.

Credits: 3 Lecture: 3

MUS 211**MUSIC THEORY IIA**

A continuation of common practice period harmony (Music Theory I) with stress on chromatic resources and style analysis including an introduction to harmonic practices of the 20th century. Recommended preparation: MUS 113. Recommended to be taken with MUS 214.

Credits: 3 Lecture: 3

MUS 212**MUSIC THEORY IIB**

A continuation of common practice period harmony (Music Theory I) with stress on chromatic resources and style analysis including an introduction to harmonic practices of the 20th century. Recommended preparation: MUS 211. Recommended to be taken with MUS 215.

Credits: 3 Lecture: 3

MUS 213**MUSIC THEORY IIC**

A continuation of common practice period harmony (Music Theory I) with stress on chromatic resources and style analysis including an introduction to harmonic practices of the 20th century. Recommended preparation: MUS 212. Recommended to be taken with MUS 216.

Credits: 3 Lecture: 3

MUS 214**MUSICIANSHIP IIA**

Focuses on developing practical skills necessary for any musician. Builds aural acuity through drill and practice in ear training, sight singing and dictation. Keyboard (piano) and computerized drill and exercises will be an important part of the work. Recommended preparation: MUS 116. Recommended to be taken with MUS 211.

Credits: 2 Lecture: 2

MUS 215**MUSICIANSHIP IIB**

Focuses on developing practical skills necessary for any musician. Builds aural acuity through drill and practice in ear training, sight singing and dictation. Keyboard (piano) and computerized drill and exercises will be an important part of the work. Recommended preparation: MUS 214. Recommended to be taken with MUS 212.

Credits: 2 Lecture: 2

MUS 216**MUSICIANSHIP IIC**

Focuses on developing practical skills necessary for any musician. Builds aural acuity through drill and practice in ear training, sight singing and dictation. Keyboard (piano) and computerized drill and exercises will be an important part of the work. Recommended preparation: MUS 215. Recommended to be taken with MUS 213.

Credits: 2 Lecture: 2

MUP 105**JAZZ COMBO**

Performance of wide range of jazz styles in a small-group setting with an emphasis on developing knowledge and skills in improvising. Students should have some previously developed proficiency on an instrument or voice. May be repeated, no limit.

Credits: 2 Lecture: 2

MUP 111**WOODWIND ENSEMBLE**

The study and performance of chamber music for woodwind instruments in an ensemble such as a woodwind or a clarinet quartet. Instructor approval required. Not offered every year. May be repeated, no limit.

Credits: 2 Lecture: 2

MUP 114**VOCAL ENSEMBLE**

A select group of singers that focuses on various jazz idioms: blues, funk, Latin and straight-ahead. Enrollment is by audition. Recommended to be taken with MUS 197A, College Choir. Contact choral program director for information about required audition. May be repeated, no limit.

Credits: 2 Lecture: 2

MUP 146**STRING ENSEMBLE**

Study and performance of chamber music for bowed string instruments in a group such as string quartet or for string ensembles including a keyboard instrument. Instructor approval required. Not offered every year. May be repeated, no limit.

Credits: 2 Lecture: 2

**MUS 161
JAZZ IMPROVISATION**

Introduces students to jazz improvisation in a laboratory (performance) setting. No previous experience or knowledge about jazz or improvisation necessary. Students should have some previously developed proficiency on an instrument or voice. Not offered every year. May be repeated, no limit.

Credits: 2 Lecture: 2

**MUS 194
BIG BAND JAZZ**

Study and performance of music for large jazz band. May be repeated; no limit. Contact ensemble conductor for information about required audition.

Credits: 1 Other: 3

**MUS 195
CONCERT BAND**

Study and performance of music for the concert band. One major concert is presented each term. May be repeated; no limit. Contact ensemble conductor for information about required audition.

Credits: 1 Other: 3

**MUS 196
SYMPHONY**

The study and performance of music for symphony orchestra. One major concert is presented each term. Instructor approval required. May be repeated; no limit. Contact ensemble conductor for information about required audition.

Credits: 1 Other: 3

**MUS 197
CASCADE CHORALE**

Study, rehearsal and performance of choral literature. Meets Tuesday evenings and welcomes both college students and community members. Performs a major concert each term. May be repeated; no limit. Please note: purchase of concert dress outfit required. Contact choral program director for information about required audition.

Credits: 1 Other: 3

**MUS 197A
COLLEGE CHOIR**

Focuses on preparation and performance of choral literature from a wide variety of styles and periods. Performs one major concert each term, and occasionally other concerts, that are often performed off campus. May be repeated, no limit.

Credits: 2 Lecture: 1 Lab: 3

**MUS 131
PIANO CLASS I**

Teaches fundamentals of piano performance in a class format.

Credits: 2 Lecture: 2

**MUS 134
VOICE CLASS I**

Teaches fundamentals of vocal performance in a class format.

Credits: 2 Lecture: 2

**MUS 137
CLASS GUITAR I**

Teaches fundamentals of guitar performance in a class format

Credits: 2 Lecture: 2

NURSING**5.715
CO-OP WORK EXPERIENCE NURSING I**

Provides an opportunity for certified nursing assistants in the nursing program to obtain college credit while providing direct patient care in acute or long-term care facility. Prerequisites: admission to Nursing program, status as a certified nursing assistant and departmental approval.

Credits: 1 to 4

**5.716
CO-OP WORK EXPERIENCE NURSING II**

Licensed practical and graduate practical nurses can obtain college credit for providing direct patient care while employed in a long-term or acute-care facility. Prerequisites: enrollment in Nursing program, LPN status and departmental approval.

Credits: 1 to 4

**NUR 088
SPECIAL STUDIES: NURSING**

Allows nursing students to pursue a special content area. Special study arrangements must be made through the nursing program coordinator.

Credits: 1 to 8

**NUR 095
NURSING ASSISTANT**

Covers basic nursing assistant level one care and effective communication skills for clients in acute and long-term care facilities. Issues of confidentiality, client rights and role of the nursing assistant are discussed. Students are eligible to sit for the Oregon State Board of Nursing-sanctioned certified nursing assistant level one examination upon satisfactory performance of course outcomes and assessments; and completion of the minimum 150 mandatory student contact hours: 75 hours of lecture/lab and 75 hours of clinical experience. Clinic takes place in acute and long-term care facilities. To enroll in the course, students must hold a current Health Care Provider CPR card, pass a criminal history check, and meet immunization and TB test requirements. Department approval is required each term.

Credits: 7 Lecture: 3 Lab: 4.5 Other: 7.5

**NUR 096
LEVEL 2 NURSING ASSISTANT - ACUTE CARE**

Provides an Oregon State Board of Nursing-approved standardized curriculum and competency evaluation for the designation of Level 2 Nursing Assistant in Acute Care. This course focuses on technical skills, interpersonal skills and communication, safety, infection control, and documentation with the outcome of demonstrated proficiency in knowledge, skills and abilities in these areas. The course has a clinical component to be scheduled at an acute-care facility. To enroll in the course, students must hold a current, unencumbered Oregon CNA 1 certificate, hold a current Healthcare Provider CPR card, pass a criminal history check, and meet immunization and TB test requirements. Department approval required.

Credits: 6 Lecture: 2 Lab: 3 Other: 6

**NUR 098
PATIENT CARE SKILLS REVIEW**

The course is for newly-admitted Nursing program students to review skills learned in a nursing assistant course. This is designed for students who are not working as nursing assistants or that may have taken their nursing assistant class more than one year prior to entering the Nursing program. Corequisite: NUR 106. Co-requisites: NUR 106

Credits: 1 Other: 2

**NUR 099
SPECIAL TOPICS: NURSING**

Allows nursing students to pursue a special content area. Special study arrangements must be made through the Nursing program director.

Credits: 1 to 8

**NUR 106
NURSING I**

Introduces fundamental concepts of nursing practice including nursing process, critical thinking, therapeutic communication, grief, loss and cultural considerations. Students will have the opportunity to begin learning about patients with altered states of health. Students will become familiar with the major drug classifications and develop working knowledge of pharmacological principles. Students will transfer the concepts of safe, patient medication administration to the Learning Resource Center and clinical setting. Lab skills focus on a core set of beginning-level nursing skills. The clinical practicum provides students with the opportunity to apply knowledge and clinical skills to the adult patient with basic nursing care needs. First term of the practical nursing sequence and of the Nursing program. Prerequisite: admission to nursing program.

Credits: 11 Lecture: 6 Lab: 6 Other: 9

**NUR 107
NURSING II**

Introduces students to the knowledge and skills that are necessary in providing nursing care to individual patients experiencing an altered state of health. Students are also provided with the opportunity to learn concepts relating to the care of developing families. The clinical lab focuses on developing skills in the areas of intravenous therapy, complex wound management and nutritional therapies. The clinical practicum provides students with the opportunity to apply knowledge and clinical skills to the adult patient with medical-surgical nursing needs. Second term of the PN sequence and the Nursing program. Prerequisite: NUR 106.

Credits: 10 Lecture: 4 Lab: 4.5 Other: 13.5

**NUR 108
NURSING III**

Provides students with the opportunity to obtain the knowledge and skills that are necessary to implement the role of a practical nurse in providing care to acutely ill patients across the lifespan. Concepts of mental health nursing are introduced. The ability to communicate effectively, therapeutically and professionally is emphasized. Students will transfer pharmacological knowledge and concepts of safe, patient medication administration to the Learning Resource Center and clinical setting. The clinical skills lab provides a capstone comprehensive assessment of the student's complete set of core nursing skills from the first year of the Nursing program. The clinical practicum provides the opportunity for patient-centered care based on established standards and contributes to and participates in nursing care delivery at the practical nurse level. Students also have the opportunity to provide care for the childbearing family. Final term of the practical nursing sequence and the third term of the Nursing program. Prerequisite: NUR 107.

Credits: 11 Lecture: 6 Lab: 3 Other: 12

**NUR 188
SPECIAL STUDIES: NURSING I**

Allows first-year nursing students to pursue a special content area in nursing. Special study arrangements must be made through the nursing program director.

Credits: 1 to 8

**NUR 199
SELECTED TOPICS: NURSING I**

Presents selected topics of study in the field of nursing offered on a temporary or experimental basis.

Credits: 1 to 8

**NUR 206
NURSING IV**

Focuses on the integration of knowledge and skills acquired in the first year of the Nursing program as the student transitions from the practical nurse to the registered nurse role. Nursing curriculum expands on the concepts of nursing process, caring, holism and professionalism at the registered nurse level. Emphasis is on the development of competency in critical thinking and caring interventions toward individuals and their significant others. Clinical skills lab focuses on the development of higher-

level assessment, intravenous medication fluid therapy, and assessment skills. Clinical practicum provides the students with an opportunity to provide holistic, individualized nursing care for complex medical-surgical and mentally ill clients. Fourth term of the Nursing program, first term of the RN sequence. Prerequisite: completion of the first-year Nursing program or PN license and other advanced placement requirements.

Credits: 11 Lecture: 6 Lab: 4.5 Other: 10.5

**NUR 207
NURSING V**

Focuses on the concepts of community-based nursing care of individuals and significant others, care of the critically ill patient, as well as maternal child care of the childbearing family. The nursing curriculum continues to expand on the role of the RN and to promote critical thinking and clinical decision making. Students further develop their skills in patient teaching, patient care planning and patient care management skills. Clinical skills lab provides students with opportunities to simulate the care of complex, acutely ill patients. The clinical practicum focuses on applying the nursing process to provide and direct holistic, individualized patient care. Students are provided additional experiences in community-based, critical care and mother-baby clinical settings. Fifth term of the Nursing program, second term of the RN sequence of the program. Prerequisite: NUR 206.

Credits: 10 Lecture: 5 Other: 15

**NUR 208
NURSING VI**

Focuses on refining clinical, decision-making skills related to the complex health care needs of patients across the lifespan in a variety of health care settings. The holistic, individualized needs of the individual and family are the focus for collaborative care management decisions.

Theoretical concepts of quality nursing care, legal and ethical issues, leadership and management of care; and nursing care of patients with life-threatening conditions are addressed in relation to clinical practice.

Students participate in a four-week, full-time capstone clinical experience focusing on managing groups of patients or individual patients with high-level needs. The course concludes with a capstone case study presentation and a national board preparation exam. Sixth term of the Nursing program, third term of the RN sequence. Prerequisite: NUR 207.

Credits: 9 Lecture: 4 Other: 15

**NUR 218
BASIC EKG**

Basic three-lead electrocardiograph interpretation. Open to Allied Health and Nursing students.

Credits: 1 Lecture: 1

**NUR 288
SPECIAL STUDIES: NURSING**

Allows second-year nursing students to pursue a special content area in nursing. Special study arrangements must be made through the Nursing program director.

Credits: 1 to 4

**NUR 299
SELECTED TOPICS: NURSING**

Presents selected topics of study in the field of nursing offered on a temporary or experimental basis.

Credits: 1 to 3

NUTRITION

FN 225

HUMAN NUTRITION

In-depth introduction to the science of nutrition, stressing characteristics of nutrients and their food sources. Examines digestion, absorption and metabolism of nutrients. Includes individualized diet analysis and current-interest topics including weight management and some disease therapies. Emphasis is placed on use of scientific research criteria for evaluation of current nutrition articles.

Credits: 4 Lecture: 4

NUTRITION & DIETARY MANAGEMENT

NUTR 100

NUTRITION THERAPY AND CLINICAL MANAGEMENT

In depth study of common diseases and the specific diets used in their treatment. Class format is based on case studies, with nutrition assessment including review of laboratory data, developing care plans and discussion of recommended diet modifications. This course also covers an introduction to nutrition concepts that relate with the discipline of Medical Nutrition Therapy. Collection of nutrition data and providing client nutrition education with support of regulatory agency surveys serves as a focus of course content. Prerequisites: Minimum placement scores resulting in WR 121 placement or completion of WR 65 or WR 75 or WR 95. Minimum placement scores resulting in MTH 60 placement (equivalent to CUL 90) or completion of MTH 20.

Credits: 3 Lecture: 3

NUTR 130S

MODERN VEGETARIAN AND SPECIAL DIETARY

This course serves as an introduction to viewing vegetarian and special dietary needs through the lens of food and cooking. Emphasis will be placed upon gaining mastery of the basic cooking techniques for a wide variety of health-supportive foods. Develop the ability to identify a broad spectrum of natural ingredients, as well as expertise in their selection and handling. Learn whole grain baking techniques, including the basic principles of baking, as well as converting recipes from traditional to natural and vegan ingredients. Develop familiarity with numerous approaches to diet and health, along with a thorough comprehension of the criteria for quality food selection. Prerequisites: CUL 90, NUTR 100, CUL 110 and CUL 120.

Credits: 4 Other: 8

NUTR 280

NUTRITION & DIETARY INTERNSHIP

This course serves as a supervised work experience designed to expand career knowledge and experiential confidence while increasing knowledge, speed, timing, organization, and ability to execute industry skills on a repetitive basis. Students will receive a diverse work experience that is designed on a systematic rotation of different stations (cooking and clinical) in the foodservice and general operations positions. Students will document their internship experience at an approved commercial clinical/ foodservice establishment, and will work under the supervision of a qualified industry professional. Students on internship are required to submit their internship agreement with supervisor qualifications and signature and an outline of student performance goals by the close of week two of the term. They will also be required to submit weekly timesheets with feedback and a signature from the designated supervisor. Lastly, the student is required to submit a final reflective journal (written, blog, video ore-folio based) of their internship work experience during finals week. The student is required to also ensure that the supervisor submits the final student evaluation to the internship instructor with a signature of both the supervisor and student. Prerequisites: CUL 130, CUL 150, CUL 230, CUL 260 and CUL 290.

Credits: 4 Other: 8

OFFICE ADMINISTRATION

OA 180

CO-OP WORK EXPERIENCE OFFICE ADMINISTRATION

Designed to address specific office practice skills and theory. Knowledge of office practices and skills developed on the job will be assessed through written work with the instructor. Learning experience must be coordinated with student's supervisor. Main idea is to either learn psychomotor or cognitive skills on the job or apply traditional classroom learning in a real-life environment. Instructor approval required.

Credits: 1 to 3

OA 188

SPECIAL STUDIES: OFFICE ADMINISTRATION

Credits: 1 to 3

OA 199

SELECTED TOPICS: OFFICE ADMINISTRATION

Credits: 1 to 3

OA 280

CO-OP WORK EXPERIENCE OFFICE ADMINISTRATION

Enhances a student's knowledge, personal development, professional development and professional preparation by integrating academic study with practical experience. In addition to completing on-the-job training in an office situation, students will discuss work attitudes, work ethics and other human relations topics as they relate to successful employment in an office environment. Faculty coordinator will work with the student to arrange a suitable work site. Instructor approval required.

Credits: 1 to 4

OREGON GREEN TECHNOLOGY

GT 101

INTRO TO INDUSTRIAL SUSTAIN

Students explore a broad overview of sustainability and environmental engineering. Students learn the principles, concepts and technology of alternative resources including power production by wave energy, wind energy, solar energy, hydrogen-fuel devices and other emerging alternative power generation systems. Students learn the basics of sustainability in an industrial context, including energy conservation, waste reduction and preventive maintenance. Instructor approval required.

Credits: 3 Lecture: 3

GT 102

GREEN INDUSTRIAL SAFETY

Students learn the essential skills needed to develop and maintain safe work habits in various industrial workplaces following OR-OSHA guidelines including general accident prevention. Students demonstrate safe use of tools/equipment commonly found in a variety of manufacturing and construction industries. Emphasis will be put on safety procedures leading to sustainable practices and results. Recommended preparation: GT 101.

Credits: 2 Lecture: 2

GT 103

MECHANICAL SYSTEMS

This course focuses on learning the fundamentals of mechanical power. Students learn common mechanical components from nuts and bolts to gears, gear boxes, shafts and bearings. Students perform common mechanical tasks, and learn to fine-tune drive systems involving belts, chains, etc. This course demonstrates the importance of lubrication in maintaining gears and other movable parts, and emphasizes operations to reduce friction and wasted motion, which are major contributors to energy inefficiency. Recommended preparation: GT 101.

Credits: 3 Lecture: 2 Lab: 3

GT 104**ELECTRICAL SYSTEMS TROUBLESHOOTING I**

This course covers information on basic DC and AC electrical theory, definitions, basic component identification and analysis of series, parallel and combination circuits. Emphasis is placed on practical application, troubleshooting and problem solving. Students learn to troubleshoot common electrical problems in industry, such as low voltage, high voltage, open circuits, high resistance shorts to ground and current/voltage unbalance. Emphasis is on prevention of electrical energy waste. Recommended preparation: GT 101.

Credits: 3 Lecture: 2 Other: 2

GT 105**WORKPLACE MATH/APPLIED MATH**

This is an introductory algebra and geometry class in technical/professional mathematics. Topics that are covered include measurement and conversions, signed numbers, algebraic equations and formulas, ratio and proportion, perimeters, areas, volumes, reading and interpreting graphs, and measures of central tendency. Recommended preparation: MTH 20 or placement test score that places the student in MTH 20 or higher and GT 101.

Credits: 4 Lecture: 4

GT 106**INTRO TO GREEN TECHNOLOGIES**

Students will be introduced to economic and environmental considerations for selecting appropriate green technologies and techniques to compare technology options. Technologies in the areas of energy production, transportation, electrical systems, building systems and agriculture will be examined. Emphasis will be on identifying and selecting appropriate and cost-effective tools and technology solutions across multiple industries and sustainable decision making. Recommended preparation: GT 101.

Credits: 2 Lecture: 2

GT 107**ELEC SYS TROUBLESHOOTING II**

This course covers the theory and application of magnetism, electromagnetism, the generation of electromotive force, AC and DC motor principles, transformer theory, types and applications. Students are introduced to electrical control circuits and the operation of a transistor. Students build on basic techniques and learn systematic troubleshooting methods and procedures to solve process problems. Analyzing motor control schematics and using advanced digital multi meters are stressed. Emphasis is on prevention and correction of energy wasting problems. Recommended preparation: GT 101 and GT 104.

Credits: 3 Lecture: 2 Lab: 3

GT 108**BUILDING SYSTEMS**

Students learn basic principles of building science to assess building energy efficiency and monitor health and safety conditions, with an emphasis on a system analysis approach to inspection. Interconnected system analysis includes the building's envelope, foundation, walls, roof, doors, and windows. Students learn how to use diagnostic equipment to analyze the effectiveness of the building systems to maximize energy performance, comfort, efficiency, safety and durability. Students will learn about using HVAC ducting and digital controls (DDC) system as an aid in troubleshooting and promoting energy efficiency and indoor air quality. Recommended preparation: GT 101.

Credits: 2 Lecture: 1 Other: 2

GT 109**HVACR SYSTEMS OPERATION**

Students will learn the concepts of the basic operations of various heating and cooling systems for commercial and residential applications. This course focuses on maintenance and service procedure for initial tuning of HVACR systems for energy efficiency. Practical application of skills include: taking pressures, identifying refrigerants, recovering and recycling refrigerant, evacuating and charging refrigeration systems. Also included are all applicable safety precautions and EPA-governed

environmental regulations. Energy efficiency will be emphasized. Recommended preparation: GT 101.

Credits: 3 Lecture: 2 Lab: 3

GT 110**WORKPLACE COMMUNICATION**

Students will practice small group communication by participation in group discussions, readings, and written exercises. Oregon Green Certificate Consortium, has agreed to accept SP 111 or SP 218 or SP 219 as equivalents to meet the communication requirements for the Green Technician Certification.

Credits: 3 Lecture: 3

GT 111**PREVENT MAINT/ENERGY CONSERV**

This course examines the development and implementation of a preventative maintenance program using proven actions and procedures and common computer software. Students will learn how to design, construct, and maintain industrial transfer systems. The emphasis of this course is the application of preventive maintenance strategies to green technology and efficiency. Recommended preparation: GT 101.

Credits: 2 Lecture: 2

GT 112**CONTROL SYSTEMS**

Students will learn fundamentals of programmable logic control (PLC) operation, and troubleshooting. Variable-speed drive operation and programming are covered as are process control principles for temperature and flow. Emphasis is on understanding of control operations for efficiency. This course will utilize on-line training and a hands-on seminar to offer hands-on learning opportunities. Recommended preparation: GT 101.

Credits: 3 Lecture: 2 Lab: 3

GT 113**FLUID POWER**

This course provides an introduction to hydraulic schematics, troubleshooting common hydraulic problems and maintaining hydraulic systems used in a variety of production applications. It also provides an introduction to operating a pneumatic system, including maintenance and troubleshooting procedures. Students learn to read, interpret, and construct fluid-systems schematic diagrams containing pneumatic and hydraulic component systems. Emphasis will be on operation of fluid power systems for energy savings and pollution control. Recommended preparation: GT 101.

Credits: 3 Lecture: 2 Other: 2

GT 114**LOCAL APPS/ALTERNATIVE ENERGY**

This course is an introduction to the basic concepts and terminology of alternative energy sources. Subjects that will be explored in this course are biodiesel, wind, solar cells, fuel cells, ocean waves, geothermal, hydrogen, connection to the grid (homeowners), electric vehicles, as well as other emerging types of energy production. Research into old technologies as well as new will be explored, and students will research the applications of alternative energy in their local/regional communities and economies, including opportunities for employment. Recommended preparation: GT 101.

Credits: 3 Lecture: 3

GT 115**HUMAN RELATIONS/CUSTOMER SERV**

This course is designed to enable students to look at many factors that influence human behavior. The intent of this course is to help students increase their ability to handle interpersonal conflicts effectively at work and in personal lives. Recommended preparation: GT 101.

Credits: 3 Lecture: 3

PHARMACY TECHNICIAN

PHM 100

INTRODUCTION TO PHARMACY TECHNICIAN

This course teaches pharmacy technician students information, techniques, and procedures needed to assist the pharmacist in delivery of pharmaceutical products and services. The main objective is to provide the students with a working knowledge of the many aspects of pharmacy in community, institution, and other practice settings. Progressive learning takes place as new information and skill sets are studied throughout the course. Students will understand the regulatory agencies and laws that affect pharmacy practice. Emphasis is placed on the duties and responsibilities of the pharmacy technician to assist the pharmacist. This course explores employment opportunities, interpretation and processing of prescriptions, pharmacy law, standards of practice and orientation to the skills required for the occupation of a pharmacy technician.

Department approval required.

Credits: 4 Lecture: 3 Other: 2

PHM 101

PHARMACY TECH LAW AND ETHICS

This course orients students to the work of pharmacy technicians. Students learn the concept of direct patient care and the technician's role in its delivery with emphasis on the complementary roles of pharmacists and technicians in both the community and institutional pharmacy setting. Students are introduced to the federal and state laws as well as the standards of practice which govern the practice of pharmacy. Students will be able to identify examples of professionalism in pharmacy and discuss the important areas of the Health Insurance Portability and Accountability Act (HIPAA) as it relates to patient confidentiality. Department approval required.

Credits: 3 Lecture: 3

PHM 110

PHARMACY CALCULATIONS

This online course reviews basic mathematics related to the application of math concepts to the duties of the pharmacy technician. This course covers the systems of weight, measurement and temperature and the conversion from one system to the other. Emphasis is placed on the math skills needed to calculate doses, drug quantity or volume, intravenous flow rates and percentage concentrations and to learn the mechanics of proportions related to pharmaceutical dosing. The basics of retail pricing and accounting are introduced. Prerequisite: entrance to the Pharmacy Technician program or instructor approval.

Credits: 3 Lecture: 3

PHM 120

DRUG CLASSIFICATION AND THERAPEUTICS I

This online course introduces students to trade and generic names of commonly prescribed drugs used in prevention and treatment of various disease entities. Emphasis is placed on important contraindications, side effects, precautions and interaction of drugs and the process of drug utilization review. The course will provide a basic understanding of pharmacological categories and factors that can affect drug kinetics. Prerequisite: entrance to the Pharmacy Technician program or instructor approval.

Credits: 3 Lecture: 3

PHM 130

DRUG CLASSIFICATION AND THERAPEUTICS II

This online course continues the introduction to trade and generic names of commonly prescribed drugs used in prevention and treatment of various disease entities. Emphasis is placed on important contraindications, side effects, precautions and interaction of drugs and the process of drug utilization review. The course will provide a basic understanding of pharmacological categories and factors that can affect drug kinetics. Prerequisites: Departmental approval and PHM 120.

Credits: 3 Lecture: 3

PHM 140

PHARMACY TECHNICIAN PRACTICE II

This online course teaches pharmacy technician students information, techniques and procedures needed to assist the pharmacist in delivery of pharmaceutical products and services. The main objective is to provide the students with a working knowledge of the many aspects of pharmacy in a community, institution and other practice settings. Progressive learning takes place as new information and skill sets are studied throughout the course. Students will understand the regulatory agencies and laws that affect pharmacy practice. Emphasis is placed on the duties and responsibilities of the pharmacy technician. This course explores employment opportunities, interpretation and processing of prescriptions, pharmacy law, standards of practice and orientation to the skills required for the occupation of a pharmacy technician. Application of skills in a practical setting will be covered. This is a four-credit hybrid course and students should expect to spend nine to 12 hours per week completing the required course work. In addition to the online section, this course requires a one-credit (20 hour) lecture-lab session. Lab sessions are 1.5 hours once a week (days and times to be determined). The labs will be held on the COCC campus and students are responsible for all travel expenses. Recommended preparation: Department approval, PHM 100.

Credits: 4 Lecture: 3 Other: 2

PHM 181

PHARMACY TECHNICIAN SEMINAR

This online course seminars discussions on various aspects of the practicum. Students will share work related experiences with the instructor and their peers. Students will prepare to take the Pharmacy Technician National Certification exam. Covers employment opportunities, resume writing, completing job applications and interviewing skills. Prerequisite: Entrance to the Pharmacy Technician program or instructor approval. Co-requisites: PHM 190 and PHM 191.

Credits: 1 Lecture: 1

PHM 190

PHARMACY TECHNICIAN PRACTICUM I: HOSPITAL/ INSTITUTIONAL

An unpaid learning experience which takes place on site at a prearranged clinical facility and supervised by a registered pharmacist. Provides students with the opportunity to perform clearly identified competencies within the clinical setting. Each credit is equivalent to 30 hours participation in the clinical setting. Students will be prepared to participate in the administration of a pharmacy practice, including filling drug orders. Prerequisite: entrance to the Pharmacy Technician program or instructor approval. Co-requisite: PHM 181.

Credits: 3 Other: 9

PHM 191

PHARMACY TECHNICIAN PRACTICUM II: RETAIL/ COMMUNITY

An unpaid learning experience which takes place on site at a prearranged pharmacy and supervised by a registered pharmacist. Provides student with the opportunity to perform clearly identified competencies within the clinical setting. Each credit is equivalent to 30 hours participation in the clinical setting. Prerequisite: entrance to the Pharmacy Technician program or instructor approval. Co-requisite: PHM 181.

Credits: 3 Other: 9

PHILOSOPHY

PHL 170 PHILOSOPHY OF LOVE AND SEX

Provides an overview of the primary historical and contemporary Western views on the nature and meaning of romantic love. Students will analyze the links philosophers have found among beauty, friendship, passion, loyalty and transcendence and will also create their own philosophies of romantic love.

Credits: 3 Lecture: 3

PHL 199 SELECTED TOPICS: PHILOSOPHY

Credits: 1 to 3

PHL 200 FUNDAMENTALS OF PHILOSOPHY

Fundamentals of Philosophy will survey some of the major questions and philosophical subject areas of the Western World. Topics would include questions such as the existence of God, or not; How we know what we think we know; social and political philosophy; ethics; free will and determinism; the existence of other minds; questions concerning the existence of a mind-independent external world; and philosophical underpinnings of science. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

PHL 201 PROBLEMS OF PHILOSOPHY-EPISTEMOLOGY

Explores basic problems and different theories of knowledge along with related issues in metaphysics, for example: how to define the nature and limits of knowledge; rationalist vs. empiricist perspectives; assumptions about reality and existence; and arguments for and against the existence of God. Recommended preparation: WR 121 or equivalent skills.

Credits: 3 Lecture: 3

PHL 202 PROBLEMS OF PHILOSOPHY - ETHICS

Explores basic problems in moral and social philosophy along with issues related to human nature, for example: how to define a good life or a good society; what is the nature of happiness, pleasure, virtue and justice; consequence vs. duty-based theories; the role of reason and/or passion; and arguments for and against natural law. Recommended preparation: WR 121 or equivalent skills.

Credits: 3 Lecture: 3

PHL 203 PROBLEMS OF PHILOSOPHY - LOGIC

Introduction to the study of reasoning and critical thinking. This involves identifying and evaluating deductive and inductive forms, distinguishing validity from truth/soundness, examining informal fallacies and the limits of language, constructing different types of arguments and applying these tools to issues in science, politics, morality and everyday life.

Recommended preparation: MTH 95 or Math placement test scores that place a student in MTH 105; WR 121 or equivalent skills.

Credits: 3 Lecture: 3

PHYSICS

PH 201 GENERAL PHYSICS I

Studies Newtonian Mechanics beginning with basic math concepts and continuing into kinematics, dynamics, uniform circular motion, energy, momentum, and rotational equivalents of some of these topics. Lab addresses experiments and applied settings of Newtonian Mechanics along with explorations of diverse methods for analyzing and interpreting scientific data. Meets the basic requirements for many pre-health and life science programs. Should be taken in sequence. Recommended to be taken with MTH 111.

Credits: 5 Lecture: 4 Lab: 3

PH 202 GENERAL PHYSICS II

Studies basic electrostatic and magnetic interactions. Builds on concepts from PH 201 and continues into electrostatic forces, electric field concepts, electric potential, basic DC circuit concepts, magnetic interactions and forces, sources of magnetic fields and Faraday's Law. Lab addresses concepts and measurements in thermal physics and continues to explore the processes by which science seeks answers to questions. Meets the basic requirements for many pre-health and life science programs. Should be taken in sequence. Recommended to be taken with MTH 112.

Credits: 5 Lecture: 4 Lab: 3

PH 203 GENERAL PHYSICS III

Studies periodic behavior and topics from modern physics. Builds on concepts from previous terms and considers the physics of periodic motion, mechanical waves, wave interference, standing waves, acoustic waves, electromagnetic waves, geometric optics, diffractions and topics from special relativity to quantum mechanics. Lab includes basic optical experiences along with a long-term project to affirm student abilities to integrate investigative lab concepts from previous terms. Meets the basic requirements for many pre-health and life science programs. Should be taken in sequence.

Credits: 5 Lecture: 4 Lab: 3

PH 211 GENERAL PHYSICS I

Studies Newtonian Mechanics beginning with basic math concepts and continuing into kinematics, dynamics, uniform circular motion, energy, momentum, and rotational equivalents of some of these topics. At all stages, applications of calculus to the solving of problems will be explored. Lab addresses experiments and applied settings of Newtonian Mechanics along with explorations of diverse methods for analyzing and interpreting scientific data. Required for engineering students and most students planning programs in the physical sciences. Should be taken in sequence. Recommended preparation: MTH 251.

Credits: 5 Lecture: 4 Lab: 3

PH 212 GENERAL PHYSICS II

Studies basic electrostatic and magnetic interactions. Builds on concepts from PH 211 and continues into electrostatic forces, electric field concepts, electric potential, basic DC circuit concepts, magnetic interactions and forces, sources of magnetic fields and Faraday's Law. At all stages, applications of calculus to the solving of problems will be

explored. Lab addresses concepts and measurements in thermal physics and continues to explore the processes by which science seeks answers to questions. Required for engineering students and most students planning programs in the physical sciences. Should be taken in sequence. Recommended preparation: MTH 252 and PH 211.

Credits: 5 Lecture: 4 Lab: 3

PH 213

GENERAL PHYSICS III

Studies periodic behavior and topics from modern physics. Builds on concepts from previous terms and considers the physics of periodic motion, mechanical waves, wave interference, standing waves, acoustic waves, electromagnetic waves, geometric optics, diffractions and topics from special relativity to quantum mechanics. At all stages, applications of calculus to the solving of problems will be explored. Lab includes basic optical experiences along with a long-term project to affirm student abilities to integrate investigative lab concepts from previous terms. Required for engineering students and most students planning programs in the physical sciences. Should be taken in sequence. Recommended preparation: MTH 253 and PH 212. Recommended to be taken with MTH 256.

Credits: 5 Lecture: 4 Lab: 3

PH 299

SELECTED TOPICS: PHYSICS

Credits: 1 to 5

POLITICAL SCIENCE

PS 188

SPECIAL STUDIES: POLITICAL SCIENCE

Credits: 1 to 3

PS 198

CO-OP WORK EXPERIENCE POLITICAL SCIENCE INTERNSHIP

Credits: 1 to 15

PS 199

SELECTED TOPICS: POLITICAL SCIENCE

Credits: 1 to 4

PS 201

INTRODUCTION TO US GOVERNMENT AND POLITICS

Examines the Constitution with its separation of powers, limited authority and guarantee of individual liberty. Includes English heritage, the colonial experience and the American Revolution, which shaped the charter of American government. Includes the process of self-government through public opinion and elections. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

PS 203

STATE/LOCAL GOVERNMENT

Examines the thousands of governments located at the state and local levels. Explores separation of powers between governors, legislatures and state court systems. Opportunity for individual involvement in the administration, innovation and promotion of democracy is investigated. Recommended preparation or recommended to be taken with: WR 121.

Credits: 3 Lecture: 3

PS 204

INTRODUCTION TO COMPARATIVE POLITICS

Surveys the field of comparative politics through in-depth analyses of countries in Western Europe, the former Soviet bloc, and the developing world. The first part of the course is structured around the history of liberal democracy and its challengers: fascism and communism. The next part of the course turns to the politics of development. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

PS 205

INTRODUCTION TO INTERNATIONAL RELATIONS

Introduces complex relations among the nations of a rapidly changing world. Focuses on the nature of the international system and factors affecting conflict and cooperation within the system. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

PS 206

INTRODUCTION TO POLITICAL THOUGHT

Introduces the broad range of issues and approaches in political theory. Examines the diversity of the field, as it includes both classic and historical texts as well as contemporary treatments. Introduces the issue of political obligation with the trial of Socrates in ancient Greece. The notion of toleration and its limits is explored in the era of the Glorious Revolution. Covers the two most central issues of political theory: justice and democracy. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

PS 207

POLITICS OF THE MIDDLE EAST

This course is intended as an introduction to politics in the Middle East and therefore provides a general overview of some of the chief issues of contemporary Middle Eastern politics. These include the impact of colonialism, nationalism and nation-state formation, regional crisis, the Arab-Israeli conflict, the politics of oil, Islamism, democratization, political economy, globalization, and human rights.

Credits: 4 Lecture: 4

PS 250

TERRORISM AND THE AMERICAN PUBLIC

The course defines terrorism, considers the motivations of terrorists, considers policy proposals that might be taken to reduce the likelihood of terrorism, and investigates the tensions inherent in democracies between civil liberties and national security. Recommended preparation: WR121

Credits: 4 Lecture: 4

PS 280

PSYCHOLOGY

PSY 101

APPLIED PSYCHOLOGY

This course introduces the basic foundation of psychology to degree-seeking students and career and technical students. Focuses on practical applications of psychological principles in the workplace and everyday life. Topics include motivation, emotions, individual development, identifying problem behavior, coping resources, group dynamics and communication skills. This course is considered a human relations component. (Previously PSY 207)

Credits: 3 Lecture: 3

PSY 188

SPECIAL STUDIES: PSYCHOLOGY

Credits: 1 to 3

PSY 199

SELECTED TOPICS: PSYCHOLOGY

Credits: 1 to 4

PSY 201

MIND AND BRAIN

Introduces psychology as a scientific study of the biological bases of behavior. Includes history of psychology as a science and surveys methods of inquiry, statistics, sensation, perception, states of consciousness including drug effects, motivation, emotion, learning, memory, language, thinking and intelligence. The major theoretical approaches to psychology are included. Recommended preparation: Placement scores that allow enrollment into college-level reading.

Credits: 4 Lecture: 4

PSY 202

MIND AND SOCIETY

Emphasizes psychology as a scientific process, surveying methods of inquiry. Overview of selected areas of psychological study including: human development through the life span; human sexuality; health psychology; personality theories and assessment; psychological disorders; intervention and therapy; social psychology, and human factors psychology. The major theoretical approaches to psychology are included. Recommended preparation: Placement scores that allow enrollment into college level reading.

Credits: 4 Lecture: 4

PSY 213

INTRODUCTION TO PHYSIOLOGICAL PSYCHOLOGY

This course provides a scientific introduction to how the brain's neuroanatomy and neurofunction provide a foundation for understanding sensory and motor systems, brain rhythms and brain plasticity. Essential neurophysiological processes that underlie topics such as human development, cognitive and emotional functions, gender, psychological disorders and addictions will be presented. Recommended preparation: PSY 201 or BI 121 or BI 122 or BI 231 or BI 232 or BI 233.

Credits: 4 Lecture: 3 Lab: 3

PSY 214

PERSONALITY PSYCHOLOGY

Examines the major theoretical perspectives on personality formation, including biological, psychodynamic, humanistic, cognitive, behavioral, and sociocultural influences. Personality tests and measures are also discussed. The major theoretical approaches to psychology are included. Recommended preparation: Placement scores that allow enrollment into college-level reading and PSY 201 or PSY 202.

Credits: 4 Lecture: 4

PSY 215

DEVELOPMENTAL PSYCHOLOGY

Comprehensive study of human development over the life span from prenatal through late adult development. Focuses on physical, cognitive and psychosocial changes throughout the human life cycle and emphasizes an interactionist approach to explain developmental processes and outcomes. The major theoretical approaches to

psychology are included. Recommended preparation: Placement scores that allow enrollment into college-level reading.

Credits: 4 Lecture: 4

PSY 215N

DEVELOPMENTAL PSYCHOLOGY FOR NURSES

Comprehensive study of human development over the lifespan from prenatal to late adult development. Focuses on physical, cognitive and psychosocial changes throughout the human life cycle and emphasizes an interactionist approach to explain developmental processes and outcomes. This course will be emphasizing the social-cognitive outcomes required by the nursing program and is recommended for nursing students who do not require an additional background in Anatomy and Physiology. Recommended preparation: Placement scores that allow enrollment into college-level reading.

Credits: 4 Lecture: 4

PSY 216

SOCIAL PSYCHOLOGY

Surveys influence of psychological processes on groups and influence of culture, society and groups on individuals. Includes analysis and exploration of social behavior from a social psychology perspective. Topics include aggression, prejudice, conformity, affiliation, altruism, persuasion, interpersonal attraction, social cognition, conflict resolution, attitude formation and change, and applied social psychology. Recommended preparation: Placement scores that allow enrollment into college-level reading, PSY 202 or SOC 201.

Credits: 4 Lecture: 4

PSY 219

ABNORMAL PSYCHOLOGY

Introductory survey of the variety of emotional, mental and behavioral disorders experienced by humans. History, theoretical perspectives, diagnostic criteria and issues, etiology and treatment strategies are covered for major forms of psychopathology. Recommended preparation: Placement scores that allow enrollment into college-level reading.

Credits: 4 Lecture: 4

PSY 222

ANIMAL BEHAVIOR

This course will cover the fundamental aspects of animal behavior: How and why animals behave and how animal behavior is studied. Topics include mechanisms of behavior, behavioral ecology, feeding, predation, mating, parenting, communication and social behavior.

Credits: 4 Lecture: 4

PSY 225

EATING DISORDERS

This course explores eating behavior, weight regulation, and body image in contemporary society. Cultural, familial, social, personal and biological factors in eating and weight problems will be examined. The course will cover the full continuum from normal, healthy eating to clinical eating disorders and related behaviors, which include chronic dieting, excessive exercise, emotional eating, obesity or poor body image. Recommended preparation: WR 121 and PSY 201 or PSY 202.

Credits: 3 Lecture: 3

PSY 227

ANIMAL BEHAVIOR

This course will cover the fundamental aspects of animal behavior: how and why animals behave and how animal behavior is studied. Topics include mechanisms of behavior, behavioral ecology, feeding, predation, mating, parenting, communication and social behavior.

Credits: 4 Lecture: 3 Lab: 3

PSY 228

POSITIVE PSYCHOLOGY

This course explores the components necessary to help a person flourish in their environment by addressing the biopsychosocial aspects that contribute to positive behaviors and human strengths. Material will provide an overview of the theories of happiness, importance of self-care and positive social cognitions, utilizing strengths in personal and professional venues, and means of achieving healthy relationships personally and with

ones' community. Recommended preparation: Placement scores that allow enrollment into college-level reading.

Credits: 4 Lecture: 4

PSY 233

PSYCHOLOGY OF VIOLENCE & AGGRESSION

Addresses the developmental, social, physiological and cultural aspects that contribute to violence and aggression as well as the legal issues involved. Includes an overview of the theories of aggression, as well as factors influencing family violence, violent children, mob mentality, hate crimes, war and terrorism, stalking, sex crimes and murder. Recommended preparation: Placement scores that allow enrollment into college-level reading.

Credits: 4 Lecture: 4

PSY 280

CO-OP WORK EXPERIENCE PSYCHOLOGY

Credits: 1 to 4

PSY 299

SELECTED TOPICS: PSYCHOLOGY

Credits: 1 to 4

READING

RD 099

SELECTED TOPICS: READING

Credits: 1 to 4

RD 117

COLLEGE READING

Offers instruction in flexible reading skills. Focuses on building reading speed and comprehension, and acquiring a repertoire of reading strategies suitable for understanding and retaining information acquired in typical college reading.

Credits: 3 Lecture: 3

RD 199

SELECTED TOPICS: READING

Credits: 1 to 3

SOCIOLOGY

SOC 141

FILM & SOCIETY: RACE, GENDER, AND CLASS

Examines the representation of race, social class and gender in film. Special attention is given to how particular representations reflect the broader historical context surrounding when the films were produced and culturally based audience sentiments. Anthropological and sociological analyses of the films will be provided to give a multi-disciplinary account of how films reflect, create and support various ideological positions regarding race, class and gender.

Credits: 2 Lecture: 1 Lab: 3

SOC 142

FILM & SOCIETY: GLOBAL CULTURES

Examines global issues in both foreign and domestic films from sociological and anthropological perspectives. Selected films cover topics that are relevant to understanding global processes such as global economy and Islam in the contemporary world, as well as films that address the more regionally localized processes of community and family. The purpose of the course is to use film to expose students to diverse perspectives and to encourage the critical awareness of the global interconnections that influence and constrain our modern lives. Films will include documentaries, as well as feature films.

Credits: 2 Lecture: 1 Lab: 3

SOC 143

FILM & SOCIETY: CONTEMPORARY ISSUES

Examines contemporary issues in film from sociological and anthropological perspectives. Selected films cover such topics as youth

culture, nationalism, local culture and poverty, mental health or other social problems. The content of the films, as well as issues of film production, historical context and audience reception will be the major focus of analysis.

Credits: 2 Lecture: 1 Lab: 3

SOC 199

SELECTED TOPICS: SOCIOLOGY

Credits: 1 to 4

SOC 201

INTRODUCTION TO SOCIOLOGY

Provides conceptual tools for analyzing and understanding social forces that shape our lives. The relationships among socialization and social groups, as well as economic, political and religious systems are investigated. This course is considered a human relations component. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

SOC 206

SOCIAL PSYCHOLOGY

Explores the relationship between individuals and society from the sociological perspective, with focus on symbolic interactionism. Examines current social-psychological issues including aggression and prejudice, altruism and moral development, love and friendship, groupthink and social movements. Recommended preparation: SOC 201.

Credits: 4 Lecture: 4

SOC 208

SPORT AND SOCIETY

While we use sociology to help make sense of sport, we also use sport to develop the ability to think sociologically about society. Subjects include sport and: values, socialization, deviance, social problems and social inequities. Recommended preparation: SOC 201.

Credits: 4 Lecture: 4

SOC 211

SOCIAL DEVIANCE

Examines the definition of deviant behavior. Focuses on deviant behavior of societies as well as individuals including issues such as drugs, organized crime, government deviance and crimes against women. Recommended preparation: WR 121, SOC 201 or instructor approval.

Credits: 4 Lecture: 4

SOC 212

RACE, CLASS, ETHNICITY

Examines the interrelationships between race, class, and gender and political and economic systems. Historical and contemporary issues are highlighted. Different levels of analysis are provided, including societal structures, representations and social interactions. Recommended preparation: WR 121, SOC 201 or instructor approval.

Credits: 4 Lecture: 4

SOC 214

SOCIALIZATION

Examines the lifelong processes by which people learn the norms and values of their society. Includes processes in primary and secondary socialization, resocialization and anticipatory socialization. Explores impacts of socialization agents, including media, culture and societal composition. Surveys classic and contemporary theories of socialization in the sociological and broader social science perspective. Recommended preparation: SOC 201.

Credits: 3 Lecture: 3

SOC 215

SOCIAL ISSUES AND SOCIAL MOVEMENTS

Applies sociological analysis to contemporary issues and movements. Examples include the environmental crisis, race and ethnic relations, sexual deviancy, drug abuse, health care and violence. Recommended preparation: WR 121, SOC 201 or instructor approval.

Credits: 4 Lecture: 4

SOC 216**SOCIOLOGY OF GENDER**

Examines gender within societies, from the individual through families, groups and social institutions, and especially how gender is interconnected with race, class and sexuality. Surveys the historical and cultural development of gender; gender in relationships, the workplace, crime and prostitution; and how gender interacts with religion, education, the state and mass media. Recommended preparation: SOC 201.

Credits: 4 Lecture: 4

SOC 219**SOCIOLOGY OF RELIGION**

Surveys a variety of religious traditions and introduces the sociological perspective for the study of religion as part of a larger social order. Explores the nature of religious beliefs and practices, both historically and in contemporary context. Examines the relationship between religious traditions and the current globalization of the institution of religion in culture and society. Recommended preparation: SOC 201.

Credits: 4 Lecture: 4

SOC 222**SOCIOLOGY OF FAMILY**

The course examines the interrelationships between family life and society. By focusing on the interaction between family and society, the course addresses the impact of economic, social, and political conditions on the institution of family past and present. Recommended preparation: Writing 121.

Credits: 4 Lecture: 4

SOC 250**SOCIOLOGY OF POPULAR CULTURE**

Course applies a sociological perspective to the study of films, music, advertising and other forms of popular culture. Three separate elements of popular culture are examined: the production of culture, the reception of culture and the text or symbols themselves. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

SOC 299**SELECTED TOPICS: SOCIOLOGY**

Credits: 1 to 4

**SPEECH****SP 111****FUNDAMENTALS OF PUBLIC SPEAKING**

Emphasizes enhancing the relationship between speaker and audience through the content, organization and delivery of short oral presentations. Helps relieve student speech anxiety.

Credits: 3 Lecture: 3

SP 114**ARGUMENTATION AND CRITICAL DISCOURSE**

Explores theories of argumentation. Students will develop skills of inquiry and advocacy through oral and written discourse, including critical analysis and rules of evidence. Students will also practice planning, constructing and delivering persuasive arguments in a variety of extemporaneous formats. Through this course, students will learn how to more effectively influence others as well as raise their awareness of others trying to influence them.

Credits: 3 Lecture: 3

SP 115**INTRODUCTION TO INTERCULTURAL COMMUNICATION**

Explores the influence of cultural differences in communication styles and social values and their impact on work, family, legal and economic systems.

Credits: 3 Lecture: 3

SP 188**SPECIAL STUDIES: SPEECH**

Credits: 1 to 3

SP 199**SELECTED TOPICS: SPEECH**

Credits: 1 to 3

SP 218**INTERPERSONAL COMMUNICATION**

Promotes enhanced personal and work relationships by presenting the theoretical concepts and practical skills used in effective one-to-one communication.

Credits: 3 Lecture: 3

SP 219**SMALL GROUP COMMUNICATION**

Provides theory and practice in leadership style, conflict management through role playing in the small group situation. The emphasis will be on task-oriented, decision-making groups.

Credits: 3 Lecture: 3

SP 220**GENDER COMMUNICATION**

Introduces students to the differences between masculine and feminine communication styles and gives them the tools to manage those differences. Also reviews how communication is used to create, structure and maintain gender identities in a variety of contexts.

Credits: 3 Lecture: 3

SP 230**INTRODUCTION TO THE RHETORIC OF FILM**

Introduction to the Rhetoric of Film introduces students to the visual and aural languages of moving pictures (film and video) and gives them the tools necessary to analyze the social impact of both overt persuasion (in propaganda and commercials) and covert persuasion (in entertainment). Films that manage audience perceptions of race, class, gender, religion and the environment will be discussed. Recommended preparation: WR121.

Credits: 3 Lecture: 3

SP 234**INTRODUCTION TO VISUAL RHETORIC**

Introduction to Visual Rhetoric gives students the tools they need to analyze the languages of visual communication, including composition, color, and content, and how such languages are used to produce both

overt and covert influence on the ideas, attitudes and behaviors of others. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

SP 241

MEDIA, COMMUNICATION, SOCIETY

Analyzes the social and cultural impact of media, including broadcast, print, film, and computer-mediated communication. Also examines careers and entrepreneurship in selected areas of media. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

SP 250

LISTENING

Gives students a deeper understanding of and more practical skills in listening to increase understanding and to help others.

Credits: 1 Lecture: 1

SP 252

TEAM SKILLS

Gives students an understanding of the systems nature of small groups and gives them the skills needed to manage decision-making, leadership and the communication climate of the team setting.

Credits: 1 Lecture: 1

SP 253

CONFLICT MANAGEMENT

Gives students an understanding of conflict management and the skills needed to become more successful in the conflict situation.

Credits: 1 Lecture: 1

SP 270

COMMUNICATING LOVE

Provides an overview of the bio-psychological roots of romantic/erotic love, a critique of media images of love and offers practical training in communication skills that maintain and enhance long-term love relationships. Recommended preparation: WR 121.

Credits: 3 Lecture: 3

SP 280

CO-OP WORK EXPERIENCE SPEECH INTERNSHIP

Credits: 1 to 3

SP 299

SELECTED TOPICS: SPEECH

Explores an area of communication not included in the regular curriculum. Possible topics include gender communication, media issues and relational communication.

Credits: 1 to 3

STRUCTURAL FIRE SCIENCE

SFS 101

INTRODUCTION TO EMERGENCY SERVICES

Provides an overview of fire protection and EMS; career opportunities within and related fields; philosophy and history of fire and EMS; fire loss analysis; organization and function of public and private fire and EMS services; fire department as part of local government; laws and regulations affecting the fire service; fire and emergency service nomenclature and specific fire protection functions.

Credits: 3 Lecture: 3

SFS 102

FIRE SERVICE SAFETY AND SURVIVAL

This course broadens the scope of the national firefighter life-safety initiatives and emphasizes their importance to firefighters and on up the ranks through management levels. It is designed to create a positive attitude towards firefighter safety; to have the student recognize how serious the firefighter injury and death problem is; to recognize their responsibility for reducing future injuries and deaths; to provide information for improving safety considerations; to demonstrate that most firefighter injuries and deaths are preventable.

Credits: 3 Lecture: 3

SFS 105

FIRE BEHAVIOR & COMBUSTION I

This course explores the theories and fundamentals of how and why fires start, spread and how they are controlled. Department approval required. Co-requisite: GS 105 and recommended that the student be starting their second year.

Credits: 3 Lecture: 3

SFS 110

BUILDING CONSTRUCTION FOR FIRE PERSONNEL

Studies building construction with emphasis on how buildings fail when subjected to fire. Case studies used to illustrate points. Studies of roof and wall construction enable the student to predict failure points and adapt fire fighting strategies accordingly. Buildings under construction and those subjected to external forces will also be studied. Field trips take students into the community to study various construction techniques. Recommended preparation: SFS 101, SFS 102.

Credits: 3 Lecture: 3

SFS 112

PUBLIC EDUCATION AND FIRE PREVENTION

Studies fundamentals of public relations pertaining to fire service including emergency operations, general public appearances, writing news releases, articles and speeches and general media contact. Students work in developing an effective public education campaign for delivery. Audience type and message content is carefully analyzed. Recommended to be taken with WR 121, SFS 101 and SFS 102.

Credits: 3 Lecture: 3

SFS 120

FIXED SYSTEMS AND EXTINGUISHERS

Studies portable and fixed extinguisher equipment, fire alarm and detection systems, sprinkler systems and standpipes, and special hazard protection systems. Covers extinguishing agents, system design and maintenance procedures. Field exercises expose students to systems discussed in class. Recommended preparation: SFS 101 and SFS 102. This course is offered in a Hybrid environment where students meet in the classroom for half of required course dates.

Credits: 3 Lecture: 3

SFS 121

FIRE LAW

Introduces the modern legal system with emphasis on cases related to fire service. Case law is studied to understand underlying concepts. Reviews case law affecting modern fire service agencies. Explores laws relating to medical treatment of patients, fire protection, codes, emergency response and department activities on the fire ground. Recommended preparation: SFS 101 and SFS 102.

Credits: 1 Lecture: 1

SFS 122

FIRE DEPARTMENT BUDGET

Outlines the budget process as required by Oregon laws to include types of budgets, the process of preparing the budget and classifying expenditures.

Credits: 1 Lecture: 1

SFS 188

SPECIAL STUDIES: STRUCTURAL FIRE SCIENCE

Credits: 1 to 4

SFS 199

SELECTED TOPICS: SFS

Credits: 1 to 4

SFS 205

FIRE BEHAVIOR AND COMBUSTION II

Fire Behavior and Combustion II builds on the foundational knowledge and skills developed in SFS 105, Fire Behavior & Combustion I and Firefighter I academy. Critical learning outcomes include understanding the relationship between fire behavior indicators and fire development, the conditions that result in extreme fire behavior, and application of control measures to improve firefighter safety and fire control

effectiveness. Department approval required. Due to safety and OSHA requirements, students must be affiliated with a fire department and be current and have passed SCBA Fit testing. Recommended preparation: SFS 105, Fire Behavior and Combustions I; Firefighter I Academy; and GS 105, Chemistry. This course is designed for second-year students to be taken the year of graduation.

Credits: 3 Lecture: 2 Lab: 3

SFS 210

FIRE INVESTIGATION

Provides basic information in fire cause determination. Studies arson detection, protection of point of origin, fire indicators, motives and vehicle fire investigation. Field trips and classroom props aid the student in understanding the science of fire investigation. Recommended preparation: SFS 101 and SFS 102. Department approval required.

Credits: 3 Lecture: 3

SFS 211

TACTICS & STRAT FOR CAPSTONE

This course provides an in-depth analysis of the principles of fire control through utilization of personnel, equipment and extinguishing agents on the fire ground. Students will apply what has been learned throughout the program and engage in simulations designed to summarize the program content within the Structure Fire program. Department approval required. This course is to be taken spring term in the year of graduation.

Credits: 3 Lecture: 2 Lab: 2

SFS 212

FIRE CODES AND ORDINANCES

Introduces the International Fire and Building Code (IFC) and laws promulgated by the Office of the State Fire Marshal relating to fire safety and prevention. Includes overview of administrative provisions and many of the applicable standards in the codes. Students apply the codes to specific situations to illustrate understanding and application of the codes and related laws. Students also identify applicable sections of the codes in response to scenarios presented in the classroom or in the field. Recommended preparation: SFS 101 and SFS 102.

Credits: 3 Lecture: 3

SFS 215

URBAN INTERFACE

Designed to assist structure and wildland firefighters who will be making tactical decisions when confronting wildland fire that threatens life, property, and improvements, in the wildland/urban interface. Instructional units include: interface awareness, size-up, initial strategy and incident action plan, structure triage, structure protection tactics, incident action plan assessment and update, follow-up and public relations, and firefighter safety in the interface. Prerequisite: completion of first year of the program S130/190 certification, and department approval required.

Credits: 3 Lecture: 2 Other: 2

SFS 230

RESCUE PRACTICES

Explores techniques and applications of specialized rescue practices in modern fire service. Focuses on vehicle rescue, steep-angle rescue and swift-water rescue with basic overviews of ice rescue, electrical rescue and trench rescue techniques. Using modern tools and techniques, students apply classroom learning in several comprehensive and dynamic field exercises. Emergency Medical Technician - Basic training allows students to integrate fire and EMS activities at an emergency rescue scene. Department approval required. Recommended to be taken with SFS 101 and SFS 102.

Credits: 3 Lecture: 2 Lab: 3

SFS 232

FIRE PROTECTION HYDRAULICS AND WATER SUPPLY

This course provides a foundation of theoretical knowledge in conjunction with hands on labs in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and to solve water supply problems. Recommended preparation: MTH 65 or higher; GS 104, GS 105, SFS 105 and access to engines or affiliation

are highly recommended for students' success in the class. Department approval required.

Credits: 4 Lecture: 3 Lab: 3

SFS 233

FIRE SERVICE ENTRANCE EXAMS

Introduces and prepares student for processes and procedures of testing for employment in a structural fire agency. Also beneficial for career personnel preparing for promotional examinations within their agency. Tests students in oral and written communication skills, offering strategies to improve weak areas. Students practice oral interview procedures, reading comprehension, concentration and memory. Several diagnostic tests evaluate mechanical ability, comprehension, basic chemistry and basic physics. Recommended preparation: SFS 101 and SFS 102. Department approval required.

Credits: 3 Lecture: 3

SFS 288

SPECIAL STUDIES: STRUCTURE FIRE

Credits: 1 to 3

SFS 299

SELECTED TOPICS: STRUCTURAL FIRE SCIENCE

Credits: 1 to 4

STUDY SKILLS

HD 100CS

COLLEGE SUCCESS

Addresses both study skills and personal characteristics (critical thinking, decision making, and responsibility) a student needs to ensure a successful transition to college life. Will introduce students to college resources and student services that support successful academic growth and planning. Will explore learning styles, proactive communication strategies and study skills such as note taking and memory techniques for positive class performance. Will introduce students to techniques for effectively managing their time and achieving balance between school, work and personal commitments. Will also identify essential college resources for the development of a realistic and workable academic plan. Designed to give new students a broad overview of college basics.

Credits: 2 Lecture: 2

HD 100NT

NOTE TAKING

Introduces students to active listening and note taking for later recall of information from lectures, classroom and activities. Students will learn to identify key points, use the five most effective techniques for taking notes,

use notes for class assignments and tests, and design a note-taking style for personal fit.

Credits: 1 Lecture: 1

HD 100OL EXPLORING ONLINE LEARNING

Introduces students to the world of online education. By taking into account personal characteristics, learning styles, and knowledge of technology, students will determine if online courses fit their academic goals. Specific tools for evaluating the quality of online degree programs will be presented, while challenges and common misconceptions of online classes will be discussed.

Credits: 2 Lecture: 2

HD 100PM PROCRASTINATION & MOTIVATION

Introduces students to the characteristics of procrastinating behaviors. The class explores reasons for procrastination and how to self-negotiate to eliminate non-productive behaviors. Specific tools to address individual styles of procrastination will be introduced with an emphasis on identifying personal values to motivate one to action and achieve defined goals.

Credits: 1 Lecture: 1

HD 100TM TIME MANAGEMENT

Introduces students to techniques for effectively managing their time and achieving balance between school, work, and personal commitments. Students will define values and academic goals, assess where time is spent, and develop a plan to achieve academic success. Weekly, monthly and long-term schedules along with daily to-do and priority lists will be developed. Tools for evaluation will be introduced and a 6-month plan developed.

Credits: 1 Lecture: 1

HD 100TT TEST TAKING

Designed for students challenged by tests or assessment materials. The class introduces students to the process of effective test taking including preparation for all types of tests and classroom assessment tools, study and relaxation techniques and actual test taking. Students will be introduced to pro-active strategies to address test anxiety, utilize test results for improved performance, and access instructors for guidance and performance.

Credits: 1 Lecture: 1

HD 100VC VALUES CLARIFICATION

Designed to assist students in defining the motivation behind their college investment and develop a compelling academic plan integrated with their personal life plan. Students will identify their key motivators (values), assess current life choices and roles in the framework of the defined values, develop a plan of action that realistically supports success, choose action steps resulting in the achievement of defined outcomes, and develop strategies to continually reassess and measure academic/ personal success.

Credits: 1 Lecture: 1

HD 101 STUDY STRATEGIES

Emphasizes study skills, acquisition of college knowledge, resources, and personal responsibility while building and using strategies for college and workplace success. Effective learning and study strategies are reviewed and practiced including text reading, note taking, test taking, listening strategies, and time management. Learning styles are identified and connected to pro-active behaviors. College resources, campus protocol and ethical student behavior are introduced and integrated with examination of self-talk and application of visualization processes to enhance confidence and self-esteem in the college environment.

Credits: 3 Lecture: 3

HD 102 LEADERSHIP DEVELOPMENT

Teaches basic principles of leadership development and staff management in order to prepare student/staff leaders to effectively work in their assigned roles within Student Life and together as a team. Includes topics designed to increase knowledge and skills in the areas of diversity awareness, communication, conflict management, teambuilding, group development, personal awareness, time management and values clarification. As a result of this class, students will become familiar with the roles and expectations of the Student Life staff and be able to professionally represent COCC in their leadership roles on campus. Department approval required.

Credits: 2 Lecture: 2

THEATER ARTS

TA 141 ACTING I

Acquaints students with fundamental principles of acting. In-class performance of memorized material required. Grading based primarily on in-class participation. Attendance is mandatory.

Credits: 3 Lecture: 3

TA 142 ACTING II

Emphasizes in-depth character study and textual analysis through preparation of scenes from modern American plays. Attendance is mandatory. Recommended preparation: satisfactory completion of TA 141 or instructor approval.

Credits: 3 Lecture: 3

TA 143 ACTING III

Further in-depth character study and scene work. May be repeated for credit. Attendance is mandatory. Recommended preparation: TA 141 and TA 142.

Credits: 3 Lecture: 3

TA 188 SPECIAL STUDIES: THEATER

Credits: 1 to 3

TA 200 INTRODUCTION TO THEATER

Introduces student to the world of theater. Combines overview of historical facts and theory with contemporary practice. Explores career options in theatrical production.

Credits: 3 Lecture: 3

TA 207 READINGS IN THEATER

Offers a study of selected plays, loosely grouped by country of origin, theme, era or playwrights. Emphasis placed on texts in performance rather than on literary analysis. May be repeated once for credit.

Credits: 3 Lecture: 3

TA 280 CO-OP WORK EXPERIENCE THEATER

Credits: 1 to 3

VETERINARY TECHNICIAN

VT 101

INTRO TO VETERINARY TECHNICIAN

This course introduces students to the broad field of veterinary medicine, focusing on the specific roles and responsibilities of the veterinary technician. Students will be introduced to the historical aspects of veterinary medicine and the duties of the technician, including ethics, common animal breeds, safety and first aid and basic principles of nursing care, including clear and compassionate communication with owners. Prerequisites: BI 101 or BI 211; GS 105 or CH 104; MTH 60 or higher; and WR 121. Co-requisites: VT 102, VT 103 and VT 105. Credits: 4 Lecture: 4

VT 102

VETERINARY TERMINOLOGY

This course is an introductory course designed to acquaint students with veterinary medical terminology, including medical word parts, abbreviations and basic terms along with a basic knowledge of word construction. Co-requisites: VT 101, VT 103 and VT 105. Credits: 3 Lecture: 3

VT 103

ANIMAL HOSPITAL AND OFFICE PROCEDURES

An introduction to veterinary medical records, admitting procedures, history taking, record maintenance for both in/out patients, and kennel records. Includes follow-up and discharge procedures on filing and record retention. This course also covers the fundamentals of client interaction, basic bookkeeping skills and the use of computer software specifically designed for use in a veterinary hospital. Co-requisites: VT 101, VT 102 and VT 105. Credits: 4 Lecture: 4

VT 104

ANIMAL DISEASES

This course introduces the veterinary technician student with the more common disease conditions of the individual body systems of companion animals and select large animals. The etiology, diagnosis, treatment, prevention, public health significance and the role of the veterinary technician will be covered. Prerequisites: VT 101, VT 102, VT 103 and VT 105. Co-requisites: VT 106, VT 108 and VT 110. Credits: 4 Lecture: 4

VT 105

ANIMAL ANATOMY AND PHYSIOLOGY I

This is the first of three courses covering the form and function of animal bodies and their anatomical and physiological differences between selected species. Lab includes skeletons and cadaver specimens and virtual and classroom models. The course provides instruction in histology, gross anatomy and physiology of the integumentary system, bones and muscles, with emphasis on the comparative aspects between species of each organ system. Co-requisites: VT 101, VT 102, VT 103. Credits: 4 Lecture: 3 Lab: 3

VT 106

ANIMAL ANATOMY AND PHYSIOLOGY II

This is the second of three courses covering the form and function of animal bodies and their anatomical and physiological differences between selected species. Lab includes skeletons and cadaver specimens and virtual and classroom models. The course provides instruction in histology, gross anatomy and physiology of the integumentary system, bones and muscles, with emphasis on the comparative aspects between species of each organ system. Prerequisites: VT 101, VT 102, VT 103 and VT 105. Co-requisites: VT 104, VT 108, VT 110. Credits: 4 Lecture: 3 Lab: 3

VT 107

ANIMAL ANATOMY AND PHYSIOLOGY III

This is the third of three courses covering the form and function of animal bodies and their anatomical and physiological differences between selected species. This module will focus on advanced studies in equine, avian, reptile and rodent anatomy and physiology. Prerequisites: VT 104,

VT 106, VT 108, VT 110. Co-requisites: VT 109, VT 111, VT 115.

Credits: 4 Lecture: 3 Lab: 3

VT 108

ANIMAL NURSING I

This is the first of four courses involving nursing and management of the small animal patient. This course is the introduction to small animal patient care and treatment that a technician will be expected to provide in a veterinary practice. It includes techniques, equipment, client education, management of the hospitalized patient and preventative medicine. Emphasis will be on the role of the veterinary technician in the veterinary hospital. Prerequisites: VT 101, VT 102, VT 103 and VT 105. Co-requisites: VT 104, VT 106, VT 110. Credits: 4 Lecture: 3 Lab: 3

VT 109

ANIMAL NURSING II

This is the second in a four-course series on Animal Nursing. This course will focus on the care and monitoring of hospitalized patients and acquiring samples and specimens for diagnostic testing. Prerequisites: VT 104, VT 106, VT 108 and VT 110. Co-requisites: VT 107, VT 111 and VT 115. Credits: 4 Lecture: 3 Lab: 3

VT 110

CLINICAL PATHOLOGY I

This is the first of a three-part sequence. Students will be introduced to veterinary clinical laboratory equipment and its proper use and maintenance. Students will be taught basic hematology, including making and reading blood slides and how to collect, process and analyze urine samples. Prerequisites: VT 101, VT 102, VT 103 and VT 105. Co-requisites: VT 104, VT 106 and VT 108. Credits: 4 Lecture: 3 Lab: 3

VT 111

CLINICAL PATHOLOGY II

This is the second course of a three-part sequence. This course will focus on processing and analyzing blood and fecal material and reporting results. Students will also study and learn the life cycles, characteristics and treatment for common internal and external parasites. Prerequisites: VT 104, VT 106, VT 108 and VT 110. Co-requisites: VT 107, VT 115 and VT 210. Credits: 4 Lecture: 3 Lab: 3

VT 115

PHARMACOLOGY I

This course is the first of two courses focusing on pharmacology and medical dosing for veterinary technicians. This course focuses on basic terms and abbreviations of pharmacology, properties of specific drug classes, pharmaceutical therapy for cardiovascular, respiratory, musculoskeletal and nervous systems. Students will also be introduced to medical math and dosing calculations. Prerequisites: VT 104, VT 106, VT 108 and VT 110. Co-requisites: VT 107, VT 111 and VT 210. Credits: 3 Lecture: 3

VT 201

ANESTHESIOLOGY AND SURGERY

This course introduces veterinary technology students to the principles and practices of veterinary anesthesia and surgical assistance. Prerequisites: VT 107, VT 109, VT 111 and VT 115. Co-requisites: VT 205, VT 210 and VT 212. Credits: 4 Lecture: 3 Lab: 3

VT 202

VETERINARY SPECIAL PROCEDURES

This course focuses on veterinary dentistry and special veterinary diagnostic procedures. Veterinary technology students will learn to perform a thorough dental prophylaxis on multiple species, utilize and perform basic tooth extraction techniques, recognize and report different stages of tooth decay and damage, and correctly medically chart all information. In addition, the student will gain an understanding of why and how specialized diagnostic tests are performed, including Ultrasonography, MRI, CT and Endoscopy. Students will become familiar

with maintenance and operation of the Ultrasound machine and flexible and rigid Endoscopes. Pre-requisite: VT 201, VT 205, VT 210, VT 212. Co-requisites: VT 204 and VT 211.

Credits: 4 Lecture: 3 Lab: 3

VT 204

VETERINARY RADIOLOGY

This course introduces students to the field of veterinary radiography, including principles of x-ray production, the operation and uses of x-ray machines, the care and development of films, and radiographic positioning of animals. Radiation and safety principles involved in using x-ray machines is emphasized. Prerequisites: VT 201, VT 205, VT 210 and VT 212. Co-requisites: VT 202 and VT 211.

Credits: 4 Lecture: 3 Lab: 3

VT 205

PHARMACOLOGY II

This course is the second in a two-part series focusing on advanced pharmacology and medical dosing for veterinary technicians. Focus is on advanced terms and abbreviations of pharmacology, properties of specific drug classes, and advanced pharmaceutical therapy for cardiovascular, respiratory, musculoskeletal and nervous systems. Students will also be expected to demonstrate advanced skills in medical math and dosing. Prerequisites: VT 107, VT 109, VT 111 and VT 115. Co-requisites: VT 201, VT 210 and VT 212.

Credits: 3 Lecture: 3

VT 210

ANIMAL NURSING III

This is the third part of a four-part series in Animal Nursing. This course will focus on large animal and exotic animal nursing techniques. Prerequisites: VT 107, VT 109, VT 111 and VT 115. Co-requisites: VT 107, VT 111, VT 115

Credits: 4 Lecture: 3 Lab: 3

VT 211

ANIMAL NURSING IV

This is the fourth course in a sequence of courses and is an advanced course in Animal Nursing for veterinary technicians. Emphasis will be on setting up for and collection of laboratory samples including arthrocentesis, bone marrow collection, thoraco- and abdomenocentesis, fine needle aspiration, endotracheal washes, etc. This course will also contain a comprehensive review of Animal Nursing in preparation for the National Veterinary Technician Examination. Prerequisites: VT 201, VT 205, VT 210 and VT 212. Co-requisites: VT 202 and VT 204.

Credits: 4 Lecture: 3 Lab: 3

VT 212

CLINICAL PATHOLOGY III

This is the third in a three-part series in Veterinary Clinical Pathology. This module will focus on clinical microbiology as it relates to veterinary technology including cellular, bacterial, viral and microbial defenses. Prerequisites: VT 107, VT 109, VT 111 and VT 115. Co-requisites: VT 201, VT 205 and VT 210.

Credits: 4 Lecture: 3 Lab: 3

VT 280

CLINICAL PRACTICUM

This course develops career objectives by linking coursework with off-campus learning experiences in business, industry and/or the public sector. Focus is on office/receptionist skills, animal nursing and restraint laboratory procedures, pharmacology, radiography, surgical preparation and assistance and anesthesiology. This course is designed to give the student hands-on experience by working on actual animal cases in a clinical veterinary setting. Students will be able to gain confidence in their abilities and develop increased proficiency in these clinical rotations. Students are matched to a veterinary hospital or clinic for the course practicum. The match is determined by the program director. Each student is expected to attend 300 total hours at the clinical site. Prior to taking this class, students must have successfully completed all other courses in the Veterinary Technology program with a grade of "C" or better.

Credits: 10 Other: 30

WILDLAND FIRE/FUELS MANAGEMENT

WF 100

INCIDENT COMMAND SYSTEMS

This course introduces students to the principles of the Incident Command System (ICS) associated with incident-related performance. Topics include: leadership and management, delegation of authority and management by objectives, functional areas and positions, briefings, organizational flexibility, transitions and transfers.

Credits: 3 Lecture: 3

WF 101

INTRODUCTION TO FIRE BEHAVIOR AND FIREFIGHTER TRAINING

The purpose of this course is to train new firefighters in basic firefighting skills and the basic fire behavior factors that will aid them in the safe and effective control of wildland fires. Students will receive NWCG certification in S-130, S-190, L-180 and S-133.

Credits: 3 Other: 6

WF 131

S-131 ADVANCED FIREFIGHTER

Firefighter Type 1, S-131, is designed to meet the training needs of the Firefighter Type 1 (FFT1). This course is designed to be interactive in nature. It contains several tactical decision games designed to facilitate learning the objectives and class discussion. Topics include fireline reference materials, communications, and tactical decision making. Recommended preparation: WF 100, WF 101.

Credits: 1 Lecture: 1

WF 134

S-134 LOOKOUTS, COMMUNICATION, ESCAPE ROUTES, SAFETY ZONES

Students become engaged in the process of designing their own safety program. The small group exercises will discuss and develop the L, C, E, S, creating a list of performance standards. The entire class will then work together to produce and edit a contract, based on consensus, which guides performance.

Credits: 2 Lecture: 2

WF 181

L-180 HUMAN FACTORS-FIRELINE

Establishes an awareness of human performance issues and how those issues can impact fireline job performance. Addresses human performance content that relates to the individual, including situation awareness, communication, decision making, risk management and teamwork skills. Improves awareness of human performance issues on the fireline so that individual firefighters can integrate more

effectively into teams/crews working in dynamic, high-risk environments.
Recommended preparation: WF 101, WF 100.

Credits: 1 Lecture: 1

WF 188

SPECIAL STUDIES: WILDLAND FIRE

Credits: 1 to 4

WF 199

SELECTED TOPICS: WILDLAND FIRE

Credits: 4

WF 200

S-200 INITIAL ATTACK INCIDENT COMMAND

Designed to meet the training needs of the ICT4. Presented in a lecture/discussion format and supplemented with group exercises. The six instructional units cover: readiness and mobilization; size up, planning and ordering; deployment and containment; administrative requirements; and post-fire evaluation.

Credits: 2 Lecture: 2

WF 201

NFPA INSTRUCTOR 1

NFPA Instructor 1 is an intensive, instructional methodology program. It addresses the job performance requirement of the National Fire Protection Agency, 1041 Standard for Fire Service Instructor Professional Qualifications and the National Wildfire Coordinating Group. The course prepares students for planning instruction, using a variety of instructional methods, teaching diverse learners, and evaluating course outcomes. The course also provides guidelines for addressing the critical issues of safety and the legal issues of training, and it provides opportunities for participants to participate in application activities.

Credits: 3 Lecture: 3

WF 203

S-203 INTRODUCTION TO INCIDENT INFORMATION

Provides students with the knowledge and skills they need to serve as public information officers (PIOF). Touches on virtually all aspects of establishing and maintaining an incident information operation, from communicating with internal and external audiences to handling special situations. Format of the course is lecture and exercises with a final simulation.

Credits: 3 Lecture: 3

WF 210

FI-210 WILDFIRE ORIGIN/CAUSE

The primary purpose of this course is to provide a consistent knowledge and skill base for the wildland fire origin and cause determination investigator (INVF). The concepts taught in this course will help an INVF perform at an acceptable level on a national basis without regard to geographic boundaries. The course is presented by lectures, electronic presentations, field exercises and class discussion.

Credits: 3 Lecture: 3

WF 211

S-211 PORTABLE PUMPS

This is an instructor-led course intended to be presented at the local level. The course consists of three skill areas: supply, delivery and application of water. Students will be required to demonstrate their knowledge of correct water use, basic hydraulics and equipment care. The field exercise requires set up, operation and maintenance of pump equipment. To receive credit for this course, students must have field work observed and approved, and take a closed-book written final examination. Recommended preparation: WF 100, WF 101.

Credits: 2 Lecture: 2

WF 212

S-212 WILDFIRE POWER SAWS

This is an instructor-led course intended to be presented at the local level. The course lessons provide introduction to the function, maintenance and use of internal combustion engine-powered chain saws, and their tactical wildland fire application. Field exercises support entry-level training for firefighters with little or no previous experience in operating a chain saw, providing hands-on cutting experience in surroundings similar to fireline

situations. Recommended preparation: WF 131 and WF 134.

Credits: 3 Lecture: 2 Lab: 3

WF 215

S-215 FIRE OPERATIONS IN THE URBAN INTERFACE

This course is designed to assist structure and wildland firefighters who will be making tactical decisions when confronting wildland fire that threatens life, property, and improvements, in the wildland/urban interface. Instructional units include interface awareness, size-up, initial strategy and incident action plan, structure triage, structure protection tactics, incident action plan assessment and update, follow-up and public relations, and firefighter safety in the interface. Recommended preparation: WF 100 and WF 101.

Credits: 3 Lecture: 3

WF 230

S-230 CREW BOSS

Designed to produce student proficiency in the performance of duties associated with the single resource boss position from initial dispatch through demobilization to the home unit. Topics include: operational leadership, preparation and mobilization, assignment preparation, risk management, entrapment avoidance, safety and tactics, offline duties, demobilization and post incident responsibilities.

Credits: 3 Lecture: 3

WF 231

S-231 ENGINE BOSS

Skill course designed to produce student proficiency in the performance of all duties associated with the single resource engine boss. Topics include tactical use and safety precautions required to establish an effective engine operation on a large incident.

Credits: 2 Lecture: 2

WF 232

S-232 DOZER BOSS

Skill course designed to produce proficiency in the performance of all duties associated with the single-dozer boss (DOZB). Primary considerations are tactical use and safety precautions required to establish and maintain an effective dozer operation.

Credits: 2 Lecture: 2

WF 234

S-234 IGNITION OPERATIONS

This is an entry-level course providing training in the functional roles and responsibilities connected with firing operations. The course covers planning, ignition procedures and techniques, and equipment applicable to wildland and prescribed fire. This course addresses the role of the ignition specialist or firing boss as the organization manages escalation from a noncomplex to a complex fire situation. Note: This course is not intended to qualify or certify any personnel in the use or transport of any firing device; rather, it is to provide the potential firing boss a description of available equipment and the requirements specific to each such device. Department approval required.

Credits: 2 Lecture: 2

WF 244

S-244 FIELD OBSERVER

Provides students with the necessary skills to perform as a field observer (FOBS) and/or a prescribed fire effects monitor (FEMO). Topics include: identifying and interpreting maps, making map calculations, using observation aids and instruments, performing field observations and communicating information. There will be a daylong field trip.

Credits: 2 Lecture: 2

WF 260

S-260 INTERAGENCY INCIDENT BUSINESS MANAGEMENT

Covers the following incident business management practices: rules of conduct for incident assignments, recruitment of casuals, pay provisions, timekeeping, commissary, travel compensation for injury, acquisition of equipment, supplies, services, property management, types and the necessity of cooperation agreements, reporting, investigating, documenting accidents and claims. Recommended to be taken with WF 100 and WF 101.

Credits: 2 Lecture: 2

WF 261**S-261 APPLIED INTERAGENCY INCIDENT BUSINESS MANAGEMENT**

This course is designed to provide the prerequisite skills/knowledge necessary to perform the tasks of the entry-level finance positions, i.e., commissary manager, personnel time recorder, equipment time recorder, compensation for injury specialist, and claims specialist, in the Incident Command System (ICS). It is designed to be taken after completion of Interagency Incident Business Management (S-260).

Credits: 2 Lecture: 2

WF 270**S-270 BASIC AIR OPERATIONS**

Covers aircraft types and capabilities, aviation management and safety, tactical and logistical uses of aircraft, and requirements for helicopter take-off and landing areas. Recommended preparation: WF 131 and WF 134.

Credits: 2 Lecture: 2

WF 281**L-280 FOLLOWERSHIP/LEADERSHIP**

Training course designed as a self-assessment opportunity for individuals preparing to step into a leadership role. There is one day of classroom instruction followed by a day in the field with small teams of students working through a series of problem-solving events (Field Leadership Assessment Course). Topic areas include: leadership values and principles; transition challenges for new leaders; situational leadership; team cohesion factors; ethical decision making.

Credits: 2 Lecture: 2

WF 284**I-400 ADVANCED ICS**

This course directs the student towards an operational understanding of large single-agency and complex multi-agency/multi-jurisdictional incident responses. Topics include: Fundamentals review for command and general staff, major and/or complex incident/event management, area command, and multi-agency coordination. This course was developed in conjunction with the US Fire Administration (H467) and the Emergency Management Institute (G400). These courses are built on the same lesson objectives and content as the NWCG I-400 course and are interchangeable; they are all National Incident Management System (NIMS) compliant. Department approval required.

Credits: 2 Lecture: 2

WF 286**PACIFIC NORTHWEST ENGINE ACADEMY**

Students attending the Pacific Northwest Engine Academy will receive training utilizing a variety of methods and techniques, which will provide information about water handling and will improve engine operation skills. These skills are applicable to both fuels management and fire suppression activities. The student will be instructed using ICS terminology.

Credits: 3 Lecture: 2 Lab: 3

WF 288**SPECIAL STUDIES: WILDLAND FIRE**

Credits: 1 to 4

WF 290**S-290 INTERMEDIATE WILDFIRE BEHAVIOR**

This is a classroom-based skills course designed to prepare the prospective fireline supervisor to undertake safe and effective fire management operations. It is the second course in a series that collectively serves to develop fire behavior prediction knowledge and skills. Fire environment differences are discussed as necessary; instructor should stress local conditions. Recommended preparation: WF 131, WF 260, WF 134.

Credits: 3 Lecture: 3

WF 291**I-300 INTERMEDIATE INCIDENT COMMAND SYSTEMS**

This course is designed to meet the training needs of the incident commander type 3 (ICT3). The focus is on the lessons of leadership

and command as they relate to the ICT3 position. It is presented in participative lecture format with multiple tactical decision games for students to practice new knowledge. The seven instructional units cover foundation skills, situational awareness, command and control, managing the incident, transitional activities, post-fire activities and a final simulation. There is also an optional staff ride activity (Unit 8) if instructors choose to include it. Department approval required.

Credits: 2 Lecture: 2

WF 292**RX-300 PRESCRIBE BURN BOSS**

Designed to prepare the student for the use of fire to accomplish resource objectives by evaluation and implementation of a prescribed fire. Development of a burn plan is the primary product of this course which includes: developing resource management objectives; safety and monitoring; operational criteria; legal liabilities; use of fire and fire effects; smoke management and prescription design.

Credits: 4 Lecture: 4

WF 293**RX-340 (RX-310) FIRE EFFECTS**

Provides the student with the knowledge and skills to recognize basic fire regimes, the results of fire treatment on first order fire and fire effects, and to manipulate fire treatments to achieve desired first order fire effects.

Credits: 3 Lecture: 3

WF 294**S-300 IC EXTENDED ATTACK**

Meets the training needs of the incident commander, type 3 (ICT3). Presented in a lecture/discussion format and supplemented with group exercises. There are six instructional units that cover information gathering, planning, supporting organization, operations, transitioning, and demobilization/administrative requirement.

Credits: 2 Lecture: 2

WF 295**S-330 TASK FORCE/STRIKE TEAM LEADER**

Prepares the student to perform in the role of task force leader (TFLD) or any strike team leader. Examples and exercises are specific to wildland fire suppression. If the student is expected to perform in another risk area, applicable examples and exercises area will be added.

Credits: 3 Lecture: 3

WF 296**S-336 SUPPRESSION TACTICS**

Meets training requirements in the Operations Section of the Incident Command System. Examples, simulations, and exercises in this course are specific to wildland fire suppression.

Credits: 3 Lecture: 3

WF 297**S-339 DIVISION GROUP SUPERVISOR**

Prepares student to perform in the role of division/group supervisor. Provide instruction in support of the specific tasks of division/group supervisor, but will not instruct the student in general management/supervision or in the incident command system (ICS). Topics include: division/group management, organizational interaction, and division operations.

Credits: 2 Lecture: 2

WF 298**S-390 FIRE BEHAVIOR CALCULATION**

This is an NWCG (National Wildfire Coordinating Group) Certified course. This course is designed to introduce fire behavior calculations by manual methods, using nomograms and the Fire Behavior Handbook Appendix B. Students gain an understanding of the determinants of fire behavior through studying Inputs (weather, slope, fuels, and fuel moisture). Students also learn how to interpret fire behavior outputs, documentation processes, and fire behavior briefing components.

Department Approval Required.

Credits: 3 Lecture: 3.2

WF 299**SELECTED TOPICS: WILDLAND FIRE****Credits: 1 to 4****WRITING****WR 060****RHETORIC AND CRITICAL THINKING I**

First course in a two-course series of instruction in developmental writing and reading. The writing process is examined from invention to final draft; reading instruction includes vocabulary development, distinguishing between ideas and evidence, and summarizing. Students read, analyze and evaluate texts of varying lengths that show each stage of the process. The course focuses on expository essays. Recommended preparation: Reading and Writing placement test scores that place the student in WR 60.

Credits: 4 Lecture: 4**WR 065****RHETORIC AND CRITICAL THINKING II**

Second course in a two-course series of instruction in developmental writing and reading. Students will study one long text and shorter selections from varying points of view representing the three major academic disciplines of humanities, science, and social science. Mirroring the reading and writing skills used in college, students read and write about the primary ways of thinking across the disciplines. Recommended preparation: Reading and Writing placement test scores that place the student in WR 65; or a grade of "C" or higher in WR 60.

Credits: 4 Lecture: 4**WR 095****BASIC WRITING II**

Provides instruction and practice in basic essay structures and development. Students learn effective options for introductions, transitions, body paragraphs and conclusions. Includes brief review of sentence mechanics and paragraphing principles within the context of student's own writing. Also provides practice and instruction in the writing process, including peer review and analysis. WR 95 is an optional course in the developmental writing sequence for students who need or want additional preparation for WR 121. This course is not suitable for students who place into WR 60 or WR 65. Recommended preparation: Reading placement test scores that place a student in WR 121; or a grade of "C" or higher in WR 65.

Credits: 3 Lecture: 3**WR 099****SELECTED TOPICS: WRITING****Credits: 1 to 4****WR 121****ENGLISH COMPOSITION**

This transfer course emphasizes text-based academic writing and develops skills in expository and persuasive writing incorporating analytical reading, critical thinking and credible sources. Students compose several essays using a variety of strategies to support a thesis. Prerequisite: Students are placed into WR 121 based on Writing and Reading placement test scores; or a grade of "C" or higher in WR 65 or WR 95.

Credits: 4 Lecture: 4**WR 122****ENGLISH COMPOSITION**

Using critical reading, observation or investigation to explore topics in depth, students learn to incorporate, accommodate or refute other voices, use evidence and persuasion and follow patterns of reasoning to support their positions. WR 122 focuses on the research process for producing a substantial, documented research essay. Recommended preparation: WR 121.

Credits: 4 Lecture: 4**WR 123****ENGLISH COMPOSITION**

Stresses skills necessary to produce college research papers. Students learn to focus a topic; to practice critical reading; to evaluate sources and incorporate them into their writing; and to formally organize, format and document their final revisions. Recommended preparation: WR 122 and LIB 127.

Credits: 3 Lecture: 3**WR 170****DOCUMENTATION**

Instruction emphasizes what constitutes plagiarism and how to avoid it by applying college-level documentation practices, using accepted discipline-appropriate academic and professional styles, in research-based writing assignments across the curriculum.

Credits: 1 Lecture: 1**WR 188****SPECIAL STUDIES: WRITING****Credits: 1 to 3****WR 199****SELECTED TOPICS: WRITING****Credits: 1 to 3****WR 214****BUSINESS COMMUNICATIONS**

Introduces students to prevailing practices of written and oral communication in business organizations, with special attention to audience-adaptation strategies and developing a jargon-free style. Includes instruction in formatting techniques, document design, graphics, research strategies and documentation, as well as practice in the collaborative skills required for workplace writing. Recommended preparation: WR 121.

Credits: 3 Lecture: 3**WR 227****TECHNICAL WRITING**

This transfer course emphasizes forms of writing appropriate in technical fields. This course addresses topics such as evaluation of audiences, writing situations and sources; document design; research processes; visual aids; oral presentations; and collaborative writing. Writing assignments include such forms as memos, letters, informal reports, process reports and research reports. WR 227 focuses on the research process for producing a substantial, documented research technical report (cp. WR 122). Recommended preparation: WR 121.

Credits: 4 Lecture: 4**WR 240****INTRODUCTION TO CREATIVE WRITING: NONFICTION**

Introduces students to writing creative nonfiction, adapting the personal essay to multiple purposes, such as science or nature writing, travel writing, memoir, biography and journalistic essay. Prose craft exercises, critical reading of published authors and responding constructively to other student work are essential learning processes. Recommended preparation: WR 121.

Credits: 4 Lecture: 4**WR 241****INTRODUCTION TO CREATIVE WRITING: FICTION**

Practical study of effective strategies for creating vivid, dramatic stories. Students learn the basic craft of generating conflict and plot, openings that grab the reader, complications that build tension, and details that reveal character. Critical reading of published authors, prose craft exercises and responding constructively to other student work are essential learning processes. Recommended preparation: WR 121.

Credits: 4 Lecture: 4**WR 242****INTRODUCTION TO CREATIVE WRITING: POETRY**

Introduces students to the craft of poetry through study of the poetry and notebooks of established writers for writing techniques, forms, styles and

work processes and through the writing and submission of approximately one complete poem per week for class discussion and analysis.
 Recommended preparation: WR 121.

Credits: 4 Lecture: 4

WR 243

INTRODUCTION TO CREATIVE WRITING: SCRIPTWRITING

Introduces students to dramatic writing for both stage and screen. Essential learning processes in the course include scene and dialogue craft exercises, developing strong characters and viable narrative structures, critical reading of plays, screenplays, and/or teleplays and responding constructively to other student work. Recommended preparation: WR 121.

Credits: 4 Lecture: 4

WR 288

B.S. in Geology, 1966, University of Oregon; M.S. in Geology, 1968, University of Oregon. At COCC from 1984 to 2006.

FACULTY

CORA AGATUCCI

Professor of English

B.A. in English, 1977, San Diego State University; M.A. in Literature, 1979, University of California, San Diego; Ph.D. in Literature, 1987, University of California, San Diego. At COCC since 1988.

JACOB AGATUCCI

Assistant Professor II of English

B.A. in English, 1999, University of Oregon; M.A. in English, 2001, University of Oregon. At COCC since 2001.

DAN ALBERGHETTI

Assistant Professor II of Computer and Information Systems

B.A. in Art, 1991, University of California; M.A. in Art, 2000, California State University. At COCC since 2013.

STEPHANIE V. ANDRE

Assistant Professor I of Composition

B.A. in English, 2001, University of Notre Dame; M.A. in English, 2006, Rutgers University. At COCC since 2011.

KARL BALDESSARI

Assistant Professor I of Aviation

B.S. in Government, 1982, U.S. Coast Guard Academy; At COCC since 2011.

JERRY BEAN

Temporary Instructor of Aviation

B.S. in History, 1972, Oregon State University; M.A. in Business Administration-Aviation, 2002, Embry Riddle Aeronautical University. At COCC since 2012.

ARTHUR N. BENEFIEL

Professor of Forest Technology

A.S. in Forestry, 1977, Mt. Hood Community College; B.S. in Forest Resources (Forest Management), 1983, University of Washington; M.F.R. in Forest Resources, 1984, University of Washington. At COCC since 1988.

STEVEN BIDLAKE

Associate Professor of English

B.A. in English, 1975, Western Washington University; M.A. in English, 1977, University of Oregon; Ph.D. in English, 1987, University of Washington. At COCC since 1992.

RONALD W. BOLDENOW

Professor of Forest Resources Technology

B.S. in Biology, 1978, Calvin College; M.S. Forestry, 1987, Humboldt State University; Ph.D. in Wildland Resource Science, 1996, University of California, Berkeley. At COCC since 1999.

JUSTIN BOROWSKY

Assistant Professor II of Speech

A.A. in Liberal Arts, Communication, 2003, Raritan Valley Community College; B.A. in Communication, 2005, Rutgers University; Masters of Communication and Information Studies, 2007, Rutgers University; Ph.D. in Interpersonal and Family Communication, 2010, University of Denver. At COCC since 2010.

JON BOUKNIGHT

Professor of Speech and Writing

B.A. in English, 1982, University of California, Berkeley; M.A. in English, 1987, University of New Mexico; Ph.D. in Speech Communication, 1994, University of Washington. At COCC since 1998.

BRIAN BUBAK

Assistant Professor I of Emergency Medical Services

B.S. in Business Administration, 1982, University of Oregon; M.A. in Photographic Communication, 1994, Ohio University. At COCC since 2012.

THOMAS M. CARROLL

Professor of Economics

B.S. in Economics, 1970, University of Idaho; M.S. in Agricultural and Resources Economics, 1980, Oregon State University. At COCC since 1980.

PETER DICKINSON CASEY

Professor of Computer and Information Systems

B.A. in Secondary Education, 1981, University of Arizona; A.A., 1982, Central Oregon Community College; M.S. in Computer Science Education, 1987, University of Oregon. At COCC since 1983.

EMMA CHAPUT

Assistant Professor I of Biology

B.A. in Biology, 1995, Johns Hopkins University; Masters in Public Health, 2001, Yale University. At COCC since 2011.

MONTE CHENEY

Associate Professor of Mathematics

B.S. in Mathematics, 1994, Walla Walla University; M.S. in Mathematics, 1994, Washington State University; M.S. Statistics, 1998, Washington State University. At COCC from 1998 to 2006; returned in 2010.

ELIZABETH COLEMAN

Assistant Professor I of Mathematics

B.A. in Mathematics, 1990, Humboldt State University; M.S. in Environmental Systems with an emphasis in Math Modeling, 1998, Humboldt State University. At COCC since 2009.

JEFFREY D. COONEY

Associate Professor of Biology

B.S. in Natural Science, 1981, Western Oregon State College; D.V.M. in Veterinary Medicine, 1987, Oregon State University. At COCC since 1995.

LEWIS M. COUSINEAU

Associate Professor of Computer and Information Systems

B.S. in Industrial and Management Engineering, 1985, Montana State University; M.B.A., 1992, Seattle University. At COCC since 1998.

WILLIAM CRAVIS

Assistant Professor I of Fine Arts - Sculpture and 3D Design

B.A. in Ceramics, 2002, California College of the Arts; M.A. in Fine Arts, 2006, Carnegie Mellon University. At COCC since 2012.

JENNIFER CRUICKSHANK

Assistant Professor I, Health and Human Performance

B.S. in Exercise Sport Science, 1996, Colorado State University. At COCC since 2004.

DEBORAH S. DAVIES

Professor of Dental Assisting / Program Director

A.A. in Dental Hygiene, 1987, Pueblo Community College; B.S. in Biology, 1975, University of Southern Colorado; holds Oregon Dental Hygiene License and certification by the National Dental Hygiene Board. At COCC since 1997.

MICHELE D. DECKER

Associate Professor of Nursing

B.S. in Community Health Education, 1979, Oregon State University; B.S. in Nursing, 1983, and M.S. in Nursing Education and Administration, 1991, Oregon Health Sciences University; M.Ed. in Adult Education, 2002, Oregon State University. At COCC since 2005.

STACEY L. DONOHUE

Professor of English

B.A. in English, 1985, University Center at Binghamton, State University of New York; Ph.D. in English, 1995, City University of New York. At COCC since 1995.

JULIE DOWNING

Professor of Health and Human Performance

B.S. in Corporate and Community Fitness, 1989, North Dakota State University; M.S. in Exercise Physiology, 1991, St. Cloud State University; Ph.D. in Human Performance, 2002, Oregon State University. At COCC since 1991.

MARK W. EBERLE**Professor of Biological Sciences**

B.A. in Bacteriology, 1972, University of California, Davis; Ph.D. in Entomology, 1981, University of California, Davis. At COCC since 1988.

JAMES H. ELLIS**Associate Professor of Accounting/General Business**

B.S. in Behavioral Science, 1976, Westminster College; A.A. in Accounting, 1982, Salt Lake City Community College; B.S. in Accounting, 1984, and M.B.A. in Business, 1997, Westminster College; M.S. in International Business, 2004, Southern New Hampshire University. At COCC since 2006.

BRUCE L. EMERSON**Professor of Physics**

B.S. in Physics, 1979, Montana State University; Ph.D. in Physics, University of Utah, 1992. At COCC since 1992.

THOR ERICKSON**Temporary Instructor of Culinary**

A.A. in Hospitality Management, 1990, Columbia Community College. At COCC since 2011.

JOSHUA EVANS**Assistant Professor II of Spanish (Humanities)**

B.A. in International Studies, 2002, Bowling Green State University; M.A. in Spanish, 2004, Bowling Green State University. At COCC since 2010.

CATHERINE L. FINNEY**Professor, Associate College Librarian, Collections and Acquisitions**

B.A. in English, 1983, Carleton College; M.L.S. in Library Science, 1988, University of Washington. At COCC since 1992.

REBECCA FRANKLIN**Temporary Instructor of Forest Resources Technology**

B.S. in Forestry, 2003, Humboldt State University; Ph.D. in Geosciences, 2012, University of Arizona. At COCC since 2013.

THERESA FREIHOEFER**Assistant Professor II of Business**

B.A. in Business Economics, 1983, UCLA; M.B.A., 1987, Pepperdine University. At COCC since 2007.

SARAH FULLER**Assistant Professor I of Biology**

A.A. in Math/Science, 1988, Bryn Athyn College; B.S. in Botany, 1992, University of Maryland; M.S. in Ecology, Evolution, and Behavior, 1998, University of Minnesota. At COCC since 2011.

MICHAEL C. GESME**Professor of Music**

B.A. in Music, 1992, Luther College; M.M. in Orchestral Conducting, 1994, University of Missouri-Columbia; M.A. in Music History, 1996, University of Missouri-Columbia. At COCC since 1996.

JESSICA GIGLIO**Assistant Professor I of Mathematics**

B.A. in Mathematics, 2003, Lake Forest College; M.S. in Mathematics, 2005, Oregon State University. At COCC since 2013.

MURRAY GODFREY**Assistant Professor I of History**

A.A.S. in Intelligence Operations, 2004, Cochise College; B.A. in History, 2007, Texas State University; M.A. in History, 2010, Texas State University. At COCC since 2012.

KEVIN D. GROVE**Assistant Professor II of Physical Science/Physics**

B.S. in Civil Engineering, 1997, Montana State University; M.S. in Chemical Engineering, 1999, Montana State University. At COCC since 2005.

ANNEMARIE HAMLIN**Assistant Professor II of English**

B.A. in English and French, 1988, Pacific Union College; M.A. in English, 1991, Claremont Graduate School; Ph.D. in English, Claremont Graduate School, 1998. At COCC since 2010.

AMY E. HARPER**Associate Professor of Anthropology**

B.A. in Anthropology and Germanic Languages and Literature, 1992, University of Montana; M.A. in Anthropology, 1995, University of Massachusetts; Ph.D. in Anthropology, 2002, University of Massachusetts. At COCC since 2002.

CARSON E. HAURY**Professor of Computer and Information Systems**

B.A. in Biology, 1975, State University of New York; M.S. in Information Systems, 1988, Naval Postgraduate School. At COCC since 1998.

M. SCOTT HAYS**Associate Professor of Business Administration**

A.A. in Business Administration, 1982, Bakersfield Community College; B.S. in Business Administration/Accounting, 1984, California State University, Chico; M.B.A., 1995, California State University, Bakersfield; Ph.D. in Education, 2005, University of Idaho. At COCC since 2002.

FRANZ HELFENSTEIN**Professor of Mathematics**

B.S. in Mathematics, 1979, Colorado State University; M.S. in Mathematics, 1982, Oregon State University; Ph.D. in Applied Mathematics, 1986, Oregon State University. At COCC since 1990.

SARA HENSON**Assistant Professor I, Program Coordinator of Human Development**

B.A. in Asian & International Studies, 1993, University of Oregon; M.Ed. in Higher Education & Student Affairs Administration, 1998, University of Vermont. At COCC since 2011.

CAROL HIGGINBOTHAM**Professor of Chemistry**

B.A. in Chemistry, 1992, Central College; Ph.D. in Biochemistry, 1996, Montana State University. At COCC since 1999.

JULIE F. HOOD GONSALVES**Associate Professor of Human Biology**

B.S. in Human Nutrition, 1979, Oregon State University; Licensed Dietitian, 1990, Oregon State Board of Licensed Dietitians; Registered Dietitian, 1983, American Dietetic Association; M.S. in Nutrition, 1983, Oregon State University; Ed.D., 2009, Lewis and Clark College. At COCC since 1988.

WILLIAM HOPPE**Professor of Art**

B.A. in Art, 1967, St. John's University; M.F.A., Art/Painting, 1973, University of Washington. At COCC since 2000.

TINA HOVEKAMP**Professor, Associate College Librarian, Information and Access Services**

B.A. in English, 1985, Aristotelian University, Greece; M.L.S. in Library Science, 1986, Kent State University; Ph.D. in Library Science, 1993, University of North Carolina-Chapel Hill. At COCC since 1997.

AMY VAN DUSEN HOWELL**Associate Professor of Education/Early Childhood Education**

B.A. in Psychology, 1997, Willamette University; Ph.D. in Educational Psychological Studies, 2007, University of Colorado. At COCC since 2004.

KAREN HUCK**Professor of Speech**

B.A. in Journalism, 1976, Idaho State University; M.A. in Speech/Theatre, 1984, Idaho State University; Ph.D. in Communication, 1993, University of Utah. At COCC since 1988.

CHARLES R. HUTCHINGS**Associate Professor of Spanish**

B.A. in Spanish, 1986, California State University, Stanislaus; M.A. in Spanish, 1991, California State University, Fresno. At COCC since 1992.

BEVERLEE R. JACKSON**Associate Professor of Health Information Technology/Program Director**

A.S. in Medical Record Technology, 1980, Central Oregon Community College; B.A. in Interpersonal Communications, 1986, Marylhurst College. At COCC from 1990-94 and since 2002.

EDWARD W. JOHNSON**Professor of Human Biology**

B.S. in Biology, 1974, City College of New York; M.S. in Zoology, 1981, University of Vermont; Ph.D. in Anatomy and Neurobiology, 1988, Colorado State University. At COCC since 2002.

JULIE A. KEENER**Professor of Mathematics**

B.S. in Elementary Education, 1979, Oregon College of Education, now Western Oregon State College; M.S.T. in Mathematics, 1990, Portland State University. At COCC since 1990.

MARA KERR**Assistant Professor I of Nursing**

A.A.S. in Nursing, 1981, Columbia Basin College; B.S. in Nursing, 1996, University of Portland; M.S. in Nursing, 2003, University of Portland. At COCC since 2011.

AIMEE KIRKENDOL**Assistant Professor I of Nursing**

Practical Nursing Certificate, 1994, Tennessee Technology Center; A.S. in Nursing, 2003, Excelsior College; B.S. in Nursing, 2007, University of Tennessee; M.S. in Nursing and Family Nurse Practitioner, 2009, University of Alabama; D.N.P. In Family Medicine, 2011, University of Alabama. At COCC since 2011.

JAMES W. KNOX**Assistant Professor II of Music**

B.S. in Music, 2000, Portland State University; M.M. in Choral Conducting, 2003, Portland State University. At COCC since 2003.

JAMES L. KRESS**Professor of Business**

B.B.A. in Business, 1976, University of Oregon; M.B.A. in Business Administration, 1993, Portland State University. At COCC since 1988.

TERRY KRUEGER**Professor of English**

B.A. in English, 1976, University of Montana; M.F.A. in English, 1981, University of Iowa; Ph.D. in English, 1987, University of Iowa. At COCC since 1990.

JASON LAMB**Assistant Professor I of Art History**

B.F.A. in Painting, 2006, University of Illinois, Urbana-Champaign; B.F.A. in Art History, 2006, University of Illinois, Urbana-Champaign; M.A. in Art History, 2010, Northern Illinois University. At COCC since 2013.

DAWN LANE**Assistant Professor I of Nursing, Program Director CNA**

A.D. in Nursing, 1980, White Bear Lake Community College; B.S. in Nursing, 2005, Oregon Health Sciences University; M.S. in Nursing, 2009, Gonzaga University. At COCC since 2011.

JOHN LICCARDO**Assistant Professor II of Health and Human Performance**

B.S. in Exercise Physiology and Anthropology, 1995, University of Utah; M.S. in Exercise Physiology and Anthropology, 1998, University of Utah. At COCC since 2012.

LILLI ANN LINFORD-FOREMAN**Professor of Speech/Theatre**

A.B. in Drama, 1982, Stanford University; M.F.A. in Theatre, 1987, Pennsylvania State University. At COCC since 1987.

DAVID H. LIU**Associate Professor of Mathematics**

B.A. in Chinese Language and Literature, 1984, Beijing Normal University; M.A. in Teaching, 1991, Pacific University. At COCC since 2006.

ERIC MAGIDSON**Assistant Professor II of Computer Information Systems**

A.A.S. in Computer and Information Systems, 2002, Central Oregon Community College; B.S. in Information Technology, 2004, Oregon Institute of Technology. At COCC since 2008.

DEBORAH MALONE**Assistant Professor I of Medical Assisting/Program Director**

B.S. in Nursing, 1981, University of Washington; M.S. in Women's Health Care Nurse Practitioner, 1988, Oregon Health & Science University. At COCC since 2009.

ROBIN MARTINEZ**Associate Professor of Spanish**

B.A. in Spanish, 1996, Colorado State University; M.A. in Spanish, 1998, Colorado State University. At COCC since 2004.

KENNETH W. MAYS**Professor of Automotive Technology**

A.S. in Automotive Technology, 1977, Southwestern College. At COCC since 1990.

KATHLEEN M. McCABE**Associate Professor of Criminal Justice**

B.A. in Criminal Justice, 1980, Michigan State University; M.A. in Guidance and Counseling, 1987, Oakland University. At COCC since 2004.

MICHAEL McCANN**Assistant Professor I of Geography**

B.A. in Foreign Language, 1980, Berry College; M.A. in Geography, 1990, Georgia State University. At COCC since 2007.

BRET L. MICHALSKI**Professor of Forest Resource Technology**

B.S. in Wildlife Management, 1988, Humboldt State University; M.S. in Wildlife Science, 1994, Oregon State University. At COCC since 1994.

JAMES D. MOODIE**Professor of General Biology**

B.S. in Biology, 1980, Saint John's University; M.S. in Zoology, 1983, University of Idaho; Ph.D. in Zoology, 1999, University of Oklahoma, Norman. At COCC since 2001.

ANDREA MORGAN**Temporary Instructor of Early Childhood Education**

B.A. in Economics, 1996, Oregon State University; M.A. in Teachers Education, 2001, Eastern Oregon University. At COCC since 2012.

JANE MORROW**Associate Professor of Nursing**

B.A. in Nursing, 1983, Augustana College; M.N. and F.N.P., 2001, Washington State University. At COCC since 2003.

OWEN MURPHY**Assistant Professor I of Health & Human Performance**

B.S. in Exercise Physiology, 1997, California State University, Chico; M.S. in Health & Human Development, 2001, Montana State University, Bozeman. At COCC since 2011.

LYNN L. MURRAY**Associate Professor of Dental Assisting**

Registered Dental Assistant License, Radiation Certification, Certified Dental Assistant, Expanded Functions Dental Assistant. At COCC since 1997.

CHARLES T. NAFFZIGER**Professor of Mathematics**

B.S. in Mathematics Education, 1987, University of Oregon; M.S. in Mathematics, 1991, University of Arizona. At COCC since 1995.

DOUGLAS D. NELSON**Professor of Mathematics**

B.S. in Wood Science and Technology, 1983, Colorado State University; M.S. in Pure Mathematics, 1990, Northern Arizona University. At COCC since 1998.

MATTHEW NOVAK**Assistant Professor I of Psychology**

B.S. in Psychology, 1993, University of Washington; Ph.D. in Developmental Psychology, 2002, University of Washington. At COCC since 2011.

SANDOR D. (SEAN) PALAGYI**Professor of Computer Aided Drafting and Design**

Coursework in Drafting Technology and GIS., 1997, Central Oregon Community College; B.S. in Political Science, 1988, University of Oregon. At COCC since 1998.

PAUL PELLY**Assistant Professor I of Automotive Technology**

A.S. in Automotive Technology, Portland Community College, 1980. At COCC since 2008.

MARGARET A. PETERSON**Professor of Allied Health/Health and Human Performance**

B.A. in Anthropology, 1977, University of North Dakota; M.S. in Physical Education, 1979, University of North Dakota; Ed.D in Higher Education Administration, 1988, Montana State University. At COCC since 1988.

TIM PETERSON**Assistant Professor II of Outdoor Leadership/Health and Human Performance**

B.A. in History, 1993, Bucknell University; Outdoor Leadership Certificate, 1998, Greenfield Community College. At COCC since 2008.

RALPH R. PHILLIPS**Associate Professor of Computer and Information Systems**

B.A. in Finance, 1995, and M.A. in Business/Office Education, 1999, University of South Florida. At COCC since 2005.

REBECCA J. PLASSMANN**Professor of Mathematics**

A.B. in Mathematics, 1983, Bryn Mawr College; M.A. in Mathematics, 1988, Bryn Mawr College; M.A. in Education in Mathematics Science and Technology, 1992, University of California at Berkeley. At COCC since 1995.

FLEUR PRADE**Assistant Professor I of French**

B.A. in French Studies and Italian Studies, 2001, University of Delaware; M.A. in French, 2002, Middlebury College. At COCC since 2013.

DONNA RAYMOND**Assistant Professor II of Mathematics**

B.S. in Economics and Math, 1990, University of Hartford; M.S. in Statistics, 1991, University of Cambridge; M.A. in Statistics, 1996, University of New Mexico. At COCC since 2006.

TINA REDD**Associate Professor of English**

B.S. in Communications (Drama), 1990, University of Missouri; M.A. in English Literature and Composition, 1993, Southern Illinois University; Ph.D. in Theatre History and Criticism, 1996, University of Washington. At COCC since 2008.

ROBERT W. REYNOLDS**Professor of Geology**

B.S. in Geology, 1973, Penn State University; M.S. in Geology, 1991, University of Idaho; Ph.D. in Geology, 1994, University of Idaho. At COCC since 1994.

CHRISTIE RUBIO**Assistant Professor II of Composition**

B.A. in Journalism, 1984, California State University; M.A. in English, 1988, California State University. At COCC since 2009.

KEN RUETTIGERS**Temporary Instructor of Sociology**

B.S. in Business Administration, 1985, University of Southern California; M.B.A., 1995, California State Bakersfield; D.Phil., 2007, Oxford Graduate School. At COCC since 2011.

SEAN RULE**Associate Professor of Mathematics**

B.A. in Mathematics Education, 1996, University of Delaware; M.Ed. in Mathematics Education, 2001, University of Delaware. At COCC since 2004.

JESSICA RUSSELL**Assistant Professor I, Outdoor Leadership**

B.S. in Therapeutic Recreation, 1998, Middle Tennessee University; M.A. in Environmental Studies, 2010, Prescott College. At COCC since 2011.

TONY RUSSELL**Assistant Professor II of English**

A.A. in French, 2000, Ricks College; A.A. in English, 2000, Ricks College; B.A. in English, 2002, Northern Kentucky University; M.A. in English, 2005, Purdue University; Ph.D. in English, 2010, Purdue University. At COCC since 2010.

DENNIS SIMENSON**Temporary Instructor of Manufacturing Technology**

A.A.S. in Manufacturing Processes Technology, 1991, Central Oregon Community College. At COCC since 1996.

KIRI A. SIMNING**Professor of Nursing**

B.S. in Nursing, 1983, University of North Carolina, Chapel Hill; M.S. in Nursing, 1990, Loma Linda University. At COCC since 1998.

PAULA A. SIMONE**Temporary Instructor of Wildland Fire Science**

A.A., 1998, Central Oregon Community College; B.S. in General Science, 2000, University of Oregon. At COCC since 1999.

KATHY SMITH**Associate Professor of Mathematics**

B.A.S. in Mathematics and Philosophy, 1994, University of California, Davis; M.S. in Mathematics, 1997, Oregon State University; Ph.D. in Mathematics, 2000, Oregon State University. At COCC since 2001.

ERIC A. SPIETH**Assistant Professor I of General Business**

B.A., in Art, 2004, California State University Channel Islands; M.B.A. in General Business Management, 2005, Humboldt State University. At COCC since 2011.

ELEANOR SUMPTER-LATHAM**Professor of Developmental Writing and Composition**

B.A. in English, 1975, University of British Columbia; M.A. in English, 1978, University of British Columbia; M.A. in English, 1985, University of Victoria; Ph.D. in English, 1993, University of Washington. At COCC since 1994.

KEN SWARTWOUT**Assistant Professor I of Computer & Information Systems**

B.S. in Computer & Information Science, 2003, University of Oregon; M.E., 2008, University of Oregon. At COCC since 2011.

JOYCE THOMPSON**Assistant Professor I of Health Information Technology**

B.S. in Health Information Management, 1996, East Central University; M.S. in Human Resources, 2005, East Central University. At COCC since 2011.

DANA TOPLIFF**Assistant Professor II of Nursing**

A.D.N. in Nursing, 1983, Contra Costa College; B.S.N. in Nursing, 1992, California State University; M.P.A. in Nursing, 2001, California State University. At COCC since 2006.

FORREST TOWNE**Assistant Professor I of Chemistry**

B.S. in Chemistry, 2002, George Fox University; Ph.D., in Chemistry, 2009, University of Montana. At COCC since 2012.

MARGARET TRIPLETT**Associate Professor of Reading**

B.S. in English, 1971, Iowa State University; M.A. in English, 1976, Iowa State University; M.A. in Education (Reading), 1992, California State University. At COCC since 1993.

MONICA VINES**Associate Professor of Human Development and Program Director, Addictions Studies**

B.S. in Psychology, 1995, Washington State University; M.A. in Counseling Psychology, 1997, John F. Kennedy University. At COCC since 2004.

RICKY VIRK**Professor of Health and Human Performance**

B.A. in Biology, 1989, University of Texas at Austin; M.S. in Nutrition Science, 1992, Oregon State University; Ph.D. in Nutrition Science, 1994, Oregon State University. At COCC since 2001.

REBECCA L. WALKER-SANDS**Professor of Psychology**

B.S. in Psychology, 1977, Southern Oregon State College; M.A. in Experimental Psychology, 1982, University of Nevada, Reno; Ph.D. in Psychology, 1995, University of North Carolina at Greensboro. At COCC since 1995.

SIOBHAN WATSON**Temporary Learning Resource Center Coordinator of Nursing**

B.A. in Geography, 1986, University of Liverpool; M.A. in Geography, 1988, Indiana University; B.S. in Nursing, 1993, State University of New York at Stony Brook. At COCC since 2011.

MALINDA M. WILLIAMS**Assistant Professor I of Writing**

B.A. in English and Biblical Studies, 1997, Hope International University; M.A. in English, 2001, California State University, Chico; Ph.D. in English, 2001, University of Denver. At COCC since 2013.

ANDRIA J. WOODELL**Associate Professor of Psychology**

B.A. in Psychology, 1999, University of Arkansas; M.A. in Experimental Psychology, 2002, University of Arkansas; Ph.D. in Experimental Psychology, 2004, University of Arkansas. At COCC since 2004.

WAYNE YEATMAN**Assistant Professor I, Culinary Arts, Chef Instructor**

A.S. in culinary arts, 1988, Newbury College; B.S. in Hotel Restaurant Management, 1994, University of Massachusetts; M.B.A. in Business Administration, 2001, Southwest Texas State University. At COCC since 2012.

ZELDA ZIEGLER**Associate Professor of Chemistry**

B.S. in Chemistry, 1981, Idaho State University; Ph.D. in Analytical Chemistry, 1989, Purdue University. At COCC since 2002.

FACULTY ACHIEVEMENT AWARD RECIPIENTS

The Faculty Achievement Award recognizes excellence in teaching. It is awarded each year at the College's faculty convocation ceremony. Those who have been honored are:

1986 Bruce Nolf, Professor of Geology
 1987 Jack R. McCown Jr., Professor of Mathematics
 1988 C. Wayne Eshelman, Professor of Biological Sciences
 1989 Millie MacKenzie, Professor of Office Administration
 1990 Raymond R. Hatton, Professor of Geography
 1991 Michael A. Sequeira, Associate Professor of Mathematics
 1992 Ellen M. Howe, Associate Professor of Nursing
 1993 Darla J. Quesnell, Professor of Psychology
 1994 Bruce W. McClelland, Professor of Chemistry
 1995 E. Robert Powell, Professor of Physical Science and Chemistry
 1996 Diana Glenn, Associate Professor of Office Administration
 1997 Cora Agatucci, Associate Professor of English
 1998 Mark E. Eberle, Associate Professor of Biological Sciences
 1999 Patricia O'Neill, Associate Professor of History
 2000 Bruce L. Emerson, Associate Professor of Physics
 2001 Terry Krueger, Professor of English
 2002 Gloria Ahern, Professor of Health Information Technology
 2003 Julie A. Keener, Professor of Mathematics
 2004 Rebecca L. Walker-Sands, Associate Professor of Psychology
 2005 Charles T. Naffziger, Associate Professor of Mathematics
 2006 Michael C. Gesme, Associate Professor of Music
 2007 Robert W. Reynolds, Professor of Geology
 2008 Stacey L. Donohue, Professor of English
 2009 Karen Huck, Professor of Speech
 2010 Julie F. Downing, Professor of Health and Human Performance
 2011 Julie F. Hood, Associate Professor of Human Biology
 2012 Kathleen M. McCabe, Associate Professor of Criminal Justice
 2013 Deborah S. Davies, Professor of Dental Assisting

RETURNING ADJUNCT FACULTY

BEVERLY ADLER

Adjunct Instructor Faculty Librarian

MIKE ARTUS

Adjunct Instructor of Fine Arts

MOLLY CASAD

Adjunct Instructor of Nursing

CARL CAVALLO

Adjunct Instructor of Automotive

AMBER CLARK

Adjunct Instructor of License Massage Therapy

JACQUE COE

Adjunct Instructor of Mathematics

JEFF CORNETT

Adjunct Instructor of Human Anatomy & Physiology/Medical Ethics

KAREN ELLIS

Adjunct Instructor of Fine Arts

CAROLYN ESKY

Adjunct Instructor of Human Development, Study Strategies

LANCELOT FALCON

Adjunct Instructor of Human Development

KATHERINE FRAZER

Adjunct Instructor for Writing

SARAH GALLUP

Adjunct Instructor for Writing

BRYAN GRISET
Adjunct Instructor of Computer Information Systems

LAURA HAGEN
Adjunct Instructor of Culinary

PATRICIA HAMMER
Adjunct Instructor of Math

JIM HAWES
Adjunct Instructor of Writing

DEBBIE HAYNES
Adjunct Instructor of Health and Human Performance

BECKY HEINRICK
Adjunct Instructor of Health and Human Performance

ANNA HIGGINS
Adjunct Instructor of Social Science, Early Childhood Education

CATHERINE HORINEK
Adjunct Instructor of Nursing

BRENDA HOWE
Adjunct Instructor of Nursing

JULIA HUNI
Adjunct Instructor of Computer Information Systems

JENNIFER HUTCHISON
Adjunct Instructor of Math

YASUKO JACKSON
Adjunct Instructor of Computer Information Systems

GARY KELLY
Adjunct Instructor of Computer Information Systems

AMANDA LAYTON
Adjunct Instructor of Biology

DOROTHY LEMAN
Adjunct Instructor of Writing

PETER MEYER
Adjunct Instructor of Art

DANIEL MONTOYA
Adjunct Instructor of Health and Human Performance

JAMES MORIN
Adjunct Instructor of Chinese

MAREN NELSON
Adjunct Instructor of Nursing

ALAN NUNES
Adjunct Instructor of Allied Health / LMT

MAEVE PERLE
Adjunct Instructor of Business

JILL PLATTNER
Adjunct Instructor of Math

LEANN ROWLEY
Adjunct Instructor of Writing

JULIE SCHMIDT
Adjunct Instructor of Math

DAN SHEAHAN
Adjunct Instructor of Psychology

KELLYN SMYTHE
Adjunct Instructor of Mathematics

JIM STEDMAN
Adjunct Instructor of Writing

JENNY STOLLENWERK
Adjunct Instructor of Nursing

GREGG TERHAAR
Adjunct Instructor of Health and Human Performance

MICHAEL THILLE
Adjunct Instructor of Biology and LMT

HEATHER VANDIEST KOLB
Adjunct Instructor of Criminal Justice

NIKKI WAFFORD
Adjunct Instructor of Nursing

DAN WALKER
Adjunct Instructor of Emergency Medical Services

MICHAEL WALLER
Adjunct Instructor of Anthropology

AMY WHEARY
Adjunct Instructor of Nursing

JANE YOUNGS
Adjunct Instructor of Nursing

TEACHING AWARD FOR PART-TIME AND ADJUNCT FACULTY

Central Oregon Community College recognizes excellence in teaching. The teaching award for part-time and adjunct faculty is presented each year to an outstanding member of the College's part-time and adjunct faculty. Those who have been honored are:

2010 Carolyn Esky, Adjunct Instructor of Human Development
2011 Peter Meyer, Adjunct Instructor of Art
2012 Patricia Hammer, Adjunct Instructor of Math
2013 Carl Cavallo, Adjunct Instructor of Automotive

ADULT BASIC SKILLS INSTRUCTORS

S. BLAIR BRAWLEY
A.A. in Language Arts, 1973, Mitchell College; B.A. in English, 1975, University of North Carolina, Charlotte; M.Ed. in Adult Education, 2003, Oregon State University. At COCC since 2003.

CARRIE GIBSON
B.A. in Spanish, 1994, Utah State University; M.A. in Teaching, 2012, St. Martin's University. At COCC since 2013.

JANET HUDDLESTON
B.A. in Education, 1973, Central Washington University. At COCC from 1987-1989 and since 1990.

KAREN LEEP
B.A. in Secondary Education, 1975, Western Oregon State College. At COCC since 1995.

MELISSA POTTER
B.S. in Liberal Studies, 1993, Eastern Oregon University; M.Ed. in Adult Education, 1996, Oregon State University. At COCC 1986-1987 and since 1991.

AMY STINARD
B.S. in Business/Marketing, 1996, Ball State University. At COCC since 1997.

FACULTY EMERITUS

GLORIA AHERN, R.R.A.

Professor of Health Information Technology

B.A. in Medical Record Administration, 1969, Carroll College; Certificate in Medical Record Science, 1969, Providence Hospital, Seattle; AHIMA registration, 1969. At COCC from 1980 to 2002.

ROBERT BROOKOVER

Professor of Business Equipment Service Technology

B.A. in Industrial Arts, 1970, San Francisco State University; M.Ed. in Vocational Education, 1979, Oregon State University. At COCC from 1972 to 1997.

BILL BUCK

Professor of English

B.A. in English, 1984, California State University at Fullerton; M.A. in English, 1985, California State University at Fullerton; Ph.D. in English Literature, 1990, University of California, Riverside. At COCC from 1989 to 2004.

BOB COOPER

Professor of Forestry

B.S. in Forest Management, 1966, Oregon State University; M.F.R. in Forestry, 1971, University of Washington. At COCC from 1986 to 1998.

FORREST M. DANIEL

Professor of Music

B.A. in Music, 1960, Adams State College; M.A. in Music, 1961, Adams State College. At COCC from 1978 to 1995.

DANIEL EARLY

Professor of Anthropology and Sociology

A.A., 1964, San Francisco City College; B.A. in Anthropology and Sociology, 1966, University of California, Berkeley; M.A. in Anthropology and Sociology, 1970, Catholic University; Ph.D. in Anthropology, 1978, Catholic University. At COCC from 1978 to 2002.

J. ALLEN EHL

Associate Professor of Automotive Technology

B.Ed in Trade and Industrial Education, 1962, Colorado State University; M.Ed in Administration and Supervision of Vocational Education, 1966, Colorado State University; General Motors S.E.T. Certification. At COCC from 1969 to 1990.

C. WAYNE ESHELMAN

Professor of Biological Sciences

B.S. in Biology, 1956, College of Idaho; M.A. in Zoology, 1962, University of South Dakota. At COCC from 1965 to 1994.

DONALD L. GALLAGHER

Professor of Mathematics

B.S. in Secondary Education, 1961, Northern Montana; M.A.T. in Mathematics, 1965, University of Montana. At COCC from 1969 to 1994.

ROGER D. GILDERSLEEVE

Professor of Physical Education

B.S. in Biology, 1957, Albion College; M.A. in Education and Psychology, 1959, Western State College, Colorado. At COCC from 1969 to 1991.

RAYMOND R. HATTON

Professor of Geography

B.S. in Education, 1961, University of Idaho; M.Ed. in Secondary Education, 1966, University of Idaho; M.A. in Geography, 1969, University of Oregon; Ph.D. in Geography, 1989, University of Oregon. At COCC from 1969 to 1993.

CHARLES R. HEIDEN

Professor of Music

B.M., Northwestern University, 1952; M.F.A., 1956, Ohio University; D.M., Northwestern University. At COCC from 1981 to 1994.

DUANE HOUGHT

Associate Professor of Business and Accounting

B.S. in Business Administration, 1968, University of Nevada; M.S. in Business Education, 1985, Oregon State University. At COCC from 1979 to 2002.

ELLEN M. HOWE

Associate Professor of Nursing

B.S. in Nursing, 1965, Mount Marty College for Women; M.S. in Nursing, 1985, University of Portland. At COCC from 1981 to 2002.

MARJORIE HOYE

Professor of Composition and Technical Writing

B.S. in English Education, 1976, West Chester State University; M.A. in Teaching English as a Second Language, 1982, San Francisco State University; Ph.D. in Applied Linguistics, 1988, University of Texas at Austin. At COCC from 1991 to 2013.

RODNEY A. KOHLER

Professor of Mathematics

B.S. in Math, Science Education, 1962, Eastern Oregon College; M.S. in Mathematics, 1966, University of Oregon. At COCC from 1966 to 1998.

SARA L. KREMPEL

Professor of Art

B.A. in Art and Philosophy, 1974, University of Wisconsin; B.F.A. in Art, 1980, University of Wisconsin; M.F.A. in Art, 1985, University of Wisconsin. At COCC from 1990 to 2011.

LOWELL H. LAMBERTON

Professor of Business

B.A. in English, 1966, Walla Walla College; M.A. in English, 1968, University of Nebraska; M.B.A. in Business Management, 1977; Advanced Professional Certificate in Management, 1987, Suffolk University. At COCC from 1981 to 2011.

GREGORY T. LYONS

Professor of English

B.A. in English, 1972, Rice University; M.A. in English and American Literature, 1976, University of Washington; Ph.D. in Rhetoric and Composition, 1988, The University of Texas at Austin. At COCC from 1991 to 2011.

MILLIE MACKENZIE

Professor of Business

B.S. in Finance and Business Environment, 1965, University of Oregon; M.S., Personnel and Industrial Management, 1968, University of Oregon; Certified Professional Secretary, 1982. At COCC from 1978 to 1999.

BRUCE W. MCCLELLAND

Professor of Chemistry

B.S. in Chemistry, 1966, University of California, Berkeley; Ph.D. in Chemistry, 1971, Oregon State University. At COCC from 1974 to 2003.

JACK R. McCOWN, JR.

Professor of Mathematics

B.S. in Math Education, 1970, Eastern Oregon College; M.S. in Mathematics, 1972, Idaho State University. At COCC from 1976 to 2004.

RICHARD NIEDERHOF

Professor of Forestry

B.S. in Forest Management, 1967, Clemson University; M.S. in Forestry and Industrial Management, 1969, Clemson University. At COCC from 1972 to 1999.

BRUCE NOLF

Professor of Geology

B.A. in Geology, 1954, University of Iowa; M.S. in Geology, 1955, California Institute of Technology; Ph.D. in Geology, 1966, Princeton University. At COCC from 1966 to 1993.

LORETTA NOLL

Professor of Nursing

B.S.N., Nursing, 1972, Southern Illinois University; M.S.N., Nursing, 1976, Texas Women's University. At COCC from 1978 to 1999.

STEVE O'BRIEN**Professor/Counselor**

B.A. in Philosophy and Government, 1970, Boston University; M.S. in Counseling/ Recreation/Community Education, 1975, University of Oregon. At COCC from 1977 to 2003.

PATRICIA O'NEILL**Professor of History**

B.A. in European History, 1972, University of Pennsylvania; M.A. in Asian History, 1975, State University of New York at Buffalo; Ph.D. in History, 1995, University of Washington. At COCC from 1985 to 2013.

E. ROBERT POWELL**Professor of Physical Science and Chemistry**

A.A., 1959, Central Oregon Community College; B.S. in General Science, 1961, Oregon State University; M.S. in Natural Science, 1965, New Mexico, Highlands. At COCC from 1967 to 1999.

DARLA J. QUESNELL**Professor of Psychology**

B.A. in Psychology, 1965, University of California, Berkeley; Ph.D. in Psychology, 1978, University of California, Berkeley. At COCC from 1975 to 1995.

MICHAEL A. SEQUEIRA**Professor of Mathematics**

B.S. in Mathematics, 1968, Stanford University; M.S. in Mathematics, 1969, Northwestern University. At COCC from 1982 to 2004.

VIRGINIA M. SHRAUGER**Professor of Reading and Study Skills**

B.S. in Education, 1954, University of Nebraska; M.Ed in Reading, 1969, University of Arizona. At COCC from 1970 to 1988.

DOUGLAS CAMPBELL SMITH**Professor of Art**

B.A. in Art, 1962, California State University, San Jose; M.A. in Art, 1967, California State University, San Jose. At COCC from 1973 to 1995.

WILLIAM P. SMITH**Professor of Machine Shop**

A.A., 1987, Fullerton College; A.S., Industrial Technology, 1989, COCC; CMfgE. At COCC from 1984 to 2003.

GENE TAYLOR**Professor of Computer and Information Systems**

B.S. in Business Administration, 1979, Portland State University; M.S.T. in Education, 1986, Portland State University. At COCC from 1984 to 2003.

TOM TEMPLE**Associate Professor of Art**

B.S. in Art Education, 1962, University of Oregon; M.S. in Art Education, 1963, University of Oregon. At COCC from 1971 to 1990.

R. LYNELLE THOMAS**Associate Professor of Health and Physical Education**

B.S., 1950, Abilene Christian College; M.S. in Health, P.E. and Recreation, 1954, North Texas University. At COCC from 1970 to 1994.

H. WARD TONSFELD**Professor of English**

B.A. in English, 1964, Portland State College; M.A. in English and Comparative Literature, 1966, Occidental College; Ph.D. in Comparative Literature, 1975, University of California, San Diego. At COCC from 1975 to 2001.

BERN WISNER**Professor of Business**

B.A. in Economics, 1956, Duke University; M.B.A., 1975, California State University, Dominguez Hills. At COCC from 1982 to 2002.

JEROME J. YAHNA**Professor of Music**

Ph.B. in Music, 1959, University of North Dakota; M.A. in Music, 1964, University of Northern Colorado. At COCC from 1970 to 1993.

NANCY L. ZENS**Professor of History**

B.A. in American History, 1983, Washington State University; M.A. in American History, 1984, Washington State University; Ph.D. in History, 1988, Washington State University. At COCC from 1989 to 2011.

ADMINISTRATION**KALEA ALLEN****Career Coach**

B.A. in Social Science, 2003, California State University; M.A. in Social Science, 2008, California State University. At COCC since 2013.

SHARLA ANDRESEN**Director of Contracts and Risk Management**

B.S. in Business, 1988, Lewis and Clark College; M.B.A., 2004, Marylhurst University. At COCC since 1991.

JOHN ARMOUR**Curriculum and Workforce Data Coordinator**

B.A. in Political Science, 1988, Washington State University; M.A. in Human Relations, 1998, University of Oklahoma; Masters in Military Operational Art and Sciences, 2003, Air University. At COCC since 2012.

KAREN AYLWARD**Nancy R. Chandler Visiting Scholar Program Coordinator**

A.B., 1987, Stanford University; M.A.L.D., 1989, Fletcher School of Law and Diplomacy. At COCC since 2005.

SEANA BARRY**Assistant Director of Admissions and Records**

B.A. in Communication Studies, 1990, University of Kansas. At COCC since 2008.

TUCKER BAUMAN**Welding Program Coordinator, DRCI**

At COCC since 2008.

SHARON BELLUSCI**Student Services Technology Coordinator**

B.S. in Computer Science/Mathematics, 1987, University of Puget Sound. At COCC since 2010.

MIKE BEAULIEU**Campus Services Operations Supervisor**

B.S. in Outdoor Recreational Management, 1979, Utah State University. At COCC since 2013.

JAMES BENNETT**Security Coordinator**

A.A. in Business Administration, 1991, College of San Mateo. At COCC since 2010.

PAMELA BEYER**Financial Aid Technical Specialist**

B.S. In Forest Biology, 1979, Colorado State University. At COCC from 1998 to 2001 and since 2005.

LISA BLOYER**Accounting Director**

B.S. in Business, 1983, Portland State University; M.P.A. 2003, Portland State University. At COCC since 1996.

MICHAEL BOWLING**Institutional Systems Analyst**

B.S. in Computer Information Systems, 1992, Athens State College. At COCC since 2007.

LAURA BOEHME**Assistant IT Director/Infrastructure Manager**

B.A. in Spanish Translation, 1990, Brigham Young University; B.A., in International Relations, 1990, Brigham Young University; Ed.M in Adult Education, 2004, Oregon State University. At COCC since 2010.

AARON BOONE**ITS Systems Administrator**

A.S. in Information Systems, 2001, Central Oregon Community College. At COCC since 2013.

RICHARD BRECKE**Construction Project Manager**

B.S. in Construction Engineering Management, 2003, Oregon State University. At COCC since 2010.

TANYA BRUCE**Grant Coordinator**

B.A. in Political Science, 1995, Lewis and Clark College; M.A. in Liberal Studies, 2000, Hollins University. At COCC since 2012.

PATRICIA CAGNEY**Academic Advisor, Allied Health**

B.S.N. in Nursing, 1978, University of Arizona; M.D., 1987, University of Southern California. At COCC since 2006.

DIANNE CAPOZZOLA**Assistant Director of Human Resources**

B.A. In Sociology and English, 1987, University of Oregon; M.A. in Human Resources and Industrial Relations, 1996, University of Oregon. At COCC since 2012.

DANIEL CECCHINI**Director of Information Technology**

B.A. in Computer Science, B.S. in Biology, 1978; M.B.S. in Science, 1995, University of Colorado; M.B.A. in Business Administration, 2001, Regis University. At COCC since 2006.

WILLAN CERVANTES**Latino College Preparation Program Coordinator**

B.S. in General Science, 1996, Oregon State University; M.A. in Philosophy/Anthropology, 2006, Oregon State University. At COCC since 2012.

JOHN CHAVEZ**Academic Advisor**

A.A., 2007, Chemeketa Community College; B.A. in Sociology, 2009, Willamette University. At COCC since 2011.

CARRIE COIL**Accountant, COCC Foundation**

B.S. in Accounting, 1980, Oregon State University. At COCC since 2007.

JULIAN DARWIN**Program Director of Culinary**

Hotel and Restaurant Cookery, Theory and Practice, 1968-71, City and Guilds of London Institute. At COCC since 2009.

WADE DEBRAAL**Assistant Network Administrator**

GNU/Linux OS, Cisco Systems IOS, HTML/PHP/Perl/C Language. At COCC since 2006.

MICHELE DESILVA**Emerging Technologies Librarian**

B.A. in Liberal Studies, Humanities, 2007, Oregon State University; M.L.I.S., 2009, University of Washington. At COCC since 2006.

DAVID DONA**Associate Chief Financial Officer**

B.S. in Business, 1980, Southern Oregon University; M.B.A., 1981, Southern Oregon University; C.P.A., State of Oregon, 1989. At COCC since 2007.

SCOTT DONNELL**Web Designer**

B.A. in Business/Marketing, 1988, Oregon State University. At COCC since 2008.

WILLIAM DOUGLASS**Director of Club Sports and Intramural Coordinator**

A.A. in Liberal Arts, 1979, Central Oregon Community College; B.S. in History, 1989, University of Oregon. At COCC 1975-87 and since 1995.

TRACY DULA**Career Services Coordinator**

A.A. in Liberal Arts, 1988, Ocean County College, B.A. in Special Education, 1990, Georgian Court College. At COCC since 2009.

CHRISTOPHER EGERTSON**Research Analyst**

B.S. in Biology and Environmental Science, 1996, Mankato State University; M.S. in Animal Ecology, 2003, Iowa State University. At COCC since 2006.

SETH ELLIOTT**Campus Public Safety Supervisor**

B.S. in Psychology, 2004, Eastern Oregon University; M.B.A. in Management, 2012, Corban University. At COCC since 2012.

SHAWNA ELSBERRY**Director of Student Retention**

B.S. in Psychology, 1992, Eastern Oregon University. At COCC since 2004.

JEFFREY FLOYD**Senior Network Administrator**

Attended Central Washington University. At COCC since 2010.

COURTNEY FORD**Director of Admissions and Registrar**

B.A. in Psychology, 2003, Humboldt State University; M.S. in Educational Counseling, 2007, National University. At COCC since 2012.

EUGENE FRITZ**Director of Culinary Arts, Head Chef**

A.O.S. in Culinary Arts, 1994, Culinary Institute of America; B.A. in Hospitality Business Management, 1997, Washington State University; M.A. in Higher Education Administration, 1998, Washington State University. At COCC since 2011.

JASON FROST**Assistant Director of Admissions and Records, Curriculum & Technology**

B.A. in Organizational Management, 2012, Alaska Pacific University. At COCC since 2011.

CAREN GRAHAM**Continuing Education Marketing and Operations Manager**

B.S. in Society, Health and Aging, 2007, The City University of New York; M.A. in Public Administration, 2012, The City University of New York. At COCC since 2013.

CHRISTA GUNNELL**Human Resources Employment Supervisor**

B.S. in Business Management, 2011, Marylhurst University. At COCC since 2011.

DEBORAH HAGAN**Director of Secondary Programs**

B.A. in Journalism, 1981, University of Oregon; B.A. in English, 1983, Eastern Oregon University; Ed.M. in Adult Education and Distance Learning, 2004, University of Phoenix. At COCC since 1989.

DAVID HAGENBACH**Interpreter**

Interpreter Certification, American Sign Language, State of Hawaii. Attended Ohlone Jr. College, Genesis Bible College and Santa Rosa Junior College. At COCC since 2004.

RICK HAYES**Construction Project Manager**

B.S. in Construction Engineering Management, 1990, Oregon State University. At COCC since 2010.

TYLER HAYES**Financial Aid Advisor**

A.A., North Idaho College, 2004; B.S. in Mathematics, San Diego Christian College, 2006; M.S. in Academic Advising, Kansas State University, 2011. At COCC since 2010.

THURMAN HOLDER**Academic Advisor**

A.A. in Psychology, 1972, Long Beach Community College; B.S. in Psychology, 1975, Northern Arizona University; M.A. in Psychology, 1976, Northern Arizona University. At COCC since 2009.

CYNTHIA JEFFREYS**Systems Integrator**

A.A.S. in Business Administration Management Information Systems, 1992, Central Oregon Community College. At COCC since 1999.

DREW JONES**Admissions Coordinator**

B.A. in Industrial Organization Psychology, 2008, Point Loma Nazarene University; Masters of Education, 2010, Point Loma Nazarene University. At COCC since 2011.

BONNIE JORDAN**Academic Advisor**

B.A. in Communication, 1991, Southern Oregon University. At COCC since 2011.

NANCY E. JUMPER**Program Manager, Continuing Education**

B.S. in Communications, 1982, Southern Oregon State College. At COCC since 1997.

DIANA KALANQUIN**Academic Advisor, Allied Health**

A.A., Central Oregon Community College, 2005; B.S. in Psychology, University of Oregon, 2008. At COCC since 2009.

BARBARA KLETT**Instructional Technology Coordinator**

B.S. in Education, 1981, Oregon State University; M.A. in Education Technology, 1998, San Diego State University. At COCC since 1998.

RACHEL KNOX**Program Manager, Community Learning**

B.A. in English/British Literature, Oakland University, 1989. At COCC since 2003.

SUZANNE KRISTENSEN**Campus Coordinator, Prineville**

B.A. in Psychology, 1993, Pacific University. At COCC since 2011.

GLENDALANTIS**Program Manager, Continuing Education**

B.S. in Home Economics Education, 1987, Oregon State University; M.S. in Family Studies, 1990, Oregon State University. At COCC since 2003.

STEPHANIE MANRIQUEZ**Licensed Massage Therapy Program Coordinator**

A.A.A. in Massage Therapy; B.S. in Liberal Studies, 2012, Eastern Oregon University. At COCC since 2004.

JESSIE MATSUMURA**Applications Analyst/Programmer**

A.A. in General Education, 1978, Monterey Peninsula College; B.S. in Business Administration, 1981, California Polytechnic State University. At COCC since 2005.

DARREN McCREA**IT Bond Technology Project Manager**

B.A. in English, 2005, California State University. At COCC since 2011.

AIMEE METCALF**Assistant Director of College Relations**

B.A. in Political Science, 1993, Pacific University. At COCC since 1999.

CHRISTINA MILLS**Student Module Manager/Analyst**

A.A.S. in Computer and Information Systems, 2002, Central Oregon Community College. At COCC since 2004.

JULIE MOSIER**Purchasing Coordinator**

A.A. in Liberal Arts/Liberal Studies, 2006, Central Oregon Community College. At COCC since 1998.

KEVIN MULTOP**Director of Student Financial Aid**

B.S. in Humanities, 1993, Western Baptist College; M.C.S. in Theology, 2001, Regent College, Vancouver, BC. At COCC since 2001.

SUSAN NEUBAUER**Distance Learning Coordinator, Adult Basic Skills**

B.S. in Biology-Agriculture, 1981, Colorado State University. At COCC since 2011.

BRITTANY NICHOLS**Development Officer**

B.S. in Business Administration, 2008, University of Oregon. At COCC since 2012.

PAUL NISWONGER**Linux Systems/Oracle Database Administrator**

A.A.S. in Computer Information Systems, 1993, Umpqua Community College. At COCC since 2010.

LORI ORTIZ**Payroll Supervisor**

B.S. in Journalism, 1982, California Polytechnic State University; A.S. in Accounting, 1988, Central Oregon Community College. At COCC since 1991.

LEON PANTENBURG**Student Newspaper Advisor**

B.A. in Journalism and Communications, 1976, Iowa State University. At COCC since 2011.

RONALD S. PARADIS**Director of College Relations**

B.S. in Journalism, 1977, University of Oregon; M.B.A., 1990, Plymouth State College. At COCC since 1991.

LESLIE PARISI**Writing Center Coordinator**

B.A. in English, 2002, California State University; M.A. in English, 2007, California State University. At COCC since 2011.

JEFFREY PEDERSON**Systems Administrator**

Attended the University of Washington and Embry-Riddle Aeronautical University. Microsoft Certified Professional, Systems Administrator for Windows 2000 and Messaging-Windows 2000. At COCC since 2001.

BRYNN E. PIERCE**Director of Institutional Effectiveness**

B.S. in Biology, 1995, Oregon State University; M.P.H., 1999, The George Washington University School of Public Health and Health Services. At COCC since 2001.

GORDON PRICE**Director of Student Life**

A.A. in General Studies, 1998, Truckee Meadows Community College; B.A. in Interdisciplinary Studies, 2004, Western Oregon University. At COCC since 2004.

CHRISTOPHER REDGRAVE**Director of Manufacturing Program**

B.S. in Industrial Engineering and Management, 1986, North Dakota State University. At COCC since 2010.

JEFFREY L. RICHARDS**Engineering Systems Coordinator**

A.A. in Theology, 1989, Ambassador College. At COCC since 2000.

REGINA RICKETTS**Native American Program Coordinator**

B.A. in English, 1981, University of Oregon; M.A. in Humanities/Secondary Education, 1991, University of Oregon. At COCC since 2011.

BARRY ROGERS**Senior Web Developer**

AIX System Administrator Certified and IBM TCP/IP Networking Certified.
At COCC since 2012.

KAREN ROTH**Director of Multicultural Activities**

B.S. in Math, 1978, University of Wisconsin; M.A. in Guidance and
Counseling, 1982, University of Wisconsin. At COCC since 2008.

NANNETTE ROY**Senior Business Systems Programmer**

Computer Science courses, 1978, West Valley Junior College. At COCC
since 2011.

LYNN RUSSELL**Program Director of Veterinary Technician Education**

A.A. in Veterinary Technology, 1991, Pierce College. At COCC since
2012.

EVELIA SANDOVAL**Latino Student Program Coordinator**

B.S. in Biology, Washington State University, 2007; M.Ed. in Higher
Education Administration; 2009, University of Kansas. At COCC since
2010.

GERALD A. SCHULZ**Director of Continuing Education**

A.A. in Liberal Arts, 1975, El Camino Community College; B.S. in
Chemistry, 1978, University of California. At COCC since 2010.

EDWARD SEA**Assistant Director/MIS Manager**

B.S. in Industrial Technology, 1985, Bemidji State University; B.S. in
Computer Science, 2000, Oregon State University. At COCC since 2010.

WILLIAM P. SIMPKINS**Database Administrator**

B.A. in Social Science, 1971, Biola College; M.A. in Linguistics, 1975,
California State College at Fullerton. At COCC since 1983.

KELLIE L. SMITH**Tutoring and Testing Center Director**

B.S. in Political Science, 1984, Oregon State University; M.A. in History,
1989, Northern Arizona University. At COCC since 1997.

COURTNEY SNEAD**Campus Coordinator, Madras**

B.S. in Political Science, 2003, Arizona University; Certificate of Public
Management, 2006, Northern Arizona University; Masters of Public
Administration, 2006, Northern Arizona University. At COCC since 2011.

SALLY SORENSON**Director of Human Resources**

B.A. in Management and Human Relations, 1997, Trevecca Nazarene
University. At COCC since 2013.

NICK SPHATT**Director of Emergency Medical Services and Structural Fire**

Technical Diploma, EMT-P, 1999, Wisconsin Technical College; B.S. In
Public Administration/Fire Management, 2003, Mount Senario College.
At COCC since 2011.

PAUL STENNETT**Program Manager, Community Learning**

B.A. in Psychology, 1980, Campbell University; M.Div, 1984,
Southeastern Seminary. At COCC since 2006.

Emergency Medical Services				96			Speech Communication						152
Engineering					98	98	Veterinary – Pre						148
							Veterinary Technician				155		

FORESTRY

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

Forests make invaluable contributions providing wood products, water quality, urban resources and planning, recreation and carbon storage. The management of the vast acreage of forest is the challenge of the forestry profession. The ever increasing demands for forest products, new forms of recreation, maintaining clean water and the influence of urbanization are all factors that are involved in the Forestry industry. Jobs in the Forestry industry offer many opportunities for employment locally and nationally. Typical entry level positions might include forest management activities such as evaluation of reforestation efforts, timber sale layout, tree measurements, forest damage assessment and numerous other activities that are required when managing a forest. COCC's forestry program has the advantage of being located among several national forests.

Below is an Associate of Arts Oregon Transfer degree adapted to transfer requirements for a four-year degree in forestry or forest management. Students planning on transferring to Oregon State University in Corvallis, or any other university forestry program, to acquire a Bachelor of Science degree must meet with a COCC Forestry Program advisor to discuss current transfer requirements. Students should check with each school to ensure that the latest transfer information is used when designing their program. Many of the required undergraduate courses for the BS degree can be taken at COCC.

The Associate of Arts Oregon Transfer (AAOT) degree meets the State of Oregon transfer degree requirements allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. However, caution is needed in using the AAOT to transfer to a professional program, such as forestry, because the AAOT requires 12 lower division credits in the social sciences or arts and letters that are not required for a BS degree in a professional major such as forestry at Oregon State University. All courses must be completed with a grade of "C" or better.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

Writing

WR 121	English Composition	4
WR 227	Technical Writing	4

Oral Communication

SP 111	Fundamentals of Public Speaking	3
--------	---------------------------------	---

Mathematics

MTH 111	College Algebra	4
---------	-----------------	---

Health

HHP 295	Health and Fitness	3
---------	--------------------	---

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 of the college catalog for course listings. One of the courses must be a cultural literacy course, designated with an asterisk.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

EC 201	Microeconomics	4
--------	----------------	---

And at least three (3) additional courses from at least two (2) prefixes.

Science/Math/Computer Science

BI 211	Principles of Biology I	5
BI 212	Biology of Plants II	5
CH 221	General Chemistry I	5
MTH 241	Calculus for Management/Social Science	4

Electives

MTH 243	Introduction to Probability and Statistics I	4
MTH 244	Introduction to Probability and Statistics II	4
GEOG 265	Geographic Information Systems	4
FOR 111	Forestry Perspectives	4
FOR 208	Soils: Sustainable Ecosystems	4
FOR 230A	Map, compass, and GPS	3
FOR 230B	Forest Surveying	3
FOR 240A	Forest Ecology	3
FOR 240B	Wildlife Ecology	3
FOR 241A	Field Dendrology	3
FOR 241B	Dendrology	3
FOR 220A	Aerial Photo	3
FOR 220B	Resource Measurement	3

Choose any college-level course numbered 100 or higher that brings the total credits to 90 quarter hours.

PRE-DENTAL HYGIENE

Associate of Arts Oregon Transfer (AAOT) Degree
90 credits

Below is an Associate of Arts Oregon Transfer degree adapted towards common dental hygiene requirements. While COCC does not offer a Dental Hygiene program, many students begin their courses here with the intent of transferring to another college for their actual degree. Dental Hygiene programs typically have selective admission determined by the institution. A criminal history may affect employment opportunities. Students should contact their intended transfer school to determine exact requirements.

The Associate of Arts Oregon Transfer (AAOT) degree meets the State of Oregon transfer degree requirements allowing students to transfer to an Oregon public university and some out-of-state universities having met all lower-division general education requirements. With appropriate course planning, all lower-division major requirements may also be met. All courses must be completed with a grade of "C" or better.

GENERAL EDUCATION/FOUNDATIONAL REQUIREMENTS

Writing

WR 121	English Composition	4
WR 122	English Composition	4

Oral Communication

SP 111	Fundamentals of Public Speaking	3
--------	---------------------------------	---

Mathematics

MTH 111	College Algebra	4
---------	-----------------	---

Health (3 credits with HHP prefix.) 3

HHP activity courses (1 credit each) are not to be duplicated.

GENERAL EDUCATION/DISCIPLINE STUDIES

(See pages 44 and 45 of the college catalog for course listings. One of the courses must be a cultural literacy course, designated with an asterisk; SOC 201 in the following list meets that requirement.)

Arts and Letters

At least three (3) courses from at least two (2) prefixes.

Social Science

SOC 201	Introduction to Sociology	4
---------	---------------------------	---

At least three (3) additional courses from at least two (2) prefixes.

Science/Math/Computer Science

BI 231	Human Anatomy and Physiology I	4
BI 232	Human Anatomy and Physiology II	4
BI 233	Human Anatomy and Physiology III	4
FN 225	Human Nutrition	4

Electives

BI 234	Microbiology	4
CHEM 104	Introduction to Chemistry I	4
CHEM 105	Introduction to Chemistry II	4
CHEM 106	Introduction to Chemistry III	4
AH 111	Medical Terminology I	3

Choose any college-level course numbered 100 or higher that brings the total credits to 90 quarter hours. This may include up to 9 credits of Career and Technical Education courses (in addition to AH 111) designated by COCC as acceptable.

ADVISING NOTES

For a list of accredited Dental Hygiene programs, contact the American Dental Association (www.ada.org/357.aspx).

If transferring to Oregon Tech (OIT): Oregon Tech requires DHE 100 Introduction to Dental Hygiene (2), offered online. See OIT's catalog and web site for details.

If transferring to Lane Community College: PSY 201 or 202 and WR 227 are recommended. Lane gives additional application points for Spanish language proficiency (completion of SPAN 102 or CLEP test score of 50 or higher). See LCC's catalog and web site for details.

If transferring to Mt. Hood Community College: a psychology elective is recommended. See MHCC's catalog and web site for details.

If transferring to Portland Community College: a psychology elective is recommended. See PCC's catalog and web site for details.
