Recommended preparation

or to be taken with AUT 101, AUT 107, AUT 110, AUT 115, and MTH 060 or higher or minimum placement Math Level 10.

Course Description

Introduction to the Automotive program. Provides an introduction of the fundamental principles of automotive shop safety and tool care. Guidance given on the self-paced course format. This course is required prior to taking any automotive course. This is a three-day, intensive course that is only taught at the beginning of each term. Permissible to be taken in a term along with other automotive courses. P/NP grading.

Course learning outcomes

1. Develop a plan for completing a certificate, or degree, in the Automotive Technology Program.
2. Describe the fundamental principles of automotive shop safety and tool care.
3. Design a plan that can accomplish the self-paced basic skills classes within the term.
