CIS 135A1.

Course Description

Continues with AutoDESK Revit, covering construction drawing sets, commercial planning, residential remodeling, drawing details and drawing production. Term culminates with targeted project covering aspects studied in Revit.

Course learning outcomes

1. Develop plan and elevation drawings and details from three-dimensional architectural models.
2. Use architectural drafting techniques to design, assemble, and evaluate architectural building components.
3. Demonstrate proficiency in construction drawing set preparation.
4. Develop constructive team working skills through organized and directed projects.
