Course Description

Basic swim instruction for individuals with limited to no swim experience. Learn basic swim skills (floating, breathing techniques, and flutter kicking), swimming theory concepts and strokes (front and back crawl and breaststroke) at your own pace.

Course learning outcomes

1. Explain the relationship between human behavior and health.
2. Engage regularly in skills development, safety practices, and fundamentals of beginning swimming to develop overall physical fitness and enhance sport activities.
3. Demonstrate the fundamentals of swimming effectively with proper body position and propulsion.
4. Maintain swimming as a lifelong skill.

Content outline

Dry land preparation and swimming assessment Floating, front and back Front crawl stroke Basic front crawl stroke Introduction to back crawl stroke Introduction to turns, front and back Swimming for fitness and swimming longer distance practices Introduction to breaststroke and breaststroke swimming Introduction to butterfly Swim one mile continuously
