Course Description

Allows first-year nursing students to pursue a special content area in nursing. Special study arrangements must be made through the designated Nursing Department Special Studies Coordinator.

Course learning outcomes

As Provider of Care:

1. Observe the nursing process as it is applied in alternative clinical settings.

As Manager of Care:

2. Determine steps to managing care in this setting.

As Communicator:

3. Communicate therapeutically with individual patients and families.

As Teacher:

4. Reinforce teaching to assigned patients from established standards.

As Member within the Discipline of Nursing:

5. Identify ethical and legal principles for nursing practice.
