WR 121 + Seminar

Fall 2022 Co-Requisite Sections of WR 121

What is WR 121 + Seminar?

WR 121 + Seminar is a unique opportunity to take WR 121 and a seminar companion course back to back. Students who qualify may register for one of the WR 121 classes AND the companion course (WR 98: Seminar) that breaks down WR 121 assignments in a supportive learning environment. Students must pass both classes (WR 121 and WR 98) to pass WR 121.

Why is this a valuable opportunity? Students who would normally take WR 65 before taking WR 121 or who would re-take WR 65 or who miss placing into WR 121 by a few points in the placement test's writing component would have the opportunity to start immediately in the WR 121 along with WR 98, thus saving time and money.

How does it work? Interested students must complete the online Directed Self Placement questionnaire by sending an email to writingplacement@cocc.edu and respond to a faculty member's questions (and, if the faculty member deems it necessary, participate in a telephone or in-person interview). Students who are accepted into the program (WR 121 + Seminar) will then be able to register for both WR121 (4 credits) and WR98 (Seminar: 2 credits). Students must select one of the WR 121 and WR 98 pairs, listed below.
